Unfortunately, the Centers for Medicare & Medicaid Services, a component of the Department of Health and Human Services, often creates rules and regulations that make no sense in the places that the Presiding Officer and I come from. So I am supporting a couple of things in particular that are included in this bill. We had a regulation that came from CMS—the Centers for Medicare & Medicaid Services—generally called physician supervision. Its enforcement is delayed 1 year in the Cures Act. I am the sponsor of legislation to rid us of that regulation permanently, but it is a benefit for us to have it out of the system for another year as we work to find that permanent solution. But the idea that there must be a physician present in certain circumstances—it is difficult for us to have a physician on site in a room with a patient in every circumstance, and our mid-levels and others are important to us in rural communities in particular. That delay is something we have worked hard on, and I am pleased to see that we were successful in getting it included in this legislation.

Many of those hospitals that I mentioned in Kansas—127 hospitals in our State, 80-plus—90 or so—are what are called critical access hospitals, which is a special designation that allows them a so-called cost-based reimbursement. When I was in the House of Representatives, I authored legislation that created an opportunity to expand the critical access hospital designation to hospitals that are slightly larger and that wouldn't otherwise meet the criteria, which is 25 beds or less. There is a demonstration project, a pilot program that has been operating in the country for the last 5 years, trying to determine what cost-based reimbursement would mean for hospitals that are slightly larger than 25 beds. That demonstration project is expiring. Fortunately, language in the Cures Act extends that community health demonstration project—something, again, we have worked hard to make certain happens. I am pleased that the lead sponsors of this legislation were amenable to our request to include these provisions.

I would conclude by saying the United States has a responsibility to continue our leadership in providing medical breakthroughs that will help change the world, and certainly change people's lives, to develop those cures

and treat diseases, and we must commit ourselves to significant support for research that is supported in legislation just like the 21st Century Cures Act. This legislation has the capacity to benefit millions of Americans suffering from chronic diseases. It can help our grandparents, our children, our lifelong best friends, and we can avoid the tragedy that comes with a diagnosis that often ends in death. People's lives depend upon the decisions we make, and this is a decision we can make that will benefit many Americans and their families.

Our researchers must be able to rely on consistent, sustainable funding support from Congress; otherwise we will lose the best and brightest, and we will lose men and women who think maybe they want to be a researcher and find a cure for a disease, but because of their uncertainty as to whether or not their research might get funded or whether the funding is going to be there next year—they get it, but they are uncertain as to whether it will continue. We don't want to lose those bright minds and noble colleagues, people across our country who might enter into the profession of medical research to help find ways to meet the needs of Americans and their health care.

NIH-supported research has raised life expectancy, improved the quality of life, and lowered overall health care costs. This legislation strengthens that circumstance and allows us to better remain globally competitive in the arena of medical research. The 21st Century Cures Act is a powerful statement by Congress, but, more important than being a statement, it is something that will actually make a difference in the future of the people that we care about.

I commend the efforts by many Senators and Members of the House to make certain that this legislation arrives here in the Senate before there is a recess for the holidays. It will be a strong statement, but, more importantly, we expect significant results and the improvement of people's lives across the Nation and around the globe.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. SCOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CASIDY). Without objection, it is so ordered.

#### ANTI-SEMITISM AWARENESS ACT OF 2016

Mr. SCOTT. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 10, introduced earlier today.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 10) to provide for the consideration of a definition of anti-Semitism for the enforcement of Federal antidiscrimination laws concerning education programs or activities.

There being no objection, the Senate proceeded to consider the bill.

Mr. CASEY. Mr. President, I rise today, along with my colleague from South Carolina, to talk about a bill we have introduced entitled the "Anti-Semitism Awareness Act of 2016."

Let me say first that I wish we were living in a time where we would not have to introduce legislation like this, but unfortunately what we have seen over a long period of time—and I think a problem that is getting worse—is the rising tide of anti-Semitism in substantial sectors of our society. We have, in fact, a rise in the incidence of religious discrimination and religiously motivated hate crimes. To say that is unacceptable, even un-American, is an understatement.

We have to take action at long last to do what we can in the U.S. Senate, and I hope in the House as well, to not just speak out against anti-Semitism but to take action which will lead to a better strategy to deal with it. What do I mean by that? Well, it is simple. It is about definitions, and it is about making sure that Federal agencies, such as the Department of Education, do their job when it comes to combating anti-Semitism. We know that one piece of legislation is not somehow going to magically eradicate anti-Semitism. We don't have that naive hope. But what we do believe is that if we don't take action, this problem is only going to get worse.

Some of the problem, frankly, is on our college campuses, and I know that is true, unfortunately and regrettably, in my home State of Pennsylvania. We don't have time to list every incident, every action, every terrible example of this, but I will just provide one for the record.

In September, students at Swarthmore College in Pennsylvania—one of our great institutions of higher education not only in Pennsylvania but across the country—Swarthmore is a great school, but here is what they found. They found swastikas spray-painted in a bathroom in the library. The college leadership did the right thing in swiftly condemning these actions and removing the graffiti, and I am glad they did that.

I can only try to imagine—and I can literally only try to understand because I have never been the victim of this kind of hate—the horror that was experienced by those students and their families. A person comes to a college or a university as a place where they are going to learn and grow and live in a community, and then there

are people—for whatever reason, and I will never understand the reason anyone would do that—painting those images and using language and taking other actions that discriminate against people because of who they are. We have to be not just concerned about this, as I said, but we have to figure out a way to take action.

This particular piece of legislation is aimed at a terrible manifestation of this problem. When anti-Semitic views lead to discrimination against students of Jewish faith or Jewish ancestry, that is the result, and they are the victims of this. The intent here is simple and narrowly circumscribed to make sure we are getting at the problem as best we can to define anti-Semitism at long last—this hasn't been done before—to define anti-Semitism so that the Department of Education can effectively investigate allegations of discrimination motivated by anti-Semitism under the Civil Rights Act. The bill does not infringe on the First Amendment. It does not infringe on those rights of free speech. It is intended to help protect students from discrimination on the basis of their faith.

We all agree that religious discrimination has no place on campuses, has no place in our society, and we have to do more than just speak out against it. That is fundamental, but we can do more than just speak out; we can define it and thereby give in this case one Federal Government agency one tool it needs to deal with this issue. This is a bill which is timely not only because of what is happening on college campuses but unfortunately what has happened in too many parts of our society. We want to make sure the Department of Education has at least one of those tools to deal with this problem.

Because of the nature of this problem, we have people on both sides of the aisle here who are very concerned about it. I am particularly grateful that I am joined by my colleague from South Carolina, Senator SCOTT, who is joining with me. We are a Democrat and a Republican from different parts of the country and a different point of view on a lot of issues. On this issue we are unified, and we have a solidarity about not just the problem, but there is a solidarity and a consensus about one of the things we can do to take action on this issue.

I am grateful to be joined by my colleague from South Carolina.

I yield the floor to him.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. SCOTT. Mr. President, I thank Senator CASEY for joining me on the floor.

There is no question that much of our country yearns for a day when Republicans and Democrats come together on issues that impact who we are as a nation. I am thankful that

Senator CASEY has joined me in this objective of making sure hate is pushed out of this Nation every single day.

Today I come to speak about an alarming issue—the issue of hate. It truly tears at the very fabric of our great Nation and should inspire all of us to stand up and be counted on the side of justice, on the side of common sense, and on the side of making sure this great American family remains one Nation.

Over the past several years, there has been a sharp rise in religiously motivated hate crimes, particularly on our college and university campuses all over America. According to the FBI, close to 60 percent of these crimes were due to anti-Jewish sentiments. From 2014 to 2015, we saw the number of reported incidents double. Let me say that one more time. In a year, we saw a doubling of the incidence of religious discrimination on college campuses, and the vast majority of those issues and situations focused on the Jewish community. There were 90 anti-Jewish incidents reported at 60 schools last year, compared with 47 incidents on 43 campuses just the year before. These numbers are staggering.

Senator CASEY noted that there have been college campuses and buildings on college campuses where we have seen swastikas. We have heard protests that call for Zionists to leave the school, and we have heard references being made to burning in Auschwitz. I am stunned and saddened by the careless and hateful reminders of such an incredibly dark and daunting time in our world's history, but I also feel empowered and committed to taking a stand against hate. No one, not a single person should ever have to experience being singled out because of who they are or attacked based on the religion they choose to follow. There is simply no place in our country for this kind of intolerance, especially not in our country, the greatest country on Earth.

As citizens of this great Nation, it falls on us to stand up and do more to protect our students from being targeted by any form of hate and bigotry. It is important that we work together to stamp out anti-Semitism and other forms of religious discrimination. Our students should be able to go to school, to grow, to learn, and to develop without having to worry about being discriminated against. Although the Department of Education's Office of Civil Rights has stated that they will not tolerate incidents such as these, there exists a lack of firm guidance on what constitutes anti-Semitic acts. That is why Senator CASEY and I stand before you today to introduce the bipartisan Anti-Semitism Awareness Act. We have come together to ensure that the U.S. Department of Education has the necessary tools at their disposal to investigate anti-Jewish discrimination.

Our proposed legislation uses the very definition of anti-Semitism adopt-

ed by the U.S. State Department's Special Envoy to monitor and combat anti-Semitism. This important clarification will provide necessary direction to assist officials and administrators to understand when anti-Semitic activities are occurring. By clarifying exactly what anti-Semitism is, we will leave no question as to what constitutes an illegal anti-Semitic incident.

As we seek to tackle this concerning issue, it is important to note that this act will in no way infringe on any individual right protected under the First Amendment of the Constitution. I think we have to emphasize that. Our legislation in no way, shape, or form infringes upon any individual rights protected under the First Amendment of the Constitution. It simply and specifically provides clarity on the definition that the Department of Education can and will use for defining anti-Semitic acts.

We must act now. This increase in religiously motivated hate crimes must be addressed. It must be addressed by the entire American family, and it ought to start here. We will come together because we will not allow others to tear us apart. We must hold to the ideals that our Nation was founded on and promote freedom of religion. We must protect that freedom and encourage it. We must—as a Nation, as an American family—call out hate wherever and whenever we see it.

I thank Senator CASEY for his involvement and leadership on such an important issue.

I yield the floor.

Mr. PORTMAN. Mr. President, I would like to thank Senators SCOTT and CASEY for their work on the anti-discrimination legislation, particularly as it relates to anti-Semitism. I support them in that effort and look forward to getting something done in Congress to help address the definition of anti-Semitism for the Department of Education.

Mr. SCOTT. Mr. President, I ask unanimous consent that the bill be read a third time and passed and the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 10) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 10

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Anti-Semitism Awareness Act of 2016”.

#### SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Title VI of the Civil Rights Act of 1964 (referred to in the section as “title VI”) is one of the principal antidiscrimination statutes enforced by the Department of Education's Office for Civil Rights.

(2) Title VI prohibits discrimination on the basis of race, color, or national origin.

(3) Both the Department of Justice and the Department of Education have properly concluded that title VI prohibits discrimination against Jews, Muslims, Sikhs, and members of other religious groups when the discrimination is based on the group's actual or perceived shared ancestry or ethnic characteristics or when the discrimination is based on actual or perceived citizenship or residence in a country whose residents share a dominant religion or a distinct religious identity.

(4) A September 8, 2010 letter from Assistant Attorney General Thomas E. Perez to Assistant Secretary for Civil Rights Russlynn H. Ali stated that "[a]lthough Title VI does not prohibit discrimination on the basis of religion, discrimination against Jews, Muslims, Sikhs, and members of other groups violates Title VI when that discrimination is based on the group's actual or perceived shared ancestry or ethnic characteristics".

(5) To assist State and local educational agencies and schools in their efforts to comply with Federal law, the Department of Education periodically issues Dear Colleague letters. On a number of occasions, these letters set forth the Department of Education's interpretation of the statutory and regulatory obligations of schools under title VI.

(6) On September 13, 2004, the Department of Education issued a Dear Colleague letter regarding the obligations of schools (including colleges) under title VI to address incidents involving religious discrimination. The 2004 letter specifically notes that "since the attacks of September 11, 2001, OCR has received complaints of race or national origin harassment commingled with aspects of religious discrimination against Arab Muslim, Sikh, and Jewish students."

(7) An October 26, 2010 Dear Colleague letter issued by the Department of Education stated, "While Title VI does not cover discrimination based solely on religion, groups that face discrimination on the basis of actual or perceived shared ancestry or ethnic characteristics may not be denied protection under Title VI on the ground that they also share a common faith. These principles apply not just to Jewish students, but also to students from any discrete religious group that shares, or is perceived to share, ancestry or ethnic characteristics (e.g., Muslims or Sikhs)."

(8) Anti-Semitism remains a persistent, disturbing problem in elementary and secondary schools and on college campuses.

(9) Jewish students are being threatened, harassed, or intimidated in their schools (including on their campuses) on the basis of their shared ancestry or ethnic characteristics including through harassing conduct that creates a hostile environment so severe, pervasive, or persistent so as to interfere with or limit some students' ability to participate in or benefit from the services, activities, or opportunities offered by schools.

(10) The 2010 Dear Colleague letter cautioned schools that they "must take prompt and effective steps reasonably calculated to end the harassment, eliminate any hostile environment, and its effects, and prevent the harassment from recurring," but did not provide guidance on current manifestation of anti-Semitism, including discriminatory anti-Semitic conduct that is couched as anti-Israel or anti-Zionist.

(11) The definition and examples referred to in paragraphs (1) and (2) of section 3 have been valuable tools to help identify contemporary manifestations of anti-Semitism, and

include useful examples of discriminatory anti-Israel conduct that crosses the line into anti-Semitism.

(12) Awareness of this definition of anti-Semitism will increase understanding of the parameters of contemporary anti-Jewish conduct and will assist the Department of Education in determining whether an investigation of anti-Semitism under title VI is warranted.

### SEC. 3. DEFINITIONS.

For purposes of this Act, the term "definition of anti-Semitism"—

(1) includes the definition of anti-Semitism set forth by the Special Envoy to Monitor and Combat Anti-Semitism of the Department of State in the Fact Sheet issued on June 8, 2010, as adapted from the Working Definition of Anti-Semitism of the European Monitoring Center on Racism and Xenophobia (now known as the European Union Agency for Fundamental Rights); and

(2) includes the examples set forth under the headings "Contemporary Examples of Anti-Semitism" and "What is Anti-Semitism Relative to Israel?" of the Fact Sheet.

### SEC. 4. RULE OF CONSTRUCTION FOR TITLE VI OF THE CIVIL RIGHTS ACT OF 1964.

In reviewing, investigating, or deciding whether there has been a violation of title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) on the basis of race, color, or national origin, based on an individual's actual or perceived shared Jewish ancestry or Jewish ethnic characteristics, the Department of Education shall take into consideration the definition of anti-Semitism as part of the Department's assessment of whether the alleged practice was motivated by anti-Semitic intent.

### SEC. 5. CONSTITUTIONAL PROTECTIONS.

Nothing in this Act, or an amendment made by this Act, shall be construed to diminish or infringe upon any right protected under the First Amendment to the Constitution of the United States.

Mr. SCOTT. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. TESTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

### TSUNAMI WARNING, EDUCATION, AND RESEARCH ACT OF 2015—Continued

#### TRIBUTE TO TRECIA BICKFORD MCEVOY

Mr. TESTER. Mr. President, I rise today, not a minute too late, not a minute too early but at the exact time I am scheduled to speak. That is because of a remarkable woman, my scheduler Trecia Bickford McEvoy. Trecia has dedicated 25 years of her life to serving her country and the United States Senate. She has worked for a Republican, she has worked for an Independent, and she has worked for a Democrat, a true bipartisan public servant we can all learn a thing or two from.

As a farmer, the schedule is rigorous but simple: You plant, you harvest, and

then everything else in between, but when I got to the Senate, I found Washington, DC, is not as cut and dry as the farm. Luckily for me, after Trecia served Vermont Senator Jim Jeffords' office for over 15 years, she came to my office to help me and my staff find the bathrooms.

Since 2008, I have been lucky enough to have her in my office, and the State of Montana is better off for it. Thanks to her remarkable work, I have been able to see thousands of Montanans, in between thousands of committee hearings and briefings and runs to the airport, all because of an airtight schedule curated by Trecia.

At an all-staff meeting, one of my staffers was asked to draw a picture of what she believes Trecia does every day. With her trademark humility, Trecia said: "Well, that would be kind of boring," but what landed on that paper was a set of hands, a generous set of hands, that ensures that all Montanans can engage with the important policy decisions that shape our lives every day.

Trecia acts as the hands that carry Montanans from all across the State to see their Senator. It is not boring at all. In fact, it is really important. If scheduling was an art, my schedules would be enshrined not just on my Web site but also down the street at the National Gallery. Trecia would know exactly how many minutes it takes every day to drive from the Hill to the museum.

As my colleagues know, a good scheduler is hard to find and even harder to keep. Trecia has shown a staying quality that puts her in the Scheduler Hall of Fame, a hall that would be erected along the road from the Capitol to National Airport. Whether it is a call from my farm at 3 a.m. to tell her I am going to miss my flight because my truck can't make it through the snow or a text from the plane in Minneapolis asking which gate I need to get to for a tight connection, Trecia has always been ready and willing to answer the call.

After 25 years on the Hill, I know I am not the only one who can attest to Trecia's talents as a scheduler, as a friend, and as a person. She is a critical part of my office, not only because she keeps me on schedule, but she is also a relentless mentor to my younger staffers, always sharing in their joys and consoling them in their tougher times.

I will never forget that the first time I met Trecia is when I interviewed her for the job as my scheduler. A few months earlier, my wife and I had just been on an airplane from Seattle to Washington National Airport. My wife sat in the middle seat in row 12, and I sat in the middle seat in row 27.

I said to Trecia: What is going to happen when you schedule me on a cross-country flight in a middle seat in the back of the plane and my wife in a middle seat in the front of the plane?

She looked at me and said: That ain't ever going to happen.

And it never has.

Her smarts, her generosity, and her quick wit not only make my life easier but also make the lives of other Senators' staffs and, most importantly, Montanans' easier. As one of my former chiefs of staff pointed out, whether it is a veteran from Columbia Falls, a high school student from Billings, or a mom from Havre, Trecia has played a vital role in improving the lives of everyday Montanans. They may not know who made that moment happen, but I do.

To me and to many others on the Hill and in the office, Trecia is more than just a scheduler. When I asked for the quintessential Trecia McEvoy story, one of her former bosses told a story—not about Trecia getting a meeting scheduled or pulling off an air traffic miracle, but they told a story about Trecia the coworker and friend. According to one of her former chiefs of staff, Trecia would give a secret heads-up to young, junior staff members any time their boss was coming by so that their pencils were sharpened and everything was on the up and up, even late on a Friday afternoon long after the Senator had flown home. This type of kindness, humor, and leadership shines through with Trecia's work every day.

Whether it is a bright-eyed intern from Helena looking for a place to live for the summer, the ambitious staff assistant looking for professional guidance, or the know-it-all executive assistant who thinks he knows best, Trecia has been there to give advice, to listen, and to keep all of us grounded in a town where often the only thing bigger than the monuments are the egos.

Despite a reputation as a miracle worker, her greatest accomplishment has been balancing the hectic profession of a scheduler with her critically important duties as a parent. When I call on Thursday night because a flight is delayed, it is not uncommon for me to hear in the background the cheer of a crowd from Ian's hockey game or a hushed whisper from an audience at one of Zachary's plays. Despite the long hours, frantic phone calls, and countless emails, Trecia's No. 1 priority has always been crystal clear: her family. Over the past 25 years, Trecia and her husband Jeff have made sure that their kids—Alexis, Zachary, and Ian—have everything they need to be able to succeed.

In the office and in life, Trecia is more than a scheduler. What has made Trecia a great scheduler over the years are the same qualities that have made her a great friend, counselor, and mother. Trecia's generosity, sympathetic ear, sharp wit, and understanding nature have made her a phenomenal scheduler, a great friend, and, most importantly, an ideal mother.

On behalf of Montana, Vermont, countless staff members, and from this

dirt farmer from Big Sandy, I thank Trecia for 25 years of service.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FRANKEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### OVERTIME RULE

Mr. FRANKEN. Mr. President, as we enter the holiday season, today should be a special day for 4.2 million working Americans, including 75,000 Minnesotans. That is because today was supposed to be the day that the overtime rule would go into effect to ensure that workers are paid overtime wages when they work more than 40 hours in a week. Instead, the rule has been blocked, meaning that many of these working people will not be able to benefit from this rule, which is especially unfortunate given that the holidays are coming upon us. Right now, these 4.2 million employees don't have to be paid at all for overtime work they perform. That is what we are trying to change.

As you know, we had a big election in which working people sent the clear message they are hurting. Yet less than a month later, Republicans have decided to attack a rule that would ensure that American workers are paid for every hour they work. This is exactly the type of policy we should all be able to agree on to help working people across the country.

During the campaign, President-Elect Trump repeatedly said he was for working people. One important action he could take immediately would be to go on his twitter account and express support for the overtime rule.

Here is why this rule matters so much. As our economy has changed in the past couple of decades, the rule on overtime pay has not kept pace at all. The last meaningful improvement for workers covered by this rule came in 1975, when the rule made 62 percent of so-called administrative and professional employees eligible for overtime pay. As a result of failing to keep the rule up-to-date and current with the rate of inflation, right now only 7 percent of employees in that category must be paid overtime.

The Obama administration's update to the overtime rule was intended to change the fact that under the standard right now, employers aren't required to pay overtime to these employees unless the employees earn less than \$23,000 a year. If you are paid on a salary basis and earn more than \$23,000 a year, your employer can make you work more than 40 hours a week and not pay you anything at all for your extra hours. Twenty-three thou-

sand dollars is simply too low of a threshold. A salary of \$23,000 a year is below the poverty line for a family of four. I believe workers and their families deserve better.

That is why the Obama administration instituted an update to the overtime rule, to lift the salary threshold to \$47,000 a year, bringing it closer to the original standard in place in 1975. It still wouldn't be as high as the comparable level in 1975, but it would be a vast improvement, and it would mean that 4.2 million more workers across the United States would qualify for overtime pay.

Consider a retail manager making a salary of \$40,000 a year at a big box store or fast-food chain. Right now, many employers are legally allowed to require such an employee to work 50, 60 or more hours in a week without paying him or her anything extra. This new rule would mean the employee would be paid extra when they work more than 40 hours a week.

Similarly, the rule would make sure a trucking dispatcher earning \$45,000 a year would not be forced to work late at night without compensation. The rule encourages his or her employer to send employees home to his or her family on time or else the employer will pay them for the overtime he or she works.

This is very important for working men and women in America. That is why many of my colleagues and I have been strong supporters of this rule. That is why it has been very disappointing to see so many of my Republican colleagues attack and ultimately try to dismantle this rule.

They have been attacking the rule ever since it was proposed. They have set out on a campaign to delay, to water down, or to block the rule entirely. In the Senate, 45 Republicans have signed on to a bill to block it. In the House, 202 Members have signed on to a companion measure to that bill. House Speaker PAUL RYAN claims the rule is an "absolute disaster," and Senator VITTER claims the rule will "reduce worker's opportunity for long-term advancement and increased pay."

Despite their attacks on this updated rule in the House and in the Senate, Republicans weren't able to block it through the legislative process. So they took their fight to the courts, where they used their old tactic of forum shopping, where they file a suit in the court they think is most likely to be favorable for their arguments. As a result, 9 days ago, they convinced a Texas judge to put the updated overtime rule on hold. The 4.2 million workers who today were scheduled to be paid for every hour they work above the 40 could continue to be forced to work overtime without the additional compensation they deserve.

As our economy has continued to recover from the Great Recession, too

much of the wealth in the last few years has accrued to the top 1 percent in this country and often the top one-tenth of 1 percent. While new data suggests the economy has improved a bit for middle-class workers since last year, the median household income in the United States remains lower than it was in the year 2000 in real dollars. Updating our overtime pay rule is one of the most effective steps we can take to put working people back on a more level economic playing field.

I hope my colleagues will join me today in pledging to fight in Congress, the executive branch, and the courts for a fairer system for all workers and for updating this incredibly outdated overtime rule. Let's hope that the postponement of the new rule today will be temporary. Let's join forces on behalf of American workers to stand strong in support of a fair overtime rule and to work together to build a stronger American middle class.

I thank the Presiding Officer.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. MERKLEY. Mr. President, I appreciate the comments made by my colleague from Minnesota. He has been a strong champion for America's workers and believes we should make this Nation and our economy work for working Americans. His leadership on this overtime rule is certainly much appreciated.

Today should be a day of celebration. It should be a day in which 4 million American workers who work overtime without getting paid but earn very modest salaries were going to get rewarded for their overtime work—get paid for their overtime work—but instead those 4 million Americans are getting scrooged.

You all remember the story of Ebenezer Scrooge. He made a lot of money as a very successful businessman. He enjoyed counting his coins while treating his workers in a terrible fashion and paying them as little as he could get away with. That is exactly what is at stake with this overtime rule. The vision of the overtime rule was that when you had a very well-paid manager who was clearly earning far more than they would if they were earning a more modest amount plus overtime, you could reduce the complexity of tracking their overtime hours and instead simply pay them a salary without compensation for overtime. The key to that was that it was a very well-paid worker or manager and not someone earning near the bottom of the scale and barely making more than minimum wage.

As I said, today should be a day of celebration with the overtime rule being modified so that it would catch up with inflation. Many decades have passed since it was put forward. It was supposed to be adjusted for inflation from here forward, but it was not adjusted.

This is not a day of celebration; it is a day in which approximately 4 million Americans are getting scrooged, and that also means 40,000 Oregonians who were looking forward to finally getting compensated for the overtime they will be working during this coming holiday season will also be told: No go. No paycheck. No compensation for your overtime.

These folks earn as little as \$23,000 a year. Going into the holidays, a lot of retail workers are asked to work far more than 40 hours a week. They are asked to work 50, 60, 70, 80 hours a week without a dime of overtime, and that is wrong.

A whole lot of these workers are parents raising children. It is pretty hard to raise a child on \$23,000 a year. I don't think anyone in this Chamber—any one of the Senators here in this Chamber—has raised a child on \$23,000 a year. If they had attempted to do so, they would have an understanding of why they should be up here right now joining this fight for the overtime rule—which is hopelessly outdated and hopelessly unfair to America's workers—to be implemented in a timely fashion with legislation that we could pass today. Instead, Senators with their far larger salaries are very happily preparing for their holiday without considering that today is a day in which 4 million American workers are getting treated unfairly.

Since 1975, the salary of full-time workers who qualify for overtime has plummeted from 62 percent to 7 percent. That is a pretty dramatic reduction. For over a year now, millions of American workers have been looking forward to today when their long hours of overtime were finally going to be compensated, and it is only fair that they have that compensation. But just like Ebenezer Scrooge, the Republican Party, in coordination with 21 States, has said to those 4 million American workers: Bah humbug. You don't get compensated for your overtime. We are putting a lump of coal in your stocking, and it is too bad that you are trying to raise kids. This happened because States filed a lawsuit and got a preliminary injunction granted by a judge to take away the power of today's overtime rule, the modified overtime rule, to assist American workers.

I grew up in a blue-collar family. My dad was a mechanic, and my mother was a stay-at-home mom. My father, who had a basic blue-collar wage, was able to put food on the table, buy a three-bedroom ranch house with a garage, acquire a car, and have modest family camping vacations. It was a pretty square deal to provide a foundation for his children to thrive and have opportunities by working with his hands. Our blue-collar community was in much the same situation. When he worked overtime and stayed on the job because a machine needed to be re-

paired and finished in time for a client of the company to be able to put that heavy equipment to work to build highways, work in the forest, or work to build dams, he got paid for that overtime, and it was right and fair that he did.

It is not right and fair that today America's workers are not getting paid for their overtime. They are working longer and harder only to see that extra wealth go to the CEO of the company. American workers are working longer hours, but their wages and paychecks are getting spread thinner and thinner. The overtime rule is a long overdue adjustment for those who are working those long hours. You don't get any help from this rule if you are not working more than 40 hours a week.

When President Franklin Roosevelt was talking about the importance of living wages to support families, he said: "By living wages I mean more than a bare subsistence level—I mean the wages of decent living." Isn't that what we are talking about, the wages of decent living?

Is there anyone who would contend that a parent raising a child on \$23,000 a year is making a wage that would allow them to have a decent living? I don't think so, at least not at the cost of what it is to exist in today's society, not when rent on a two-bedroom apartment is \$800 to \$900 in Portland, not when the cost of groceries is where it is, and not when the cost of health care is where it is. Franklin Roosevelt said that no one who works full time should live in poverty. He said that working Americans should make enough to raise and support a family and provide a foundation for their children to thrive. He meant that you should be able to earn enough to save up over time and retire with dignity. He meant that a working American should be able to earn enough to cover the basic necessities of life, such as food, clothes, and shelter, but for many Americans, those goals are out of reach even though they are working a lot of overtime, overtime in which they are not getting paid. We just haven't kept pace with the vision of families being able to earn, as Roosevelt put it, the wages of a decent living—the wages that enable you to live decently. This rule is critical to changing and fixing that.

While the courts tie up the process at the request of my Republican colleagues and State governments, we should instead have a bill here on the floor and simply pass this adjustment ourselves.

Has anyone noticed that we just had a Presidential campaign in which both candidates talked about making America work for working Americans? The candidate who won the vote in the electoral college but lost the popular vote, by the way, has claimed he is going to watch out for working Americans.

Well, where is he today on the day 4 million Americans are getting scrooged? Where is Donald Trump today on the day that those who worked overtime are now told they will not get paid for that overtime? How about a tweet in the middle of the night saying: I get it.

If we return to the story of Ebenezer Scrooge, we remember the fact that he was resisting any effort to enable his employee, Bob Cratchit, to have Christmas Day off with his family or to be able to have a decent amount of food on the table on that day. His heart was a few sizes too small. The night before Christmas he had a dream, and in that dream ghosts of Christmas past, Christmas present, and Christmas future came to him and showed the poverty—the spiritual poverty of his life. They showed him the emptiness of his life. That life is not about building up treasures you can count coin by coin, but helping other families to thrive and succeed and share in their joy. When he woke up, he was a changed man. He woke up and said: Yes, my team—my workers—shouldn't be working on Christmas Day. Yes, I should pay them more. Yes, I should make sure they have bountiful food so they can care for their family. Yes, their son, Tiny Tim, should have the health care he needs so he can live a full and productive life. He took care of these things and personally went out and acquired the largest turkey he could for the Cratchit family.

Isn't today the day when my colleagues who have been playing the role of Ebenezer Scrooge and fighting fair compensation for overtime—isn't today the day when they should take a nap and go to sleep tonight and have a little bit of a dream about the circumstances of working Americans? Here we are, just coming off a campaign where everyone talked about the plight of working Americans. Maybe a little of that should reverberate in their dreams tonight so that they might think about how families are struggling across America and how hard it is to put food on the table, not just during the holiday season but throughout the year. They should think about how unfair it is for someone to work 80 hours a week and not get paid overtime because they are being paid only \$23,000 a year.

Do I hear a single colleague volunteer to work for 80 hours a week for a year and get paid \$23,000? I would love to hear that speech on this floor when someone says: I get it. I am all for the overtime rule of the past because I am willing to live on \$23,000 a year.

I don't think I have heard that from a single colleague. Colleagues here are paid many times that increment. Maybe it is a little hard to understand the plight of American workers when you are living in a bubble. Think about what it would be like to raise a family

on \$23,000 a year, given the expenses you experience in today's society.

So tonight, let's have a few of our colleagues who have been such advocates of the Ebenezer Scrooge strategy of denying overtime to workers who are paid very little go to sleep and maybe get visited by the ghosts of the past and the present and the future. Maybe they will be able to put themselves in the same pair of shoes that working Americans work in and place themselves in the same set of circumstances and financial challenges that American workers have. Maybe they can wake up tomorrow with a different vision—a vision of being a partner with working America—to make this Nation work for working America, make our economy work for working America. Maybe they can come to this floor and insist that we immediately pass a bill to take care of these workers so they are compensated for their overtime. That would be a Christmas story to celebrate.

Maybe, while we are at it, our President-elect can tweet tonight in the middle of the night that he had a dream and he was visited by the ghosts of the past and the present and the future and he saw a vision of treating workers fairly, and he wants the Senate to act tomorrow morning. Wouldn't that be a fabulous Christmas story—one that is completely consistent with the rhetoric we heard in the campaign about an economy that works for working Americans. I hope tomorrow morning that is exactly what we hear.

Thank you, Mr. President.

The PRESIDING OFFICER. The Senator from Alaska.

#### THE ECONOMY

Mr. SULLIVAN. Mr. President, one of the things I have been focused on—and I know many of my colleagues have been as well, such as the Presiding Officer—in the last couple of years in the Senate is coming to the Senate floor and speaking about this issue, certainly one of the most important issues we can be focused on in the Congress, and that is the economy and the economic growth for the United States.

What we have here, shown by this chart, is really a lost decade of economic growth that we have had in America over the last 10 years—a lost decade. This chart reflects the gross domestic product, or GDP growth, in the United States over the last several decades. GDP is essentially really a measure of the health of the economy, the health of the opportunity that we have in this country. By any measure, over the last 10 years we have had a sick economy.

So if we look here at the 3-percent GDP growth, this is OK growth. It is not considered that great. The average rate of growth for the United States over the last 200 years—what really has made our country great—has been

about 3.9 percent, almost 4 percent. Three percent is not great. It is certainly below average. But we have a President—President Obama—and an administration that is going to be the first President ever to never in 1 year, even once, hit 3 percent GDP growth ever.

Let me cite a couple of recent numbers. In the fourth quarter of 2015, we grew at 0.9 percent of GDP and did not even hit 1 percent. In the first quarter of 2016, it was 0.8 percent of GDP. In the second quarter of 2016, it was 1.1 percent GDP growth. It is true that the third quarter numbers came out estimated just a little above 3 percent for the quarter, but the year will be way off of even 3 percent.

Again, traditional levels of American growth are close to 4 percent.

So each quarter, when these numbers have come out—these dismal, anemic economic growth numbers—what I have tried to do is come to the Senate floor, talk about the issue, and then ask the question: Where is the Secretary of the Treasury? Where is the President of the United States? What is the plan? Is this really what we expect for Americans? We can't even hit 3 percent GDP growth.

Look at every other administration, including Kennedy, Johnson, Eisenhower, Nixon, Ford, Carter, Reagan—holy cow—6 percent, 5.5 percent; Bill Clinton, 4.5, 5 percent; even George Bush, well above 3 percent. Not once in 8 years—the lost decade of economic growth under President Obama. That is with low energy prices, and that is with super-low interest rates.

So when we ask what the plan is, what the administration is doing to grow the economy, they come back and say: Well, listen, the new normal is about 2 percent, 1.5 percent GDP growth. They don't say we are going to grow the economy. They just dumb down American expectations. Go google the term “new normal.” Everybody uses it now in Washington. Essentially, they are saying that 1.5, 2 percent GDP growth is the best we can do.

I have a lot of respect for my colleague from Oregon, but if you want to talk about an Ebenezer Scrooge strategy—growing the U.S. economy at 1.5 percent and not even trying to grow at traditional levels of American growth—that is the ultimate Ebenezer Scrooge strategy because the entire country, especially middle class families, are hurt by it.

So this answer that, no, we can't even hit 3 percent, that the new normal is 1.5, 2 percent, that is an answer that we get from the Obama administration. The Secretary of the Treasury never comes out and tells us how we are going to get back to traditional levels of growth. That is an answer that consigns millions of Americans to lives where they no longer believe in economic opportunity, no longer believe in

strong wages and in terms of growth for our wages, and no longer believe in a future in which their kids are going to do better than they did.

We talk a lot about stats, which are important to understand. So let me give my colleagues some of the numbers behind them. In the last 8 years, we have now had, in terms of people working in the workforce, the lowest labor-force participation rate since 1978. What does that mean? Again, that is a health issue of our economy. It means that millions of Americans have just quit looking for work. Can we imagine being that discouraged because the economy is not growing and so you just quit looking?

The percentage of Americans below the poverty line has grown by almost 4 percent over this period, where we see no growth. Real medium household income during this period sank by almost \$2,000. Food stamp participation in this period—again, 8 years—has soared by almost 40 percent. The percentage of Americans who own homes, which is one of the ultimate markers of the American dream, is the lowest it has been since 1965. So we were talking about Ebenezer Scrooge. My colleague was just talking about him. Those are Ebenezer Scrooge numbers, and those are Americans who are hurting because we can't grow the economy.

We need to change that. The Obama administration has not been focused on this issue. We never hear the Secretary of the Treasury come out—or even the President—and talk about how we get back to traditional levels of American growth, like every Republican and Democratic President has done for decades. They don't talk about it. They haven't been focused on it. But I think on November 8, we saw that the American people are very focused on this issue. Millions and millions of Americans rejected the idea that, because of these growth rates, they had to give up on the American dream and a strong U.S. economy and good jobs. They did not want to give up on it. We do not want to give up on that.

In essence, Americans saw that the idea of the new normal—which is this, peddled by the Obama administration—is a surrender, and they didn't want to surrender. We shouldn't surrender. We need to grow this economy.

So what now? Well, I find it very encouraging that the President-elect and his team, including his nominee for the Secretary of the Treasury, have been talking very regularly about this issue. We need to grow the economy—not at new normal rates of 1.5 percent or 2 percent but at 3, 3.5, or 4 percent GDP growth. That is what we need to do. We in this body need to help them do that because that is what the American people want. In fact, with the exception of having a strong military and keeping this country safe in terms of national defense, growing our economy, creating

economic opportunity for all Americans is certainly one of the most important things we can do in the Senate. But we need a partner in the executive branch. We need a partner in the executive branch that is actually focused on the issue, that actually cares about these numbers, and we haven't had it in 8 years. So where do we start?

I think we need to start on this issue of the overregulation of our economy. Again, the incoming administration has talked a lot about this issue. When we ask people outside of Washington what is keeping our economy down, they refer to this. This chart is a chart of the cumulative number of Federal rules that have come out of this town onto American businesses, small businesses, and working-class families. That is what we see—pure growth, pure growth.

President Obama has enacted more than 600 new major regulations, totaling close to \$800 billion or \$2,300 per American. What is really interesting is that, despite the fact that the American people on November 8 said they want to grow the economy and they don't want to see this continue, this administration is putting its pedal to the metal on trying to see how many more regulations they can issue and promulgate to crush our economy and opportunity.

My State has been ground zero for a lot of these regulations. We are a resource development State in Alaska. The President just last week came out with a new regulation that said: I know that the vast majority of Alaskans want to responsibly develop their resources, but I am going to take the entire Outer Continental Shelf off the table for Alaska. Sorry, Alaska. Sorry, workers. Sorry, American energy independence. I am taking it all off the table. That was a regulation the President put on the table and issued last week that is going to hurt our economy, that is going to hurt American energy independence, that is going to hurt jobs, that is going to hurt our national security, and he did it anyway. There are no leases in my State because the President, in Executive order, issued that. That is not what the American people voted for on November 8.

So several Senators, led by Senator GARDNER, are going to be sending the President a letter very soon saying: Mr. President, the American people have spoken. The American people are tired of this. You are on your way out. Please, respect the results of the election and quit issuing these regulations that are stifling economic growth and crushing middle-class families. I hope he will abide by that. I hope he listens to us. I hope he listens to the American people. But, somehow, I think we are going to see even more of these in the next month or so.

I wish to conclude by noting something that I think most Americans un-

derstand intuitively. When it comes to our Nation and the comparative advantages that we have over other countries—and I am talking about the major countries in the world, whether it is China or Russia or the EU or Brazil or Japan—we have so many incredible comparative advantages relative to anyone. We have energy. We have great entrepreneurs. We have world class universities. We have agriculture and fisheries that literally feed the world. We have some of the brightest young people, like our pages here. We have a military that is the most professional and lethal in the world, by far. We have alliances all over the world where countries want to be close to the United States. Our adversaries and potential adversaries, such as China, Russia, North Korea, and Iran, have very few, if any, allies.

We have so many advantages, and yet the majority of Americans think we are heading in the wrong direction. I believe they think that because we can't grow the economy. So what we need to do is for all of us to work closely with the new administration, and I would encourage all of my colleagues here in the Senate to focus back on this issue. We need to return to traditional levels of American economic growth, and we can do it with the right policies.

I yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT REQUEST—S. 579

Mr. GRASSLEY. Mr. President, Members of the Senate, I come to the floor to speak about and to propound a unanimous consent request in regard to the Inspector General's Empowerment Act. I would like to defer. I ask unanimous consent to not lose the floor but yield to Senator JOHNSON.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. JOHNSON. Mr. President, I thank the Senator from Iowa for letting me speak to a very important issue. I also thank him for his leadership. Long before I came to the Senate, I know the Senator from Iowa was working tirelessly to make sure government was more efficient, more effective, and more accountable. He has done an awful lot of work to ensure that. Certainly he has relied on inspectors general to bolster his efforts.

So I am completely in support of S. 579, the Inspector General Empowerment Act of 2015. When I took over the chairmanship of the Senate Committee on Homeland Security and Governmental Affairs, the Senator from Iowa

had been working long and hard on this act. I was happy—I was pleased to utilize our committee to move this bill through our committee unanimously.

The bill has 18 bipartisan cosponsors. It is just incredibly important. The Senator from Iowa will certainly fill us in on the details of what has happened and what has made this bill so important. I just want to spend a little bit of time on how important inspector generals are.

We, working together with the Senator from Iowa, asked the inspectors general, for example, to report back to us how many of their recommendations—off of their tireless work—have gone unimplemented. We just received that report. Over 15,000 recommendations from inspectors general have not been implemented. The total aggregate savings could be as high as \$87 billion. Even in this massive Federal Government, \$87 billion is real money. Of course, inspectors general need access to the records from their agencies, from their departments, so they can determine what is happening so they can make these kind of recommendations.

We also have had and witnessed a real tragedy, for example, at the Tomah VA Medical Center. We had an inspector general who had inspected and investigated over 140 different instances, then issued reports on those inspections, investigations, and then buried those reports—did not make those reports public.

One of those had to do with the Tomah VA Center in terms of the overprescription of opioids. Because that report was not made public, we were unaware of the problems there, and the problems persisted. For over a decade, opioids were being overprescribed. The result was that veterans—the finest among us—some of them died because of overprescription.

It is not an overstatement to say that the work of the inspector general is crucial and that work—those reports, those inspections, those investigations—literally is the difference between life and death. Again, I am here supporting the Senator from Iowa in his tireless efforts to get this bill passed, the Inspector General Empowerment Act of 2015. I urge all of my colleagues to allow this to pass by unanimous consent so we can get this put on the President's desk and it can be signed into law as quickly as possible.

With that, I yield the floor.

Mr. GRASSLEY. Mr. President, while I am waiting for Senator MCCAIN to come to the floor before I speak about the specific unanimous consent request I am going to make, I would like to point out, in a very general way, that the pursuit of what we are doing, in so many other ways, is part of Congress's constitutional responsibility and constitutional authority under the checks

and balances of government to make sure the laws are faithfully executed.

There are several different tools that are used in that direction. They can be individual Senators. Any time an individual Senator wants to ask questions of whether the laws are being faithfully executed, that Senator can do it, that Member of the House of Representatives can do it, through the particular committees of the Senate and the House of Representatives, through both letter as well as open hearings about certain subjects of whether money being spent by the executive branch is according to Congressional intent or whether laws are being carried out the way Congress intended.

That is all part of congressional oversight, but there has also been seen a need, over a course of many years, for other ways to make sure it is done. One of those was the setting up of the Government Accountability Office that has authority, at the request of committees and request of individual Members of Congress, to investigate and do research on certain problems we have in the executive branch of government.

That predates, by a long time, the passage of the inspectors general law that we are dealing with, with this subject I have before the Senate now. The inspector general was set up for the purpose of being within the executive branch to see that the laws are faithfully executed and the money spent according to Congress. I see that Senator MCCAIN has come to the floor. I would like to make my opening statement on the legislation. I thank Senator MCCAIN for the courtesy he gives me to come and listen to my request. Whatever he decides to do with it will be his choice, but I want to tell him I appreciate the cooperation he has given me on so many different things.

To justify my unanimous consent request, I start out with some of the issues that are involved with the legislation, the Inspector General Empowerment Act. In 1978, Congress created inspectors general or IGs as they are often known, to be the eyes and ears within the executive branch.

These independent watchdogs are designed to keep Congress and the public informed about waste, fraud, and abuse in government. They also help agency leaders identify problems and inefficiencies they may not be aware of. IGs are a very critical part to good governance and to the rule of law.

In order for IGs to do their job, they need independent access to information. That is why, when Congress passed the Inspector General Act of 1978, we explicitly said IGs should have access to all records of the agency they are charged with overseeing.

However, since 2010, more and more agencies have refused to comply with this legal obligation. This obstruction has slowed down far too many important investigations, ranging from sex-

ual assault in the Peace Corps to the FBI's exercise of anti-terrorism authority under the PATRIOT Act.

Those are just two of the things I have been involved in. Every one of the other 99 Senators would probably have to say that in their oversight work, somehow the executive branch agencies have not carried out the spirit of the 1978 legislation.

It got worse in July of 2016. The Justice Department's Office of Legal Counsel released a memo supporting this obstruction of congressional intent. Now, let me put this in a commonsense form that surely everybody ought to understand. In 1978, Congress passes the inspectors general law. It is voted on by a majority of the Congress. It is sent to the President. The President signs it. It has been law since that period of time, but we have a situation where 1 bureaucrat out of 2 million Federal employees sits and reads something into a piece of legislation that was never intended because the legislation says the inspector general should be entitled to all records, but the Office of Legal Counsel opinion says: Well, maybe not all. It kind of depends on the head of the department. There are some exceptions in the inspectors general law that ought to be there—those are spelled out—some of them dealing with national security, some of them dealing with the Department of Defense, as just one example.

So we have this opinion in July of 2016. The memo argued that Congress did not mean what it very clearly said; that the IG gets access to all records. This is unacceptable. It undermines Congress's intent. It undermines the rule of law. It makes a mockery of government transparency. The public deserves a robust scrutiny of the Federal Government. Every eighth grade civics student understands what checks and balances is all about.

Congressional oversight is one of those checks. Since September 2015, a bipartisan group of Senators and I have been working to overturn the Justice Department's opinion through S. 579, the Inspector General Empowerment Act. Among other things, this bill further clarifies that Congress intended IGs to access all agency records, notwithstanding any other provision of law, unless—and this is a big unless—other laws specifically state that the IGs are not entitled to receive such access.

A lot of those fall into the area of national security and defense. The bill has a total of 20 cosponsors, including seven of my Democratic colleagues: MCCASKILL, CARPER, MIKULSKI, WYDEN, BALDWIN, MANCHIN and PETERS. At the Judiciary Committee hearing in August of last year, Senator LEAHY also agreed that this access problem needs to be fixed by legislation because it is "blocking what was once a free flow of information." Even the Justice Department witness at that hearing disagreed

with the results of the Office of Legal Counsel opinion and supported legislative action to solve the problem.

As of today, a large majority of Senators, the Las Vegas Review Journal—and I say that for the benefit of Senator REID who at one time objected—the New York Times, the Washington Post, good governance groups like Project on Government Oversight and Citizens Against Government Waste, all support restoring the intent of that act through S. 579.

I want to emphasize that the intent of the act was destroyed by one bureaucrat writing a legal opinion that has been a crutch for a lot of people who don't want to cooperate with the inspector general.

Despite strong bipartisan and public support for the bill, we have not been able to pass the bill by unanimous consent. We attempted to pass the bill by unanimous consent September 2015 and again December 2015.

In December, the Armed Services Committee and the Intelligence Committee raised concerns about the bill. It is perfectly legitimate for them to do that. My cosponsors and I worked with our colleagues on those committees to address and resolve their concerns. Ultimately, Chairman MCCAIN and Chairman BURR lifted their holds, and in December 2015 the bill cleared the Republican side with no objections. But when we tried to pass the bill on the floor by unanimous consent, Senator REID, as I previously said, objected on the Democratic side.

In the meantime, the House passed its own version of the bill. Since then, we have worked closely with the House to resolve minor differences between the House and Senate bills. Now it is time to press forward and finally pass this critical bill to ensure the effective oversight of waste, fraud, and abuse in government—in other words, to make very clear that when the act says they are entitled to all records, “all” means all.

There is one provision of the bill we had to remove from this version at the insistence of Senator LEAHY. It relates to testimonial subpoena authority for inspectors general.

First, let me be clear about why the testimonial subpoena authority is important to the ability of IGs to conduct effective investigations. When employees of the U.S. Government are accused of wrongdoing or misconduct, IGs should be able to conduct a full and thorough investigation. Unfortunately, employees who may have violated that trust are often able to evade the IG's inquiry simply by retiring from the government. Testimonial subpoena authority empowers IGs to obtain testimony about waste, fraud, and abuse from employees after they leave the agency.

Similarly, the subpoena authority helps IGs investigate entities that re-

ceive Federal funds. In other words, if you want to know what is wrong, follow the money. The subpoena authority enables IGs to require testimony from government contractors, subcontractors, grantees, and subgrantees. Currently, most IGs can subpoena documents from entities outside of their agency, but most cannot subpoena testimony. The ability to require witnesses outside the agency to talk to the IG can be critical in carrying out an inspector general's statutory duties or recovering wasted Federal funds.

Let me also be clear that when we learned of Senator LEAHY's concerns with this provision in November 2015, my bipartisan cosponsors and I worked in good faith for 12 months to address them. We offered at least half a dozen accommodations that would provide meaningful and appropriate limitations on the subpoena in question, but Senator LEAHY continued to demand the removal of that from the bill.

Despite a year of negotiation, we were unable to reach a resolution, so I proposed bringing the provision to the floor for debate. I offered Senator LEAHY the option of debating on the floor the merits of the testimonial subpoena authority so that the Senate could vote on whether to keep or remove the provision from the bill, but my colleague declined to agree to floor time so that we could have an open debate on the issue.

His continued refusal to debate and vote on the much needed testimonial subpoena authority threatens to derail the entire bill, which has such substantial bipartisan public support.

Despite my strong belief that IGs need that subpoena authority, I also recognize that the IG bill contains many other critical provisions the IG needs to move forward with it, and now is the time to do that. We cannot afford to wait any longer for those provisions that empower the IG. This bill is still necessary to help IGs and to ensure to the American people that there is transparency and accountability within the government.

Before I ask unanimous consent, I wish to say for the benefit of the position that I think Senator MCCAIN is going to take that the Secretary, under existing law, may block an IG investigation if it is necessary to preserve the national security and interests of the United States and if the information the IG has requested concerns any one of five categories: sensitive operation plans, intelligence matters, counterintelligence matters, ongoing criminal investigations, or other matters that would constitute a serious threat to national security if they were to be disclosed.

Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 68, S. 579. I further ask that the Johnson substitute amendment be agreed

to; the bill, as amended, be read a third time and passed; and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Mr. MCCAIN. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, I appreciate the hard work the Senator from Iowa and his staff have done. The Senator and I are old friends, and I know he is one of the most zealous advocates for government oversight and reform in the Senate. I am aware of the many years of hard work he has put into this legislation.

I believe we share the same goal of ensuring that inspectors general across the Federal Government have the authorities and support they need to do their vital work on behalf of the American people. At the same time, I have serious concerns about a few aspects of this regulation as written.

I have been working with the Senator from Iowa. I wish to continue working with him.

To tell you the truth, I say to my friend from Iowa, I don't know why we cannot reach agreement. What we are really talking about are a few words. For example, this legislation would substitute the words “under the nominal supervision of the head of the establishment involved”—that takes the place of the wording “under the general supervision of the establishment involved.” I say to my friend from Iowa, what springs to mind is, why would we want to change that wording unless there was some intent to do so? Isn't the “general supervision of the establishment involved”—we have to have “under the nominal supervision”? What is this wordsmithing stuff that, frankly, I can only assume has some underlying purpose? Why would you want to substitute “under the nominal supervision” for “under the general supervision” without some reason? I don't get it. There is no explanation for why this change is necessary. It is unclear what “nominal supervision” means. If “nominal” means literally “in name only”—that is what “nominal” means—then it would remove the IG from the supervisory authority of the agency or department head.

The legislation would impose further restrictions on the ability of the Secretary of Defense—which is the area of my responsibility—to supervise and support the inspector general of the Department of Defense, so it is a reach too far.

The legislation would also restrict the President from placing an inspector general in an involuntary nonduty status, either paid or not paid, except as narrowly defined, for cause. This is likely an unconstitutional restriction on the authority of the President, who

has the authority to appoint and to remove his or her own appointees. Constitutionally appointed officers serve at the pleasure of the President. Constitutionally appointed officers serve at the pleasure of the President, some subject to advice and consent of the Senate, some not. In other words, us saying what a Member of Congress can do to put someone on nonduty status is not the responsibility or the authority of the Congress of the United States.

It would limit the President's authority to place an inspector general in an involuntary, paid or unpaid, nonduty status for more than 14 days, unless the Integrity Committee of the Council of the Inspectors General on Integrity and Efficiency, a well-known organization, submits to the President a written recommendation for additional time, which is acted upon by the President, and the decision is communicated immediately to both Houses of Congress. That is a further restriction on Presidential power by a committee of the Council of the Inspectors General on Integrity and Efficiency—by the way, an organization whose existence I was unaware of.

The people expect the President to have both control and responsibility over employees and officers in the executive branch, subject to advice and consent—the constitutional authorities of the Senate of the United States. It is clearly outlined in the Constitution.

The people expect the President to have both control and responsibility over employees and officers in the executive branch. The Founders believed that this design ensured effective government but, most importantly, protected our liberty from rogue government agents who might accrue vast power but be responsive and responsible to no elected, accountable authority. We just saw a dramatic example of that, as I know my colleague from Iowa understands, in the Dodd-Frank legislation, which created agencies of government that have no accountability whatsoever, even to the appropriations process.

The legislation would also undermine congressional oversight of the IGs. For example, with this language, a congressional investigation conducted by committees into complaints that the IG has violated whistleblower protections could be labeled as “interfering with the independence of the IG” if the committee is communicating with an agency or department as part of that investigation.

While I appreciate the effort to provide exemptions to the Department of Defense from this legislation, that exemption only relates to certain subsections and sentences of the overall Inspector General Act. Thus, many of these new rules and requirements would apply to the Department of Defense. For example, the new “timely access to information” requirement is

included in the legislation, but there is no exemption for DOD from that requirement. It is unclear that existing exemptions would apply.

The Senate Armed Services Committee conducts a regular, stringent oversight of the Department of Defense, including its inspector general. The committee and the Congress pass defense legislation on an annual basis, and this will be the 55th year we will do so. I do not believe there is any problem at present in the DOD IG that requires the solution this legislation would require, and in the event the Senate Armed Services Committee uncovers problems in the course of our oversight work, we will address those issues in our annual authorization legislation.

Look, I have great affection for my friend from Iowa. It is obvious that this issue is important to him. It is obvious he has been working on it for years. If I could make a suggestion to my friend from Iowa, let's set a time tomorrow to sit down with our staffs, find out what the problem is, see if we can get it resolved, and then that will give us 24 hours to try to resolve these issues.

I understand what the Senator from Iowa is seeking and trying to do. I support the intent of that legislation. My responsibilities are oversight of the Department of Defense, the largest part of our government, and I have these concerns about it. I believe we can resolve these problems maybe with a face-to-face with our staffs's engagement.

For all those reasons, I regret to tell my friend from Iowa that I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I knew ahead of time that we would have this objection. The only difference between this objection this time and a year ago is the fact that a year ago we worked out differences with other committees of the Congress and had, evidently, 99 Senators ready to pass this bill, except for Senator REID. So it is disappointing that when we work out one problem we had a year ago, that now we have serious objections, very numerous, as it worked out, considering the fact that the committee of jurisdiction—Senator JOHNSON is chair of the Homeland Security and Governmental Affairs Committee, passing this bill out unanimously, getting it cleared on both sides a year ago, except for Senator REID, and now all these other problems come up.

It is impossible for me to respond to all the problems that have been presented by the Senator from Arizona. Obviously, the legislative process does emphasize cooperation between Members when there are differences, but I believe that it is probably going to be impossible this year for us to work out

those differences. So I will be prepared to come back next year and pursue this legislation again and see what we can do.

Mr. MCCAIN. Mr. President, could I just say to my friend from Iowa that I am willing to maybe have a sit-down sometime in the next 24 hours to see if we can get this done.

Mr. GRASSLEY. OK. I will take that under advisement.

I would simply close with further evidence of the importance of this legislation and try to respond to what the Senator from Arizona said about its impact on the Defense Department.

Section 8 of the IG Act already contains an exception that allows the Secretary of Defense to prohibit the inspector general from conducting an investigation and gathering documents to protect national security. The exception is broad. The Secretary may block an IG investigation if it is necessary to preserve the national security interests of the United States and if the information the IG has requested concerns sensitive operation plans, intelligence matters, counterintelligence matters, ongoing criminal investigations, and other matters that would constitute a serious threat to national security if disclosed.

In addition, cosponsors and I worked with the Committee on Armed Services last year to ensure that the bill makes the Secretary of Defense's authority to restrict certain types of sensitive information even more clear than it was in the 1978 legislation. After we made those changes, Senator MCCAIN, as I have already said, cleared this version of the access language last year.

I guess at this point I am going to yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CORKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TENNESSEE TRAGEDIES

Mr. CORKER. Mr. President, I rise today to express my deepest sympathies and offer steadfast support to the countless Tennesseans who have experienced tragedy in the recent days.

It has been a rough few weeks in our great State. Last week, my hometown of Chattanooga lost six young children in a tragic schoolbus crash. Today, countless East Tennesseans face a long road ahead after severe storms and tornadoes ripped through southeast Tennessee, leaving tremendous damage and taking the lives of two individuals in Polk County.

Tomorrow morning, I will be in another area of our State that is dealing with unimaginable tragedy. As you have likely seen by now, the damage

caused by wildfires in Sevier County, the place where my wife was raised, is heartbreaking. While officials continue to assess the full extent of the damage, we know that many have suffered tremendous loss. As of this morning, officials confirmed that they are still addressing the remnants of smoldering wildfires. More than 400 firefighters are supporting the effort. The exact number of structures affected remains unknown, but local officials are estimating 700 impacted structures and more than 17,000 acres burned. More than 200 individuals remain in shelters, and just moments ago, we learned that 10 fatalities have been confirmed.

Sevier County is a special place, surrounded by some of the country's most beautiful God-given amenities. Millions of people from around the world visit each year and have built memories in this treasured community. But as the mayor of Gatlinburg noted earlier today, "it's not the attractions or the restaurants that make this place special, it's the people" who live there.

So many wonderful families call Sevier County home—tough, proud people whose roots in the area span generations.

Those who know the area and these people are not at all surprised by the community response. The Nation has watched and read countless stories of selfless individuals—many who lost everything themselves—helping others. We have watched the mayor and city manager of Gatlinburg, both of whom lost their own homes, provide steadfast strength and grace. We have watched the Sevier County mayor close each press conference with a simple request: "Pray for us."

The coming days, weeks, and months will not be easy. The recovery will take time. We are committed to doing everything that we all can do to help you rebuild. The support does not end when the cameras leave. Governor Haslam, Senator ALEXANDER, Congressman ROE, and I are ready to support requests for assistance for the recovery efforts. People throughout Tennessee and across the Nation will be back to visit very soon. Of course, as has been requested, we will continue to pray.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### WORLD AIDS DAY

Mr. CARDIN. Mr. President, today I wish to discuss World AIDS Day. Thirty years ago, the National Academy of Sciences's Institute of Medicine issued a report calling for a "massive media, educational and public health campaign to curb the spread of the HIV infection." The global community heeded that call and today, on World AIDS Day, we celebrate progress that we have made in treating and preventing HIV/AIDS both at home and abroad and recommit ourselves to creating an AIDS-free generation.

Earlier this year, I had the opportunity to visit an HIV/AIDS clinic in Namibia supported by the President's Emergency Plan for AIDS Relief, PEPFAR, and the Global Fund. While there, I met a 30-year-old man named Simon who said he would not be alive without the international community's HIV/AIDS assistance. While the individual stories of people like Simon are a testament to the hard-fought progress this global response has achieved, the aggregate impact of our efforts cannot be understated. PEPFAR has been a bipartisan success story that began with a strong commitment by President George W. Bush and grew under President Obama. It must continue to have broad-based support in a Trump administration and in the 115th Congress, so we can keep making inroads against this pernicious disease.

Since 2005, AIDS-related deaths have fallen by 45 percent globally. In Africa, new HIV infections have declined 14 percent since 2010, including a 66 percent reduction in new infections in children in the region. And today, 18.2 million men, women, and children worldwide are on antiretroviral therapy, double the number of people who had access just 5 years ago.

Nevertheless, there remains more work to be done. In my home State of Maryland, there were 1,334 new HIV diagnoses in 2015, ranking it the third highest adult HIV diagnosis rate per capita in the country. And globally, we are seeing data that indicates that AIDS-related deaths are actually increasing among adolescents. At home and abroad, such trends are troubling.

We therefore cannot rest on our laurels. The United States must continue to lead this global fight. Through strong funding for PEPFAR and multilateral organizations like the Global Fund, we will ensure the continued commitment and leadership of partner countries reinforced with support from donor nations, civil society, and people living with HIV, faith-based organizations, the private sector, and foundations. And at here at home, we must ensure that the Centers for Disease

Control and Prevention, CDC, the National Institutes of Health, NIH, the Ryan White HIV/AIDS Program, and our State, local, and community partners have the resources they need to continue making significant progress to prevent, treat, and eventually cure this disease.

With our work cut out for us and the memories of far too many loved ones in our hearts, we strive on this World AIDS Day as an international community toward a world free of HIV/AIDS and recommit to mobilize the resources needed for treatment, to summon the compassion and understanding to prevent stigma, and to unleash our collective ingenuity and persistence in search of a cure.

#### REMEMBERING BISHOP EMERSON COLAW

Mr. PORTMAN. Mr. President, today I wish to remember a dear friend, Bishop Emerson Colaw, a devoted and widely respected leader of the United Methodist Church. Bishop Colaw passed away on October 11, 2016, at the age of 94 in Ohio, where he lived during the final years of his life.

Emerson Stephen Colaw was born November 13, 1921, in Chanute, KS, and moved to Cincinnati at the age of 16 to attend God's Bible School and College. A committed student, Colaw went on to earn a B.S. degree in 1944 from the University of Cincinnati, a bachelor of divinity, magna cum laude, in 1947 from Drew Theological Seminary, and a master of arts in 1953 from Northwestern University in Evanston, IL. He also received honorary doctorates from five different institutions.

Remembered as a strong preacher and compassionate leader who loved the church and had a heart for the clergy, Colaw served as a mentor and role model of Christian discipleship for colleagues, congregants, friends, and family. He began his ministry as a clergyperson for the United Methodist Church serving the New York Annual Conference and the Northern Illinois Annual Conference, where he served three pastorates over 14 years.

In 1961, Colaw was appointed to Hyde Park Community United Methodist Church in Cincinnati, OH, part of the West Ohio Annual Conference. During his time in Cincinnati, Colaw spent many years as the moderator of a weekly television program titled "Dialogue" which featured area clergy from a variety of faiths.

After 19 years of service to Hyde Park Community Methodist Church, in 1980, Colaw was elected Bishop of the Minnesota Conference, where he served until retiring from the episcopacy in 1988. He went on to serve as professor of Homiletics and Christian Ministry at the United Theological Seminary in Dayton, OH, from 1988 to 1999 and was its acting president in 1995-96. He later

spent winters in Florida and served as bishop-in-residence at North Naples United Methodist Church.

Emmerson and his late wife, Jane, were married more than 70 years and raised 4 children, 8 grandchildren, 12 great-grandchildren, and a great-great-granddaughter.

I would like to honor Emmerson Colaw for his contributions to the United Methodist Church, his community, and our State.

#### REMEMBERING JAMES "JIM" F. DICKE

Mr. PORTMAN. Mr. President, today I wish to remember James "Jim" F. Dicke, a WWII veteran, an Ohio business leader, and a philanthropist. Mr. Dicke passed away on Friday, November 11, 2016, at the age of 94.

Jim Dicke was born in New York in 1922 and raised in Dayton, OH, graduating from Stivers High School in 1939. He was an honorary graduate of Culver Military Academy and was awarded an honorary DBA by Ohio Northern University. A WWII veteran, Jim served as a lieutenant instructor in the Army Air Corps.

Following his military service, Jim returned to the Dayton region and worked with his father, Carl, and other family members to found a company called Crown Controls Company, now known as Crown Equipment Corporation, which is a leading global manufacturer of material handling equipment, currently in its fourth generation of family leadership. With over 4,400 Ohio employees, the New Bremen, OH, based company has three manufacturing facilities along I-75 in west Ohio, as well as a branch in Vandalia. We are proud to have this innovative, successful, and competitive manufacturer in the Buckeye State.

In addition to being a job creator and business leader, Jim Dicke was involved in many important community activities. He was a major benefactor to Ohio Northern University, where he was given an honorary doctorate in 2000 and where there are a number of namesakes there in his honor, including James F. Dicke Hall, home to the James F. Dicke College of Business Administration, as well as the Dicke House, home of the university's president.

Jim and his late wife, Eileen, were married for almost 73 years and raised two sons, six grandchildren, and seven great-grandchildren.

I would like to honor James Frank Dicke for his many contributions to his community and our State.

#### 150TH ANNIVERSARY OF THE COLLEGE OF WOOSTER

Mr. PORTMAN. Mr. President, today I wish to honor the College of Wooster in recognition of its 150th anniversary

of providing quality higher education to the citizens of Ohio. In 1865, Reverend James Reed, the minister of the First Presbyterian Church in Wooster, rallied the community to create a Presbyterian college in Wooster. On December 18, 1866, the then University of Wooster was incorporated by the Presbyterian Synod. In order to better reflect the institution's offerings, the University of Wooster became the College of Wooster. Wooster's first class consisted of 30 men and 4 women instructed by five faculty members; the college now enrolls over 2,000 students, representing 45 States and 44 countries, and instructed by 171 faculty members. Wooster now has more than 50 academic programs in business, the arts, humanities, and the sciences.

The mission of the College of Wooster is to create "a community of independent minds, working together to become leaders of character and influence in an interdependent global community." Wooster accomplishes this by offering a rigorous and dynamic liberal education that focuses on mentoring, applied learning, and project based learning where students develop attributes that are valued by employers and important for developing the leaders of tomorrow. It is helping to ensure that students are prepared with the skills they need for the jobs of the 21st century. Because of this, 92 percent of Wooster graduates are either employed or in graduate school within 1 year after receiving their diplomas. We are proud to have this extraordinary independent college in Ohio.

I am here to honor the College of Wooster and to congratulate all of those who contributed to making its first 150 years such a success.

#### HONORING ERIC DALE ELLSWORTH

Mr. LEE. Mr. President, on Friday, November 18, 2016, Eric Ellsworth of Brigham City, UT, began his day like virtually every other day of his adult life. He put on his uniform and drove to work fully aware that it could be his last day on Earth. Eric was a State trooper with the Utah Highway Patrol, and for 7 years this is how he began each day: by summoning enough courage to last most men a lifetime.

Why did he do it?

I never had the privilege of meeting Eric. But over the past several days I have read a great deal about him, and based on the comments of his family, friends, and colleagues, I suspect the answer is that Eric wouldn't have wanted it any other way.

Like all law enforcement officers, the life of a trooper is a life of service to one's community and one's fellow man—the vulnerable, the needy, and the insecure. It is also a life of sacrifice. And on November 18, 2016—that Friday that began like all the others—Trooper Ellsworth made the ultimate sacrifice.

While directing traffic to avoid a roadway hazard along a rural stretch of State Route 13 near Garland in Box Elder County, Trooper Ellsworth was accidentally struck by a passing vehicle. For 4 days, he remained in critical condition at Intermountain Medical Center, defying the odds and fighting to live another day in that uniform. But on November 22, 2016, Eric succumbed to the injuries sustained in the crash and passed from this life into the next. He died honorably, doing what he loved—and lived—to do: helping others and serving his community.

Indeed, if you look at the trajectory of Eric's life, you are left with the distinct impression that the man was destined, from the very start, to be a highway patrol trooper.

He was the seventh of nine children—and the eldest brother—which must have taught him at an early age what it means to live with duties and obligations toward others. And his hero—his father, Ronald Ellsworth, who was also a highway trooper—showed him what courage as a daily discipline looks like.

Like most sons who revere their dads, Eric grew up wanting to follow in his father's footsteps. And so he served.

He served his community, as an Eagle Scout and an active member of his church, the Church of Jesus Christ of Latter-day Saints. He served his family, as a loving husband to his wife and high-school sweetheart, Janica, and a nurturing father to their three sons, Bennett, Ian, and Oliver. He served his fellow citizens and countrymen as a highway trooper who kept watch over the roads in northern Utah. And most importantly to Eric, he served his Heavenly Father, as a missionary in Winnipeg, Canada, and as a faithful witness of Jesus Christ.

At 31 years of age, Trooper Ellsworth's life was cut tragically short. But in those 31 years, he did more to help his fellow man than most of us can hope to accomplish in a lifetime. He lived a full and bighearted life, always ready to answer the call of service and dedicated to making the world not just safer but better for everyone.

This is Eric Ellsworth's legacy, his gift to the world, and his sons' greatest inheritance: the enduring example of a life well lived.

May he rest in peace, and may God bless his family and the community he served—it will never be the same without him.

Thank you.

#### ADDITIONAL STATEMENTS

##### IDAHO HOMETOWN HERO MEDAL

• Mr. CRAPO. Mr. President, today I wish to honor the 2016 Idaho Hometown Hero medalists.

Drs. Fahim and Naeem Rahim established the Idaho Hometown Hero medal

in 2011 to recognize outstanding Idahoans working for the betterment of our communities. Medalists are selected from nominations sought from the public throughout the State and must meet criteria that include being dedicated to hard work, self-improvement, and community service.

In this 6th year of the presentation of this honor, 10 Idahoans from communities across Idaho are 2016 Hometown Hero medal recipients. Executive Director of Suicide Prevention Action Network of Idaho Jeni Griffin of Idaho Falls is recognized for her dedication of more than 10 years to promoting suicide prevention in Idaho. Nationally recognized teacher, coach, and mentor Holly Kartchner of Blackfoot received the award for her commitment to education in southeastern Idaho, leading her students to reach national championships. Former Coeur d'Alene police officer and Air Force veteran Mike Kralicek is honored for the inspiration he provides to other public servants to be better prepared for overcoming adversity and his leadership in helping law enforcement families in times of crisis.

Idaho Falls attorney Doug Nelson is recognized for dedicating more than three decades to leading, supporting, and advocating for children's activity programs and multiple charitable organizations and mentoring disadvantaged single mothers. Wiley Petersen, a professional bullrider, coach, motivational speaker, and mentor who grew up in Fort Hall received the medal for his efforts to give back to his Native American community and help further the progress of the Native American people. Sonya Rosario, a filmmaker from Meridian and the founder and executive director of Women of Color Alliance, is honored for her work and films to help heal Native communities. Zeze Rwasama of Twin Falls, who is originally from Congo, is the director of the College of Southern Idaho's refugee program, and is recognized for his work to educate, integrate and build bridges between refugees and their new communities.

Tyvan Schmitt, of Pocatello, who served in the U.S. Navy, is a posthumous awardee for his bravery and courage as he attempted to prevent a large catastrophe and for his devotion to helping the homeless, the schools, and neighbors. Linda Scott, a Pocatello native who served in the U.S. Army, is recognized for her volunteer efforts and commitment of her time, energy, resources, and compassion to helping others in need. Pocatello resident and Spanish professor Dr. Helen Cathleen Tarp is recognized for her work as founding program director of the Spanish for Health Professions major at Idaho State University, which is the only major of its kind in the country.

These remarkable Idahoans are among the 56 Idahoans of diverse back-

grounds and a wide range of ages who have been honored as Hometown Hero Award recipients since the award's establishment. I commend the Rahims, the award's committee members, the cosponsors, volunteers, and other organizations supporting this honor for their work to shed light on extraordinary service in our communities.

These Hometown Hero award recipients and countless other Idahoans lead by example, inspiring others to go above and beyond in assisting others and improving our communities. Congratulations to the 2016 Hometown Hero award recipients on your achievements, and thank you for your efforts to better our communities.●

#### TRIBUTE TO ROYCE PERRETT

● Mr. DAINES. Mr. President, this week, I have the distinct honor of recognizing Royce Perrett of Wibaux County, a true American cowboy, who will celebrate his 93rd birthday this weekend. While ranching has been his profession for most of his life, he is also a Navy veteran, a devoted husband of over 70 years, a father of three children, and a valued member of the ranching community between Sidney and Wibaux.

Growing up in rural Nebraska, Mr. Perrett made do without many of the modern comforts we enjoy today: electricity, refrigeration, and modern transportation. When courting Nell Anderson, who would later become his wife, he traveled 10 miles by horse on the weekend to spend time with her, and on his way home Sunday night, he would sleep on his horse, waking up when the horse would stop to open gates.

After WWII and his service in the Navy was completed, Mr. Perrett returned to doing what he loves: ranching. His pursuits took him and his family from the Sandhills of Nebraska, to Isabel, SD, and then in his early 60s, when most would be considering retirement, Mr. Perrett came to Montana to manage the Blue Mountain Ranch, a 13,000-acre ranch north of Wibaux. While Mr. Perrett has had to trade in his saddle for a seat in a side-by-side ATV in recent years, he still manages the Blue Mountain Ranch full time for Gartner-Denowh Angus Ranch and puts in long hours fixing fences, checking water, and watching over 500 cows that graze there in the summer and fall.

When he isn't busy working, he enjoys collecting Western memorabilia and sharing his many stories about ranching, his life adventures, and his self-described greatest achievement: his marriage of over 70 years. As I found out recently when I stopped to visit Mr. Perrett, his door is always open to visitors and you had better be ready for a good conversation and history lesson if you stop by.●

#### MESSAGES FROM THE HOUSE

At 11:32 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the bill (H.R. 34) to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes, with an amendment, in which it requests the concurrence of the Senate.

#### ENROLLED BILLS SIGNED

At 12:30 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 4419. An act to update the financial disclosure requirements for judges of the District of Columbia courts and to make other improvements to the District of Columbia courts.

H.R. 5785. An act to amend title 5, United States Code, to provide for an annuity supplement for certain air traffic controllers.

The enrolled bills were subsequently signed by the President pro tempore (Mr. HATCH).

At 1:37 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, without amendment:

S. 1555. An act to award a Congressional Gold Medal, collectively, to the Filipino veterans of World War II, in recognition of the dedicated service of the veterans during World War II.

S. 2234. An act to award the Congressional Gold Medal, collectively, to the members of the Office of Strategic Services (OSS) in recognition of their superior service and major contributions during World War II.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2992. An act to award a Congressional Gold Medal, collectively, to the U.S. Merchant Marine of World War II, in recognition of their dedicated and vital service during World War II.

H.R. 5047. An act to direct the Secretary of Veterans Affairs and the Secretary of Labor to provide information to veterans and members of the Armed Forces about articulation agreements between institutions of higher learning, and for other purposes.

H.R. 5384. An act to amend title 44, United States Code, to restrict the distribution of free printed copies of the Federal Register to Members of Congress and other officers and employees of the United States, and for other purposes.

H.R. 5948. An act to designate the facility of the United States Postal Service located at 830 Kuhn Drive in Chula Vista, California, as the "Jonathan 'J.D.' De Guzman Post Office Building".

H.R. 6009. An act to ensure the effective processing of mail by Federal agencies, and for other purposes.

H.R. 6138. An act to designate the facility of the United States Postal Service located

at 560 East Pleasant Valley Road, Port Hueme, California, as the U.S. Naval Construction Battalion "Seabees" Fallen Heroes Post Office Building.

H.R. 6186. An act to amend title 5, United States Code, to extend certain protections against prohibited personnel practices, and for other purposes.

H.R. 6282. An act to designate the facility of the United States Postal Service located at 224 Jerome Avenue, in Bronx, New York, as the "Dr. Roscoe C. Brown, Jr. Post Office Building".

H.R. 6302. An act to provide an increase in premium pay for United States Secret Service agents performing protective services during 2016, and for other purposes.

H.R. 6303. An act to designate facilities of the United States Postal Service, to establish new ZIP Codes, and for other purposes.

H.R. 6304. An act to designate the facility of the United States Postal Service located at 501 North Main Street in Florence, Arizona, as the "Adolfo 'Harpo' Celaya Post Office".

H.R. 6393. An act to authorize appropriations for fiscal year 2017 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The message further announced that the House agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 174. Concurrent resolution directing the Clerk of the House of Representatives to make a correction in the enrollment of H.R. 34.

#### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-7767. A communication from the Associate General Counsel, Office of the General Counsel, Department of Agriculture, transmitting, pursuant to law, a report relative to a vacancy in the position of Deputy Secretary of Agriculture, received in the Office of the President of the Senate on November 29, 2016; to the Committee on Agriculture, Nutrition, and Forestry.

EC-7768. A communication from the Associate General Counsel, Office of the General Counsel, Department of Agriculture, transmitting, pursuant to law, a report relative to a vacancy in the position of Under Secretary for Marketing and Regulatory Programs, received in the Office of the President of the Senate on November 29, 2016; to the Committee on Agriculture, Nutrition, and Forestry.

EC-7769. A communication from the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Clarifications and Revisions to Military Aircraft, Gas Turbine Engines and Related Items License Requirements" (RIN0694-AG76) received in the Office of the President of the Senate on November 28, 2016; to the Committee on Banking, Housing, and Urban Affairs.

EC-7770. A communication from the Chief Counsel, Federal Emergency Management Agency, Department of Homeland Security,

transmitting, pursuant to law, the report of a rule entitled "Suspension of Community Eligibility; Massachusetts: Marshfield, Town of, Plymouth County" ((44 CFR Part 64) (Docket No. FEMA-2016-0002)) received in the Office of the President of the Senate on November 28, 2016; to the Committee on Banking, Housing, and Urban Affairs.

EC-7771. A communication from the Secretary of the Treasury, transmitting, pursuant to law, a six-month periodic report on the national emergency with respect to the stabilization of Iraq that was declared in Executive Order 13303 of May 22, 2003; to the Committee on Banking, Housing, and Urban Affairs.

EC-7772. A communication from the Secretary of the Treasury, transmitting, pursuant to law, a final report on the national emergency with respect to Burma that was declared in Executive Order 13047 of May 20, 1997; to the Committee on Banking, Housing, and Urban Affairs.

EC-7773. A communication from the Secretary of the Treasury, transmitting, pursuant to law, a six-month periodic report on the national emergency with respect to Yemen that was originally declared in Executive Order 13611 on May 16, 2012; to the Committee on Banking, Housing, and Urban Affairs.

#### PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-256. A joint resolution adopted by the General Assembly of the State of Indiana requesting the United States Congress to call a constitutional convention for the purpose of proposing an amendment to the United States Constitution concerning imposition of fiscal restraints on the federal government, limitations of the powers and jurisdiction of federal powers, and the limitation of the terms of office for its officials and for members of Congress; to the Committee on the Judiciary.

#### SENATE ENROLLED JOINT RESOLUTION No. 14

Section 1. The legislature of the State of Indiana hereby applies to Congress, under the provisions of Article V of the Constitution of the United States, for the calling of a convention of the states limited to proposing amendments to the Constitution of the United States that impose fiscal restraints of the federal government, limit the power and jurisdiction of the federal government, and limit the terms of office for its officials and for members of Congress.

Section 2. The secretary of state is hereby directed to transmit copies of this application to the President and Secretary of the United States Senate and to the Speaker and Clerk of the United States House of Representatives, and copies to the members of the said Senate and House of Representatives from this State; also to transmit copies hereof to the presiding officers of each of the legislative houses in the several States, requesting their cooperation.

Section 3. This application constitutes a continuing application in accordance with Article V of the Constitution of the United States until the legislatures of at least two-thirds of the several States have made applications on the same subject.

POM-257. A petition from a citizen of the State of Texas relative to a proposed amendment to the United States Constitution; to the Committee on the Judiciary.

#### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. THUNE, from the Committee on Commerce, Science, and Transportation,

with an amendment in the nature of a substitute:

S. 3084. A bill to invest in innovation through research and development, and to improve the competitiveness of the United States (Rept. No. 114-389).

By Mr. CORKER, from the Committee on Foreign Relations, with an amendment in the nature of a substitute:

S. 2201. A bill to promote international trade, and for other purposes.

#### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first

and second times by unanimous consent, and referred as indicated:

By Mr. VITTER (for himself and Ms. KLOBUCHAR):

S. 7. A bill to amend title XVIII of the Social Security Act to make permanent the removal of the rental cap for durable medical equipment under the Medicare program with respect to speech generating devices; to the Committee on Finance.

By Mr. CORKER (for himself and Mr. CARDIN):

S. 8. A bill to provide for the approval of the Agreement for Cooperation Between the Government of the United States of America and the Government of the Kingdom of Norway Concerning Peaceful Uses of Nuclear Energy; to the Committee on Foreign Relations.

By Ms. WARREN (for herself and Mr. GRASSLEY):

S. 9. A bill to provide for the regulation of over-the-counter hearing aids; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SCOTT (for himself, Mr. CASEY, Mr. WYDEN, Mr. GRAHAM, and Mr. BENNET):

S. 10. A bill to provide for the consideration of a definition of anti-Semitism for the enforcement of Federal antidiscrimination laws concerning education programs or activities; considered and passed.

By Mr. BOOKER (for himself and Mrs. GILLIBRAND):

S. 3489. A bill to prohibit a court from awarding damages based on race, ethnicity, gender, religion, or actual or perceived sexual orientation, and for other purposes; to the Committee on the Judiciary.

By Mr. MENENDEZ (for himself, Mr. PERDUE, and Mrs. GILLIBRAND):

S. 3490. A bill to direct the Secretary of Homeland Security to provide for an option under the Secure Mail Initiative under which a person to whom a document is sent under that initiative may require that the United States Postal Service obtain a signature from that person in order to deliver the document, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

By Mr. BROWN (for himself, Mr. LEAHY, Mr. FRANKEN, Mr. DURBIN, Mr. TESTER, Mrs. MURRAY, Mr. MERKLEY, Ms. WARREN, Ms. HIRONO, Mr. CASEY, Mr. WARNER, Mr. MENENDEZ, Mr. BLUMENTHAL, Ms. HEITKAMP, and Mr. REED):

S. 3491. A bill to amend the Truth in Lending Act and the Electronic Fund Transfer Act to provide justice to victims of fraud; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. PETERS (for himself and Ms. STABENOW):

S. 3492. A bill to designate the Traverse City VA Community-Based Outpatient Clinic of the Department of Veterans Affairs in Traverse City, Michigan, as the "Colonel Demas T. Craw VA Clinic"; considered and passed.

By Mr. BOOKER (for himself and Mr. MENENDEZ):

S. 3493. A bill to revise the boundaries of certain John H. Chafee Coastal Barrier Resources System units in New Jersey; to the Committee on Environment and Public Works.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. ISAKSON (for himself and Ms. BALDWIN):

S. Res. 627. A resolution designating December 3, 2016, as "National Phenylketonuria Awareness Day"; considered and agreed to.

By Mr. BLUNT:

S. Res. 628. A resolution authorizing the printing of a revised edition of the Senate Rules and Manual; considered and agreed to.

## ADDITIONAL COSPONSORS

S. 290

At the request of Mr. MORAN, the name of the Senator from Montana (Mr. DAINES) was added as a cosponsor of S. 290, a bill to amend title 38, United States Code, to improve the accountability of employees of the Department of Veterans Affairs, and for other purposes.

S. 497

At the request of Mrs. MURRAY, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of S. 497, a bill to allow Americans to earn paid sick time so that they can address their own health needs and the health needs of their families.

S. 1490

At the request of Ms. KLOBUCHAR, the name of the Senator from Montana (Mr. DAINES) was added as a cosponsor of S. 1490, a bill to establish an advisory office within the Bureau of Consumer Protection of the Federal Trade Commission to prevent fraud targeting seniors, and for other purposes.

S. 1794

At the request of Mr. MERKLEY, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1794, a bill to prohibit drilling in the Arctic Ocean.

S. 2208

At the request of Mrs. MURRAY, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of S. 2208, a bill to promote the economic security and safety of survivors of domestic violence, dating violence, sexual assault, or stalking, and for other purposes.

S. 2577

At the request of Mr. LEAHY, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 2577, a bill to protect crime victims' rights, to eliminate the substantial backlog of DNA and other forensic evidence samples to improve and expand the forensic science testing capacity of Federal, State, and local crime laboratories, to increase research and development of new testing technologies, to develop new training programs regarding the collection and use of forensic evidence, to provide

post-conviction testing of DNA evidence to exonerate the innocent, to support accreditation efforts of forensic science laboratories and medical examiner offices, to address training and equipment needs, to improve the performance of counsel in State capital cases, and for other purposes.

S. 2645

At the request of Mrs. SHAHEEN, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of S. 2645, a bill to impose sanctions with respect to foreign persons responsible for gross violations of internationally recognized human rights against lesbian, gay, bisexual, and transgender individuals, and for other purposes.

S. 2671

At the request of Mr. NELSON, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. 2671, a bill to amend title XVIII of the Social Security Act to establish rules for payment for graduate medical education (GME) costs for hospitals that establish a new medical residency training program after hosting resident rotators for short durations.

S. 2868

At the request of Mr. SCOTT, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 2868, a bill to amend the Internal Revenue Code of 1986 to provide for the deferral of inclusion in gross income for capital gains reinvested in economically distressed zones.

S. 2878

At the request of Mr. RUBIO, the name of the Senator from Nebraska (Mr. SASSE) was added as a cosponsor of S. 2878, a bill to amend the International Religious Freedom Act of 1998 to improve the ability of the United States to advance religious freedom globally through enhanced diplomacy, training, counterterrorism, and foreign assistance efforts, and through stronger and more flexible political responses to religious freedom violations and violent extremism worldwide, and for other purposes.

S. 2989

At the request of Ms. MURKOWSKI, the name of the Senator from Indiana (Mr. COATS) was added as a cosponsor of S. 2989, a bill to award a Congressional Gold Medal, collectively, to the United States merchant mariners of World War II, in recognition of their dedicated and vital service during World War II.

S. 3111

At the request of Mr. PORTMAN, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 3111, a bill to amend the Internal Revenue Code of 1986 to extend the 7.5 percent threshold for the medical expense deduction for individuals age 65 or older.

S. 3164

At the request of Mrs. SHAHEEN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 3164, a bill to provide protection for survivors of domestic violence or sexual assault under the Fair Housing Act.

S. 3299

At the request of Mr. DAINES, his name was added as a cosponsor of S. 3299, a bill to direct the Secretary of Homeland Security to notify air carriers and security screening personnel of the Transportation Security Administration regarding permitting baby formula, breast milk, and juice on aircraft, and for other purposes.

S. 3373

At the request of Mr. WARNER, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 3373, a bill to amend the Federal Deposit Insurance Act to ensure that the reciprocal deposits of an insured depository institution are not considered to be funds obtained by or through a deposit broker, and for other purposes.

S. 3391

At the request of Mr. REED, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 3391, a bill to reauthorize the Museum and Library Services Act.

S. 3447

At the request of Mr. SULLIVAN, the names of the Senator from South Dakota (Mr. ROUNDS) and the Senator from Maine (Mr. KING) were added as cosponsors of S. 3447, a bill to direct the Secretary of the Army to place in Arlington National Cemetery a memorial honoring the helicopter pilots and crew members of the Vietnam era, and for other purposes.

S. 3472

At the request of Mr. LEE, the names of the Senator from Kentucky (Mr. PAUL), the Senator from Florida (Mr. RUBIO) and the Senator from Texas (Mr. CRUZ) were added as cosponsors of S. 3472, a bill to require the Bureau of the Census to conduct a survey to determine income and poverty levels in the United States in a manner that accounts for the receipt of Federal means-tested benefits, and for other purposes.

S. 3476

At the request of Mrs. FEINSTEIN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 3476, a bill to waive recoupment by the United States of certain bonuses and similar benefits erroneously received by members of the Army National Guard, and for other purposes.

S. 3478

At the request of Mr. RUBIO, the name of the Senator from Georgia (Mr. PERDUE) was added as a cosponsor of S. 3478, a bill to require continued and en-

hanced annual reporting to Congress in the Annual Report on International Religious Freedom on anti-Semitic incidents in Europe, the safety and security of European Jewish communities, and the efforts of the United States to partner with European governments, the European Union, and civil society groups, to combat anti-Semitism, and for other purposes.

S. CON. RES. 51

At the request of Mr. GRASSLEY, the name of the Senator from South Dakota (Mr. ROUNDS) was added as a cosponsor of S. Con. Res. 51, a concurrent resolution expressing the sense of Congress that those who served in the bays, harbors, and territorial seas of the Republic of Vietnam during the period beginning on January 9, 1962, and ending on May 7, 1975, should be presumed to have been exposed to the toxin Agent Orange and should be eligible for all related Federal benefits that come with such presumption under the Agent Orange Act of 1991.

S. CON. RES. 56

At the request of Mr. CARDIN, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. Con. Res. 56, a concurrent resolution clarifying any potential misunderstanding as to whether actions taken by President-elect Donald Trump constitute a violation of the Emoluments Clause, and calling on President-elect Trump to divest his interest in, and sever his relationship to, the Trump Organization.

S. RES. 580

At the request of Mr. BOOKER, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. Res. 580, a resolution supporting the establishment of a President's Youth Council.

S. RES. 616

At the request of Mrs. SHAHEEN, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. Res. 616, a resolution supporting the goals and ideals of American Diabetes Month.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BROWN (for himself, Mr. LEAHY, Mr. FRANKEN, Mr. DURBIN, Mr. TESTER, Mrs. MURRAY, Mr. MERKLEY, Ms. WARREN, Mr. HIRONO, Mr. CASEY, Mr. WARNER, Mr. MENENDEZ, Mr. BLUMENTHAL, Ms. HEITKAMP, and Mr. REED):

S. 3491. A bill to amend the Truth in Lending Act and the Electronic Fund Transfer Act to provide justice to victims of fraud; to the Committee on Banking, Housing, and Urban Affairs.

Mr. BOOKER. Mr. President, I rise to introduce the Fair Calculations in Civil Damages Act of 2016, also known as the Fair Calculations Act. This crit-

ical civil rights legislation would ensure that Federal judicial awards of civil damages do not value women and minorities less than other Americans. By combating discrimination in the award of civil damages, the Fair Calculations Act would help bring our nation one step closer to fulfilling the promise of equal justice under law. I thank Senator GILLIBRAND for her support, and I am proud she is an original cosponsor of this bill. I also thank Rep. KENNEDY, who is introducing the House companion to this bill, for his leadership.

A basic tenet of the American legal system is our shared belief that "all men are created equal," an idea so critical to who we are and what we believe that it is explicitly reflected in our Declaration of Independence. Even our national charter reflects the idea that everyone must be given equal protection under the laws. Out of this constitutional foundation lays a simple truth: to be equal under the law means, at a minimum, that neither our government nor the rule of the law should discriminate against anyone by virtue of his or her membership in a group.

Sadly, our Nation fails to live up to those promises when courts award damages in civil cases. Far too often, Federal and State judges use race or gender as factors to weigh when deciding how much money to award a plaintiff in a civil case. As a result, individuals of a certain race or gender often receive larger awards than people of a different race or gender, even in similar cases. This damages awards gap derives from estimates of how much money an individual would have earned over their lifetimes had they not been injured and, far too often, that estimate considers earnings and job levels by race and gender.

Consider the case of James McMillan, an African-American man who was injured during the 2003 Staten Island ferry crash. As a result of the crash, Mr. McMillan suffered a severe spinal cord injury that caused him to need medical care for the remainder of his life. He sued the City of New York. In response to his suit, the City of New York argued that he should receive less money for his injury because data demonstrated that African-American victims of spinal cord injuries lived fewer years than white victims and, therefore, he would incur fewer medical costs. Fortunately, the judge in that case rejected the city's argument. But no American should have to endure the indignity of having the value of their life determined by their race or gender.

The use of race and gender to project future earnings in courts is a widespread problem. According to a 2009 survey by the National Association of Forensic Economics, 44 percent of forensic economists reported considering race and 92 percent reported considering gender when estimating future earning rates for injured children.

Even leading scholars have been critical of this practice. Martha Chamallas, a law professor at the Ohio State University Law School, called the practice reminiscent of something “civil rights advocates [fought] in the 1960s.” Jennifer Wiggins, a law professor at the University of Maine Law School, has emphasized that the practice “reinforces past discrimination and pushes it out into the future and endorses.” I could not agree more.

The Fair Calculations Act, which I introduce today, would bar Federal courts from awarding damages based on race, ethnicity, gender, religion, or actual or perceived sexual orientation. Justice in an American court should not turn on race or gender, and the time has come to put an end to this discriminatory practice in Federal courts. I also believe this bill would serve as a road map for States who I hope will end this discriminatory practice in their courts.

The legislation would require the Department of Justice and the Department of Labor to develop guidance to the States on how calculations of future earnings for a violation of State tort law could violate Federal equal protection laws. That is yet another example of how this bill aims to persuade states to follow our lead. By issuing guidance to the states on this issue, the impact of this bill has the potential to be even more far-reaching.

The bill would require the Department of Labor to issue guidance to forensic economists on how to create inclusive future earnings tables that do not rely on race, ethnicity, gender, religion, or actual or perceived sexual orientation. Forensic economists are often used as experts in both Federal and State courts to advise lawyers and judges on the proper amounts to award for damages. Instructing these experts on the benefits of more representative future earnings tables and the legal hurdles of using less inclusive earning tables is yet another way to ensure that future earnings in State courts do not harm women or minorities.

Finally, the Fair Calculations Act would direct the Judicial Conference of the United States to conduct a study and report to Congress on the use of race, ethnicity, gender, age, disability, or actual or perceived sexual orientation in the calculation of future earnings in civil court cases. This provision provides for more transparency and record keeping. The first step to fixing a problem is understanding the extent of the problem you have, and this provision allows for Congress to track the extent of Federal judicial awards based on demographics. It also allows for more open government, which is important because transparency allows the American people to hold its government accountable.

Our Nation was founded on the idea that all people are created equal. Val-

uing one person's life more than another merely because of the color of their skin or sex belies this core value that makes our Nation great. The Fair Calculations Act would remedy this wrong and continue our country down the path towards fulfilling our Nation's promise of liberty and justice for all. I am proud to stand here today and introduce this critical bill and I urge its speedy passage.

#### SUBMITTED RESOLUTIONS

##### SENATE RESOLUTION 627—DESIGNATING DECEMBER 3, 2016, AS “NATIONAL PHENYLKETONURIA AWARENESS DAY”

Mr. ISAKSON (for himself and Ms. BALDWIN) submitted the following resolution; which was considered and agreed to:

S. RES. 627

Whereas phenylketonuria (in this preamble referred to as “PKU”) is a rare, inherited metabolic disorder that is characterized by the inability of the body to process the essential amino acid phenylalanine and which causes intellectual disability and other neurological problems, such as memory loss and mood disorders, when treatment is not started within the first few weeks of life;

Whereas PKU is also referred to as Phenylalanine Hydroxylase Deficiency;

Whereas newborn screening for PKU was initiated in the United States in 1963 and was recommended for inclusion in State newborn screening programs under the Newborn Screening Saves Lives Act of 2007 (Public Law 110-204);

Whereas approximately 1 out of every 15,000 infants in the United States is born with PKU;

Whereas PKU is treated with medical food;

Whereas the 2012 Phenylketonuria Scientific Review Conference affirmed the recommendation of lifelong dietary treatment for PKU made by the National Institutes of Health Consensus Development Conference Statement 2000;

Whereas, in 2014, the American College of Medical Genetics and Genomics and Genetic Metabolic Dieticians International published medical and dietary guidelines on the optimal treatment of PKU;

Whereas medical foods are medically necessary for children and adults living with PKU;

Whereas adults with PKU who discontinue treatment are at risk for serious medical issues, such as depression, impulse control disorder, phobias, tremors, and pareses;

Whereas women with PKU must maintain strict metabolic control before and during pregnancy to prevent fetal damage;

Whereas children born from untreated mothers with PKU may have a condition known as “maternal phenylketonuria syndrome”, which can cause small brains, intellectual disabilities, birth defects of the heart, and low birth weights;

Whereas, although there is no cure for PKU, treatment involving medical foods, medications, and restriction of phenylalanine intake can prevent progressive, irreversible brain damage;

Whereas access to health insurance coverage for medical food varies across the United States and the long-term costs asso-

ciated with caring for untreated children and adults with PKU far exceed the cost of providing medical food treatment;

Whereas gaps in medical foods coverage has a detrimental impact on individuals with PKU, their families, and society;

Whereas scientists and researchers are hopeful that breakthroughs in PKU research will be forthcoming;

Whereas researchers across the United States are conducting important research projects involving PKU; and

Whereas the Senate is an institution that can raise awareness of PKU among the general public and the medical community: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates December 3, 2016, as “National Phenylketonuria Awareness Day”;

(2) encourages all people in the United States to become more informed about phenylketonuria and the role of medical foods in treating phenylketonuria; and

(3) respectfully requests that the Secretary of the Senate transmit an enrolled copy of this resolution to the National PKU Alliance, a nonprofit organization dedicated to improving the lives of individuals with phenylketonuria.

##### SENATE RESOLUTION 628—AUTHORIZING THE PRINTING OF A REVISED EDITION OF THE SENATE RULES AND MANUAL

Mr. BLUNT submitted the following resolution; which was considered and agreed to:

S. RES. 628

*Resolved*, That—

(1) the Committee on Rules and Administration shall prepare a revised edition of the Senate Rules and Manual for the use of the 114th Congress;

(2) the manual shall be printed as a Senate document; and

(3) in addition to the usual number of copies, 1,500 copies of the manual shall be bound, of which—

(A) 500 paperbound copies shall be for the use of the Senate; and

(B) 1,000 copies shall be bound (550 paperbound, 250 nontabbed black skiver, 200 tabbed black skiver) and delivered as may be directed by the Committee on Rules and Administration.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 5117. Mr. MCCONNELL proposed an amendment to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes.

SA 5118. Mr. MCCONNELL proposed an amendment to amendment SA 5117 proposed by Mr. MCCONNELL to the bill H.R. 34, supra.

SA 5119. Mr. MCCONNELL proposed an amendment to the bill H.R. 34, supra.

SA 5120. Mr. MCCONNELL proposed an amendment to amendment SA 5119 proposed by Mr. MCCONNELL to the bill H.R. 34, supra.

SA 5121. Mr. MCCONNELL proposed an amendment to amendment SA 5120 proposed by Mr. MCCONNELL to the amendment SA 5119 proposed by Mr. MCCONNELL to the bill H.R. 34, supra.

SA 5122. Mr. JOHNSON submitted an amendment intended to be proposed by him

to the bill H.R. 34, *supra*; which was ordered to lie on the table.

SA 5123. Mr. SULLIVAN (for Mr. BURR (for himself and Ms. CANTWELL)) proposed an amendment to the bill S. 2058, to require the Secretary of Commerce to study the coverage gaps of the Next Generation Weather Radar of the National Weather Service and to develop a plan for improving radar coverage and hazardous weather detection and forecasting.

SA 5124. Mr. SULLIVAN (for Mr. BURR) proposed an amendment to the bill S. 2058, *supra*.

SA 5125. Mr. SULLIVAN (for Mr. THUNE (for himself and Mr. NELSON)) proposed an amendment to the bill H.R. 1561, to improve the National Oceanic and Atmospheric Administration's weather research through a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to support substantial improvement in weather forecasting and prediction of high impact weather events, to expand commercial opportunities for the provision of weather data, and for other purposes.

SA 5126. Mr. SULLIVAN (for Ms. CANTWELL) proposed an amendment to amendment SA 5125 proposed by Mr. SULLIVAN (for Mr. THUNE (for himself and Mr. NELSON)) to the bill H.R. 1561, *supra*.

#### TEXT OF AMENDMENTS

**SA 5117.** Mr. MCCONNELL proposed an amendment to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; as follows:

At the end add the following:

"This Act shall take effect 1 day after the date of enactment."

**SA 5118.** Mr. MCCONNELL proposed an amendment to amendment SA 5117 proposed by Mr. MCCONNELL to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; as follows:

Strike "1 day" and insert "2 days".

**SA 5119.** Mr. MCCONNELL proposed an amendment to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; as follows:

At the end add the following:

"This Act shall take effect 3 days after the date of enactment."

**SA 5120.** Mr. MCCONNELL proposed an amendment to amendment SA 5119 proposed by Mr. MCCONNELL to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; as follows:

Strike "3 days" and insert "4 days".

**SA 5121.** Mr. MCCONNELL proposed an amendment to amendment SA 5120 proposed by Mr. MCCONNELL to the amendment SA 5119 proposed by Mr. MCCONNELL to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; as follows:

Strike "4" and insert "5".

**SA 5122.** Mr. JOHNSON submitted an amendment intended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in division A, insert the following:

#### SEC. \_\_\_\_ USE OF UNAPPROVED MEDICAL PRODUCTS BY PATIENTS DIAGNOSED WITH A TERMINAL ILLNESS.

(a) **SHORT TITLE.**—This section may be cited as the "Trickett Wendler Right to Try Act of 2016".

(b) **USE OF UNAPPROVED MEDICAL PRODUCTS BY PATIENTS DIAGNOSED WITH A TERMINAL ILLNESS.**—

(1) **IN GENERAL.**—Notwithstanding the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), the Controlled Substances Act (21 U.S.C. 801 et seq.), and any other provision of Federal law, the Federal Government shall not take any action to prohibit or restrict—

(A) the production, manufacture, distribution, prescribing, or dispensing of an experimental drug, biological product, or device that—

(i) is intended to treat a patient who has been diagnosed with a terminal illness; and

(ii) is authorized by, and in accordance with, State law; and

(B) the possession or use of an experimental drug, biological product, or device—

(i) that is described in clauses (i) and (ii) of subparagraph (A); and

(ii) for which the patient has received a certification from a physician, who is in good standing with the physician's certifying organization or board, that the patient has exhausted, or otherwise does not meet qualifying criteria to receive, any other available treatment options.

(2) **NO LIABILITY OR USE OF OUTCOMES.**—

(A) **NO LIABILITY.**—Notwithstanding any other provision of law, no liability shall lie against a producer, manufacturer, distributor, prescriber, dispenser, possessor, or user of an experimental drug, biological product, or device for the production, manufacture, distribution, prescribing, dispensing, possession, or use of an experimental drug, biological product, or device that is in compliance with paragraph (1).

(B) **NO USE OF OUTCOMES.**—Notwithstanding any other provision of law, the outcome of any production, manufacture, distribution, prescribing, dispensing, possession, or use of an experimental drug, biological product, or device that was done in compliance with paragraph (1) shall not be used by a Federal agency reviewing the experimental drug, biological product, or device to delay or otherwise adversely impact review or approval of

such experimental drug, biological product, or device.

(3) **DEFINITIONS.**—In this section:

(A) **BIOLOGICAL PRODUCT.**—The term "biological product" has the meaning given to such term in section 351 of the Public Health Service Act (42 U.S.C. 262).

(B) **DEVICE; DRUG.**—The terms "device" and "drug" have the meanings given to such terms in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321).

(C) **EXPERIMENTAL DRUG, BIOLOGICAL PRODUCT, OR DEVICE.**—The term "experimental drug, biological product, or device" means a drug, biological product, or device that—

(i) has successfully completed a phase 1 clinical investigation;

(ii) remains under investigation in a clinical trial approved by the Food and Drug Administration; and

(iii) is not approved, licensed, or cleared for commercial distribution under section 505, 510(k), or 515 of the Federal Food, Drug, or Cosmetic Act (21 U.S.C. 355, 360(k), 360(e)) or section 351 of the Public Health Service Act (42 U.S.C. 262).

(D) **PHASE 1 CLINICAL INVESTIGATION.**—The term "phase 1 clinical investigation" means a phase 1 clinical investigation, as described in section 312.21 of title 21, Code of Federal Regulations (or any successor regulations).

(E) **TERMINAL ILLNESS.**—The term "terminal illness" has the meaning given to such term in the State law specified in paragraph (1)(A)(ii).

**SA 5123.** Mr. SULLIVAN (for Mr. BURR (for himself and Ms. CANTWELL)) proposed an amendment to the bill S. 2058, to require the Secretary of Commerce to study the coverage gaps of the Next Generation Weather Radar of the National Weather Service and to develop a plan for improving radar coverage and hazardous weather detection and forecasting; as follows:

Strike all after the enacting clause and insert the following:

#### SEC. \_\_\_\_ STUDY ON GAPS IN NEXRAD COVERAGE AND REQUIREMENT FOR PLAN TO ADDRESS SUCH GAPS.

(a) **STUDY ON GAPS IN NEXRAD COVERAGE.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of Commerce shall complete a study on gaps in the coverage of the Next Generation Weather Radar of the National Weather Service (referred to in this section as "NEXRAD").

(2) **ELEMENTS.**—In conducting the study required under paragraph (1), the Secretary shall—

(A) identify areas in the United States with limited or no NEXRAD coverage below 6,000 feet above ground level of the surrounding terrain;

(B) for the areas identified under subparagraph (A)—

(i) identify the key weather effects for which prediction would improve with improved radar detection;

(ii) identify additional sources of observations for high impact weather that were available and operational for such areas on the day before the date of the enactment of this Act, including Terminal Doppler Weather Radar (commonly known as "TDWR"), air surveillance radars of the Federal Aviation Administration, and cooperative network observers; and

(iii) assess the feasibility and advisability of efforts to integrate and upgrade Federal

radar capabilities that are not owned or controlled by the National Oceanic and Atmospheric Administration, including radar capabilities of the Federal Aviation Administration and the Department of Defense;

(C) assess the feasibility and advisability of incorporating State-operated and other non-Federal radars into the operations of the National Weather Service;

(D) identify options to improve radar coverage in the areas identified under subparagraph (A); and

(E) estimate the cost of, and develop a timeline for, carrying out each of the options identified under subparagraph (D).

(3) **REPORT.**—Upon the completion of the study required under paragraph (1), the Secretary shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Appropriations of the House of Representatives that includes the findings of the Secretary with respect to the study.

(b) **PLAN TO IMPROVE RADAR COVERAGE.**—Not later than 30 days after the completion of the study under subsection (a)(1), the Secretary of Commerce shall submit a plan to the congressional committees referred to in subsection (a)(3) for improving radar coverage in the areas identified under subsection (a)(2)(A) by integrating and upgrading, to the extent practicable, additional observation solutions to improve hazardous weather detection and forecasting.

(c) **REQUIREMENT FOR THIRD-PARTY REVIEWS REGARDING PLAN TO IMPROVE RADAR COVERAGE.**—The Secretary of Commerce shall seek third-party reviews on scientific methodology relating to, and the feasibility and advisability of, implementing the plan submitted under subsection (b), including the extent to which warning and forecast services of the National Weather Service would be improved by additional NEXRAD coverage.

**SA 5124.** Mr. SULLIVAN (for Mr. BURR) proposed an amendment to the bill S. 2058, to require the Secretary of Commerce to study the coverage gaps of the Next Generation Weather Radar of the National Weather Service and to develop a plan for improving radar coverage and hazardous weather detection and forecasting; as follows:

Amend the title so as to read: “A bill to require the Secretary of Commerce to study the coverage gaps of the Next Generation Weather Radar of the National Weather Service and to develop a plan for improving radar coverage and hazardous weather detection and forecasting.”.

**SA 5125.** Mr. SULLIVAN (for Mr. THUNE (for himself and Mr. NELSON)) proposed an amendment to the bill H.R. 1561, to improve the National Oceanic and Atmospheric Administration’s weather research through a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to support substantial improvement in weather forecasting and prediction of high impact weather events, to expand commercial opportunities for the provision of weather data, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

#### **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

(a) **SHORT TITLE.**—This Act may be cited as the “Weather Research and Forecasting Innovation Act of 2016”.

(b) **TABLE OF CONTENTS.**—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.  
Sec. 2. Definitions.

#### **TITLE I—UNITED STATES WEATHER RESEARCH AND FORECASTING IMPROVEMENT**

Sec. 101. Public safety priority.  
Sec. 102. Weather research and forecasting innovation.  
Sec. 103. Tornado warning improvement and extension program.  
Sec. 104. Hurricane forecast improvement program.  
Sec. 105. Weather research and development planning.  
Sec. 106. Observing system planning.  
Sec. 107. Observing system simulation experiments.  
Sec. 108. Annual report on computing resources prioritization.  
Sec. 109. United States Weather Research program.  
Sec. 110. Authorization of appropriations.

#### **TITLE II—SUBSEASONAL AND SEASONAL FORECASTING INNOVATION**

Sec. 201. Improving subseasonal and seasonal forecasts.

#### **TITLE III—WEATHER SATELLITE AND DATA INNOVATION**

Sec. 301. National Oceanic and Atmospheric Administration satellite and data management.  
Sec. 302. Commercial weather data.  
Sec. 303. Unnecessary duplication.

#### **TITLE IV—FEDERAL WEATHER COORDINATION**

Sec. 401. Environmental Information Services Working Group.  
Sec. 402. Interagency weather research and forecast innovation coordination.  
Sec. 403. Office of Oceanic and Atmospheric Research and National Weather Service exchange program.  
Sec. 404. Visiting fellows at National Weather Service.  
Sec. 405. Warning coordination meteorologists at weather forecast offices of National Weather Service.  
Sec. 406. Improving National Oceanic and Atmospheric Administration communication of hazardous weather and water events.  
Sec. 407. National Oceanic and Atmospheric Administration Weather Ready All Hazards Award Program.  
Sec. 408. Department of Defense weather forecasting activities.  
Sec. 409. National Weather Service; operations and workforce analysis.  
Sec. 410. Water resources.  
Sec. 411. Report on contract positions at National Weather Service.  
Sec. 412. Weather impacts to communities and infrastructure.  
Sec. 413. Weather enterprise outreach.

#### **SEC. 2. DEFINITIONS.**

In this Act:

(1) **SEASONAL.**—The term “seasonal” means the time range between 3 months and 2 years.

(2) **STATE.**—The term “State” means a State, a territory, or possession of the United States, including a Commonwealth, or the District of Columbia.

(3) **SUBSEASONAL.**—The term “subseasonal” means the time range between 2 weeks and 3 months.

(4) **UNDER SECRETARY.**—The term “Under Secretary” means the Under Secretary of Commerce for Oceans and Atmosphere.

(5) **WEATHER INDUSTRY AND WEATHER ENTERPRISE.**—The terms “weather industry” and “weather enterprise” are interchangeable in this Act, and include individuals and organizations from public, private, and academic sectors that contribute to the research, development, and production of weather forecast products, and primary consumers of these weather forecast products.

#### **TITLE I—UNITED STATES WEATHER RESEARCH AND FORECASTING IMPROVEMENT**

##### **SEC. 101. PUBLIC SAFETY PRIORITY.**

In conducting research, the Under Secretary shall prioritize improving weather data, modeling, computing, forecasting, and warnings for the protection of life and property and for the enhancement of the national economy.

##### **SEC. 102. WEATHER RESEARCH AND FORECASTING INNOVATION.**

(a) **PROGRAM.**—The Assistant Administrator for the Office of Oceanic and Atmospheric Research shall conduct a program to develop improved understanding of and forecast capabilities for atmospheric events and their impacts, placing priority on developing more accurate, timely, and effective warnings and forecasts of high impact weather events that endanger life and property.

(b) **PROGRAM ELEMENTS.**—The program described in subsection (a) shall focus on the following activities:

(1) Improving the fundamental understanding of weather consistent with section 101, including the boundary layer and other processes affecting high impact weather events.

(2) Improving the understanding of how the public receives, interprets, and responds to warnings and forecasts of high impact weather events that endanger life and property.

(3) Research and development, and transfer of knowledge, technologies, and applications to the National Weather Service and other appropriate agencies and entities, including the United States weather industry and academic partners, related to—

(A) advanced radar, radar networking technologies, and other ground-based technologies, including those emphasizing rapid, fine-scale sensing of the boundary layer and lower troposphere, and the use of innovative, dual-polarization, phased-array technologies;

(B) aerial weather observing systems;

(C) high performance computing and information technology and wireless communication networks;

(D) advanced numerical weather prediction systems and forecasting tools and techniques that improve the forecasting of timing, track, intensity, and severity of high impact weather, including through—

(i) the development of more effective mesoscale models;

(ii) more effective use of existing, and the development of new, regional and national cloud-resolving models;

(iii) enhanced global weather models; and

(iv) integrated assessment models;

(E) quantitative assessment tools for measuring the impact and value of data and observing systems, including Observing System Simulation Experiments (as described in section 107), Observing System Experiments, and Analyses of Alternatives;

(F) atmospheric chemistry and interactions essential to accurately characterizing atmospheric composition and predicting meteorological processes, including cloud microphysical, precipitation, and atmospheric electrification processes, to more effectively understand their role in severe weather; and

(G) additional sources of weather data and information, including commercial observing systems.

(4) A technology transfer initiative, carried out jointly and in coordination with the Director of the National Weather Service, and in cooperation with the United States weather industry and academic partners, to ensure continuous development and transition of the latest scientific and technological advances into operations of the National Weather Service and to establish a process to sunset outdated and expensive operational methods and tools to enable cost-effective transfer of new methods and tools into operations.

#### (C) EXTRAMURAL RESEARCH.—

(1) IN GENERAL.—In carrying out the program under this section, the Assistant Administrator for Oceanic and Atmospheric Research shall collaborate with and support the non-Federal weather research community, which includes institutions of higher education, private entities, and nongovernmental organizations, by making funds available through competitive grants, contracts, and cooperative agreements.

(2) SENSE OF CONGRESS.—It is the sense of Congress that not less than 30 percent of the funds for weather research and development at the Office of Oceanic and Atmospheric Research should be made available for the purpose described in paragraph (1).

(d) ANNUAL REPORT.—Each year, concurrent with the annual budget request submitted by the President to Congress under section 1105 of title 31, United States Code, for the National Oceanic and Atmospheric Administration, the Under Secretary shall submit to Congress a description of current and planned activities under this section.

#### SEC. 103. TORNADO WARNING IMPROVEMENT AND EXTENSION PROGRAM.

(a) IN GENERAL.—The Under Secretary, in collaboration with the United States weather industry and academic partners, shall establish a tornado warning improvement and extension program.

(b) GOAL.—The goal of such program shall be to reduce the loss of life and economic losses from tornadoes through the development and extension of accurate, effective, and timely tornado forecasts, predictions, and warnings, including the prediction of tornadoes beyond one hour in advance.

(c) PROGRAM PLAN.—Not later than 180 days after the date of the enactment of this Act, the Assistant Administrator for Oceanic and Atmospheric Research, in coordination with the Director of the National Weather Service, shall develop a program plan that details the specific research, development, and technology transfer activities, as well as corresponding resources and timelines, necessary to achieve the program goal.

(d) ANNUAL BUDGET FOR PLAN SUBMITTAL.—Following completion of the plan, the Under Secretary, acting through the Assistant Administrator for Oceanic and Atmospheric Research and in coordination with the Director of the National Weather Service, shall, not less frequently than once each year, submit to Congress a proposed budget corresponding with the activities identified in the plan.

#### SEC. 104. HURRICANE FORECAST IMPROVEMENT PROGRAM.

(a) IN GENERAL.—The Under Secretary, in collaboration with the United States weather

industry and such academic entities as the Administrator considers appropriate, shall maintain a project to improve hurricane forecasting.

(b) GOAL.—The goal of the project maintained under subsection (a) shall be to develop and extend accurate hurricane forecasts and warnings in order to reduce loss of life, injury, and damage to the economy, with a focus on—

(1) improving the prediction of rapid intensification and track of hurricanes;

(2) improving the forecast and communication of storm surges from hurricanes; and

(3) incorporating risk communication research to create more effective watch and warning products.

(c) PROJECT PLAN.—Not later than 1 year after the date of the enactment of this Act, the Under Secretary, acting through the Assistant Administrator for Oceanic and Atmospheric Research and in consultation with the Director of the National Weather Service, shall develop a plan for the project maintained under subsection (a) that details the specific research, development, and technology transfer activities, as well as corresponding resources and timelines, necessary to achieve the goal set forth in subsection (b).

#### SEC. 105. WEATHER RESEARCH AND DEVELOPMENT PLANNING.

Not later than 1 year after the date of the enactment of this Act, and not less frequently than once each year thereafter, the Under Secretary, acting through the Assistant Administrator for Oceanic and Atmospheric Research and in coordination with the Director of the National Weather Service and the Assistant Administrator for Satellite and Information Services, shall issue a research and development and research to operations plan to restore and maintain United States leadership in numerical weather prediction and forecasting that—

(1) describes the forecasting skill and technology goals, objectives, and progress of the National Oceanic and Atmospheric Administration in carrying out the program conducted under section 102;

(2) identifies and prioritizes specific research and development activities, and performance metrics, weighted to meet the operational weather mission of the National Weather Service to achieve a weather-ready Nation;

(3) describes how the program will collaborate with stakeholders, including the United States weather industry and academic partners; and

(4) identifies, through consultation with the National Science Foundation, the United States weather industry, and academic partners, research necessary to enhance the integration of social science knowledge into weather forecast and warning processes, including to improve the communication of threat information necessary to enable improved severe weather planning and decision-making on the part of individuals and communities.

#### SEC. 106. OBSERVING SYSTEM PLANNING.

The Under Secretary shall—

(1) develop and maintain a prioritized list of observation data requirements necessary to ensure weather forecasting capabilities to protect life and property to the maximum extent practicable;

(2) consistent with section 107, utilize Observing System Simulation Experiments, Observing System Experiments, Analyses of Alternatives, and other appropriate assessment tools to ensure continuous systemic evaluations of the observing systems, data, and in-

formation needed to meet the requirements of paragraph (1), including options to maximize observational capabilities and their cost-effectiveness;

(3) identify current and potential future data gaps in observing capabilities related to the requirements listed under paragraph (1); and

(4) determine a range of options to address gaps identified under paragraph (3).

#### SEC. 107. OBSERVING SYSTEM SIMULATION EXPERIMENTS.

(a) IN GENERAL.—In support of the requirements of section 106, the Assistant Administrator for Oceanic and Atmospheric Research shall undertake Observing System Simulation Experiments, or such other quantitative assessments as the Assistant Administrator considers appropriate, to quantitatively assess the relative value and benefits of observing capabilities and systems. Technical and scientific Observing System Simulation Experiment evaluations—

(1) may include assessments of the impact of observing capabilities on—

(A) global weather prediction;

(B) hurricane track and intensity forecasting;

(C) tornado warning lead times and accuracy;

(D) prediction of mid-latitude severe local storm outbreaks; and

(E) prediction of storms that have the potential to cause extreme precipitation and flooding lasting from 6 hours to 1 week; and

(2) shall be conducted in cooperation with other appropriate entities within the National Oceanic and Atmospheric Administration, other Federal agencies, the United States weather industry, and academic partners to ensure the technical and scientific merit of results from Observing System Simulation Experiments or other appropriate quantitative assessment methodologies.

(b) REQUIREMENTS.—Observing System Simulation Experiments shall quantitatively—

(1) determine the potential impact of proposed space-based, suborbital, and in situ observing systems on analyses and forecasts, including potential impacts on extreme weather events across all parts of the Nation;

(2) evaluate and compare observing system design options; and

(3) assess the relative capabilities and costs of various observing systems and combinations of observing systems in providing data necessary to protect life and property.

(c) IMPLEMENTATION.—Observing System Simulation Experiments—

(1) shall be conducted prior to the acquisition of major Government-owned or Government-leased operational observing systems, including polar-orbiting and geostationary satellite systems, with a lifecycle cost of more than \$500,000,000; and

(2) shall be conducted prior to the purchase of any major new commercially provided data with a lifecycle cost of more than \$500,000,000.

(d) PRIORITY OBSERVING SYSTEM SIMULATION EXPERIMENTS.—

(1) GLOBAL NAVIGATION SATELLITE SYSTEM RADIO OCCULTATION.—Not later than 30 days after the date of the enactment of this Act, the Assistant Administrator for Oceanic and Atmospheric Research shall complete an Observing System Simulation Experiment to assess the value of data from Global Navigation Satellite System Radio Occultation.

(2) GEOSTATIONARY HYPERSPECTRAL SOUNDER GLOBAL CONSTELLATION.—Not later than 120 days after the date of the enactment of

this Act, the Assistant Administrator for Oceanic and Atmospheric Research shall complete an Observing System Simulation Experiment to assess the value of data from a geostationary hyperspectral sounder global constellation.

(e) **RESULTS.**—Upon completion of all Observing System Simulation Experiments, the Assistant Administrator shall make available to the public the results an assessment of related private and public sector weather data sourcing options, including their availability, affordability, and cost-effectiveness. Such assessments shall be developed in accordance with section 50503 of title 51, United States Code.

**SEC. 108. ANNUAL REPORT ON COMPUTING RESOURCES PRIORITIZATION.**

Not later than 1 year after the date of the enactment of this Act and not less frequently than once each year thereafter, the Under Secretary, acting through the Chief Information Officer of the National Oceanic and Atmospheric Administration and in coordination with the Assistant Administrator for Oceanic and Atmospheric Research and the Director of the National Weather Service, shall produce and make publicly available a report that explains how the Under Secretary intends—

(1) to continually support upgrades to pursue the fastest, most powerful, and cost-effective high performance computing technologies in support of its weather prediction mission;

(2) to ensure a balance between the research to operations requirements to develop the next generation of regional and global models as well as highly reliable operational models;

(3) to take advantage of advanced development concepts to, as appropriate, make next generation weather prediction models available in beta-test mode to operational forecasters, the United States weather industry, and partners in academic and Government research; and

(4) to use existing computing resources to improve advanced research and operational weather prediction.

**SEC. 109. UNITED STATES WEATHER RESEARCH PROGRAM.**

Section 108 of the Oceanic and Atmospheric Administration Authorization Act of 1992 (Public Law 102-567; 15 U.S.C. 313 note) is amended—

(1) in subsection (a)—

(A) in paragraph (3), by striking “; and” and inserting a semicolon;

(B) in paragraph (4), by striking the period at the end and inserting a semicolon; and

(C) by inserting after paragraph (4) the following:

“(5) submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives, not less frequently than once each year, a report, including—

“(A) a list of ongoing research projects;

“(B) project goals and a point of contact for each project;

“(C) the 5 projects related to weather observations, short-term weather, or subseasonal forecasts within Office of Oceanic and Atmospheric Research that are closest to operationalization,

“(D) for each project referred to in subparagraph (C)—

“(i) the potential benefit;

“(ii) any barrier to operationalization; and

“(iii) the plan for operationalization, including which line office will financially support the project and how much the line office intends to spend;

“(6) establish teams with staff from the Office of Oceanic and Atmospheric Research and the National Weather Service to oversee the operationalization of research products developed by the Office of Oceanic and Atmospheric Research;

“(7) develop mechanisms for research priorities of the Office of Oceanic and Atmospheric Research to be informed by the relevant line offices within the National Oceanic and Atmospheric Administration, the relevant user community, and the weather enterprise;

“(8) develop an internal mechanism to track the progress of each research project within the Office of Oceanic and Atmospheric Research and mechanisms to terminate a project that is not adequately progressing;

“(9) develop and implement a system to track whether extramural research grant goals were accomplished;

“(10) provide facilities for products developed by the Office of Oceanic and Atmospheric Research to be tested in operational simulations, such as test beds; and

“(11) encourage academic collaboration with the Office of Oceanic and Atmospheric Research and the National Weather Service by facilitating visiting scholars.”;

(2) in subsection (b), in the matter preceding paragraph (1), by striking “Not later than 90 days after the date of enactment of this Act, the” and inserting “The”; and

(3) by adding at the end the following new subsection:

“(c) **SUBSEASONAL DEFINED.**—In this section, the term ‘subseasonal’ means the time range between 2 weeks and 3 months.”.

**SEC. 110. AUTHORIZATION OF APPROPRIATIONS.**

(a) **FISCAL YEARS 2016 THROUGH 2018.**—For each of fiscal years 2016 through 2018, there are authorized to be appropriated to Office of Oceanic and Atmospheric Research—

(1) \$111,516,000 to carry out this title, of which—

(A) \$85,758,000 is authorized for weather laboratories and cooperative institutes; and

(B) \$25,758,000 is authorized for weather and air chemistry research programs; and

(2) an additional amount of \$20,000,000 for the joint technology transfer initiative described in section 102(b)(4).

(b) **LIMITATION.**—No additional funds are authorized to carry out this title and the amendments made by this title.

**TITLE II—SUBSEASONAL AND SEASONAL FORECASTING INNOVATION**

**SEC. 201. IMPROVING SUBSEASONAL AND SEASONAL FORECASTS.**

Section 1762 of the Food Security Act of 1985 (Public Law 99-198; 15 U.S.C. 313 note) is amended—

(1) in subsection (a), by striking “(a)” and inserting “(a) FINDINGS.—”;

(2) in subsection (b), by striking “(b)” and inserting “(b) POLICY.—”;

(3) by adding at the end the following:

“(c) **FUNCTIONS.**—The Under Secretary, acting through the Director of the National Weather Service and the heads of such other programs of the National Oceanic and Atmospheric Administration as the Under Secretary considers appropriate, shall—

“(1) collect and utilize information in order to make usable, reliable, and timely foundational forecasts of subseasonal and seasonal temperature and precipitation;

“(2) leverage existing research and models from the weather enterprise to improve the forecasts under paragraph (1);

“(3) determine and provide information on how the forecasted conditions under paragraph (1) may impact—

“(A) the number and severity of droughts, fires, tornadoes, hurricanes, floods, heat waves, coastal inundation, winter storms, high impact weather, or other relevant natural disasters;

“(B) snowpack; and

“(C) sea ice conditions; and

“(4) develop an Internet clearinghouse to provide the forecasts under paragraph (1) and the information under paragraphs (1) and (3) on both national and regional levels.

“(d) **COMMUNICATION.**—The Director of the National Weather Service shall provide the forecasts under paragraph (1) of subsection (c) and the information on their impacts under paragraph (3) of such subsection to the public, including public and private entities engaged in planning and preparedness, such as National Weather Service Core partners at the Federal, regional, State, tribal, and local levels of government.

“(e) **COOPERATION.**—The Under Secretary shall build upon existing forecasting and assessment programs and partnerships, including—

“(1) by designating research and monitoring activities related to subseasonal and seasonal forecasts as a priority in 1 or more solicitations of the Cooperative Institutes of the Office of Oceanic and Atmospheric Research;

“(2) by contributing to the interagency Earth System Prediction Capability; and

“(3) by consulting with the Secretary of Defense and the Secretary of Homeland Security to determine the highest priority subseasonal and seasonal forecast needs to enhance national security.

“(f) **FORECAST COMMUNICATION COORDINATORS.**—

“(1) **IN GENERAL.**—The Under Secretary shall foster effective communication, understanding, and use of the forecasts by the intended users of the information described in subsection (d). This may include assistance to States for forecast communication coordinators to enable local interpretation and planning based on the information.

“(2) **REQUIREMENTS.**—For each State that requests assistance under this subsection, the Under Secretary may—

“(A) provide funds to support an individual in that State—

“(i) to serve as a liaison among the National Oceanic and Atmospheric Administration, other Federal departments and agencies, the weather enterprise, the State, and relevant interests within that State; and

“(ii) to receive the forecasts and information under subsection (c) and disseminate the forecasts and information throughout the State, including to county and tribal governments; and

“(B) require matching funds of at least 50 percent, from the State, a university, a non-governmental organization, a trade association, or the private sector.

“(3) **LIMITATION.**—Assistance to an individual State under this subsection shall not exceed \$100,000 in a fiscal year.

“(g) **COOPERATION FROM OTHER FEDERAL AGENCIES.**—Each Federal department and agency shall cooperate as appropriate with the Under Secretary in carrying out this section.

“(h) **REPORTS.**—

“(1) **IN GENERAL.**—Not later than 18 months after the date of the enactment of the Weather Research and Forecasting Innovation Act of 2016, the Under Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report, including—

“(A) an analysis of the how information from the National Oceanic and Atmospheric Administration on subseasonal and seasonal forecasts, as provided under subsection (c), is utilized in public planning and preparedness;

“(B) specific plans and goals for the continued development of the subseasonal and seasonal forecasts and related products described in subsection (c); and

“(C) an identification of research, monitoring, observing, and forecasting requirements to meet the goals described in subparagraph (B).

“(2) CONSULTATION.—In developing the report under paragraph (1), the Under Secretary shall consult with relevant Federal, regional, State, tribal, and local government agencies, research institutions, and the private sector.

“(i) DEFINITIONS.—In this section:

“(1) FOUNDATIONAL FORECAST.—The term ‘foundational forecast’ means basic weather observation and forecast data, largely in raw form, before further processing is applied.

“(2) NATIONAL WEATHER SERVICE CORE PARTNERS.—The term ‘National Weather Service core partners’ means government and non-government entities which are directly involved in the preparation or dissemination of, or discussions involving, hazardous weather or other emergency information put out by the National Weather Service.

“(3) SEASONAL.—The term ‘seasonal’ means the time range between 3 months and 2 years.

“(4) STATE.—The term ‘State’ means a State, a territory, or possession of the United States, including a Commonwealth, or the District of Columbia.

“(5) SUBSEASONAL.—The term ‘subseasonal’ means the time range between 2 weeks and 3 months.

“(6) UNDER SECRETARY.—The term ‘Under Secretary’ means the Under Secretary of Commerce for Oceans and Atmosphere.

“(7) WEATHER INDUSTRY AND WEATHER ENTERPRISE.—The terms ‘weather industry’ and ‘weather enterprise’ are interchangeable in this section and include individuals and organizations from public, private, and academic sectors that contribute to the research, development, and production of weather forecast products, and primary consumers of these weather forecast products.

“(j) AUTHORIZATION OF APPROPRIATIONS.—For each of fiscal years 2016 through 2018, there are authorized out of funds appropriated to the National Weather Service, \$26,500,000 to carry out the activities of this section.”.

### TITLE III—WEATHER SATELLITE AND DATA INNOVATION

#### SEC. 301. NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION SATELLITE AND DATA MANAGEMENT.

(a) SHORT-TERM MANAGEMENT OF ENVIRONMENTAL OBSERVATIONS.—

(1) MICROSATELLITE CONSTELLATIONS.—

(A) IN GENERAL.—The Under Secretary shall complete and operationalize the Constellation Observing System for Meteorology, Ionosphere, and Climate-1 and Climate-2 (COSMIC) in effect on the day before the date of the enactment of this Act—

(i) by deploying constellations of microsatellites in both the equatorial and polar orbits;

(ii) by integrating the resulting data and research into all national operational and research weather forecast models; and

(iii) by ensuring that the resulting data of National Oceanic and Atmospheric Administration’s COSMIC-1 and COSMIC-2 programs are free and open to all communities.

(B) ANNUAL REPORTS.—Not less frequently than once each year until the Under Secretary has completed and operationalized the program described in subparagraph (A) pursuant to such subparagraph, the Under Secretary shall submit to Congress a report on the status of the efforts of the Under Secretary to carry out such subparagraph.

(2) INTEGRATION OF OCEAN AND COASTAL DATA FROM THE INTEGRATED OCEAN OBSERVING SYSTEM.—In National Weather Service Regions where the Director of the National Weather Service determines that ocean and coastal data would improve forecasts, the Director, in consultation with the Assistant Administrator for Oceanic and Atmospheric Research and the Assistant Administrator of the National Ocean Service, shall—

(A) integrate additional coastal and ocean observations, and other data and research, from the Integrated Ocean Observing System (IOOS) into regional weather forecasts to improve weather forecasts and forecasting decision support systems; and

(B) support the development of real-time data sharing products and forecast products in collaboration with the regional associations of such system, including contributions from the private sector, academia, and research institutions to ensure timely and accurate use of ocean and coastal data in regional forecasts.

(3) EXISTING MONITORING AND OBSERVATION CAPABILITY.—The Under Secretary shall identify degradation of existing monitoring and observation capabilities that could lead to a reduction in forecast quality.

(4) SPECIFICATIONS FOR NEW SATELLITE SYSTEMS OR DATA DETERMINED BY OPERATIONAL NEEDS.—In developing specifications for any satellite systems or data to follow the Joint Polar Satellite System, Geostationary Operational Environmental Satellites, and any other satellites, in effect on the day before the date of enactment of this Act, the Under Secretary shall ensure the specifications are determined to the extent practicable by the recommendations of the reports under subsection (b) of this section.

(b) INDEPENDENT STUDY ON FUTURE OF NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION SATELLITE SYSTEMS AND DATA.—

(1) AGREEMENT.—

(A) IN GENERAL.—The Under Secretary shall seek to enter into an agreement with the National Academy of Sciences to perform the services covered by this subsection.

(B) TIMING.—The Under Secretary shall seek to enter into the agreement described in subparagraph (A) before September 30, 2018.

(2) STUDY.—

(A) IN GENERAL.—Under an agreement between the Under Secretary and the National Academy of Sciences under this subsection, the National Academy of Sciences shall conduct a study on matters concerning future satellite data needs.

(B) ELEMENTS.—In conducting the study under subparagraph (A), the National Academy of Sciences shall—

(i) develop recommendations on how to make the data portfolio of the Administration more robust and cost-effective;

(ii) assess the costs and benefits of moving toward a constellation of many small satellites, standardizing satellite bus design, relying more on the purchasing of data, or acquiring data from other sources or methods;

(iii) identify the environmental observations that are essential to the performance of weather models, based on an assessment of Federal, academic, and private sector weather research, and the cost of obtaining the environmental data;

(iv) identify environmental observations that improve the quality of operational and research weather models in effect on the day before the date of enactment of this Act;

(v) identify and prioritize new environmental observations that could contribute to existing and future weather models; and

(vi) develop recommendations on a portfolio of environmental observations that balances essential, quality-improving, and new data, private and nonprivate sources, and space-based and Earth-based sources.

(C) DEADLINE AND REPORT.—In carrying out the study under subparagraph (A), the National Academy of Sciences shall complete and transmit to the Under Secretary a report containing the findings of the National Academy of Sciences with respect to the study not later than 2 years after the date on which the Administrator enters into an agreement with the National Academy of Sciences under paragraph (1)(A).

(3) ALTERNATE ORGANIZATION.—

(A) IN GENERAL.—If the Under Secretary is unable within the period prescribed in subparagraph (B) of paragraph (1) to enter into an agreement described in subparagraph (A) of such paragraph with the National Academy of Sciences on terms acceptable to the Under Secretary, the Under Secretary shall seek to enter into such an agreement with another appropriate organization that—

(i) is not part of the Federal Government;

(ii) operates as a not-for-profit entity; and

(iii) has expertise and objectivity comparable to that of the National Academy of Sciences.

(B) TREATMENT.—If the Under Secretary enters into an agreement with another organization as described in subparagraph (A), any reference in this subsection to the National Academy of Sciences shall be treated as a reference to the other organization.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated, out of funds appropriated to National Environmental Satellite, Data, and Information Service, to carry out this subsection \$1,000,000 for the period encompassing fiscal years 2018 through 2019.

#### SEC. 302. COMMERCIAL WEATHER DATA.

(a) DATA AND HOSTED SATELLITE PAYLOADS.—Notwithstanding any other provision of law, the Secretary of Commerce may enter into agreements for—

(1) the purchase of weather data through contracts with commercial providers; and

(2) the placement of weather satellite instruments on cohosted government or private payloads.

(b) STRATEGY.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Commerce, in consultation with the Under Secretary, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a strategy to enable the procurement of quality commercial weather data. The strategy shall assess the range of commercial opportunities, including public-private partnerships, for obtaining surface-based, aviation-based, and space-based weather observations. The strategy shall include the expected cost-effectiveness of these opportunities as well as provide a plan for procuring data, including an expected implementation timeline, from these nongovernmental sources, as appropriate.

(2) REQUIREMENTS.—The strategy shall include—

(A) an analysis of financial or other benefits to, and risks associated with, acquiring

commercial weather data or services, including through multiyear acquisition approaches;

(B) an identification of methods to address planning, programming, budgeting, and execution challenges to such approaches, including—

(i) how standards will be set to ensure that data is reliable and effective;

(ii) how data may be acquired through commercial experimental or innovative techniques and then evaluated for integration into operational use;

(iii) how to guarantee public access to all forecast-critical data to ensure that the United States weather industry and the public continue to have access to information critical to their work; and

(iv) in accordance with section 50503 of title 51, United States Code, methods to address potential termination liability or cancellation costs associated with weather data or service contracts; and

(C) an identification of any changes needed in the requirements development and approval processes of the Department of Commerce to facilitate effective and efficient implementation of such strategy.

(3) **AUTHORITY FOR AGREEMENTS.**—The Assistant Administrator for National Environmental Satellite, Data, and Information Service may enter into multiyear agreements necessary to carry out the strategy developed under this subsection.

(c) **PILOT PROGRAM.**—

(1) **CRITERIA.**—Not later than 30 days after the date of the enactment of this Act, the Under Secretary shall publish data and metadata standards and specifications for space-based commercial weather data, including radio occultation data, and, as soon as possible, geostationary hyperspectral sounder data.

(2) **PILOT CONTRACTS.**—

(A) **CONTRACTS.**—Not later than 90 days after the date of enactment of this Act, the Under Secretary shall, through an open competition, enter into at least one pilot contract with one or more private sector entities capable of providing data that meet the standards and specifications set by the Under Secretary for providing commercial weather data in a manner that allows the Under Secretary to calibrate and evaluate the data for its use in National Oceanic and Atmospheric Administration meteorological models.

(B) **ASSESSMENT OF DATA VIABILITY.**—Not later than the date that is 3 years after the date on which the Under Secretary enters into a contract under subparagraph (A), the Under Secretary shall assess and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives the results of a determination of the extent to which data provided under the contract entered into under subparagraph (A) meet the criteria published under paragraph (1) and the extent to which the pilot program has demonstrated—

(i) the viability of assimilating the commercially provided data into National Oceanic and Atmospheric Administration meteorological models;

(ii) whether, and by how much, the data add value to weather forecasts; and

(iii) the accuracy, quality, timeliness, validity, reliability, usability, information technology security, and cost-effectiveness of obtaining commercial weather data from private sector providers.

(3) **AUTHORIZATION OF APPROPRIATIONS.**—For each of fiscal years 2017 through 2020,

there are authorized to be appropriated for procurement, acquisition, and construction at National Environmental Satellite, Data, and Information Service, \$6,000,000 to carry out this subsection.

(d) **OBTAINING FUTURE DATA.**—If an assessment under subsection (c)(2)(B) demonstrates the ability of commercial weather data to meet data and metadata standards and specifications published under subsection (c)(1), the Under Secretary shall—

(1) where appropriate, cost-effective, and feasible, obtain commercial weather data from private sector providers;

(2) as early as possible in the acquisition process for any future National Oceanic and Atmospheric Administration meteorological space system, consider whether there is a suitable, cost-effective, commercial capability available or that will be available to meet any or all of the observational requirements by the planned operational date of the system;

(3) if a suitable, cost-effective, commercial capability is or will be available as described in paragraph (2), determine whether it is in the national interest to develop a governmental meteorological space system; and

(4) submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report detailing any determination made under paragraphs (2) and (3).

(e) **DATA SHARING PRACTICES.**—The Under Secretary shall continue to meet the international meteorological agreements into which the Under Secretary has entered, including practices set forth through World Meteorological Organization Resolution 40.

**SEC. 303. UNNECESSARY DUPLICATION.**

In meeting the requirements under this title, the Under Secretary shall avoid unnecessary duplication between public and private sources of data and the corresponding expenditure of funds and employment of personnel.

#### **TITLE IV—FEDERAL WEATHER COORDINATION**

**SEC. 401. ENVIRONMENTAL INFORMATION SERVICES WORKING GROUP.**

(a) **ESTABLISHMENT.**—The National Oceanic and Atmospheric Administration Science Advisory Board shall continue to maintain a standing working group named the Environmental Information Services Working Group (in this section referred to as the “Working Group”)—

(1) to provide advice for prioritizing weather research initiatives at the National Oceanic and Atmospheric Administration to produce real improvement in weather forecasting;

(2) to provide advice on existing or emerging technologies or techniques that can be found in private industry or the research community that could be incorporated into forecasting at the National Weather Service to improve forecasting skill;

(3) to identify opportunities to improve—

(A) communications between weather forecasters, Federal, State, local, tribal, and other emergency management personnel, and the public; and

(B) communications and partnerships among the National Oceanic and Atmospheric Administration and the private and academic sectors; and

(4) to address such other matters as the Science Advisory Board requests of the Working Group.

(b) **COMPOSITION.**—

(1) **IN GENERAL.**—The Working Group shall be composed of leading experts and

innovators from all relevant fields of science and engineering including atmospheric chemistry, atmospheric physics, meteorology, hydrology, social science, risk communications, electrical engineering, and computer sciences. In carrying out this section, the Working Group may organize into subpanels.

(2) **NUMBER.**—The Working Group shall be composed of no fewer than 15 members. Nominees for the Working Group may be forwarded by the Working Group for approval by the Science Advisory Board. Members of the Working Group may choose a chair (or co-chairs) from among their number with approval by the Science Advisory Board.

(c) **ANNUAL REPORT.**—Not less frequently than once each year, the Working Group shall transmit to the Science Advisory Board for submission to the Under Secretary a report on progress made by National Oceanic and Atmospheric Administration in adopting the Working Group's recommendations. The Science Advisory Board shall transmit this report to the Under Secretary. Within 30 days of receipt of such report, the Under Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a copy of such report.

**SEC. 402. INTERAGENCY WEATHER RESEARCH AND FORECAST INNOVATION COORDINATION.**

(a) **ESTABLISHMENT.**—The Director of the Office of Science and Technology Policy shall establish an Interagency Committee for Advancing Weather Services to improve coordination of relevant weather research and forecast innovation activities across the Federal Government. The Interagency Committee shall—

(1) include participation by the National Aeronautics and Space Administration, the Federal Aviation Administration, National Oceanic and Atmospheric Administration and its constituent elements, the National Science Foundation, and such other agencies involved in weather forecasting research as the President determines are appropriate;

(2) identify and prioritize top forecast needs and coordinate those needs against budget requests and program initiatives across participating offices and agencies; and

(3) share information regarding operational needs and forecasting improvements across relevant agencies.

(b) **CO-CHAIR.**—The Federal Coordinator for Meteorology shall serve as a co-chair of this panel.

(c) **FURTHER COORDINATION.**—The Director of the Office of Science and Technology Policy shall take such other steps as are necessary to coordinate the activities of the Federal Government with those of the United States weather industry, State governments, emergency managers, and academic researchers.

**SEC. 403. OFFICE OF OCEANIC AND ATMOSPHERIC RESEARCH AND NATIONAL WEATHER SERVICE EXCHANGE PROGRAM.**

(a) **IN GENERAL.**—The Assistant Administrator for Oceanic and Atmospheric Research and the Director of National Weather Service may establish a program to detail Office of Oceanic and Atmospheric Research personnel to the National Weather Service and National Weather Service personnel to the Office of Oceanic and Atmospheric Research.

(b) **GOAL.**—The goal of this program is to enhance forecasting innovation through regular, direct interaction between the Office of Oceanic and Atmospheric Research's world-class scientists and the National Weather Service's operational staff.

(c) **ELEMENTS.**—The program shall allow up to 10 Office of Oceanic and Atmospheric Research staff and National Weather Service staff to spend up to 1 year on detail. Candidates shall be jointly selected by the Assistant Administrator for Oceanic and Atmospheric Research and the Director of the National Weather Service.

(d) **ANNUAL REPORT.**—Not less frequently than once each year, the Under Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on participation in such program and shall highlight any innovations that come from this interaction.

**SEC. 404. VISITING FELLOWS AT NATIONAL WEATHER SERVICE.**

(a) **IN GENERAL.**—The Director of the National Weather Service may establish a program to host postdoctoral fellows and academic researchers at any of the National Centers for Environmental Prediction.

(b) **GOAL.**—This program shall be designed to provide direct interaction between forecasters and talented academic and private sector researchers in an effort to bring innovation to forecasting tools and techniques to the National Weather Service.

(c) **SELECTION AND APPOINTMENT.**—Such fellows shall be competitively selected and appointed for a term not to exceed 1 year.

**SEC. 405. WARNING COORDINATION METEOROLOGISTS AT WEATHER FORECAST OFFICES OF NATIONAL WEATHER SERVICE.**

(a) **DESIGNATION OF WARNING COORDINATION METEOROLOGISTS.**—

(1) **IN GENERAL.**—The Director of the National Weather Service shall designate at least 1 warning coordination meteorologist at each weather forecast office of the National Weather Service.

(2) **NO ADDITIONAL EMPLOYEES AUTHORIZED.**—Nothing in this section shall be construed to authorize or require a change in the authorized number of full time equivalent employees in the National Weather Service or otherwise result in the employment of any additional employees.

(3) **PERFORMANCE BY OTHER EMPLOYEES.**—Performance of the responsibilities outlined in this section is not limited to the warning coordination meteorologist position.

(b) **PRIMARY ROLE OF WARNING COORDINATION METEOROLOGISTS.**—The primary role of the warning coordination meteorologist shall be to carry out the responsibilities required by this section.

(c) **RESPONSIBILITIES.**—

(1) **IN GENERAL.**—Subject to paragraph (2), consistent with the analysis described in section 409, and in order to increase impact-based decision support services, each warning coordination meteorologist designated under subsection (a) shall—

(A) be responsible for providing service to the geographic area of responsibility covered by the weather forecast office at which the warning coordination meteorologist is employed to help ensure that users of products of the National Weather Service can respond effectively to improve outcomes from weather events;

(B) liaise with users of products and services of the National Weather Service, such as the public, media outlets, users in the aviation, marine, and agricultural communities, and forestry, land, and water management interests, to evaluate the adequacy and usefulness of the products and services of the National Weather Service;

(C) collaborate with such weather forecast offices and State, local, and tribal govern-

ment agencies as the Director considers appropriate in developing, proposing, and implementing plans to develop, modify, or tailor products and services of the National Weather Service to improve the usefulness of such products and services;

(D) ensure the maintenance and accuracy of severe weather call lists, appropriate office severe weather policy or procedures, and other severe weather or dissemination methodologies or strategies; and

(E) work closely with State, local, and tribal emergency management agencies, and other agencies related to disaster management, to ensure a planned, coordinated, and effective preparedness and response effort.

(2) **OTHER STAFF.**—The Director may assign a responsibility set forth in paragraph (1) to such other staff as the Director considers appropriate to carry out such responsibility.

(d) **ADDITIONAL RESPONSIBILITIES.**—

(1) **IN GENERAL.**—Subject to paragraph (2), a warning coordination meteorologist designated under subsection (a) may—

(A) work with a State agency to develop plans for promoting more effective use of products and services of the National Weather Service throughout the State;

(B) identify priority community preparedness objectives;

(C) develop plans to meet the objectives identified under paragraph (2); and

(D) conduct severe weather event preparedness planning and citizen education efforts with and through various State, local, and tribal government agencies and other disaster management-related organizations.

(2) **OTHER STAFF.**—The Director may assign a responsibility set forth in paragraph (1) to such other staff as the Director considers appropriate to carry out such responsibility.

(e) **PLACEMENT WITH STATE AND LOCAL EMERGENCY MANAGERS.**—

(1) **IN GENERAL.**—In carrying out this section, the Director of the National Weather Service may place a warning coordination meteorologist designated under subsection (a) with a State or local emergency manager if the Director considers doing so is necessary or convenient to carry out this section.

(2) **TREATMENT.**—If the Director determines that the placement of a warning coordination meteorologist placed with a State or local emergency manager under paragraph (1) is near a weather forecast office of the National Weather Service, such placement shall be treated as designation of the warning coordination meteorologist at such weather forecast office for purposes of subsection (a).

**SEC. 406. IMPROVING NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION COMMUNICATION OF HAZARDOUS WEATHER AND WATER EVENTS.**

(a) **PURPOSE OF SYSTEM.**—For purposes of the assessment required by subsection (b)(1)(A), the purpose of National Oceanic and Atmospheric Administration system for issuing watches and warnings regarding hazardous weather and water events shall be risk communication to the general public that informs action to prevent loss of life and property.

(b) **ASSESSMENT OF SYSTEM.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of the enactment of this Act, the Under Secretary shall—

(A) assess the National Oceanic and Atmospheric Administration system for issuing watches and warnings regarding hazardous weather and water events; and

(B) submit to Congress a report on the findings of the Under Secretary with respect

to the assessment conducted under subparagraph (A).

(2) **ELEMENTS.**—The assessment required by paragraph (1)(A) shall include the following:

(A) An evaluation of whether the National Oceanic and Atmospheric Administration system for issuing watches and warnings regarding hazardous weather and water events meets the purpose described in subsection (a).

(B) Development of recommendations for—

(i) legislative and administrative action to improve the system described in paragraph (1)(A); and

(ii) such research as the Under Secretary considers necessary to address the focus areas described in paragraph (3).

(3) **FOCUS AREAS.**—The assessment required by paragraph (1)(A) shall focus on the following:

(A) Ways to communicate the risks posed by hazardous weather or water events to the public that are most likely to result in action to mitigate the risk.

(B) Ways to communicate the risks posed by hazardous weather or water events to the public as broadly and rapidly as practicable.

(C) Ways to preserve the benefits of the existing watches and warnings system.

(D) Ways to maintain the utility of the watches and warnings system for Government and commercial users of the system.

(4) **CONSULTATION.**—In conducting the assessment required by paragraph (1)(A), the Under Secretary shall—

(A) consult with such line offices within the National Oceanic and Atmospheric Administration as the Under Secretary considers relevant, including the the National Ocean Service, the National Weather Service, and the Office of Oceanic and Atmospheric Research;

(B) consult with individuals in the academic sector, including individuals in the field of social and behavioral sciences, and other weather services;

(C) consult with media outlets that will be distributing the watches and warnings;

(D) consult with non-Federal forecasters that produce alternate severe weather risk communication products;

(E) consult with emergency planners and responders, including State and local emergency management agencies, and other government users of the watches and warnings system, including the Federal Emergency Management Agency, the Office of Personnel Management, the Coast Guard, and such other Federal agencies as the Under Secretary determines rely on watches and warnings for operational decisions; and

(F) make use of the services of the National Academy of Sciences, as the Under Secretary considers necessary and practicable, including contracting with the National Research Council to review the scientific and technical soundness of the assessment required by paragraph (1)(A), including the recommendations developed under paragraph (2)(B).

(5) **METHODOLOGIES.**—In conducting the assessment required by paragraph (1)(A), the Under Secretary shall use such methodologies as the Under Secretary considers are generally accepted by the weather enterprise, including social and behavioral sciences.

(c) **IMPROVEMENTS TO SYSTEM.**—

(1) **IN GENERAL.**—The Under Secretary shall, based on the assessment required by subsection (b)(1)(A), make such recommendations to Congress to improve the system as the Under Secretary considers necessary—

(A) to improve the system for issuing watches and warnings regarding hazardous weather and water events; and

(B) to support efforts to satisfy research needs to enable future improvements to such system.

(2) **REQUIREMENTS REGARDING RECOMMENDATIONS.**—In carrying out paragraph (1)(A), the Under Secretary shall ensure that any recommendation that the Under Secretary considers a major change—

(A) is validated by social and behavioral science using a generalizable sample;

(B) accounts for the needs of various demographics, vulnerable populations, and geographic regions;

(C) accounts for the differences between types of weather and water hazards;

(D) responds to the needs of Federal, State, and local government partners and media partners; and

(E) accounts for necessary changes to Federally-operated watch and warning propagation and dissemination infrastructure and protocols.

(d) **WATCHES AND WARNINGS DEFINED.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), in this section, the terms “watch” and “warning”, with respect to a hazardous weather and water event, mean products issued by the Administration, intended for consumption by the general public, to alert the general public to the potential for or presence of the event and to inform action to prevent loss of life and property.

(2) **EXCEPTION.**—In this section, the terms “watch” and “warning” do not include technical or specialized meteorological and hydrological forecasts, outlooks, or model guidance products.

**SEC. 407. NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION WEATHER READY ALL HAZARDS AWARD PROGRAM.**

(a) **PROGRAM.**—The Director of the National Weather Service is authorized to establish the National Oceanic and Atmospheric Administration Weather Ready All Hazards Award Program. This award program shall provide annual awards to honor individuals or organizations that use or provide National Oceanic and Atmospheric Administration Weather Radio All Hazards receivers or transmitters to save lives and protect property. Individuals or organizations that utilize other early warning tools or applications also qualify for this award.

(b) **GOAL.**—This award program draws attention to the life-saving work of the National Oceanic and Atmospheric Administration Weather Ready All Hazards Program, as well as emerging tools and applications, that provide real-time warning to individuals and communities of severe weather or other hazardous conditions.

(c) **PROGRAM ELEMENTS.**—

(1) **NOMINATIONS.**—Nominations for this award shall be made annually by the Weather Field Offices to the Director of the National Weather Service. Broadcast meteorologists, weather radio manufacturers and weather warning tool and application developers, emergency managers, and public safety officials may nominate individuals or organizations to their local Weather Field Offices, but the final list of award nominees must come from the Weather Field Offices.

(2) **SELECTION OF AWARDEES.**—Annually, the Director of the National Weather Service shall choose winners of this award whose timely actions, based on National Oceanic and Atmospheric Administration Weather Radio All Hazards receivers or transmitters or other early warning tools and applica-

tions, saved lives or property, or demonstrated public service in support of weather or all hazard warnings.

(3) **AWARD CEREMONY.**—The Director of the National Weather Service shall establish a means of making these awards to provide maximum public awareness of the importance of National Oceanic and Atmospheric Administration Weather Radio, and such other warning tools and applications as are represented in the awards.

**SEC. 408. DEPARTMENT OF DEFENSE WEATHER FORECASTING ACTIVITIES.**

Not later than 60 days after the date of the enactment of this Act, the Under Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report analyzing the impacts of the proposed Air Force divestiture in the United States Weather Research and Forecasting Model, including—

(1) the impact on—

(A) the United States weather forecasting capabilities;

(B) the accuracy of civilian regional forecasts;

(C) the civilian readiness for traditional weather and extreme weather events in the United States; and

(D) the research necessary to develop the United States Weather Research and Forecasting Model; and

(2) such other analysis relating to the divestiture as the Under Secretary considers appropriate.

**SEC. 409. NATIONAL WEATHER SERVICE; OPERATIONS AND WORKFORCE ANALYSIS.**

The Under Secretary shall contract or continue to partner with an external organization to conduct a baseline analysis of National Weather Service operations and workforce.

**SEC. 410. WATER RESOURCES.**

(a) **NATIONAL WATER CENTER.**—

(1) **ESTABLISHMENT.**—The Under Secretary shall maintain a National Water Center.

(2) **FUNCTIONS.**—The National Water Center may—

(A) facilitate collaboration across Federal and State departments and agencies, academia, and the private sector to improve understanding of water resources;

(B) make recommendations to water resource managers;

(C) make recommendations to improve water resource forecasts; and

(D) facilitate the transition of water research into applications.

(b) **TOTAL WATER PREDICTION.**—The Under Secretary, through the National Water Center, shall—

(1) initiate research and development activities to develop operational water resource prediction products;

(2) collaborate with, and provide decision support regarding total water prediction to, other relevant Federal and State agencies, including—

(A) the Army Corps of Engineers;

(B) the United States Geological Survey;

(C) the Federal Emergency Management Agency;

(D) the National Science Foundation;

(E) the Environmental Protection Agency;

(F) State water resource agencies; and

(G) State emergency management agencies; and

(3) in carrying out the responsibilities described in paragraphs (1) and (2), develop capabilities necessary for total water predictive capacity, including observations, modeling, data management, supercomputing, social science, and communications.

(c) **REPORT.**—

(1) **IN GENERAL.**—Not later than 3 years after the date of the enactment of this Act, the National Water Center shall submit to the Assistant Secretary of the Army for Civil Works a report on total water predictive capabilities and products.

(2) **CONTENTS.**—The report may include recommendations to improve engineering, design, operations, and management of civil works projects, including the Central and Southern Florida Project and any project in the Apalachicola-Chattahoochee-Flint River System, to optimize water management, including the implications of total water predictive products for—

(A) environmental protection and restoration, including restoration of water quality, water flows, fish, and other aquatic species;

(B) reduced flood risk; and

(C) improved recreation.

**SEC. 411. REPORT ON CONTRACT POSITIONS AT NATIONAL WEATHER SERVICE.**

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Under Secretary shall submit to Congress a report on the use of contractors at the National Weather Service for the most recently completed fiscal year.

(b) **CONTENTS.**—The report required by subsection (a) shall include, with respect to the most recently completed fiscal year, the following:

(1) The total number of full-time equivalent employees at the National Weather Service, disaggregated by each equivalent level of the General Schedule.

(2) The total number of full-time equivalent contractors at the National Weather Service, disaggregated by each equivalent level of the General Schedule that most closely approximates their duties.

(3) The total number of vacant positions at the National Weather Service on the day before the date of enactment of this Act, disaggregated by each equivalent level of the General Schedule.

(4) The 5 most common positions filled by full-time equivalent contractors at the National Weather Service and the equivalent level of the General Schedule that most closely approximates the duties of such positions.

(5) Of the positions identified under paragraph (4), the percentage of full-time equivalent contractors in those positions that have held a prior position at the National Weather Service or another entity in National Oceanic and Atmospheric Administration.

(6) The average full-time equivalent salary for Federal employees at the National Weather Service for each equivalent level of the General Schedule.

(7) The average salary for full-time equivalent contractors performing at each equivalent level of the General Schedule at the National Weather Service.

(8) A description of any actions taken by the Under Secretary to respond to the issues raised by the Inspector General of the Department of Commerce regarding the hiring of former National Oceanic and Atmospheric Administration employees as contractors at the National Weather Service such as the issues raised in the Investigative Report dated June 2, 2015 (OIG-12-0447).

(c) **ANNUAL PUBLICATION.**—For each fiscal year after the fiscal year covered by the report required by subsection (a), the Under Secretary shall, not later than 180 days after the completion of the fiscal year, publish on a publicly accessible Internet website the information described in paragraphs (1) through (8) of subsection (b) for such fiscal year.

**SEC. 412. WEATHER IMPACTS TO COMMUNITIES AND INFRASTRUCTURE.****(a) REVIEW.—**

(1) **IN GENERAL.**—The Director of the National Weather Service shall review existing research, products, and services that meet the specific needs of the urban environment, given its unique physical characteristics and forecasting challenges.

(2) **ELEMENTS.**—The review required by paragraph (1) shall include research, products, and services with the potential to improve modeling and forecasting capabilities, taking into account factors including varying building heights, impermeable surfaces, lack of tree canopy, traffic, pollution, and inter-building wind effects.

(b) **REPORT AND ASSESSMENT.**—Upon completion of the review required by subsection (a), the Under Secretary shall submit to Congress a report on the research, products, and services of the National Weather Service, including an assessment of such research, products, and services that is based on the review, public comment, and recent publications by the National Academy of Sciences.

**SEC. 413. WEATHER ENTERPRISE OUTREACH.**

(a) **IN GENERAL.**—The Under Secretary may establish mechanisms for outreach to the weather enterprise—

(1) to assess the weather forecasts and forecast products provided by the National Oceanic and Atmospheric Administration; and

(2) to determine the highest priority weather forecast needs of the community described in subsection (b).

(b) **OUTREACH COMMUNITY.**—In conducting outreach under subsection (a), the Under Secretary shall contact leading experts and innovators from relevant stakeholders, including the representatives from the following:

(1) State or local emergency management agencies.

(2) State agriculture agencies.

(3) Indian tribes (as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304)) and Native Hawaiians (as defined in section 6207 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7517)).

(4) The private aerospace industry.

(5) The private earth observing industry.

(6) The operational forecasting community.

(7) The academic community.

(8) Professional societies that focus on meteorology.

(9) Such other stakeholder groups as the Under Secretary considers appropriate.

**SA 5126.** Mr. SULLIVAN (for Ms. CANTWELL) proposed an amendment to amendment SA 5125 proposed by Mr. SULLIVAN (for Mr. THUNE (for himself and Mr. NELSON)) to the bill H.R. 1561, to improve the National Oceanic and Atmospheric Administration's weather research through a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to support substantial improvement in weather forecasting and prediction of high impact weather events, to expand commercial opportunities for the provision of weather data, and for other purposes; as follows:

At the appropriate place, insert the following:

**TITLE —TSUNAMI WARNING, EDUCATION, AND RESEARCH ACT OF 2016****SEC. 01. SHORT TITLE.**

This title may be cited as the “Tsunami Warning, Education, and Research Act of 2016”.

**SEC. 02. REFERENCES TO THE TSUNAMI WARNING AND EDUCATION ACT.**

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Tsunami Warning and Education Act (Public Law 109-424; 33 U.S.C. 3201 et seq.).

**SEC. 03. EXPANSION OF PURPOSES OF TSUNAMI WARNING AND EDUCATION ACT.**

Section 3 (33 U.S.C. 3202) is amended—

(1) in paragraph (1), by inserting “research,” after “warnings;”;

(2) by amending paragraph (2) to read as follows:

“(2) to enhance and modernize the existing United States Tsunami Warning System to increase the accuracy of forecasts and warnings, to ensure full coverage of tsunami threats to the United States with a network of detection assets, and to reduce false alarms;”;

(3) by amending paragraph (3) to read as follows:

“(3) to improve and develop standards and guidelines for mapping, modeling, and assessment efforts to improve tsunami detection, forecasting, warnings, notification, mitigation, resiliency, response, outreach, and recovery;”;

(4) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (8), respectively;

(5) by inserting after paragraph (3) the following:

“(4) to improve research efforts related to improving tsunami detection, forecasting, warnings, notification, mitigation, resiliency, response, outreach, and recovery;”;

(6) in paragraph (5), as redesignated—

(A) by striking “and increase” and inserting “, increase, and develop uniform standards and guidelines for;” and

(B) by inserting “, including the warning signs of locally generated tsunami” after “approaching;”;

(7) in paragraph (6), as redesignated, by striking “, including the Indian Ocean; and” and inserting a semicolon; and

(8) by inserting after paragraph (6), as redesignated, the following:

“(7) to foster resilient communities in the face of tsunami and other similar coastal hazards; and”.

**SEC. 04. MODIFICATION OF TSUNAMI FORECASTING AND WARNING PROGRAM.**

(a) **IN GENERAL.**—Subsection (a) of section 4 (33 U.S.C. 3203(a)) is amended by striking “Atlantic Ocean, Caribbean Sea, and Gulf of Mexico region” and inserting “Atlantic Ocean region, including the Caribbean Sea and the Gulf of Mexico”.

(b) **COMPONENTS.**—Subsection (b) of section 4 (33 U.S.C. 3203(b)) is amended—

(1) in paragraph (1), by striking “established” and inserting “supported or maintained”;

(2) by redesignating paragraphs (7) through (9) as paragraphs (8) through (10), respectively;

(3) by redesignating paragraphs (2) through (6) as paragraphs (3) through (7), respectively;

(4) by inserting after paragraph (1) the following:

“(2) to the degree practicable, maintain not less than 80 percent of the Deep-ocean

Assessment and Reporting of Tsunamis buoy array at operational capacity to optimize data reliability;”.

(5) by amending paragraph (5), as redesignated by paragraph (3), to read as follows:

“(5) provide tsunami forecasting capability based on models and measurements, including tsunami inundation models and maps for use in increasing the preparedness of communities and safeguarding port and harbor operations, that incorporate inputs, including—

“(A) the United States and global ocean and coastal observing system;

“(B) the global Earth observing system;

“(C) the global seismic network;

“(D) the Advanced National Seismic system;

“(E) tsunami model validation using historical and paleotsunami data;

“(F) digital elevation models and bathymetry; and

“(G) newly developing tsunami detection methodologies using satellites and airborne remote sensing;”;

(6) by amending paragraph (7), as redesignated by paragraph (3), to read as follows:

“(7) include a cooperative effort among the Administration, the United States Geological Survey, and the National Science Foundation under which the Director of the United States Geological Survey and the Director of the National Science Foundation shall—

“(A) provide rapid and reliable seismic information to the Administrator from international and domestic seismic networks; and

“(B) support seismic stations installed before the date of the enactment of the Tsunami Warning, Education, and Research Act of 2016 to supplement coverage in areas of sparse instrumentation;”;

(7) in paragraph (8), as redesignated by paragraph (2)—

(A) by inserting “, including graphical warning products,” after “warnings;”;

(B) by inserting “, territories,” after “States;” and

(C) by inserting “and Wireless Emergency Alerts” after “Hazards Program;” and

(8) in paragraph (9), as redesignated by paragraph (2)—

(A) by inserting “provide and” before “allow;” and

(B) by inserting “and commercial and Federal undersea communications cables” after “observing technologies”.

(c) **TSUNAMI WARNING SYSTEM.**—Subsection (c) of section 4 (33 U.S.C. 3203(c)) is amended to read as follows:

“(c) **TSUNAMI WARNING SYSTEM.**—The program under this section shall operate a tsunami warning system that—

“(1) is capable of forecasting tsunami, including forecasting tsunami arrival time and inundation estimates, anywhere in the Pacific and Arctic Ocean regions and providing adequate warnings;

“(2) is capable of forecasting and providing adequate warnings, including tsunami arrival time and inundation models where applicable, in areas of the Atlantic Ocean, including the Caribbean Sea and Gulf of Mexico, that are determined—

“(A) to be geologically active, or to have significant potential for geological activity; and

“(B) to pose significant risks of tsunami for States along the coastal areas of the Atlantic Ocean, Caribbean Sea, or Gulf of Mexico; and

“(3) supports other international tsunami forecasting and warning efforts.”.

(d) TSUNAMI WARNING CENTERS.—Subsection (d) of section 4 (33 U.S.C. 3203(d)) is amended to read as follows:

“(d) TSUNAMI WARNING CENTERS.—

“(1) IN GENERAL.—The Administrator shall support or maintain centers to support the tsunami warning system required by subsection (c). The Centers shall include—

“(A) the National Tsunami Warning Center, located in Alaska, which is primarily responsible for Alaska and the continental United States;

“(B) the Pacific Tsunami Warning Center, located in Hawaii, which is primarily responsible for Hawaii, the Caribbean, and other areas of the Pacific not covered by the National Center; and

“(C) any additional forecast and warning centers determined by the National Weather Service to be necessary.

“(2) RESPONSIBILITIES.—The responsibilities of the centers supported or maintained under paragraph (1) shall include the following:

“(A) Continuously monitoring data from seismological, deep ocean, coastal sea level, and tidal monitoring stations and other data sources as may be developed and deployed.

“(B) Evaluating earthquakes, landslides, and volcanic eruptions that have the potential to generate tsunami.

“(C) Evaluating deep ocean buoy data and tidal monitoring stations for indications of tsunami resulting from earthquakes and other sources.

“(D) To the extent practicable, utilizing a range of models, including ensemble models, to predict tsunami, including arrival times, flooding estimates, coastal and harbor currents, and duration.

“(E) Using data from the Integrated Ocean Observing System of the Administration in coordination with regional associations to calculate new inundation estimates and periodically update existing inundation estimates.

“(F) Disseminating forecasts and tsunami warning bulletins to Federal, State, tribal, and local government officials and the public.

“(G) Coordinating with the tsunami hazard mitigation program conducted under section 5 to ensure ongoing sharing of information between forecasters and emergency management officials.

“(H) In coordination with the Coast Guard, evaluating and recommending procedures for ports and harbors at risk of tsunami inundation, including review of readiness, response, and communication strategies, and data sharing policies, to the maximum extent practicable.

“(I) Making data gathered under this Act and post-warning analyses conducted by the National Weather Service or other relevant Administration offices available to the public.

“(J) Integrating and modernizing the program operated under this section with advances in tsunami science to improve performance without compromising service.

“(3) FAIL-SAFE WARNING CAPABILITY.—The tsunami warning centers supported or maintained under paragraph (1) shall maintain a fail-safe warning capability and perform back-up duties for each other.

“(4) COORDINATION WITH NATIONAL WEATHER SERVICE.—The Administrator shall coordinate with the forecast offices of the National Weather Service, the centers supported or maintained under paragraph (1), and such program offices of the Administration as the Administrator or the coordinating committee, as established in section 5(d), con-

sider appropriate to ensure that regional and local forecast offices—

“(A) have the technical knowledge and capability to disseminate tsunami warnings for the communities they serve;

“(B) leverage connections with local emergency management officials for optimally disseminating tsunami warnings and forecasts; and

“(C) implement mass communication tools in effect on the day before the date of the enactment of the Tsunami Warning, Education, and Research Act of 2016 used by the National Weather Service on such date and newer mass communication technologies as they are developed as a part of the Weather-Ready Nation program of the Administration, or otherwise, for the purpose of timely and effective delivery of tsunami warnings.

“(5) UNIFORM OPERATING PROCEDURES.—The Administrator shall—

“(A) develop uniform operational procedures for the centers supported or maintained under paragraph (1), including the use of software applications, checklists, decision support tools, and tsunami warning products that have been standardized across the program supported under this section;

“(B) ensure that processes and products of the warning system operated under subsection (c)—

“(i) reflect industry best practices when practicable;

“(ii) conform to the maximum extent practicable with internationally recognized standards for information technology; and

“(iii) conform to the maximum extent practicable with other warning products and practices of the National Weather Service;

“(C) ensure that future adjustments to operational protocols, processes, and warning products—

“(i) are made consistently across the warning system operated under subsection (c); and

“(ii) are applied in a uniform manner across such warning system;

“(D) establish a systematic method for information technology product development to improve long-term technology planning efforts; and

“(E) disseminate guidelines and metrics for evaluating and improving tsunami forecast models.

“(6) AVAILABLE RESOURCES.—The Administrator, through the National Weather Service, shall ensure that resources are available to fulfill the obligations of this Act. This includes ensuring supercomputing resources are available to run, as rapidly as possible, such computer models as are needed for purposes of the tsunami warning system operated under subsection (c).”

(e) TRANSFER OF TECHNOLOGY; MAINTENANCE AND UPGRADES.—Subsection (e) of section 4 (33 U.S.C. 3203(e)) is amended to read as follows:

“(e) TRANSFER OF TECHNOLOGY; MAINTENANCE AND UPGRADES.—In carrying out this section, the Administrator shall—

“(1) develop requirements for the equipment used to forecast tsunami, including—

“(A) provisions for multipurpose detection platforms;

“(B) reliability and performance metrics; and

“(C) to the maximum extent practicable, requirements for the integration of equipment with other United States and global ocean and coastal observation systems, the global Earth observing system of systems, the global seismic networks, and the Advanced National Seismic System;

“(2) develop and execute a plan for the transfer of technology from ongoing research

conducted as part of the program supported or maintained under section 6 into the program under this section; and

“(3) ensure that the Administration’s operational tsunami detection equipment is properly maintained.”

(f) FEDERAL COOPERATION.—Subsection (f) of section 4 (33 U.S.C. 3203(f)) is amended to read as follows:

“(f) FEDERAL COOPERATION.—When deploying and maintaining tsunami detection technologies under the program under this section, the Administrator shall—

“(1) identify which assets of other Federal agencies are necessary to support such program; and

“(2) work with each agency identified under paragraph (1)—

“(A) to acquire the agency’s assistance; and

“(B) to prioritize the necessary assets in support of the tsunami forecast and warning program.”

(g) UNNECESSARY PROVISIONS.—Section 4 (33 U.S.C. 3203) is further amended—

(1) by striking subsection (g);

(2) by striking subsections (i) through (k); and

(3) by redesignating subsection (h) as subsection (g).

(h) CONGRESSIONAL NOTIFICATIONS.—Subsection (g) of section 4 (33 U.S.C. 3203(g)), as redesignated by subsection (g)(3), is amended—

(1) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively, and moving such subparagraphs 2 ems to the right;

(2) in the matter before subparagraph (A), as redesignated by paragraph (2), by striking “The Administrator” and inserting the following:

“(1) IN GENERAL.—The Administrator”;

(3) in paragraph (1), as redesignated by paragraph (3)—

(A) in subparagraph (A), as redesignated by paragraph (2), by striking “and” at the end;

(B) in subparagraph (B), as redesignated by paragraph (2), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(C) the occurrence of a significant tsunami warning.”; and

(4) by adding at the end the following:

“(2) CONTENTS.—In a case in which notice is submitted under paragraph (1) within 30 days of a significant tsunami warning described in subparagraph (C) of such paragraph, such notice shall include, as appropriate, brief information and analysis of—

“(A) the accuracy of the tsunami model used;

“(B) the specific deep ocean or other monitoring equipment that detected the incident, as well as the deep ocean or other monitoring equipment that did not detect the incident due to malfunction or other reasons;

“(C) the effectiveness of the warning communication, including the dissemination of warnings with State, territory, local, and tribal partners in the affected area under the jurisdiction of the National Weather Service; and

“(D) such other findings as the Administrator considers appropriate.”

#### SEC. 5. MODIFICATION OF NATIONAL TSUNAMI HAZARD MITIGATION PROGRAM.

(a) IN GENERAL.—Section 5(a) (33 U.S.C. 3204(a)) is amended to read as follows:

“(a) PROGRAM REQUIRED.—The Administrator, in coordination with the Administrator of the Federal Emergency Management Agency and the heads of such other

agencies as the Administrator considers relevant, shall conduct a community-based tsunami hazard mitigation program to improve tsunami preparedness and resiliency of at-risk areas in the United States and the territories of the United States.”.

(b) NATIONAL TSUNAMI HAZARD MITIGATION PROGRAM.—Section 5 (33 U.S.C. 3204) is amended by striking subsections (c) and (d) and inserting the following:

“(c) PROGRAM COMPONENTS.—The Program conducted under subsection (a) shall include the following:

“(1) Technical and financial assistance to coastal States, territories, tribes, and local governments to develop and implement activities under this section.

“(2) Integration of tsunami preparedness and mitigation programs into ongoing State-based hazard warning, resilience planning, and risk management activities, including predisaster planning, emergency response, evacuation planning, disaster recovery, hazard mitigation, and community development and redevelopment planning programs in affected areas.

“(3) Activities to promote the adoption of tsunami resilience, preparedness, warning, and mitigation measures by Federal, State, territorial, tribal, and local governments and nongovernmental entities, including educational and risk communication programs to discourage development in high-risk areas.

“(4) Activities to support the development of regional tsunami hazard and risk assessments. Such regional risk assessments may include the following:

“(A) The sources, sizes, and other relevant historical data of tsunami in the region, including paleotsunami data.

“(B) Inundation models and maps of critical infrastructure and socioeconomic vulnerability in areas subject to tsunami inundation.

“(C) Maps of evacuation areas and evacuation routes, including, when appropriate, traffic studies that evaluate the viability of evacuation routes.

“(D) Evaluations of the size of populations that will require evacuation, including populations with special evacuation needs.

“(E) Evaluations and technical assistance for vertical evacuation structure planning for communities where models indicate limited or no ability for timely evacuation, especially in areas at risk of near shore generated tsunami.

“(F) Evaluation of at-risk ports and harbors.

“(G) Evaluation of the effect of tsunami currents on the foundations of closely-spaced, coastal high-rise structures.

“(5) Activities to promote preparedness in at-risk ports and harbors, including the following:

“(A) Evaluation and recommendation of procedures for ports and harbors in the event of a distant or near-field tsunami.

“(B) A review of readiness, response, and communication strategies to ensure coordination and data sharing with the Coast Guard.

“(6) Activities to support the development of community-based outreach and education programs to ensure community readiness and resilience, including the following:

“(A) The development, implementation, and assessment of technical training and public education programs, including education programs that address unique characteristics of distant and near-field tsunami.

“(B) The development of decision support tools.

“(C) The incorporation of social science research into community readiness and resilience efforts.

“(D) The development of evidence-based education guidelines.

“(7) Dissemination of guidelines and standards for community planning, education, and training products, programs, and tools, including—

“(A) standards for—

“(i) mapping products;

“(ii) inundation models; and

“(iii) effective emergency exercises; and

“(B) recommended guidance for at-risk port and harbor tsunami warning, evacuation, and response procedures in coordination with the Coast Guard.

“(d) AUTHORIZED ACTIVITIES.—In addition to activities conducted under subsection (c), the program conducted under subsection (a) may include the following:

“(1) Multidisciplinary vulnerability assessment research, education, and training to help integrate risk management and resilience objectives with community development planning and policies.

“(2) Risk management training for local officials and community organizations to enhance understanding and preparedness.

“(3) Interagency, Federal, State, tribal, and territorial intergovernmental tsunami response exercise planning and implementation in high risk areas.

“(4) Development of practical applications for existing or emerging technologies, such as modeling, remote sensing, geospatial technology, engineering, and observing systems, including the integration of tsunami sensors into Federal and commercial submarine telecommunication cables if practicable.

“(5) Risk management, risk assessment, and resilience data and information services, including—

“(A) access to data and products derived from observing and detection systems; and

“(B) development and maintenance of new integrated data products to support risk management, risk assessment, and resilience programs.

“(6) Risk notification systems that coordinate with and build upon existing systems and actively engage decisionmakers, State, local, tribal, and territorial governments and agencies, business communities, nongovernmental organizations, and the media.

“(e) NO PREEMPTION WITH RESPECT TO DESIGNATION OF AT-RISK AREAS.—The establishment of national standards for inundation models under this section shall not prevent States, territories, tribes, and local governments from designating additional areas as being at risk based on knowledge of local conditions.

“(f) NO NEW REGULATORY AUTHORITY.—Nothing in this Act may be construed as establishing new regulatory authority for any Federal agency.”.

(c) REPORT ON ACCREDITATION OF TSUNAMIREADY PROGRAM.—Not later than 180 days after the date of enactment of this Act, the Administrator of the National Oceanic and Atmospheric Administration shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on which authorities and activities would be needed to have the TsunamiReady program of the National Weather Service accredited by the Emergency Management Accreditation Program.

**SEC. 06. MODIFICATION OF TSUNAMI RESEARCH PROGRAM.**

Section 6 (33 U.S.C. 3205) is amended—

(1) in the matter before paragraph (1), by striking “The Administrator shall” and all that follows through “establish or maintain” and inserting the following:

“(a) IN GENERAL.—The Administrator shall, in consultation with such other Federal agencies, State, tribal, and territorial governments, and academic institutions as the Administrator considers appropriate, the coordinating committee under section 5(d), and the panel under section 8(a), support or maintain”;

(2) in subsection (a), as designated by paragraph (1), by striking “and assessment for tsunami tracking and numerical forecast modeling. Such research program shall—” and inserting the following: “assessment for tsunami tracking and numerical forecast modeling, and standards development.

“(b) RESPONSIBILITIES.—The research program supported or maintained under subsection (a) shall—”; and

(3) in subsection (b), as designated by paragraph (2)—

(A) by amending paragraph (1) to read as follows:

“(1) consider other appropriate and cost effective solutions to mitigate the impact of tsunami, including the improvement of near-field and distant tsunami detection and forecasting capabilities, which may include use of a new generation of the Deep-ocean Assessment and Reporting of Tsunamis array, integration of tsunami sensors into commercial and Federal telecommunications cables, and other real-time tsunami monitoring systems and supercomputer capacity of the Administration to develop a rapid tsunami forecast for all United States coastlines”;

(B) in paragraph (3)—

(i) by striking “include” and inserting “conduct”; and

(ii) by striking “and” at the end;

(C) by redesignating paragraph (4) as paragraph (5);

(D) by inserting after paragraph (3) the following:

“(4) develop the technical basis for validation of tsunami maps, numerical tsunami models, digital elevation models, and forecasts; and”;

(E) in paragraph (5), as redesignated by subparagraph (C), by striking “to the scientific community” and inserting “to the public and the scientific community”.

**SEC. 07. GLOBAL TSUNAMI WARNING AND MITIGATION NETWORK.**

Section 7 (33 U.S.C. 3206) is amended—

(1) by amending subsection (a) to read as follows:

“(a) SUPPORT FOR DEVELOPMENT OF AN INTERNATIONAL TSUNAMI WARNING SYSTEM.—The Administrator shall, in coordination with the Secretary of State and in consultation with such other agencies as the Administrator considers relevant, provide technical assistance, operational support, and training to the Intergovernmental Oceanographic Commission of the United Nations Educational, Scientific, and Cultural Organization of the United Nations, and such other international entities as the Administrator considers appropriate, as part of the international efforts to develop a fully functional global tsunami forecast and warning system comprised of regional tsunami warning networks.”;

(2) in subsection (b), by striking “shall” each place it appears and inserting “may”; and

(3) in subsection (c)—

(A) in paragraph (1), by striking “establishing” and inserting “supporting”; and

(B) in paragraph (2)—

(i) by striking “establish” and inserting “support”; and

(ii) by striking “establishing” and inserting “supporting”.

**SEC. 08. TSUNAMI SCIENCE AND TECHNOLOGY ADVISORY PANEL.**

(a) IN GENERAL.—The Act is further amended—

(1) by redesignating section 8 (33 U.S.C. 3207) as section 9; and

(2) by inserting after section 7 (33 U.S.C. 3206) the following:

**“SEC. 8. TSUNAMI SCIENCE AND TECHNOLOGY ADVISORY PANEL.**

“(a) DESIGNATION.—The Administrator shall designate an existing working group within the Science Advisory Board of the Administration to serve as the Tsunami Science and Technology Advisory Panel to provide advice to the Administrator on matters regarding tsunami science, technology, and regional preparedness.

“(b) MEMBERSHIP.—

“(1) COMPOSITION.—The Panel shall be composed of no fewer than 7 members selected by the Administrator from among individuals from academia or State agencies who have academic or practical expertise in physical sciences, social sciences, information technology, coastal resilience, emergency management, or such other disciplines as the Administrator considers appropriate.

“(2) FEDERAL EMPLOYMENT.—No member of the Panel may be a Federal employee.

“(c) RESPONSIBILITIES.—Not less frequently than once every 4 years, the Panel shall—

“(1) review the activities of the Administration, and other Federal activities as appropriate, relating to tsunami research, detection, forecasting, warning, mitigation, resiliency, and preparation; and

“(2) submit to the Administrator and such others as the Administrator considers appropriate—

“(A) the findings of the working group with respect to the most recent review conducted under paragraph (1); and

“(B) such recommendations for legislative or administrative action as the working group considers appropriate to improve Federal tsunami research, detection, forecasting, warning, mitigation, resiliency, and preparation.

“(d) REPORTS TO CONGRESS.—Not less frequently than once every 4 years, the Administrator shall submit to the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Science, Space, and Technology of the House of Representatives a report on the findings and recommendations received by the Administrator under subsection (c)(2).”.

**SEC. 09. REPORTS.**

(a) REPORT ON IMPLEMENTATION OF TSUNAMI WARNING AND EDUCATION ACT.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, the Administrator of the National Oceanic and Atmospheric Administration shall submit to Congress a report on the implementation of the Tsunami Warning and Education Act (33 U.S.C. 3201 et seq.).

(2) ELEMENTS.—The report required by paragraph (1) shall include the following:

(A) A detailed description of the progress made in implementing sections 4(d)(6), 5(b)(6), and 6(b)(4) of the Tsunami Warning and Education Act.

(B) A description of the ways that tsunami warnings and warning products issued by the Tsunami Forecasting and Warning Program established under section 4 of the Tsunami Warning and Education Act (33 U.S.C. 3203)

can be standardized and streamlined with warnings and warning products for hurricanes, coastal storms, and other coastal flooding events.

(b) REPORT ON NATIONAL EFFORTS THAT SUPPORT RAPID RESPONSE FOLLOWING NEAR-SHORE TSUNAMI EVENTS.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, the Administrator and the Secretary of Homeland Security shall jointly, in coordination with the Director of the United States Geological Survey, Administrator of the Federal Emergency Management Agency, the Chief of the National Guard Bureau, and the heads of such other Federal agencies as the Administrator considers appropriate, submit to the appropriate committees of Congress a report on the national efforts in effect on the day before the date of the enactment of this Act that support and facilitate rapid emergency response following a domestic near-shore tsunami event to better understand domestic effects of earthquake derived tsunami on people, infrastructure, and communities in the United States.

(2) ELEMENTS.—The report required by paragraph (1) shall include the following:

(A) A description of scientific or other measurements collected on the day before the date of the enactment of this Act to quickly identify and quantify lost or degraded infrastructure or terrestrial formations.

(B) A description of scientific or other measurements that would be necessary to collect to quickly identify and quantify lost or degraded infrastructure or terrestrial formations.

(C) Identification and evaluation of Federal, State, local, tribal, territorial, and military first responder and search and rescue operation centers, bases, and other facilities as well as other critical response assets and infrastructure, including search and rescue aircraft, located within near-shore and distant tsunami inundation areas on the day before the date of the enactment of this Act.

(D) An evaluation of near-shore tsunami response plans in areas described in subparagraph (C) in effect on the day before the date of the enactment of this Act, and how those response plans would be affected by the loss of search and rescue and first responder infrastructure described in such subparagraph.

(E) A description of redevelopment plans and reports in effect on the day before the date of the enactment of this Act for communities in areas that are at high-risk for near-shore tsunami, as well identification of States or communities that do not have redevelopment plans.

(F) Recommendations to enhance near-shore tsunami preparedness and response plans, including recommended responder exercises, predisaster planning, and mitigation needs.

(G) Such other data and analysis information as the Administrator and the Secretary of Homeland Security consider appropriate.

(3) APPROPRIATE COMMITTEES OF CONGRESS.—In this subsection, the term “appropriate committees of Congress” means—

(A) the Committee on Commerce, Science, and Transportation and the Committee on Homeland Security and Governmental Affairs of the Senate; and

(B) the Committee on Science, Space, and Technology and the Committee on Homeland Security of the House of Representatives.

**SEC. 10. AUTHORIZATION OF APPROPRIATIONS.**

Section 9 of the Act, as redesignated by section 8(a)(1) of this Act, is amended—

(1) in paragraph (4)(B), by striking “and” at the end;

(2) in paragraph (5)(B), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(6) \$25,800,000 for each of fiscal years 2016 through 2021, of which—

“(A) not less than 27 percent of the amount appropriated for each fiscal year shall be for activities conducted at the State level under the tsunami hazard mitigation program under section 5; and

“(B) not less than 8 percent of the amount appropriated shall be for the tsunami research program under section 6.”.

**SEC. 11. OUTREACH RESPONSIBILITIES.**

The Administrator of the National Oceanic and Atmospheric Administration, in coordination with State and local emergency managers, shall develop and carry out formal outreach activities to improve tsunami education and awareness and foster the development of resilient communities. Outreach activities may include—

(1) the development of outreach plans to ensure the close integration of tsunami warning centers supported or maintained under section 4(d) of the Tsunami Warning and Education Act (33 U.S.C. 3203(d)) with local Weather Forecast Offices of the National Weather Service and emergency managers;

(2) working with appropriate local Weather Forecast Offices to ensure they have the technical knowledge and capability to disseminate tsunami warnings to the communities they serve; and

(3) evaluating the effectiveness of warnings and of coordination with local Weather Forecast Offices after significant tsunami events.

**SEC. 12. REPEAL OF DUPLICATE PROVISIONS OF LAW.**

(a) REPEAL.—The Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006 (Public Law 109-479) is amended by striking title VIII (relating to tsunami warning and education).

(b) CONSTRUCTION.—Nothing in this section shall be construed to repeal, or affect in any way, Public Law 109-424.

**AUTHORITY FOR COMMITTEES TO MEET**

Mr. CORNYN. Mr. President, I have five requests for committees to meet during today's session of the Senate. They have the approval of the Majority and Minority leaders.

Pursuant to rule XXVI, paragraph 5(a), of the Standing Rules of the Senate, the following committees are authorized to meet during today's session of the Senate:

**COMMITTEE ON ARMED SERVICES**

The Committee on Armed Services is authorized to meet during the session of the Senate on December 1, 2016, at 9:30 a.m.

**COMMITTEE ON FINANCE**

The Committee on Finance is authorized to meet during the session of the Senate on December 1, 2016, at 1:45 p.m., in room S-216.

**COMMITTEE ON FOREIGN RELATIONS**

The Committee on Foreign Relations is authorized to meet during the session of the Senate on December 1, 2016, at 10:30 a.m., to conduct a hearing entitled “The Future of Counter-Terrorism Strategy.”

**SELECT COMMITTEE ON INTELLIGENCE**

The Select Committee on Intelligence is authorized to meet during the session of the

Senate on December 1, 2016, at 2 p.m., in room SH-219 of the Hart Senate Office Building.

SUBCOMMITTEE ON REGULATORY AFFAIRS AND  
FEDERAL MANAGEMENT

The Subcommittee on Regulatory Affairs and Federal Management of the Committee on Homeland Security and Governmental Affairs is authorized to meet during the session of the Senate on December 1, 2016, at 2:30 p.m., to conduct a hearing entitled, "Examining Two GAO Reports regarding the Renewable Fuel Standard."

PRIVILEGES OF THE FLOOR

Mr. MERKLEY. Mr. President, I ask unanimous consent my intern, Jill Goatcher, be given the privileges of the floor for the balance of the day.

The PRESIDING OFFICER. Without objection, it is so ordered.

JUSTICE FOR ALL  
REAUTHORIZATION ACT OF 2016

Mr. SULLIVAN. Mr. President, I ask that the Chair lay before the Senate the message from the House to accompany S. 2577.

The Presiding Officer laid before the Senate the following message from the House of Representatives:

*Resolved*, That the bill from the Senate (S. 2577) entitled "An Act to protect crime victims' rights, to eliminate the substantial backlog of DNA and other forensic evidence samples to improve and expand the forensic science testing capacity of Federal, State, and local crime laboratories, to increase research and development of new testing technologies, to develop new training programs regarding the collection and use of forensic evidence, to provide post-conviction testing of DNA evidence to exonerate the innocent, to support accreditation efforts of forensic science laboratories and medical examiner offices, to address training and equipment needs, to improve the performance of counsel in State capital cases, and for other purposes," do pass with an amendment.

Mr. SULLIVAN. Mr. President, I move to concur in the House amendment; and I ask unanimous consent that the motion be agreed to and the motion to reconsider be considered made and laid upon the table without intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

METROPOLITAN WEATHER HAZARDS PROTECTION ACT OF 2015

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 629, S. 2058.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2058) to require the Secretary of Commerce to maintain and operate at least one Doppler weather radar site within 55 miles of each city in the United States that has a population of more than 700,000 individuals, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

*This Act may be cited as the "Metropolitan Weather Hazards Protection Act of 2015".*

SEC. 2. STUDY ON GAPS IN NEXRAD COVERAGE AND REQUIREMENT FOR PLAN TO ADDRESS SUCH GAPS.

(a) STUDY ON GAPS IN NEXRAD COVERAGE.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Commerce shall complete a study on gaps in the coverage of the Next Generation Weather Radar of the National Weather Service (known as "NEXRAD").

(2) ELEMENTS.—Under the study required by paragraph (1), the Secretary shall—

(A) identify areas in the United States with limited or no Next Generation Weather Radar coverage below 6,000 feet above ground level of the surrounding terrain;

(B) for the areas identified under subparagraph (A), Charlotte, North Carolina, and surrounding counties, central Washington State, northwest New Mexico, and Columbus, Ohio, and surrounding counties—

(i) identify the key weather effects for which prediction would improve with improved radar detection;

(ii) identify additional sources of observations for high impact weather that were available and operational for such areas on the day before the date of the enactment of this Act, including Terminal Doppler Weather Radar (known as "TDWR"), air surveillance radars of the Federal Aviation Administration, and cooperative network observers; and

(iii) assess the feasibility and advisability of efforts to integrate and upgrade Federal radar capabilities in such areas that are not owned or controlled by the National Oceanic and Atmospheric Administration, including radar capabilities of the Federal Aviation Administration and the Department of Defense;

(C) assess the feasibility and advisability of incorporating State-operated and other non-Federal radars into the operations of the National Weather Service;

(D) identify options to improve radar coverage in the areas identified under subparagraph (A); and

(E) estimate the cost of, and develop a timeline for, carrying out each of the options identified under subparagraph (D).

(3) REPORT.—Upon the completion of the study required by paragraph (1), the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the findings of the Secretary with respect to the study.

(b) PLAN TO IMPROVE RADAR COVERAGE.—Not later than 30 days after the completion of the study required by subsection (a)(1), the Secretary shall develop and submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a plan to improve radar coverage in the areas identified under subsection (a)(2)(A) by integrating, and upgrading where practicable, additional observation solutions to improve hazardous weather detection and forecasting.

(c) REQUIREMENT FOR THIRD-PARTY REVIEWS REGARDING PLAN TO IMPROVE RADAR COVERAGE.—The Secretary shall seek third-party re-

views on scientific methodology relating to, and the feasibility and advisability of, implementing the plan developed and submitted under subsection (b), including the extent to which warning and forecast services of the National Weather Service would be improved by additional Next Generation Weather Radar coverage.

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the committee-reported substitute amendment be withdrawn, the Burr substitute amendment be agreed to, the bill, as amended, be considered read a third time and passed, the title amendment be agreed to, and the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendment in the nature of a substitute was withdrawn.

The amendment (No. 5123) in the nature of a substitute was agreed to, as follows:

(Purpose: In the nature of a substitute)

Strike all after the enacting clause and insert the following:

SEC. . STUDY ON GAPS IN NEXRAD COVERAGE AND REQUIREMENT FOR PLAN TO ADDRESS SUCH GAPS.

(a) STUDY ON GAPS IN NEXRAD COVERAGE.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Commerce shall complete a study on gaps in the coverage of the Next Generation Weather Radar of the National Weather Service (referred to in this section as "NEXRAD").

(2) ELEMENTS.—In conducting the study required under paragraph (1), the Secretary shall—

(A) identify areas in the United States with limited or no NEXRAD coverage below 6,000 feet above ground level of the surrounding terrain;

(B) for the areas identified under subparagraph (A)—

(i) identify the key weather effects for which prediction would improve with improved radar detection;

(ii) identify additional sources of observations for high impact weather that were available and operational for such areas on the day before the date of the enactment of this Act, including Terminal Doppler Weather Radar (commonly known as "TDWR"), air surveillance radars of the Federal Aviation Administration, and cooperative network observers; and

(iii) assess the feasibility and advisability of efforts to integrate and upgrade Federal radar capabilities that are not owned or controlled by the National Oceanic and Atmospheric Administration, including radar capabilities of the Federal Aviation Administration and the Department of Defense;

(C) assess the feasibility and advisability of incorporating State-operated and other non-Federal radars into the operations of the National Weather Service;

(D) identify options to improve radar coverage in the areas identified under subparagraph (A); and

(E) estimate the cost of, and develop a timeline for, carrying out each of the options identified under subparagraph (D).

(3) REPORT.—Upon the completion of the study required under paragraph (1), the Secretary shall submit a report to the Committee on Commerce, Science, and Transportation of the Senate, the Committee on Appropriations of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Appropriations of the House of Representatives that includes the findings of the Secretary with respect to the study.

(b) PLAN TO IMPROVE RADAR COVERAGE.—Not later than 30 days after the completion of the study under subsection (a)(1), the Secretary of Commerce shall submit a plan to the congressional committees referred to in subsection (a)(3) for improving radar coverage in the areas identified under subsection (a)(2)(A) by integrating and upgrading, to the extent practicable, additional observation solutions to improve hazardous weather detection and forecasting.

(c) REQUIREMENT FOR THIRD-PARTY REVIEWS REGARDING PLAN TO IMPROVE RADAR COVERAGE.—The Secretary of Commerce shall seek third-party reviews on scientific methodology relating to, and the feasibility and advisability of, implementing the plan submitted under subsection (b), including the extent to which warning and forecast services of the National Weather Service would be improved by additional NEXRAD coverage.

The bill (S. 2058), as amended, was ordered to be engrossed for a third reading, was read the third time, and passed.

The amendment (No. 5124) was agreed to, as follows:

(Purpose: To amend the title)

Amend the title so as to read: "A bill to require the Secretary of Commerce to study the coverage gaps of the Next Generation Weather Radar of the National Weather Service and to develop a plan for improving radar coverage and hazardous weather detection and forecasting."

#### ALLOWING THE ADMINISTRATOR OF THE FAA TO ENTER INTO REIMBURSABLE AGREEMENTS FOR CERTAIN AIRPORT PROJECTS

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be discharged from further consideration of H.R. 6014 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title. The legislative clerk read as follows:

A bill (H.R. 6014) to allow the Administrator of the Federal Aviation Administration to enter into reimbursable agreements for certain airport projects.

There being no objection, the Senate proceeded to consider the bill.

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the bill be considered read a third time and passed and the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 6014) was ordered to a third reading, was read the third time, and passed.

#### WEATHER RESEARCH AND FORECASTING INNOVATION ACT OF 2015

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be discharged from further consideration of H.R. 1561 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 1561) to improve the National Oceanic and Atmospheric Administration's weather research through a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to support substantial improvement in weather forecasting and prediction of high impact weather events, to expand commercial opportunities for the provision of weather data, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Thune substitute amendment at the desk be considered, the Cantwell amendment at the desk be considered and agreed to, the Thune substitute amendment, as amended, be agreed to, the bill, as amended, be considered read a third time and passed, and the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 5126) was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The amendment (No. 5125) in the nature of a substitute, as amended, was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The bill (H.R. 1561), as amended, was passed.

#### HONORING THE MEMORIES AND LEGACIES OF THE 3 LAW ENFORCEMENT OFFICERS WHO LOST THEIR LIVES IN THE ATTACK ON JULY 17, 2016, IN BATON ROUGE, LOUISIANA

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of and the Senate now proceed to the consideration of S. Res. 606.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 606) honoring the memories and legacies of the 3 law enforcement officers who lost their lives in the attack on July 17, 2016, in Baton Rouge, Louisiana.

ment officers who lost their lives in the attack on July 17, 2016, in Baton Rouge, Louisiana, condemning that attack, and recognizing the heroism of law enforcement personnel and first responders.

There being no objection, the Senate proceeded to consider the resolution.

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 606) was agreed to.

The preamble was agreed to.

(The resolution, with its preamble, is printed in the RECORD of September 29, 2016, under "Submitted Resolutions.")

#### COLONEL DEMAS T. CRAW VA CLINIC

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 3492, introduced earlier today.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 3492) to designate the Traverse City VA Community-Based Outpatient Clinic of the Department of Veterans Affairs in Traverse City, Michigan, as the "Colonel Demas T. Craw VA Clinic."

There being no objection, the Senate proceeded to consider the bill.

Mr. SULLIVAN. I ask unanimous consent that the bill be read a third time and passed and the motion to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 3492) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 3492

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. DESIGNATION OF COLONEL DEMAS T. CRAW VA CLINIC IN TRAVERSE CITY, MICHIGAN.

(a) FINDINGS.—Congress finds the following:

(1) Demas T. Craw was born on April 9, 1900, in Long Lake Township, Michigan.

(2) While residing in Traverse City, Michigan, Demas T. Craw enlisted in the United States Army at Columbus Barracks, Ohio, on April 18, 1918, and trained with the 12th Cavalry at Camp Stanley, Texas.

(3) Colonel Craw achieved the position of senior pilot and was awarded—

(A) the Medal of Honor for action in North Africa;

(B) the World War I Victory Medal;

(C) the World War II Victory Medal;

(D) the European-African-Middle Eastern Campaign Medal;

(E) the Mexican Service Medal;

(F) the American Defense Service Medal;

(G) the Purple Heart;

(H) the Royal Order of George I; and  
(I) the Observer Badge.

(4) Colonel Craw's citation for the Medal of Honor said, "For conspicuous gallantry and intrepidity in action above and beyond the call of duty. On November 8, 1942, near Port Lyautey, French Morocco, Col. Craw volunteered to accompany the leading wave of assault boats to the shore and pass through the enemy lines to locate the French commander with a view to suspending hostilities. This request was first refused as being too dangerous but upon the officer's insistence that he was qualified to undertake and accomplish the mission he was allowed to go. Encountering heavy fire while in the landing boat and unable to dock in the river because of shell fire from shore batteries, Col. Craw, accompanied by 1 officer and 1 soldier, succeeded in landing on the beach at Mehdiya Plage under constant low-level strafing from 3 enemy planes. Riding in a bantam truck toward French headquarters, progress of the party was hindered by fire from our own naval guns. Nearing Port Lyautey, Col. Craw was instantly killed by a sustained burst of machinegun fire at pointblank range from a concealed position near the road."

(5) Colonel Craw was killed in action on November 8, 1942, while attempting to deliver a message to broker a cease fire with France.

(b) DESIGNATION.—The Traverse City VA Community-Based Outpatient Clinic of the Department of Veterans Affairs in Traverse City, Michigan, shall after the date of the enactment of this Act be known and designated as the "Colonel Demas T. Craw VA Clinic".

(c) REFERENCE.—Any reference in any law, regulation, map, document, paper, or other record of the United States to the community-based outpatient clinic referred to in subsection (b) shall be considered to be a reference to the Colonel Demas T. Craw VA Clinic.

#### NATIONAL PHENYLKETONURIA AWARENESS DAY

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Senate

proceed to the consideration of S. Res. 627, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 627) designating December 3, 2016, as "National Phenylketonuria Awareness Day."

There being no objection, the Senate proceeded to consider the resolution.

Mr. SULLIVAN. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 627) was agreed to.

The preamble was agreed to.

(The resolution, with its preamble, is printed in today's RECORD under "Submitted Resolutions.")

#### AUTHORIZING THE PRINTING OF A REVISED EDITION OF THE SENATE RULES AND MANUAL

Mr. SULLIVAN. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of S. Res. 628, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 628) authorizing the printing of a revised edition of the Senate Rules and Manual.

There being no objection, the Senate proceeded to consider the resolution.

Mr. SULLIVAN. I ask unanimous consent that the resolution be agreed to and the motion to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 628) was agreed to.

(The resolution is printed in today's RECORD under "Submitted Resolutions.")

#### ORDERS FOR MONDAY, DECEMBER 5, 2016

Mr. SULLIVAN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 3 p.m. on Monday, December 5; that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, and the time for the two leaders be reserved for their use later in the day; further, that following leader remarks, the Senate resume consideration of the House message to accompany H.R. 34; further, that the filing deadline for first-degree amendments under rule XXII for the cloture motion filed during today's session be 4 p.m., Monday, December 5; finally, that the mandatory quorum call under rule XXII with respect to the cloture motion be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ADJOURNMENT UNTIL MONDAY, DECEMBER 5, 2016, AT 3 P.M.

Mr. SULLIVAN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order.

There being no objection, the Senate, at 6:07 p.m., adjourned until Monday, December 5, 2016, at 3 p.m.

## HOUSE OF REPRESENTATIVES—Thursday, December 1, 2016

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. BOST).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
December 1, 2016.

I hereby appoint the Honorable MIKE BOST to act as Speaker pro tempore on this day.

PAUL D. RYAN,  
*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 5, 2016, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 1 hour and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

### DISCOVERY, DEVELOPMENT, AND DELIVERY OF NEW CURES

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, yesterday, the House passed the 21st Century Cures Act with a vote of 392–26. I was proud to support the Cures Act that expedites the discovery, the development, and the delivery of new cures for illnesses and disabling conditions where none exist today. This legislation also included long overdue reforms to our Nation's mental health system.

Mr. Speaker, the text of the Cures Act additionally contains my Special Needs Trust Fairness Act language. This corrects a civil rights oversight or issue for persons living with any disability to be allowed to establish their own special needs trust. Without this legislation, the way the law exists today, a person, any person living with a label of a disability, is deemed incompetent to be able to set up and manage their own special needs trust. Their parents can do it, their grandparents, a court-appointed guardian, but they are deemed incompetent.

I want to thank my colleagues for their support, and encourage the Senate to take swift action on the Cures Act that contains all this language.

### RECOGNIZING THE LIFE OF DR. DAVID WRIGHT

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to recognize the life of Dr. David Wright, a dedicated public servant and community leader from Clarion County, Pennsylvania, in Pennsylvania's Fifth Congressional District. He was a beloved professor and department head at Clarion University, where he passionately taught for nearly 30 years.

Dr. Wright also served in the Pennsylvania House of Representatives from 1976 to 1996. His 20-year tenure is the longest served in the State house by any Representative from Clarion County.

As a house member, Dr. Wright served as chairman on several committees and took on various leadership roles. He continually advocated for rural Pennsylvanians and authored language that created the Center for Rural Pennsylvania. He also played a major role in establishing the State System for Higher Education, which unified Pennsylvania's 14 State colleges into a comprehensive system.

Dr. Wright passed away on November 18, at the age of 80, leaving behind a legacy that will continue to benefit Pennsylvanians for generations to come. My thoughts and prayers are with the Wright family.

### RECOGNIZING 75TH ANNIVERSARY OF AMERICAN TREE FARM SYSTEM

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today in recognition of the 75th anniversary of the American Tree Farm System, the largest and oldest woodland certification system in the Nation.

The American Tree Farm System was founded in 1941 to protect landowners across the country and help meet the growing demand for forest products. In 1954, the Principles of the American Tree Farm System created a system for tree farm certification, establishing a clear outline for proper forest management and conservation.

Today, the American Tree Farm System is comprised of more than 70,000 individuals and families that manage more than 20.5 million acres of forest. These tree farmers benefit our Nation's forests and our economy, while providing timber, homes for wildlife, recreational space, and clean water.

In honor of its legacy, last June I introduced H. Con. Res. 144, bipartisan legislation celebrating the American

Tree Farm System and recognizing the 75th anniversary.

I congratulate the members of the American Tree Farm System on this remarkable milestone and applaud their work with landowners and foresters across the United States.

### TRUMP ADMINISTRATION AND U.S. FOREIGN POLICY TOWARD ISRAEL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. Mr. Speaker, day by day we are learning more about the future Trump administration, and as the picture becomes clearer, usually the news is troubling.

One of the most unsettling indications about the Trump administration and the Republican Party is the abandonment of a half century of bipartisan foreign policy regarding Israel and our commitment to a two-state solution.

Israel has no greater friend in the world than the United States, but one of the ways to demonstrate friendship is to be clear when your friends are making mistakes. Settlement activity by Israel on the West Bank and the renewed destruction of Palestinian homes and confiscation of property are mistakes. The overwhelming majority of Israelis still favor a two-state solution, they just despair of it being possible. The steps the Netanyahu government is taking on that path make it more remote.

Donald Trump and the Republican Party he dominated at the Republican Convention abandoned the two-state solution. For the first time in a half century, the bipartisan commitment to a two-state solution has been stripped from the Republican Party platform.

This matters.

Donald Trump has empowered two of the most extreme voices, who have emboldened and defended settlement activity and undercut the necessary two-state solution, to manage his policy advice on Israel. This should be disturbing for everyone concerned about Middle East peace.

The world is a complicated and dangerous place. There are hints that Donald Trump is starting to learn about this complexity in fits and starts. Witness his statements after visiting with President Obama and his walking back some of his most extreme and definitive campaign promises.

It is important that the reality in the Middle East catches up sooner

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

rather than later. A prime example is the Iranian nuclear agreement, one of the few things that China, Russia, Great Britain, France, Germany, and the United States all agreed upon. It is not perfect, and there are certainly Iranian leaders who are dangerous people, but this agreement was the best alternative and the only thing that all these parties could agree upon.

Now, it is easy to talk on the campaign trail about blowing it up; it is harder to do in reality when it is actually working as it was supposed to and, in fact, is supported even by an overwhelming majority of American Jewish voters.

We all have responsibility for a thoughtful foreign policy, and Democrats must stand firm to reject some of the reckless proposals from the Trump administration; but our Republican friends in Congress should not allow a half century of bipartisan foreign policy to become a casualty of some of the most extreme voices of American and Israeli politics.

The time to speak out is now. Everyone must find their voice. Failure to support a two-state solution and reject the misguided settlement efforts which would make that solution impossible is a prescription for more pain, unrest, and violence between Israelis and Palestinians. Middle East peace should not be a casualty of the American election.

#### HONORING THE LIFE AND SERVICE OF FORMER CONGRESSMAN TOM LANTOS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Florida (Ms. ROS-LEHTINEN) for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, Congressman Tom Lantos was a giant of a man, an inspiration to all of us who knew him, and greatly admired by his peers. Tom was a patriot, a recipient of the Presidential Medal of Freedom who championed justice, human rights, and human dignity across the globe.

Tom Lantos was a Holocaust survivor, the only Holocaust survivor ever elected to serve in this esteemed institution. Coming to America as a penniless immigrant, Tom's life story is one of perseverance and fortitude, yet, a kinder, more loving man you would not ever find.

Tom was the embodiment of the American Dream, building a wonderful life for himself, for his wife, Annette, and their two daughters. He made it his life's work to see to it that the horrors that he had seen, the horrors that he had lived through, would never be brought upon others ever again.

His background as a survivor and a Member of Congress gave him a unique opportunity to forge an ever stronger relationship between the United States and our ally, the democratic Jewish

State of Israel and to guarantee that the Jewish people will always have a homeland.

Now Tom's legacy and his memory are being honored on December 19 in Netanya, Israel, where a statue will be dedicated in his honor. I extend my most sincere and heartfelt words of admiration to Tom's family. I congratulate them all on this auspicious occasion.

Tom Lantos was an honorable gentleman, Mr. Speaker, and few are more deserving of such a great honor.

HONORING BROTHER KEVIN HANDIBODE, PRESIDENT OF CHRISTOPHER COLUMBUS HIGH SCHOOL

Ms. ROS-LEHTINEN. Mr. Speaker, I rise today to recognize Brother Kevin, president of Christopher Columbus High School, for his 45 years of service to this wonderful institution and for his 60th anniversary as a Marist Brother this upcoming year.

Since arriving at Christopher Columbus High School in 1966, Brother Kevin has been an all-around champion for CCHS and its students while serving in many capacities, including teacher, dean of discipline, athletic director, varsity coach for over 18 years, developmental director, and principal.

His legendary reputation has carried him through many recognitions and accolades, including the respect and admiration of his peers, his coworkers, and our loving community. In 2008, for his distinguished service to the church and devotion to the Catholic education system, Brother Kevin was bestowed the Cross, the highest medal that can be awarded by the Pope.

So, again, Brother Kevin, congratulations on this magnificent milestone. As the heart and soul of Columbus High School, you have been a leader, you have been a role model, but, more importantly, you have given countless students the ability to pursue their dreams and reach their full potential.

Go Explorers. Go Brother Kevin.

CELEBRATING THE 40TH ANNIVERSARY OF HIGHPOINT ACADEMY

Ms. ROS-LEHTINEN. Mr. Speaker, it gives me great joy to recognize Highpoint Academy, a well-respected bilingual private school located in my community, on its 40th anniversary.

Since its founding in 1976, Highpoint Academy has provided generations of students with an excellent education in a positive and nurturing academic environment. This prestigious institution is a model of academic excellence, imagination, innovation, and creative thinking. I am proud that, over the last 40 years, the gifted educators at Highpoint Academy have helped develop successful students who have gone on to become leaders in our south Florida community and, indeed, throughout our Nation.

To Principal Alicia Casanova and the whole Highpoint Academy family, congratulations on this very special anni-

versary, and thank you for decades of outstanding educational contributions to our south Florida community.

WORLD AIDS DAY

Ms. ROS-LEHTINEN. Mr. Speaker, today is a milestone in the history of the fight against AIDS because we are celebrating the 28th World AIDS Day. For sure, we must continue to build upon a bipartisan commitment to ending AIDS by the year 2030, both here in the U.S. and around the world.

I will remain deeply involved as the Republican co-chair of the Congressional HIV/AIDS Caucus because south Florida, my community, is ground zero for the next phase of the battle against HIV/AIDS.

Sadly, Florida is number one in the Nation for new HIV cases, and south Florida accounts for more than half of all new HIV cases in our State. Florida's growing struggle with HIV/AIDS mirrors a larger dynamic taking place across the South for which the region, as a whole, is not well-prepared. South Florida's issues, in particular, are exacerbated by the demographics of HIV, our magnetism as a tourist destination, and the international character of both our community and the AIDS epidemic.

Next year is a big year for the fight against HIV/AIDS. The AIDS community and the Congressional HIV/AIDS Caucus will remain committed to putting an end to AIDS by the year 2030.

□ 1015

#### PRESIDENT OBAMA'S LEGACY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. QUIGLEY) for 5 minutes.

Mr. QUIGLEY. Mr. Speaker, 8 years ago, our Nation was in the midst of the Great Recession. It was the worst economic downturn since the Great Depression, unprecedented in both severity and duration. It was an economic tailspin that blindsided many, devastated millions, and robbed good people of their savings, their security, and their way of life. It was a disastrous combination of irresponsible lending, overly complex derivatives, and inadequate regulatory oversight that led to a near collapse of our financial system.

Over the course of this economic catastrophe, more than 5 million Americans lost the roof over their head, and another 9 million lost the paycheck they relied on to support themselves and their families. People were terrified for their futures, and for the first time in generations, it looked as if moms and dads might have it better off than their sons and daughters.

This chaos and despair extended far beyond economics. At the end of 2008, almost 16 percent of the population was uninsured. This meant that over 50 million Americans were crossing their fingers, holding their breath, and hoping to avoid any unpredictable, unanticipated, and uncontrollable health

concerns that would turn their lives upside down. Simply being a woman or having asthma was enough for insurance companies to deny you quality care, and basic preventive and primary care services were hard to come by.

Thousands of brave men and women in uniform had been killed, and scores more were wounded in a long and polarizing war in Iraq. LGBT Americans had to keep their true identities hidden. Gay men and women who served their Nation in uniform and risked their lives in defense of our freedom had to stay quiet about whom they loved, and those who were open about their sexual orientation were not allowed to join their partner in marriage if they lived in one of the 48 States that prohibited same-sex marriage.

This was the state of our Nation. This is the America that President Obama inherited on January 20, 2009.

Things look a little different today, and I know that I speak for millions of Americans who are grateful for the past 8 years fueled by real change that made our economy stronger and our society much more just.

When President Obama took his oath of office, the economy was bleeding 800,000 jobs a month. Today, we have seen record private sector job growth marked by over 15 million new jobs over the past 80 months.

At the height of the recession in 2009, unemployment hit an alarming 10 percent; but, today, the unemployment rate is below 5 percent. Today, thanks to the Dodd-Frank Act, systemic risk in our financial system has been significantly reduced, and our largest banking institutions are more transparent and accountable than they have been in decades.

Today, marriage equality is now the law of the land in all 50 States. Today, nearly 18 million previously uninsured Americans have gained coverage under the Affordable Care Act, resulting in the lowest uninsured rate in history. Today, men and women are charged the same price for health care. Americans can access preventive care services at no cost. Preexisting conditions don't bar individuals from treatment, and young people can stay on their parents' plan until they are 26.

Today, because of the Lilly Ledbetter Fair Pay Act, which was the first piece of legislation signed by President Obama, women can more effectively challenge unequal pay practices.

Today, previously fraught relationships with many allied countries have been restored. Today, the combat mission in Iraq is over and tens of thousands of troops are back home with their families after years of war. Today, justice has been served, and Osama bin Laden is dead.

Today, our Nation has championed some of the most profound climate change initiatives in the world, like the Clean Power Plan and the Paris Ac-

cords, which will help protect our precious natural resources and defend our environment for generations to come.

It is up to us to decide if we want to move forward or back. Nearly a decade of progress is on the chopping block.

There is no doubt that everyone is still reeling from the long and divisive campaign season that culminated in an election that left millions of Americans scared once again.

The economic recovery and social victories we have seen during the Obama presidency have been substantial, but much more work remains to ensure that Americans have an equal opportunity to succeed; because even though today looks better than it did 8 years ago, what will tomorrow look like?

As for now, and as for me, I am proud to have served in the people's House under this President.

#### PAYING FOR INFRASTRUCTURE WITHOUT SOAKING THE TAX-PAYER

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. McCLINTOCK) for 5 minutes.

Mr. McCLINTOCK. Mr. Speaker, President-elect Trump has many difficult tasks ahead—one of which is to promote long overdue infrastructure construction at a time when the national debt exceeds our entire economy and interest costs alone are eating us alive. Now, some have said that a rebounding economy resulting from tax reform can pay for it. Well, that may be, but it is not guaranteed, it cannot be accurately forecasted, and we will need any new revenues to beef up our defenses and reduce our deficit—two other critical objectives of the new administration.

Others have proposed tax credits to leverage private capital for infrastructure improvements. But tax credits reduce revenue and widen the deficit. Worse, such public-private partnerships have proven a fertile breeding ground for corruption, crony capitalism, waste, and fraud; and as we learned during the Obama stimulus fiasco, massive government spending might stimulate government, but it does little to stimulate the economy when it is squandered for boondoggles like subsidizing Solyndra and paying cash for clunkers.

So how do we avoid mistakes of the past, control the deficit, protect taxpayers, and yet add \$1 trillion of new infrastructure in a way that helps the economy and not just lines the pockets of politically well-connected interests?

First, get government out of the way. Stop obstructing major infrastructure projects like the Keystone Pipeline. Keystone and many other projects like it across the country already have private capital ready to finance them.

Keystone by itself would unleash an estimated \$8 billion of privately financed infrastructure construction, and when complete, would mean a half million barrels a day of Canadian crude oil entering U.S. markets.

In my district alone, one abusive official at the Sacramento office of the Army Corps of Engineers single-handedly blocked tens of millions of dollars of critical infrastructure construction desperately sought by local governments in the region. Multiply that across the country, and you can see how many infrastructure projects already are financed but cannot move forward because of Federal obstructionism.

Second, streamline radical regulations that have made many infrastructure projects cost-prohibitive. In my district, the little town of Foresthill gets its water from the Sugar Pine Reservoir, formed by a dam that has an 18-foot spillway, but no spillway gate. The town is trying to increase the reservoir's capacity by adding the missing gate. The gate will cost \$2 million, but environmental studies, environmental litigation, and U.S. Forest Service fees have inflated that cost to \$11 million. So this project has stalled. Multibillion dollar expansion of Shasta Dam is stalled for similar reasons. Once again, multiply this across the rest of the country.

Third, use revenue bonds to finance capital-intensive projects like dams and bridges. California built its iconic Golden Gate and Bay Bridges with loans from private investors—repaid by tolls that were charged only to the users of the bridges. The taxpayers were never on the hook for a dime, and the loans were paid back ahead of schedule.

The famous California State Water Project constructed 21 dams and more than 700 miles of canals. The revenue bonds and self-liquidating general obligation bonds that financed it were paid back not by general taxpayers, but by the users of the water and power.

Fourth, restore the integrity of our highway trust fund. We built the modern interstate system with the Federal excise tax paid by highway users at the gas pump. The more you drove, the more you paid for the roads you were using. But over the decades, more and more of these funds were bled away to subsidize mass transit and other purposes unrelated to highway construction. Restoring highway taxes for highways would go a long way toward addressing the maintenance and construction backlog.

Fifth, repeal the outdated Davis-Bacon Act that requires Federal projects to pay grossly inflated wages. Think tanks like The Heritage Foundation and the Competitive Enterprise Institute estimate that Davis-Bacon alone inflates total construction costs by roughly 10 percent. That means that

just repealing this single act would add one new project for every 10 existing ones at no additional cost.

These are just a few of the ways that massive infrastructure projects can be financed at zero cost to general taxpayers; and because these reforms are actually directed at projects for which there is a demonstrated economic need, political favoritism and corruption inherent in government-directed programs can be greatly reduced.

Mr. Speaker, freedom works; and it is time that we put it and America back to work.

#### RECOGNIZING LESLIE MCGOWAN, HEROINE OF THE MONTH

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. COSTA) for 5 minutes.

Mr. COSTA. Mr. Speaker, I rise today to recognize Leslie McGowan as November's Heroine of the Month.

The Hero or the Heroine of the Month is an individual in the community in the San Joaquin Valley in California who goes the extra mile to make a positive difference for the people whom I serve.

Leslie is the CEO of Livingston Community Health, a medical and dental provider with community health center locations throughout Merced County.

Leslie has been a part of the team at the Livingston health center for over 10 years, and she has been instrumental in the development of the success of the health center, which enables residents in Merced County to receive health services that would not be otherwise available.

One hundred percent of Merced County is a Health Professional Shortage Area—not enough health care. In other words, the county has a major shortage of primary care physicians.

The Livingston health center has an important role in working to fill that gap so that no one goes untreated. Most recently, Leslie led the efforts for the opening of the Wolves Wellness Center at Livingston High School. It is the only school-based health center in Merced County. It provides medical care, counseling, and dental services to students, their families, and local residents at no or very low cost.

Additionally, Leslie has implemented programs like the Back to School Fair, Homeless Health Day, and an annual scholarship fundraiser to help ensure that people know that they have access to quality and affordable health services. This was all made available as a result of the Affordable Care Act.

Livingston Community Health and its doctors, nurses, and staff work to ensure that individuals who live in rural communities—many rural communities throughout this country, many that I represent—and throughout Merced County have access to quality, affordable health services.

As a strong supporter of community health centers, it is a pleasure to recognize and give a big thank-you to Leslie McGowan and her staff of doctors and nurses at Livingston Community Health.

#### WATER AND CALIFORNIA'S DROUGHT

Mr. COSTA. Mr. Speaker, I rise today to speak about water and California's ongoing drought. This week, the California Department of Water Resources announced that the 2017 initial allocation for the State Water Project is 20 percent—not good.

I join with drought-stricken communities like those in the San Joaquin Valley and California farmers, farm workers, and farm communities who are all praying that the initial water allocation of 20 percent improves when the Department of Water Resources issues a final allocation not just for the State water projects, but for the Federal water projects as well.

However, with the current operations of California's water system, it would take storms of Biblical proportions for these agencies that are served by the State and Federal Water Project to be able to increase those allocations to 100 percent.

That is why Congress must act now to pass a California water bill that will improve operations to fix our broken water system. We need legislation to provide funding to improve our water infrastructure and to move more water when larger storms make it available, as in last weekend.

California may soon face a sixth consecutive dry year. Therefore, as a result of the drought and the inadequate and broken water system, hundreds of thousands of acre-feet of water have been lost, and 600,000 acres of productive farmland has, unfortunately, been left unplanted.

Some families in my district do not have reliable water to drink, to cook, or to bathe in. The drought, together with the current water policies, are devastating to the San Joaquin Valley.

So, Mr. Speaker, I urge my colleagues to work together in these last few days as we try to assist the people in Flint, Michigan, and to bring together a package of legislation that will end the impasse that we have had and provide water if, in fact, the good Lord sees to bringing rain and snow to the mountains this winter in California.

□ 1030

#### 5A STATE CHAMPIONS: ELK RIVER ELKS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Minnesota (Mr. EMMER) for 5 minutes.

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to congratulate the Elk River High School football team on their Class 5A State Cham-

pionship victory. Entering the State title game undefeated, the Elks scored an impressive 42 points and rushed for a total of 446 yards over Spring Lake Park at U.S. Bank Stadium last Saturday.

The Elks had an incredible season, averaging 45 points and 449 rushing yards per game. Every Elk deserves mention, but two in particular played a special role in their success—Nick Rice and Sam Gibas.

Rice finished the season with 2,154 rushing yards and a total of 25 touchdowns, and Gibas finished with 1,330 rushing yards and 23 touchdowns.

The Elk River football team worked hard this season under the guidance of Coach Steve Hamilton, and their efforts paid off.

Congratulations for being the 2016 Minnesota State high school football champions.

#### REMEMBERING A TRUE PUBLIC SERVANT

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to remember the life of St. Francis Police Chief Jake Rehling, who lost his battle with a rare form of cancer last month. What a life he lived. Jake Rehling spent his life working tirelessly to better the St. Francis community and the lives of those around him.

A native Minnesotan, Jake grew up in Onamia and attended Bethel University, where he studied criminal justice. Upon graduation, Jake joined the St. Francis Police Department where he served for 17 years. His passion for his work and the compassion he displayed to others ultimately led to his promotion to St. Francis police chief earlier this year.

Jake was committed to his family and his community. His life is the definition of public service. He will be missed.

I would like to express my sincere condolences to Jake's wife, Brooke, and son, Aiden. Please know the impact Jake had on this world will always be remembered.

#### REMEMBERING DR. WARREN WARWICK

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to pay tribute to the life and work of Dr. Warren Warwick.

As a professor of pediatrics at the University of Minnesota, Dr. Warwick was a pioneer in the advancement of care for cystic fibrosis patients.

Early in his career, Dr. Warwick founded the University of Minnesota Cystic Fibrosis Clinic, where he served as director for nearly 40 years. Dr. Warwick was known for his compassion, kindness, ingenuity, and tireless commitment to the improvement of patient care.

Because of his work, the Cystic Fibrosis Foundation patient registry was created. Before the creation of the cystic fibrosis registry, cystic fibrosis patients typically lived into their early childhood. Today, many live well beyond their 50s, thanks largely to the

advancements and treatment only possible through the patient registry and Dr. Warwick's unwavering commitment to research and excellence in patient care.

In addition to serving his patients, Dr. Warwick honorably served his country for over 30 years in the United States Army Reserve Medical Corps, retiring as a colonel.

His legacy—one of a passionate pursuit of excellence and dedicating his life to helping others—will live on.

#### DAKOTA ACCESS PIPELINE

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Hawaii (Ms. GABBARD) for 5 minutes.

Ms. GABBARD. Mr. Speaker, growing up in Hawaii, I learned the value of caring for our home, caring for our planet, and the basic principle that we are all connected in this great chain of cause and effect.

The Dakota Access Pipeline is a threat to this great balance of life. Despite strong opposition from the Standing Rock Sioux and serious concerns raised by the EPA, the Department of the Interior, the Advisory Council on Historic Preservation, and other Federal agencies, the Army Corps of Engineers approved permits to construct the Dakota Access Pipeline without adequately consulting the tribes and without fully evaluating the potential impacts to the neighboring tribal lands, sacred sites, and their water supply. Just one spill near the tribe's reservation could release thousands of barrels of crude oil, contaminating the tribe's drinking water.

The impact of the Dakota Access Pipeline is clear. Energy Transfer Partners, the company that is constructing the Dakota pipeline, has a history of serious pipeline explosions, which have caused injury, death, and significant property damage in the past decade. The future operator of the planned pipeline, Sunoco Logistics Partners, has had over 200 environmentally damaging oil spills in the last 6 years alone, more than any of its competitors.

Protecting our water is not a partisan political issue; it is an issue that is important to all people and all living beings everywhere. Water is life. We cannot survive without it. Once we allow an aquifer to be polluted, there is very little that can be done about it. This is why it is essential that we prevent our water resources from being polluted in the first place.

Our Founding Fathers took great inspiration from Native American forms of governance and the democratic principles that they were founded on. Their unique form of governance was built on an agreement called the Great Law of Peace, which states that before beginning their deliberations, the council shall be obliged "to express their grati-

tude to their cousins and greet them, and they shall make an address and offer thanks to the Earth where men dwell, to the streams of water, the pools, the springs and the lakes, to the maize and the fruits, to the medicinal herbs and trees, to the forest trees for their usefulness . . . and to the Great Creator who dwells in the heavens above, who gives all the things useful to men, and who is the source and the ruler of health and life."

This recognition of our debt to the Creator and our responsibility to be responsible members of this great web of life was there from the beginning of western democracy.

Freedom is not a buzzword. The freedom of our Founding Fathers was not the freedom to bulldoze wherever you like.

Our freedom is a freedom of mind, a freedom of heart, a freedom to worship as we see fit, freedom from tyranny, and freedom from terror. That is the freedom this country was founded on—the freedom cultivated by America's native people and the freedom that the Standing Rock Sioux are now exercising.

This weekend, I am joining thousands of veterans from all across the country at Standing Rock to stand in solidarity with our Native American brothers and sisters. Together, we call on President Obama to immediately halt the construction of this pipeline, respect the sacred lands of the Standing Rock Sioux, and respect their right to clean water. The truth is whether it is the threat to essential water sources in this region, the lead contaminated water in Flint, Michigan, or the threat posed to a major Hawaii aquifer by the Red Hill fuel leak, each example underscores the vital importance of protecting our water resources.

We cannot undo history, but we must learn lessons from the past and carry them forward, to encourage cooperation among free people, to protect the sacred, and to care for the Earth, for our children and our children's children. What is at stake is our shared heritage of freedom and democracy and our shared future on this great Turtle Island, our United States of America.

#### RECOGNIZING CAPTAIN WILLIAM B.J. FORE

The SPEAKER pro tempore. The Chair recognizes the gentleman from North Carolina (Mr. MEADOWS) for 5 minutes.

Mr. MEADOWS. Mr. Speaker, I rise today to recognize the service of a great public servant on his retirement—Captain William B.J. Fore.

B.J., as I call him, a great friend from Caldwell County, North Carolina, has served in the Caldwell County Sheriff's Office for a number of years. Today, Mr. Speaker, I could rise and go through a litany of different positions

on how he has served that great county, but it would miss the point, it would miss the point of who B.J. Fore really is.

He is a gentleman that not only do I call a friend, but he is someone who has served Caldwell County over and over again, consistently answering the call with the word "yes."

B.J. Fore has not only served the Caldwell County area in public service as a law enforcement officer, but he has consistently been someone who is always there to serve those that are in need. I remember specifically just a few years back where he and I were working together on trying to serve some of those that were in most need during an event at Halloween time. Some would come in, and there he was making sure that not only children and families were recognized for what they had or didn't have, but some of them, perhaps even that day, showed up to get the meal that only they could have provided at that particular event.

It is a heart of a big man, a big man of courage, that I recognize today on his retirement. I wish him the very heartfelt congratulations on a life that has served Caldwell County so well, and I wish him the very best in his future endeavors.

#### COMMERCE LEXINGTON

The SPEAKER pro tempore. The Chair recognizes the gentleman from Kentucky (Mr. BARR) for 5 minutes.

Mr. BARR. Mr. Speaker, I rise today to honor Commerce Lexington, the chamber of commerce for my hometown of Lexington, Kentucky, which has been named the 2016 Chamber of the Year by the Association of Chambers of Commerce Executives.

Commerce Lexington won the large chamber category over the great cities of Brooklyn, New York; Jacksonville, Florida; and Tacoma, Washington. This award is recognition of Commerce Lexington's work to promote economic development, job creation, and overall business growth in Lexington and neighboring communities through its many programs and services.

As a member-driven organization, the award is also a reflection of Commerce Lexington's 1,700 members, as well as their volunteers and staff, ably led by CEO and President Bob Quick.

In addition to the Chamber of the Year award, Commerce Lexington also received a Grand Award in Communications for their "Here's Our Proof" marketing campaign during the 2015 Breeders' Cup World Thoroughbred Championships, which showcased central Kentucky and the Bluegrass region as a great place to do business, as well as an ideal location for conventions and tourism. It helped, of course, that American Pharoah did what no other thoroughbred had done in history—win not only the Triple Crown, but also the

Grand Slam of thoroughbred racing going wire to wire in the Breeders' Cup Classic at Keeneland Racecourse—Keeneland, of course, a key member of Commerce Lexington.

Mr. Speaker, I hope that all of my colleagues will join me in congratulating Commerce Lexington on achieving this national honor, and for their hard work to encourage jobs and economic growth in central Kentucky and to share how special our city and our region are with the world—of course, Lexington, the world's horse capital of the world.

#### RECOGNIZING MASTER FIREFIGHTER MICHAEL CURRY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Georgia (Mr. CARTER) for 5 minutes.

Mr. CARTER of Georgia. Mr. Speaker, I rise today in recognition of Master Firefighter Michael Curry, who passed away in the line of duty on Saturday, November 19, in Savannah, Georgia.

Mr. Curry's work as a firefighter allowed him to do what he loved most—help people. On his last alarm as a firefighter, he rescued seven people from the Savannah River after a ferry boarding platform collapsed. His 13 years of dedication to the Savannah community and the fire department shows in his numerous volunteer activities.

He worked as an emergency medical responder, disaster search and rescue technician, swift water rescue technician, advanced rescue diver, and was involved in groups, including the Allee Temple, the Georgia Critical Incident Stress Foundation, and was the cub master for pack number 4102.

Mr. Michael Curry is a true hero, who died in service to our community running toward an emergency while others sought out safety.

I am heartbroken by this loss. Our community is heartbroken by this loss. I encourage everyone to keep the Curry family and first responders everywhere in your thoughts and prayers.

#### RECOGNIZING DON LOGANA

Mr. CARTER of Georgia. Mr. Speaker, I rise today in recognition of Don Logana, a longtime reporter in the Savannah community, who passed away on Sunday, November 20.

Mr. Logana joined the local Savannah news station, WTOC, in 2004, and quickly became an integral part of the Savannah news scene and a familiar face in our homes.

□ 1045

His career began in Syracuse, New York, as an intern, but his talent for finding a story and bringing a unique point of view allowed him to quickly rise up the ranks.

When he moved to Savannah, he became the weekday morning anchor for WTOC's "The News at Daybreak" and an investigative reporter who exposed

consumer issues. A testament to his talent, Mr. Logana received multiple awards and was honored throughout his career, with the most recent being for the Best Local TV News Anchor 2016 by Connect Savannah.

In addition to his news accomplishments, Mr. Logana had a heart of gold and was constantly involved in the community. In 2011, he competed in "Dancing with Savannah Stars," raising the most money for abused and neglected children.

Mr. Logana's colleagues describe him as a trusted friend to all and someone whose bright, loving personality will be deeply missed.

Mr. Logana's loss is felt by the whole Savannah community. I encourage everyone to keep the Logana family and WTOC Savannah in their thoughts and prayers.

#### 3RD INFANTRY DIVISION'S 99 YEARS OF SERVICE

Mr. CARTER of Georgia. Mr. Speaker, I rise to recognize the U.S. Army's 3rd Infantry Division and its 99 years of service to the United States Armed Forces. The 3rd ID has been located in coastal Georgia for the past 20 years; yet its amazing history dates back to 1917.

During World War I, the 3rd Infantry Division earned the name "Rock of the Marne" by pushing the Germans back across the Marne River and stopping their march to occupy the important allied city of Paris. The 3rd ID continued to fight the Germans at the Marne even as other units retreated.

In 1943, during World War II, the 3rd ID was one of the few divisions to fight the Axis Powers on all European fronts. They fought in north Africa, Italy, France, Germany, and Austria. The 3rd ID even liberated half of French Morocco from the Nazi influence.

Since the World Wars, the 3rd ID has continued to support America's safety and freedom by fighting bravely in the Vietnam war, the Korean war, Operation Desert Storm, and the global war on terrorism.

Thank you to the 3rd ID for your courage, your sacrifice, and your commitment to our national security.

#### THE DEATH OF FIDEL CASTRO BRINGS AN OPPORTUNITY OF HOPE FOR CUBA

The SPEAKER pro tempore. The Chair recognizes the gentleman from South Carolina (Mr. WILSON) for 5 minutes.

Mr. WILSON of South Carolina. Mr. Speaker, last Friday began a new era for the people of Cuba. For too long, the murderous dictatorship of Fidel Castro has reduced one of Latin America's wealthiest countries to mass poverty in order to benefit the Communist elite and the military.

A recent editorial in The Charleston Post and Courier stated: "Fidel,

though he thrived on opposing the U.S., he was long subservient to another superpower, the Soviet Union, until its welcome demise in 1991. He also was an enthusiastic proponent of the Soviets' reckless decision to put weapons of mass destruction aimed at the U.S. in his country."

President-elect Trump has correctly reviewed: "It is my hope that today marks a move away from the horrors endured for too long, and toward a future in which the wonderful Cuban people finally live in the freedom they so richly deserve."

I have been inspired by the late Louis and Nena Gonda, who fled Cuba with their three daughters as all of their property was stolen. They told me about their daughters. They were told to pack for a 2-week visit to visit a sick aunt in New York. They went to a department store there in Cuba, and they bought suitcases. When they arrived home, the secret police were already at the house. They asked them: What are you buying suitcases for? It was explained that they were buying suitcases to go visit a sick aunt in New York and that they would be returning in 2 weeks.

They just didn't have the heart to tell their children—their three young girls—that they would never return to their home, that they would never see their personal property. Their cars, the ones that now appear to be unique, are all stolen cars when you see the classic cars in Cuba. Everything that the family owned was stolen by the Communist government.

They fled to West Columbia, South Carolina, where they worked hard to achieve the American Dream of extraordinary economic success as neighbors in my home County of Lexington, South Carolina.

In conclusion, God bless our troops; and may the President, by his actions, never forget September the 11th in the global war on terrorism.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o'clock and 49 minutes a.m.), the House stood in recess.

□ 1200

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker at noon.

#### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer:

Loving and gracious God, we give You thanks for giving us another day.

Help us this day to draw closer to You so that, with Your Spirit and aware of Your presence among us, we may all face the tasks of this day.

Bless the Members of the people's House. Help them to think clearly, speak confidently, and act courageously in the belief that all noble service is based upon patience, truth, and love.

You know well the pressing issues facing our Nation. Grant our leaders, especially, the wisdom and magnanimity to do what is best; and may we all join in a common will for the benefit of all constituencies, even though this will take some sacrifice.

May all that is done this day be for Your greater honor and glory.

Amen.

### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Florida (Mr. BILIRAKIS) come forward and lead the House in the Pledge of Allegiance.

Mr. BILIRAKIS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

### RECOGNIZING THE SERVICE OF KIM HOLMES OF DAYTON, OHIO

(Mr. TURNER asked and was given permission to address the House for 1 minute.)

Mr. TURNER. Mr. Speaker, I am here today to recognize the service of Kim Holmes as she retires from over 32 years of combined constituent services to the citizens of Ohio.

Kim Holmes joined my Dayton office in July of 2007 as a caseworker. She began working for me after the retirement of her former boss, Congressman Mike Oxley. Since 2007, Kim has helped thousands of people on my constituent services team. Those numbers increase exponentially when you factor in 23 years of service in Congressman Oxley's office.

Kim's direct, persistent, and dedicated work has helped make a difference in the lives of Ohioans in several of the counties in Ohio: Mont-

gomery, Greene, Fayette, Allen, Auglaize, Champaign, Hancock, Hardin, Logan, Marion, Morrow, Richland, Shelby, and part of Wyandot.

Kim expeditiously resolved problems across multiple issues from veterans, Social Security, Medicare, and immigration by developing a strong and long-lasting relationship with fellow agencies.

I made the point to stop by her office every day I saw her and thanked her for being there. In the words of her constituents, it is probably best reported as to her impact. They have said:

"I don't know what I would have done without you."

"I will never forget your kindness."

"We deeply appreciate your attention to our claim."

"We cannot express our gratitude to you enough."

"I appreciate your help more than words can express."

"There are still good people in this world who still care and want to help. You are one of those."

On behalf of your coworkers and the countless constituents you have assisted, your knowledge, compassion, and efficiency will be sorely missed. Thank you for representing my office in the highest standards. I hope that you enjoy your retirement with your grown children, Jason and Tori, as well as your grandson, Luke.

I wish you all the best.

### OHIO STATE UNIVERSITY ATTACK

(Mrs. BEATTY asked and was given permission to address the House for 1 minute.)

Mrs. BEATTY. Mr. Speaker, I rise today to salute the Ohio State University Buckeye community for its strength and resilience in response to the tragic incident when an Ohio State University student rammed his car into a crowd of students on the campus and then stabbed several of them in an attack that ended when a police officer shot and killed him.

I applaud the university president, Michael Drake, university leadership, and its incredible student alert system, along with multiagency police officials for working together to enhance the safety and security of the university. These first responders acted quickly and selflessly, including an Ohio State University police officer who, within seconds, responded to the violence, containing injuries and diffusing the situation.

I thank the medical team and staff at the Wexner Medical Center and surrounding hospitals for treating 11 patients to ensure full recovery.

As the former senior vice president of outreach and engagement at the university, I was never prouder of how we came together quickly in the face of terror. I thank all at the university for

continuing to exemplify the Buckeye spirit and remaining united, even in the face of adversity.

Go Bucks.

### CONGRATULATING COACH BROOKE GOOD AND THE MESSIAH COLLEGE FIELD HOCKEY TEAM

(Mr. PERRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PERRY. Mr. Speaker, I rise today to congratulate Coach Brooke Good and the Messiah College field hockey team of Pennsylvania's Fourth District on their NCAA Division III national championship.

Messiah College played through freezing temperatures, wind, and snow against Tufts University in the NCAA Division III national championship on November 20, and they came away with a 1-0 decision in penalty strokes that will go down as one of the best games in Division III field hockey history.

The Falcons are a great team with a great leader who inspired them to be their best—not only as athletes, but as women of character, determination, pride, and loyalty to each other and to their school.

We are all incredibly proud of you.

### THE PUBLIC GOOD

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Mr. Speaker, first, I want to acknowledge that this is World AIDS Day, and much of the success has come because of public funding. That is why I rise today, to talk about the public good and the responsibility of the President and his Cabinet members to do the public good.

I remember when President Clinton was in and generated a major surplus in our budget, 22 million jobs, pursuant to the 1997 budget. We also recognized that the next administration generated enormous tax cuts, low job creation, and a seismic debt that was created because of those tax cuts to the 1 percent.

Now, today, we have the toxicity of two billionaires who head the Treasury Department: the "King of Foreclosures," forced foreclosures, and the other who will head the no-job-creating Commerce Department by this individual.

Rather than supporting full employment or creating jobs, everything will be for the big pockets of the big corporations, not the pockets of the working families, like my constituents.

So I raise the question to Mr. Trump: Where are the appointees that are going to work for the public good? Where are the individuals that are going to have the sufficient wisdom to provide the funding that will support

continued work on stifling out and snuffing out HIV/AIDS? Where are those that are going to listen to the people?

This toxic brand has to stop.

#### HONORING NAVAL SUPPORT ACTIVITY CRANE

(Mr. BUCSHON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BUCSHON. Mr. Speaker, I rise in honor of a premier U.S. military base in my district, Naval Support Activity Crane.

Seventy-five years ago today, December 1, 1941, Crane Naval Installation officially opened. One week later, Pearl Harbor was bombed, and the need for an ordnance facility safe from attack on the coasts became obvious.

Today, at 100 square miles, Naval Support Activity Crane is the U.S. Navy's third largest installation in the world. The base is home to two vital tenant commands: Naval Surface Warfare Center, a center of excellence in strategic systems, electronic warfare, and expeditionary systems; and Crane Army Ammunition Activity, through which 25 percent of the Department of Defense conventional munitions passes every year.

Crane is also a regional economic powerhouse, supporting 5,000 civilian employees and contributing \$2 million a day to Indiana's economy. This critical military asset is a national treasure for research and development and an outstanding Hoosier neighbor. I proudly salute the men and women who call it home.

#### BUFFALO'S CENTRAL TERMINAL

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, Buffalo will select a new site for a train station in the next several months and will build a new passenger train terminal in the next 2 years. This offers an opportunity to remake Buffalo's storied Central Terminal.

Selection of the Central Terminal will be a catalyst for the redevelopment of the city's Broadway-Fillmore neighborhood, improve destination choice, and will represent the next exciting iteration of what is possible in the new Buffalo.

This is not simply about building a new train station. Selection of the Central Terminal is a bold statement of confidence and commitment by a city of limitless potential and possibility.

#### SARAH HUGHES' MIRACLE CURE

(Mr. OLSON asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. OLSON. Mr. Speaker, I want the American people to know why I proudly voted for the 21st Century Cures Act last night—six words: Sarah Hughes and systemic juvenile idiopathic arthritis.

Sarah found out she had this autoimmune disorder when she was 11 months old. For over 20 years, she fought intense pain, fevers of 107 degrees, and getting fed through a tube for over a decade.

Her mom, Fiona, was told by her doctors that she would watch her daughter die before she turned 20 years old. Sarah proved those doctors wrong by getting stem cell therapy from Celltex Therapeutics from my own town of Sugar Land, Texas.

Within 2 hours of her first infusion, Sarah felt a change. Here she is today. Her mom, Fiona, summed up Sarah's amazing miracle. She said: "She's her, and I'm me. We're enjoying life together, the way it should be."

#### REMEMBERING THE SERVICE AND SACRIFICE OF OFFICER COLLIN ROSE

(Mr. KILDEE asked and was given permission to address the House for 1 minute.)

Mr. KILDEE. Mr. Speaker, I rise to pay respects and remember Officer Collin Rose, who was killed in the line of duty last week in Detroit while on patrol near Wayne State University.

To the Rose family, including Collin's fiancée, Nikki, I am terribly sorry for your loss. At just 29 years old, Collin was taken from your family and this world far too soon. Our community, our State, and our country are all standing with you during this difficult time.

His fellow officers described Collin as always being kindhearted and hardworking. One officer said that Collin always had an engaging smile and generous spirit. Another officer said that he was the hardest working person he had ever met.

His grandfather, Clifford Rose, told a local news outlet that at the age of 8, Collin knew he wanted to be a police officer. As an officer at Wayne State, Collin was most passionate, though, about canines and training Clyde, his rottweiler, and Wolverine, a German shorthaired pointer. "His passion was training those dogs," said one of his fellow officers.

This is a terrible loss, and I ask all of my fellow Members of the House of Representatives present to join me in observing and honoring the memory of Collin Rose, his service, and his sacrifice.

#### HONORING THE LIFE AND SERVICE OF TUSKEGEE AIRMAN WILLIE ROGERS

(Mr. BILIRAKIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BILIRAKIS. Mr. Speaker, I rise today to honor the life and service of an American hero from St. Petersburg, Florida, Tuskegee Airman Willie Rogers.

Willie was the oldest remaining Tuskegee Airman from the original legendary 100th Fighter Squadron, the first African American military aviators in the history of the U.S. Armed Forces. He was a part of history, and I am saddened to hear he passed away recently at the incredible age of 101.

Willie truly represented the Greatest Generation: humble, hardworking, and dedicated to his country and his family. He fought the Axis powers and protected our freedom and our way of life, despite the disgraceful way the Tuskegee Airmen were treated.

We would not be the Nation we are today without those who served, Mr. Speaker, and I would like to sincerely thank Willie and his family again for Willie's honorable service and his unwavering love of country.

□ 1215

#### STOP GUN VIOLENCE

(Ms. KELLY of Illinois asked and was given permission to address the House for 1 minute.)

Ms. KELLY of Illinois. Mr. Speaker, I have spoken on this floor many times about gun violence. This summer, many of us took to the House floor and shut this Chamber down for 26 hours, demanding that Congress do something to stop gun deaths. We almost lost a colleague, Gabby Giffords, to this violence. We stand not too far from the Gabe Zimmerman Room memorializing the brave staffer who lost his life in that Tucson shooting.

I often question if the loss of one of our own family members would be enough for us to act. Just 2 weeks ago, we learned that our esteemed colleague DANNY DAVIS' grandson, Javon Wilson, was shot and killed in Chicago. He was only 15. Javon joins the list of over 700 Chicagoans killed by guns this year.

To those Members that have offered their condolences to Congressman DAVIS, I say this: True concern and compassion requires some action. We can start with the bipartisan background check legislation. We have to start somewhere. Do something so no parent or grandparent has to feel this pain—Congressman DAVIS' pain—ever again.

#### POLL: MEDIA BIAS THREATENS DEMOCRACY

(Mr. SMITH of Texas asked and was given permission to address the House

for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, media bias is a direct threat to our democracy.

When the media doesn't report the facts or reports them in a biased manner, Americans can't make good decisions. If Americans can't make good decisions, our democracy is at risk.

Americans understand this. A recent USA Today/Suffolk University poll found that a majority of Americans believe the media poses a threat to our democracy. Due to its bias, particularly over the last few months, the national media has lost much of its credibility. In fact, the same poll found that less than 8 percent of voters trust the Big Three networks to provide fair and balanced coverage of the news.

Americans agree, the liberal national media is neither objective nor trustworthy.

#### HONORING DR. DEBRA SAUNDERS-WHITE

(Ms. ADAMS asked and was given permission to address the House for 1 minute.)

Ms. ADAMS. Mr. Speaker, I rise today to honor the life of the late Dr. Debra Saunders-White, a dedicated public servant and chancellor of North Carolina Central University. A cherished friend and confidant, I have never met anyone who worked harder and who gave more.

We often worked together on legislation related to HBCUs. I could always count on her to bring pertinent issues to my attention. She remained involved, even during her illness with cancer.

Prior to joining the Eagle family, Dr. Saunders-White served as acting Assistant Secretary for the Office of Postsecondary Education in the U.S. Department of Education and in university administrations of UNC Wilmington and Hampton University.

As chancellor of North Carolina Central University, Dr. Saunders-White expanded NCCU's course curriculum, helped secure critical investments for the university, and increased graduation rates. During her first week on campus, a campus food bank was opened to serve the needs of students, faculty, and staff.

Dr. Debra Saunders-White, educator-chancellor par excellence, will be sorely missed, but her legacy will live forever.

My thoughts and prayers continue to be with the Saunders-White family, friends, and the NCC University campus.

#### ADVANCES IN HEALTH

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, yesterday, the House overwhelmingly passed H.R. 34, the 21st Century Cures Act, a bill that offers help to millions of Americans whose needs have been pushed aside for far too long and marks the first step in helping improve our healthcare system, notably in mental health.

I commend my Pennsylvania colleague, Congressman TIM MURPHY, for his dedication and years of hard work on this issue. Back in my district in northern California, these failures have reached crisis levels of this system. In some areas, there are no psychiatric inpatient beds, leaving patients who are suffering to wait days, even weeks, to be seen. That could mean having to travel hundreds of miles for people who need care immediately. In other areas, there is virtually no access to psychiatric care, due to severe physician shortages.

Law enforcement struggle while responding to crisis calls due to lack of training, which has, unfortunately, resulted in tragic outcomes that we see way too many times; as well as the opioid struggles, which is a big challenge for law enforcement and our prosecutors. Heroin really has had a great grip in rural areas like mine in northern California. Indeed, 1,100 overdoses in 8 years.

This bill marks a significant historic, bipartisan effort to right what is wrong with our mental health system. It not only offers solutions, but it offers hope.

I ask my colleagues in the Senate to please take quick action.

#### WORLD AIDS DAY

(Ms. LEE asked and was given permission to address the House for 1 minute.)

Ms. LEE. Mr. Speaker, I rise today to commemorate World AIDS Day. The theme this year is "Leadership, Commitment, Impact."

First, I would like to thank Leader PELOSI for her steadfast commitment to fighting HIV and AIDS, and for guaranteeing strong United States leadership in this area. Also, to the Congressional Black Caucus for its leadership in the establishment of PEPFAR, which was a bipartisan effort that President Bush signed into law.

As the cofounder and co-chair of the bipartisan Congressional HIV/AIDS Caucus, with Congresswoman ILEANA ROS-LEHTINEN and Congressman MCDERMOTT, we have seen significant progress that we have made in the global fight against AIDS. From PEPFAR and the Global Fund to fight AIDS, TB, and malaria, to the Ryan White Care Act and the Minority AIDS Initiative led by Congresswoman MAXINE WATERS, year after year we have committed critical resources to end this disease.

Partly due to our efforts, 18.2 million people around the world are now living on antiretroviral drugs, and 37 million lives have been saved. But much work remains, which must continue to be bipartisan.

Still, stigma and discrimination prevents too many people from seeking testing and treatment. Around the world, countries criminalize LGBT people and prevent them from accessing critical HIV care. Here in the United States, we preserve stigma through outdated, unscientific laws that criminalize HIV in over 30 States.

We must end these laws and repeal the discrimination laws against people.

#### COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore (Mr. FORTENBERRY) laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 1, 2016.

Hon. PAUL D. RYAN,  
The Speaker, House of Representatives,  
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 1, 2016, at 11:49 a.m.:

That the Senate has made a technical correction to the engrossment of the Senate amendments to the House Concurrent Resolution of September 29, 2016 and hereby returns to the House the papers to accompany the resolution H. Con. Res. 122.

That the Senate concur in House Amendment S. 1550.

With best wishes, I am,  
Sincerely,

KAREN L. HAAS.

#### COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 1, 2016.

Hon. PAUL D. RYAN,  
The Speaker, House of Representatives,  
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 1, 2016, at 9:12 a.m.:

That the Senate passed S. 2971.

That the Senate passed S. 3183.

That the Senate passed S. 3386.

That the Senate passed without amendment H.R. 5509.

That the Senate passed without amendment H.R. 5995.

With best wishes, I am,  
Sincerely,

KAREN L. HAAS.

PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON S. 2943, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2017

Mr. BYRNE. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 937 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 937

*Resolved*, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (S. 2943) to authorize appropriations for fiscal year 2017 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read. The previous question shall be considered as ordered on the conference report to its adoption without intervening motion except: (1) one hour of debate; and (2) one motion to recommit if applicable.

The SPEAKER pro tempore. The gentleman from Alabama is recognized for 1 hour.

Mr. BYRNE. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Massachusetts (Mr. MCGOVERN), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. BYRNE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Alabama?

There was no objection.

Mr. BYRNE. Mr. Speaker, House Resolution 937 provides for consideration of the conference report for the National Defense Authorization Act for fiscal year 2017. This marks the 55th consecutive year that the House and Senate are coming together to pass a bill to authorize spending and set policy for our Nation's military.

Just as important, as is the case with most of our work on the Armed Services Committee that I have the privilege to serve on, this was a bipartisan process that allowed for numerous members to have input into the final bill. That is a testament to the great work and leadership of Chairman MAC THORNBERRY, Ranking Member ADAM SMITH, our subcommittee chairmen and the entire committee staff. This is truly a professional team that puts in long hours to make this bill possible, and they deserve a lot of credit for their efforts.

Mr. Speaker, I have said on this floor many times before that our military

faces a serious readiness crisis. Budget cuts have really thinned out our military and hurt our ability to train and prepare for conflict.

One of the most startling examples of this readiness crisis is the fact that some of our marines have been forced to get parts for their F-18s off of planes in a museum. That is simply absurd and it is deeply troubling.

Just as bad, less than one-third of Army forces are at acceptable readiness levels for ground combat and our pilots are getting less training than many of our adversaries.

Thankfully, this NDAA stops the drawdown of the military and authorizes critical funding for the operation and maintenance of our military. The bill authorizes important funding for training, helps rebuild outdated infrastructure, and ensures our military men and women have the munitions they need for ongoing operations.

The bill also provides for a 2.1 percent pay increase for our military. This is the largest pay raise for our troops in 6 years, and it is especially important for our military families.

Additionally, the bill supports our Nation's military operations around the globe. As we fight the Islamic State in Iraq and Syria and continue to have a presence in Afghanistan, it is vital that our military has the tools they need to carry out their mission and defeat radical Islamic terrorism.

Just as important, this NDAA provides for a continued military presence in Europe to support our allies and deter Russian aggression, as well as resources to support U.S. operations in the ever-important Pacific.

Finally, the NDAA includes some important reforms to make our military and the Pentagon more effective and more efficient. This includes updates to the Goldwater-Nichols Act to improve the overall organizational structure at the Pentagon and throughout our military.

The bill builds upon recent reforms to the Pentagon's acquisition programs to cut down on red tape and spur innovation and research.

It also updates the Uniform Code of Military Justice to promote accountability within our military.

□ 1230

Mr. Speaker, this is a good bill, but it alone will not be enough to fully turn the tide back in favor of the fully trained, fully capable, and fully equipped military that we need.

Congress and the incoming President must act early next year on a funding bill to fully fund our military, and we need to go above even what is included in this bill. As Chairman THORNBERRY has indicated, we need to push for a defense supplemental that includes important military programs that were, unfortunately, left out of this final bill.

I look forward to working with Chairman THORNBERRY, Ranking Member SMITH, the Appropriations Committee, and the incoming administration to get this funding bill taken care of as soon as possible next year because, without supplemental funding, we will leave the job half done.

While this is just one step in ensuring our military is ready for the fight, it is an important one nonetheless; so I urge my colleagues to join me in supporting this truly bipartisan legislation. For the 55th consecutive year, let's send a message to our servicemembers that supporting the United States military isn't a Republican goal or a Democrat goal—it is an American goal. I urge my colleagues to support House Resolution 937 and the underlying bill.

Mr. Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I yield myself such time as I may consume.

Mr. MCGOVERN. Mr. Speaker, I thank the gentleman from Alabama (Mr. BYRNE) for yielding me the customary 30 minutes.

Mr. Speaker, I thank the chairman of the House Armed Services Committee, the gentleman from Texas (Mr. THORNBERRY), and the honorable ranking member, the gentleman from Washington (Mr. SMITH), for their service and for concluding work on this conference report, which authorizes resources for our uniformed men and women, civilian defense workforce, our veterans and their families.

The defense bill is one of the most complex bills that comes each year before Congress for consideration and action, and I know the hours'—and the weeks'—and the months'—worth of work that goes into these negotiations by staff and Members. It is also, in general, a bill that receives broad bipartisan support, which is a reflection of the leadership, character, and abilities of the chairman, of the ranking member, and of their staffs.

Mr. Speaker, there is a great deal to support in this conference report and some provisions that continue to raise concern. Some items that were of grave concern have been dropped from the final conference report, like the fiscal cliff, language that would have authorized discrimination by Federal contractors, and some anti-environment riders.

I am very upset, however, that, for the second year in a row, the House caved to unreasonable Senate demands to drop the House-passed provision to honor our Atomic Veterans with a simple service medal. These uniformed men and women literally gave their lives in service to our country. In many cases, totally unprotected, they were exposed to extreme levels of radiation during the post-World War II era and the subsequent cold war period. Because they signed secrecy oaths, they

could not even inform their doctors that their many illnesses might be related to radiation exposure.

They never complained, and they did their duty. Their heroism and their service have been publicly recognized by Presidents George H. W. Bush and Bill Clinton. All we are seeking is for them to receive a simple service medal. More than three out of every four of these veterans have already passed away unrecognized for their service; yet the Senate—and Senate Armed Services Committee Chairman JOHN MCCAIN and a handful of Pentagon bureaucrats in particular—seems to think it is a major scandal to provide them with a service medal. My meetings with some at the Pentagon have been particularly troubling because of what I have perceived to be their total lack of sensitivity and their total lack of appreciation for the service that these veterans have provided to our country.

These men and women deserve better from their government. I hope, next year, when the House, once again, includes this bipartisan measure in the defense bill, that it won't be so weakened as to cave for a third time before such unreasonable intransigence.

This conference report, like its most recent predecessors, continues to authorize billions of dollars for our wars against the Islamic State in Syria, Iraq, and elsewhere without any debate on an Authorization for Use of Military Force in those countries and elsewhere.

I hope that one of Speaker RYAN's priorities during the first week of January will be to meet with President-elect Trump and work out a timeline for when Mr. Trump will send an AUMF to Congress on these wars and when the House will finally fulfill its constitutional duty to debate and vote on this matter. For over 2½ years, this House has failed, time and time again, to take up this serious debate even after President Obama sent an AUMF to Capitol Hill for action.

Enough is enough. With a Republican in the White House, I hope the Republican-controlled Congress will finally do its duty. The cowardice of the 113th and 114th Congresses must not be allowed to extend into and infect the 115th Congress.

Mr. Speaker, I want to say one more thing about the NDAA conference report.

This conference report includes a very important title that incorporates the Global Magnitsky Human Rights Accountability Act. As many of my colleagues know, this is a bipartisan measure, championed and introduced in the House by my friend and colleague, Congressman CHRIS SMITH; me; and by BEN CARDIN in the United States Senate.

The Global Magnitsky Act builds on the seminal Sergei Magnitsky Rule of Law Accountability Act, which is legislation that I authored that focused on

Russia, which was approved by Congress and signed into law in 2012. That law targets individual Russian officials who are accountable for the death of Russian lawyer Sergei Magnitsky, as well as other Russian officials engaged in corruption, human rights abuses, or who seek to undermine the rule of law. It denies them visas to the United States and freezes their assets in the United States.

The Global Magnitsky Act will extend the use of those same targeted sanctions to all countries, not just to Russia. It will ensure that visiting the United States and having access to our financial system, including to U.S. dollars, are privileges that should not be granted to those officials who violate basic human rights and the rule of law.

Mr. Speaker, as we enter the uncharted territory of a Trump administration, it is critical that Congress maintain its bipartisan leadership and support for human rights. It is critical that Congress continue to hold accountable the Russian Government and government officials around the world who engage in corruption, human rights abuses, and who flout the rule of law.

During the long campaign, two words I never heard Mr. Trump utter were "human rights." Quite frankly, I was disturbed by his public admiration of Russian strongman Vladimir Putin, whose government has jailed and even killed human rights defenders and political opponents.

Mr. Speaker, in past years, I have often voted against the final passage of the NDAA conference report. In general, I can't vote for a bill that provides tens of billions of dollars for wars that Congress refuses to debate and authorize. I can't vote for a bill that ties the hands of a President—any President—to shut down the prison at the U.S. Naval Base at Guantanamo Bay. I can't support a bloated budget that fails to make hard choices, that provides the Pentagon with even more money than it asks for, and that continues to increase in size—without end—for the foreseeable future.

However, because of the inclusion of the Global Magnitsky Human Rights Accountability Act, this year, I will vote in support of the FY 2017 NDAA conference report. The Global Magnitsky Act will give Congress a tool with which to hold accountable human rights abusers even if our new President ends up turning a blind eye. This language in this authorization bill is important because it sends a signal—no matter what our next President believes on the issue of human rights—that, in this Congress, in a bipartisan way, we believe that, if the United States of America stands for anything, it needs to stand out loud and four-square for human rights.

I urge all of my colleagues to support the conference report notwithstanding the many reservations we may have.

Mr. Speaker, I reserve the balance of my time.

Mr. BYRNE. Mr. Speaker, I yield 3 minutes to the gentleman from Oklahoma (Mr. COLE), a distinguished member of the Rules Committee and a distinguished member of the Appropriations Committee.

Mr. COLE. I thank the gentleman from Alabama for yielding. Frankly, I thank him for the wonderful work he provided as a member of the Armed Services Committee to bring this legislation to the floor today.

Mr. Speaker, I also want to quickly associate myself with my friend from Massachusetts' remarks about the authorization. I think he is absolutely right on that issue—we have worked together on that—and it is something that ought to happen. It is an institutional question of whether or not we retain our war-making authority, and he has done admirable work in that area.

The bill, itself, which I support—and, of course, the rule and the underlying legislation—is a very important piece of legislation.

I commend our friends on the Armed Services Committee for working in a bipartisan fashion, first, to make sure they stop the erosion of the end strength of the military. It is an absolutely critical thing to do. It could not have happened had they not worked together and made some tough decisions.

Second, I want to point out all of the reforms in this legislation—procurement reforms, in particular. They have gone well beyond simply appropriating money for the military as they have done some important work to put important tools in our hands that, I think in going forward, will save billions of dollars.

I also commend them for fully funding a pay raise for the men and women in uniform. That is an important thing. The amount of money—a 2.1 percent increase—is relatively modest but appropriate. The more important thing is the signal it sends to the men and women who put themselves between us and harm's way, and I thank the gentleman for his role in that.

Finally, I want to pick up on one of the points that my friend from Alabama made that I couldn't agree with more. As important and as good as this legislation is, if we do not marry it with the money that it takes to actually implement it, we are making the mistake of a lifetime. In my opinion, we could do that, literally, this year if we were to do an omnibus; but if we fail to do that and if we do a CR, my friend is exactly right in that we should act as rapidly as possible in January to make sure that we actually put the money together with the excellent authorization work that is done here. Otherwise, we simply undercut all of the good work of the Armed Services Committee.

This is something that we need to focus on. The authorization is important, but if we don't appropriate the money, a lot of the hard work that was done on the Armed Services Committee will be for naught, and it will be for naught until we actually make that decision. We shouldn't wait until the end of April or the end of May. We ought to get it done as quickly as we can. I would like to get it done before we go home, but if we can't do that, we certainly ought to get it done as quickly as we can when we get back.

With all of that aside, again, I congratulate both sides of the aisle. This is a model of bipartisanship. My friend from Massachusetts mentioned some other measures in here with regard to Russia that, I think, are absolutely also appropriate, and I applaud their inclusion.

I urge every Member to support the rule and, certainly, to vote for the underlying legislation.

Mr. MCGOVERN. Mr. Speaker, I yield 3 minutes to the gentleman from New York (Mr. ENGEL), the distinguished ranking member of the Committee on Foreign Affairs.

Mr. ENGEL. I thank the gentleman for yielding to me.

Mr. Speaker, I support the defense authorization bill. Our men and women in uniform are the greatest fighting force in the world, and they deserve our unwavering support. I thank Chairman THORNBERRY and Ranking Member SMITH for their hard work on this year's effort, but I oppose the rule because this bill could be made better not by expanding it, but by taking out parts that don't belong there in the first place.

Year after year, Congress has placed more and more diplomatic prerogatives under the military's purview. There are 80 provisions from the House and Senate bills in the conference report that cross into the jurisdiction of the Foreign Affairs Committee. As that committee's ranking member, I am grateful to my friend, Mr. SMITH of Washington, as we have worked together to improve these parts of the bill; but different agencies have different responsibilities and capabilities. That is why different committees oversee these issues.

We would never ask a group of Foreign Service Officers to carry out a targeted strike on an enemy. That is not their job. So why would we assign diplomatic functions to those who are already handling the tall order of protecting and defending us?

Take the Asia Maritime Security Initiative—a program seeking greater collaboration among our Asian partners to solve maritime disputes peacefully. This is the sort of effort that our diplomats are trained to deal with. It takes time and precision and patience to develop interest among governments and to ramp up capacity; but the Pen-

tagon moved ahead without the State Department, and the DOD's approach was like performing surgery with a hacksaw.

The Philippines and Vietnam were slow to come on board. That is where, I believe, careful diplomacy would have paid off. Instead, the DOD threw money at the problem. The Philippines didn't want the money, and they weren't ready to absorb it; so the effort fell apart. Now, in a difficult time in American-Philippines relations, we have a gaping hole in our maritime security strategy. This should be a lesson learned, but, instead, this bill will put even more diplomatic responsibility in military hands.

For instance, the bill diverts Defense Department dollars to the Global Engagement Center, the GEC. It is a State Department program that is focused on countering violent extremist propaganda overseas. The goal of this provision is worthwhile, but the way it is written ignores overwhelming advice from experts in the field and from our public diplomacy officials who are already hard at work in Foggy Bottom. Instead of building on what we already know from years of countering propaganda, it says that the DOD should decide how much money to give a State Department program. Mr. Speaker, that is just bad policy, and that example just scratches the surface.

□ 1245

So I support the underlying bill because it is good for our military, but I don't support this rule. I did not sign the conference report because I have deep concerns that the line between our military and diplomatic efforts is blurring. We will be back here in a year, and I hope at that time we will pass a defense authorization that deals just with defense.

Mr. BYRNE. Mr. Speaker, I am prepared to close.

I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I yield myself such time as I may consume.

I am going to urge my colleagues to defeat the previous question. And if we defeat the previous question, I will offer an amendment to the rule to bring up legislation authored by the gentlewoman from California (Ms. ESHOO), who has been a leader on this issue, that would require Presidential nominees to disclose 3 years of their tax returns.

Mr. Speaker, tax returns provide the public with vital information about our Presidential candidates. Have they paid taxes at all? Do they keep money offshore? Or have they taken advantage of tax loopholes? This is important information that voters have a right to know. The American people should expect candidates running for President to be open and transparent about their tax returns, and this legislation would ensure that transparency.

It is hard for me to believe that giving the people the right to know about a Presidential candidate's financial dealings is controversial. I hope that this isn't.

Mr. Speaker, I ask unanimous consent to insert the text of the amendment in the RECORD, along with extraneous material immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. MCGOVERN. Mr. Speaker, to discuss our proposal, I yield 3 minutes to the distinguished gentlewoman from California (Ms. ESHOO).

Ms. ESHOO. Mr. Speaker, I rise today to urge all House Members to defeat the previous question so that this bipartisan, bicameral legislation, the Presidential Tax Transparency Act, can be made in order for immediate floor debate and a vote.

Now, the legislation is really very simple. It requires Presidential nominees of major political parties to file 3 previous years of their Federal tax returns with the Federal Election Commission. Now, tax returns contain vital information. We all know that. But it is also vital for the public, for voters, to consider. They should be able to know whether a candidate has paid taxes, if they have paid any taxes, how much they have paid, whether they have made charitable contributions and to whom, and whether they took advantage of tax loopholes or offshore tax shelters.

This election year, we experienced a bipartisan problem in this area. For the first time since 1976, Mr. Trump, who is now the President-elect, would not release any tax returns to the public whatsoever. And on the Democratic side, Senator SANDERS only disclosed a summary of 1 year of his tax returns. I think that these are areas that demonstrate themselves to fall far short of what the American people deserve in terms of transparency. So this legislation ensures that the custom of disclosing—and it has been a custom since 1976—that they disclose multiple years of tax returns and that it be required by Federal law for future Presidential candidates to do so.

Former Presidential candidate Mitt Romney stated earlier this year that: "Tax returns provide the public with its sole confirmation of the veracity of a candidate's representations regarding charities, priorities, wealth, tax conformance, and conflicts of interest."

One of the Republican cosponsors of my bill, Congressman MARK SANFORD, wrote in *The New York Times* in August: "The Presidency is the most powerful political position on Earth, and the idea of enabling the voter the chance to see how a candidate has handled his or her finances is a central part of making sure the right person gets the job."

So I rise today because I believe Congress should write this important disclosure tradition into law. I urge my colleagues to reject the previous question so we can hold an immediate vote on the Presidential Tax Transparency Act.

Mr. BYRNE. Mr. Speaker, I yield myself such time as I may consume.

It is not unusual for me to come down here to handle pieces of legislation for the Rules Committee that pertain to our national defense and find myself in a debate about issues that have nothing to do with national defense. Whatever else you can say about the issue about the President or the President-elect providing tax returns, it has nothing to do with the defense of the United States of America. It has nothing to do with authorizing what the Army, the Marine Corps, the Air Force, and the Navy need to defend this country.

So whatever may be the merits of the proposal we just heard from the gentleman from California, it is totally irrelevant to the piece of legislation and the resolution on the rules before this body. So I think that it is an interesting argument. Maybe there is another time to have it, but this is not that time.

We need to stay focused on what needs to be authorized to defend the United States of America, and I would urge my colleagues to reject the notion that we just heard.

I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, let me disagree with my distinguished colleague that somehow this has nothing to do with national defense. I strongly disagree with him on that. I think where a Presidential candidate or a soon-to-be President has financial dealings is related directly to our national defense. Does he have investments in Russia? Does he have investments in countries that have been hostile to human rights or to U.S. interests in various parts of the world? That is very relevant.

One of the reasons why we are utilizing this mechanism of defeating the previous question—by the way, if we defeat the previous question, we still get to bring up the defense authorization conference report. But one of the reasons that we do it is because—the way this House operates is that, if you are in the minority, you don't get an opportunity to get any of your amendments made in order or your bills made in order, especially bills of any consequence. So that is why we are utilizing this. This is very relevant to our national defense.

As I said, I normally vote against these authorization bills because I think they are overbloaded. I think there are issues concerning the fact that we spend billions of dollars on wars that we never debate or we don't

properly authorize here in the Congress.

But I am voting for this one because of the Global Magnitsky legislation because of the human rights provisions. Because I don't know where the head of our next President is going to be when it comes to standing up to abuses by people like Vladimir Putin, against opposition leaders and journalists and anybody he disagrees with.

This bill is named after a guy named Sergei Magnitsky who, by the way, was an accountant in Russia who uncovered the largest corruption scandal in Russia's history. What was his reward for doing that? Putin had him put in jail. He was tortured, and he was beaten to death. You know, that is what happens in places that are run by strongmen like Vladimir Putin.

So, yeah, I would like to know whether or not our next President has investments in Russia. I think that would be very relevant to know. Quite frankly, the reason why this Magnitsky legislation is so important is it gives us a tool to pressure the next administration on the issue of human rights, and it is a signal to people like Putin and other dictators and strongmen around the world that Congress is not going to be silent in the face of human rights abuses. So I think this is all very relevant.

I would urge my colleagues to vote "no" on the previous question so we can do what I would think most people in this country think is noncontroversial, which is to have people running for President release their tax returns so we know. This shouldn't be a big deal. We should do it now, and we have an opportunity to do it now and still vote on this NDAA bill. I hope that we will do that.

Mr. Speaker, I include in the RECORD a letter from 20 national organizations voicing concern about the \$3.2 billion added to the overseas contingency operations account in funds not requested by the Pentagon.

DEAR SENATOR/REPRESENTATIVE: The recently released conference report for the Fiscal Year 2017 National Defense Authorization Act (NDAA) would authorize an additional \$3.2 billion unrequested by the Pentagon, effectively exceeding the spending limits set in place previously by Congress as part of the Budget Control Act of 2011 and Bipartisan Budget Act of 2015. As organizations representing Americans across the political spectrum, we are writing to voice our disagreement with this tactic.

The very real challenges facing our military are not the result of a lack of funds. They are the result of years of failing to make necessary, tough choices our nation's security requires. If Congress votes to simply throw additional billions of dollars at this problem by using a budgetary gimmick involving the Overseas Contingency Operations (OCO) account, you will do nothing to solve these problems. Rather, you will simply be guaranteeing another year of massive spending at the Pentagon. Refusing to make hard choices and trade-offs does not strengthen our security, it undermines it.

Earlier this year, many of our organizations expressed our opposition to the House Armed Services Committee's draft NDAA which included an \$18 billion gimmick to fund the OCO account above previously agreed upon levels. What was a bad idea at \$18 billion is still a bad idea at \$3.2 billion. We strongly urge you to scrap any plans to fund the OCO account above the levels set in existing law and finally pursue a path of fiscal responsibility at the Pentagon.

Sincerely,

Campaign for Liberty, Center for International Policy, Council for a Livable World, Council for Citizens Against Government Waste, FreedomWorks, Friends Committee on National Legislation, Just Foreign Policy, National Priorities Project, National Taxpayers Union, Peace Action, Project on Government Oversight, Taxpayers for Common Sense, Taxpayers Protection Alliance, Taxpayers United of America, The Libertarian Institute, The London Center, United for Peace and Justice, Win Without War, Women's Action for New Directions.

Mr. MCGOVERN. Mr. Speaker, one of my many concerns about this bill—and if it wasn't for the Global Magnitsky Human Rights Accountability Act, I would be voting against this bill because of things like that.

Vote "no" on the previous question. Let the American people know what the financial dealings of their Presidential candidates and soon-to-be Presidents are, and then we get on to dealing with passing the National Defense Authorization Act.

I yield back the balance of my time.

Mr. BYRNE. Mr. Speaker, I yield myself the balance of my time to close.

The Presidential election is over. Maybe some people would like to relitigate the results, but certainly the National Defense Authorization Act is not the place to do that. So we need to get back to the focus of what we are here about today, and that is authorizing the defense of the United States of America.

I appreciate the gentleman's support for the rule. I appreciate his support, which he says is unusual for the underlying bill. I also agree with him, as I heard the gentleman from Oklahoma agree with him, about the need for us in the future to address an authorization for the use of military force in the Middle East.

I don't know what the authorization is under law for what we are undertaking today in Yemen, what we are undertaking today in Libya, or what we are undertaking today in other countries like Somalia. I hope the new administration will take a complete new look at that and come to us and tell us what they think a real strategy for success and victory is. Now, that is something we could all get together and authorize. This is not the piece of legislation to address it, and I appreciate the fact that my friend is willing to drop his concerns about that to support it.

We are here to do one very important thing—and it is the most important thing that the Congress does—and that

is to provide for the defense of the American people, pure and simple. This rule, the underlying legislation, does that.

There is more work to be done at the beginning of next year, and I hope and am confident that there will be a real effort to come back and do that. At this point in time, it is important that we move forward with this National Defense Authorization Act for the 55th straight year.

Mr. Speaker, I again urge my colleagues to support House Resolution 937 and the underlying bill.

The material previously referred to by Mr. MCGOVERN is as follows:

AN AMENDMENT TO H. RES. 937 OFFERED BY  
MR. MCGOVERN

At the end of the resolution, add the following new sections:

SEC. 2. Immediately upon adoption of this resolution the Speaker shall, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 5386) to amend the Federal Election Campaign Act of 1971 to require candidates of major parties for the office of President to disclose recent tax return information. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided among and controlled by the chair and ranking minority member of the Committee on Ways and Means and the chair and ranking minority member of the Committee on House Administration. After general debate the bill shall be considered for amendment under the five-minute rule. All points of order against provisions in the bill are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions. If the Committee of the Whole rises and reports that it has come to no resolution on the bill, then on the next legislative day the House shall, immediately after the third daily order of business under clause 1 of rule XIV, resolve into the Committee of the Whole for further consideration of the bill.

SEC. 3. Clause 1(c) of rule XIX shall not apply to the consideration of H.R. 5386.

THE VOTE ON THE PREVIOUS QUESTION: WHAT  
IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the Democratic minority to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives (VI, 308-311), describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that

"the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

The Republican majority may say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative Process in the United States House of Representatives, (6th edition, page 135). Here's how the Republicans describe the previous question vote in their own manual: "Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule. . . . When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment."

In Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: "Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. BYRNE. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. MCGOVERN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

□ 1300

PERMISSION TO POSTPONE PROCEEDINGS ON MOTION TO RECOMMIT ON H.R. 6392, SYSTEMIC RISK DESIGNATION IMPROVEMENT ACT OF 2016

Mr. HENSARLING. Mr. Speaker, I ask unanimous consent that the question of adopting a motion to recommit on H.R. 6392 may be subject to postponement as though under clause 8 of rule XX.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

SYSTEMIC RISK DESIGNATION  
IMPROVEMENT ACT OF 2016

Mr. HENSARLING. Mr. Speaker, pursuant to House Resolution 934, I call up the bill (H.R. 6392) to amend the Dodd-Frank Wall Street Reform and Consumer Protection Act to specify when bank holding companies may be subject to certain enhanced supervision, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 934, the bill is considered read.

The text of the bill is as follows:

H.R. 6392

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "Systemic Risk Designation Improvement Act of 2016".

SEC. 2. TABLE OF CONTENTS.

The table of contents for the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301 et seq.) is amended by striking the item relating to section 113 and inserting the following:

"Sec. 113. Authority to require enhanced supervision and regulation of certain nonbank financial companies and certain bank holding companies."

SEC. 3. REVISIONS TO COUNCIL AUTHORITY.

(a) PURPOSES AND DUTIES.—Section 112 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5322) is amended in subsection (a)(2)(I) by inserting before the semicolon " , which have been the subject of a final determination under section 113".

(b) BANK HOLDING COMPANY DESIGNATION.—Section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5323) is amended—

(1) by amending the heading for such section to read as follows: "AUTHORITY TO REQUIRE ENHANCED SUPERVISION AND REGULATION OF CERTAIN NONBANK FINANCIAL COMPANIES AND CERTAIN BANK HOLDING COMPANIES";

(2) by redesignating subsections (c), (d), (e), (f), (g), (h), and (i) as subsections (d), (e), (f), (g), (h), (i), and (j), respectively;

(3) by inserting after subsection (b) the following:

"(c) BANK HOLDING COMPANIES SUBJECT TO ENHANCED SUPERVISION AND PRUDENTIAL STANDARDS UNDER SECTION 165.—

“(1) DETERMINATION.—The Council, on a nondelegable basis and by a vote of not fewer than ¾ of the voting members then serving, including an affirmative vote by the Chairperson, may determine that a bank holding company shall be subject to enhanced supervision and prudential standards by the Board of Governors, in accordance with section 165, if the Council determines, based on the considerations in paragraph (2), that material financial distress at the bank holding company, or the nature, scope, size, scale, concentration, interconnectedness, or mix of the activities of the bank holding company, could pose a threat to the financial stability of the United States.

“(2) CONSIDERATIONS.—In making a determination under paragraph (1), the Council shall use the indicator-based measurement approach established by the Basel Committee on Banking Supervision to determine systemic importance, which considers—

“(A) the size of the bank holding company;

“(B) the interconnectedness of the bank holding company;

“(C) the extent of readily available substitutes or financial institution infrastructure for the services of the bank holding company;

“(D) the global cross-jurisdictional activity of the bank holding company; and

“(E) the complexity of the bank holding company.

“(3) GSIBS DESIGNATED BY OPERATION OF LAW.—Notwithstanding any other provision of this subsection, a bank holding company that is designated, as of the date of enactment of this subsection, as a Global Systemically Important Bank by the Financial Stability Board shall be deemed to have been the subject of a final determination under paragraph (1).”;

(4) in subsection (d), as so redesignated—

(A) in paragraph (1)(A), by striking “subsection (a)(2) or (b)(2)” and inserting “subsection (a)(2), (b)(2), or (c)(2)”; and

(B) in paragraph (4), by striking “Subsections (d) through (h)” and inserting “Subsections (e) through (i)”; and

(5) in subsections (e), (f), (g), (h), (i), and (j)—

(A) by striking “subsections (a) and (b)” each place such term appears and inserting “subsections (a), (b), and (c)”; and

(B) by striking “nonbank financial company” each place such term appears and inserting “bank holding company for which there has been a determination under subsection (c) or nonbank financial company”;

(6) in subsection (g), as so redesignated, by striking “subsection (e)” and inserting “subsection (f)”; and

(7) in subsection (h), as so redesignated, by striking “subsection (a), (b), or (c)” and inserting “subsection (a), (b), (c), or (d)”; and

(8) in subsection (i), as so redesignated, by striking “subsection (d)(2), (e)(3), or (f)(5)” and inserting “subsection (e)(2), (f)(3), or (g)(5)”.;

(c) ENHANCED SUPERVISION.—Section 115 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5325) is amended—

(1) in subsection (a)(1), by striking “large, interconnected bank holding companies” and inserting “bank holding companies which have been the subject of a final determination under section 113”;

(2) in subsection (a)(2)—

(A) in subparagraph (A), by striking “; or” at the end and inserting a period;

(B) by striking “the Council may” and all that follows through “differentiate” and inserting “the Council may differentiate”; and

(C) by striking subparagraph (B); and

(3) in subsection (b)(3), by striking “subsections (a) and (b) of section 113” each place such term appears and inserting “subsections (a), (b), and (c) of section 113”.

(d) REPORTS.—Section 116(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5326(a)) is amended by striking “with total consolidated assets of \$50,000,000,000 or greater” and inserting “which has been the subject of a final determination under section 113”.

(e) MITIGATION.—Section 121 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5331) is amended—

(1) in subsection (a), by striking “with total consolidated assets of \$50,000,000,000 or more” and inserting “which has been the subject of a final determination under section 113”; and

(2) in subsection (c), by striking “subsection (a) or (b) of section 113” and inserting “subsection (a), (b), or (c) of section 113”.

(f) OFFICE OF FINANCIAL RESEARCH.—Section 155 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5345) is amended in subsection (d) by striking “with total consolidated assets of 50,000,000,000 or greater” and inserting “which have been the subject of a final determination under section 113”.

#### SEC. 4. REVISIONS TO BOARD AUTHORITY.

(a) ACQUISITIONS.—Section 163 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5363) is amended by striking “with total consolidated assets equal to or greater than \$50,000,000,000” each place such term appears and inserting “which has been the subject of a final determination under section 113”.

(b) MANAGEMENT INTERLOCKS.—Section 164 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5364) is amended by striking “with total consolidated assets equal to or greater than \$50,000,000,000” and inserting “which has been the subject of a final determination under section 113”.

(c) ENHANCED SUPERVISION AND PRUDENTIAL STANDARDS.—Section 165 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5365) is amended—

(1) in subsection (a), by striking “with total consolidated assets equal to or greater than \$50,000,000,000” and inserting “which have been the subject of a final determination under section 113”;

(2) in subsection (a)(2)—

(A) by striking “(A) IN GENERAL.—”; and

(B) by striking subparagraph (B);

(3) by striking “subsections (a) and (b) of section 113” each place such term appears and inserting “subsections (a), (b), and (c) of section 113”; and

(4) in subsection (j), by striking “with total consolidated assets equal to or greater than \$50,000,000,000” and inserting “which has been the subject of a final determination under section 113”.

(d) CONFORMING AMENDMENT.—The second subsection (s) (relating to “Assessments, Fees, and Other Charges for Certain Companies”) of section 11 of the Federal Reserve Act (12 U.S.C. 248) is amended—

(1) by redesignating such subsection as subsection (t); and

(2) in paragraph (2)—

(A) in subparagraph (A), by striking “having total consolidated assets of \$50,000,000,000 or more;” and inserting “which have been the subject of a final determination under section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act; and”;

(B) by striking subparagraph (B); and

(C) by redesignating subparagraph (C) as subparagraph (B).

#### SEC. 5. EFFECTIVE DATE; RULE OF APPLICATION.

(a) EFFECTIVE DATE.—The Financial Stability Oversight Council may begin proceedings with respect to a bank holding company under section 113(c)(1) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, as added by this Act, on the date of the enactment of this Act, but may not make a final determination under such section 113(c)(1) with respect to a bank holding company before the end of the 1-year period beginning on the date of the enactment of this Act.

(b) IMMEDIATE APPLICATION TO LARGE BANK HOLDING COMPANIES.—During the 1-year period described under subsection (a), a bank holding company with total consolidated assets equal to or greater than \$50,000,000,000 shall be deemed to have been the subject of a final determination under section 113(c)(1) of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

#### SEC. 6. EXISTING ASSESSMENT TERMINATION SCHEDULE.

(a) TEMPORARY EXTENSION OF EXISTING ASSESSMENT.—

(1) IN GENERAL.—Each bank holding company with total consolidated assets equal to or greater than \$50,000,000,000 and which has not been the subject of a final determination under section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5323) shall be subject to assessments by the Secretary of the Treasury to the same extent as a bank holding company that has been subject to such a final determination.

(2) LIMITATION ON AMOUNT OF ASSESSMENTS.—The aggregate amount collected pursuant to paragraph (1) from all bank holding companies assessed under such paragraph shall be \$115,000,000.

(3) EXPEDITED ASSESSMENTS.—If necessary, the Secretary of the Treasury shall expedite assessments made pursuant to paragraph (1) to ensure that all \$115,000,000 of assessments permitted by paragraph (2) is collected before fiscal year 2018.

(4) PAYMENT PERIOD OPTIONS.—The Secretary of the Treasury shall offer the option of payments spread out before the end of fiscal year 2018, or shorter periods including the option of a one-time payment, at the discretion of each bank holding company paying assessments pursuant to paragraph (1).

(5) ASSESSMENTS TO BE MADE IN ADDITION TO ANY OTHER ASSESSMENTS.—The assessments collected pursuant to paragraph (1) shall be in addition to, and not as a replacement of, any assessments required under any other law.

(b) USE OF ASSESSMENTS.—Of the total amount collected pursuant to subsection (a)—

(1) \$60,000,000 shall be transferred to the Financial Stability Oversight Council to pay for any administrative costs resulting from this Act and the amendments made by this Act, of which the Financial Stability Oversight Council shall distribute \$20,000,000 to the Board of Governors of the Federal Reserve System, \$20,000,000 to the Federal Deposit Insurance Corporation, and \$20,000,000 to the general fund of the Treasury; and

(2) \$55,000,000 shall be transferred to the Federal Deposit Insurance Corporation to pay for any resolution costs resulting from this Act and the amendments made by this Act.

(c) TREATMENT UPON DETERMINATION.—A bank holding company assessed under this section shall no longer be subject to such assessments in the event it is subject to a final

determination under section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5323). Any prior payments made by such a banking holding company pursuant to an assessment under this section shall be nonrefundable.

(d) **RULE OF CONSTRUCTION.**—A bank holding company deemed to have been the subject of a final determination under section 113 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5323) under section 5(b) shall not be subject to assessments under subsection (a) solely by operation of section 5(b).

The **SPEAKER pro tempore**. The bill shall be debatable for 1 hour, equally divided and controlled by the chair and ranking minority member of the Committee on Financial Services.

After 1 hour of debate, it shall be in order to consider the amendment printed in part B of House Report 114-839, if offered by the Member designated in the report, which shall be considered read, shall be separately debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for a division of the question.

The gentleman from Texas (Mr. HENSARLING) and the gentlewoman from California (Ms. MAXINE WATERS) each will control 30 minutes.

The Chair recognizes the gentleman from Texas.

#### GENERAL LEAVE

Mr. HENSARLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and submit extraneous materials on the bill under consideration.

The **SPEAKER pro tempore**. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. HENSARLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 6392, the Systemic Risk Designation Improvement Act, which is a very important bill cosponsored by a bipartisan group of Members of the House, the text of which was approved by our committee with a strong bipartisan support of 39-16.

I thank Chairman LUETKEMEYER, chairman of our Subcommittee on Housing and Insurance, one of the key leaders on our Committee on Financial Services, for his leadership and for introducing this legislation. He has led these efforts valiantly to reform a flawed and arbitrary framework used by regulators to designate so-called systemically important financial institutions, also known as SIFIs. Designation, Mr. Speaker, anoints these institutions as too big to fail, meaning that today's SIFI designations are tomorrow's tax-funded bailouts.

It is clear that this issue has found, again, a fair amount of consensus on both sides of the aisle, and this legisla-

tion represents a very good-faith effort by the gentleman from Missouri to forge a bipartisan piece of legislation that, at the very least, at the minimum, would get rid of a totally arbitrary and static threshold currently used to designate institutions as systemically important.

Mr. Speaker, I speak for many on this floor when I say I do not believe in the SIFI architecture at all. I think it is harmful. I think it is dangerous, and clearly it should be replaced by high levels of loss-absorbing private capital. But that is not what we are debating today.

Today in the 114th Congress, we continue to try to find a bipartisan consensus to support needed reforms; and, again, that is what this bill is: bipartisan. It recognizes that regulations should consider different components of risk and not simply a Washington one-size-fits-all definition.

The current approach—and this is very important, Mr. Speaker, as the co-author of the Dodd-Frank Act, himself, admits—is a mistake. It is a mistake because it fails to take into account differences in the various business models or systemic risk institutions pose to our financial system. In fact, it is indisputable that the asset threshold used in Dodd-Frank is not based on a logical formula, on research, or on any evidence at all. Instead, it is simply a random number picked out of thin air.

Concerns with this arbitrary number have been recognized, as I just mentioned, by none other than former Committee on Financial Services Chairman Barney Frank, himself. As I recall, he is the Frank of Dodd-Frank. In testimony before our committee, Mr. Speaker, former Chairman Frank agreed that the threshold he wrote into law was “arbitrary.” He expressed support for adjusting it. Then just last week, he stated the asset threshold was a “mistake.” I hope all Members on the other side of the aisle take careful note.

Federal Reserve Board member Dan Tarullo has also expressed skepticism, as has the Comptroller of the Currency Thomas Curry. Even the ranking member, the Democrat ranking member of the Senate Banking Committee, Senator SHERROD BROWN, has stated: “I do agree that some banks above \$50 billion should not”—not—“be regulated like Wall Street megabanks.”

So what we are trying to do here today with this bipartisan bill is trying to provide a solution to try to fix a generally recognized mistake in Dodd-Frank, and what those who oppose the bill are trying to do is to preserve that mistake in the law. Perhaps again, Mr. Speaker, some of my colleagues need to be reminded that small banks on Main Street and even our regional banks did not cause the financial crisis, and arbitrarily painting big banks and small and mid-sized banks with ex-

actly the same broad brush is wrong. It is bad policy, and it is bad for our economy.

So the discussion today, Mr. Speaker, should instead focus on the appropriate measure of systemic importance and the regulatory burden imposed by the so-called enhanced prudential standards once an institution has been designated. By focusing exclusively on asset size, you ignore other factors that may be more relevant in determining whether a financial institution should be subject to, again, so-called enhanced prudential standards. Furthermore, an asset-based approach does not capture the types of risk that enhanced prudential standards are designed to mitigate in the first place.

By determining risk using activity-based standards, no matter how flawed these standards may be, our regulators would be better equipped to differentiate between stable activities and those that may pose a threat to financial stability. It would allow more precision in identifying systemic importance, while also providing flexibility for institutions engaging in more prudent lending activities.

Mr. Speaker, it is just so important that we note the effect these regulations are having today on the U.S. economy. They are harming our economy. Instead of helping to capitalize small businesses, leading to more jobs and opportunity for people who still lack both, financial institutions are, instead, having to expend capital on compliance, compliance that even the coauthor of Dodd-Frank admits is a mistake.

Mr. Speaker, regrettably, I need not remind us that we remain stuck in the slowest and weakest economic recovery since the end of World War II. The economy simply is not working for working Americans. They can't get ahead, and they fear for the future of their families. Their paychecks have remained stagnant. Their savings have declined. The American people deserve better.

I urge adoption of this measure. I thank Chairman LUETKEMEYER for his leadership in forging this bipartisan consensus solution. I urge us to correct this Dodd-Frank mistake.

Mr. Speaker, I reserve the balance of my time.

COMMITTEE ON WAYS AND MEANS,

HOUSE OF REPRESENTATIVES,

Washington, DC, November 29, 2016.

Hon. JEB HENSARLING,

Chairman, Committee on Financial Services.

DEAR CHAIRMAN HENSARLING: I am writing concerning H.R. 6392, the “Systemic Risk Designation Improvement Act of 2016.” This legislation contains provisions that fall within the Ways and Means Committee's Rule X jurisdiction over revenue.

I appreciate your willingness to work with me on the provisions in my Committee's jurisdiction. In order to allow H.R. 6392 to move expeditiously to the House floor, I agree not to seek a sequential referral on this bill. The Committee on Ways and Means

takes this action with our mutual understanding that by foregoing formal action on H.R. 6392, we do not waive any jurisdiction over subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as this bill or similar legislation moves forward. Our Committee also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and asks that you support any such request.

I would appreciate your response to this letter confirming this understanding, and would request that you include a copy of this letter and your response in the Congressional Record during the floor consideration of this bill. Thank you in advance for your cooperation.

Sincerely,

KEVIN BRADY,  
*Chairman.*

COMMITTEE ON FINANCIAL SERVICES,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, November 29, 2016.

Hon. KEVIN BRADY,  
*Chairman, Ways and Means Committee.*

DEAR CHAIRMAN BRADY: Thank you for your November 29th letter regarding H.R. 6392, the "Systemic Risk Designation Improvement Act of 2016."

I am most appreciative of your decision to forego action on H.R. 6392 so that it may move expeditiously to the House floor. I acknowledge that although you are waiving action on the bill, the Ways and Means Committee is in no way waiving its jurisdictional interest in this or similar legislation. In addition, if a conference is necessary on this legislation, I will support any request that your committee be represented therein.

Finally, I shall be pleased to include your letter and this letter on H.R. 6392 in the Congressional Record during floor consideration of the same.

Sincerely,

JEB HENSARLING,  
*Chairman.*

Ms. MAXINE WATERS of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong opposition to H.R. 6392. This is the first step in the Trump agenda to deregulate Wall Street, despite candidate Trump's pledges to hold elite bankers accountable. In fact, as we debate this bill today, Trump Tower's revolving door is spinning with Wall Street insiders.

Yes, in a skyscraper in midtown Manhattan, Trump and his transition team are plotting their agenda to weaken financial reform and bring us back to the precrisis Wild West days when banks could gamble with taxpayer money. Bank stocks are up on news of gifts to come, and newspaper headlines are already documenting Republicans' aggressive plans.

In fact, President-elect Trump just announced that he will nominate Steven Mnuchin, a former Goldman Sachs executive who now sits on the board of the megabank CIT, to be his Treasury Secretary. Mr. Mnuchin's bank is just one of 27 banks that stands to benefit directly from this legislation. Though CIT crashed—that is the bank—and went bankrupt during the crisis be-

cause of high-risk commercial lending and subprime loans, somehow Mr. Mnuchin still managed to sign an employment deal, handing him \$4.5 million a year in 2016. I suppose passing this legislation is just the Republican Congress' way of giving him a signing bonus for coming into government.

We enacted the Dodd-Frank Wall Street Reform and Consumer Protection Act in response to the stunning greed and regulatory failures in our financial system; and yet, with this bill, the Republicans are displaying a staggering degree of historical amnesia.

□ 1315

This bill is the epitome of that dangerous agenda, with H.R. 6392 gutting our banking regulators' oversight of \$4.5 trillion in banking assets, or approximately 30 percent of the industry currently subject to enhanced rules.

Make no mistake. This bill is not about helping the community banks because 99 percent of our country's community banks and credit unions are already exempt from most rules in Dodd-Frank. So I don't want anybody to come out here saying: we are helping the community banks. This has nothing to do with the community banks. This is about deregulating the big banks over \$50 billion.

It is also not about tailoring regulations for regional banks. Wall Street reform already required that, and the Federal Reserve is already taking steps to do so. No, this bill is about a wholesale regulatory exemption for just 27 of the biggest banks in America—banks with \$100 billion, \$200 billion, and even \$400 billion in assets.

Many of the types of banks that would benefit from this bill failed spectacularly during the financial crisis. In fact, large bank holding companies with more than \$50 billion in assets received twice as much bailout money per dollar than banks with less than \$50 billion in assets.

Contrary to the talking points from the other side of the aisle, these megaregional banks are not just big community banks. No, these regional banks are some of the worst players in predatory, subprime lending leading up to the financial crisis. They have preyed on minority and rural communities and have passed the buck onto taxpayers when their bets failed.

Remember Countrywide, a \$200 billion thrift? They were the number three subprime mortgage originator and number one issuer of mortgage bonds in 2006. They are a poster child of the crisis.

Remember Washington Mutual, with \$300 billion in assets, whose hometown paper, The Seattle Times, described as "predatory"?

Remember Wachovia, with their exotic "pick-a-payment" mortgage loans? Remember in October of 2008, when they posted a \$24 billion quar-

terly loss and the FDIC had to facilitate a midnight acquisition by Wells Fargo?

Remember New Century, AmeriQuest, or Option One? This bill would enable more blowups like these.

H.R. 6392 would repeal Dodd-Frank's \$50 billion threshold above which banks are subject to closer regulatory scrutiny and prevent the Federal Reserve Board from regulating these banks. Instead, it would hand over that responsibility to what is known as FSOC, the Financial Stability Oversight Council.

In order to regulate the banks, the FSOC would have to go through a Byzantine and litigious process of designation, which takes 2 to 4 years to complete. This would give them plenty of time to go back to the old ways that Dodd-Frank is trying to prevent. Even if a potential Treasury Secretary Mnuchin decided to regulate his former employer, by the time he got around to it, the damage would likely already be done.

It is also significant to note that Republicans have repeatedly tried to dismantle the FSOC and its existing designation authority for large nonbanks. They have called the Council "unconstitutional," introduced bills to make it harder for the FSOC to do its job, and helped companies like MetLife fight its designation in court.

What is more, Chairman HENSARLING's sweeping Wall Street deregulation bill, the "Wrong Choice Act," would repeal this exact same designation authority altogether.

Why is the majority even considering this bill today when the chairman's Wall Street reform repeal package would render this bill moot? It is clear that this is just the first act in a long, dangerous play that will continue well into next year. I, therefore, urge my colleagues to join me in opposing this harmful bill.

Mr. Speaker, as I said when I took the floor to debate this bill, this is the first act in Trump's promise that he is going to deregulate, his promise that he is going to get rid of Dodd-Frank, his promise that he is going to get rid of the Consumer Financial Protection Bureau, and his promise that he is going to, in essence, turn all of this back over to Wall Street.

Mr. Speaker, I reserve the balance of my time.

Mr. HENSARLING. Mr. Speaker, I yield myself 5 seconds just to say, if the ranking member believes this is the first act in getting rid of Dodd-Frank, she ain't seen nothing yet.

Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. SESSIONS), the distinguished chairman of the House Rules Committee, and I thank him for his leadership in helping bring this bill to the floor.

Mr. SESSIONS. Mr. Speaker, I thank my dear colleague from Dallas for not only yielding, but I want to commend

him in working with his committee, including the gentleman from Missouri (Mr. LUETKEMEYER), on this awesome legislation.

Mr. Speaker, the point is simple: Washington has once again gotten in the way of legitimate business and is harming the American people, the American economy, and job growth in this country by imposing unnecessary and burdensome compliance costs on medium-sized banks all across America.

Asset thresholds, regardless of how high or low, are disincentives to growth. There will always be an institution that lies somewhere that is slightly above or below some threshold, but the bottom line is that arbitrary numbers tell us very little about the risk that is actually involved. It is the risk to institutions in America that we should be talking about.

So, simply put, the SIFI designation is arbitrary. It simply subjects smaller banks to the same standards as trillion-dollar, globally systematic organizations, which is something that would only make sense here in Washington.

The bottom line is, it is an impediment to free economic growth, and it is an impediment that is burdening not only our banks but consumers also.

I commend Congressman LUETKEMEYER for advancing this important, commonsense regulation. By the way, it has taken several years to get here.

We now understand that the American economy can move in the right direction. The American economy, with good and proper leadership, not only in Washington but by the rules and regulations that are balanced, will help United States families, small businesses, and specifically smaller banks be more competitive to offer the services that are necessary.

I commend the young chairman of the Financial Services Committee, Mr. HENSARLING, for allowing this bill to come here today.

Ms. MAXINE WATERS of California. Mr. Speaker, Democrats, small town America, Rust Belt America, you just heard what he said. Mr. HENSARLING just said: You ain't seen nothing yet. You heard it coming out of his mouth as they stand here and defend deregulation of these big banks.

Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. AL GREEN) a member of the Financial Services Committee.

Mr. AL GREEN of Texas. Mr. Speaker, I think it appropriate to reflect for just a moment on what the crisis was like in 2008.

In 2008, when this crisis hit and it started to blossom, started to blow up, banks would not lend to each other. The crisis was so serious that banks would not bail each other out.

We had a circumstance such that people were losing their homes. They were losing their homes because of

these so-called exotic products that allowed them to buy homes that they could not afford, homes that would allow them to have a teaser rate that would coincide with a prepayment penalty such that they couldn't get out of the rate that was to follow, which was going to be higher than they can afford.

Mr. Speaker, this bill, H.R. 6392, should be appropriately named the "Systemic Risk Creation Act," because that is what it does. It creates the opportunity for systemic risk to exist, and it puts us back where we were before Dodd-Frank such that these various banks and lending institutions and other institutions of great amount of finance would be in a position to fail without our having the opportunity to immediately act upon them, as was the case with AIG. There was no system in place to deal with the AIGs of the world.

Dodd-Frank allows us to do this in a systemic way, a systematic way, an orderly way. It allows us to, if we need to, wind down these huge institutions—wind them down such that they don't create harm to the broader economy.

I want you to know, Mr. Speaker, for those who think that these are all small banks, let me just give you some indication as to how small they are. I am looking now at the top five of the 27 in question. The top five:

Number five is \$217 billion.

Number four, \$255 billion.

Number three, \$278 billion.

Number two, \$350 billion.

Number one, \$433 billion.

Only in the Congress of the United States of America would this be considered small change.

We must not allow this deregulation to take place such that we put the economic order at risk again. This bill, Dodd-Frank, when it passed, allowed us to look at the entire economic order and to determine whether or not there were institutions that were a systemic risk to the economic order. Prior to Dodd-Frank, they were all siloed. Prior to Dodd-Frank, we had long-term capital. Long-term capital was the first canary in the coal mine.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. MAXINE WATERS of California. Mr. Speaker, I yield the gentleman an additional 30 seconds.

Mr. AL GREEN of Texas. Long-term capital had its demise in 1998. It was a canary in the coal mine. Bear Stearns followed, as well as IndyMac, Countrywide, and WaMu. They followed in 2008.

We didn't have a system that allowed us to recognize these canaries in the coal mine and take affirmative action. This is what Dodd-Frank does. This is what FSOC does. And it would be a severe mistake to vote for legislation to repeal these bills. We are going to live to regret this vote. Those who vote to repeal will live to regret it.

Mr. HENSARLING. Mr. Speaker, I yield myself 10 seconds to say I appreciate the passion of my colleagues on the other side of the aisle and their concern for taxpayers and systemic risk. So I certainly look forward to their cosponsorship of our legislation to get rid of Dodd-Frank's taxpayer-funded bailout fund.

Mr. Speaker, I yield 3½ minutes to the gentleman from Missouri (Mr. LUETKEMEYER), a real leader on our committee and the author of H.R. 6392, the Systemic Risk Designation Improvement Act.

Mr. LUETKEMEYER. Mr. Speaker, today, the House will consider H.R. 6392, the Systemic Risk Designation Improvement Act of 2016, legislation to address an inefficient regulatory structure by accounting for actual risk, rather than asset size alone, in the designation of systemically important financial institutions, or SIFIs.

Under the current regulatory framework for the designation of SIFIs, any bank holding company with more than \$50 billion in assets is subject to enhanced regulatory supervision and special assessments. This approach fails to take into account differences in business models or risk imposed to the financial system. It has real-world implications, too, stunting economic growth and limiting access to credit.

The risk of a traditional bank is not the same as an internationally active, complex firm. H.R. 6392 would remove the completely arbitrary approach and replace it with analysis of actual risk imposed to the financial system.

□ 1330

More specifically, my legislation would require regulators to examine not just size, but also interconnectedness, the extent of readily available substitutes, global cross-jurisdictional activity, and complexity of each bank holding company. These are metrics that are presently being used by the Financial Stability Board and the Office of Financial Research to determine what a G-SIFI is, a Globally Systemically Important Financial Institution.

This bill number may be new, but the concept is not. With the exception of the offset language contained in section 6 of this bill, H.R. 6392 is identical to H.R. 1309, which was the legislation I introduced last year that attracted broad bipartisan support and garnered 135 cosponsors.

Even Dodd-Frank's author, the former chairman of the Financial Services Committee, Barney Frank, said this issue needs to be addressed. During a November 20 radio interview, Chairman Frank said: "We put in there that banks got the extra supervision if they were \$50 billion in assets. That was a mistake."

Chairman Frank further went on to say: "When it comes to lending and job creation, the regional banks are obviously very, very important. I hope that

if we get some regulatory changes, we give some regulatory relaxation to those banks.”

Chairman Frank testified to that effect—and this is a picture of him in front of our committee—and expressed support for our bill back in 2014. This week we have the opportunity to remedy this oversight.

This legislation will not impact the authority of the regulatory agencies to oversee institutions. It will, however, encourage enhanced and more appropriate oversight of institutions that could actually have a greater impact on the overall economy, financial system, and, most importantly, consumers.

Mr. Speaker, this is a bill to take a more pragmatic approach to financial regulation. Mr. Speaker, it is time to actually manage risk and limit threats to our financial system.

I want to thank my colleagues for their work on this legislation, namely, Mr. MURPHY, Mr. STIVERS, Mr. SCOTT, Mr. WILLIAMS, Ms. SEWELL, Mr. HILL, and Ms. SINEMA, and ask my colleagues for their support today. And a special thanks to Chairman HENSARLING for his tireless support for efforts on this bill.

Just one moment, if I could, to address a couple of comments that were made earlier. We are talking about systematically important financial institutions, and the definition of a SIFI is it has got to be something that is going to cause the economy to go down. A \$50 billion bank is going to be something that may be important to a local economy, but it is not going to be something important to the entire economy. This is what we are talking about.

Big banks have big problems. Medium-sized banks do not affect the systemic concern that we should have about the economy, and this is where this bill is directed. Somebody who doesn't understand that, I think they are missing the point.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HENSARLING. I yield the gentleman an additional 30 seconds.

Mr. LUETKEMEYER. So I think even the ranking member made my point a while ago when she said 27 banks, a total of \$4.6 trillion. We have got a half dozen banks over \$1 trillion, so we are talking about some small banks that are really going to have a small impact with regard to if they went down or not.

That is what the purpose of this legislation, Dodd-Frank, was about: to stop the big guys from bringing the whole economy down. The ranking member, with all due respect, misses the entire point of what Dodd-Frank is supposed to be and what the intent of this bill is.

Ms. MAXINE WATERS of California. Mr. Speaker, while the other side fights for the big banks and we over

here are fighting for the consumers, let me just say that Mr. Frank has not supported H.R. 6392, and you need to stop saying that.

I yield 3 minutes to the gentleman from Washington (Mr. HECK), a member of the Financial Services Committee.

Mr. HECK of Washington. Mr. Speaker, I have a little different take on this. I oppose this bill. In fact, I strongly oppose it, but I don't exactly oppose the idea at all. Let me explain that.

The Dodd-Frank legislation was written, as we all know, during a period of financial crisis, and legislators and regulators had to act quickly. Sometimes, when you have to act quickly, you take shortcuts to get the financial system stabilized. But today, the difference is we have the luxury of time to go back and replace those shortcuts with some more deliberative decision-making.

Now, Dodd-Frank said that every bank holding company over \$50 billion gets heightened supervision. Well, frankly, back then, for stabilizing a financial crisis, that was a great way to move quickly and to get it done and to bring about the intended result. But again, for making policy over the long term, that doesn't make sense because, in fact, it is an arbitrary-size threshold. So it was a shortcut that made sense at the time, and I join with you in supporting a reevaluation of that particular threshold level. That is the idea of this bill, and I support the bill—or support the idea. But, again, I don't support this bill at all because, instead of taking the luxury of time to make good policy, frankly, it acts like we are still back in that crisis, and we are taking another shortcut.

The bill says FSOC should determine which banks need heightened supervision, and that is a great idea. That is what they are there for. And then it says FSOC has to complete all of its work on all of the banks within 12 months. That is a terrible idea. That is a terrible idea.

The last determination that FSOC took lasted 16 months, and they were working on one company at the time—and it took 16 months. And even then, the judge said: You took 16 months, and you acted too rashly and should have deliberated more. But this bill says only 12 months are allowed. And it is not just one company they would be looking at. It could be up to 40 companies with over \$50 billion in assets.

So I would say to my friend from Missouri, I think you have a good idea. I wish you would have brought a bill reflecting that idea out here.

Let's remember that Bear Stearns was \$400 billion; it contributed. Washington Mutual, \$300 billion; it contributed. All of those banks are going to be in one pot that have 12 months to be looked at. We are, in fact, gutting Dodd-Frank; and, no, I do not agree with my friend from Texas, the chairman, that that is a good idea at all.

The authors kind of recognized this, which is why they said banks get heightened supervision if FSOC says so or if the Financial Stability Board in Basel, Switzerland, says so. I don't know why we would cede sovereignty. I have been working with the gentleman from Missouri on exactly that issue as it relates to insurance companies. Why are we ceding our sovereignty to some regulatory entity in another country?

So I do take a different view of this bill.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. MAXINE WATERS of California. I yield an additional 30 seconds to the gentleman.

Mr. HECK of Washington. I urge my colleagues to support the idea by rejecting this bill which will not achieve the intended result because it can't work. But the idea can. Go back. Put in a reasonable timeframe. Drop that crazy FSB provision, and let the regulators get to work looking for the risks that devastated the economy a decade ago so we don't have to relive that. If we pass this bill, we very well may.

The SPEAKER pro tempore (Mr. JODY B. HICE of Georgia). Without objection, the gentleman from Missouri (Mr. LUETKEMEYER) will control the remainder of the time of the gentleman from Texas (Mr. HENSARLING).

There was no objection.

Mr. LUETKEMEYER. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. NEUGEBAUER), the chair of the Financial Institutions and Consumer Credit Subcommittee, who is set to retire shortly, and whose expertise and hard work we are going to miss; but his guidance over these years has certainly given us a lesson on how to get things done. And we certainly hope that he will have a great retirement.

Mr. NEUGEBAUER. I thank the gentleman for those kind words.

Mr. Speaker, I rise today in support of H.R. 6392, offered by my good friend from Missouri (Mr. LUETKEMEYER).

H.R. 6392, known as the Systemic Risk Designation Improvement Act, is bipartisan legislation that ensures that the Federal Government takes a thoughtful and comprehensive approach when evaluating the financial stability concerns posed by U.S. bank holding companies.

Under H.R. 6392, the bank holding companies will no longer be measured by their size alone when evaluated for the application of heightened prudential standards. Instead, the Financial Stability Oversight Council will use a metrics-based approach that takes into consideration the totality of the bank holding company's operations. Using this framework, bank holding companies will be measured on size, complexity, their interconnectedness, cross-jurisdictional activity, and available substitutes.

This approach is similar to the framework used by the international

body known as the Financial Stability Board, which designates global systemically important banks. Further, it is the framework already being used by the Federal Reserve when it evaluates financial stability concerns stemming from bank mergers.

Mounting evidence coming from regulators and academics have highlighted the flaws in using a size-only approach to measuring systemic risk. Further, several democratically appointed regulators have noted the flaws with Dodd-Frank's threshold of \$50 billion in assets.

Put simply, many bank holding companies are being subjected to enhanced regulatory requirements for no sound policy reasons. That results in restricted lending, decreased services to customers, and inefficiencies in the marketplace.

We must strive to ensure that the government policy is thoughtful and properly calibrated. H.R. 6392 is absolutely necessary to ensure that we meet those principles.

I urge my colleagues to vote "yes" for H.R. 6392.

Ms. MAXINE WATERS of California. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois (Mr. FOSTER), a member of the Financial Services Committee.

Mr. FOSTER. I thank Ranking Member WATERS for yielding.

Mr. Speaker, I rise in opposition to H.R. 6392, the Systemic Risk Designation Improvement Act of 2016. Although many aspects of this bill have sound arguments behind them, it contains fatal flaws which should preclude our support.

The financial crisis taught us many things about our markets and overturned some fairly fundamental assumptions that were widely held prior to it. One of the things we learned was the extent to which systemic risk could build up in a regulatory paradigm that was focused entirely on entity risk. It was quickly evident that the failure of a large institution posed a greater threat than previously believed.

At the same time the phrase "too big to fail" became public shorthand for some of these firms, economists and other experts talked about another important aspect, too interconnected to fail.

Asset size is a quick and useful metric for determining whether a firm is potentially so large that a failure could have a massive impact on systemwide stability, and evaluating the risks that single institutions can pose to the system often require a more nuanced approach.

The exposure of counterparties to a failing firm or exposures of other institutions to the same risks are systemic risk factors that should rightly be considered. Also, as the economy grows, many fixed thresholds, such as \$50 bil-

lion, will shrink in importance. At the very least, the importance given to any asset size threshold needs to be periodically reconsidered in the scope of an economic indicator like GDP. Wherever the line is drawn, it should reflect the macroeconomic factors that the bank is nested in.

Moreover, there is anecdotal evidence that firms will avoid growth—meaning, cutting back in lending—as they approach any fixed threshold. I see this as a market distortion that reflects risks of increasing concentration rather than prudent risk management. I see this concern with nearly any fixed threshold for being deemed a SIFI.

However, I think that a nuanced, weighted process that gives deference to the expertise of regulatory agencies is appropriate. Drawing lines to determine which firms warrant additional scrutiny will always be a difficult process. To the extent that the bill we consider today looks to other factors that a strong Financial Stability Oversight Council with adequate resources and leadership should consider, I believe that this is a good start.

I do think that there are improvements to be made in the designation threshold, but I think this bill has two core problems that prevent my support.

First, legislation to change the threshold should give sufficient specific direction that it would not move with changes to the political leadership of the FSOC. The concentration of an effective veto power in the hands of a single political appointee basically aggravates that concern tremendously.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. MAXINE WATERS of California. I yield the gentleman an additional 30 seconds.

Mr. FOSTER. Second, thorough analysis of the institutions presently categorized as SIFIs but not G-SIBs requires more than a year. The bill today rightly looks to characteristics that are important in assessing systemic risk, but it does not provide predictability or an adequate transition period.

The most recent financial crisis saw the failure of institutions of a variety of sizes, but, for example, the savings and loan crisis was the simultaneous failure of many smaller firms.

I support an approach that looks at many different factors and gives discretion to a strong, well-resourced FSOC to designate forms based on objective characteristics of the firm so we can prevent another crisis. However, I urge my colleagues to vote "no" on H.R. 6392 because it does not set up the thoughtful framework we need.

□ 1345

Mr. LUETKEMEYER. Mr. Speaker, may I inquire as to the amount of time remaining on both sides, please?

The SPEAKER pro tempore. The gentleman from Missouri has 15 minutes remaining. The gentlewoman from California has 10¾ minutes remaining.

Mr. LUETKEMEYER. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. HUIZENGA), chairman of the Monetary Policy and Trade Subcommittee. He is obviously one of the greater, deeper thinkers on our committee from the standpoint of being able to handle that sort of subcommittee. It is certainly an honor to have him with us today.

Mr. HUIZENGA of Michigan. Mr. Speaker, I appreciate my fellow subcommittee chairman who has written a great piece of legislation here.

We all have been talking about Dodd-Frank creating this Financial Stability Oversight Council, or FSOC, which was charged with monitoring systemic risk in the U.S. financial sector and coordinating regulatory responses by its member agencies—a good goal, but an idea gone bad, unfortunately.

FSOC designates these banking companies with over \$50 billion in assets, they are automatically considered systemically important financial institutions, and the act subjects those institutions to enhanced regulatory standards.

Here is the issue, Mr. Speaker: this is not about Wall Street banks. This is really affecting and hitting Main Street banks. The SIFI designation really is arbitrary, and it subjects these companies with those assets. Which, don't get me wrong, \$50 billion is a lot of money. However, if you look at the totality of our financial institutions, it is actually quite small. It suddenly says that they are globally now systemically important that, if this particular bank or company went out of business, we could take down the whole economy. It is just ludicrous.

The process that FSOC uses to designate these institutions is flawed in its current design and lacks the transparency and accountability that the American taxpayers deserve and, frankly, expect.

In fact, the former Financial Services chairman, Barney Frank, under which Dodd-Frank is named, even agreed that the \$50 billion SIFI threshold that he wrote into law and that the Senate wrote into law was "arbitrary." Maybe 75 was too big and 25 was too small, so they settled on 50. There is no basis as to why that number was picked. I couldn't agree more with that former chairman.

This bill, H.R. 6392, the Systemic Risk Designation Improvement Act, is a bipartisan bill that passed out of our committee 39-16 with eight Democrats joining the majority, and it would require instead that FSOC use an indicator-based measurement that has five different operational indicators.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LUETKEMEYER. Mr. Speaker, I yield the gentleman an additional 30 seconds.

Mr. HUIZENGA of Michigan. Those five operational indicators are size, interconnectedness, complexity, cross-jurisdictional activity, and available substitutes. Therefore, what is happening is we are seeing fewer products and services available to bank customers because these banks are having to pour more additional resources that could go towards servicing those customers into a regulation that isn't doing anything to protect our economy.

That ultimately needs to be our goal. Our goal here needs to make sure that we restore transparency by allowing regulators to review all of the circumstances surrounding that and not have a Washington, D.C.-driven one-size-fits-all approach.

Mr. Speaker, I urge my colleagues to support this important bill.

Ms. MAXINE WATERS of California. Mr. Speaker, it was just said that this is affecting Main Street. It is not. All that passion you see on the other side is about the big banks, not about community banks.

Mr. Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. SARBANES), who is a member of the Energy and Commerce Committee and a strong advocate for the protection of Wall Street reform.

Mr. SARBANES. Mr. Speaker, I thank the gentlewoman for yielding.

Mr. Speaker, I rise today to oppose this legislation, but I also want to speak to the millions of Americans of all political stripes who want Washington to change, who want to reclaim their voice in their democracy, and who long, actually, for the interests of Main Street to be put ahead of the interests of Wall Street.

Unfortunately, Washington hasn't heard you, America. The system is still rigged and the swamp is only getting deeper. Special interest lobbyists are sharpening their knives in advance of the new Congress, and President-elect Trump's administration is ready to carve up the Tax Code for their benefit and eliminate oversight of Wall Street.

In fact, bank stocks are surging now with Wall Street giddy at the prospect of tossing out critical rules and regulations designed to prevent another financial collapse and taxpayer bailout.

As one Wall Street analyst put it immediately after the election: "Everything is in play."

Or maybe we should just use Mr. HENSARLING's words: "You ain't seen nothing yet."

If you need further proof that special interests and the Wall Street elite will be empowered in the new Congress and administration, look no further than President-elect Trump's nomination for the Treasury Department: Steve Mnuchin—a billionaire hedge fund

manager, former Goldman Sachs executive and bank CEO. President-elect Trump, a supposed champion of the working class, now seeks to appoint a financier who, like Trump, personally profited on the financial ruin of hard-working Americans.

What does this have to do with the bill we have before us, you may ask?

Well, a lot. Today, before the new President is even seated and Steven Mnuchin is even confirmed, H.R. 6392 will dramatically upend sensible oversight of some of the Nation's largest banks, many of which were directly implicated in the financial collapse of 2008.

Taxpayers lose under this legislation, but guess who stands to benefit from it?

Steve Mnuchin. He serves on the board of the bank CIT, receiving a salary of \$4.5 million. CIT is one of only 27 banks in the country that will benefit from this terrible legislation. What is more, under this legislation, Mnuchin, if confirmed, will be in charge of overseeing the replacement designation process for CIT and the other 26 large regional banks rewarded by this legislation.

Mr. Speaker, this legislation and the nomination of Steve Mnuchin is a direct rebuke of President-elect Trump's promise to "drain the swamp." The only thing cleaner about the swamp is that the alligators will be wearing suits and ties.

Millions of Americans of all political stripes are hurting. They want a more representative democracy. They want public policy designed for the public interest, not the special interests. They want a fair shake. Let's show them we are still fighting for them. Let's defeat this Wall Street giveaway.

Mr. LUETKEMEYER. Mr. Speaker, I yield 2½ minutes to the gentleman from Wisconsin (Mr. DUFFY), who is the chairman of the Oversight and Investigations Subcommittee. He is one of our toughest guys on the committee. He has got one of the toughest committees to be able to go after some of the issues that we are working on.

Mr. DUFFY. Mr. Speaker, I thank Chairman LUETKEMEYER for all his hard work on what I think is an excellent bill. It is fascinating to sit in this Chamber and listen to the debate and the fear-mongering that takes place.

Before I get into that, let's just take a trip down memory lane. We have to look at the financial crisis and what the Democrats chose to do, the idea that you can't let any good crisis go to waste. There is a financial crisis, so we go to our file cabinets, we open them up, and every progressive, liberal idea we take out and put them into Dodd-Frank—a 2,300-page bill, a bill that was written before the Financial Crisis Inquiry Commission even came out with their report on the cause of the crisis.

This is a very, very simple tweak. Right now we have designations for

systemically risky banks at a set assets threshold of \$50 billion. Let me tell you what, I have banks in Wisconsin. They are small, regional banks—not Wall Street banks—that are getting crushed by these new rules and regulations.

So all we are saying to my friends across the aisle is: You love the regulators. You think that the regulators are awesome.

We are trying to empower the regulators to look at the facts on the ground and to look at the interconnectedness and complexity to determine risk, not just have a one-size-fits-all mentality. It is not one size fits all. We are more complex. Banks are as different as people.

Let's look at the complexity at every bank and make sure they can operate within their communities in a way that fits the risk to the financial system.

This gets back to the American people. Why does this matter? Why is this not just about finance and complex rules?

Because if banks can't lend, or if they lend and you are driving up the cost of their lending, then that has a real impact on the small businesses in my community and the families in my community that can't get a loan, or the loans they do get, the costs are going through the roof because of all the new compliance costs.

The bottom line is why do we want to have increased regulatory burdens on banks that aren't risky?

Let's have the regulators focus like a laser on the banks on Wall Street who do need the increased regulation, but not the ones that don't.

One size doesn't fit all. Let's work together. Let's modify Dodd-Frank. This isn't Holy Scripture. It didn't come down from Heaven on high. It can be fixed. It is not perfect. Again—we are going to say this all day—Barney Frank even thinks the threshold is too low. It can be fixed.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LUETKEMEYER. I yield the gentleman an additional 30 seconds.

Mr. DUFFY. Mr. Speaker, I look forward to working with my good friend, the ranking member. Commonsense reform that looks to your good friends, the regulators, to take a sound look at risk profiles, and then decide what kind of regulatory regime is necessary for the risk that is presented by each of these banks.

I thank the chairman for his work. I encourage everyone on both sides of the aisle to support this commonsense bill that supports small businesses and American families to make America great again.

Ms. MAXINE WATERS of California. Mr. Speaker, the gentleman from Wisconsin has the audacity to come to this floor and say that we are crushing

these pitiful little banks with \$50 billion or more. No. You are crushing the average person who gets up every morning, who goes to work, and who is trying to take care of their families and is getting ripped off by these financial institutions.

Mr. Speaker, I yield 3 minutes to the gentlewoman from Hawaii (Ms. GABBARD), who is a member of the Foreign Affairs Committee.

Ms. GABBARD. Mr. Speaker, I am rising today in strong opposition to H.R. 6392. It is a dangerous bill that puts the economic security of millions of Americans at risk.

Let's not forget that just 8 short years ago, the lives of Americans all across the country were shaken and devastated by the worst economic crisis since the Great Depression. The livelihoods of hardworking families were put at risk and millions of Americans lost their homes and saw their lifesavings wiped out all because of risky banking practices and the overgrown "too big to fail" banks. At that time, Republicans and Democrats railed against the travesty that these banks exacted on the American people.

This bill threatens to unravel the very protections that were put in place to prevent a repeat of this economic crisis. It would gut the higher capital requirements on 27 banks that together hold over \$4 trillion in assets—nearly one-quarter of all banking system assets in the United States—and water down the independent authority of the Federal Reserve to regulate large bank risk.

Eight years ago, the failure of large regional banks like Countrywide, Washington Mutual, and Wachovia—major subprime mortgage lenders leading up to the crisis—created shock waves throughout our financial system and hurt the American people. This bill would scale back the Federal Reserve's ability to regulate these banks, placing greater risk and burden on the backs of the American people.

I urge my colleagues to stand with the people and vote against this dangerous legislation.

Mr. LUETKEMEYER. Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky (Mr. BARR), who is one of our bright and shining stars on the Financial Services Committee.

Mr. BARR. Mr. Speaker, I rise in strong support of H.R. 6392, the Systemic Risk Designation Improvement Act, and I applaud the gentleman's excellent work on this bill.

The ranking member, my friend, says that this is not about Main Street. Let me talk about what this bill is trying to fix, the problem we are trying to solve here.

Dodd-Frank, the legislation that my friends on the other side of the aisle are defending, has produced this: small-business lending from banks is at the lowest level it has been in 20 years, and

more than 75 percent of corporate treasurers in this country say that Federal regulations are stifling access to financial services. As a result, new business formation in this country is at a 35-year low.

This bill is about Main Street because Main Street cannot access financial services because of Dodd-Frank. This bill is about fixing an arbitrary provision in the Dodd-Frank law that harms consumers and does absolutely nothing to stabilize markets.

Dodd-Frank directs the Financial Stability Oversight Council to designate banks as systemically important financial institutions, or SIFIs. These designated institutions are subject to surcharges, additional regulation, and an implicit taxpayer bailout. That's right, their bill is what gives Wall Street a bailout.

□ 1400

What we are saying is: let's focus our attention on Wall Street, but let's get regional banks some regulatory relief so that they can serve their customers on Main Street.

The primary test for systemic importance is an arbitrary threshold of \$50 billion. Above that line, an institution is designated systemically important or too big to fail. Above that line, regardless of the institution's risky activities, it is exempt.

This bill that we are supporting does away with this blunt threshold and directs FSOC and its constituent agencies to consider the institution's actual activities to determine if it actually is risky. If it is not, it deserves relief so that it can serve its customers better.

Size is not the only issue. It is interconnectedness. It is risky activities. Many of these regional banks that serve my constituents in central and eastern Kentucky, not Wall Street—central and eastern Kentucky. Farmers, small business owners, and homeowners in Kentucky are being crushed and denied access to capital because of a one-size-fits-all regulation from Washington.

Unlike Dodd-Frank's arbitrary approach, this will better promote financial stability because it actually targets the enhanced regulation to where it belongs and not on Wall Street.

The bottom line is, we are hearing from regional banks around this country, in central Kentucky and other places, that the expense of complying with these enhanced regulations and the SIFI surcharge means less capital for deployment in mortgages, in automobile loans, and in small business loans, it means higher credit card rates, and it means fewer customer rewards. It impacts these institutions' ability to engage in philanthropy and community development activities.

Treating these regional banks as complex Wall Street firms is simply illogical. These are not multinational

Wall Street firms. These are traditional banks that serve Americans on Main Street.

Ms. MAXINE WATERS of California. Mr. Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. ROTHFUS), one of our most thoughtful members on the Financial Services Committee.

Mr. ROTHFUS. Mr. Speaker, I rise today in strong support of H.R. 6392.

This bill, the Systemic Risk Designation Improvement Act, offers a commonsense approach to the process of designating systemically important financial institutions. In doing so, it addresses a problem that Republicans and Democrats have complained about for some time.

Dodd-Frank's \$50 billion threshold for identifying SIFIs is a crude and arbitrary way to decide which firms pose a risk to the stability of the financial system. It is important to remember that SIFI designation isn't trivial. When a financial institution is labeled as a SIFI, it faces enhanced regulation, supervision, and costs without regard to the nature of the bank or the bank's business.

Accordingly, SIFI designation impacts a firm's lending ability, and, therefore, the firm's customers, and their customer's ability to thrive.

If we really care about protecting financial stability and having a healthy financial system, we have a responsibility to pursue a fairer, more transparent, and more accurate process. The approach set forth under H.R. 6392 represents a more rational process for evaluating financial institutions, as opposed to the Washington tradition of one-size-fits-all.

Under this bill, the Financial Stability Oversight Council will be required to look at not only the size of a financial institution but also its interconnectedness, complexity, cross-jurisdictional activity, and availability of substitutes. Keep in mind that banks designated as SIFIs today may still be designated as SIFIs under this new approach.

This bill's reforms will inject the FSOC's SIFI designation process with greater clarity and fairness, and it will result in more appropriately targeted regulatory efforts.

I commend Chairman LUETKEMEYER for his work on this important issue, and I am proud to be a cosponsor of this bill in its original form.

I urge my colleagues to support this bill.

Ms. MAXINE WATERS of California. Madam Speaker, I yield 1 minute to the gentleman from Texas (Mr. AL GREEN).

Mr. AL GREEN of Texas. Madam Speaker, let's take a look at this size question because \$50 billion was selected for a reason, and the reason is

this: If you don't have a threshold, we knew at the time, as we know now, that you won't get any banks designated because the banks are going to sue, and they are going to tie you up in court. Well, maybe some will not, but you are going to have a real fight on your hands getting them to be designated, and it can take 2 to 4 years to get it done.

Looking at the banks that are covered, only three of the banks covered are in the \$50-billion range. The top 15 are over \$100 billion, and the top bank is about a half trillion dollars. Again, only in Washington, D.C., would this kind of money—a half trillion dollars for one bank—be considered small change.

We cannot allow the banks to dominate the process. We put the process in the hands of the banks when the regulators have to take them on one at a time.

Finally, what is wrong with telling a bank, "You have to tell us how to eliminate you if you become a systemic risk"? That is what Dodd-Frank does. This bill eliminates the ability of FSOC to determine and tell banks that they must give up.

Mr. LUETKEMEYER. Madam Speaker, I yield 2 minutes to the gentleman from Colorado (Mr. TIPTON), one of our hardest working members on the committee.

Mr. TIPTON. Madam Speaker, I thank my colleague from Missouri (Mr. LUETKEMEYER) for offering this important piece of legislation under consideration today.

The bipartisan Systemic Risk Designation Improvement Act replaces an arbitrary asset threshold with an indicator-based approach, which will better assist the Financial Stability Oversight Council in determining the true systemic risk of a financial institution.

It is a mistake for regulators to continue regulating a \$50-billion bank in the same way they regulate trillion-dollar global systemically important institutions. In fact, this view is shared among regulators and legislators. Comptroller Curry, Federal Reserve Board member Tarullo, Senator SHERROD BROWN, and even former Chairman Barney Frank have all made public comments agreeing that the \$50-billion SIFI threshold is not the best determination for imposing heightened prudential standards.

This bill introduces a better, analysis-driven approach, requiring the council to require metrics already established by the Basel Committee on Banking Supervision when it identifies Global Systemically Important Banks.

The Systemic Risk Designation Improvement Act will stop the current regulatory model of needlessly increasing compliance costs and forcing institutions to decrease financial services. By ensuring that the SIFI designation process takes into account indicator

factors, financial institutions that were not the cause of the financial crisis will once again be able to fully serve their communities. Not only will this legislation provide relief for stable financial institutions, but it will also allow regulators to focus their resources, working with institutions that pose an actual systemic risk to the financial system.

It is important to note that this legislation does not strip the FSOC of designation powers. It is concerning that some groups oppose a bill that encourages the council to use accepted measuring standards to justify a SIFI designation.

Systemic importance should be determined by appropriate criteria rather than by an arbitrary line that has no justifiable purpose. To advocate for the status quo, and against this legislation, shows a fundamental misunderstanding of the financial system and systemic risk.

I am happy to lend my support to this bill and encourage my colleagues to support this commonsense measure. I, again, thank the gentleman from Missouri (Mr. LUETKEMEYER) for his leadership on this measure.

Ms. MAXINE WATERS of California. Madam Speaker, I continue to reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, may I inquire as to how much time is remaining on both sides?

The SPEAKER pro tempore (Mrs. BLACK). The gentleman from Missouri has 2½ minutes remaining. The gentleman from California has 5 minutes remaining.

Mr. LUETKEMEYER. Madam Speaker, I yield 1 minute to the gentlewoman from Utah (Mrs. LOVE). Again, we have a good crop of young folks on our committee, and she is one of those bright stars for us.

Mrs. LOVE. Madam Speaker, we have before us a solution to regulation that causes real harm to an important financial institution, especially in my State, Zions Bancorporation, which supports the financial needs of many families and businesses throughout Utah and the Western States.

Last year, Zions Bancorporation chairman and CEO, Harris Simmons, spoke about increased compliance costs his institution has to face as a result of the enhanced prudential standards requirements of the Dodd-Frank Act. Specifically, Zions has had to divert resources to add nearly 500 additional full-time staff to areas such as compliance, internal audits, credit administration, and enterprise risk management.

Mr. Simmons also testified at the House Financial Services' Financial Institutions and Consumer Credit Subcommittee that these increased compliance costs are offset by reductions in other areas of the organization. Many of them are consumer-facing

functions. In other words, Zions Bank had to move resources away from lending to customers and consumer service because of these extra regulations. Yet, Zions is one of the smallest SIFIs, with a business model centered on very traditional banking activities, primarily commercial lending with a particular focus on lending to smaller businesses.

I support H.R. 6392. It allows banks like Zions Bank to get back to what they do best.

Ms. MAXINE WATERS of California. Madam Speaker, I continue to reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield 1 minute to the gentleman from Arkansas (Mr. HILL), who brings a wealth of financial services background to the committee.

Mr. HILL. Madam Speaker, I thank the chairman and congratulate him on this constructive bill.

This bill today is not about dangerous agendas, greed, signing bonuses, or wholesale exemptions of regulation for 27 big banks—not at all. This bill is about using common sense and taking off the autopilot that is in Dodd-Frank, which designates our SIFIs on size alone. In fact, it includes all the factors that should be considered for institutions that might present a systemic risk.

This is a bipartisan bill that has support on both sides of the aisle. Former Chairman Frank's comments have been read into the RECORD, but how about Governor Dan Tarullo: "Resolution planning and the quite elaborate requirements of our supervisory stress testing process do not seem to me to be necessary for banks between \$50 billion and \$100 billion in assets."

Tom Curry, our comptroller of the currency: "The better approach is to use an asset figure as a first screen and give discretion to the supervisors based on the risks in the business plan and operations."

And Senator SHERROD BROWN, certainly a supporter of Dodd-Frank: "I do agree that some banks above \$50 billion should not be regulated like Wall Street megabanks."

I support this bill.

Ms. MAXINE WATERS of California. Madam Speaker, I yield myself such time as I may consume.

Here we are in the lameduck session of Congress, and we are signaling to special interests all the giveaways that are about to come with Republicans in control of Washington. And we do this just after the President-elect selected a man to head the Treasury Department whose bank has been accused of redlining and violating the Fair Housing Act, whose bank was responsible for about 40 percent of reverse mortgage foreclosures in 2009 to 2014, and whose bank was characterized by a New York judge as engaging in harsh, repugnant, shocking, and repulsive acts against debtors.

Donald Trump ran a campaign on anti-Wall Street rhetoric, but appointing a former hedge fund manager, Goldman Sachs, executive and bank CEO, as Treasury Secretary shows his true colors. Mr. Mnuchin is a Wall Street insider with ties to big banks that have a troubling past of putting profits ahead of consumers and taxpayers. Mnuchin, during his time at OneWest, during his time, foreclosed on homes of 36,000 families.

Mr. Mnuchin now sits on the board of CIT, which bought his former bank. Mnuchin took a reported \$10.9-million payout when the merger was completed. CIT's regulatory filings indicate that the bank provides Mr. Mnuchin with annual compensation of \$4.5 million for each of 2015, 2016, and 2017, which gives a base salary of \$800,000, short-term incentives of \$1.4 million, and long-term incentives of \$2.3 million. That is 88 times the household income of the average American family.

What is worse, CIT is a megabank, and, instead of paying back taxpayers, it went bankrupt, like many of Mr. Trump's failed businesses.

□ 1415

Mnuchin is a man who got rich off of the foreclosure crisis and taxpayer bailouts again—not unlike Mr. Trump himself—and he will now have oversight over significant swaps of our financial regulatory system.

H.R. 6392, in particular, is President-elect Trump's and the congressional GOP's first effort to deregulate Wall Street since the election.

This bill stands to benefit just 27 banks in the United States, and one of those banks is Mr. Mnuchin's bank, CIT. In fact, CIT just recently completed a merger with OneWest, which made Mr. Mnuchin rich. That merger also pushed CIT over the \$50-billion threshold that would make the bank subject to Dodd-Frank rules. Rather than submit to more stringent regulation, CIT is trying to grease the skids to get favorable treatment in Congress so that its megamerger won't come with any strings attached. Specifically, this legislation would eliminate CIT from being subjected to more stringent Dodd-Frank rules related to capital, liquidity, risk management, living wills, stress testing, and other crucial requirements that prevent bailouts.

What is more, the legislation would take authority to regulate banks away from our independent regulators and hand that power over to this man, who I am telling you all about, who has a history of proving to have not only foreclosed on a lot of innocent homeowners, but who is, maybe, I think, under investigation now by HUD.

Again, this legislation would take the authority to regulate banks away from our independent regulators and would hand that power over to him.

Mr. Mnuchin would now, per H.R. 6392, be in the driver's seat to determine which banks get regulated and how. That means he could give special favors to his bank while ignoring similarly situated banks, not to mention our financial stability.

My friends on the opposite side of the aisle will tell us: Oh, that is a bailout we had to do in order to keep this country from going into a depression.

You force taxpayers to make that bailout—to pay for it. Now here we are today with a President-elect who pays no taxes. So why would he be worried about whether or not we have a bailout?

I would say this is one of the worst bills that is going to come before us; but just like Mr. HENSARLING said: We ain't seen nothing yet.

Madam Speaker, I yield back the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield myself such time as I may consume.

Just to recap, the Dodd-Frank came into being as a result of the crisis. One of the solutions was to be able to fine systemically important financial institutions before they brought the economy down. Coming up with the SIFI definition was one way to do that. The problem was that the SIFI designation was too large and was being impacted in too many different and wrongful ways. Even Dodd-Frank's original author, Barney Frank, recognized that with his testimony this past week as well as in our committee.

The metrics that we have in the bill are very simple. They are things that are used by the Financial Stability Board and by the Office of Financial Research when they look at global SIFIs. The CIT and OneWest merger that the ranking member keeps talking about are metrics that were used by the regulators to determine whether that was something they should be doing.

We are not reinventing the wheel here. What we are doing is taking the burden off of the mid-sized regional banks, which is causing fewer products and services to be able to be provided to the customers at an increased cost; so I ask for the passage of the bill.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate on the bill has expired.

AMENDMENT NO. 1 PRINTED IN PART B OF HOUSE REPORT 114-839 OFFERED BY MR. DAVIDSON

Mr. DAVIDSON. Madam Speaker, I have an amendment at the desk that would ensure the integrity of H.R. 6392, the Systemic Risk Designation Improvement Act of 2016.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Add at the end the following:

**SEC. 7. RULE OF CONSTRUCTION.**

Nothing in this Act or the amendments made by this Act may be construed as broad-

ly applying international standards except as specifically provided under paragraphs (2) and (3) of section 113(c) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, as added by section 3.

The SPEAKER pro tempore. Pursuant to House Resolution 934, the gentleman from Ohio (Mr. DAVIDSON) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Ohio.

Mr. DAVIDSON. Madam Speaker, I yield myself 2½ minutes.

Today's bill spells out the criteria the Financial Stability Oversight Council, FSOC, must use in determining institutions of systemic risk.

My amendment will prevent the Federal Reserve and the Treasury from blindly implementing new regulations proposed by an international entity, whether coming from the Basel Commission or from the unelected bureaucrats on the Financial Stability Board. When Congress begins to apply international standards, we need to make certain that executive agencies don't overreach by simply ratifying every decision that is made internationally.

Recently, the Treasury and the Fed have been found to have made determinations that mirror the standards issued by the Financial Stability Board but without sufficient review—simply rubberstamping them. They have gone along with the decisions that have been made by international unelected bureaucrats and, in the process, have harmed our regional and community banks and Americans' access to credit. Similar concerns have been raised by U.S. insurance companies. That is why Mr. LUETKEMEYER is also sponsoring legislation to make sure that these one-size-fits-all regulations are not used to supersede our State-based insurance regulations here in the United States.

H.R. 6392 will provide the necessary relief and transparency that is needed in these systemic risk designations. I am proud to offer this amendment to clarify that our Federal agencies cannot use the loophole of international recommendations to expand their powers and subject our community and local banks to even more burdensome regulations.

Madam Speaker, I reserve the balance of my time.

Ms. MAXINE WATERS of California. Madam Speaker, I rise in opposition to the gentleman's amendment.

The SPEAKER pro tempore. The gentlewoman is recognized for 5 minutes.

Ms. MAXINE WATERS of California. Madam Speaker, this bill outsources our domestic regulation by the Federal Reserve and hands it over to an international group of regulators known as the Financial Stability Board, or the FSB, to determine which banks should be regulated by our regulators. It says this international body should decide

which banks are regulated, not the United States Congress.

The U.S. is just one member nation among many represented on the FSB, and the Republicans have often criticized this board of regulators for being “shadowy” and not sufficiently deferential to American interests.

Currently, the FSB makes determinations on which global banks are systemically significant—not significant to the U.S., but to the entire global economy. This legislation imports those determinations and sets our domestic regulation on autopilot. If the international regulators say you are important, then this bill would grandfather you into Dodd-Frank. If not, then you get the big giveaway of deregulation.

This amendment rightfully says that the U.S. shouldn't be giving away our sovereignty over our economy to international regulators, but the amendment fails to have the courage of its convictions. Curiously, it says that nothing in this bill shall broadly apply international regulatory standards to the U.S., with an exception for the part of the bill that applies international regulatory standards to the U.S.

In summary, Democrats who oppose the deregulation of big banks should oppose H.R. 6392, and Republicans who oppose outsourcing our regulation to foreign bureaucrats should oppose H.R. 6392. This amendment does nothing to solve this fundamental issue in the bill, and this legislation is still deeply problematic even if the amendment is accepted.

Madam Speaker, I reserve the balance of my time.

Mr. DAVIDSON. Madam Speaker, I yield the balance of my time to the gentleman from Missouri (Mr. LUETKEMEYER).

Mr. LUETKEMEYER. I thank the gentleman from Ohio (Mr. DAVIDSON) for his interest and for his authoring this amendment.

Madam Speaker, the amendment makes clear that H.R. 6392 should not be construed to allow international standards to be imposed on U.S. institutions. The underlying bill, in two separate places, does rely on a similar framework that is utilized by the Basel Commission and that is used by the Federal Reserve and the Treasury in an effort to ensure that the largest U.S. banks maintain their SIFI designations.

Beyond these provisions, however, it would be highly inappropriate for any international body to use H.R. 6392 to impose any standard on a U.S. entity. It is important to make the point, as we advocate today for risk-based supervision, that we avoid any sort of blanket approach that is so commonly seen out of international regulatory bodies.

In the case of foreign banks in their doing business in the United States, for example, the \$50-billion threshold and

its interpretation by the Federal Reserve results in a huge number of banks being treated as SIFIs despite the fact that many of them have under \$10 billion in assets. As we consider these designations, we need to avoid one-size-fits-all models and look at factors like comparable home-country standards before we move forward on enhanced prudential regulation.

I hope we can address some of these issues in the next Congress and that we can work with international regulators, particularly those in the European Union, to avoid the escalation of the ongoing standoff on bank capital rules. We should work collaboratively to inject commonsense into financial regulation that will protect U.S. taxpayers and the financial system without constricting economic growth.

Mr. DAVIDSON. Madam Speaker, I yield back the balance of my time.

Ms. MAXINE WATERS of California. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to the rule, the previous question is ordered on the bill and on the amendment offered by the gentleman from Ohio (Mr. DAVIDSON).

The question is on the amendment by the gentleman from Ohio (Mr. DAVIDSON).

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

#### MOTION TO RECOMMIT

Ms. MAXINE WATERS of California. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentlewoman opposed to the bill?

Ms. MAXINE WATERS of California. I am opposed in its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

Ms. MAXINE WATERS of California. Madam Speaker, I ask unanimous consent to dispense with the reading.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

Mr. LUETKEMEYER. Madam Speaker, I object to the dispensing of the reading.

The SPEAKER pro tempore. Objection is heard.

The Clerk will report the motion to recommit.

The Clerk read as follows:

Ms. Maxine Waters of California moves to recommit the bill H.R. 6392 to the Committee on Financial Services with instructions to report the same back to the House forthwith with the following amendment:

Page 4, line 17, strike the quotation mark and following semicolon and insert the following:

“(4) CERTAIN COMPANIES WITH PENDING LAWSUITS OR ENFORCEMENT ACTIONS DESIGNATED

BY OPERATION OF LAW.—Notwithstanding any other provision of this subsection, a bank holding company shall be deemed to have been the subject of a final determination under paragraph (1) if the bank holding company, as of the date of enactment of this subsection—

“(A) has total consolidated assets equal to or greater than \$50,000,000,000; and

“(B) has disclosed in a filing with the Commission that a department or agency of the United States Government has a pending lawsuit or enforcement action against the bank holding company related to the origination, securitization, or sale of residential mortgage-backed securities.”.

Mr. LUETKEMEYER. Madam Speaker, I reserve a point of order.

The SPEAKER pro tempore. A point of order is reserved.

Pursuant to the rule, the gentlewoman from California is recognized for 5 minutes.

Ms. MAXINE WATERS of California. Madam Speaker, this is the final amendment to the bill, which will not kill the bill or send it back to committee. If adopted, the bill will immediately proceed to final passage, as amended.

Madam Speaker, make no mistake. This bill is the opening salvo in the Trump plan to dismantle Dodd-Frank. The House Republicans have been trying for 6 years, ever since we passed Wall Street reform; and on the eve of the President-elect's taking office, this is their big chance to deregulate 27 of the Nation's largest banks.

This bill would strip rules around capital, liquidity, stress testing, and living wills—key components to guard against catastrophic bank failures. These are not community banks. No. These are \$50-, \$100-, \$200-, and \$400-billion banks that engage in exotic products like “pick-a-payment,” which is when you choose how much you want to pay; and “negative amortization” loans, which is when, incredibly, the loan principal goes up, not down, leading up to the financial crisis.

□ 1430

This bill would strip Fed Chair Janet Yellen of the Fed's independent authority and hand it over to Trump's Wall Street Treasury Secretary, a man who foreclosed on 36,000 families when he ran this bank, a man who has been accused of redlining and fair lending discrimination by civil rights and advocacy groups, a man who would be handed the authority to deregulate the bank on whose board he now serves, if this bill became law. But those conflicts of interest are par for the course in this incoming administration.

President-elect Donald Trump has more conflicts of interest than any incoming President in the history of this country. Trump's son-in-law and close adviser, Jared Kushner, has hundreds of millions of dollars in loans outstanding from domestic and foreign banks and has obtained development financing through a controversial U.S. program that sells green cards.

Legal scholars believe Trump's lease with the government over the Old Post Office Building where his hotel in Washington, D.C., stands will trigger a breach of contract and a conflict of interest the moment he is sworn in. And Trump may even violate the Constitution on the day he takes office, with former-President Bush's ethics lawyer saying that foreign diplomats staying in his hotels would be an unlawful foreign gift.

Madam Speaker, this amendment highlights yet another conflict of interest we are facing. President-elect Trump is deeply indebted to Deutsche Bank. Over the past two decades, Deutsche Bank has been a lender or a co-lender in at least \$2.5 billion in loans to Donald Trump or his companies.

Here is a sampling of Trump's indebtedness to Deutsche: The businesses within Trump's network currently owe Deutsche Bank nearly \$360 million in outstanding principal, including \$125 million for his Florida golf course, up to \$69 million for his Chicago high-rise, and a \$170 million line of credit used to fund the development of his new hotel in Washington, DC.

This legislation, H.R. 6392, deregulates huge megabanks representing almost 30 percent of the assets currently subject to stricter rules under Dodd-Frank. In the bill, it is possible that the U.S. operations of global megabanks—megabanks like Deutsche Bank—would also be deregulated. And with Donald Trump's appointments interpreting the law, I suspect they will indeed deregulate these global megabanks.

Why is this important? Well, it is important because Deutsche Bank has a potential \$14 billion settlement with the Department of Justice pending related to toxic mortgages they packaged and sold leading up to the financial crisis. They sliced and diced subprime loans and duped not only homeowners, but unsuspecting investors. Just like President-elect Trump, they saw the specter of a foreclosure crisis and financial collapse as a business opportunity, not a human tragedy. After Trump's election, news headlines said that Deutsche Bank stood to get a windfall because the new sheriffs in town would go easy on them.

This amendment says enough is enough. While the Trump Justice Department may give Deutsche Bank a break, the United States Congress will not stand idly by and let Trump's conflicts of interest grease the skids for powerful interests in Washington.

I yield back the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I withdraw my reservation of a point of order.

The SPEAKER pro tempore. The reservation of a point of order is withdrawn.

Mr. LUETKEMEYER. Madam Speaker, I claim time in opposition.

The SPEAKER pro tempore. The gentleman from Missouri is recognized for 5 minutes.

Mr. LUETKEMEYER. Madam Speaker, just to highlight some comments here with regard to the ranking member's last discussion on this point of order, we believe the motion to recommit has absolutely nothing to do with financial stability.

Title 1 of the bill deals with operational standards of bank holding companies. This bill we are working with deals directly with how regulators deal with banks. A pending lawsuit has nothing to do with the financial stability of this bank. This may belong somewhere else in the Dodd-Frank bill, but it doesn't belong in here.

With regards to the underlying bill as well, Madam Speaker, to reiterate some of the points that have been discussed already, we have a situation where the fix for the crisis of 2008 was Dodd-Frank, as was spoken to eloquently by some of my colleagues. Some of the fixes—no bill we put together around here is ever perfect. There are always problems with it. It always needs to be tweaked down the road.

This particular issue we are talking about today, systemically important designation of institutions, was part of a solution to try and be able to identify banks, by definition, that would bring down the entire economy so this couldn't ever happen again. If we have a big bank go down, it could be of such a size and magnitude and connectedness that it would bring down the entire economy. One of the unintended consequences of this is that these regulations have rolled downhill to small, midsized banks. It was unintended, but they are a consequence.

Barney Frank, the author of the bill, has said on numerous occasions—in fact, in our committee, he testified to the fact that this is an unintended consequence—it should be fixed. That is what this bill does. It fixes that problem.

These unintended consequences of all these rules and regulations, which carry costs with them, are rolling downhill to these midsized regional banks; and even at that, they are rolling below that, below 50. If you are talking \$10 billion to \$50 billion banks, they will tell you that all of the things that the midsized banks above are dealing with, they are dealing with that as well. So these regulations that are supposed to be for the big banks—a trillion dollars and over or whatever—are rolling all the way downhill to the small banks, the small community banks.

Now, they will argue about the fact that \$50 billion is an arbitrary figure. It is something we need to keep. That is a big bank.

I am sorry. Madam Speaker, I was a regulator in my former life, and I was a banker in a former life. I can tell you

that is a big bank, but that is not something that is going to bring down the economy unless they are interconnected. The metrics in my bill say that if they are interconnected—they have got all sorts of other risky actions they are engaged in—\$50 billion is not going to do it.

Things that you have to look at are size and all these other criteria that we have in here. And these are not criteria pulled out of the air. These are criteria that the Federal Stability Board uses, that the Office of Financial Research uses when they look at G-SIBs, which are global SIBs. So these are analysis tools that are there and have been there for a long time.

Why not give the examiners, the regulators, these tools? I can tell you, as a regulator, they already do this.

A while ago, the point was made it takes the regulator about 12 months, in my bill, to come up with these designations. The regulators already do this. They have got the information in hand. There is no reason that they can't do this in a 12-month period. I have been there. I have done that. It is easy to do. They have the information.

So what we are doing is taking existing criteria and asking them to look at the risk and the business model of this particular entity to see if it is something that is big enough and connected enough to go down. \$50 billion is not someplace where a bank should be that it is going to cause the entire economy to collapse, no way. Common sense will tell you that.

So, to close out here very quickly, I think that we have a situation where these regulations are costing money to the consumers, to the businesses that the banks lend to. One quick factoid is 75 percent of the banks before Dodd-Frank had free checking, now only 37 percent.

Those are just some of the facts, as they roll downhill, that show that these regulations are having a negative effect on our economy and our local communities. The banks we are talking about are not the gigantic interconnected globals, folks. These are large community banks, which is basically what they all are, that serve communities and mom-and-pop shops. We want to keep them in business. We want to keep our communities growing.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. MAXINE WATERS of California. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the order of the House of today, further proceedings on this question will be postponed.

PERMISSION TO POSTPONE PROCEEDINGS ON MOTION TO RECOMMIT ON H. RES. 933, PROVIDING AMOUNTS FOR FURTHER EXPENSES OF THE COMMITTEE ON ENERGY AND COMMERCE IN THE ONE HUNDRED FOURTEENTH CONGRESS

Mr. HARPER. Madam Speaker, I ask unanimous consent that the question of adopting a motion to recommit on H. Res. 933 may be subject to postponement as though under clause 8 of rule XX.

The SPEAKER pro tempore (Mrs. WAGNER). Is there objection to the request of the gentleman from Mississippi?

There was no objection.

PROVIDING AMOUNTS FOR FURTHER EXPENSES OF THE COMMITTEE ON ENERGY AND COMMERCE IN THE ONE HUNDRED FOURTEENTH CONGRESS

Mr. HARPER. Madam Speaker, by direction of the Committee on House Administration, I call up the resolution (H. Res. 933) providing amounts for further expenses of the Committee on Energy and Commerce in the One Hundred Fourteenth Congress, and ask for its immediate consideration.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 933

*Resolved,*

**SECTION 1. AMOUNTS FOR COMMITTEE EXPENSES.**

For further expenses of the Committee on Energy and Commerce (hereafter in this resolution referred to as the "Committee") for the One Hundred Fourteenth Congress, there shall be paid out of the applicable accounts of the House of Representatives not more than \$800,000.

**SEC. 2. VOUCHERS.**

Payments under this resolution shall be made on vouchers authorized by the Committee, signed by the Chairman of the Committee, and approved in the manner directed by the Committee on House Administration.

**SEC. 3. REGULATIONS.**

Amounts made available under this resolution shall be expended in accordance with regulations prescribed by the Committee on House Administration.

The SPEAKER pro tempore. The gentleman from Mississippi (Mr. HARPER) is recognized for 1 hour.

Mr. HARPER. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Pennsylvania (Mr. BRADY), pending which I yield myself such time as I may consume. During

consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. HARPER. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and to include extraneous matter in the RECORD on the consideration of H. Res. 933, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. HARPER. Madam Speaker, I rise in support of H. Res. 933, a resolution that authorizes additional funds for the Committee on Energy and Commerce's budget for the remainder of the 114th Congress.

Last year, on October 7, the House passed, by a majority vote, a measure creating a Select Investigative Panel on Infant Lives within the Committee on Energy and Commerce. Our committee has the responsibility to ensure that each committee of the House has sufficient resources to fulfill their assigned oversight duties.

Last year, our committee transferred funds from the committee reserve account to the Energy and Commerce Committee so that the panel could begin its work. An additional transfer was made earlier this year. These funds were allocated based on the full committee's need to fulfill its mission. These initial transfers were insufficient to cover the costs associated with the select panel.

The measure before us on the House floor today will rectify this situation and allow the Committee on Energy and Commerce and the Select Investigative Panel on Infant Lives to continue to operate until the end of this Congress.

□ 1445

Passing this measure to provide additional funds is an institutional responsibility. If we do not allocate these additional funds, the work of the entire Committee on Energy and Commerce, both for the majority and minority, would grind to a halt. The committee would be unable to complete its vital work. This work covers important areas, such as electronic communications, environmental protection, and health care. We saw this week the important work of the committee in the 21st Century Cures Act.

There are differences of opinion on the creation of the select investigative panel. However, we are not here to relitigate a decision that the House made more than a year ago but to fulfill our institutional responsibilities. It is my hope that we will swiftly pass this measure today.

I reserve the balance of my time.

Mr. BRADY of Pennsylvania. Madam Speaker, I yield myself such time as I may consume.

I rise in opposition to this resolution and in opposition to the existence of the panel generally. It has been nothing more than a partisan witch hunt that will ultimately cost taxpayers over a million dollars and has found no wrongdoing by the people it was created to investigate. Three House committees and 13 States have launched their own similar investigations and came to the same conclusion.

The panel has been a one-sided operation from the start, with the majority failing to consult and inform the minority on official actions and withholding panel records and documents.

The dangers of this panel go far beyond simply wasting taxpayer money. It is a direct assault on women's health care and the right to choose. The panel's actions also put at risk the lives of researchers working to find cures to our most debilitating and deadly diseases. It is my hope that this is the last we hear of it.

Madam Speaker, I yield 26 minutes to the gentlewoman from Illinois (Ms. SCHAKOWSKY), and ask unanimous consent that she be permitted to control that time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentlewoman from Tennessee (Mrs. BLACKBURN), the chairman of the select investigative panel.

Mrs. BLACKBURN. Madam Speaker, the select investigative panel was formed to investigate areas that, prior to the revelations of undercover journalists, received too little attention. For most of us, it is nothing short of an outrage that Planned Parenthood and other abortion clinics supplement their budgets by selling the leftover parts of babies they have aborted.

This Chamber charged the panel with investigating fetal tissue trafficking, second and third trimester abortion practices, the standard of care for infants who survive abortions, and the role our taxpayer dollars play in this sector of society. Over the last year, we have held hearings that explored the bioethics surrounding fetal tissue use, and that revealed the sobering reality of how fetal tissue is priced.

Our investigation revealed four models by which the subjects of our investigation implicate serious public policy concerns. The first, the middleman model, comprises a middleman and tissue procurer that obtains tissue directly from a source such as an abortion clinic or hospital and then transfers the tissue to a customer, usually a university researcher.

As the example of StemExpress illustrates, the procurement company would embed a lab technician inside an abortion clinic, where the technician would receive the day's orders for body

parts at specified gestation periods, access patient files in violation of women's HIPAA privacy rights, and collect the tissue. Then the technician would receive pay and even bonuses based on the tissue she secured.

A second model, the university clinic model, reveals the cozy relationship between abortion clinics and research institutions, most of them State universities funded by the taxpayers. The clinic provides the university the tissue used for research. The university adopts the clinic doctors as faculty members, giving them benefits regardless of whether they actually teach. And, in many cases, thanks to programs like the Ryan Fellowship, medical students are deployed to abortion clinics to be trained as the next generation of abortion providers.

The panel's investigation into a third model, the late-term abortion clinic, revealed the appalling absence of mechanisms or procedures to safeguard those infants who survive the abortion procedure. Put bluntly, even though we have the Born-Alive Infants Protection Act and the prohibition of partial birth abortion on the books, they are not enforced.

Fourth, the panel investigated the model by which Federal tax dollars make their way to abortion clinics, typically by Medicaid payments under title XIX, and fetal tissue researchers.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. HARPER. Madam Speaker, I yield an additional 1 minute to the gentlewoman from Tennessee.

Mrs. BLACKBURN. Madam Speaker, to provide just a snapshot of the 51 known external audits of Planned Parenthood clinics, nearly all found title XIX overpayments for family planning and reproductive health service claims. The overbilling totalled more than \$8.5 million, and that is without counting several False Claims Act lawsuits that allege millions more in overbilling.

Consider all that our panel has identified, despite having just barely a year—even less by the time we were fully staffed—to conduct the investigation. It is now up to us to build on the work, to hold the government accountable, and to stop these affronts to human dignity.

Ms. SCHAKOWSKY. I thank the gentleman from Pennsylvania for yielding the time to me, and I yield myself such time as I may consume.

Madam Speaker, I rise in opposition to this legislation to fund the select investigative panel, the panel that we call the select panel to attack women's health.

It really shouldn't come as any surprise that one of the very first things that the Republicans have done coming back now to Washington is to approve additional funding for this select so-called investigative panel, doubling its budget and putting it on track to spend

nearly \$1.6-million taxpayer funds by the end of this year.

This investigation is essentially built on a pack of lies that are perpetrated by anti-abortion extremists and has never been and has no chance of becoming a fact-based investigation. The panel Republicans have continually relied on, even today, doctored videotapes, so-called evidence, even though that evidence and those videotapes have been discredited already by three House committees, 13 States, and a Texas grand jury.

Throughout this investigation, Republicans have abused congressional authority, issuing 42 unilateral subpoenas in violation of House rules, demanding that clinics and universities name names of their doctors, students, and staff, and releasing some of these names knowing that doing so puts lives in danger, a truly McCarthyesque attack on individuals. They have compared researchers to Nazi war criminals and echoed the words of anti-abortion activists that were also used by a gunman who shot 12 people, killing 3 at a Planned Parenthood clinic in Colorado Springs.

Despite Republicans' failure to find any evidence of wrongdoing, they continue to make inflammatory, grotesque allegations to justify the panel's existence, and, by their words and actions, have put lifesaving research and women's health care at risk.

The panel has already had a chilling effect on research, drying up the supply of needed tissue for research on multiple sclerosis and threatening research on other diseases from A to Z, Alzheimer's to Zika.

Fetal tissue research has historically had broad, bipartisan support. It is the basis for key vaccines that have saved, literally, millions and millions of lives, including the polio vaccine. That is why over 60 of our Nation's leading medical institutions released an open letter in support of scientific research using fetal tissue.

We cannot afford to let a set of reckless and irresponsible claims stop this vital medical research. This panel and its investigation are a disgrace to this House of Representatives. We need to end this dangerous and unjustified witch hunt, and, instead of providing more funding for this divisive and dangerous inquisition, Congress should shut down this panel and put an end to its shameful proceedings.

Madam Speaker, I reserve the balance of my time.

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentleman from Pennsylvania (Mr. PITTS).

Mr. PITTS. I thank the gentleman. As a member of the select investigative panel, I rise in support of H. Res. 933.

Madam Speaker, after the release of the undercover videos of Planned Parenthood, one little known tissue procurement company became a household

name: StemExpress. They are one of the biggest players in the sale of aborted-baby body parts in the United States. In clear violation of the intent of Federal law, they promise profits to abortion clinics in return for otherwise discarded—and I will use their quote—products of conception.

The select panel learned that in order to make as much tissue available for sale as possible, and thus rake in huge profits, StemExpress sought to contract with the National Abortion Federation. Contracting with this network of abortion clinics would mean access to thousands of baby body parts, which StemExpress could procure, then turn around and sell at huge markups.

Our investigation found that they had created a drop-down menu—here is a copy of part of it—on their Web site, such as one might find on Amazon.com, to facilitate their sales. Their buyers could select the gestational age, the type of tissue, and the number of specimens. For example, you could select three 12-week-old baby scalps, twelve 14-week-old baby brains, one 15-week pair of baby eyes, or seven 16-week baby livers, to name just a few of the combinations. For crying out loud, this is the Amazon.com of baby body parts. It is outrageous. It is disgusting. It is a very disturbing practice that has been tucked away and out of sight for too long.

The CEO of StemExpress told one undercover journalist over lunch and a glass of wine that some of the buyers' lab techs "freak out and have meltdowns" when they see little baby hands and little baby feet attached to an order of limbs. So she makes sure her techs cut off the hands and the feet before shipping off boxes of these body parts. It is this callous, dark talk that has so many Americans concerned with the state of research in our country.

The select panel is proud to support lifesaving ethical research, but, like the rest of America, my colleagues and I know that ethical boundaries do exist, and I hope StemExpress' research will cease to come at the expense of unborn children who have had no say in the so-called donation of their body parts. Many years from now, we will look back on this practice as a dark and horrible time where humanity and human dignity lost to financial profits. We must end this horrific practice. I urge support for this resolution.

Ms. SCHAKOWSKY. Madam Speaker, I yield 2 minutes to the gentleman from New York (Mr. NADLER), the distinguished member on our team of the select panel.

Mr. NADLER. I thank the gentlewoman for yielding.

Madam Speaker, from start to finish, this select panel has abused congressional power in order to intimidate and threaten private people and entities engaged in legal businesses in constitutionally protected health care.

Republicans on the select panel have now spent \$1.5 million on this so-called investigation. What do they have to show the American people for spending their hard-earned tax dollars? They have not presented any evidence that any entity broke the law surrounding fetal tissue donation or research. They have not presented any evidence that any entity or physician engaged in the horrifying behavior of which Republicans accuse them. We have heard today on this floor, as we have repeatedly from the select panel, the oft-proven lies that Planned Parenthood sold fetal tissue for profit. We have heard the lie that the clearly doctored and disproven videotapes bore some relationship to reality.

□ 1500

We have heard today on this floor, as we have repeatedly from the select panel, the oft disproved lies that Planned Parenthood sold fetal tissue for profit. We have heard the lie that the clearly doctored and disproved videotapes bore some relationship to reality. We have heard the disproved lie that StemExpress procured fetal tissue not for lifesaving medical research, but for profit.

The Republicans have wasted countless hours and millions of dollars running in circles after evidence that doesn't exist. They have insisted over and over again that entities name names, with no promise or plan to protect those individuals; and when asked to explain why they needed names, they simply refused to answer. When Republicans on the panel did get names, they released some of them publicly, even though they knew that doing so would expose the doctors, researchers, and other private individuals to harassment, threats, and even murder.

The Republicans on the panel have repeatedly made baseless accusations of wrongdoing, with no concern for the consequences. They have had a chilling effect on lifesaving medical research through their intimidation tactics. They have flown in the face of congressional rules and abused congressional power to meet their own blatantly partisan ends. And now the Republicans on the select panel have the audacity to ask for more taxpayer money to fund this witch hunt.

In words once addressed to the last Member of Congress to so clearly violate congressional authority, Senator Joseph McCarthy, I ask my Republican colleagues: "At long last, have you no sense of decency?"

I call on all of my colleagues today to remember their decency. This grotesque and murderous panel should have been shut down long ago. Vote against the previous question, vote against this absurd funding bill, and stand up for the American taxpayer and for the dignity of this institution.

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentlewoman from Tennessee (Mrs. BLACK).

Mrs. BLACK. Madam Speaker, one of the striking discoveries we have made in this investigation has been the sheer number of laws implicated by the troubling actions of abortion providers, tissue procurement businesses, and researchers. One such law is the HIPAA privacy rule.

The panel's investigation uncovered a series of business contracts between StemExpress, which is a tissue procurement business that is not covered by HIPAA, and several abortion clinics that are. StemExpress paid fees to the abortion clinics for fetal tissue and maternal blood and then resold the fetal tissue and the blood to researchers.

Here is a quick HIPAA privacy tutorial:

The HIPAA privacy rule protects all individually identifiable health information, known as protected health information, or PHI, that is held or transmitted by a covered entity. This information identifies an individual or can reasonably be believed to be useful in identifying an individual, such as a name or an address, and includes demographic data related to her physical or mental health, condition, treatment, and payments.

The panel's investigation indicates that StemExpress and four abortion clinics, including three Planned Parenthood locations, committed systemic violations of a HIPAA privacy rule over a course of about 5 years. The abortion clinics provided patients' private, protected health information to StemExpress to help them obtain human fetal tissue for resale.

How did they do this? Well, the abortion clinics permitted the employees of StemExpress to enter their clinics to obtain human fetal tissue from the aborted infants, obtain protected health information about their patients, interact with the patients, and, yes, even seek and obtain patient consent for the tissue donation.

StemExpress did not have a medically valid reason to see, and the abortion clinics did not have a reason to disclose, the patients' private information. Instead, the abortion clinics intentionally shared patients' most intimate private information with StemExpress to financially benefit StemExpress and the clinics.

The panel has made a referral of each of these entities to the Department of Health and Human Services and has requested a swift and full investigation by the HHS Office for Civil Rights. But more importantly, we have discovered a deeply concerning violation of a law that protects the most cherished privacy rights.

Ms. SCHAKOWSKY. Madam Speaker, I just find it so hypocritical that the majority is talking about putting peo-

ples' private names out into the public when we have had people who have been attacked and lives threatened as a result of them putting names out there.

Madam Speaker, I yield 2 minutes to the gentlewoman from Washington (Ms. DELBENE), another distinguished member of our select panel.

Ms. DELBENE. Madam Speaker, I rise in strong opposition.

This resolution provides an additional \$800,000 of taxpayer money to a select investigative panel that should never have been created in the first place. As a member of that panel, I can tell you it has been nothing more than a bully pulpit for the majority to spread extreme anti-choice falsehoods and fabrications, with no basis in reality. This so-called investigation has repeatedly shown contempt for the facts and disdain for the truth.

Instead of carrying out a fair and evidence-based process, the panel has spent the last year publicly targeting women's healthcare providers, bullying scientists and medical students, delaying medical research, and trying to cut off lines of scientific inquiry, all because the majority opposes a woman's constitutional right to choose.

Now we are voting to double the panel's budget. It is ridiculous. No one in this Chamber should be condoning this kind of harassment and intimidation, let alone approving hundreds of thousands of additional taxpayer dollar to do so. This has been a brazenly partisan and ideological witch hunt, and it should have been shut down months ago.

Rather than wasting another \$800,000 on this dangerous panel, Congress could use that money to provide more than 270,000 school lunches to low-income students, purchase nearly 12,000 textbooks to make higher education more affordable for college students, or purchase more than 3 million diapers to help new mothers care for their babies. But instead, that money will go toward intimidating doctors, harassing researchers, and delaying the progress of science. It is shameful.

We shouldn't throw good many after bad by passing this legislation. I urge my colleagues to vote "no."

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentleman from Indiana (Mr. BUCSHON), who is a medical doctor.

Mr. BUCSHON. Madam Speaker, this is about infant lives, but I would like address what else it is about. It is about science and research. The other side seems to only want to focus on politics and scare tactics.

From the beginning, we recognized the other side would try to avert attention from our investigation by falsely claiming we are opposed to science. As a doctor, I find that offensive, and I think it is a dangerous practice to introduce fear into important scientific debates.

Every member of the panel is committed to medical research that finds cures. The rhetoric that we are opposed to cures for Zika, HIV, Alzheimer's, or Parkinson's is just ridiculous and wrong.

The United States of America is a global leader in scientific research. We should all be proud of the research enterprise in our country and support it with tax dollars. The House Select Panel on Infant Lives shares this support. We are strongly committed to promoting both basic and clinical research.

The goal of the House select panel is not to oppose science but, rather, to determine how best to support science so that this important work can advance as rapidly as possible without ethical compromise. As the history of biomedical research in the 20th century clearly demonstrates, when scientific research is separated from ethics or the law, grave injustice can occur.

We here in Congress, like the rest of Americans, care deeply about protecting the rights of patients and ensuring ethical oversight of research procedures. These are not meant to "hinder" advances in science but, rather, to ensure that the scientific enterprise more perfectly fulfills its promise to society by advancing in a manner that is both just and ethical.

Through the panel's investigation, we have discovered inaccuracies about the role of human fetal tissue and have sought to correct them to realistically address the obstacles facing research.

Any argument from the 1950s—or even the 1990s, for that matter—about biomedical research is outdated, and the actual record is clear: human fetal tissue did not directly result in a vaccine for diseases like measles. Similarly, the Nobel Prize was not awarded for curing polio using human fetal tissue. In fact, of the 75 vaccines in use today, not one was produced using fetal tissue.

Furthermore, the NIH has not funded fetal tissue transplant grants for nearly 10 years. That should tell us something. We examined 30 major grants that were funded by the NIH over the last 5 years and found that human fetal tissue research represents only a tiny fraction of the overall scientific enterprise. In fact, only 0.2 percent used human fetal tissue.

Hysterical calls for enhanced fetal tissue research through expanded abortion licenses are a matter of politics, not medicine or science. A small subset of NIH-funded grants use fetal tissue to study things like birth defects. These types of grants represent only 1 in 100,000.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HARPER. Madam Speaker, I yield the gentleman an additional 1 minute.

Mr. BUCSHON. Tissue or cells for these studies could be derived from an-

other source than aborted babies, like premature natural demise infants whose parents are willing to donate. The other grants use fetal tissue when alternatives are easily available, like placenta, cord blood, or modified adult stem cells.

Some grants even study adult macular degeneration. Research on adult macular degeneration should be conducted on adult donor eyes, but these grants are instead using fetal eyes from aborted infants—not because of science, but because of convenience.

Madam Speaker, I know these things can be uncomfortable to discuss, but that is why the other side wants to avoid the facts and that is why this debate is so important. It is about conducting medical research in an ethical and just manner. So let's sit down and talk science with the NIH and others so that research works for everyone in an ethical and moral way.

Mr. HARPER. Madam Speaker, may I inquire as to how much time is remaining?

The SPEAKER pro tempore. The gentleman from Mississippi has 14 minutes remaining, and the gentlewoman from Illinois has 21½ minutes remaining.

Ms. SCHAKOWSKY. Madam Speaker, I yield 2 minutes to the gentlewoman from New Jersey (Mrs. WATSON COLEMAN).

Mrs. WATSON COLEMAN. Madam Speaker, I am disappointed that we are here today asking the American taxpayers to waste another \$800,000 on an unnecessary, dangerous investigation.

This select panel was formed based on fraudulent videos created by anti-abortion extremists to attack Planned Parenthood, an organization that has always fought for women's rights and provides healthcare services to 3 million women and men each year.

I was proud to be the first Member of Congress to speak out against these videos immediately after their release. And here we are, a year and a half later, with no evidence of wrongdoing after 17 separate investigations in three House committees, 13 States, and one grand jury. Yet Republicans continue to chase false, inflammatory allegations, at a severe cost to advances in medicine and to the safety of those involved in this lifesaving research.

Panel Republicans have conducted themselves in ways reminiscent of Joe McCarthy's abusive tactics: witnesses have been harassed and intimidated during testimony; names of researchers, students, clinical personnel, and doctors have been released publicly, placing their lives in great danger; misleading "exhibits" have been manufactured; critical documents have been withheld from Democrats; and Republicans have continued to fan the flames of anti-abortion extremism with their inflammatory rhetoric.

Let us not forget the horrible tragedy that occurred in a Colorado

Planned Parenthood clinic where a gunman shot 12 people and killed 3, echoing the same anti-abortion rhetoric used by Republicans to this day.

What this investigation truly is is an attack on women's rights and women's access to legal health services. The select panel comes at a time when Republicans have repeatedly voted to defund Planned Parenthood, eliminate family planning services, and restrict access to abortions.

This investigation dishonors this institution and hurts the American people that Congress is elected to serve. Let's put an end to the witch hunt, stop wasting taxpayer dollars, and reject this resolution.

□ 1515

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentlewoman from Missouri (Mrs. HARTZLER).

Mrs. HARTZLER. Madam Speaker, the Select Investigative Panel on Infant Lives investigation has uncovered many valid concerns and potential law violations that are disturbing, horrific, and unacceptable.

In the course of our investigation, we discovered a hardness, a callousness, and a track record of deceptive tactics that some abortion clinics and fetal tissue procurers exercised toward vulnerable women. It is difficult to imagine a more vulnerable time in a woman's life than when she is considering an abortion.

What if, during that time, the woman is lied to and told that, by having an abortion, she will facilitate research that will cure tragic diseases?

This is exactly the type of concern that our panel addressed during our hearing on bioethics and fetal tissue. During that hearing, I shared a consent form widely used by abortion clinics to obtain a mother's consent to donate fetal tissue. And the form stated that research using the blood from pregnant women and tissue that has been aborted has been used to treat and find a cure for such diseases as diabetes, Parkinson's Disease, Alzheimer's disease, cancer, and AIDS. This is clearly false.

The witness, who is an ethics expert, agreed and he said that the idea of promise of cures found in the form was a "very powerful motivator." He also expressed concern that the scientific community's standards for fetal tissue donation are absent in that consent form, saying, "the thoroughness of the consent seems to be missing in this form."

A researcher for the minority testified during the hearing. He also agreed, stating the form would not have made it past his institutional review board. Yet, this is what is being used in abortion clinics with vulnerable women.

In other words, the testimony provided by both of the witnesses from the majority and the minority raised concerns that the principles embodied in

ethics reports, and later incorporating the Federal regulations, are not being followed by abortion providers seeking consent for the donation of human fetal tissue.

We must raise this awareness, make sure people know, and make sure that women are protected.

Ms. SCHAKOWSKY. Madam Speaker, I yield 2 minutes to the gentlewoman from Colorado (Ms. DEGETTE), not only someone who has been such a stalwart for women's rights and reproductive rights, but the co-chair of the Pro-Choice Caucus in the House of Representatives.

Ms. DEGETTE. Madam Speaker, so this panel was supposed to be set up to investigate the alleged sale of fetal tissue, which is illegal under current law. That didn't turn out so well.

So now, as you can hear from the other side of the aisle, they are going after fetal tissue research itself, something that has been legal and used in an ethical way since the 1930s, something which has been used to find most vaccines and other cures for diseases in this country, something which a panel appointed by President Ronald Reagan, found unanimously in 1980 to be ethical.

So I want to ask, Madam Speaker, what the heck are we being asked to spend another \$800,000 on?

The total funding for this witch hunt and this reckless endeavor is now more than \$1.5 million. We have gone after women and punished them. We have gone after medical professionals and put their lives at risk, like what happened in my neighborhood of Colorado Springs, Colorado. We have put doctors and researchers on the line, and we have had a chilling effect on important biomedical research.

I say enough is enough. We need to disband this select committee. We need to continue to make sure that we have ethical medical research in this country because, frankly, that will lead to the cures that affect diseases that affect millions of Americans.

Mr. Speaker, from its start, the Select Panel has been nothing but a partisan witch hunt. The apparent goal of the Select Panel is to punish and intimidate women medical professionals and researchers who are following the law. Through wanton use of subpoenas, inflammatory language and release of private information—including addresses and phone numbers where those wishing to harass health care providers can find them—the Select Panel as put many, many people at risk. It has also threatened life-saving research and health care that these people provide.

Make no mistake: this threat is very real. Clinics are picketed and fire-bombed, doctors and their families are targeted at their homes, and some have even been murdered.

Furthermore, the Select Panel is trying to force universities and clinics to turn over the names of their researchers, graduate students, lab and clinic staff and doctors—for no legitimate congressional reason. Not since Joe

McCarthy have we seen such abusive pressure tactics to “name names.”

The Select Panel is acting as judge, jury, and executioner and endangering lives. It is time for Speaker RYAN to disband this panel—rather than let it gorge even more on taxpayer funds.

Like the seventeen investigations that preceded it, the Select Panel has found no evidence of wrongdoing by Planned Parenthood, other providers, researchers or the companies that facilitate life-saving research and health care for women.

The Washington Post editorial board called on Speaker RYAN to disband the Select Committee months ago, noting that it “has issued indiscriminate subpoenas, intimidated witnesses and relied on misleading information. It is abusing power at taxpayer expense, and Democrats are right to demand its shutdown.” The paper added, “There is no legitimate reason for this inquiry.”

The Select Panel is a waste of funds, an attack on women's rights, a danger to life-saving medical research and an abusive use of Congressional power for mere partisan gain.

So Mr. Speaker, I say enough with the smear campaigns, fishing expeditions and endless stream of subpoenas. Congressional bullying to frighten women out of exercising their rights, and to drive researchers and healthcare providers out of business, has to stop.

We in the minority have long called for the Select Committee to be disbanded before it does any more damage. I look forward to closing this shameful chapter in Congressional history at the end of this year.

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. HARRIS), who is also a medical doctor.

Mr. HARRIS. Madam Speaker, I am glad the gentlewoman talked about the need for ethical medical research because one of our panel's accomplishments is to show how StemExpress undermined the very foundations of ethical American scientific research.

First, Federal regulations require researchers to obtain informed consent from each person used as a subject. The basic element of informed consent includes a detailed explanation of the purposes of the research for which tissue is being obtained. StemExpress, as we found, simply did not follow that requirement.

HHS regulations also require that in obtaining consent, researchers “minimize the possibility of coercion or undue influence.” Well, StemExpress documents that we uncovered shows that its employees were already promising to deliver baby body parts even before the abortions were performed. That raises serious concerns that there may have been coercion or undue influence on women to donate parts of their aborted babies.

Now, second, Federal regulations require that all research that involves human subjects needs approval from an institutional review board, or IRB. As a medical researcher, I had to file IRB

applications and receive IRB approval from my university's IRB.

Now, it turns out that StemExpress received their IRB approval from a company called BioMed IRB, a California firm that is basically an online, mail order IRB that the Federal Government actually barred for 2 years because they violated FDA rules in granting their IRB approval.

The FDA gave the panel its file on BioMed IRB. Madam Speaker, that file literally was more than a foot high.

HHS regulations require IRBs to “prepare and maintain adequate documentation” of their activities, including: copies of all research proposals reviewed, records of continuing review activities, and copies of all correspondence between the IRB and the investigators, in this case, StemExpress' founder and CEO, Cate Dyer.

Now, the panel subpoenaed BioMed IRB for all documents related to its approval of StemExpress' research protocol. BioMed IRB's executive director informed the panel that, in regards to those records, “there are none.” In other words, BioMed clearly violated Federal regulations on IRBs.

The head of BioMed went further. He told the panel to just bring on a contempt proceeding. That is the IRB StemExpress used. That says a lot about StemExpress' motives and it says a lot about the accomplishments of the select panel. None of these shameful practices would have been discovered if not for the panel's investigative work this year.

As a physician and researcher, I know that if I had used the same shady tactics as StemExpress and BioMed IRB, at best, my research reputation would be at risk and, at worst, I would be facing prison.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentlewoman from Connecticut (Ms. ESTY).

Ms. ESTY. Madam Speaker, I rise today in opposition to H. Res. 933, legislation that would waste an additional 800,000 taxpayer dollars on the partisan witch hunt against Planned Parenthood.

I learned from a young age the value of making quality reproductive health care available to everyone. In the rural town I grew up in, too many young women didn't have access to family planning services. Too many got pregnant, dropped out of school, and never pursued their dreams. That is why, in college, I volunteered with Planned Parenthood to ensure legal access to the full range of safe family planning services for all women.

So instead of funding a sham investigation, \$800,000 could fund lifesaving breast exams, pregnancy tests, Pap smears, and ovarian cancer screenings.

Today I stand with women and men across this country to speak out against a baseless investigation, which has shamefully wasted tax dollars to

attack the very people who most need our help.

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentlewoman from Utah (Mrs. LOVE).

Mrs. LOVE. Madam Speaker, my colleagues on the other side have said that the three House Committee investigations related to the sale of fetal tissue have produced nothing. Others have said that the State Attorney General investigations have also looked into the matter and have found nothing. They complain that this is a waste of time and they complain that it is a waste of money.

First of all, there is so much that we don't know and the American people don't know and still don't understand about this industry. However, since the panel's investigation, we have uncovered alarming revelations about the fetal tissue industry and, because of this, there have been criminal and regulatory referrals. They have resulted in numerous investigations around the Nation, and I will highlight eight of these.

First, the panel discovered that the University of New Mexico was violating their State's Anatomical Gift Act by receiving tissue from late-term abortion clinics. This is currently being investigated.

Second, the panel made a forensic accounting analysis of StemExpress' limited production and determined that they were profiting from the sale of baby body parts. Now the El Dorado District Attorney and the United States Department of Justice are investigating this.

Third, the panel learned that StemExpress and certain abortion clinics were violating HIPAA privacy rights of vulnerable women for the sole purpose of increasing and harvesting fetal tissue to make money.

Fourth, the panel discovered that an abortion clinic in Arkansas violated State law when it sent tissue to StemExpress. This, too, is under investigation.

Fifth, the panel discovered that a university in Ohio was trafficking in baby body parts, an illegal act under Ohio State law.

Sixth, it was discovered that DV Biologics, another tissue procurement company, was profiting from the sale of fetal tissue and violated California State law. This case has been filed.

Seventh, recently the panel learned that Planned Parenthood of Gulf Coast violated both Texas and U.S. law when it sold baby body parts to the University of Texas.

Eighth, the panel also learned that Advanced Bioscience Resources made a profit when it sold tissue to various universities.

As elected Representatives, we are tasked with oversight of our government that enforces our laws. These eight referrals are proof of potential

criminal activity in the fetal tissue industry. They justify the existence of the panel and their investigations.

The work of the select panel is not over. More referrals will come, and we need to complete this process. Continued funding for the panel's unfinished work is needed.

I urge my colleagues to support this resolution to fund the investigative work and fulfill the obligations that we have to the American people and the rule of law.

Ms. SCHAKOWSKY. Madam Speaker, let me just say that bogus referrals do not a conviction make, and that StemExpress had offered many times to come in with its procurement officers and answer all the questions. They were denied that.

Madam Speaker, I yield 1 minute to the gentlewoman from Massachusetts (Ms. CLARK).

Ms. CLARK of Massachusetts. Madam Speaker, I thank the gentlewoman for yielding.

Republicans today are asking us to spend more than \$1.5 million to conduct a radical, dangerous inquisition that targets and intimidates private citizens.

To satisfy their seemingly unquenchable obsession with rolling back women's reproductive rights and access to basic health care, this overreaching panel recklessly has demanded names, and interferes in the lives of law-abiding students, scientists, and researchers whose private lives and jobs have been turned upside down by their own government.

What do we have to show for this display of government abuse?

Absolutely nothing. In fact, it is worse than nothing.

Today, they are invoking institutional responsibility to ask the taxpayers to foot a bill for \$800,000 of their own cost overruns. This is money that could have been used to help families, feed the hungry, help our veterans and military families, and go toward education.

I urge my colleagues to reject this dangerous abuse of power and taxpayer funding.

Mr. HARPER. Madam Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. DUFFY).

Mr. DUFFY. Madam Speaker, I thank the gentleman from Mississippi for yielding.

Let's be really clear about what this is about. This is about following the law. We negotiate, we vote, we pass laws, the President signs them, and they should be enforced. That is what this conversation is about, Madam Speaker.

StemExpress has thumbed its nose against the select investigative panel and obstructed our efforts to bring light to the fetal tissue procurement industry.

□ 1530

Nearly a year ago, the panel requested information from StemExpress regarding where they procured their fetal tissue, whom they distributed the fetal tissue to, any communications instructing the company's employees to procure fetal tissue, and all accounting records and banking records related to fetal tissue.

StemExpress, in response to that request, has given us none—zero—no document. So to compel StemExpress to provide the panel with this information, the panel issued the company a subpoena. Instead of complying with the subpoena, StemExpress only turned over limited information to the panel, and the information that they turned over to us was so heavily redacted that it was completely useless for investigative purposes.

To date, the select panel has not received a single accounting or bank record from StemExpress. So they have failed to comply with our requests and our subpoenas in violation of the law.

If StemExpress is within the limits of the law, if nothing is illegal or immoral, then why does StemExpress refuse to turn over all the documents that our panel has requested? Opening your accounting records to a congressional panel shouldn't be that difficult.

StemExpress has had plenty of time to get their act together and provide us with the requested documents that we have asked for. Other organizations that we have reached out to and made the same requests to have turned over the documents in a pretty timely fashion.

For failure to comply with our subpoenas, this panel has recommended the House hold Cate Dyer, the CEO of StemExpress, in contempt of Congress.

Despite StemExpress' best efforts to stonewall this investigation, the panel did find out the name of StemExpress' bank which we subpoenaed. The bank provided us with StemExpress' banking records. So, again, StemExpress won't give us the records, but we got them from the bank.

We now know why StemExpress was hiding these documents. The banking records reveal that StemExpress may have been shredding documents that were directly related to this panel's investigation. The bank records show that payments were made to a shredding company—a shredding company. We looked back at all the records we sought from StemExpress back to 2012, and there is no payments to a shredding company. But when this panel started its investigation and when we started asking for documentation, guess what? You have bank records that show they hired a shredding company. Why hire a shredding company when we were starting our investigation?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HARPER. Madam Speaker, may I inquire as to how much time is remaining.

The SPEAKER pro tempore. The gentleman from Mississippi has 3 minutes remaining. The gentlewoman from Illinois has 16 minutes remaining.

Mr. HARPER. Madam Speaker, I yield the gentleman an additional 1 minute.

Mr. DUFFY. Madam Speaker, there is no cause and no reason why StemExpress would allegedly shred these documents. We both know on both sides of the aisle—though we may have a disagreement on this issue—that when this Congress sends a lawful request to an institution, they are required to provide the documents that are requested. Both sides of the aisle know that when we send a subpoena, those who are subpoenaed are required to provide those documents to us.

So if StemExpress has failed to comply with these requests and these subpoenas, and if they are willing to violate the law in regard to subpoenas to hide information, the question becomes: What laws are they willing to violate in regard to the sale of baby body parts? I think that question deserves to be answered by StemExpress, by this institution, and for the American people.

So I would ask support for this additional funding to complete this investigation and provide documentation to this country and to this House about what has been taking place in regard to the procurement and sale of fetal tissue.

1. Date of Congressional Action: August 7, 2015.

a. Event: Energy & Commerce Committee letter to StemExpress requesting a briefing.

b. Date of StemExpress Payment to Shred-It Us: August 13, 2015.

2. Date of Congressional Action: August 21, 2015.

a. Event: StemExpress briefing to Energy & Commerce Committee.

b. Date of StemExpress Payment to Shred-It Us: August 13, 2015.

3. Date of Congressional Action: September 17, 2015.

a. Event: Senate Judiciary Committee document request letter to StemExpress.

b. Date of StemExpress Payment to Shred-It Us: September 29, 2015; November 10, 2015; December 10, 2015.

4. Date of Congressional Action: December 17, 2015.

a. Event: Select Investigative Panel document request letter to StemExpress.

b. Date of StemExpress Payment to Shred-It Us: January 12, 2016.

5. Date of Congressional Action: January 15, 2016.

a. Event: StemExpress first production in response to Select Panel document request letter.

b. Date of StemExpress Payment to Shred-It Us: January 12, 2016.

6. Date of Congressional Action: February 9, 2016.

a. Event: StemExpress production in response to Select Panel document request letter.

b. Date of StemExpress Payment to Shred-It Us: January 27, 2016.

7. Date of Congressional Action: February 12, 2016.

a. Event: Select Panel Subpoena to StemExpress.

b. Date of StemExpress Payment to Shred-It Us.

8. Date of Congressional Action: March 28, 2016.

a. Event: StemExpress production in response to Panel subpoena.

b. Date of StemExpress Payment to Shred-It Us: March 21, 2016.

9. Date of Congressional Action: May 10, 2016.

a. Event: StemExpress production in response to Panel subpoena.

b. Date of StemExpress Payment to Shred-It Us: April 26, 2016.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. EVANS) who is a new Member. He has served over three decades in the Pennsylvania legislature and now has joined us.

Mr. EVANS. Madam Speaker, I would like to thank the gentlewoman from Illinois.

In the short 2 weeks that I have been here, Madam Speaker, I have observed a lot of interesting things take place. But what I especially have observed at this particular point, Madam Speaker, is that the American taxpayers shouldn't be asked to spend another \$800,000 on an unnecessary and dangerous selective investigation.

Don't take my word, Madam Speaker, look at the aspect of quotes from around the United States.

The Tennessean: "Right now, the panel is creating the perception that it is embroiled in a wild goose chase."

The New York Times: "Neither the videos nor the many investigations that followed have found any evidence that Planned Parenthood offered to sell fetal tissue for a profit."

"Elected officials should not use the power of the office to intimidate citizens who hold different points of view."

The New York Times: "Nor is there any reason to conduct this investigation . . . Republicans are pointlessly attacking a practice that could save lives and, in the process, potentially putting researchers' lives at risk."

The Hill: "The committee is abusing its power and the effect is very troubling for researchers and patients alike."

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. SCHAKOWSKY. Madam Speaker, I yield the gentleman an additional 1 minute.

Mr. EVANS. The fact is Planned Parenthood does not sell fetal tissue for profit and never has. A Republican-led House panel is undeterred and conducting its own investigation and, more accurately, witch hunt. Even more troubling is the considerable time and money that will be wasted on this political damage to health care and medical research.

Madam Speaker, this is not needed. We should be against it.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentlewoman from California (Ms. JUDY CHU).

Ms. JUDY CHU of California. Today, Republicans are asking taxpayers to spend \$800,000 to cover for their mistakes. The select panel to investigate Planned Parenthood, which was created based on lies spread by anti-abortion extremists, has already overspent the \$1 million this Republican Congress has allocated them with no real findings. Now they want to continue their attack on women and Planned Parenthood. This is outrageous.

This select panel—along with 13 States, three House committees, and a Texas grand jury investigation—has found no wrongdoing on the part of Planned Parenthood. It is clear that, after over a year of investigations, Republicans are not seeking truth or better policy.

Instead, this panel has released confidential documents to the public, compared researchers to Nazi war criminals, and exposed doctors and researchers to harassment and violence. We cannot continue to fund this fruitless witch hunt that endangers our researchers and slows important medical discoveries.

I strongly oppose this committee and urge my colleagues to vote "no."

Mr. HARPER. Madam Speaker, may I inquire as to how many additional speakers the minority may have?

Ms. SCHAKOWSKY. Madam Speaker, I have six additional speakers and still, I think, some additional time beyond that.

Mr. HARPER. Madam Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. ROTHFUS).

Mr. ROTHFUS. Madam Speaker, I rise today in support of this resolution. The Select Investigative Panel on Infant Lives has been investigating potential violations of the Federal law that makes it illegal to sell fetal tissue—that is body parts—for profit. The evidence reveals appalling practices. For example, on video, we saw a Planned Parenthood doctor talking about doing "less crunchy" types of abortion. That was to make sure they had intact body parts to sell.

The gruesome practices the panel discovered shocked the conscience. Where does this end?

Consider this: It was startling to learn that the University of New Mexico had a summer camp program in which students dissected the brains of unborn children. According to documents obtained by the panel, the university ordered from a late-term abortion doctor "whole, fixed brains to dissect with summer camp students."

Think about that. We are talking about students—teenagers—dissecting the brains of someone within the age group of their own siblings. What barbarity are we teaching our children? How seared have our consciences become?

The select panel must move forward with its investigation into these alarming violations of law and assaults on human dignity and conscience.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentleman from California (Mr. RUIZ) who is a doctor.

Mr. RUIZ. Madam Speaker, I rise in strong opposition to H. Res. 933. I oppose funding for the select panel to attack and intimidate women's health care.

The select panel is a baseless committee formed with no regard to the facts or evidence of this case. In fact, the creators of the purposefully doctored and highly manipulated videos that they consistently bring up that this investigation is based on have been indicted on criminal felony charges, and we should be investigating their legal practices instead. Continuing to fund this panel is a disgrace, and this investigation must cease immediately.

Instead of taking action that would improve the lives of women and families across the country, this panel continues to chase baseless allegations.

As an emergency physician, I am exceptionally disappointed. The reckless work of the panel puts women's reproductive rights in jeopardy and threatens to undo the progress we have made over the last 40 years. It is also a complete waste of taxpayer money.

I stand in strong opposition to this resolution and call on this panel to be disbanded. Let's take real action to improve the health and well-being of this country.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentlewoman from Wisconsin (Ms. MOORE) who is my friend.

Ms. MOORE. Madam Speaker, I thank the gentlewoman from Illinois.

Madam Speaker, I rise today in strident opposition to H. Res. 933.

Madam Speaker, we have heard so much about fake news lately, and now we are being asked for taxpayer funding for fake congressional committees. This resolution provides another 800,000 taxpayer dollars to the Republicans' ongoing hatchet job against Planned Parenthood. We already know the facts on the faked Planned Parenthood videos and the unethical videographer. The fake committee's only goal is to create Orwellian unfacts.

So far, this fake committee has found no wrongdoing by Planned Parenthood or their doctors. Of course, this panel knows that they wouldn't find anything because Planned Parenthood has been cleared of wrongdoing 17 times by three different House committees, 17 State investigations, and a grand jury.

Now, despite all this, Republicans want to waste more taxpayer dollars.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. SCHAKOWSKY. Madam Speaker, I yield the gentlewoman an additional 30 seconds.

Ms. MOORE. Madam Speaker, despite all this, Republicans want to waste more taxpayer dollars for their smear campaign, money that could be used on meaningful measures to reduce infant mortality, feed hungry children, or improve early childhood education. What we really need to get to the bottom of is: What will it take to get Republicans to get the target off women's backs?

Do that, and we might actually make some progress.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentleman from Michigan (Mr. KILDEE).

Mr. KILDEE. Madam Speaker, I thank my friend and colleague for her leadership and for yielding.

Let's just be clear. We know what this is. This is yet another attempt to fund with Federal taxpayer dollars a Republican messaging effort to attack Planned Parenthood.

More than 2.5 million people—2.5 million women—every year rely on Planned Parenthood for lifesaving cancer screenings and for other health services. We have important legislative work to do, and we ought not be using taxpayer dollars to fund this effort which has clearly been described in all sorts of lofty tones but is essentially a political witch hunt after an organization that provides essential services to women.

The majority cannot deny the chilling effect that this effort has had on medical research. It has already been revealed that this is also an attack on stem cell research. You just have to listen to the debate.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. SCHAKOWSKY. Madam Speaker, I yield the gentleman an additional 30 seconds.

Mr. KILDEE. We need to make sure that we are pursuing scientific research to fight diseases like diabetes, like Alzheimer's, and like multiple sclerosis, a disease my wife, Jennifer, has been fighting for 18 years.

□ 1545

We are one of those families that, when we hear about medical research and we hear about stem cell research, in particular, our ears perk up because we know there is hope in that research.

This effort—no matter what anybody wants to say, it is well documented—has had a chilling effect on that medical research, and we ought to shut this down.

Mr. HARPER. Madam Speaker, I continue to reserve the balance of my time.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentleman from Florida (Mr. DEUTCH).

Mr. DEUTCH. Madam Speaker, I thank my friend, the gentlewoman from Illinois (Ms. SCHAKOWSKY) for yielding.

Madam Speaker, it is time to move on from this dangerous, partisan, and

wasteful investigation into Planned Parenthood. This case is closed—after investigations with 13 States, three House committees, and a Texas Grand Jury that found no wrongdoing by Planned Parenthood.

The majority wants \$1.5 million from the American taxpayers to fund this dangerous sham when they know that they will never find evidence of wrongdoing by Planned Parenthood.

But the evidence doesn't matter, Madam Speaker. The majority knows that, if they keep this farce in the headlines, it will do real damage to women seeking health care. They know that it will feed fake news sites on the Internet. They know that it will block women from exercising their constitutional rights. And they know that it will unfairly harass women's health clinics. Madam Speaker, they know that this will put abortion providers and their staff in danger.

This panel serves no true investigatory purpose. It is a political tool. It is a disgrace.

I urge my colleagues to vote "no."

Mr. HARPER. Madam Speaker, I continue to reserve the balance of my time.

Ms. SCHAKOWSKY. Madam Speaker, if I could inquire how much time I have left.

The SPEAKER pro tempore. The gentlewoman from Illinois has 8½ minutes remaining.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentlewoman from California (Ms. LEE).

Ms. LEE. Madam Speaker, I thank Congresswoman SCHAKOWSKY for yielding and for her tremendous leadership on this issue and so many issues that affect women.

I rise in strong opposition to H. Res. 933, which is nothing more than a politically motivated resolution. It would shamefully—shamefully—provide an additional \$800,000 to the select investigative panel to so-called investigate Planned Parenthood and attack women's health.

Republicans are asking for more money to continue their baseless attacks to undermine medical and scientific research and intimidate and harass providers. How outrageous. Let's be clear. This is yet another attempt to deny women, especially low-income women, access to health care.

There have been multiple hearings and there have been committee investigations, none of which have resulted in any evidence of wrongdoing by Planned Parenthood, doctors, or researchers.

Madam Speaker, this resolution and the absurd select panel investigation amounts to nothing more than a witch hunt. Instead of wasting millions of taxpayer dollars on this smear campaign, we should be fully investing in women's health and childcare.

I urge my colleagues to vote "no" on this dangerous resolution and, instead,

call for an end of the select panel to attack women's health.

Mr. HARPER. Madam Speaker, I continue to reserve the balance of my time.

Ms. SCHAKOWSKY. Madam Speaker, I yield 1 minute to the gentlewoman from Florida (Ms. FRANKEL).

Ms. FRANKEL of Florida. Madam Speaker, I join my Democratic colleagues in opposing funding for a legislative panel that, instead of protecting, is jeopardizing life. Just ask the wife and 4 children and 10 grandchildren of George Tiller, a good doctor, who, while attending church, was shot dead by an anti-abortion extremist. His loved ones know the tragic consequences of having a target on one's back. And what this panel is doing is funding and creating new targets.

Reports naming names with bogus accusations; every day, clinics dealing with social media threats, bomb scares, harassment. We are playing deadly politics here, endangering lives and halting lifesaving medical breakthroughs. Enough is enough.

I urge my colleagues to oppose this resolution.

Mr. HARPER. Madam Speaker, I continue to reserve the balance of my time.

Ms. SCHAKOWSKY. Madam Speaker, I yield myself such time as I may consume.

I just want to say a few things before yielding to the gentleman from Pennsylvania (Mr. BRADY).

We have heard a lot of accusations against certain businesses, et cetera, and institutions, and the Republicans have selectively and repeatedly released documents and letters, including a so-called criminal referral to the New Mexico attorney general, to the press before sending them or sharing them with Democrats. This is clearly a political move.

They have also manufactured their own misleading so-called exhibits and withheld documents and information from Democrats in violation of the House rules. They have abused their power throughout the whole time and should now not be allowed to continue to get any more money for this panel.

Madam Speaker, I urge my colleagues to defeat the previous question. If we defeat the previous question, I would offer an amendment to the resolution that would abolish the select panel instead of funding it. Let's be done with this once and for all.

Madam Speaker, I yield the remainder of my time to the gentleman from Pennsylvania (Mr. BRADY).

Mr. BRADY of Pennsylvania. Madam Speaker, I also urge my colleagues to vote "no" on H. Res. 933.

I reserved a little bit of my time because I thought that this would be the last time that our chairman, CANDICE MILLER, would be here orchestrating the resolution. Instead we got my dear

friend, Mr. HARPER. That is okay. We will take the second.

CANDICE MILLER is going on to other things, and we wish her well. She is on other endeavors, and it is bittersweet. The sweetness is that she is leaving here and going home. The bitterness is that she is leaving here and going home. She has been a great chairman. We have had the pleasure of working together. We agreed 99.9 percent of the time. Without question, she was the classiest lady—without question, the classiest person, not only the classiest lady—in this institution.

Again, I wish her well. And whatever I can do—if I am ever in Michigan, I am going to stop to see her; if she is ever in Philadelphia, she can come to see me; and if she comes back here, I would love to see her again.

Ms. SCHAKOWSKY. Madam Speaker, I reserve the balance of my time.

Mr. HARPER. Madam Speaker, I yield myself such time as I may consume.

I share that admiration for CANDICE MILLER, who will be leaving at the end of this term. It has been great to see the working relationship that Mr. BRADY and Mrs. MILLER have had together on the Committee on House Administration. It has been an excellent example of how this place can operate.

Let us come together, though, here to fulfill our responsibility to one of the House's standing committees and provide the Committee on Energy and Commerce, both the majority and the minority, the funding that they need to finish their work this year.

I reserve the balance of my time.

Ms. SCHAKOWSKY. Madam Speaker, I ask unanimous consent to insert the text of the amendment in the RECORD along with extraneous material immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Illinois?

There was no objection.

Ms. SCHAKOWSKY. I yield back the balance of my time.

Ms. SLAUGHTER. Madam Speaker, the Select Investigative Panel was created solely to attack Planned Parenthood and intimidate women, health care providers, and scientific researchers. Its investigation has never been fair or fact-based.

It is shameful that the Majority is continuing to use the taxpayer's money to advance its own political purposes. This privileged resolution would waste another \$800,000 of the American people's tax dollars on this partisan witch hunt. The Majority is now on track to spend more than \$1.5 million on this dangerous smear campaign.

Madam Speaker, I call on every Member of the House who does not want to fund witch hunts to support Ms. SCHAKOWSKY's amendment.

Ms. JACKSON LEE. Madam Speaker, as a senior member of the Judiciary, and Ranking Member of the Subcommittee on Crime, Ter-

rorism, Homeland Security, and Investigations, I rise in strong opposition to H. Res. 933, which would increase funding by \$800,000 for the Select Investigative Panel of the Energy and Commerce Committee, which more accurately should be called the "Planned Parenthood Witchhunt."

The ostensible purpose of this Select Investigative Panel is to investigate and report on all issues related to medical procedures and practices involving fetal tissue donation and procurement; federal funding and support for abortion providers; and late-term abortions.

But make no mistake, the Republican majority's real purpose in establishing this panel is (1) to open another front in their ongoing War Against Women, (2) impede women in the exercise of their right to make their own choices when it comes to their reproductive health, and (3) to persecute, smear, and demonize Planned Parenthood.

We know this from our experience with the so-called "Benghazi Committee," which the Republican leadership claimed was a non-partisan inquiry into the facts and circumstances surrounding the 2012 tragedy in Libya which claimed the lives of four brave and heroic Americans.

We know now, as confirmed by the Majority Leader and the Speaker-apparent, that the Benghazi Committee was in reality part of politically-motivated strategy to disparage and damage the former Secretary of State and leading candidate for the Democratic presidential nomination that wasted \$4.5 million of the taxpayers' money.

Madam Speaker, with so many pressing challenges facing our nation, wasting time and taxpayer money on another partisan witch hunt is a luxury we simply cannot afford.

The structure and powers to be given the Select Investigative Panel does not inspire any confidence that it will operate in a fair and impartial manner.

For example, the composition of the committee is lopsided in favor of the majority (8 Republican; 5 Democrat), instead of more equally divided as select committees are comprised.

Second, the chairman of the select panel is given subpoena power and deposition authority, including the authority to order the taking of depositions by a member of the select panel or the panel's counsel.

Third, the chairman of the select committee is authorized to recognize members to question witness for periods longer than the traditional five minutes and to recognize staff to question witnesses.

Taken together, these unusual powers are susceptible to abuse and are valued tools to any party wishing to conduct a fishing expedition as opposed to a dispassionate search for facts.

Madam Speaker, let me save our Republican colleagues some time by pointing out the facts that an objective, fair-minded inquiry would reveal.

In 2011, approximately 1.06 million abortions took place in the U.S., down from an estimated 1.21 million abortions in 2008, 1.29 million in 2002, 1.31 million in 2000 and 1.36 million in 1996.

Based on available state-level data, an estimated 984,000 abortions took place in 2013—

down from an estimated 1.02 million abortions in 2012.

Fetal tissue research has been scientifically accepted since the Reagan Administration.

In 1988 the Human Fetal Tissue Transplantation Research Panel (or the Blue Ribbon Commission) sought to separate the question of ethics of abortion from the question ethics of using fetal tissue from legal elective abortions for medical research.

The report of this commission laid the foundation for the NIH Health Revitalization Act of 1993 (which passed overwhelmingly with bipartisan support), prohibits the payment or receipt of money or any other form of valuable consideration for fetal tissue, regardless of whether the program to which the tissue is being provided is funded or not.

The law contains a limited exception that permits reimbursement for actual expenses (e.g. storage, processing, transportation, etc.) of the tissue.

These fees generally amount to less than \$100.

Less than 1 percent of Planned Parenthood chapters participate in this area of research.

Planned Parenthood reports revenue by source (either government or non-government) rather than the manner of disbursement (income versus grants and contracts).

Payments from Medicaid managed care plans are listed as "Government Health Services Grants and Reimbursements" to reflect the ultimate source of the funds.

Planned Parenthood spends about \$1.1 billion annually on 11.4 million services, 83 percent of which is spent on research, client services and education.

Client services are divided into six categories: Cancer Prevention and Screenings, STI Testing, Contraception, Abortion Services, Other Women's Health Services & Other Services.

According to Planned Parenthood financial statements from 2009 through 2014, 86 percent of Planned Parenthood's Services fall under the categories of Cancer Prevention and Screenings (12–16 percent), STI Testing for men and women (35–41 percent), and Contraception (32–35 percent).

Only about about 3 percent of its services fall under the Abortion category nationally.

Additionally, Planned Parenthood is already prohibited from spending federal funds on abortion services anyway.

Finally, Madam Speaker, H. Res. 933 is an irresponsible diversion from tackling and addressing the following critical challenges facing this Congress and the American people.

Funding to keep the government open expires on December 9 and Congress must find a way to keep the government open in the face of irresponsible opposition from 151 Republicans who previously voted to shut down the government rather than allow women access to affordable family planning and life-saving preventive health care.

Madam Speaker, we have far more important things to do than waste more time and taxpayer money on another partisan attempt to deprive women of their right to make their own decisions regarding their reproductive health that has been recognized as constitutionally guaranteed since 1973 by the Supreme Court decision in *Roe v. Wade*.

I oppose H. Res. 933 and urge all Members to join me in voting against this wasteful and irresponsible measure.

#### HEALTH IMPACT OF PLANNED PARENTHOOD AFFILIATES BY THE NUMBERS

378,692—Pap tests performed.  
487,029—breast exams performed.  
87,988—women whose cancer was detected early or whose abnormalities were identified.  
865,721—Total Pap tests and breast exams performed.  
1,440,495—emergency contraception kits provided.  
516,000—unintended pregnancies averted by contraceptive services.  
3,577,348—Birth control information and services provided.  
704,079—HIV tests conducted.  
169,008—STIs diagnosed, enabling people to get treatment and to learn how to prevent the further spread of STIs.  
4,470,597—Tests and treatment for sexually transmitted infections provided.  
Planned Parenthood health centers saw 2.7 million patients, who collectively received 10.6 million services during 4.6 million clinical visits.

#### PARENTHOOD CLIENTS RECEIVING CONTRACEPTIVE SERVICES IN 2013

42 percent—STI/STD Testing & Treatment.  
11 percent—Other Women's Health Services.  
3 percent—Abortion Services.  
1 percent—Other Services.  
9 percent—Cancer Screening and Prevention.  
34 percent—Contraception.

#### MEDICAL SERVICES PROVIDED BY AFFILIATES (2013)

STI/STD Testing & Treatment Total: 4,470,597.  
STI Tests, Women and Men: 3,727,359.  
Genital Warts (HPV) Treatments: 38,612.  
HIV Tests, Women and Men: 704,079.  
Other Treatments: 547.  
Contraception Total: 3,577,348.

#### GOVERNMENT FUNDING FOR PLANNED PARENTHOOD

National and Affiliate Chapters (FY2004–FY2014)  
\$4,529,900,000: Amount that Planned Parenthood and its affiliates have received in government funding over the last ten years, according to the organization's annual reports.

This represents less than half, approximately 45 percent, of the organization total revenues.

There are 38 Planned Parenthood locations in Texas.

Planned Parenthood reports revenue by source (either government or non-government) rather than the manner of disbursement (income versus grants and contracts).

Payments from Medicaid managed care plans are listed as "Government Health Services Grants and Reimbursements" to reflect the ultimate source of the funds.

The government funding comes from both federal and state governments.

Government Health Service Grants and Reimbursements:

FY 2014: \$528.5 million.  
FY 2013: \$540.6 million.  
FY 2012: \$542.4 million.  
FY 2011: \$538.5 million.  
FY 2010: \$487.4 million.  
FY 2009: \$363 million.  
FY 2008: \$349.6 million.  
FY 2007: \$336.7 million.  
FY 2006: \$305.3 million.  
FY 2005: \$272.7 million.  
FY 2004: \$265.2 million.

The material previously referred to by Ms. SCHAKOWSKY is as follows:

AN AMENDMENT TO H. RES. 933 OFFERED BY  
MS. SCHAKOWSKY

Strike all after the resolved clause and insert:

That the Select Investigative Panel of the Committee on Energy and Commerce established pursuant to House Resolution 461, agreed to October 7, 2015, is hereby terminated.

#### THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the Democratic minority to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives (VI, 308–311), describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

The Republican majority may say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative

Process in the United States House of Representatives, (6th edition, page 135). Here's how the Republicans describe the previous question vote in their own manual: "Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule. . . . When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment."

In Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: "Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. HARPER. Madam Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BRADY of Pennsylvania. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

## RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 54 minutes p.m.), the House stood in recess.

□ 1710

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. BYRNE) at 5 o'clock and 10 minutes p.m.

## COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following commu-

nication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 1, 2016.

Hon. PAUL D. RYAN,  
*The Speaker, House of Representatives,*  
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 1, 2016, at 4:18 p.m.:

That the Senate passed without amendment H.R. 6297.

With best wishes, I am,  
Sincerely,

KAREN L. HAAS.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the order of the House of today, proceedings will resume on questions previously postponed.

Votes will be taken in the following order:

Ordering the previous question on House Resolution 933;

Adoption of House Resolution 933, if ordered;

Ordering the previous question on House Resolution 937;

Adoption of House Resolution 937, if ordered;

Adoption of the motion to recommit on H.R. 6392; and

Passage of H.R. 6392, if ordered.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

## PROVIDING AMOUNTS FOR FURTHER EXPENSES OF THE COMMITTEE ON ENERGY AND COMMERCE IN THE ONE HUNDRED FOURTEENTH CONGRESS

The SPEAKER pro tempore. The unfinished business is the vote on ordering the previous question on the resolution (H. Res. 933) providing amounts for further expenses of the Committee on Energy and Commerce in the One Hundred Fourteenth Congress, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The vote was taken by electronic device, and there were—yeas 235, nays 177, not voting 22, as follows:

## □ 1743

So the resolution was agreed to.  
The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

# PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON S. 2943, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2017

The SPEAKER pro tempore (Ms. ROS-LEHTINEN). The unfinished business is the vote on ordering the previous question on the resolution (H. Res. 937) providing for consideration of the conference report to accompany the bill (S. 2943) to authorize appropriations for fiscal year 2017 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 235, nays 180, not voting 19, as follows:

[Roll No. 596]

□ 1815

Ms. GRAHAM changed her vote from “yea” to “nay.”

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

# PROTECTION OF THE RIGHT OF TRIBES TO STOP THE EXPORT OF CULTURAL AND TRADITIONAL PATRIMONY RESOLUTION

Mr. GOODLATTE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the concurrent resolution (H. Con. Res. 122) supporting efforts to stop the theft, illegal possession or sale, transfer, and export of tribal cultural items of American Indians, Alaska Natives, and Native Hawaiians in the United States and internationally, with the Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the concurrent resolution.

The Clerk read the Senate amendments, as follows:

Senate amendments:  
(1) Strike all after the resolving clause and insert the following:

## SECTION 1. SHORT TITLE.

This concurrent resolution may be cited as the “Protection of the Right of Tribes to stop the Export of Cultural and Traditional Patrimony Resolution” or the “PROTECT Patrimony Resolution”.

## SEC. 2. DEFINITIONS.

In this resolution:

(1) NATIVE AMERICAN.—The term “Native American” means—

(A) with respect to an individual, an individual who is a member of an Indian tribe (as defined in section 2 of the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001)); and

(B) with respect to the cultural nature or significance of an item, right, or other object or concept, being of or significant to—

(i) an Indian tribe (as defined in section 2 of the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001)); or

(ii) a Native Hawaiian organization (as defined in that section (25 U.S.C. 3001)).

(2) TRIBAL CULTURAL ITEM.—The term “tribal cultural item” has the meaning given the term “cultural item” in section 2 of the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001).

## SEC. 3. FINDINGS.

Congress finds the following:

(1) Tribal cultural items—

(A) have ongoing historical, traditional, or cultural importance central to a Native American group or culture;

(B) cannot be alienated, appropriated, or conveyed by any individual; and

(C) are vital to Native American cultural survival and the maintenance of Native American ways of life.

(2) The nature and description of tribal cultural items are sensitive and to be treated with respect and confidentiality, as appropriate.

(3) Violators often export tribal cultural items internationally with the intent of evading Federal and tribal laws.

(4) Tribal cultural items continue to be removed from the possession of Native Americans and sold in black or public markets in violation of Federal and tribal laws, including laws designed to protect Native American cultural property rights.

(5) The illegal trade of tribal cultural items involves a sophisticated and lucrative black market, where the items are traded through domestic markets and then are often exported internationally.

(6) Auction houses in foreign countries have held sales of tribal cultural items from the Pueblo of Acoma, the Pueblo of Laguna, the Pueblo of San Felipe, the Hopi Tribe, and other Indian tribes.

(7) After tribal cultural items are exported internationally, Native Americans have difficulty stopping the sale of the items and securing their repatriation to their home communities, where the items belong.

(8) Federal agencies have a responsibility to consult with Native Americans to stop the theft, illegal possession or sale, transfer, and export of tribal cultural items.

(9) An increase in the investigation and successful prosecution of violations of the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.) and the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa et seq.) is necessary to deter illegal trading in tribal cultural items.

(10) Many Indian tribes and tribal organizations have passed resolutions condemning the theft and sale of tribal cultural items, including the following:

(A) The National Congress of American Indians passed Resolutions SAC-12-008 and SD-15-075 to call on the United States, in consultation with Native Americans—

(i) to address international repatriation; and  
(ii) to take affirmative actions to stop the theft and illegal sale of tribal cultural items both domestically and internationally.

(B) *The All Pueblo Council of Governors, representative of 20 Pueblo Indian tribes—*

(i) *noted that the Pueblo Indian tribes of the Southwestern United States have been disproportionately affected by the sale of tribal cultural items both domestically and internationally in violation of Federal and tribal laws; and*

(ii) *passed Resolutions 2015–12 and 2015–13 to call on the United States, in consultation with Native Americans—*

(I) *to address international repatriation; and*  
(II) *to take affirmative actions to stop the theft and illegal sale of tribal cultural items both domestically and internationally.*

(C) *The United South and Eastern Tribes, an intertribal organization comprised of 26 federally recognized Indian tribes, passed Resolution 2015:007, which calls on the United States to address all means to support the repatriation of tribal cultural items from beyond United States borders.*

(D) *The Inter-Tribal Council of the Five Civilized Tribes, uniting the Chickasaw, Choctaw, Cherokee, Muscogee (Creek), and Seminole Nations, passed Resolution 12–07, which requests that the United States, after consultation with Native Americans, assist in international repatriation and take immediate action to address repatriation.*

#### SEC. 4. DECLARATION OF CONGRESS.

Congress—

(1) *condemns the theft, illegal possession or sale, transfer, and export of tribal cultural items;*

(2) *calls on the Secretary of the Interior, the Secretary of State, the Secretary of Commerce, the Secretary of Homeland Security, and the Attorney General to consult with Native Americans, including traditional Native American religious leaders, in addressing the practices described in paragraph (1)—*

(A) *to take affirmative action to stop the practices; and*

(B) *to secure repatriation of tribal cultural items to Native Americans;*

(3) *supports the efforts of the Comptroller General of the United States—*

(A) *to determine the scope of illegal trafficking in tribal cultural items domestically and internationally; and*

(B) *to discuss with Native Americans, including traditional Native American religious leaders, relevant Federal officials, and other individuals and entities, as appropriate, the steps required—*

(i) *to end illegal trafficking in, and the export of, tribal cultural items; and*

(ii) *to secure repatriation of tribal cultural items to the appropriate Native Americans;*

(4) *supports the development of explicit restrictions on the export of tribal cultural items; and*

(5) *encourages State and local governments and interested groups and organizations to work cooperatively in—*

(A) *detering the theft, illegal possession or sale, transfer, and export of tribal cultural items; and*

(B) *securing the repatriation of tribal cultural items to the appropriate Native Americans.*

(2) *Strike the preamble.*

Mr. GOODLATTE (during the reading). Mr. Speaker, I ask unanimous consent to dispense with the reading of the Senate amendments.

The SPEAKER pro tempore (Mr. GROTHMAN). Is there objection to the request of the gentleman from Virginia?

There was no objection.

The SPEAKER pro tempore. Is there objection to the original request of the gentleman from Virginia?

There was no objection.

A motion to reconsider was laid on the table.

#### SMALL BUSINESS SATURDAY

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise in recognition of Small Business Saturday this past weekend, a day to support small businesses and celebrate the role that they play in our communities. This year, Small Business Saturday saw a record 112 million shoppers, a number which highlights the effectiveness of this movement across the United States.

Small businesses have proven time and time again that they are the backbone of a strong economy. In Pennsylvania's Fifth Congressional District, which I am proud to represent, small businesses provide valuable services, ranging from construction and manufacturing to health care and social assistance, bettering the lives of residents and consumers.

Academic institutions also play an important role in growing small businesses. For example, Penn State University introduced a business pre-accelerator this year, known as the Happy Valley Launchbox. This unique venture is a signature program of the Invent Penn State initiative, and I am confident it will serve as a platform for entrepreneurship and innovation.

I look forward to the continued success of small businesses both in Pennsylvania and across the United States, and I remain grateful for their contribution to our Nation's economy.

#### IMPROVING THE HEALTH OF AMERICANS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentleman from Oklahoma (Mr. MULLIN) is recognized for 60 minutes as the designee of the majority leader.

#### GENERAL LEAVE

Mr. MULLIN. Mr. Speaker, I ask that all Members may have 5 legislative days to revise and extend their remarks and include any extraneous materials in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. MULLIN. Mr. Speaker, I rise in support of the 21st Century Cures Act that passed yesterday. It is not too often that we get to be proactive in such important legislative business in

this House. However, yesterday we saw a great victory for the families that so many of us have heard from. We have heard from mothers and fathers, brothers and sisters, and aunts and uncles about loved ones who are dealing with mental illness or dealing with drug addiction or dealing with a disease that we haven't been able to accurately address because we have had roadblocks because of legislation and rules that have been put in place by the FDA. But yesterday we got to pass a piece of legislation by overwhelming bipartisan support to say: Yes, we are listening; yes, we hear you; and yes, we are going to make changes.

I am going to let my other colleagues speak. At this time I yield to the gentleman from Pennsylvania (Mr. MURPHY), my chairman.

Mr. MURPHY of Pennsylvania. Mr. Speaker, I thank the gentleman for yielding and heading up this very important Special Order on a topic that affects every single family in America, and that is their health.

As the gentleman said, yesterday we passed a very important bill, the 21st Century Cures Act, with the charge led by the chairman of the Committee on Energy and Commerce, FRED UPTON. I was pleased that they included in that package our mental health reform bill, which we moved out of the Committee on Energy and Commerce unanimously in July.

We have spoken about this issue at great length for the last few years because it is worthy of that time. We have spoken because of the 60 million Americans who suffer from some level of mental illness and the 10 million Americans who suffer from severe mental illness and the fact that 40 percent of them cannot get care; that half the counties in America have no psychiatrists, psychologists or social workers; that we do not have enough hospital beds for people in crisis, a shortage of 100,000; that there are only 9,000 child and adolescent psychiatrists when we need 30,000, particularly important because severe mental illness in half the cases emerges by age 14 and 75 percent by age 24; that we have seen too many lives lost, that the body count in this Nation last year related primarily and secondarily to mental illness exceeds the total combat body counts of United States soldiers in World War I, Korea, Vietnam, Desert Storm, Bosnia, Afghanistan, and Iraq combined; because millions of families continue to suffer, because our prisons are filled with the mentally ill, our emergency rooms are backed up with people with mental illness-related disorders, and because our morgues are also filled.

Yesterday, the House took a definitive bipartisan approach in changing that trajectory. The issues we have covered on mental health, along with the advances in the 21st Century Cures bill, sets a new direction for where we

need to be going in this Nation to approaching health care overall. When we look at the research changes that we have made in advancing cures not only in small population orphan diseases, but also with regard to the total 10,000 diseases out there, we will be able to sufficiently and more effectively identify medical disorders and psychiatric disorders early on and get them treatment sooner.

One of the aspects that was taken care of in the Helping Families With Mental Health Crisis Act is a program called RAISE, Response After Initial Schizophrenic Episode. As we know, research tells us that when you provide medication and effective targeted counseling early on, you can reduce the trajectory of severe mental illness and improve the prognosis greatly. But when that is not provided, every crisis moment of severe mental illness leads to other neurological damage, worsens the prognosis and, sadly, increases the chances that a person will have time in prison 10 times more likely than to be in a hospital when they are in crisis.

We are changing that trajectory. New research will get us in that direction. Let me lay out for a few minutes today where this takes us as Congress is looking to change the Affordable Care Act. People have spoken ad nauseam about the problems with that act, how it has cost families a great deal, how it is supposed to be affordable but it is not, how premiums have gone up dramatically in double digits and triple digits over the last few years, how the deductibles and copays put it out of families' reach, and how it is not really a comprehensive approach because it does not stem the tide of increasing healthcare costs.

There are some specific reasons for that. As long as we have a system that is based on a fee-for-service model and as long as we have a system that does not put the patient at the center of this focus, we are going to continue to have problems with cost overruns and, quite frankly, care problems.

We have seen changes in the trajectory of improvements in reduction in mortality and morbidity. For example, over the last couple decades, we have seen a reduction in mortality rates for cancer, for heart disease, for stroke, for accidental deaths, for HIV/AIDS; but we have seen increases in mortality rates for suicide and also for drug overdose deaths.

This really means we need to be looking at a different kind of model, and that model is the integrated care model, the model where behavioral medicine and physical medicine work together.

Why is that important?

We know that 75 percent of the people with a severe mental illness will have some other chronic illness like heart disease, lung disease, diabetes, infectious disease; and 50 percent of

them have at least two chronic diseases; a third will have at least three. We know that a person with severe mental illness has triple the chance of moving into poverty, and we know that people in poverty have three times the rate of mental illness.

Beyond that, if we look at people who enter into using the medical field from the area of chronic illness, that perhaps the first diagnosis might be anything from cancer, inflammatory bowel disease, diabetes, et cetera, the chances of them developing a psychological problem such as depression, panic disorder, anxiety, is massive, twice the rate of the rest of the population.

This is where the costs begin to soar, because when a person recognizes they have this long-term problem with pain, with doctors' appointments, with disruption of their lifestyle, with immobility, with disability, et cetera, it is expected and it is common for them to develop other psychiatric disorders. But we have had a system that has ignored that.

What happens when we ignore that?

If a person has a chronic illness and depression, for example, untreated depression, it doubles. It doubles their healthcare costs. When there are models out there, however, that say let's integrate behavioral medicine and physical medicine so that a physician, being a coordinated care model, when they have a patient with one of those illnesses, a chronic illness, they begin to treat the whole patient, the patient-centered model, the team approach between the doctor and patient there.

□ 1830

What can it do? Well, I want to cite a study done by a young doctor by the name of Jeffrey Brenner, who was out in New Jersey.

You recognize that people with complex health and social issues have these high rates of going to emergency rooms. They are called super-utilizers. Medicaid points out that 5 percent of the people on Medicaid account for 50 percent of Medicaid spending and, I might add, virtually all of those are people who have a concurrent psychiatric disorder, such as depression.

But what Brenner did in his particular study is recognize that there were a number of people who had a huge number of visits to emergency rooms in a very costly way. He said, for example, nearly half of the city of Camden's 77,000 residents were visiting an emergency department annually, most often for head colds, viral infections, ear infections, and sore throats. Thirteen percent of the patients accounted for 80 percent of hospital costs, and 20 percent of the patients accounted for 90 percent of the costs.

What he looked at were models that police use called hot spotting—where are the areas of a city where you have a great deal of crime, and, instead of

avoiding those areas, the police would go in and work to prevent crime. Well, similarly, in Brenner's model, he looked at managing these patients' care instead of ignoring them. If you ignore them, they go to emergency rooms repeatedly.

Studies done, for example, at the University of Pittsburgh Medical Center with inflammatory bowel disease found when you ignore folks, they continue to go to emergency rooms. Over-utilizers of the system. And on a fee-for-service model, it is worth it for the doctor. They made a lot of money. Hospitals made money, as long as the people continued to come back.

But what was it that was driving people repeatedly to get this care at an emergency room, or expensive care, instead of doing something else? What Brenner did and other studies have found is that people could not access their primary care physician or their specialist, so that is where they would go for care. They would panic. Worry, anxiety, depression. They weren't managing their medication well. There are neurobiological things that take place in the system of someone with depression which makes them more prone toward other infections and viruses, et cetera.

What Brenner did was identified folks with a fairly complicated model here and developed a care management team where the goal is leaving patients with the ability to manage health care on their own. And how do they do that? By helping them see doctors more frequently.

The studies done with the inflammatory bowel disease clinic at the University of Pittsburgh did the same thing. They developed an integrative care team, including psychiatric and psychological consulting, to help the person deal with their pain, help them change their behavior patterns, and make sure they had easy access to the doctors, so even getting the doctor's cell phone number, email address, and respond within 72 hours for doctor visits.

What Brenner found, the first 36 patients had a total of 62 hospital emergency room visits per month before they began intervention. It dropped to 37 visits per month afterwards. Then they also found the hospital bill fell from a monthly average of \$1.2 million to just over \$500,000, savings that benefited State and Federal healthcare plans. Similar results have been found in other areas when this is targeted.

Now, we know the Affordable Care Act had some models of this, but the results have been somewhat equivocal because they haven't looked at these as closely and really worked with the patients as closely. But the point is this: Recognizing if we are going to get hold of the cost overruns with health care, it needs to be that integrated care model—behavioral and physical medicine working together—a coordinated

care model, where a primary care physician and/or the specialists are working to coordinate the patient's care instead of leaving them on their own, and, quite frankly, a capitated care model, where it is worth it financially for the physician and patient to work together, not to just say: Go to the hospital whenever you want; go to the emergency room whenever you want; but get the care you need, the time you need it, with the quality you need.

The Affordable Care Act started down this road, but it wasn't fully followed. But this bill we passed yesterday, and our hope is that the Senate passes next week, by moving forward on research; by making sure physicians get timely, quality information for what they should do; by making sure that it is disseminated to physicians, whether they are in urban downtown Manhattan or they are out in rural South Dakota, that through telemedicine they have access to the best decisionmaking; and by making sure that, through telehealth, which we funded in the Helping Families with Mental Health Crisis Act, no matter where physicians are in America, to have access to psychologists and psychiatrists and social workers and to integrate that care together, this is what makes a huge difference.

Children's Hospital of Pittsburgh did a study of when that behavioral health consultation is done during the pediatrician visit, when there is a warm handoff, right away the family meets the mental health professional, there is over a 90-percent followup for that patient with the doctor. When they are given a card and said to call another day, it plummets to less than half.

Similarly, look at the problems we face with opioid abuse in America. Last year, we had a death total of 47,000. We are reaching the point of the number of people who die from opioid substance abuse is reaching that of the level of our combat deaths during the entire Vietnam war. It is an embarrassing, shameful, and painful thing for our Nation to have, and that doesn't even include the many, many folks who still remain addicted.

But here is what happens with care for the addicted. Out of every 1,000 persons who has an addiction disorder, 900 will not seek care. Of the 100 who do seek care, 37 can't find it. It is not available in their community. Of the 63 who do seek care and find it, only 6 of them will find evidence-based care.

But what if we change that trajectory? What if we say as part of moving forward in our revision of the Affordable Care Act and making it really effective health care we made sure we integrated behavioral and physical medicine together?

A study done at the University of Michigan, I believe, or Michigan State—I have to make sure I get those right because I know Chairman UPTON

would not forgive me, but let's say it was done in Michigan—they did a fascinating study where they made sure when someone came to the emergency room with a drug overdose, they didn't do the typical thing and hand someone a card and say: you know, you have a drug problem; you need to go get help. In those cases, many times the vast majority of people don't follow up.

Instead, what they did is they provided qualified drug counseling in the emergency room. From the same model, if a person had a broken arm, the hospital would set it before they went home. They wouldn't say: here is a card; call an orthopedic surgeon on Monday and get that arm set. If a person came in with chest pains, they wouldn't say: why don't you make an appointment in a week or two with a cardiologist. They would treat it right away. Well, the same thing goes with psychiatric disorders and drug abuse.

What Michigan found in their study and replicated in other communities is there was a 50-percent increase of people following through on drug treatment.

So look at the things that are done. The bill we passed yesterday also invests hundreds of millions of dollars into more effective treatment for people with a substance abuse problem. It isn't enough just to have them in methadone maintenance or buprenorphine programs. Those will not be as effective. You have got to get them into effective counseling programs.

So what we see is this: The bipartisan efforts that have worked through here and have made some big differences in where we are going with research and care will set us on a strong trajectory to making a big difference as this Congress and the new President work to change the Affordable Care Act to really being affordable and really being care-focused.

That being said, we will still have, tragically, too many stories while we are waiting to get that care out there. We will still have too many episodes: a homicide, or a suicide, or a drug overdose death, or someone has lost their job, or a marriage is broken up, or families who have been abandoned by someone else, or children who are lost, or those who are homeless. It continues on as long as we are not properly addressing the issues of mental illness in America.

I tell you, even though we have those long, somber moments of sadness, there is some joy in what this House did yesterday in this strong, bipartisan, coordinated effort to say we are changing the direction of how we recognize mental health care, what we are going to do about that, and how that has to be an integral component as we move forward to change health overall. We can do this. We can reduce costs dramatically by providing better and more effective care.

So for all those families who have been contacting us Members of Congress, literally the millions of Americans who are suffering from these diseases of mental illness and the tens of millions of families who recognize the suffering there, help is on its way. The actions that Congress took yesterday, the actions that we anticipate the Senate will take next week, the signature of the President will move these things forward. We will create a new dawn, a brighter horizon for people who, up to this point, had very little hope of where things are.

We know we have a long way to go, and we know this next Congress, as we move into the next session next year, is going to have their hands full, but we can do this. And I know there are dedicated people here on both sides of the aisle just waiting and eager to make a big difference for America's families. And where there is help, there is hope.

Mr. MULLIN. Mr. Speaker, as you can see, the gentleman from Pennsylvania is extremely passionate about this. He has been the leader and a voice for mental illness for my entire time that I have been up here, which hasn't been that long—only 4 years—but we appreciate his passion and his dedication to this.

Unfortunately, mental illness isn't going away. It is becoming more of a problem. And we, as Members of Congress, are going to have to address this. I look forward to continuing to work with the chairman on this.

Yesterday was a step in the right direction, but we have a long way to go. We are in this fight, and we are in this fight together. I couldn't imagine being with anyone better than the gentleman from Pennsylvania. So I thank him for his dedication.

Mr. Speaker, I yield to the gentlewoman from Indiana (Mrs. BROOKS).

Mrs. BROOKS of Indiana. Before the chairman of our committee steps away, I just want to acknowledge the leadership that Congressman MURPHY of Pennsylvania has given to this issue—an issue that so many Members of Congress haven't talked about enough until he began talking about it.

I want to thank the gentleman from Oklahoma (Mr. MULLIN), for leading this Special Order. We have heard from our constituents, and we know families where 1 in 4 adults—a total of 61.5 million Americans—will struggle with mental illness in any given year. While the numbers are staggering—and certainly, my colleague from Pennsylvania knows the numbers and statistics better than maybe this Chamber combined—they don't actually tell the deeply personal and typically painful stories that this disease inflicts on those it touches, their friends, neighbors, and families.

Whether it was Columbine, Aurora, or Sandy Hook, time and time again,

tragedies have left our communities devastated and reeling, wondering if our fellow citizens could have been spared the violence and bloodshed had we simply been able to see the signs of mental illness.

Many lessons followed in the wake of all of these tragedies, but chief among them always came out the fact that our mental health system is broken: we are unable to fully recognize the signs and symptoms of an individual suffering from mental illness; we often don't have the resources to help these individuals and their families; and we have very limited mental health workforce, which is overwhelmed and often underprepared for the vast challenges they face day in and day out.

Mental illness is sometimes referred to as an invisible illness. However, just because you can't see the illness, it doesn't mean it isn't there. It is a serious disease, and in order to make any progress in more effectively identifying it, we must begin to recognize it as such.

Before the end of this year, we have a chance to make the first major mental health reforms this country has seen in over 50 years. And I am very proud to stand with the gentleman from Pennsylvania in support of his years of tireless work to bring to the forefront this health crisis we are facing in America—a crisis often pushed to the side because it may be too difficult or too uncomfortable to talk about. I applaud his efforts and the efforts of so many from our committee, particularly the staff, who have made it possible to work to include these important reforms to our mental health system in the critical 21st Century Cures bill that passed the House last night overwhelmingly.

Right now, our medical system does not allow families of those suffering from mental illness to become true partners in their care. The language in our bill takes significant steps toward easing these barriers and making sure that people struggling with mental illness will have more access to the care and treatment that they need.

Our prisons and emergency rooms have become de facto psychiatric treatment centers and are overcrowded with individuals suffering from mental illness; however, we have learned over the years we cannot simply arrest away this problem. I am pleased that there are reforms to the way our criminal justice system handles individuals with mental illness. As someone who has worked in the criminal justice system most of my career, I can assess that such support is long overdue and so very necessary.

One of the greatest issues with our mental health system is there is a critical shortage, as Dr. Murphy just mentioned, in our mental health workforce. This effort contains significant measures to train and expand this critically important workforce.

□ 1845

These are simply a few of the important reforms included in 21st Century Cures which, above all else, sets a new and higher standard for mental health care and treatment in America.

Once again, I applaud Congressman MURPHY's incredible work to fix our broken mental health care system. I am proud to have supported this effort throughout the legislative process and look to the Senate to now take up the 21st Century Cures and bring relief to the individuals and families across America who need it the most.

Mr. MULLIN. Mr. Speaker, it is always an honor to have people that are willing to come down and share their time and their passion with us, so I would like to thank my colleague from Indiana for laying it out in such an eloquent form like she always does.

Also, congratulations on the committee assignment. I don't know if I wish the gentlewoman good luck or not.

Mr. Speaker, at this time I yield to the gentleman from Illinois (Mr. DOLD).

Mr. DOLD. Mr. Speaker, I want to thank my friend from Oklahoma for yielding on what is an incredibly important topic.

I also want to weigh in and thank my good friend, Dr. TIM MURPHY, for his incredible work on a really comprehensive piece of mental health legislation. I want to not only congratulate him, I want to thank him for successfully shepherding this first real piece of mental health legislation, honestly, since 1962. It is now up to the Senate to move this forward.

I am pleased to be here as not only an original cosponsor, but helped introduce the Helping Families in Mental Health Crisis Act, which was now attached to this recent 21st Century Cures bill, another bill that I am proud to not only stand up and support.

As we look at cures, as we look at what we are doing, we see so much tension across our country today. We just got done with a national election, and, frankly, it seems as people are at each others' throats. And the one thing that we can agree on, I hope, regardless of whom you voted for, we should all be on the same page that we want 21st Century Cures to move forward; because, frankly, as we look at the number of people that are suffering from diabetes, Alzheimer's, Parkinson's, and the like, they don't care what political persuasion you are. They are just impacting families all across our country.

Another huge piece of that is mental health; and as we look at mental health, there is no question, family after family, an enormous number of people, nearly 10 million Americans, suffer from a serious mental health issue, including schizophrenia, bipolar disorder, major depression, amongst others. Yet millions of these people are

going without treatment, and their families are struggling to care for them each and every day.

We need to talk about treatment. Treatment before tragedy is something that I know has been talked about time and again.

The Federal Government currently dedicates about \$130 billion towards 112 programs intended to address mental health, but there is still a nationwide shortage of nearly 100,000 beds needed for psychiatric care and only one child and adolescent psychiatrist for every 2,000 children with a mental health disorder. Frankly, that is just unacceptable.

My constituents have come to me time and again demanding that we do better. The Filler Foundation comes to mind as something that we have to do because, again, as we look at mental health, one of the things that we know is tied to that is this incredible epidemic of prescription drugs and opiates that are really just impacting every single community across our country. Ultimately, we know that this mental health disorder is a huge part of that, as people are trying to self-medicate, and so people are overdosing and dying on a regular basis.

Ultimately, this bill that we are talking about today helps and now allows those families to give better care, be better informed, so that parents or caregivers can actually play a more vital role.

In July, we passed the Helping Families in Mental Health Crisis Act, 422-2. And just recently, this other bill that we just passed, the 21st Century Cures, that included this mental health legislation, passed with enormous bipartisan support right here in this body. It is time that the Senate take up this legislation and pass it.

I am confident that the incredible providers that are in my district, the families who are in need that have been asking for help, will benefit from the many grants that we reauthorized, the updates that we have made to improve communication between the patients, the families, and the providers, and the steps that we took to ensure that insurance providers are complying with existing mental health parity laws.

Over the past 2 years, Dr. Murphy's efforts have engaged Democrats and Republicans from every region of the country. Just a few short months ago, and I am sure—I don't know if he was in Oklahoma with my good friend, but I know he came out to my district. We had a roundtable talking about mental health issues. We went and visited some of the facilities together to talk about the real needs that are out there. Ultimately, we know that mental health impacts so many families across our country.

I would venture to say, Mr. Speaker, that not a single Member in this body has not been impacted in some way,

shape, or form, by a loved one, a friend, a family member that is suffering from some sort of mental illness. So I believe that we have an incredible opportunity here.

Ultimately, when I go out and I talk to people—and I know my good friend, I am sure, has done the same—they say: Is Congress working? And the answer oftentimes is no. But I do think that we have to step back and take a look at what we can accomplish when we actually do come together.

Something that we all should be proud of is the fact that we were able to move forward in this body to talk about not only 21st Century Cures, talking about funding for the National Institutes of Health, talking about trying to deal with some of the prescription drug and opiate epidemics, but really trying to tackle head-on the issue of mental health and the impacts that this has for our Nation.

So I want to thank my good friend from Oklahoma for organizing this Special Order. I want to thank, obviously, my good friend, Dr. MURPHY, for the great work that he has been doing for years on this.

And I do want to make sure that the American people know that today we took a big step forward and, honestly, we are not going to rest until this is signed into law by the President and really enabling so many families to get a tremendous amount of relief.

Mr. MULLIN. I thank the gentleman for his service. My good friend from Illinois is going to be missed. His service has been something we can all hold in great respect. I am going to miss seeing him in the morning at our workout, but he has influenced us in a better way. If we can always leave where we have been better than we found it, that is a legacy we can all walk with. I thank the gentleman for his service, and I hope our friendship will continue.

Mr. Speaker, as my friend from Illinois was saying about the opioid addiction, I want to point out a sad statistic. Oklahoma is ranked 28th in population throughout the country, and yet we had the 10th highest—10th highest—accidental opioid overdose deaths. We have more accidental drug overdose deaths caused by painkiller addictions than vehicle accidents in the State of Oklahoma.

And these aren't from the young who may be going through a time of experimenting. This isn't from the elderly who may not understand the prescription which they are taking. This is coming from our mothers. Our number one—number one—individual that is losing their life to opioid overdose is our middle-aged mothers. There is a problem.

The 21st Century Cures does address this, but just the same as mental health, it is a first step in the right direction.

Mr. Speaker, at this time I yield to the gentleman from Pennsylvania (Mr.

PERRY), another good friend of mine, a true patriot to this country, one who has years and years of service. I have a tremendous amount of respect for him.

Mr. PERRY. Mr. Speaker, I thank the gentleman, my friend from the great State of Oklahoma. I am privileged to have visited not only his State, but his district, and met the fabulous and wonderful people there, and they are lucky to have him representing them here.

You talk about that statistic, and I am here to talk specifically about mental illness, but this opioid epidemic has touched every single community. You don't have to live in the city. You don't have to live in underprivileged areas. I know very good friends that it has wracked their families, and it has wracked our communities.

Certainly, one of the great things about the 21st Century Cures Act is the help that is on the way. It is probably not going to be enough, but we need to do everything we can, at least in making these first steps in wrapping our minds and our hands around this problem and getting to a solution.

So I am thankful that the gentleman has taken the time to hold this Special Order, to bring that, as well as the other issues, up, and I appreciate that.

Mr. Speaker, I want to talk a little bit about the mental health situation in our country, and I think the gentleman has alluded to much of it in his conversation.

Mr. Speaker, more than 11 million Americans suffer from severe schizophrenia, bipolar disorder, and major depression, yet millions—literally millions—are going without any treatment whatsoever. And families, these families are struggling to care for these people.

You have a broken arm or some physical malady, you can see that and you can get to a cure in many, many cases. But these mental illnesses vex us, where your loved one is fine one moment and the next moment is not, and you don't know when that is going to happen or the gravity of the situation, how bad it might be at any given moment. These are our loved ones. These are our family members and our neighbors.

The Federal Government's approach to mental health has been a chaotic patchwork of antiquated programs and ineffective policies spread across numerous bureaucratic agencies that simply don't get to the issue at hand, and I think we can all see that.

Sadly, many patients end up in the criminal justice system or are on the street because services are unavailable. I know that in the State that I reside in, the great State of Pennsylvania, years back, we closed our State hospitals where much of the care was given to these people, and they just ended up out on the street or back with their families, which often are cases

that their families just don't know what to do. They don't know how to handle it. They can't handle it.

Then these folks end up in the penal system, which is no place for people that justifiably are sick. They have an issue. They are sick. They are not criminals, but they are sick.

In the worst case scenarios, some individuals commit acts of violence. And every one of us has heard the stories and seen the film footage on the news of these acts of violence that can be directly attributable to mental illness.

Now, we should be able to feel safe in our homes, all of us, in our communities, and our hearts just break every single time a senseless act of violence occurs and we see that. And certainly, for parents, these tragedies, they hit especially close to home.

We need to remember that the beneficiaries of mental health treatment aren't only those directly treated for mental illness, but also our broader community when we see those things, those images on TV, because mental health treatment is a preventive measure to reducing acts of violence. It is a preventive measure. It actually stops those things from ever occurring if we get to it.

Now, I was an enthusiastic supporter and cosponsor of my colleague Congressman TIM MURPHY's Helping Families in Mental Health Crisis Act. He literally worked on it for years, and I watched him struggle through that. And that bill was actually included in the 21st Century Cures Act, which passed this very House last night.

This legislation coordinates programs across different agencies, those disparate agencies that don't seem to work with one another, where information is siloed. It coordinates that, those programs, and promotes effective evidence-based programs, evidence-based so we can get to solutions.

Just like most other things with the Federal Government, by removing Federal barriers to care, advancing early intervention programs, adding alternatives to institutionalization, and improving the transition from one level of care to another, we directly address our Nation's broken mental health care system, finally. Finally, a step in the right direction.

So, once again, I applaud and thank the gentleman from Oklahoma for allowing me this time and bringing this issue to the floor; and I urge my colleagues in the Senate to send this bill directly to the President's desk, absolutely, as soon as possible. We can't wait for another tragedy to occur where we are all watching on television the footage of something that could have been prevented and avoided.

Mr. MULLIN. Mr. Speaker, I thank my colleague from Pennsylvania for also being extremely passionate about moving in the right direction with mental health. It is something that we continue to look over.

As I stated when we first started to-night, we had an overwhelming amount of bipartisan support on passing the 21st Century Cures Act. We could see that the hard work that the staff over in the Energy and Commerce Committee, on both sides, the Republican staff and the Democratic staff, worked together to come up with a bipartisan bill to make sure that we are putting our families first, that we are putting our constituents first.

□ 1900

We are setting aside the partisanship that often finds its way inside our conversations. We set it aside and actually were very proactive on a very important piece of legislation.

I would like to thank Chairman MURPHY, with his passion on mental health, and our outgoing chairman, Mr. FRED UPTON, who has dedicated his years of service to the betterment of our constituents and his passion for fighting this and seeing this through. I would like to thank him for his dedication. The gentleman will be missed as our chairman.

Mr. Speaker, I see no other speakers at this time. I yield back the balance of my time.

#### CELEBRATING THE DREAMERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentleman from Texas (Mr. O'ROURKE) is recognized for 60 minutes as the designee of the minority leader.

#### GENERAL LEAVE

Mr. O'ROURKE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of this Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. O'ROURKE. Mr. Speaker, I rise today to share the stories of and celebrate the DREAMers who live in our communities, mine in El Paso, Texas, and nearly every single community across the great United States.

All together, we estimate there are close to 750,000 DREAMers in the United States. These are beneficiaries of an executive action under this President, known as the Deferred Action for Childhood Arrivals, that ensured that young people in our communities who arrived in this country at a very early age, brought here by their parents from another country of origin, who are going to school, living by our laws, being productive and net contributors to their communities, and who, in some cases, strive to serve in the military or perform some other community or civic service, are able to reside in this country after they come forward

voluntarily out of the shadows to give their personal information, their fingerprints, their contact information, their names, their addresses, and their telephone numbers, in other words, to register with the government so that we know who is in this country and satisfy some legitimate security concerns that we have when it comes to undocumented immigration. So these young DREAMers have satisfied those concerns by coming forward.

This temporary reprieve from deportation allows them to continue to live in our communities, to continue to be our neighbors, to continue to make this country great, and to make cities like El Paso the safe and wonderful communities that they are. It is no accident that El Paso has more than its fair share of DREAMers and also is the safest city not just along the U.S.-Mexico border, it is the safest city not just in the State of Texas, but it is the safest city in the United States today.

The urgency behind our actions today lies with the commitment from the President-elect to immediately terminate the current President's executive actions when it comes to these DREAMers. This commitment to terminate this action will also terminate any certainty these young people have. It will reduce the security of our communities when young people no longer feel comfortable approaching or working with law enforcement for fear of deportation; and it produces extreme anxiety and fear that I can only begin to imagine for myself or for my kids if I knew that I had given all of my personal identifiable information, including the address at which I reside, my telephone number, and the names of my parents, to the Federal Government which now may have a policy to immediately deport me back to the country of origin and, if I were, as a typical DREAMer might be, 20 years old and attending the University of Texas in El Paso, may have lived in El Paso for the majority of my life. I may have come over at the age of 3, and for the last 17 years, the only life I knew was in the United States; the only city I knew was in El Paso, Texas; the only language I spoke was English. I had no family, no connections, no place in my country of original origin, and I didn't speak the language. Then I would be unable to thrive.

I think for some of these young people, they question whether they will have the ability to survive. I think it is really that critical, and it is very important that we remind ourselves, the rest of the country, and certainly our colleagues here in the House of the gravity of the situation.

Beyond the moral imperative, which I think is the most important, there is also an economic dynamic to this. The Department of Commerce estimates that the DREAMers, these 750,000-strong DREAMers who are contrib-

uting every single day in our communities, going to our high schools and making our country better, that over their lifetimes in the United States they will earn up to \$4 trillion of taxable income—taxable income that will allow the community they live in to flourish, to thrive, to enrich those that they hire and work with, and to add significantly to the Federal Treasury.

That is just one point in terms of the economic advantage of creating additional certainty and, at a minimum, not forcibly removing these DREAMers or terminating the protection under which they currently reside.

Before I yield to my colleagues to share their stories about the DREAMers in their communities—and, again, they are in every single State of the Union and almost every community in every one of those States—I thought I would share the story of one of the DREAMers that I met this Monday in El Paso, Texas, when I held a townhall on short notice, a few days' notice to my constituents over Facebook and Twitter and published in the newspaper.

More than 300 El Pasoans showed up to share their stories of how they came to this country and what they are now doing in our communities. What was even more impressive and poignant for me and many in the audience that night were the U.S. citizens in El Paso who showed up to stand in solidarity and in strength with these DREAMers and to let them know that, come what may, whatever executive actions are terminated, whatever necessary immigration reform laws are not enacted, that we as a community in El Paso, Texas, are going to stand with these DREAMers, make sure that they are successful, and make sure that they have nothing to fear going forward.

One of these DREAMers that had the courage to stand up and be counted on Monday night was Estefania Garcia Ruvalcaba. She is 17 years old. She arrived in the United States in El Paso, Texas, which has served as the Ellis Island for much of the Western Hemisphere, at the age of 3 years old. I ask you to tell me what 3-year-old understands concepts like citizenship or nationality.

She doesn't speak the Spanish language anymore that she barely knew at the age of 3. She only speaks English. She is a junior at Del Valle High School in El Paso. She is captain of the soccer team. She is on the student council. She is the press box manager, and so she is earning a little bit of money to be able to take home at the end of the day and help out; and she goes to every single football game to be able to support the hometown and home high school team. On top of that, she runs on the cross-country team.

My 8-year-old daughter, Molly O'Rourke, has an example in Estefania. I want Molly to be able to do all those

things. I am proud of Estefania. She is part of what makes El Paso such a wonderful place to live and what makes me so proud to represent the community and helps us, again, stay the safest city in America, bar none.

There are 750,000-plus Estefanias who have come forward to register with their government to make sure that we know that they are in our communities to defer the action that otherwise would deport them back to their countries of origin and to make this country successful.

At this time, I yield to a good friend and colleague from the great State of Texas, who understands these issues just as well as anyone, who has thousands of DREAMers in his community, and whom I am so grateful to for being here tonight.

Mr. Speaker, I yield to the gentleman from Texas (Mr. CASTRO).

Mr. CASTRO of Texas. I thank Congressman O'ROURKE. I thank the gentleman for all of his work on behalf of these DREAMers, these young students who were brought to the United States through no fault of their own. They have grown up here, many of them knowing no other life except an American life.

President Obama, during his term, was so good to issue an executive action known as DACA to give these folks who were in a legal limbo a chance to participate in American society. So many of them have gone on and are doing great things. DACA allows them to work, to go to school, and, most of all, to not have to live in fear, not have to live in fear of deportation.

As you mentioned, many of these folks are people who were brought here at the age of 3 or 5 or 9 and had no choice about coming. Some of them didn't even realize that they were not American citizens until they had to apply to college or try to get a driver's license or in some other way interact with the government.

There has been a lot of rhetoric over the past few years about immigrants. They have been called rapists, murderers, and criminals. There is so much of that kind of rhetoric that is used when people talk about the border, for example, and even the people that live in our border cities, whether it is El Paso or San Diego or McAllen, Texas. My wife is from the Rio Grande Valley, where you have a high concentration of DREAMers, for example. Sometimes, in all of that rhetoric and ugliness, there is a profound misunderstanding about who these people are. So I thank the gentleman for helping to highlight their stories and, really, for the country, to put a human face to these folks who are good people.

I will tell you, because I know other Members have stories of DREAMers in their districts, just a quick story about somebody from San Antonio, a young man named Eric Balderas. His story was in the news in the last few years.

Eric was the valedictorian in 2009 of Highlands High School. He was number one in his class at Highlands High School, and he was on the academic decathlon team, student council, and even played varsity soccer. He also received a full scholarship to Harvard University.

While returning to Harvard in 2010 to complete summer research in molecular biology, Eric was detained at the San Antonio International Airport for traveling without acceptable identification. After efforts from Senator DURBIN and the Harvard University president, U.S. Citizenship and Immigration Services was able to grant him deferred action status. Eric's story, so far, has had a happy ending. He graduated from Harvard in 2013.

There have been other folks who have achieved just as much, who are productive members of our country and our society, but oftentimes they are maligned, and they are often misunderstood.

Right now, we are at a critical moment in our country's history. There is a question hanging over the Nation about how we will treat these DREAMers, these young students, these young people, again, who find themselves in legal limbo, who are as American as we are, and who have only known America as their homeland. There is a big question about what will happen with them.

The President-elect has talked about getting rid of DACA early on, perhaps on the first day in office. So, as I am sure you found, there is a lot of anxiety from these young people and also their families about what is going to happen to them. They have played by the rules; they are being productive; they are working hard; they are going to school; they are paying their taxes; and they are living as Americans.

This will be a real test for the Congress, for the President-elect, who, on January 20, will be the new President, and, really, for the Nation about what kind of nation we are. This really tugs at our conscience.

When we think about some of the rhetoric that has been used—some people call them criminals. They say that they broke the law. I think when I hear that, as an attorney, I think about the different legal standards that we apply in criminal cases. For example, there is something known as mens rea, state of mind. Often when you are charged with a crime, a jury or a judge asks: Did you intend to do what you did? Did you know what you were doing?

Even in our civil cases when we think about the negligence standard, there is still a question about whether somebody was indifferent to what they were doing. Well, in this case, these young people had no idea what was going on. They had no participation in even coming to the United States, but they find themselves here as Americans.

□ 1915

I hope that our Nation and this Congress and the next President will be big enough, will be gracious enough, will respect their humanity, do the right thing, and make sure that they are protected under the law.

First of all, thank you for holding your town hall, which may have been the first one in this season after the election. We are going to have one in San Antonio on December 11, which is a Sunday, with State Representative Diego Bernal, who really helped organize it and spearhead it; Congressman LLOYD DOGGETT, who also represents part of San Antonio; State Senator Jose Menendez.

There are also other Members who I know are going to hold similar town halls in their cities. I will read off just a few of them because I think it is important to acknowledge that work:

PETE AGUILAR in San Bernardino, California; TONY CÁRDENAS in Los Angeles, California; RUBEN GALLEGOS in Phoenix, Arizona; RAÚL GRIJALVA in Tucson, Arizona; MICHELLE LUJAN GRISHAM in New Mexico; and RAUL RUIZ, who has a district in southern California. I know that there are others that are being scheduled.

I think all of this work is so important because when we talk about DACA, we are not talking about a piece of legislation that is going to take months to come through the House of Representatives and the Senate. This is something, a decision, that the new President on January 20 can make a decision to do away with it completely and to subject these kids to deportation, often to a country that they have never known, that they have no recollection of being a part of or growing up in. This really is a moral question, as you mentioned, for the country that pulls at our conscience.

Thank you for all your work.

Mr. O'ROURKE. Mr. Speaker, I can't thank the gentleman from Texas (Mr. CASTRO) enough for taking the time to be here for his leadership on this issue. Not just after this election, and not just since he has been in the House of Representatives, but really his whole life has been exemplary in his advocacy for the most vulnerable amongst us in ensuring the truth about the story of these young people who come to our country.

It is not simply a matter of sympathy—although, I sympathize with their situation—it is also a matter of our self-interest as a country. As we continue to look for ways to become a stronger and better country, so much of that lies with those who have made the very difficult choice to come here and contribute to our success and contribute to the American Dream. I am grateful to you for continuing to advocate for them and to share those stories with the rest of the country.

Mr. Speaker, I yield to the gentleman from the State of Massachusetts (Mr.

KENNEDY), another very good friend from a State that has known its share of amazing stories of immigration and seeing those immigrants flourish and become the best of us in this country.

Mr. KENNEDY. Mr. Speaker, I thank Congressman O'ROURKE for yielding and for organizing this critical Special Order.

Most importantly, thank you for your fierce advocacy for people of your district, for people of our country, for immigrants, and for DREAMers.

Let me begin by echoing your comments and that of our colleague, Mr. CASTRO's, as well. The stories that you both have shared underscore the urgency that we face in protecting these children and young adults from deportation under the next administration.

Tonight, right now, there are high school seniors across our country writing college essays, compiling recommendations, and filling out applications who are not sure if they will be allowed to stay in this country when it comes time to enroll in classes.

There are elementary and middle school students that are working diligently on their homework because, one day, they want to pursue a college education or work in their communities, but now they are not sure if that day will come.

There are young professionals working in our factories, teaching in our schools, volunteering in our neighborhoods, or even preparing to join the military that are going to sleep tonight worried that, when the calendar strikes 2017, the only life that they have ever known might be shattered.

All of these children, these young people, all 740,000 of them, they are our future. They put their trust in us, their government, in our promise to protect them if they stepped out of the shadows.

Today, that faith is frayed. It is our responsibility, all of ours, as this body, to commit to them that the only country that they know will not wash away their contributions, those that they have made, and send them to an unfamiliar land; because they believe in the American Dream just as our ancestors did and as we do today; because they are DREAMers; because they are our neighbors, our friends, our classmates, our community, and so much more; because they are countrymen.

Down this hallway in the Senate, a few of our Republican colleagues have already started on legislation to protect DACA beneficiaries. In order to lift the cloud of doubt for thousands in our country, fighting for their rights must be our priority today and every day until we succeed.

Congressman O'ROURKE, Congressman CASTRO, and my colleagues gathered here with us this evening, thank you for your work, thank you for your passion, thank you for your commitment. I know that we are on the right

side of this fight when I see all of you standing here.

Mr. O'ROURKE. Mr. Speaker, I thank the gentleman from Massachusetts (Mr. KENNEDY) for his eloquence on this and for his empathy in allowing us to try to think about what it must feel like to be working on that finals paper or that homework assignment in high school or at community college or at one of our great universities and not know if at the start of next semester you will find yourself in another country, in a place that is now strange to you, with a language that you don't speak.

When we think about this, when we think about these mass deportations, literally using the information that these young people and their families came forward with to register under the DACA program, and then using that against them after they voluntarily came forward, to find out where they live, pick them up, process them, deport them back to their country of origin, beyond the incalculable emotional human psychological toll, beyond what that would do to the conscience of this country, look at what it would cost us in financial terms. We would lose 2 to 2.6 percent of our GDP. We would lose nearly \$5 trillion over the next 10 years, and government receipts on the trillions of dollars that these DREAMers would otherwise earn would also be gone with those DREAMers—nearly \$900 billion that we would lose from the United States Treasury.

We would lose young Americans like the one who is pictured next to me, David Gamez, who is now 20 years old and who joined us Monday at our town hall in El Paso, Texas, one of these brave young El Pasoans, young Americans, who had the courage to come forward, and shared with us at that town hall that he came to this country at the age of 10. He came from Mexico City. He immediately applied himself, learned English, rose to the top of the ranks in his high school classes, took AP courses, is now a member of the STEM club at the El Paso Community College, and is pursuing a career in electrical engineering. He is an artist, he loves to draw, he loves to paint, and he wants to be an innovator. His heroes are all American heroes. His heroes are Elon Musk, Bill Gates, and Larry Ellison, those people who are contributing to our country, creating jobs, innovating, creating, growing this economy. That is what David wants to do. That is what he will do if he is able to stay in this country.

I think it is so important for us to give David the certainty and, also at the same time, not to provoke anxiety and fear that will cause him to lose this opportunity, to lose his way, and for us to lose out on all the amazing things that he can create.

Mr. Speaker, I yield to the gentleman from Nevada (Ms. TITUS), who I

have the pleasure of sitting with on the Veterans' Affairs Committee and who, over the last 4 years, I have learned from because she is the most tireless champion for veterans. She is the most tireless champion for the LGBT community. She is often the most tireless champion for those who do not have a voice in our system or whose voice is not loud enough. So it is up to Ms. TITUS to amplify that voice and become their advocate.

Ms. TITUS. Mr. Speaker, I thank Congressman O'ROURKE for yielding. You are too kind in your compliments. I give them right back to you. We have worked together on many things, including veterans and public lands, and now this very pressing issue of what we can do to protect our DREAMers.

Since the election, my office has just been deluged by phone calls from the DACA recipients, those we call DREAMers, from their friends, and from their family. They are afraid. You can just hear the fear in their voice. They are just calling to ask questions: Will I be deported? Will my friends be deported? Will my family be separated? Will I lose my house? Will I lose my job? Will I lose my scholarship? Should I apply for DACA? Should I apply to renew DACA? Or should I just keep my head down and hope that they don't notice that I am here?

It just tears your heart out. That is one of the reasons that in my district, in Las Vegas, we held a round table, not a town hall. We started with those organizations who help DREAMers. We had Catholic charities; we had the university, UNLV; we had other institutions of higher education; we had the Latin Chamber; and we had the Mexican and the Salvadoran Consulate all gathered around the table because we don't know how to answer those questions. We wanted to be sure we were all on the same page, giving people the same advice, and reassuring them that whatever happens, we will be there for them. That helps a little, but still you want to be able to say: This is what you are facing.

I know I am not the only one getting these calls. They are coming from kitchens and living rooms and restaurants and stores and families all across this country, as you have heard from some of the other speakers here tonight. For our DREAMers and their families, this fear and anxiety will continue to grow. I am afraid they are just going to return to the shadows if we don't act soon to responsibly reform our immigration system.

Now, as yet, we have heard very little from the Trump transition team about what is actually going to happen to the DREAMers once President Obama leaves office.

Will they round up people and send them back? Will they build that wall?

We don't know. But what we do know is that Mr. SESSIONS has been appointed as Attorney General, who has a

very long record of opposing comprehensive immigration reform, actually railing against it; and that is not a very good sign.

After months of just disgraceful campaign rhetoric speeches that denigrate immigrants, Trump and his team now have to really deal with the gravity of the situation. I would suggest, to begin with, they should acquaint themselves with some of the young men and women who have been able to go to work, go to school, contribute to the tax base, contribute to society and our culture, like those that Mr. O'ROURKE mentioned, because they had that protection of DACA.

Instead of demoralizing and degrading them, they should take the time to learn about people like Brenda Romero. Brenda is a young DREAMer who interned in my office this past summer. She is one of 12,000 DREAMers in Nevada. She is not a rapist and she is not a drug dealer. She is a high school graduate and the first immigrant to be the student body president of a small college in my home State. She is now pursuing a law degree.

Brenda was brought to the United States from Mexico when she was just 2 years old. Like so many of the over 700,000 DREAMers, she didn't really have any choice in that decision. She has had a choice about her life, and she has made the most of it, like so, so many DREAMers, including another dreamer from Las Vegas who many of you have seen on television, an amazing national spokeswoman for this campaign for DREAMers, Astrid Silva.

□ 1930

They have contributed, and they inspire me. That is the reason I am joining the gentleman here tonight to talk about their stories, and they are the reason that I will continue to be on the front line—to fight to make this country a better place for them so they, in turn, can make it a better place for all of us.

I want you to go out and meet these people. I want you to sit down with them eye to eye. I call on all of my colleagues to do that. Hear their stories, and you will understand just how remarkable they are. They will make you feel very proud, and you will find that you have more in common with them and their families than you have apart.

We are not a country that should alienate immigrants. We are a country that is characterized by the Statue of Liberty: give me your tired, your poor, your hungry, those yearning to be free. Surely, we can't forget that kind of history and heritage that we have of welcoming immigrants with open arms. We are not a country that should be tearing families apart. As we stand here tonight on the floor of the House, I would just ask you to make that effort to get to know the DREAMers in your community. Hear their stories,

and I think you will agree with me just how remarkable they are.

So I thank the gentleman for letting me speak. Count on me to continue this fight. I think, if we can't get comprehensive immigration reform done in the short term, let's at least protect those DREAMers who already have that status so that they don't have to live in fear.

Mr. O'ROURKE. I thank the gentleman from Nevada for sharing these personal stories of the people in her community who inspire her. It is these stories of courage that the gentlewoman just recounted and that I have been trying to share about the young DREAMers in my community of El Paso that were the impetus for our coming together this evening and sharing with our colleagues and the people of this country the truth about a group of very special young people who are too often misunderstood, if not outright maligned; so I am grateful to the gentlewoman for her efforts to improve our understanding of this very special group of people.

When I am thinking about these courageous, young people whom I have been introducing you to tonight from the city of El Paso who happen to have come to this country, to my city, from another country at a very tender age—be it 3, be it 5, be it 7 years old—now, as they are in their teens and in their early twenties, we find them to be flourishing and inspiring us.

I want to share a story that goes back a few generations as I introduce the next Member who will speak. That is the story of Mildred Parish Tutt, who in El Paso, Texas, in 1955, after having graduated from Douglass High School—a segregated, all-Black institution in my community of El Paso, Texas—had the audacity to apply for enrollment at Texas Western College, now known as the University of Texas at El Paso, and her application was rejected solely based on her race.

Mildred and her friend Thelma White and a few other students who were denied enrollment teamed up, and, with the help of the NAACP and an attorney named Thurgood Marshall, they took this issue and their aspiration and this case to a Federal court. Thanks to the wisdom and the judgment of our Federal judge at the time, R.E. Thomason, not only was it found that Texas Western's ban on African American students was unconstitutional, but his ruling and their effort and Mildred's courage effectively desegregated the institutions of higher learning in the State of Texas for every single Texan.

As I was sharing with some of our colleagues yesterday, as I was introducing my very good friend BARBARA LEE, this took incredible personal sacrifice. I can only imagine the difficulty that Mildred faced on that day; yet it was so incredibly important for this country. That is the kind of story that

we are telling today about these, again, courageous, special young people in our midst whom we want to continue to allow to flourish.

I want to, at this time, yield to the gentlewoman from California, BARBARA LEE, who has her roots deeply in the State of Texas at El Paso.

Ms. LEE. I thank the gentleman very much.

First of all, I thank Congressman O'ROURKE for lifting up my mother, who was a phenomenal woman, who passed away last year, and who broke many glass ceilings. I want to thank the gentleman for recognizing what a true shero she was; so I just had to tell you. I want to thank the gentleman also for his tireless advocacy on behalf of my hometown and the place of my birth, El Paso, Texas, on so many fronts but especially on behalf of immigrants.

I grew up in an immigrant community. I can tell you my mother, my grandfather, my sisters, and my brothers-in-law—everybody from El Paso—consider the gentleman our Representative, so I thank him very much. We are very proud of him.

Mr. Speaker, I attended St. Joseph's Elementary School on Waco Avenue, and we were taught that we must value the dignity of all human beings. I was taught by the Sisters of Loretto in El Paso. So now, in representing the beautiful East Bay of northern California, my values and what I learned from my mother and my grandfather and my parents in El Paso really drive me to continue our fight on behalf of our young people, on behalf of our DREAMers.

Four years ago, President Obama made history by announcing the Deferred Action for Childhood Arrivals program, DACA. This critical program provides—and this is just common-sense—humane protections for undocumented Americans, mind you, who were brought to our Nation as young children. Since the executive action, about 744,000 young people have benefited from this important program.

I am proud to say, though, that now one in three DREAMers in the United States is from my State of California. These are brilliant young people who deserve the chance to live the American Dream. DACA empowers young people and keeps families together even in the face of Republican inaction on comprehensive immigration reform.

This is an issue that is dear to my heart. As I said, I grew up in El Paso in an immigrant community; so I know no option. I mean, we have to protect our young people and keep families together. More than a quarter of the residents now in my congressional district were born outside of the United States. Tens of thousands of young people have benefited from the DACA program.

We sponsored a town meeting several weeks ago. Actually, it was sponsored

by Oakland Community Organizations, which is an affiliate of PICO. It was an amazing town meeting. Everyone participated. It was multiracial. It was held in the Catholic cathedral. There are several stories I would like to share, just very quickly, that we heard that night.

One DREAMer and DACA recipient—let's call her Amy—was born in Venezuela and immigrated to the United States as a child. DACA opened doors for Amy. She received her bachelor's degree at UCLA and then went on to obtain her law degree. This is really impressive. Through her hard work, Amy became the first DACA recipient to be admitted to the California bar. I am so proud of Amy. She has taken her skills and experiences to give back to our community. Today, she works at a nonprofit in the East Bay where she is an advocate for immigration reform and helps other young people benefit from the DACA program; but while she spends her days helping her community, she still lives in fear—in fear for her family, in fear for her friends, in fear of being deported at any moment.

I have another constituent—let's call him Gabriel—whom I met recently at the same event. Gabriel was born in Mexico and immigrated to the United States 10 years ago. Since then, he has used his voice to empower his community and advocate for immigrants. In high school, he started a local DREAMers club that advocates for the inclusion and advancement of undocumented students. He went on to attend UC Berkeley and was able to receive funds to cover most of his studies. Through DACA and State policies, he was able to afford the high cost of living in the Bay Area and receive a world-class education.

He and Amy show the incredible potential of our Nation's young people. Their determination to live the American Dream, to receive a quality education, and to help their communities was really unlocked through DACA. It is terrible to think of the dreams that would be destroyed by rolling back DACA now.

Time and time again, I hear stories like Gabriel's and Amy's—stories of families who are kept together because of DACA and of young people who are able to attend college and pursue these dreams. Now these young people are afraid. They fear that their families will be torn apart, that their parents may be deported, and that their American Dreams are truly in jeopardy.

We have always been a nation of immigrants. This is a history that we should be proud of; but, right now, we know that immigrants in my district, in El Paso, and all across our Nation are scared to death about what this next administration will bring. There are families who wake up in fear that, come January 21, their work or their school will be raided. There are

DREAMers who dread being forced to leave the country—the only country that they have ever known. This is morally wrong. The nuns who taught me at St. Joseph's would be shocked if they knew what was taking place now. We are better than this. These young people deserve better from our country, and they deserve better from this Congress.

Again, I am calling on my Republican colleagues to let us vote on bipartisan comprehensive immigration reform—legislation that will reunify families, that will grow our economy, and that will provide a clear pathway to citizenship. I know the gentleman and all of our colleagues are going to continue to fight for and to pass immigration reform and the DREAM Act; but, minimally, we have to protect our Nation's DREAMers, our immigrants, and all families.

I thank the gentleman again for his leadership. I thank him for inviting me to be with him tonight. Again, my family is very proud of him, our Congressman.

Mr. O'ROURKE. I thank the gentleman from California, and I thank her for continuing to cut the profile in courage in Congress and for her fierce advocacy on the issues that matter most. She continues to stand out as an example to me, and tonight is testimony to that; so I am grateful to her for being here.

I now want to yield to yet another good friend. It is an embarrassment of riches, in the Chamber this evening, to have so many talented Members who have decided to stand up with some of the best among us. In my opinion, the gentleman from Oregon, who in the 4 years that I have been here has taught me so much and much of that by example, is perfectly suited to share his experiences, those of the community he represents, and what he wants to see going forward for this great country.

I yield to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. I appreciate the gentleman's courtesy in permitting me to speak this evening and for his thoughtfulness in organizing this conversation and inviting others of our colleagues to come forward.

Mr. Speaker, I think it is so important to be able to put a human face on an issue that sometimes gets lost in the rhetoric. We have had a lot of rhetoric this last year. The fears that were stoked by the campaign with harsh words about immigrants, people of different religions, people who would be at risk of deportation, to maybe having a registry, having denial based on people's religions or what their perceived religions might be has sent shock waves, but it is nothing compared to what I have experienced in the days immediately after the election.

People who were apprehensive and concerned are terrified—children un-

sure about whether parents will be there when they come home from school, people who are concerned about whether they will be able to have employment. It is not just people who may not have their documents in order. This touches millions of Americans who are part of extended families, who are part of families in the workplace.

I was honored to be part of a fundraising event 2 weeks ago that was hosted by Oregon's wine industry. We came together in a lavish fundraising dinner and raised hundreds of thousands of dollars for the health care for the employees in their vineyards. Now, they are not asking about their documentation. They understand that there may be some who are questionable, but they are not seeking in terms of what people's histories are.

□ 1945

They have people here who have worked with them for years who are like family and who are connected to the community. The notion of sending these young people back, who, as you and our other colleagues have pointed out, came here as children—they didn't have any choice. What 4-year-old, 3-year-old, 2-year-old infant is making this perilous journey on their own? They were brought here. They were raised here.

Many of these young people, as you have already had testimony this evening, have had amazing records of success. They took the United States Government and its President at his word and came forward and took a little bit of a risk because they wanted to be part of the fabric of this country. They are in this situation, sadly, because of a failure of will by my Republican friends in the House.

As the gentleman knows, he was here when we had an opportunity to vote on comprehensive immigration reform that passed the Senate on a bipartisan basis. It wasn't a great bill, but it was an important step forward, on a bipartisan basis, that would have prevented some of this confusion, some of this pain, and some of this uncertainty.

If the Republican leadership had allowed it to come to the floor for a vote, they wouldn't have had to twist any arms. There would have been more than enough votes on both sides of the aisle to enact it. That failure of courage stoked part of this hateful campaign that we have all experienced and has kept these unfortunate people and their families and friends—whether they are citizens, employees, they're part of the community—under a cloud.

This is a failure of the House of Representatives that has created this situation. We should not, as a country, compound it by raising the specter of decent, hardworking, young people who are here through no act of their own, who have taken a step forward, a little

risk to try and integrate into our society, who are high performing.

I could give examples tonight of a young man who is completing his dental studies at the Oregon Health & Science University, a DREAMer who dreams big about serving his community as a professional dealing with dental health. There is a young woman who is a human resource professional at the largest school district in our State, who isn't just adding her competence, but is being able to provide opportunities to deal with some of the real serious human resource questions from first-line experience. We could all do this if we tried.

Representative O'ROURKE, I deeply appreciate your bringing this forward. I think it would be a tragedy if we were to punish people who took the President at his word, who put confidence in this Congress, to unwind this unfortunate situation. But I think it is important that all of us add our voices, that we connect with the people at home who are desperate, apprehensive, and vulnerable, to be able to make sure the American public knows what is at stake; because if we add our voices, our examples, and engage them, there is no doubt in my mind that there will be enough public pressure to prevent a tragedy of immense proportions.

Mr. O'ROURKE. Mr. Speaker, I am so grateful to the gentleman from Oregon (Mr. BLUMENAUER) and could not agree more forcefully with his words. In addition to these, again, inspiring examples of what the DREAMers mean to us as a country and what they mean to the gentleman personally, I also enjoyed hearing about how the community he represents is rallying around them and supporting them and ensuring that they know that they are not alone, despite the rhetoric, despite the changes that we might see in executive actions going forward.

I am also deeply appreciative of the gentleman's reminder that it is this institution that really has the opportunity, the responsibility, and the power to correct this. In these 4 years that I have had the pleasure of joining you here in the House, I know that both of us and dozens of our colleagues have tried mightily to do that, but, unfortunately, to no avail. That does not in any way damper my enthusiasm to do this. In fact, these stories that we are sharing tonight only cause me to want to redouble my efforts and work with you and our colleagues to make sure that we do everything we can and, beyond that, that we are ultimately effective and successful in setting this country, when it comes to our immigration laws and it comes to the lives of these 750,000 DREAMers, in the right direction. So I thank the gentleman for being here this evening.

One thing that the gentleman from Oregon said that really struck home—and helps me to introduce a very good

friend of mine from El Paso, Claudia Yoli—were his comments about family and the importance of family and how fundamental family is to our success.

So I ask those in the Chamber this evening to think about Claudia Yoli, who is pictured here, to my right, in front of the White House, perhaps in 2013 when she served as an intern in my congressional office here. She came to this country for the first time at the age of 8, from Venezuela, and has been nothing but exceptional to the community that she lives in, to the country that is now her home, and to those that she has worked with, including me and my office, and our State Senator Jose Rodriguez, for whom she works today. She showed courage in coming to our townhall on Monday evening, where she told us about all of this and then shared something that was so personally painful and tragic that it could only help me to understand truly what is at stake here.

In 2010, Claudia's mother traveled back to Venezuela. Because of Claudia's status, because she was a DREAMer and because of provisions within the Deferred Action for Childhood Arrivals, she was not able to go back to Venezuela with her mother. Unfortunately, last year, Claudia's mother passed away in Venezuela, and Claudia could not be there to comfort her mother in her dying days, nor could she be there for the funeral, nor could she be there with those family members who came together to grieve her mother's passing. Our inaction causes tremendous pain and suffering for those whom we have the power to help right now.

I yield at this point to the gentleman from Illinois (Mr. FOSTER), another colleague with whom I was elected in 2012.

Mr. FOSTER. Mr. Speaker, I am Congressman BILL FOSTER, and I am proud to represent the 11th District of Illinois.

In our district, we have vibrant immigrant communities from all over the world. I have met many DREAMers, both at home in Illinois and right here in the Halls of Congress. For many of them, the United States is the only country that they have ever called home.

Our district includes the diverse cities of Aurora, Bolingbrook, Joliet, and others. In Aurora, the East Aurora High School District 131 has one of the largest Naval Junior ROTCs in the world. Many of these young ROTC students come from immigrant families, and they dream one day of serving our country in the Armed Forces. You can see it in their faces during flag ceremonies, parades, and you can see the admiration of the younger children looking up to these ROTC DREAMers. Many of them are here because their parents dreamed of a better life for their children.

The DACA program has been incredibly successful. Over half a million

young people are currently enrolled in it. They are living examples of the American Dream, the idea that anyone could come here and have a fulfilling and prosperous life regardless of where you come from and where you live.

Instead of creating new opportunities for these great young people, Republicans in Congress have repeatedly voted to end the DACA program. We need to reform our outdated immigration laws and not double down on a broken system. As their Representatives, we should honor their patriotism and dedication to our country with support, not fear and degradation. It is a pretty simple proposition.

Mr. O'ROURKE. Mr. Speaker, I thank the gentleman from Illinois (Mr. FOSTER) for being here this evening, for standing up for some who, especially right now, feel that perhaps their government is not with them and perhaps these commitments that were made to them that engendered their trust, their willingness to come forward to share their personal information, their addresses, their identities, perhaps have been abandoned. Your presence here tonight, your words, I think, do much to show them that that is not the case and that there is still a chance in this country that we will do the right thing. I appreciate the gentleman from Illinois (Mr. FOSTER) for being here tonight.

Mr. Speaker, in closing, let me say that, whether it is these 750,000-plus DREAMers, these young Americans who, at a very tender age, were brought to this country by their parents or relatives and in every single way, except for citizenship, are no different than my three children or anyone else that I represent in the great City of El Paso, Texas—these DREAMers are going to high school, are serving in our Armed Forces, are attending our universities, are, in many respects, the future of our communities, of our country, who have so much to gain personally and so much to give back to this country. These DREAMers must be spared from any decisions that would break the trust that was created with them, that would force them back to their countries of origin, which they no longer know as home, whose language they no longer speak, where they no longer have family with whom they can reside.

Mr. Speaker, I think it is also important, on the larger subject of how we talk about those who are in our country from another country, that we remember a few facts. For example, the border that connects us with our country and neighbor to the south, Mexico, is as safe today as it has ever been. The community that I have the honor to represent and to serve, El Paso, Texas, which is conjoined with Ciudad Juarez to form the largest binational community anywhere in the world, is the safest city in the United States. It is

safe not in spite of, but precisely because of, our connection to Mexico, the Mexican immigrants, the Mexican Americans, and those who are in our community, documented or otherwise, that make El Paso such a tremendously safe, wonderful, thriving community.

We know that U.S. cities on the border with Mexico and U.S. cities with large immigrant populations are, in fact, far safer than the average U.S. city in the interior, be that in Kentucky, be that in Iowa. That is what we have to be proud of. That is what we need to share with the American public.

We also need them to know that immigrants, documented or otherwise—and including, especially, those who are undocumented—commit crimes, including violent crimes, at a far lower rate than do native-born U.S. citizens.

We need to remember that we have so much to be proud of, so much to be grateful for, so much to celebrate in the immigrants' story, especially these DREAMers who, right now, live in a period of uncertainty, fear, and anxiety. It is incumbent upon us in this Chamber to do what we must to change our laws to reflect our values and the reality in our communities and in our country. Mr. Speaker, I stand ready to work with any Member on either side of the aisle to do just that.

I want to thank my colleagues who joined me tonight to help drive home the very important point that everyone who is in our country that has registered with the government, that has come forward, that has applied successfully under the DACA program deserves to stay here and deserves our help to ensure our laws allow them to do that going forward.

I yield back the balance of my time.

Mr. VEASEY. Mr. Speaker, thank you to my colleague Mr. O'ROURKE for his work to highlight such an important issue.

Since November 9th, many of the immigrants in my district of Dallas-Fort Worth have been rightfully nervous about their future in the United States.

It is no secret where the President-Elect stands on immigration.

He has vowed to repeal the highly successful Deferred Action for Childhood Arrivals program, commonly known as DACA.

This move is wrong for America and for the immigrants whose lives have been forever changed by the program.

Since 2012, over 135,000 bright young Texans have successfully applied for the program.

It has been life changing for all those who qualified.

This has been especially true for one of my constituents, Erik.

Erik is a 27-year-old DACA recipient who immigrated to the United States from Mexico with his mother when he was just two years old.

Erik was unaware of his immigration status for the majority of his life until he reached a critical milestone at the age of 16.

When he asked his mother if he could apply for his driver's license, what normally would be an exciting event turned into a difficult conversation with his mother about his immigration status.

Erik was devastated because although he called the United States home, he would be unable to move forward with his life as he planned.

Once he graduated from high school, Erik knew that attending college would be a significant challenge—one he almost didn't take on.

He shared that he wasn't even sure college was the right decision because he was unsure that he could get a job after he graduated.

Yet, he persevered and graduated in 2011—but once again was confronted with the reality that his undocumented status created additional challenges.

Although he was college educated, Erik couldn't legally work in the United States.

But with the announcement of DACA in 2012, Erik had a ray of hope.

Finally, Erik could legally work and better participate in the country he's called home since the age of two.

Since successfully receiving DACA status, Erik has worked as a Store Systems Engineer at Rent-A-Car and has advocated for other undocumented immigrants.

Unfortunately, the newly found freedom Erik enjoyed under DACA is now in jeopardy.

Now, with just weeks away until the President-Elect is sworn into office, millions of DREAMERS are frightened they will be forced to return to the shadows or be targeted for deportation.

These young aspiring immigrants are already part of our communities.

They attend our schools, work alongside us, and live in our neighborhoods.

For Erik and the thousands of other DREAMERS across Texas, the revocation of DACA could mean returning to countries they haven't called home since they were children.

While we work to reform our broken immigration system, we must remember that the immigrants we speak of are just like us—they have hopes, dreams, and want to live a good life.

Like Erik, I believe that we need to move forward with immigration reform.

I believe we can do so in a way that keeps families together and benefits our country as a whole at the same time.

I stand here alongside my colleagues to remind our country's DREAMers that the fight isn't over.

Our fight here in Congress has just begun.

Ms. TITUS. Mr. Speaker, my office was overwhelmed with phone calls in the days following the election.

DACA recipients, their friends, and their family were afraid: Will I be deported, they asked. Will my cousin be deported? Will my friends be deported?

I know these questions were not just being uttered in Southern Nevada. People were asking them in living rooms, kitchens, restaurants, schools, and countless other places across the country.

For our DREAMers and their loved ones, the fear and anxiety will continue if we don't responsibly act to reform our broken immigration system.

Since the election we've heard very little from the incoming administration about what's actually going to happen once President Obama leaves office.

That is why I recently held an immigration advocacy roundtable with local community leaders like The Legal Aid Center of Southern Nevada, UNLV, the Latin Chamber of Commerce, and other local officials.

We wanted to let families know that despite the uncertainty, we are here to help them.

Together, we want to change the tone that we heard from Donald Trump during the election.

After months of disgraceful speeches about walls and deportations, Trump and his administration must now deal with the gravity of the situation.

It's time they acquaint themselves with the young men and women who have been able to work, go to school, contribute to the tax base, and live life without fear of being thrown out of the country they call home.

#### PROTESTS OF THE DAKOTA ACCESS PIPELINE

The SPEAKER pro tempore (Mr. DONOVAN). Under the Speaker's announced policy of January 6, 2015, the Chair recognizes the gentleman from North Dakota (Mr. CRAMER) for 30 minutes.

Mr. CRAMER. Mr. Speaker, I rise this evening to talk about the rule of law, the importance of enforcement of the rule of law, the importance of a government that stands for law and order.

I ask your indulgence, Mr. Speaker, as I begin my comments tonight by reading a resolution of support, a resolution that illustrates the position of a very important organization in my State of North Dakota, the North Dakota Veterans Coordinating Council.

□ 2000

It reads like this:

Whereas: The protests against the Dakota Access Pipeline have been going on for over 100 days in North Dakota.

Whereas: The protests have been conducted on public and private land without proper permission.

Whereas: The protests have not remained peaceful. In fact, the protesters have caused millions of dollars in damage. They have destroyed public and privately owned property, vehicles, and equipment to include heavy equipment and trucks owned by private contractors, at least two government trucks, cut privately owned fences, and slaughtered farm animals owned by private farms. Protesters have assaulted and thrown Molotov cocktails and hard objects at North Dakota law enforcement officers and military personnel who are sworn to keep the peace and protect North Dakota's citizens.

Whereas: Protesters have desecrated North Dakota State and Federal property, to include the North Dakota State Capitol and, yes, the North Dakota pillar of the World War II Monument right here in Washington, D.C., located at The National Mall.

Whereas: The protesters of the Dakota Access Pipeline in and around Standing Rock have desecrated the American flag by flying

it upside down, sewing emblems over the flag, and displaying emblems and non-U.S. flags in a dominant manner to the U.S. flag in violation of North Dakota Century Code.

Whereas: 95 percent of the protesters are not North Dakota citizens or Native Americans. Many are professional paid protesters unaware of the true understanding of the issues at hand.

Whereas: As former military members, we have all taken an oath to defend the Constitution of the United States against foreign and domestic enemies, the American flag, and our freedom. As veterans, we continue to support our military, law enforcement, and all of our constitutional rights we have fought for.

Whereas: As veterans of the U.S. military, we have fought for and maintained the rights of our citizens to peacefully protest. The protests in Standing Rock have not been peaceful and, therefore, violate the rights of those living peacefully around the protest site and threaten the sanctity and sustainability of our basic freedom of peaceful protests by crossing the line into unlawful activities.

Whereas: Individual veterans and veteran groups from outside of the State of North Dakota have reached out to North Dakota veterans and veterans service organizations for support in their plan to recruit veterans to assemble in North Dakota in support of the Standing Rock protest against the Dakota Access Pipeline.

Whereas: Veterans standing in a nonpeaceful protest against the Dakota Access Pipeline, will also be standing against North Dakota law enforcement, military, private and government entities, reflects poorly upon themselves, our veterans organizations, veterans as a whole, the State of North Dakota, and our country.

Therefore: Let it be the position of the North Dakota Veterans Coordinating Council made up of the North Dakota AMVETS, American Legion, Disabled American Veterans, Veterans of Foreign Wars, and the Vietnam Veterans of America adamantly oppose and condemn any veteran organization or persons representing themselves as U.S. military veterans who associate or involve themselves with the illegal activities which have occurred or take part in any unlawful or unbecoming conduct or assembly in protest to the Dakota Access Pipeline in North Dakota.

Mr. Speaker, I could never say it better than the men and women who have fought and who have been willing to die for our liberties. They have said it perfectly in this position in support of a legally permitted pipeline and in support of our law enforcement officers who have exercised tremendous restraint against violence thrown at them. I, for one, am tired, as are the vast majority of North Dakotans, of people from outside of our State with a political agenda who have co-opted the reasonable, peaceful protests that once began what has become a full-fledged riot.

Mr. Speaker, for more than 3 months, thousands of rioters disguising themselves as prayerful people, peaceful protesters, have illegally camped on Federal land owned or at least managed by the U.S. Army Corps of Engineers, owned by the taxpayers of this country. They have illegally camped on the shores of the Missouri River.

By the way, Mr. Speaker, if you and I decided to go for a walk on that same land and picked up a rock and threw it in the river, we would be fined by this government. But, oh, no, not antifossil fuel rioters. No, they are enabled; no, they are encouraged by our Federal Government, at least this current Administration.

Celebrities, bad actors; celebrities, political activists; and anti-oil extremists are blocking this pipeline's progress, and they are doing so based not on good information, not on the law, but rather on a leftwing political agenda. Oh, by the way, these celebrities and these rioters fly in on jet airplanes that are fueled by jet fuel that is refined from oil, in many cases Bakken oil; but let's ignore the irony and the hypocrisy for the moment.

North Dakotans like these veterans that I just read about have respected the rights of peaceful protesters, but this has gone way beyond that. It has become rioting, plain and simple. In fact, I think it is important to note, Mr. Speaker, that two Federal courts right here in the District of Columbia have upheld the legality of this pipeline. First, a D.C. Circuit district judge appointed by President Obama, I might add, denied a request for an injunction to stop this pipeline based on the fact that not only has the company and the Corps of Engineers and the North Dakota Public Service Commission met every letter of the law, but exceeded it, including, according to this judge's own opinion, exceeding the requirements for consultation with the sovereign tribes. The project developer and the Army Corps tried desperately to engage the Standing Rock Sioux tribe dozens of times, only to be rejected for more than 2 years.

Mr. Speaker, all that remains for the pipeline to be finished is an easement to begin the process and to finish the process of connecting this pipeline under the Missouri River in North Dakota, an easement that has been prepared and finished for months. Of course, the Obama administration rescinded a permit that had already been issued, a 408 permit to allow the pipeline to be built under this river. The same administration, by the way, who has gone to court to defend it. It is ironic, to say the least. It is chaos, to say the best.

At the center of this issue is an administration that refuses—not just refuses to follow the rule of law, but enables and encourages the breaking of the law, beginning with the fact that thousands of illegal protesters are allowed to camp, to trespass on federally owned land.

Now, if you allow somebody to illegally assemble, why would they not think that they should be allowed to burn property? Why would they not think they should be allowed to trespass on private land? Why would they

think they shouldn't be allowed to throw Molotov cocktails at police officers trying to protect innocent citizens? Why would they not think they could follow a police officer home and harass his family until they had to move out of their home, or follow a National Guard member to their apartment and then harass them at their apartment and force their family to leave, to spit on them? Why would they think they shouldn't be allowed to do that if the President of the United States says go ahead and trespass?

Never mind that this is a legally permitted pipeline. Let's just ignore that. Let's withdraw the permit that we have already issued, that we are defending in court. Why wouldn't they think that?

What has happened, Mr. Speaker, to virtue in this country?

When I see these protesters, rioters, criminals, thugs—yes, thugs; it is not a racial comment; it is just what you call people who are thugs—I look at them and I think, who is their mother? Where were they raised? How were they raised?

What has happened in this country when we stand here in this Chamber, in this assembly, in this town, and we hear some people, politicians, supposed leaders, talk about law enforcement as though they are the problem? What has happened that people have become confused about the difference between breaking the law and enforcing the law?

It is hard for North Dakotans to see that because we are not confused by that. We were raised by parents who told us what was right and what was wrong, who taught us to respect the legal system, to respect law enforcement officers. We have really respectable police officers in North Dakota, and we do throughout this country, because we have seen them come from multiple States. The National Sheriffs' Association has sent many officers. Other States and city police departments and counties have sent law enforcement officers to give some assistance to our overworked, overtaxed law enforcement officers right in North Dakota. We are tired of it.

Stay home, Jane Fonda; don't come back and deliver food, pretend that somehow you care and take off again in your private jet; unless you want to try to fly that jet on solar panels, then come on, we will take you.

You can't encourage illegal behavior and then wonder why there is violence, Mr. Speaker; and that is what our President has done.

Let's give a little background on this. I know a little bit about siting pipelines. I was a regulator for nearly 10 years. I have sited several of them. This 1,172-mile Dakota Access Pipeline will deliver as many as 570,000 barrels of Bakken crude oil every day to Patoeka, Illinois, and then to other markets

beyond. This is 570,000 barrels of oil that is currently being produced every single day. It is being transported now. It will always find its way to market. It is just that it is being transported by trains and trucks. Oh, those aren't as safe or as efficient or even as environmentally friendly ways to move oil as a safe pipeline is, especially one that is going to be buried 100 feet below the bottom of the river, to make sure that the water is safe.

From the outset of this process, the Standing Rock Sioux leaders have refused to sit down and meet with either the Corps of Engineers or the pipeline developer. However, 55 other tribes have. The Corps consulted with 55 Native American tribes at least 389 times, after which they proposed 140 variations of the current route to avoid culturally sensitive areas in North Dakota alone.

That is right, Mr. Speaker, you are not going to read about that in the New York Times or the Washington Post. You are never going to hear about it on NBC or ABC or CBS. You may not even hear about it in North Dakota because, frankly, even our media are afraid of the ramifications of violent rioters who are willing to commit violent acts if you cross them. Yes, even my home address has been posted on their Web sites and on their Facebook pages so that they know where my family and I live. These are the prayerful, peaceful protesters you hear so much about on the NBC News.

This project route was examined, reviewed, studied, and ultimately supported by the North Dakota Public Service Commission, the State Historic Preservation Office, assorted tribal consultants from around the country, and multiple professional independent archaeologists. This is a thoroughly vetted pipeline, which is why it has over 200 Federal permits, all of which have been delivered and have been built, except for this one, which was rescinded to make a political statement.

They say that they object to the pipeline being close to the water intake of the Standing Rock Sioux Reservation. However, it shouldn't be of any concern. As I said, this is going to go between 90 and 115 feet below the floor of the river. It is double-lined pipe. It has got control valves at both ends and sensors at both ends. It is the safest pipeline in the world.

By the way, the intake for Standing Rock's drinking water, the new one, which will be in service before the end of this year, is 70 miles away. There is a railroad track that carries hundreds of thousands of barrels every day over the top of the Missouri, as close as that.

By the way, the other thing you often hear is that this was not the original route, that there were other preferred routes, but because they crossed at places that affected a dif-

ferent kind of people than the Standing Rock Sioux tribe, that this was somehow discriminatory.

Let me set that record straight as well. I know, as I said, a fair bit about pipelines. I have read the permit. I have read the application. I have read the judge's opinions. It was always planned for this location for a very good reason, Mr. Speaker. By the way, there are at least 10 to 12 other petroleum pipelines north of this same location. This is just going to be the latest and greatest of them. The main reason this route was chosen was because it was the least intrusive on the environment, on waterways, on private property, and on cultural resources.

□ 2015

The other locations that were under consideration that were not chosen crossed many more bodies of water and were much closer to many wells and cultural resources and very important historical resources. It was 48 extra miles of previously undisturbed field areas. This is and was the best route because it is an existing corridor. In this same corridor, there is already a natural gas pipeline. There is already a large electric transmission line. That is why it was chosen.

Let me talk a little bit about the impact this is having on my State. We had the recent vandalism of the graves in Bismarck. That is right. They vandalized graves in a Bismarck cemetery. Of course, the unconscionable graffiti markings on the North Dakota World War II pillar that the veterans wrote about earlier are examples of how these peaceful protestors' actions don't match their claims.

The responsibility of protecting property and residents has fallen on the shoulders of the State of North Dakota because, guess what, when we asked the Obama administration for law enforcement help, for reimbursement, at least, for our State and for our counties for a situation that they created by their refusal to obey the law themselves, they sent some PR people from the Department of Justice. They sent people to watch our cops to make sure they don't do something wrong. See, again, they are confused about the difference between breaking the law and enforcing the law. We are not confused about that in North Dakota.

Attempts to get reimbursement or to get U.S. Federal help have fallen on deaf ears. So far, North Dakota has had to borrow \$17 million to cover law enforcement costs. I will tell you this—and we have heard in the Chamber a lot of bad-mouthing of the incoming administration—I can't wait. I can't wait to go to Attorney General JEFF SESSIONS and explain the situation to him and ask him for assistance. I am very encouraged by President-elect Trump's favorable comments about the Dakota Access Pipeline earlier today.

These protesters, these demonstrators, these rioters have brought protests into the communities of Bismarck and Mandan. They blocked roads and traffic, forcing lock-downs at the State capital and Federal buildings. They have forced people to leave their homes. They forced daycare centers to close. This daycare was forced into lockdown twice. Can you imagine explaining to children, who don't know anything about a pipeline and they don't care—and they shouldn't have to—why they are in a lockdown, why they have to be careful. Some out-of-State thugs are circling the block, harassing the owners.

Many of our residents are fearful for the safety of their neighborhoods and volunteers are hesitant even to deliver Meals on Wheels. We have had people call us and say they can't deliver Meals on Wheels because people won't even answer their doors because they have seen these rioters walking around their property.

Law enforcement and their families have been stopped and rioters have repeatedly tried to intimidate them. On Thanksgiving Day, 300 protesters blocked traffic in Mandan, North Dakota, carrying a large dead pig on a stick while at least as many protesters, again, trespassed and built a bridge to reach a hilltop on private property.

Law enforcement has shown tremendous constraint, giving verbal warnings that if they stop making the bridge, there would not be any arrests. It was ignored. The bridge was built. Rioters crossed, dismantled the bridge, and law enforcement held the line for hours against tremendous numbers—they were well outnumbered—without a single arrest.

The protesters are the clear agitators and the criminals here, not the police officers. There would be no law enforcement presence if these protests were truly peaceful.

For example, most media have demonized their law enforcement for use of water as a less than lethal tool during a protest in cold temperatures. They used it to hold back protesters only after they used the water to put out prairie fires that were started by the protesters. And the protestors got wet from a water cannon. By the way, that is a made-up term by the national media to make it sound like some sort of violent act by our police department. It was a water hose brought there to put out fires. And when they used that to push back hundreds of protesters when there were only dozens of police officers, now they are blamed for being the agitators.

As you can tell, I am frustrated, Mr. Speaker. I am frustrated not just by the actions of these thugs, because we have come to expect that from certain people in this country, unfortunately. I am frustrated by this administration's refusal to obey the law, to enforce the

law, to support the law, but instead enable and actually encourage the breaking of the law. That is not what we elect the President for. I am so grateful we have a law-and-order President coming into office shortly.

They have been forced to arrest more than 400 people, most of them from out of State. They get bailed out rather quickly. Somehow they have a source of lots of money readily available to bail people out and cover their expenses. They have chained themselves to equipment to prevent work from being done.

Here is an interesting fact. When it was much warmer in North Dakota than it is today, they would chain themselves to the equipment. And then, after hours of being there, they would get thirsty. And police officers, rather than just letting them stay there, actually helped provide them water and held the water so that the protesters, the illegal rioters, could get a drink of water. That is the quality of our law enforcement officers.

They burned tires and fields, as I said earlier. They damaged cars and bridges. They harassed residents and have torn down fences. They killed and slaughtered neighbors' cattle and bison and horses. There was at least one report where gunshots were fired at the police.

By the way, this protest is not about climate. We hear about that. By the way, it shouldn't have anything to do with climate. The oil is being produced. Now the issue is: How do you transport it? Do you transport it in the most environmentally and economical and efficient way in a pipeline? Or, do you transport it in some less safe, less efficient, less environmentally friendly way?

The simple fact is, our Nation will continue to produce and consume oil, and pipelines are the best way to move that oil. Legally permitting infrastructure projects have to be allowed to proceed without the threat of improper governmental meddling and activity.

By the way, what of shovel-ready jobs, Mr. Speaker? What of that? What of building the infrastructure of this country with private sector money? What a great thing. But for the Bakken and other shale oil plays in this country in the last 8 years, we still would be in a recession. Most of the jobs that have been created in the last 8 years in this country have been created in the energy sector.

It is not about water protection, as I said. There is a brand new intake system being built. It will be operational 73 miles from this pipeline. That is not the issue. That is just an excuse. By the way, that new intake is about 1.6 miles downstream of a railroad track, a railroad bridge that will carry crude oil, as well.

The pipeline is not going to come in contact with the water. It employs the

latest and greatest in advanced technology. As I said, a dozen or more oil and gas and refined product pipelines already cross the Missouri River upstream from the tribe's drinking water intake, and this pipeline is crossing at a point where there is existing infrastructure. It is an infrastructure corridor.

Mr. Speaker, the rule of law matters. I am so grateful for our law enforcement officers, as I said, not just in Morton County, not just around Bismarck, Mandan, and not just in North Dakota, but from around the country who have come to the assistance of our State. But, Mr. Speaker, if we think we are going to rebuild the infrastructure of this country, and every time we build a railroad track or a highway or a bridge or a pipeline or a transmission line or wind farm or factory, we are going to have to put up with this, what kind of investment is going to take place in this country?

As I said, we are not confused in North Dakota about the difference between breaking the law and enforcing the law. The vast majority of North Dakotans—and when I say vast, well into 90 percent—support law enforcement. We are grateful for what they do. We are sorry that you are going through this.

I will fight with everything I have and use every ounce of influence I have over the next administration and with my colleagues in this Chamber to provide the resources to make sure that you get a day off, to make sure that our State gets reimbursed, and that your families are compensated for what you have gone through.

I thank law enforcement officers for taking and making the tremendous sacrifice they make to protect legal commerce, peaceful citizens, and yes, ironically, Mr. Speaker, I thank the law enforcement officers for protecting the right to express ourselves in a peaceful manner.

Mr. Speaker, I yield back the balance of my time.

#### EVENTS IN CUBA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the Chair recognizes the gentleman from Iowa (Mr. KING) for 30 minutes.

Mr. KING of Iowa. Mr. Speaker, it is my honor and privilege to be recognized to address the floor of the United States House of Representatives. It was quite interesting to listen to the gentleman from North Dakota and the stress that they have up there; in particular, with regard to the pipeline being built through there.

I would just want to reinforce the statements made by the gentleman from North Dakota and point out that the permits are there, the process is there. We have tens of thousands of

miles of pipelines in the United States of America, and we have very, very few problems with leaks or other circumstances that would cause one to think that there is a safer way to transport oil. There is not. The safest way is with the pipeline.

I am one who has actually started out in the construction business building pipelines. We have been in the construction business for 42 years. We dig in the ground, and we are doing underground utility work every day, except for Sundays, and we go deep sometimes. We go into hydraulic soil from time to time. Water tables are above where we are working. We do well points. We are working with the flow of water in the soil and underground, and we have got as good a look at this as anybody I know.

I would point out to those that are detractors that say: well, we can pollute the underground aquifer if we have a pipeline that we build and if that pipeline should leak. And I would point out something that they ought to know if they ever saw a movie of a shipwreck: oil floats on water. Therefore, it cannot penetrate down into the aquifer. You are not pumping off of the top-skimmed surface of the aquifer. You are pumping down below. And if you should get a leak, which is extraordinarily rare, the oil pools and floats on the top and can be pumped off.

There is no safer way to transfer petroleum products and no more efficient way. It is by far the best way, which is why we have tens of thousands of pipelines all over this country moving all kinds of product, including crude oil, but also anhydrous ammonia and a number of other products across the country.

I have built the pipelines. I have been down in the trench. I have been tossed into the air and slammed to the ground and climbed down the machine. The wind, the dust, the noise, the heat, the cold, has all been around me. What I don't understand is why anybody would take people seriously that think that oil doesn't float on water, or that there is a better way to transport oil, or that somehow if they just get organized and people fund them, we are going to pay attention to them as if they were logical. They are not.

So that concludes my statement on the oil pipeline. I am hopeful, though, that in the upcoming Trump administration the future Secretary of State signs that permit that opens up that they need one section of pipe to go across the 49th parallel, Mr. Speaker, in order to facilitate the Keystone XL pipeline. We can build that pipeline down to the Canadian border from the north, and we can build the pipeline up to the Canadian border from the south. But what has always been short on the Obama administration is a Hillary Clinton or a John Kerry signature on the document that says: we have an

agreement with Canada to connect these pipelines together at our border. That is one section of pipe that would need to go in there.

I believe that happens under the Trump administration. And we should set aside these ridiculous arguments earlier rather than later. But America looks ridiculous in the world if we are going to argue against that very logic that, if petroleum needs to move and we are going to use it to move product around America and heat our homes and generate electricity and all the things that we do, then we need to do it as effectively and efficiently as possibly or we will become noncompetitive for the rest of the country.

□ 2030

So, Mr. Speaker, I emphasize the points made by the gentleman from North Dakota, and I urge that the Corps of Engineers accelerate the operation up there, and they can commence to finish their work that goes across what is the reservoir and river, the Missouri River, get that connected and get it done. This demonstration isn't going to be over till you get done, so bore on through would be my advice.

#### THE DEATH OF FIDEL CASTRO

Mr. KING of Iowa. I made myself a promise yesterday, Mr. Speaker, when I stopped in to ILEANA ROS-LEHTINEN's office to congratulate her; and I would do that with many of the people who are related to, from, or descended from folks who had to leave Cuba, especially those who are there today who weren't able to leave Cuba.

We have been looking for the biological solution, which would be Castro being transferred into the next life. The very definition of the biological solution in the vernacular around this town was the eventual death of Fidel Castro.

Well, it happened, finally happened, Mr. Speaker, and so I had a celebratory cup of Cuban coffee in the office of ILEANA ROS-LEHTINEN. And now I would make this call, that it is time for the Cuban people and it is time for the incoming Trump administration to put together what amounts to the need for a regime change on the island of Cuba for the 11 million people that are free-spirited, hardworking, happy people, given all the circumstances that they have to fight against in the poorest country in all of the Western Hemisphere as far as their spirit is concerned.

I would pass the message along. There is a wonderful, wonderful nun in my district named Sister Marie. She served under Mother Teresa for 27 years. She served in Cuba for a long, long time, but she has been to all the—well, maybe not all, but many of the worst places in the world to serve the Lord and to help people.

She used to sneak into Cuba with seeds sewn in her clothing, into the

seams of her clothing, so that she could plant a garden, and that garden then could grow and prosper and help feed the Cuban people that were living off of their monthly supply of the ration of rice, beans, and sugar.

She told me that, of all the places she has been, Cuba is the poorest place—\$20 a month for income, but the poorest place because of their spirit. The spirit of their Christian faith has been so suppressed by Castro, who has closed so many of the churches, the cathedrals. I walked into a cathedral down in Cuba, and you could see that where the pews were, that there was dust there and there weren't tracks by the pews.

But the line down through the center aisle was all polished from people walking down through the center aisle. And when you look at that, you realize the reason that there is dust out in the pews and there is not a path of people's feet moving back and forth down through the seats and the pews of this cathedral in Cuba is because that church does not function any longer as a church; it is functioning as a museum.

Castro shut down many, many of the religious institutions throughout Cuba and did his best to suppress Christian faith on that island. Occasionally, a little chapel pops up here and there, and you can see, if you are looking closely, you will see a little bit of it. But he has been an aggressive opponent to our Christian faith, which is the foundation of the faith in Cuba.

So I am not sorry to see the end of the life of Fidel Castro. And I have made a pact with some of my Cuban friends that one day we will return to Cuba and we will swim ashore at the Bay of Pigs. And that would be the ultimate symbolic act that, when the day comes, that it is possible for, let's say, Cuban exiles to come towards the shore.

I will say, I would want to dive out of that boat and swim ashore and wade out onto a free Cuba. That is our pact. That is our mission. I am going to do my best to stay in shape to be able to accomplish that mission.

Here are some things that I saw in my trip down to Cuba, Mr. Speaker, and I think it is important that the body here pay attention to some of this.

I hear a lot of stories about how good the health care system is, about how good the educational system is. Well, we went to visit some of the educational system, Mr. Speaker, and one of them was a country school. They had, oh, I don't know, 15 or 18 kids sitting at desks in this little shack out in the country with the teacher up front looking like this was a country school from 150 years ago in my home State of Iowa.

There, when we walked in, of course, everything stopped and the kids all

paid attention. They didn't get to see Americans very often. I suppose we look a little bit different, on balance, than they do and their parents do.

But we had a pretty good handful of pencils there, and that handful of pencils was swept up immediately. They couldn't wait to get their hands on pencils so that they could write. That is one of the examples of the shortage of supplies that are there.

The educational system, also, we took a ride up to the top of the mountains about 70 kilometers from Santa Clara in Cuba. There is an extension college up there that teaches agriculture. This was a ride up there that took, oh, at least 90 minutes to get up the mountain. We were sitting in the back of a Russian deuce and a half that gave us a ride up the mountain.

When we got there to this little campus built into the mountains, we had the equivalent of—we had about 40 people on this tour altogether. And as we were standing there, they brought out—the Cuban minders brought out the spokesmen for the university, and they stood there in their gray smocks, and the Cuban minders began transferring our questions to them.

So I was asking questions of the faculty at the extension college in the mountains there, and as I would ask the question, then the Cuban minder would translate the question from English into Spanish and ask in Spanish a question of the representatives of the university. They would hear the question. They would answer in Spanish. The Cuban minder would interpret it back into English, and he would tell us what he supposedly said.

Well, I am trying to learn the things I came there to learn, and the interpreter standing next to me, he was on the tour and he was not designed to be the interpreter, but he was the best interpreter I have ever had. His name was Ed Sabatini, and his parents owned real estate in Cuba that had been nationalized by Castro, taken away from them, and they had escaped from the island and lived in Miami.

But Ed Sabatini, the son of the refugees that had gotten out of Cuba, he said to me, as I am listening to the responses to the questions that I think are being asked, he said: You realize, don't you, that these Castro minders are not asking the questions that you are asking, and when they get the answers back, they are not giving back to you the answers that were given to them by the faculty here at this university. And I said: No, I didn't realize that. Of course, I didn't understand enough Spanish to realize that.

So he began to interpret this for me, and he was interpreting not only what was said, but he was interpreting what wasn't said, what body language was there, and filling me in on the things that he was soaking up in that encounter.

So after a little while, we realized it doesn't pay for us to stand here and talk to these people because we are not going to get the truth out of them anyway. They are just putting us through this exercise. And so we stepped away from the group and went down and spoke to some students who were sitting on the curb.

I had already asked the faculty: Do you have Internet services up here on the mountain? And the faculty had answered back, or at least through the minder: Yes, we have Internet services. So we began to talk to the students, and we got straighter answers.

Well, they did have Internet service. They had a computer class going on right then up in a building adjacent to where we were. And so I asked them: So, if you want to access the Internet, how do you get to that Internet? Tell me how that works.

Their answer was: Well, if we have research or a question that we want to get resolved, we write that question down on a piece of paper, and then we hand that to our instructor. Our instructor decides whether to approve our request or not.

If he approves it, then that goes into a packet that goes down the mountain, in a Russian deuce and a half, 70 kilometers to Santa Clara, where the Internet connection is. It is run by Castro's people. Then they look at the request. They type that request out onto the Internet if they are approved that the question can be allowed to be asked and answered, and then the question goes out on the Internet. They download the response that they are looking for. If they approve it, they will take that response down and then redact the things they don't want the student to know, but print the document, put that document back on a Russian deuce and a half, and it goes 70 kilometers back up the mountain. It takes days or even weeks to get an answer from the Internet.

I asked them: Tell me about your Internet service. Their answer was: Oh, yes, we have Internet service here, good access to Internet service. That is what it is. Give a piece of paper a ride down a mountain on a Russian deuce and a half 70 kilometers, going through the minders and through the censors and out to the Internet, back again, redacted, back on the deuce and a half, back up the mountain.

Now, how long would it take you to research anything on the Internet if you have to process things through that means?

It was amazing to me that anyone could even seriously suggest such a thing, that it was Internet access, when it had to take two rides in a Russian deuce and a half and go through a censor and a couple of minders. That is what we saw down there at that university.

So I said: I want to go look at this computer class that is going on. As I

headed up that way, the leader of our tour group was gathering people together, and I said: I am going to go look at this computer class up here.

He said: We are going to leave. That meant we were supposed to jump in these deuce and a halves and take our ride back down the mountain.

I said: I am going to go up and see the computers.

He said: Well, we are going to leave you here.

I said: Then I will see you in Havana.

So I thought they were bluffing, and they were, but Ed Sabatini and I went into that classroom, kind of down in the basement of a school building there, and there sat about 12 computers, all old 386s or maybe even earlier, and they had two or three male students all sitting in front of each computer. And there on the screen was the five points of why capitalism is bad and Marxism is good. They were teaching the lesson of Marxist ideology right there on the screens of those old computers while these students sat there sharing a screen to look at.

When we walked in, it kind of took over the room. And once they found out that we were from America, the students had questions they wanted to ask, and they began to ask the questions. They were interpreted through Ed Sabatini, and then to me, and I answered them. After awhile, it became so rapid-fire that Ed just answered the questions and he told me what happened as we walked out of there.

But they were asking questions like—and this was agriculture. I said extension. So they were asking questions like, let's see: Who sets the price on the markets for, say, grain? And they are probably thinking rice and sugar, maybe beans, and I am thinking corn and soybeans. Who sets the price?

And we say: The market sets the price.

Well, what is the market?

Well, it is supply and demand. Buyers come in and they make an offer, and if they can buy what they want at that price, then that is the price. If they are getting more than they want, they lower the price. If they are getting less than they want, they raise the price.

Pretty big idea. You could see them try to figure out what that meant.

Then they said: How many times does the price—when does the price change? They were thinking that there still was some government that set our commodity prices, our grain prices, maybe once a month or twice a year or whatever they might do.

I said to them: That price can change, actually, several times a minute. It is kind of a living, moving market because it reacts to the bids that are out there.

Hard to think of what that means.

Who sets—they wanted to know what are our land values, and I told them.

Who set the values on land?

Well, the buyers and the sellers set the value on land. They just didn't have a concept of that.

And then it would be: Why would anyone sell land if they owned land?

Well, there is a concept of real estate ownership that doesn't exist in any significant way in a Marxist economy that controls and owns everything.

So we went through that. It was a fascinating time for them, and it was fascinating for me to see how they reacted, the inquisitiveness of those young students that had an opportunity to hear what it is like in America.

And you heard from them: I want to go to America. I would say everyone in that room wanted to go to America. That is the sense of not only the deprivation that is there because they are on rations of rice and beans and sugar, but deprived, also, of ideas, the opportunity to have access to information, to exchange ideas. That has been crushed by Castro.

So the potential of the people in Cuba, which I think is terrific, has been so badly damaged by the oppressing oppression of Castro, who threw thousands of his political enemies into prison.

□ 2045

He tortured them, he beat them, and he executed many, many of them.

I remember, Mr. Speaker, the vision, the images that I saw on television back in 1959, 1960, and beyond when Castro and Che Guevara took over Cuba and they executed the political enemies. They took them up against a wall. Many of them were wearing white slacks and white Cuban shirts that hang outside their belt, and they were put up to the wall, blindfolded. They stood there with their hands tied, and they were shot. That was back when television showed the reality of what was taking place. We hadn't gotten so sensitive that when there was murder that was picked up on cameras, it went on television without being blurred out as if somehow we are too sensitive to see things like that. It was an awful sight.

I recall a man who was about to be executed, one of Castro's enemies, and he insisted that he not be blindfolded, he insisted that he not be tied, and he insisted that he give the order for them to fire. So, Mr. Speaker, he stood in front of that execution wall in his white Cuban shirt, his white slacks, and his sandals. He raised his hand with no blindfold on him. He looked at that firing squad, he raised his hand, and in a moment of, I will say, just an amazing display of courage and nerve dropped his hand, and that firing squad fired and executed that probably very innocent Cuban there in front of that wall. He became one of thousands who were put into their graves because they were political opponents of the Marxist, the Communist, the dictator, the

tyrant that had turned Cuba into a prison island; and it has been a prison island ever since 1959.

Finally, the biological solution has kicked in, and Fidel Castro is no more. There is one more to go, and that is Raul. The Cuban people need to know that when they go to their grave, their grip on the island of Cuba is letting go. It has got to let go, and the free spirit that exists within the hearts of the Cuban people needs to be released. They need to be freed up on that island so they can control their own destiny, they can live their own lives, they can become prosperous by their brains and the sweat of their own brow and have the opportunities that we have here in this country.

This new administration needs to be about regime change in Cuba. The Western Hemisphere has been terrorized by the policies of Fidel Castro and by his support for the Marxists throughout a number of countries in Central and South America. That includes Nicaragua, and it includes Venezuela with Hugo Chavez and now his successor. It includes a number of other countries. Castro has engaged in trouble in Grenada and also over into Africa. He has fomented that kind of terror and sent his army out there for hire to take freedom away from other people. If we had been absent his influence in this hemisphere, chances are South America itself would be much more free than it is today. That is Castro.

I recall visiting the Hotel Nacional. In there, when you walk inside, that was a place where the rich and famous from America used to play down in Cuba at the Hotel Nacional in Havana. It looks out across the sea, and there is a gun emplacement there, a cannon that sits down in a bunker that was used to defend the shores of Cuba back during the Spanish-American War—they say the Spanish-Cuban-American War—in 1898. There in that hotel, you will see pictures of the celebrities of the time: Marilyn Monroe, Stan Musial, Rocky Marciano. When you walk through, you see the people that I will say lived in black-and-white fame in America. Their pictures are on the wall in the Hotel Nacional. Also, there in the parking lot was the 1959 Jaguar station wagon that was the vehicle of the previous dictator, Batista's, wife, who had that green 1959 Jaguar station wagon.

But things have stopped. They are frozen in time. The most typical taxicab in Havana was a 1954 Chevy, and it had a 3-cylinder Russian diesel engine under the hood. If you look around the island, you would see Russian tractors that were parked, and they had been stripped for parts. I didn't see any of them out there running. It is the only place in civilization that I know that once went from animal husbandry agriculture where they used beasts of bur-

den to till the fields to Russian tractors when the Russians were subsidizing the Cubans, and then when the Soviet Union imploded, Mr. Speaker; and that ended Christmas Day 1991, when the Soviet Union went under and was no more. Over a period of time their subsidy for the island of Cuba dried up.

They were subsidizing Cubans this way. Cubans then were producing sugar. The open market on sugar was 6 cents a pound. The Russians were sending them oil for sugar, making a trade. The sugar that was going to Russia was costing the Russians 51 cents worth of oil. So you have a more than eight times multiplier effect sugar for oil, and that profit that was in there was what was propping up the failed, failed, failed economy of Cuba.

The Soviet Union imploded. That subsidy ended, and those Russian tractors broke down and finally died. So you end up with brahma oxen that are out there doing the tillage in the field. They would tie them on a piece of rope, and they would have what I called a pivot grazing system rather than a pivot irrigation system. I happened to plow behind a team of brahma oxen out there just kind of for sport. He was out in the field working. I asked him: Can I take a round? So I got to do that and got a picture of that, Mr. Speaker. That island had regressed so much that the tractors were parked and the animals had been put back to work.

Hugo Chavez decided he would prop up the Cuban island with the wealth of his oil. Of course, when Chavez himself went to his Maker, thankfully, and the prosperity that Venezuela enjoyed collapsed around the failed ideology of a Marxist-controlled economy, that then shut down the subsidy for Cuba.

Who should come along to save the day?

Barack Obama, who decided he is going to open up trade with Cuba, establish an embassy there, and let American dollars come down into Cuba so the island could become prosperous again.

We needed to let the Marxist regime finally be starved out. That was the purpose of the sanctions against Cuba, and that is why it has never been wise to open up free trade with Cuba. Now it is wise for this incoming Trump administration to promote regime change in Cuba. Raul can't last much longer. Freedom must come to the Cuban people, and I want to swim ashore at the Bay of Pigs and walk out on a free Cuba. I have done that at GTMO, but I want to do that at the Bay of Pigs, Mr. Speaker.

Another way that Cuba was propped up would be any foreign currency that came in—tourists could come into Cuba, and they would come into Cuba especially from Europe. They would go to the beaches at Varadero and other places, and so they spent their euros

there. Americans would sneak into Cuba by going through the Bahamas and get their passport punched out there and take a separate flight and fly into Cuba. They might also come in through the south or come in through Mexico, but American dollars came down.

Now, here is the rule: we think we are helping Cubans by doing business with Cuba with American dollars. Here is how it was when I was there—and I don't think it is any different today—the exchange rate of the Cuban peso to the dollar was 21 pesos to the dollar. Cubans could earn American dollars, they could hold American dollars, but they can't spend American dollars unless they go to a Cuban bank where they have to take their American dollar, lay that down on the counter and get an exchange for Cuban currency. But the Cuban currency doesn't give them 21 pesos, which is the exchange rate for their American dollar. It gives them one peso for the American dollar, and 20 pesos go into Castro's bank account to prop up Cuba.

That is how he is raking the vigorish out of those transactions that are there. Or they could go into a Dollar Store where their dollar would only get them a peso. That is how that money went back into the hands of Castro. He is raking up the foreign currency and using that to prop up the military, keep his prisons open, and suppress and repress the Cuban people.

Mr. Speaker, we are in a place in history here where I am glad to see that the Trump administration understands what needs to happen in Cuba. I am hopeful the Cuban people have enough of that spirit left in them to understand what they need to do. Mourn for Fidel is not what they need to do, but replace him with a leader of, by, and for the Cuban people, and a constitution that protects the individual interest and rights of the Cuban people is what needs to happen.

I fully support the effort of the free-minded and free-spirited Cuban people to one day also be free, all 11 million of them. Mr. Speaker, I will do my best to stay in shape so I can swim ashore and wade out onto a free Cuba.

Mr. Speaker, I yield back the balance of my time.

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. DEFAZIO (at the request of Ms. PELOSI) for today after 5 p.m. and December 2 on account of medical appointment.

#### SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 2971. An act to authorize the National Urban Search and Rescue Response System; to the Committee on Transportation and Infrastructure.

### ENROLLED BILLS SIGNED

Karen L. Haas, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 4419. An act to update the financial disclosure requirements for judges of the District of Columbia courts and to make other improvements to the District of Columbia courts.

H.R. 5785. An act to amend title 5, United States Code, to provide for an annuity supplement for certain air traffic controllers.

### BILL PRESENTED TO THE PRESIDENT

Karen L. Haas, Clerk of the House, reported that on December 1, 2016, she presented to the President of the United States, for his approval, the following bill:

H.R. 4665. To require the Secretary of Commerce to conduct an assessment and analysis of the outdoor recreation economy of the United States, and for other purposes.

### ADJOURNMENT

Mr. KING of Iowa. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 8 o'clock and 55 minutes p.m.), the House adjourned until tomorrow, Friday, December 2, 2016, at 9 a.m.

### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

7689. A letter from the Alternate OSD FRLO, Office of the Secretary, Department of Defense, transmitting the Department's final rule — DoD Environmental Laboratory Accreditation Program (ELAP) [Docket ID: DOD-2013-OS-0230] (RIN: 0790-AJ16) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Armed Services.

7690. A letter from the Associate General Counsel for Legislation and Regulations, Office of the Secretary, Department of Housing and Urban Development, transmitting the Department's final rule — Equal Access to Housing in HUD's Native American and Native Hawaiian Programs — Regardless of Sexual Orientation or Gender Identity [Docket No.: FR-5861-F-03] (RIN: 2506-AC40) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7691. A letter from the Assistant Secretary for Legislation, Office of the Secretary, Department of Health and Human Services, transmitting the 2015 Outcome Evaluations of Administration for Native Americans

(ANA) Projects Report to Congress, pursuant to Sec. 811(e) of the Native American Programs Act of 1974, as amended; to the Committee on Education and the Workforce.

7692. A letter from the Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation, transmitting the Corporation's final rule — Benefits Payable in Terminated Single-Employer Plans; Interest Assumptions for Paying Benefits received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Education and the Workforce.

7693. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Air Plan Approval; MA; Decommissioning of Stage II Vapor Recovery Systems [EPA-R01-OAR-2015-0351; A-1-FRL-9950-92-Region 1] received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7694. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — 2015 Revisions and Confidentiality Determinations for Data Elements Under the Greenhouse Gas Reporting Rule [EPA-HQ-OAR-2015-0526; FRL-9954-42-OAR] (RIN: 2060-AS60) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7695. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting a six-month periodic report, covering May 15, 2016 to November 15, 2016, on the national emergency with respect to the proliferation of weapons of mass destruction that was declared in Executive Order 12938 of November 14, 1994, and has been continued by the President each year, most recently on November 8, 2016, pursuant to 50 U.S.C. 1641(c); Public Law 94-412, Sec. 401(c); (90 Stat. 1257) and 50 U.S.C. 1703(c); Public Law 95-223, Sec. 204(c); (91 Stat. 1627); to the Committee on Foreign Affairs.

7696. A letter from the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting the Department's final rule — Commerce Control List: Removal of Certain Nuclear Nonproliferation (NP) Column 2 Controls [Docket No.: 160718621-6621-01] (RIN: 0694-AH04) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Foreign Affairs.

7697. A letter from the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting the Department's final rule — Temporary General License: Extension of Validity [Docket No.: 160106014-6728-04] (RIN: 0694-AG82) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Foreign Affairs.

7698. A letter from the Associate General Counsel, Department of Agriculture, transmitting a notification of a federal vacancy and a notification of a discontinuation of service in acting role, pursuant to 5 U.S.C. 3349(a); Public Law 105-277, 151(b); (112 Stat. 2681-614); to the Committee on Oversight and Government Reform.

7699. A letter from the Acting Director, Employee Services, Office of Personnel Management, transmitting the Office's final rule — Veterans' Preference (RIN: 3206-AM79) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec.

251; (110 Stat. 868); to the Committee on Oversight and Government Reform.

7700. A letter from the Acting Director, Employee Services, Office of Personnel Management, transmitting the Office's final rule — Career and Career-Conditional Employment (RIN: 3206-AM64) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Oversight and Government Reform.

7701. A letter from the Deputy Assistant to the President and Director, Office of Administration, Executive Office of the President, transmitting the personnel report as required by 3 U.S.C. 113 (2016), for personnel employed in the White House Office, the Executive Residence at the White House, the Office of the Vice President, the Office of Policy Development (Domestic Policy Staff), and the Office of Administration for FY 2016; to the Committee on Oversight and Government Reform.

7702. A letter from the Acting Director, Planning and Policy Analysis, Office of Personnel Management, transmitting the Office's final rule — Federal Employees Health Benefits Program Coverage for Certain Firefighters and Intermittent Emergency Response Personnel (RIN: 3206-AM66) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Oversight and Government Reform.

7703. A letter from the Assistant Secretary for Legislation, Office of the Secretary, Department of Health and Human Services, transmitting a report titled "Fiscal Year 2015 Report to Congress on Contract Funding of Indian Self-Determination and Education Assistance Act Awards (Includes Fiscal Year 2012-2015 Data)", pursuant to 25 U.S.C. 450j-1(c); Public Law 93-638, Sec. 106(c) (as added by Public Law 106-260, Sec. 9(2)); (114 Stat. 733); to the Committee on Natural Resources.

7704. A letter from the Division Chief, Regulatory Affairs, Bureau of Land Management, Department of the Interior, transmitting the Department's Major final rule — Waste Prevention, Production Subject to Royalties, and Resource Conservation [17X.LLWO310000.L13100000.PP0000] (RIN: 1004-AE14) received November 18, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7705. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's withdrawal of direct final rule — Effluent Limitations Guidelines and Standards for the Oil and Gas Extraction Point Source Category — Implementation Date Extension [EPA-HQ-OW-2014-0598; FRL-9955-65-OW] (RIN: 2040-AF68) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Transportation and Infrastructure.

7706. A letter from the Deputy General Counsel, Office of the General Counsel, Small Business Administration, transmitting the Administration's interim final rule — Debt Refinancing in 504 Loan Program (RIN: 3245-AG79) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Small Business.

7707. A letter from the Director, Office of Regulations and Reports Clearance, Social Security Administration, transmitting the Administration's final rule — Revised Medical Criteria for Evaluating Human Immunodeficiency Virus (HIV) Infection and for

Evaluating Functional Limitations in Immune System Disorders [Docket No.: SSA-2007-0082] (RIN: 0960-AG71) November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Ways and Means.

7708. A letter from the Chief, Border Security Regulations Branch, U.S. Customs and Border Protection, Department of Homeland Security, transmitting the Department's final rule — The U.S. Asia-Pacific Economic Cooperation Business Travel Card Program [Docket No.: USCBP-2013-0029] (RIN: 1651-AB01) received November 21, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Homeland Security.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mrs. MILLER of Michigan (for herself and Mr. BRADY of Pennsylvania):

H.R. 6415. A bill to provide for the appointment of members of the Board of Directors of the Office of Compliance to replace members whose terms expire during 2017, and for other purposes; to the Committee on House Administration.

By Mr. ROE of Tennessee (for himself, Mr. MILLER of Florida, Mr. BILIRAKIS, Mr. BOST, Mrs. RADEWAGEN, and Mr. ABRAHAM):

H.R. 6416. A bill to amend title 38, United States Code, to make certain improvements in the laws administered by the Secretary of Veterans Affairs, and for other purposes; to the Committee on Veterans' Affairs, and in addition to the Committees on the Budget, and Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. KENNEDY (for himself and Mrs. LOVE):

H.R. 6417. A bill to prohibit a court from awarding damages based on race, ethnicity, gender, religion, or actual or perceived sexual orientation, and for other purposes; to the Committee on the Judiciary.

By Mr. LATTA:

H.R. 6418. A bill to amend certain provisions of the Safe Drinking Water Act, and for other purposes; to the Committee on Energy and Commerce.

By Mr. LEWIS:

H.R. 6419. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide that COPS grant funds may be used to hire and train new, additional career law enforcement officers who are residents of the communities they serve, and for other purposes; to the Committee on the Judiciary.

By Miss RICE of New York:

H.R. 6420. A bill to improve the screening of transgender persons at airport security checkpoints, and for other purposes; to the Committee on Homeland Security.

By Mr. ROSKAM (for himself, Mr. DEUTCH, Mrs. LOWEY, Ms. ROSELEHTINEN, Mr. ENGEL, and Mr. ISRAEL):

H.R. 6421. A bill to provide for the consideration of a definition of anti-Semitism for the enforcement of Federal antidiscrimination laws concerning education programs or activities; to the Committee on the Judiciary.

By Mr. ROSKAM (for himself and Mr. BLUMENAUER):

H.R. 6422. A bill to amend the Internal Revenue Code of 1986 to treat qualified alternative commuter programs as an excludable qualified transportation fringe benefit; to the Committee on Ways and Means.

By Mr. SHERMAN (for himself, Mr. CONYERS, Mr. CAPUANO, Ms. JUDY CHU of California, Mrs. NAPOLITANO, Ms. EDWARDS, Ms. NORTON, Mr. DANNY K. DAVIS of Illinois, Mrs. LAWRENCE, Mr. CARTWRIGHT, and Mr. GRIJALVA):

H.R. 6423. A bill to amend the Truth in Lending Act and the Electronic Fund Transfer Act to provide justice to victims of fraud; to the Committee on Financial Services.

By Mr. COHEN:

H.J. Res. 104. A joint resolution proposing an amendment to the Constitution of the United States to abolish the electoral college and to provide for the direct election of the President and Vice President of the United States; to the Committee on the Judiciary.

By Ms. LEE (for herself, Ms. KELLY of Illinois, Ms. WASSERMAN SCHULTZ, Ms. ROYBAL-ALLARD, Mr. PASCRELL, Ms. WILSON of Florida, Mr. SIRE, Mr. PRICE of North Carolina, Ms. CLARKE of New York, Ms. ADAMS, Mr. TAKANO, Ms. SPEIER, Mr. ELLISON, Mr. CICILLINE, Ms. BASS, Mr. DEUTCH, and Ms. JACKSON LEE):

H. Con. Res. 177. Concurrent resolution supporting the goals and ideals of World AIDS Day; to the Committee on Energy and Commerce, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. WELCH:

H. Con. Res. 178. Concurrent resolution clarifying any potential misunderstanding as to whether actions taken by President-elect Donald Trump constitute a violation of the Emoluments Clause, and calling on President-elect Trump to divest his interest in, and sever his relationship to, the Trump Organization; to the Committee on Oversight and Government Reform.

## CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mrs. MILLER of Michigan:

H.R. 6415.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the U.S. Constitution, which grants Congress the authority to make laws governing the commerce among several states, including employment discrimination laws.

By Mr. ROE of Tennessee:

H.R. 6416.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8 of the United States Constitution.

By Mr. KENNEDY:

H.R. 6417.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 and the 14th Amendment

By Mr. LATTA:

H.R. 6418.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 18

To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

By Mr. LEWIS:

H.R. 6419.

Congress has the power to enact this legislation pursuant to the following:

This bill is enacted pursuant to the power granted to Congress under Article I of the United States Constitution and its subsequent amendments, and further clarified and interpreted by the Supreme Court of the United States.

By Miss RICE of New York:

H.R. 6420.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 of the Constitution of the United States

By Mr. ROSKAM:

H.R. 6421.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the Constitution of the United States of America

By Mr. ROSKAM:

H.R. 6422.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, which states "The Congress shall have Power To lay and collect Taxes," and Article I, Section 7, which states "All Bills for raising Revenue shall originate in the House of Representatives."

By Mr. SHERMAN:

H.R. 6423.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, Clause 3

By Mr. COHEN:

H.J. Res. 104.

Congress has the power to enact this legislation pursuant to the following:

Article V

## ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:

H.R. 169: Mr. COFFMAN.

H.R. 546: Mr. BEYER.

H.R. 590: Mr. HECK of Washington.

H.R. 1061: Mr. HECK of Washington.

H. Res. 753: Mr. PERLMUTTER.  
H. Res. 924: Mr. HECK of Washington.

## EXTENSIONS OF REMARKS

### TRIBUTE TO DAVID JOHNSON, CO-FOUNDER OF POLARIS INDUSTRIES

#### HON. COLLIN C. PETERSON

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2016

Mr. PETERSON. Mr. Speaker, I rise today to pay tribute to a visionary business man from my district, David Johnson. He co-founded Polaris Industries and designed its first snowmobile.

While Mr. Johnson was in the Navy he invested half of his paycheck . . . just \$11 after he received a letter from his friend asking for help. When he returned home after his military service Mr. Johnson went to work for the company.

The company he helped found reached its first billion-dollar sales year in 1995. It now generates over \$4 billion in sales yearly and has a major impact on the local economy.

Despite retiring in 1988, Mr. Johnson was a regular fixture at the company's Roseau, Minnesota plant, which is in my district. He would check in on the newer models the company was producing and he would also give tours and share stories about company history.

Mr. Johnson was a lifelong snowmobile rider. For his 90th birthday, he took a three-day 150-mile ride aboard a Polaris snowmobile from Roseau to his old cabin in the Northwest angle.

Mr. Johnson was inducted into the snowmobile Hall of Fame in 1999. Mr. Johnson died in his Roseau MN home after a long illness. He was 93 years old.

David Johnson is survived by his wife of 68 years, Eleanor, and their children, Rodney, Mary, Mitchell, and Aaron. All Polaris employees were honorary pallbearers for his funeral service.

It was my sincere pleasure to know David Johnson and to work with him.

I ask my colleagues to join me in recognizing the life and achievements of David Johnson.

### TRIBUTE TO STAFF SERGEANT CLAYTON E. MONEYSMAKER

#### HON. MO BROOKS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2016

Mr. BROOKS of Alabama. Mr. Speaker, I rise today to recognize the life and military service of Staff Sergeant Clayton E. Money-maker, who, after service in the U.S. Army during World War II, dedicated 41 years of his life to the service of veterans in the Huntsville-Madison County community and the State of Alabama.

Clayton Eugene Money-maker was born on January 1, 1918 in Heysworth, Illinois to Mr. and Mrs. Lee Money-maker. On August 10, 1943, at 25 years old, Clayton joined the U.S. Army and officially entered active military service on August 31, 1943. Clayton served honorably, and on January 8, 1946, separated from the Army having attained the rank of Staff Sergeant.

In 1981, Clayton mortgaged his home to complete the purchase, construction, and completion of the new home for the Huntsville-Madison County American Legion Post 237.

Clayton served his fellow veterans from 1982 to 2011 in numerous positions including as the American Legion Department of Alabama Commander, the District 12 Commander, the Division 1 Commander, and twice he served as the American Legion Post 237 Commander, spanning 19 years.

In recognition of his dedication to veterans in our community, the American Legion Post 237 membership, living heirs of Clayton, the American Legion Department of Alabama, and the National Headquarters of the American Legion all agreed to rename the Huntsville-Madison County American Legion Post 237 as the Clayton E. Money-maker American Legion Post 237.

Clayton Eugene Money-maker dedicated 41 years of his life to serving veterans in the Huntsville-Madison County community and the State of Alabama.

Today I pay tribute to an extraordinary individual, Clayton E. Money-maker, and express my sincere gratitude for his life of committed service to the veterans of Alabama.

### HONORING THE 10TH ANNIVERSARY OF GRACE HEALTH CLINIC AND THE LEADERSHIP OF DR. RANDY HICKLE

#### HON. RANDY NEUGEBAUER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2016

Mr. NEUGEBAUER. Mr. Speaker, I rise today to recognize the 10th anniversary of Grace Health Clinic in Lubbock, Texas. I would also like to honor Grace Health Clinic's founder and CEO, Dr. Randy Hickle, and recognize his commitment to providing quality, service and value to the countless families throughout the South Plains.

To appreciate this accomplishment, one must understand the humble beginnings from which Grace Health Clinic came.

Dr. Hickle founded Grace Clinic in 2006 with just eight doctors on staff. Under his guidance, Grace Health Clinic has transformed into Grace Health System, growing to more than 50 doctors and specialists and expanding its operations to better serve their patients' needs.

The award-winning clinic is the only locally owned, doctor-operated health facility in the region. Thanks to the tireless efforts of Dr. Hickle, Grace Health Clinic has been able to grow without losing its focus on patients and their healthcare needs.

Mr. Speaker, it is my honor to recognize a clinic that has contributed so much to our community. It is my pleasure to take this opportunity and praise the vision that Dr. Hickle had when he founded this clinic 10 years ago and the leadership he has exhibited throughout this journey.

### RECOGNIZING MR. WILLIAM "BILL" HALD

#### HON. DOUG LAMALFA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2016

Mr. LAMALFA. Mr. Speaker, I would like to recognize Mr. William "Bill" Hald of Grass Valley, California, an artist and a veteran from the North State.

Bill served in the United States Navy from 1967 through 1973. After graduating 2nd in his class, he served as a computer fire control missile technician aboard the USS *Ramsey*, a *Brooke*-class destroyer escort for the USS *Hancock* aircraft carrier in the Western Pacific. Mr. Hald was one of the six crewmembers required to use the *Ramsey's* Tartar Missile System—but during his first tour he was the sole technician able to use the system's analog computer, resulting in long days and nights. Throughout his tour in the Western Pacific, the USS *Ramsey* earned 5 Battle Stars in addition to a number of citations and campaign ribbons. After his service, Bill returned to the North State and began to sculpt, sometimes using patriotic symbols, such as the bald eagle.

Bill's wife Camille placed one of his sculptures, *We The People*, up for the 2016 National Veterans Administration Creative Arts Competition. This annual competition focuses on the use of the creative arts to assist in rehabilitative treatment for enrolled Veterans recovering from, and coping with physical and emotional disabilities. The competition has 51 categories, including sculptures. *We The People* quickly gained recognition, placing first in local and regional competitions. On October 16, 2016, at the National Veterans Creative Arts Festival in Jackson, Mississippi, *We The People* won first place in the sculpture category.

*We The People* portrays a bald eagle perched atop four books: the Holy Bible, on top, followed by three books labelled Legislative, Executive and Judicial to represent the first three Articles of the Constitution of the United States. The right talon of the eagle is placed on the Holy Bible, while it stands "on

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

the wall," over the Constitution in a protective stance. In total, Bill spent over a year crafting the 100 pound pure bronze sculpture in his garage. There are 5,000 accurately handcrafted feathers on the piece. I am deeply grateful to Bill for his service in the United States Navy, but also for the incredible devotion and patriotism that he has shown to his country after his service ended.

HONORING THE LIFE OF THE HONORABLE GEORGE R. GROSSE OF JACKSONVILLE, FLORIDA

**HON. ANDER CRENSHAW**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. CRENSHAW. Mr. Speaker, I rise today to honor the life of The Honorable George R. Grosse. We in Jacksonville, Florida, mourned Mr. Grosse's passing after 86 years of life on June 3, 2016.

Born in Jacksonville, Florida, in 1930, George dedicated his life to his faith, his family and his community. He graduated from Baldwin High School and was a lifelong resident of Jacksonville's Westside. George became an accomplished businessman, a successful law enforcement official, and a public servant who enjoyed a reputation for honesty, fair dealings, and a strong Christian faith. He was a member of Westside Baptist Church where he served as a Deacon for more than 25 years.

George always held an entrepreneurial spirit, a strong work ethic, and the American Dream in his heart. He started a chicken farm and later became a journeyman carpenter. Then in 1957, George joined the Duval County Road Patrol as a Deputy Sheriff. In 1968, he was elected President of the Duval County Fraternal Order of Police Lodge Number 30. Then, when the city and the county consolidated, he was elected as the first President of the consolidated FOP Lodge Number 5-30 and was selected as Officer of the Year for the Jacksonville Sheriff's Office. He continued to serve as FOP President until he left JSO in 1970 to devote his full attention to Gateway Concrete Contractors, Inc., a concrete business he founded and which he ultimately grew to be the largest concrete contractor of its day in Northeast Florida.

In 1973, George was elected to the Florida House of Representatives for District 15. He represented West Duval County, as well as all of Baker, Nassau and Union counties for three terms. I had the privilege of serving with him in the State House for several years and considered him a valued friend and colleague. George resigned his seat in 1977, when President Jimmy Carter appointed him as the U.S. Marshall for the Middle District of Florida, a role he served in until 1982. Later he was appointed by Mayor Jake Godbold to the Jacksonville Electric Authority Board of Directors and was, subsequently, elected Board Chairman.

George was a role model to many and a well-respected leader of our community. He was recognized on several occasions for his

active role in the leadership of the Boy Scouts of America's Great Northern District. In addition, he maintained an active role and presence in local politics his entire life. Each year, George and his wife Corene hosted a bar-b-que at their farm in support of my candidacy for Congress. I was never sure if people came out to see me or George. He dedicated his life to the service of others and his generosity of spirit and warm affability endeared him to his family, his friends and his neighbors. I send my heartfelt condolences to his family and join with all of Jacksonville in mourning our loss.

Mr. Speaker, I ask you to join me in celebrating the outstanding life of one of Florida's and Jacksonville's most outstanding citizens, The Honorable George R. Grosse.

REMEMBRANCE AND HOPE ON  
WORLD AIDS DAY

**HON. JAMES A. HIMES**

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. HIMES. Mr. Speaker, today, December 1, 2016, marks the 28th World AIDS Day—a day to come together in support of people around the world who live with HIV/AIDS, to remember those we've lost, and to commit ourselves to eradicating this vile disease once and for all.

For me, this day conjures back a memory I have of visiting the Names Project AIDS Memorial Quilt on the National Mall on a sweltering day in Washington a few summers ago. Although I was sweating through my suit, it was impossible not to stand there without being profoundly moved. I was moved when I thought about the fathers, mothers, cousins, sisters, brothers, friends, and other loved ones whose lives were cut short by this wretched disease—many of whom had their stories memorialized on a panel of the AIDS quilt for the world to see. Stories like that of Ryan White, an Indiana teenager who was diagnosed with HIV in 1984 after receiving a contaminated blood treatment for Hemophilia. Just 13 years old, Ryan was barred from returning to school, cast asunder by a society that did not yet comprehend that the disease transmits independently of lifestyle. But he spent the rest of his young life advocating for understanding and against an unjust stigma, finally perishing far too young at 18. Countless stories like Ryan's are a reminder that we must never forget how far we've come, and how far we have left to go.

That said, we've made tremendous progress since the first World AIDS Day in 1988. So many people today are alive because of the investment, hard work, activism and commitment of those who fought for this progress, like Ryan—for housing, for prevention, for a fair shake for those who today live with this wretched disease.

In Congress, I have worked with my colleagues on the Congressional HIV/AIDS caucus to support policies that promote research, prevention, and, most importantly, a cure. Through my work with these magnificent colleagues—many of whom have been fighting

this battle since long before I dreamed of running for Congress—I have resolved that we must fully fund programs that fight AIDS at home and abroad. Programs like the President's Emergency Plan for AIDS Relief (PEPFAR) and the Global Fund to Fight AIDS, Tuberculosis, and Malaria—both of which provide antiretroviral HIV treatments and screenings to millions of children and adults around the world. And the Housing Opportunities for Persons with AIDS—a program that allows Americans with AIDS to access subsidized, low-income housing.

Today, our government has made stopping the proliferation of HIV/AIDS a priority, and the impact is real. Last year, the U.S. government spent \$26.42 billion on HIV/AIDS treatment, prevention, and accommodations domestically, and \$6.57 billion for international programs. Between 2005 and 2014, the annual total of new cases has fallen 19 percent largely due to increased screenings and prevention measures. Even still, the lifetime cost of treating an HIV infection is \$379,000—a staggering amount considering that 30 percent of those living with the disease lack health insurance.

I am especially pleased by news that the National Institutes of Health started a grant program in July of this year to fund research into a cure—\$30 million per year over the next five years. amFAR, a non-profit research organization, has committed to investing \$100 million to form the scientific basis for a cure by 2020.

The scientists tell us the moment is now. A cure is possible if we commit ourselves to it. As long as I am in Congress, I will fight to make the necessary resources available to eradicate HIV/AIDS and realize our shared dream of an AIDS-free generation.

IN HONOR OF DAVE POTTER

**HON. SAM FARR**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. FARR. Mr. Speaker, I rise today to honor Dave Potter, a model public servant on this memorable occasion of his retirement from the Monterey County Board of Supervisors. I have had the tremendous pleasure in working with Dave over the years and the great honor to call him a dear friend.

Dave originally hails from Hingham, Massachusetts. In 1970, his van broke down on Highway 1 near Carmel and he just stayed and made the Monterey Peninsula his home. Starting in the early 70s, he built a general contracting business, Potter Construction. That work soon led him into the world of public policy as an appointee to the City of Monterey's Architectural Review Committee and then Planning Commission and ultimately to an elected seat on the Monterey City Council.

In 1996, Dave was elected to the Monterey County Board of Supervisors to represent the Fifth District, the same supervisorial district I represented from 1975 to 1980. He quickly gained a reputation on the Board as a doer, a leader who got stuff done. The Carmel Hill Highway 1 climbing lane is a good example,

and one that many of us use on a daily basis. And then there were countless other tasks and efforts that made life in the Fifth District that much better: resolution to a parking problem, a new park, viable ambulance service, assistance with County Planning, etc. His service stood out particularly in response to disasters both small and large. During the 2008 Basin Complex Fire and this year's Sobranes Fire, Dave and his office were ever present in the thick of the action helping the community and incident command resolve countless issues that came up on an almost daily basis. This kind of service won Dave reelection in 2000, 2004, 2008, and 2012.

During his tenure on the Board, Dave served on many boards, committees and commissions including the California Coastal Commission for 12 years, Monterey Peninsula Water Management District, Fort Ord Reuse Authority, Legislative Committee, Fort Ord Committee, Capital Improvements Committee, Natividad Medical Center Board of Trustees, Chair of Transportation Agency for Monterey County, and Chair of the Rail Policy Committee. In addition, Dave received numerous awards of recognition from 1980 through 2015 from a multitude of local cities and organizations, Chambers of Commerce, including resolutions from California State Senate and Congress representatives.

Mr. Speaker, I know that I speak for the whole House in thanking Supervisor Potter for his many years of dedicated public service. I want to especially thank Dave's wife Janine and his three adult children Myles, Tyler, and Sarah, and grandchildren, Ciara and Bella for lending their husband, father, and grandfather to the people of this community. As a resident myself of the Fifth District, I know that my neighbors and I owe him a deep gratitude for doing so much to improve our quality of life. The world is a better place because of his efforts.

RECOGNIZING THE LIFE AND LEGACY OF NORTHWEST FLORIDA'S BELOVED WILLIAM LEE "BILL" SUTLER

**HON. JEFF MILLER**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. MILLER of Florida. Mr. Speaker, I rise to recognize the life and legacy of Northwest Florida's beloved William Lee "Bill" Sutler, who passed away on November 24, 2016. His love for his family and community, as well as his dedicated service in the United States Navy, will be remembered by all those who knew him.

Bill was born August 31, 1932, in Stanton, Virginia where he grew up with his mother and two sisters. At the young age of 17, Bill made the choice to serve our Nation by joining the United States Navy, serving faithfully and honorably for the next 26 years. Bill utilized his talents as an aircraft mechanic aboard several ships including the USS *Franklin D. Roosevelt*, USS *Saratoga*, USS *Constellation*, and the USS *John F. Kennedy*. Chief Petty Officer Sutler also worked on aircrafts VF-11, VF-31,

VF-121, and the RVAH-11. In 1974, after 26 years of service, he retired as a Senior Chief Petty Officer. After retirement, Bill continued his career by working for the state agriculture department and remained active in both Pineview Methodist Church and his community.

Those who knew Bill, know that he was a kind, generous, and smart man. He will always be remembered fondly for the unwavering love that he held for his family and his country.

On behalf of the United States Congress, I am privileged to recognize the life of William Lee "Bill" Sutler. My wife Vicki and I extend our heartfelt prayers and condolences to his wife Shirley "Colleen" Sutler; sons, William Jr. "Billy" and Virginia Sutler, Michael and Cheryl Sutler, and Robert "Bobby" and Diane Sutler; six grandchildren, Penny, Jennifer, Emily, Emmett, and Caleb Sutler, and Amanda Bell; and two great-grandchildren.

HONORING DEPUTY COMMANDER  
PAT CAROTHERS

**HON. BOB GOODLATTE**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. GOODLATTE. Mr. Speaker, nearly two weeks ago, our nation lost another dedicated public servant committed to protecting our neighborhoods from criminals.

Deputy Commander Pat Carothers of the Southeast Regional Fugitive Task Force died in the line of duty while executing an arrest warrant for a fugitive wanted for attempted murder of police officers and domestic violence.

Deputy Commander Carothers served in the U.S. Marshals Service for 26 years. He was a native of Luray, Virginia, in the Sixth Congressional District which I represent, and spent his career serving the Northern District of Georgia. For over a quarter of a century, he risked his life every day to arrest fugitives of the law and see them brought to justice for their crimes.

In addition to wearing the badge, Deputy Commander Carothers was also a family man. He was married to his wife Terry for 30 years and was a loving father to five children. As the Carothers family mourns their devastating loss, we pray that God would comfort them and give them peace.

The murder of Deputy Commander Carothers reminds us once again that law enforcement officers face danger every day while on duty, whether simply knocking on a door or pulling someone over.

In 2016 alone, 132 law enforcement officers died in the line of duty. Attacks on those who protect our neighborhoods from criminals and keep the peace are not to be tolerated. I—and others in Congress—stand shoulder to shoulder with our nation's law enforcement officers and remain committed to finding solutions to reduce violence and aggression towards them.

In the Gospel of John, we are told that there is no greater love than to lay down one's life for one's friends. And this is true of Deputy Commander Carothers. Every day he risked

his life so that others would be safe from harm. He is a hero and deserves to be recognized and honored for his service to our country.

CELEBRATING THE TOWN OF  
WESTBOROUGH, MASSACHUSETTS

**HON. JAMES P. McGOVERN**

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. McGOVERN. Mr. Speaker, today I rise to celebrate the town of Westborough, Massachusetts as they enter the year of their 300th anniversary. Westborough was the 100th town to be incorporated in the Commonwealth of Massachusetts on November 18th, 1717. Westborough has had an impressive history.

Forty-six Minutemen left Westborough on April 19, 1775 under the command of Captain Edmund Brigham to fight in the opening battle of the Revolutionary War. In the early 1800s, Westborough became a key stop as travelers to and from Worcester and Boston stopped along their journey.

Today, Westborough is a vibrant, thriving, and diverse town with an excellent school system and a family-oriented community. Westborough has been named "one of the best places to live" and a "top ten best town for families."

Westborough's location at the center of Massachusetts has helped propel its thriving local economy. Westborough has many unique family-owned small businesses and is home to the headquarters of some of New England's most notable companies.

Congratulations, again, to the town of Westborough. As Westborough looks ahead to the next 300 years, I am proud to join so many in wishing them a bright and prosperous future.

TRIBUTE TO WAYNE STATE UNIVERSITY POLICE OFFICER  
COLLIN ROSE

**HON. SANDER M. LEVIN**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. LEVIN. Mr. Speaker, I rise today with a heavy heart to commemorate the life of Wayne State University police officer Collin Rose, who was killed in the line of duty on November 23, 2016. Officer Rose was my constituent, and lived in St. Clair Shores, Michigan.

A K9 officer with the Wayne State University Police Department in Detroit, Officer Rose not only protected the faculty, staff and student body at the University, but also the community surrounding Wayne State's campus. He was known to his friends and colleagues as a person of boundless energy, for his commitment to the safety of those he was sworn to serve, and for his kindness and generosity to others. A fellow member of the Wayne State University Police Department, Chris Powell, described Officer Rose as "... the light of the

room. He was bears to honey. Everyone would befriend him."

As a memorial bicyclist with Chapter One of the Police Unity Tour, Officer Rose proudly honored police officers throughout the country who died in the line of duty. In addition to helping to broaden public awareness of the sacrifices made by fallen officers, Officer Rose and other Unity Tour participants throughout the nation have helped to raise millions of dollars for the National Law Enforcement Officers Memorial Fund and the National Law Enforcement Museum. An avid cyclist, Officer Rose proposed to his fiancée, Nikki Salgot, after completing the last leg of the Police Unity Tour on May 12th of this year.

A 13-year old boy, Kameron Greene, who lives near Wayne State and who came to know Officer Rose though his consistent outreach to young people in the neighborhood, told WXYZ-TV in Detroit, "It's sad that he lost his life, and we lost a good friend." So with profound sadness at his loss and deep gratitude for his service, I encourage my colleagues to join me in paying tribute to Officer Collin Rose, who was indeed a good friend to so many people, and in offering sincere condolences to Officer Rose's fiancée, Nikki Salgot; to his parents, Randy and Karen Rose and his brother Curtis Rose; to his colleagues with the Wayne State Police Department; and to the Wayne State community.

HONORING REVEREND FRANK E.  
COLEMAN JR.

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, as Messiah Baptist Church in Yonkers celebrates the installation of a new Pastor, I wanted to take the opportunity to congratulate and welcome the congregation's new leader, Westchester's own Reverend Frank E. Coleman Jr.

A graduate of Tuckahoe High School, Rev. Coleman attended Virginia Union University where he graduated with a B.A. in Religion & Philosophy. Later he graduated from Alameda University where he received his Master's degree in Pastoral Studies.

Rev. Coleman began his Pastoral career at Zion Baptist Church in Westmoreland, Virginia, before moving back to Westchester as Pastor of Shiloh Baptist Church in Tuckahoe. In 2010, he once again returned to Virginia as Pastor of the First Baptist Church in South Boston and remained there until 2014, when he once again returned home to Westchester. Since September, 2015 Rev. Coleman has served as Pastor-Elect of the Mother Church, The Messiah Baptist Church in Yonkers, New York.

In addition to his Pastoral duties, Rev. Coleman has left a lasting legacy of helping others everywhere he goes. He was the Vice President of the Halifax County Substance Abuse Awareness Coalition, Commissioner of The Southside Planning District Commission, Board Member of The Department of Social Services in Halifax, member of the S.C.L.C.,

Danville Branch and he served as the President of the Halifax/South Boston NAACP. He has also served as V.P. of the Tuckahoe School District's school board, Member of the Tuckahoe Village's Ethics Board and Co-Founder/President of the Committee Worker for All Children (CWAC).

Of course, Rev. Coleman's true love has always been family. He is the husband of the Rev. Margaret Fountain Coleman of Mount Vernon New York and the father of one son and three daughters.

I am honored to help welcome Rev. Coleman to Messiah Baptist and I wish him nothing but the best in his tenure.

HONORING U.S. ARMY CORPS OF  
ENGINEERS SAINT PAUL DISTRICT  
ON 150 YEARS

**HON. BETTY McCOLLUM**

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Ms. McCOLLUM. Mr. Speaker, I rise to congratulate the U.S. Army Corps of Engineers Saint Paul District on 150 years of service to residents of Minnesota and the entire upper Mississippi region. The Saint Paul district has, over the past century-and-a-half, conserved our aquatic habitats, managed the effects of drought and flood damage, provided outdoor recreation areas for the public, and ensured that the products and services produced in our region have the ability to be transported safely via our waterways. This is only to name a few of the critical tasks performed by the U.S. Army Corps of Engineers Saint Paul District.

The Saint Paul District celebrates its birthday on August 17th every year because it was on that day in 1866 that Major General G.K. Warren, a West Point Graduate acclaimed for his leadership in the battle of Gettysburg, arrived in Saint Paul. His orders were seemingly modest: To establish an engineering office. He could not have known at the time, but the office that he established would go on to be entwined with the economy and history of the entire region. The first emergency that the St. Paul District responded to was the collapse of the Eastman Tunnel of Nicollet Island in Minneapolis. With expertise and precision, the Saint Paul district constructed structures to save both the island and nearby St. Anthony Falls. The structures that they built are still in use to this day.

Later on its history, the Saint Paul District supported the nation's mobilization during World War II. The Saint Paul District dredged the Minnesota River to the Port of Cargill, where Minnesota-based Cargill was building ships for the war effort. In addition, they also built an ordnance plant in Arden Hills, Minnesota, and airports in Fargo and Devil's Lake, North Dakota.

Today, any visit to the Mississippi River in St. Paul, showcases the work that the Saint Paul District does. The 13 locks and dams, and 9 foot navigation channel that the Saint Paul District operates and maintains, goes to support economically crucial inland navigation that benefits the entire upper Mississippi re-

gion. One of the most important tasks that the Saint Paul District has is to help communities combat the effects of flooding through disaster support and by the construction of flood risk management projects. This includes 16 large reservoirs for flood risk reduction that also offer recreation and fish and wildlife habitat. Another little known operation of the Saint Paul District is the operation of 49 separate recreation areas open to the public.

The Saint Paul District has supported the citizens of the Fourth Congressional District, and thousands of people in the upper Mississippi River region for 150 years. Every task that they undertake goes to benefit the people they serve by strengthening the local economy, enabling the movement of goods and people, maintaining and restoring natural aquatic ecosystems, and reducing and preventing the effects of floods and droughts. Mr. Speaker, please join me in congratulating the Saint Paul District of the U.S. Army Corps of Engineers on 150 years of service.

USS "JOHN P. MURTHA" (LPD-26)

**HON. MARCY KAPTUR**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Ms. KAPTUR. Mr. Speaker, I rise today to recognize the commissioning of the USS *John P. Murtha*, the new naval vessel named in honor of the late Congressman Jack Murtha, who will fondly be remembered as a decorated combat Marine, statesman, and dear friend to colleagues on both sides of the aisle.

On Saturday, October 8, 2016 in Philadelphia, PA, the Navy's 10th *San Antonio*-class amphibious transport dock, named the USS *John P. Murtha* (LPD 26), was commissioned by his beloved widow Mrs. Joyce Murtha and daughter Ms. Donna Murtha.

During his 58 years of service to our nation, 38 in the U.S. Marine Corps and 35 as a Member of U.S. Congress from Johnstown, PA, Rep. Murtha was an indefatigable champion for the Armed Services, rising in 1989 to chair the House Defense Appropriations Subcommittee. His detailed knowledge of the U.S. military, deep friendships across the various services, respect from his Congressional colleagues on both sides of the aisle, and wry sense of humor drew people to him and made him a highly effective lawmaker. Jack was a father of three children, the first Vietnam War combat veteran elected to Congress, recipient of the John F. Kennedy Profile in Courage Award, and staunch representative of his people. His own wartime experience as a battalion staff officer in Vietnam, where he was awarded the Bronze Star, two Purple Hearts, and the Vietnamese Cross of Gallantry, gave him deep insight into the political and military complexities of modern warfare.

An author, *From Vietnam to 9/11: On the Front Lines of National Security with a New Epilogue on the Iraq War*, he wrote: The Congress—the people's branch of government—has an obligation to make an independent assessment of key foreign policy issues. The way we go about collecting, analyzing, and

using intelligence information is one of the most important determinants of our success or failure in world events. Unfortunately, it is a lesson we have had to learn too often, at a heavy price in American blood and treasure. What is certain, is that intelligence must always be used as a tool of statecraft, not as a political tool.

As this ship performs its missions on behalf of the American people, I have full confidence Jack Murtha's patriotic and strong spirit—Semper Fidelis—will be guiding the vessel if it encounters troubled waters as it navigates toward fair winds and following seas.

I include in the RECORD the remarks of Democratic Leader NANCY PELOSI given at the commissioning of the USS *John P. Murtha*.

PELOSI REMARKS AT USS JOHN P. MURTHA  
COMMISSIONING CEREMONY

PHILADELPHIA.—House Democratic Leader Nancy Pelosi delivered remarks today, October 8, 2016, at the commissioning ceremony of the USS *John P. Murtha*. Below are the Leader's remarks:

"Good morning. Thank you very much, Admiral William Moran for your kind introduction but more importantly, for your great leadership. As one that grew up in Baltimore, Maryland, I have a great loyalty to the Naval Academy, so I appreciate your comments about the Navy—but I had four brothers who served in the Army so . . .

[Laughter and applause]

"It is an honor to be with you today, with Secretary Valdez—please give our regards to Secretary Mabus—to Major General Christopher Owens—it is a proud day for all of us to come together for the Navy and the Marine Corps, for the Commissioning of the USS *John P. Murtha*.

"Chairman Murtha—as you have heard—was a legislator of unsurpassed talents, a soldier of extraordinary courage and a public servant to the end. Mr. Brady—my colleague, Congressman Brady is correct: we will never see his light again.

"I thank the Murtha family for the opportunity to make this address today. I appreciate this opportunity to bring the greetings and congratulations from Jack Murtha's many friends in the Congress of the United States, on both sides of the aisle, on both sides in the Capitol and all the way down Pennsylvania Avenue.

"I am glad to be with my colleagues—present and former—the Undersecretary of the Army Patrick Murphy—as he mentioned, the first Iraq veteran to serve in the Congress—Congressman Bob Brady, in whose district we are and great friend of Jack Murtha's, Congressman Keith Rothfus, he represents the district that Jack represented in Congress, and as well as Mark Critz, who followed in Jack's footsteps, and Marjorie Margolies-Mezvinsky, who is here as well—who represented Philadelphia in Congress. It is also an honor to be here with Lieutenant Governor Michael Stack—recognizing the important role that Pennsylvania and Philadelphia play in our national security.

"It is appropriate for us to be here in Pennsylvania to honor Jack Murtha—a state he loved and was proud to represent and to serve. In the House Chamber—Congressman Bob Brady mentioned the 'Pennsylvania Corner'—Jack took great pride that in the House of Representatives, the 'Pennsylvania Corner' was the most bipartisan corner in the Chamber. In the Chamber, everyone gravitated toward Jack Murtha—Democrats and Republicans alike.

"To Brian Cuccias—Brian and the Ingalls shipbuilders, thank you for the skill, hard

work and patriotism of all the men and women of labor who built this fine ship that enters service today. And many of you were in Mississippi when Donna christened the ship. It is wonderful to see so many of you here today. Thank you. Thank you for making today possible.

[Applause]

"Commanding Officer, Captain Kevin J. Parker, it was a privilege to be with you last year in Mississippi at the Murtha's christening when you were the prospective commander, and now at this time-honored commissioning ceremony to become the Commanding Officer—that is when Donna gives the signal. When Donna gives the signal—we're all waiting for her.

"And to the sailors and the Marines—the men and women who will crew this ship over the oceans and perhaps ride it into battle, take it to humanitarian assistance—to you, and your families—thank you for honoring our country, all of us with your bravery and service.

[Applause]

"It is a joy to be with the family members, as my colleagues and others have said, Jack's daughter, our ship sponsor, Donna, his sons John and Pat, grandchildren, nephews and nieces and others.

"I send the congratulations and thanks of my colleagues in Congress to Joyce—Joyce, the love of Jack's life. She and Jack were both so proud of having this ship named in his honor but Admiral Joyce was very proud to comment that the ship that she christened, the USS *Bonhomme Richard*, was a bigger ship. Not a competition, though.

"Service runs deep in Jack Murtha's family from his brothers, Kit and Jim, to his nephews Brian and Bob—all proud Marines—and his grandson, Lieutenant Jack Murtha in the Air Force, and to Jack's wife, Captain Amanda Murtha.

"Today, as you commission, as we all commission, the USS *John P. Murtha*, I want to tell you a little bit about the man your ship is named for—his legacy of strength, effectiveness and fidelity. As was mentioned by my colleague, as a child, John's grandmother told him: 'You are put on this earth to make a difference.' And that's exactly what he did. John P. Murtha dedicated his entire life to the service of our nation.

"Jack Murtha was a fiercely proud Marine, who volunteered for combat in Vietnam—earning two Purple Hearts and a Bronze Star. In the end, Congressman Murtha would leave the Corps with 37 years of service to his name. How proud he was of that.

"In the Congress, Chairman Murtha was a formidable legislator and a towering leader. To watch Jack Murtha legislate was to observe a master at work. But more indicative of his character was to watch him communicate, with our troops in theater, at the Pentagon, and in their hospital rooms.

"His experiences in the battlefield of Vietnam was what fueled his boundless dedication to our men and women in uniform—with that connection to those warriors he frequently visited in Washington, across the country and around the world.

"A few of us had the privilege of traveling in bipartisan delegations with Jack—and this one in particular to Kuwait, a few weeks before the initiation of hostilities into Iraq—we observed the level of detail with which Jack conversed with the soldiers, whether it was the comfort of the seats in their Humvees—how much they could endure as they did their jobs—responding to their needs, providing body and vehicle armor and reliable radios—you name it. Again, not just

the big picture, but down to the personal comfort and safety of our troops.

"In those moments, Jack bonded with them, sharing his own personal military experiences, and caring for them really as a father—as Secretary Murtha said, he treated them as family. And they returned his respect.

"We often saw this when he would take groups of us—as Bob mentioned—take groups of us on regular visits to our wounded warriors in the hospitals. One day as we were going into one of the rooms and the nurse came and said, 'Hold up. Hold up for a while.' We wanted to be very respectful and sensitive to the privacy of the soldiers. But when we walked in to the room, we saw a young, injured soldier standing at attention by his bed and saluting Jack Murtha wearing a Pittsburgh Steelers jersey right after they had won the Super Bowl.

[Applause]

"That was football but it was very personal with Jack.

"It is important to note that Jack defined our nation's strength, not only in our military might—as important as our military is and the priority that it is—but also our strength is measured by Jack in the health and well being of the American people.

"Chairman Murtha fought for the armed forces—whether it was for what they needed, for our troops, facilities—but he also fought to advance scientific research to seek treatments and cures for breast cancer, prostate cancer, diabetes, and HIV/AIDS—the list goes on and on. Today, at Walter Reed, the John P. Murtha Cancer Center carries forward his commitment to the health of our entire community.

"John Murtha made a difference—for our national defense, for our nation's health, for the men and women who wear our nation's uniform.

"Commander Parker, as this fine ship comes alive with her outstanding crew, the strength of the USS *John P. Murtha* will embody our nation's promise to stand with you and your crew—through the storm and the calm, both as you defend democracy abroad, and when you come home safely. And when our men and women in uniform come home, Jack wanted them to feel safe as well.

"In the military, he always told us: on the battlefield, we leave no soldier behind. And when they come home, we leave no veteran behind. So I join all of those saluting our veterans who are here today. That was a priority for Jack Murtha.

[Applause]

"'Semper Fi' was the watchword of Jack Murtha's life. And always faithful he was: to his principles, to his promises, to his family and to the nation he loved.

"As we place the Murtha into active service, we also renew our pledge to also always be faithful to you—the sailors and Marines who will board her today, and to every crew who follows.

"Like John P. Murtha, each of you has stepped forward and answered the call to 'make a difference'—for our country, and for the world. Be proud of the legacy that has been passed down to you, be proud of your ship's namesake and motto, and be proud of the values you share.

"May God bless the USS *John P. Murtha*.

"May God bless the brave men and women who will serve aboard it—and the privilege of serving as the first crew for one of these great ships, who will be transported within it—and the families who wait for their safe return. You are family to all of us. You will always be in our prayers.

"May God bless you and may God bless the United States of America."

#### HONORING BOB STAUF

#### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, as a former school teacher, I know just how dedicated our educators are to their students as well as the community as a whole. In the Bronx and Westchester, no one has displayed that dedication more than Bob Stauf, one of the honorees at this year's American Irish Association of Westchester Annual Dinner.

Involved in the world of education for a half century, Bob Stauf has taught elementary and junior high students at St. Philip Neri School in the Bronx, in the Yonkers Public School system and Yonkers and Tarrytown Salvation Army citadels. His work with the Salvation Army has also extended to its Advisory Board, on which he currently serves as President for the Yonkers chapter. Bob is also the President of the 3rd Precinct Police Community Council, Vice President of the American Irish of Westchester, and facilitator of programming of Brahma Kumaris in Westchester. He has also taught adult education and home school instruction with the Yonkers School System and the Children's Village Yonkers Satellite program.

Bob has also made a difference at the local level through his work in City government. He has chaired the Yonkers Human Rights Commission under two administrations, chaired the Mayors Community Relations Committee and Mayor's Committee on Irish Affairs, chaired the Yonkers Community Action Program and was Vice Chair of New York State Community Agencies.

In addition, Bob is a good friend who was personally helpful to me just prior to my first trip as a Member of Congress to Ireland. He was a wonderful resource on Irish matters, and even traveled with me on that trip.

This year the American Irish Association of Westchester is honoring Bob Stauf at their Annual Dinner Dance. I want to congratulate Bob on this well-deserved honor and thank him for his many contributions to both the Bronx and Yonkers communities.

#### CELEBRATING KAZAKHSTAN'S 25 YEARS OF INDEPENDENCE

#### HON. DANA ROHRBACHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ROHRBACHER. Mr. Speaker, on December 16th the people of Kazakhstan will celebrate 25 years of their independence. From the collapse of the Soviet Union to the present day, Kazakhstan has become a valued member in the international community and is a respected voice as a nonpermanent member of the United Nations Security Council. For the United States, the first country to

recognize Kazakhstan's independence, this moment not only symbolizes Kazakhstan's remarkable development, but also marks 25 years of cooperation and friendship between our two nations.

Our strategic partnership was founded on a shared interest in nuclear nonproliferation and security. When the Soviet Union dissolved, Kazakhstan inherited the fourth largest nuclear stockpile in the world. Rather than using those resources in unproductive ways, through President Nursultan Nazarbayev's leadership this nuclear arsenal was decommissioned and Kazakhstan has continued to cooperate in these efforts.

Over the 25 years the economic relationship between Kazakhstan and the United States has greatly expanded as well. The Kazakh economy is dynamic and open to the world. From 1993 to 2013 American firms invested more than \$42 billion in Kazakhstan, and trade between our nations is measured in the billions of dollars per year.

The government and the people of Kazakhstan have made great strides in building an economically diverse, multi-ethnic and prosperous country. Kazakhstan exemplifies a country of religious diversity and shows the world how people of various faiths can live together in peace. I congratulate them on that achievement. In the coming years, I hope to see the cooperation between the United States and Kazakhstan continue to grow as future leaders build on the successful foundation that has already been laid.

#### HONORING CHIEF KATHLEEN HARRELL ON HER RETIREMENT

#### HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. HASTINGS. Mr. Speaker, I rise today to honor Chief Kathleen Harrell, on the occasion of her retirement from the Florida Department of Corrections.

Chief Harrell has given 30 years of distinguished public service to the State of Florida through her knowledge, integrity and leadership. Her tenure at the Florida Department of Corrections began on August of 1986, where she worked as a Field Agent within the Correctional Probation sector. She then spent several years performing professional work investigating, assessing, supervising, counseling, administering, and/or classifying offenders as a Correctional Probation Officer. It was in 1993 when she joined the Office of Inspector General and strived passionately to become the Assistant Chief of Investigations for the Florida Department in January of 2013. Chief Harrell deserves our admiration and respect for her dedication to public service.

Besides working tirelessly to ensure the wellbeing of Florida's citizens, Chief Harrell dedicates time to worship as a member of the New Mount Olive Baptist Church in Ft. Lauderdale, FL since 2011. She has also been an avid cyclist for ten years and frequently participates in fundraising rides for multiple sclerosis and HIV/AIDS charities. If there's something Chief Harrell loves as much as cycling, it is

the Miami Dolphins, being a seasonal ticket holder for around fourteen years now.

Mr. Speaker, it is my distinct honor to congratulate Chief Kathleen Harrell on her retirement. I wish her the very best of luck in all her future endeavors.

#### REMEMBERING MR. TOM BAKER

#### HON. CATHY McMORRIS RODGERS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. McMORRIS RODGERS. Mr. Speaker, I rise to honor the memory of Tom Baker of Waitsburg, Washington who passed away on November 14, 2016 at the age of 86.

Tom Baker was born on April 17, 1930 in Fort Morgan, Colorado. As a child, he was a member of the Boy Scouts of America, and active in various church, music, and social events. Following his high school graduation, Tom attended the Carnegie Institute of Technology, where he graduated with a Bachelor's of Science in Printing Management in 1953. It was during his college years that he met and fell in love with his wife Anita.

Tom's passion and dream from a young age was to work in newspapers. Following positions with various local newspapers in Colorado, Tom and Anita eventually moved to Waitsburg in 1963, where Tom bought stake in the Waitsburg Times, eventually becoming editor and publisher in 1964.

As publisher of the Waitsburg Times for 27 years, Tom was able to employ his dry wit and unique style while chronicling the life and times of the people of Waitsburg. Tom officially sold his stake in the Waitsburg Times in 1991, but happily contributed to the paper with his weekly column "TOMfoolery" until 2009. Tom understood the importance of providing the citizens of Waitsburg with a weekly print newspaper tailored to their interests and passions.

An active member of his community, Tom enjoyed spending his time working with the Waitsburg Commercial Club, Masonic Lodge No. 16, the Waitsburg Historical Society, the Waitsburg Presbyterian Church Choir and Board of Elders, the Walla Walla Community College Board of Trustees, and the Washington Newspaper Publishers Association among many others.

Tom was also an active and loyal community servant, who ably filled roles on the Waitsburg City Council and served as Mayor of Waitsburg on two separate occasions.

Tom is survived by his wife of 64 years, Anita, his sons Charles and Loyal, and daughter Peggy, as well as numerous grandchildren and great-grandchildren.

Mr. Speaker, Tom Baker was a dedicated public servant and important member of the greater Waitsburg community for many years who will be truly missed. His positive spirit, belief in the good of the community, and devotion to his passions was truly admirable. I will fondly remember Tom Baker and share my condolences with his family.

INTRODUCTION OF CONSTITUTIONAL AMENDMENT TO ELIMINATE THE ELECTORAL COLLEGE AND PROVIDE FOR THE DIRECT ELECTION OF THE PRESIDENT AND VICE PRESIDENT

**HON. STEVE COHEN**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. COHEN. Mr. Speaker, I rise today in support of a constitutional amendment I introduced today to eliminate the electoral college and provide for the direct election of our nation's President and Vice President.

For the second time in recent memory, and for the fifth time in our history, we have a President-elect, who lost the popular vote.

The reason is because of an antiquated system that was established to prevent citizens from directly electing our nation's President.

That notion—that citizens should be prevented from directly electing the President—is antithetical to our understanding of democracy.

In our country, "We the People," are supposed to determine who represents us in elective office.

Yet, we use an anachronistic process for choosing who will hold the highest offices in the land.

It is time for us to fix this, and that is why I have introduced this amendment today.

When the Founders established the electoral college it was in an era of limited nationwide communication. It was premised on a theory that citizens would have a better chance of knowing about electors from their home states than about presidential candidates from out-of-state.

The development of mass media and the internet, however, has made information about presidential candidates easily accessible to U.S. citizens across the country and around the world.

Today, citizens have a far better chance of knowing about out-of-state presidential candidates than knowing about presidential electors from their home states. Most people don't even know who their electors are.

As Thomas Jefferson said, "I am not an advocate for frequent changes in laws and constitutions, but laws and institutions must go hand in hand with the progress of the human mind. As that becomes more developed, more enlightened, as new discoveries are made, new truths discovered and manners and opinions change, with the change of circumstances, institutions must advance also to keep pace with the times. We might well as require a man to wear still the coat which fitted him when a boy as civilized society to remain ever under the regimen of their barbarous ancestors."

Since our nation first adopted our Constitution, "We the People," have amended it repeatedly to expand the opportunity for citizens to directly elect our leaders. What resulted was the following:

The 15th Amendment guarantees the right of all citizens to vote, regardless of race.

The 19th Amendment guarantees the right of all citizens to vote, regardless of gender.

The 26th Amendment guarantees the right of all citizens 18 years of age and older to vote, regardless of age.

And the 17th Amendment empowers citizens to directly elect U.S. Senators.

We need to empower citizens to directly elect the President and the Vice President of the United States.

I am privileged to serve as Ranking Member of the House Judiciary Committee's Subcommittee on the Constitution and Civil Justice. My colleagues and I at the Judiciary Committee will be holding a forum next week to examine our outdated presidential election process. I hope members will attend and share their views.

Working together, I know we can fix this historical anomaly, and make our Constitution better reflect the "more perfect Union" to which it aspires.

HONORING MARY KEEHAN

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to recognize a leader in our community, Mary Keehan, who is an honoree at the American Irish Association of Westchester Annual Dinner Dance.

Mary was born in White Plains, New York to Peter and Catherine Kevill, who emigrated from Ireland and married in Scarsdale. Mary attended White Plains High School and simultaneously worked part-time at Macy's department store. Eventually graduating with honors and becoming an office manager for a Chiropractor, Mary felt her passion in a different field and decided to return to school in the field of Electrolysis.

Mary combined passion for service and business, and she established her own practice in Electrolysis. Her business has served thousands of people for the past 34 years, while her service to her community through volunteerism made an equally lasting impact.

Mary became a member of the American Irish Association, where she held the office of President in 2008, and currently serves as the financial secretary. Mary is also a member of the Tarrytown LAOH, and is often seen leading the Rockland County Ancient Order of the Hibernian's Pipe Band in marches and parades as "Banner Mom".

With such an impressive record of civic engagement, it's no surprise Mary's list of accomplishments is extensive: President of the Ardsley American Legion Auxiliary for six years, President in 1981 of the Westchester County American Legion Auxiliary, National Board Member at the NYS Electrolysis Association, President of the Ardsley Garden Club, Board Member of the Ninth District of Federated Garden Club of NYS, Board Member of the Girls Scout of Westchester-Putnam, and committee member of Dobbs Ferry Woman's Club. She also serves on the Board of Elections for the Town of Greenburgh.

Married to George Keehan, Mary and her loving husband raised six wonderful children

together. She is also the proud grandmother of six amazing grandchildren, her pride and joy.

Mary has shown incredible spirit through her service and love of family. It is an honor to recognize her as one of the American Irish Association of Westchester Annual Dinner Dance Honorees. Congratulations to Mary on this most deserved recognition.

RECOGNIZING THE PEORIA LIONS ON THEIR STATE TITLE

**HON. CHERI BUSTOS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. BUSTOS. Mr. Speaker, I rise today to honor The Peoria Lions for their Class 5A championship win against the Vernon Hills Cougars earlier this week.

Peoria struggled to stop the Cougars in the first half, but the Lions forced three second-half turnovers, allowing them to build a two-score lead. Junior quarterback Coran Taylor threw for 215 yards and two touchdowns, and added 134 yards and three scores on the ground. Fellow junior Geno Hess led all rushers with 215 yards and two touchdowns of his own. In the end the Lions racked up 621 yards in their 62-48 win.

I congratulate the Peoria Lions on their outstanding victory in their 5A championship win. The Lions are now first-time state champions, a testament to the impressive football program that coach Tim Thornton has built.

Mr. Speaker, as a former athlete, I understand how important this is to the young men, the coaches and the community. They never gave up. They kept playing their best, and their team spirit and belief in themselves helped them become state champions. Their efforts and resilience should inspire us all.

RECOGNIZING SYSCO NORTH TEXAS' OSHA "STAR SITE" HONOR

**HON. KENNY MARCHANT**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. MARCHANT. Mr. Speaker, I rise today to recognize Sysco North Texas and its nearly 600 employees for the achievement of being recognized as an OSHA Voluntary Protection Program "Star Site."

The Star Site designation is the highest honor within OSHA's Voluntary Protection Program. The Program rewards companies who lay out a comprehensive compliance and safety risk management plan for internal controls, which translates directly into fewer workplace injuries and illnesses. Sysco North Texas received this award by maintaining a workplace injury incident rating well below the industry average, and by meeting other strict metrics for workplace safety.

Sysco North Texas operates an 800,000 square foot facility in Lewisville, Texas, serving nearly 4,000 customers throughout the

Dallas-Fort Worth metro region and beyond. The facility has been in operation since 1973. As an upstanding business in the 24th District of Texas, I am proud to represent Sysco North Texas here in Congress. I commend them and all other businesses around my district as they continue to provide good jobs and safe work environments for Texas citizens.

Mr. Speaker, it is a pleasure to recognize the safe and beneficial work environment Sysco North Texas provides for its employees. I ask all of my distinguished colleagues to join me in recognizing this hard earned achievement.

---

IN RECOGNITION OF ROBERT W. LOHR, JR.'S 30 YEARS OF PUBLIC SERVICE

### HON. BARBARA COMSTOCK

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. COMSTOCK. Mr. Speaker, I am honored to thank Mr. Robert W. Lohr, Jr. for his three decades of extraordinary leadership and service to the town of Purcellville, Virginia, located in my congressional district.

Mr. Lohr has served in local government for 30 years, and for the past 23 years he was the town manager of Purcellville. As town manager he has been instrumental in the growth and development of Purcellville. Mr. Lohr has overseen Purcellville's rapid growth to a community of around 9,000 residents.

In his role as town manager, Mr. Lohr, oversaw a number of important projects to improve the local infrastructure and quality of life for Purcellville's residents. Some of these projects include the development of the Basham Simms Wastewater Treatment Plant and the Purcellville Maintenance Facility, as well as the effort to preserve and improve historic downtown Purcellville. Mr. Lohr's dedication to bettering the town and the lives of its citizens has been evident during his years of tireless service.

Mr. Lohr's selfless desire to constantly improve Purcellville never went unnoticed, least of all to his colleagues in the town government. Working in close collaboration with the town council, Mr. Lohr was able to identify the needs of the town's citizens, and develop a strategy in order to complete their needed goals.

Mr. Speaker, I now ask that my colleagues join me in recognizing Mr. Robert Lohr, Jr.'s 30 years of public service, especially those 23 years as town manager of Purcellville, Virginia. Today, we honor and celebrate the contributions he has made to the town and all its citizens. I wish him all the best in his future endeavors.

RECOGNIZING JOHN NESGODA AS THE AMERICAN VETERANS (AMVETS) POST 1 OF PENNSYLVANIA'S VETERAN OF THE YEAR

### HON. LOU BARLETTA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. BARLETTA. Mr. Speaker, it is my privilege to honor Mr. John Nesgoda for receiving the American Veterans (AMVETS) Post 1 of Pennsylvania's Veteran of the Year Award. AMVETS' mission is to enhance and safeguard the entitlements for all American veterans that have served honorably. Through leadership, advocacy, and engagement, AMVETS work to improve the quality of life for our veterans, their families, and their communities, and John's years of dedication to these principles have earned him this important award.

During the height of the Vietnam War, John answered the call to serve his country and enlisted in the United States Air Force. From 1963 to 1967, John served overseas providing communications support to troops on the front lines. His service to others did not stop after leaving active duty. As 3rd Vice Commander, and a lifetime member of AMVETS Post 1, John leads by example and works every day to ensure that all Pennsylvania veterans are taken care of. He is a lifetime member in the McAdoo Veterans of Foreign Wars Post and a member of the Quakake American Legion. John has also spearheaded fundraising efforts that support veterans' programs like PTSD Working Dogs for PA Veterans, Hazleton Cold Weather Shelters for local veterans, coordinated numerous military funerals, and assists with cemetery maintenance.

Mr. Speaker, I wish to congratulate Mr. John Nesgoda for receiving the American Veterans (AMVETS) Post 1 of Pennsylvania's Veteran of the Year Award. His years of service, during both active duty and as a veteran, have exemplified his commitment to his country and the military veterans in the Commonwealth of Pennsylvania. On behalf of my constituents, I thank John for his dedication and wish him and his wife Carol all the best in their future endeavors.

---

HONORING MARY "SCOTTY" O'SULLIVAN

### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to honor a beautiful spirit, Ms. Mary P. O'Sullivan, known commonly around the neighborhood as "Scotty." Mary went to her eternal home April 18th, 2016 surrounded by her loving family and friends. Though she is no longer with us, Scotty's contributions to the community will forever live on, as she has left a lasting impact on all of those she was able to touch in life.

Scotty, along with her husband, the late Jimmy "Sonny" O'Sullivan, were the propri-

etors of "Tara Irish Gift Shop" in Inwood for over 35 years. The store was a local mainstay for decades, selling everything from checkered Irish walking caps and Celtic crosses to green neckties bedecked with little Irish flags. She operated the shop at 609 West 207th Street with Thomas and Kathleen Traynor until 2001, a remarkable run for any business establishment in New York City.

Scotty was also incredibly active in an array of community groups, and was especially active in many Irish-American organizations. She was a long time, beloved active member of the American Irish Association of Westchester and always organized and ran the raffles at the annual Heritage Day. Of course, Scotty's great love was always family. She is survived by her loving in-laws and many nieces & nephews.

Scotty's life was an inspiration, and she will forever be a part of the amazing Irish-American community in New York. I want to thank the American Irish Association of Westchester for honoring her at this year's Annual Dinner Dance.

---

CELEBRATING SYLVIA ROSENBLATT'S 100TH BIRTHDAY

### HON. LOIS FRANKEL

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Ms. FRANKEL of Florida. Mr. Speaker, I rise today to celebrate Sylvia Rosenblatt, who turned 100 years young in November. Sylvia is a dedicated volunteer in our South Florida community and a beloved mother, grandmother, and great-grandmother.

Throughout her life Sylvia has been committed to helping others. She volunteers for numerous organizations including the Mandel Jewish Community Center and the Forgotten Soldiers Outreach, where she helps pack and ship care packages to soldiers overseas.

I join with Sylvia's friends, family, and the ACE Lifelong Learning Center in celebrating her birthday. I wish her good health and continued success in the coming year.

---

HONORING MARCUS JOHN BRADSHAW

### HON. JANICE HAHN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Ms. HAHN. Mr. Speaker, I rise today to honor Marcus John Bradshaw, the grandson of Jimmie Bernstein, and a former neighbor of mine when I lived in Long Beach, California. Marcus John Bradshaw was born to John and Sheri (Bernstein) Bradshaw on July 26, 1988, in Hazel Crest, Illinois. Marcus was blessed to have three older brothers, Eric, John and Timothy. Known for his kindness, Marcus was steadfastly loyal and faithful to all who were blessed to know him.

Marcus attended Western Avenue Elementary School in Flossmoor, Illinois, where he played soccer and baseball. Marcus went to

Parker Junior High School in Flossmoor, where he played volleyball, golf, as well as participated in a national chorus. Outside of school, he was a member of a traveling baseball team, for which he played second base. Marcus graduated from Homewood-Flossmoor High School in 2006. He lettered in volleyball, participated in intramural sports, and became an official ball boy for the Chicago Bears. During the 2006 season, Marcus went to the Super Bowl when the Bears played the Indianapolis Colts. His school chronicled his experience as an NFL ball boy for the Chicago Bears in a feature article for its newspaper, the Homewood-Flossmoor High School Voyager. Marcus attended DePaul University, where he participated in the volleyball club and enjoyed playing flag football with friends. In 2010, he earned a Bachelor of Science degree in Business Management.

Marcus began his professional career as a Brand Ambassador for Powerade and Fuze. He was then promoted to Event Manager for Powerade. He also worked as a Construction Coordinator for Goodman Networks. Following his tenure there, he worked for Bradshaw Construction & Management, first as a Field Inspector at Chicago's Midway Airport and then as a Quality Assurance Inspector at O'Hare International Airport. Marcus proved to be a consummate professional, known for his strong work ethic and his consistent punctuality.

His travels included Mexico, the Caribbean islands, Australia, as well as two trips to China including the 2008 Olympics in Beijing. Marcus' sparkling personality, infectious smile, and winning ways reflected his humorous side. He was witty and fun to be around. His favorite pastimes included fantasy football and fantasy basketball. In addition, he skied, continued to play volleyball and golf, and as a testament to his athletic prowess, served as a wide receiver for the Chicago Thunder semi-professional football team.

Marcus truly enjoyed life to the fullest and experienced much in his 27 years. Marcus made his transition to everlasting peace and joy on July 5, 2016, from the rare incurable disease, autoimmune hemolytic anemia. Marcus will forever remain in the minds and hearts of those who love him as his spirit soars with the angels in the presence and love of God.

Marcus is survived by those that honor and cherish his memory including: his parents, John and Sheri Bradshaw; his brother Eric and his wife Ana; his brother John and his wife, Sylvia; his brother Timothy; his maternal grandmother Jimmie Bernstein; as well as a host of loving family members and a legion of friends throughout the nation.

IN RECOGNITION OF JOSHUA,  
JONLUKE, AND CALEB O'CAIN,  
AND ALEX MARJANOVICH

**HON. BARBARA COMSTOCK**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. COMSTOCK. Mr. Speaker, I rise to acknowledge Joshua, Jonluke, and Caleb

O'Cain, and their friend Alex Marjanovich from my district for their charitable service to our veterans through their book collection efforts. Eagle Scout candidate Joshua O'Cain decided on this endeavor for his final project, which consisted of making boxes where people can donate their used books for the children of our nation's veterans and active duty service members. Given the need at Walter Reed National Military Medical Center's pediatric department, these boys decided to focus their efforts at filling their high demand.

I am honored to have these young men living in Virginia's 10th Congressional District. I commend their hard work to help our veterans and their families who make so many sacrifices to preserve freedom and democracy for others. Their project is a reflection on the noble nature of the Boy Scouts of America's continuous work to better our great nation. These young men not only embody charity and selflessness, but are also helping inspire it in others.

The O'Cain family has also strived to help servicemen and women through their work with Military Operation Kindness, an organization which sends troops stationed overseas thank you letters and care packages. Astonishingly, the O'Cain family has sent over 600 of these thank you notes this year alone. I cannot express how grateful I am to the O'Cain family and others like them who do so much to aid the members of our armed forces.

Mr. Speaker, Joshua, Jonluke, and Caleb O'Cain and Alex Marjanovich exemplify a spirit of comradery and a dedication to serving others that makes America truly great. I would encourage my colleagues to join me in thanking these young men for their work to help the families of America's heroes. I wish them all the best in their future endeavors.

HONORING ST. BARNABAS PARISH

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, as we in the Bronx and Westchester celebrate the installation of the seventh Pastor of the St. Barnabas Parish, I want to take a moment to celebrate both the Parish's rich history and the wonderful people who make up its congregation.

Established in 1910, the parish was placed under the patronage of St. Barnabas with the Reverend Michael Reilly as the first Pastor. The Parish included what is known as the Woodlawn section of the Bronx and McLean Heights/Yonkers entity, the Church and Rectory were erected on the actual line separating the two cities.

Monsignor George McWeeney was appointed the second Pastor and served until 1965. Under his leadership, a new High School building and Chapel were erected. The third Pastor was Monsignor John J. Considine who served until his retirement in 1986. His twenty-one years as Pastor saw a phenomenal growth in the Parish. The fourth Pastor was Monsignor Timothy S. Collins who served until 1994 when he was appointed Pastor of Our Lady of the Rosary (The Mother

Seton Shrine). During his eight years tenure, Monsignor supervised the remodeling of the Rectory, Parish Center and High School Chapel.

The fifth Pastor Monsignor Francis X. Toner was appointed in 1994 until his death in 2003. Msgr. Toner re-organized the parish's services to accommodate the changing demographics of the parish. Monsignor Edward M. Barry, the sixth Pastor, was appointed in 2004. On the occasion of the parish's 100th anniversary Msgr. Barry conducted a fund raiser for the complete renovation of the church, as well as installing an elevator.

And just this year, the St. Barnabas community has warmly welcomed Father Brendan A. Fitzgerald, who served as Pastor of Regina Coeli Parish, Hyde Park, 2012–2016. A native of Ireland, Fr. Fitzgerald has already had a very distinguished career and will no doubt bring great wisdom to the parish. I want to congratulate him on his installation, and congratulate the entire St. Barnabas community.

REMARKS BY FORMER NATO SECRETARY GENERAL ANDERS FOGH RASMUSSEN

**HON. STENY H. HOYER**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. HOYER. Mr. Speaker, I include in the RECORD the text of a speech delivered by former Secretary General of NATO Anders Fogh Rasmussen, who is a dear friend and former Prime Minister of our ally Denmark. He spoke at the "Celebration of Democracy" dinner hosted jointly by the National Democratic Institute and International Republican Institute, and his remarks testify to the strong bonds between our nation and its NATO allies. He also reaffirms a core component of our foreign policy: that the world needs strong American leadership in the years ahead, just as it benefited from our leadership in the twentieth century.

I'm extremely pleased to see the International Republican Institute and the National Democratic Institute work so closely together in a bi-partisan manner to promote freedom and democracy.

During the last 70 years, we've got used to a world where protectionism was replaced by free trade, closed societies were replaced by open societies, and dictatorship was replaced by democracy. During these 70 years the world has experienced an unprecedented era of peace, prosperity and progress.

Now, we are living in an era where the fear of the consequences of globalization has led to stronger support for protectionism, fear over the influx of immigrants and refugees has led to stronger support for closed borders, the fear of chaos and weak leadership in democracies has led to stronger support for tough men and autocracy.

Under these circumstances, there is a strong need for good men and women who will stand up for the basic ideas upon which we so successfully have built and developed our free societies.

Secretary Albright and Senator McCain are such solid people.

As American ambassador to the United Nations and as Secretary of State you, Madeline Albright, was a staunch proponent of

American engagement in the Balkans to stop the bloodshed. And it wasn't until the United States took leadership that a lasting peace was created.

As Secretary General of NATO, I asked you to lead the preparations for a new strategic concept. You and your group of experts did an outstanding job, and in 2010, we adopted a new strategic concept for NATO.

Madeleine, you have always been a steadfast fighter for freedom and democracy. And your mood can always be read in the pins you're wearing. In the book, "Read My Pins", you said: "I had this wonderful antique snake pin. So when we were dealing with Iraq, I wore the snake pin". You had balloons, butterflies and flowers to signify optimism and, when diplomatic talks were going slowly, crabs and turtles to indicate frustration.

John, I'm so happy to also be with you tonight. First of all, congratulations on your re-election as US senator. Recently you turned eighty, but if we didn't know, we wouldn't believe it. You are still going strong, and you are setting an example for all of us to continue working as long as we can.

We have met on several occasions in Europe. You have been a frequent guest at the Munich Security Conference, as leader of the US delegation and as a highly valued speaker. We have never doubted your position as one of the strongest American voices in favor of American global leadership and continued engagement in Europe.

You were disappointed that NATO did not engage more in Syria. You also criticized me. Tonight I can tell you, I agreed with you. But I couldn't get the allies to support even prudent planning for an operation.

John, you have always remembered America's friends and allies. I still recall how warmly you thanked me for my personal support for the United States and my country's contribution to international military operations all over the world.

John, we owe you great respect. And I would like to use this occasion to express my admiration and my gratitude for your service to the United States and to the world.

We all know that Secretary Albright and Senator McCain belong to different political parties. But they are united in their desire to see freedom and democracy flourish in the world. Madeleine and John, you represent the very best in the American democracy: the bi-partisan support for American global leadership.

Let me put it directly: the world needs a policeman. The only capable, reliable and desirable candidate for that position is the United States. We need determined American global leadership.

The world is on fire. The Middle East is being torn up by war, terrorism and humanitarian catastrophes that have forced millions of people to flee. Europe is almost sinking under the refugee burden and internal political division. In North Africa, Libya has collapsed and become a breeding ground for terrorists who are spreading instability throughout the region. In Eastern Europe, a resurgent Russia has brutally attacked and grabbed land by force from Ukraine. China is flexing its muscle against its neighbors around the South China Sea. North Korea is a rogue state that threatens its neighbors and the United States with a nuclear attack.

There is a link between the American reluctance to use hard power and this outbreak of fire. If the US retrenches and retreats or even if the world thinks that the US retreats, it leaves behind a vacuum that will be filled by the bad guys.

If the United States withdraws to concentrate on "nation building at home", the forces fighting against liberal democracy and our way of life will gain ground. The US will be faced with stronger foes, weaker friends and a more insecure world. That would definitely not make America great.

Appeasement doesn't lead to peace. It just incites tyrants. Any failure to counter oppression will only invite further oppression. That is the lesson of the twentieth century—a lesson we must never forget.

That's why President Truman established a new, rules-based world order, centered around a series of international institutions and economic programs. He created an American led world order that set the stage for the Cold War. Truman elevated engagement to moral choice directly affecting every single American citizen, because it was based on American values. He said: "I believe that we must assist free peoples to work out their own destinies in their own way."

In 1961, President Kennedy expressed what is probably the strongest commitment to American global leadership ever given by a president of the United States: "Let every nation know, whether it wishes us well or ill, that we shall pay any price, bear any burden, meet any hardship, support any friend, oppose any foe, to assure the survival and the success of liberty."

And President Reagan ended the Cold War peacefully due to his firm conviction that capitalism is superior to communism. He said: "America's economic success is freedom's success; it can be repeated a hundred times in a hundred nations". He was firmly convinced that peace does not come from weakness or retreat. It comes from economic and military superiority. Peace through strength.

President Truman showed strong leadership and effective conduct by establishing the world order that for seven decades secured an unprecedented peace, development and wealth. President Kennedy came to stand as a beacon for the free world with his energetic and eloquent communication. And President Reagan led the United States and the world to the victory over Communism and oppression by his firm conviction of American exceptionalism.

Hopefully, future US presidents will combine President Truman's effective conduct, President Kennedy's inspiring communication and President Reagan's firm conviction. This would prepare the ground for strong American global leadership and a better and safer world. And make America great again.

The United States is indispensable in its ability to protect and promote freedom and to prevent conflicts, to resolve conflicts and to help with post-conflict reconstruction. However, the United States should not be left to carry out that job alone: Smart American leadership should strive for alliance-building.

There is a need to create an overwhelming, credible, and strong democratic supremacy in order to counterbalance the rising and assertive autocracies.

To create a stronger global democratic community, the American president should use his convening power to assemble the world's true democracies in a strong "Alliance for Democracy". It would be a community of shared values, individual liberty, economic freedom, democracy, and the rule of law; a community that would bolster the identity and potency of democracy in a world where the forces of oppression are trying to regain ground.

The Alliance for Democracy could help confront common security challenges, in-

cluding terrorism. It could work to make the liberal capitalist democracies more prosperous, competitive, and attractive by promoting commerce, economic growth and job creation. It could help promote democracy directly through advice, support, and assistance. It could be a forum for the coordination of policies in other international organizations, including push for reforms to make the United Nations more effective. And the Alliance for Democracy could also be used for joint action, particularly humanitarian interventions.

Many of us are inclined to believe that the community of values with the best story will win, that the West won the Cold War because the better world view triumphed, and the progress is inevitable.

However, the rise of autocratic powers and Islamic radicalism reminds us that the victory of democratic powers over oppression is not inevitable and it needs not be lasting. History has taught us that we cannot be complacent.

Thomas Jefferson reminded us that "the price of liberty is eternal vigilance". I will continue dreaming of the predominance of capitalism and liberal democracy. I will not accept the argument that certain people are not well suited for democracy.

In a world that grows in freedom and democracy, people will have a chance to raise their families and live in peace and build a better future. The terrorists will lose their recruits and lose their sponsors and lose safe havens from which to launch new attacks, and there will be less room for tyranny and terror.

But to ensure the progress of freedom and democracy, we must ensure an invincible global balance in favor of the forces of freedom and democracy.

You have just had presidential elections. I don't think the American people have mandated retreat. On the contrary, I believe that the outcome of the elections was a reaction to the receding freedom and democracy and the growing terrorism and autocracy that you have witnessed during recent years.

I trust America and American leadership. Of course, also America makes mistakes. But who else should be the leader of the free world? I'm tempted to quote Winston Churchill who once said that the Americans will always do the right thing—after having tried everything else.

Ladies and gentlemen, the world's democracies must rise to the challenge. America must exercise determined global leadership.

HONORING ANDREA M. BROWN

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 1, 2016

Mr. ENGEL. Mr. Speaker, I rise today to recognize a community servant who has for years worked to improve the lives of her friends and neighbors in Yonkers, Ms. Andrea M. Brown.

Andrea was born and bred in Westchester, the eldest of eight children in Tarrytown, NY. She attended the Tarrytown public schools, Westchester Business School, and Westchester Community College. She began her community service when she was in her teens, in high school clubs and through her church. In 1970 she married and moved to Yonkers and began her community service in

1974 by volunteering at her oldest daughter's pre-kindergarten class at School 25 and joining the Parent's Group at the Nepperhan Community Center, which led to her becoming a Board Member and eventually Board President.

Andrea's volunteer work only grew from there. She has served her community as President of the Yonkers Branch of the NAACP; Trustee for the Yonkers Board of Education; 1st Vice President of the Empire State Federation of Women's Club, Westchester Region; Member of the Yonkers Mayor's African American Advisory Board; and Vice President of Aquehung Women's Democratic Club, just to name some of her work. She has also received numerous awards for her efforts, including the Martin Luther King Commission Profile Award; the Bethany Lutheran Church Woman of the Year Award; the Women's Civic Club of Nepperhan Woman of the Year Award; The Nepperhan Community Center Community Service Award; and the Dominican Cultural Association Community Service Award.

But for all of her accomplishments, Andrea's greatest treasure was always family. She was married to the late Bernard G. Brown, Sr. and is the mother of two adult children, three grandchildren and two great-grandchildren.

The Yonkers Democratic Committee is honoring Andrea this year at their Annual Road to Victory Dinner. Congratulations to her on this great honor.

SHIPPENSBURG UNIVERSITY  
FIELD HOCKEY WINS DIVISION II  
NATIONAL CHAMPIONSHIP

**HON. LOU BARLETTA**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. BARLETTA. Mr. Speaker, it is my honor to recognize the Shippensburg University field hockey team as the 2016 NCAA Division II National Champions. Shippensburg, which is a university in my district, has always been about serving the educational, social and cultural needs of their students, both in the classroom and beyond. The Red Raiders defeated Long Island University Post by a score of 2 to 1 on Sunday, November 20, 2016, capping a 20 win season that was dedicated to former student-athlete and coach, Amanda Strous.

All season long, a number 22 jersey hung in the Robb Sports Complex in honor of Amanda Strous, a former student-athlete and coach at Shippensburg who tragically passed away before the start of the 2016 season. The mantra "Live, Laugh, Love" and hashtag "FlyHigh22" served as inspiration for the team as they sought to "Leave a Legacy" in honor of Amanda.

Shippensburg's emotional season concluded on a cold, fall day at the W.B. Mason Stadium at Stonehill College in Easton, MA. Winning three consecutive games as the lower seed, the No. 3 seeded Red Raiders were lifted to victory by goals from junior forward Emily Barnard and senior forward Katelyn Grazan. Finishing the year as the national leader in goals

against average (0.46), save percentage (.899) and shutouts (14), Shippensburg is only the second team in tournament history to emerge from their region as a No. 3 seed and win a national championship.

Mr. Speaker, it is with admiration and respect that I congratulate the Shippensburg University field hockey team for winning the 2016 NCAA Division II National Championship. Such an emotional season could not have a better ending, and I am confident that they will continue to achieve great things both on the field and in the classroom. On behalf of my constituents, I wish the Red Raiders all the best as they enjoy this accomplishment and look forward to next season.

H. CON. RES. 165

**HON. DOUG COLLINS**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. COLLINS of Georgia. Mr. Speaker, today I rise to commend the House on passage of H. Con. Res. 165, which reaffirms Congress' approach to Israel and Palestine. This bipartisan resolution supports the long-standing approach of the United States as a facilitator of bilateral negotiations between Israel and Palestine. It properly recognizes that a lasting resolution to the Israeli-Palestinian conflict will only come about through direct, mutual negotiations between the two parties. Attempts by Congress or other outside bodies to interfere with bilateral negotiations by establishing parameters or imposing solutions on Israel and Palestine will inevitably complicate the situation and delay its peaceful resolution.

Since 1972, the United States has opposed and vetoed 42 United Nations Security Council resolutions dictating binding parameters on the peace process. The current Administration has time and again refused to aid Israel by tolerating Palestinian threats, harming the U.S.-Israeli relationship, and undermining Israel's peacemaking efforts. Israel is our strongest ally in the Middle East, and I believe the country deserves our full support. I have consistently demanded this Administration recognize the importance of Israel, and today's resolution provided another opportunity to affirm my commitment to our relationship with that nation. I strongly urge continued opposition to efforts by the UN Security Council to force agreements that are one-sided or anti-Israel.

Israel has continuously demonstrated its willingness to coexist with its neighbors, and the United States must promote direct talks between Israelis and Palestinians, not the international intervention of the United Nations or other bodies. Through passage of this resolution, the House of Representatives publicly reaffirmed our support for bilateral negotiations between Israel and Palestine, demonstrated the strength of our relationship with Israel, and rebuked faulty attempts to impose the terms of peace.

I was proud to join my colleagues in support of this important resolution.

ROBIN PERKINS NAMED WOMAN  
OF THE YEAR BY THE GREATER  
MANASSAS CHRISTMAS PARADE  
COMMITTEE

**HON. BARBARA COMSTOCK**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. COMSTOCK. Mr. Speaker, I rise to congratulate Robin Perkins on being named Woman of the Year by the Greater Manassas Christmas Parade Committee. Mrs. Perkins has diligently served the Manassas community for many years and is more than deserving of this honor.

A lifelong resident of Manassas and devoted community leader, Mrs. Perkins has served her hometown for 33 years in the City of Manassas treasurer's office. After fifteen years of service in that office, she was elected to serve as Treasurer for the City of Manassas. Now, after over eighteen years of service as Treasurer, Mrs. Perkins is entering into a well-deserved retirement.

Though she is leaving her post as Treasurer, Mrs. Perkins will remain a fixture of the Manassas community. She serves as a scout leader, a youth bowling director, and has been a long-time volunteer with the city schools. Her lifelong dedication to her community is an inspiration and I'm proud to represent such a wonderful woman.

Mr. Speaker, I ask that my colleagues join me in congratulating Robin Perkins for being named Woman of the Year by the Greater Manassas Christmas Parade Committee. It is a privilege to represent her and I wish her all the best in her future endeavors.

HONORING THE LIFE OF DEBRA  
SAUNDERS-WHITE

**HON. ROBERT C. "BOBBY" SCOTT**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. SCOTT of Virginia. Mr. Speaker, I rise today to mourn the loss of one of our nation's finest public servants, Dr. Debra Saunders-White. She was a good friend and a tireless advocate for increasing access to higher education for all students. This past Saturday, Debra Saunders-White passed away, and I would like to take a brief moment to celebrate her life and legacy.

For many years, Debra Saunders-White was a leading voice in education as she fought to strengthen historical black colleges and universities and other minority serving institutions. As a first generation college graduate, Debra understood both the opportunities afforded by higher education and the many challenges that accompany students as they attempt to access and afford a higher education.

A native of Hampton, Virginia, she attended the University of Virginia before receiving her Masters of Business Administration from the College of William and Mary and her Doctorate in Higher Education Administration from George Washington University. After completing her education, Mrs. Saunders-White

spent 15 years in the private sector, working for IBM as a systems engineer before transitioning to marketing.

From 1999 until 2006, Dr. Saunders-White served as the Assistant Provost of Technology at Hampton University. While at Hampton, she designed and implemented the university's first information technology organization. Her efforts made Hampton University the first HBCU in the nation to join the Internet2 community, where they earned the "most wired university" title by Forbes Magazine and the Princeton Review.

Ultimately, Dr. Saunders-White left Hampton University and spent some time at the University of North Carolina Wilmington (UNCW) as the Vice Chancellor and later served as the Deputy Assistant Secretary at the Department of Education in President Obama's administration. In 2011, Mrs. Saunders-White became the 11th chancellor of North Carolina Central University. During her tenure, Dr. Saunders-White was held in high regard by all of her colleagues and students. Known for her strong vision and leadership, Debra was extremely dedicated to ensuring the success of the students at NCCU while she carried out her vision for growth at the university.

Mr. Speaker, the education and NCCU communities have lost a tremendous advocate for our nation's students. I want to extend my deepest sympathies to her two children, Elizabeth Paige and Cecil III; her mother, Irene Saunders; her brothers, Roger, Ralph and Kyle Saunders, and the rest of her family, friends, and countless students she positively impacted during her life.

**HONORING THE LIFE AND WORK  
OF NORTH CAROLINA CENTRAL  
UNIVERSITY CHANCELLOR DR.  
DEBRA SAUNDERS-WHITE**

**HON. G. K. BUTTERFIELD**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. BUTTERFIELD. Mr. Speaker, I rise today to honor the life and work of Dr. Debra Saunders-White, a dear friend, nationally recognized academic, and the eleventh Chancellor of North Carolina Central University in Durham, North Carolina. Dr. Saunders-White transitioned to her heavenly home on Saturday, November 26, 2016 after a courageous battle with cancer. She will be greatly missed by the entire NCCU family and all who knew her.

Dr. Saunders-White was born in Hampton, Virginia on January 8, 1957. As a first-generation college student, she received her undergraduate training at the University of Virginia in Charlottesville. Graduating in the Class of 1979 with a Bachelor's degree in history, Dr. Saunders-White went on to receive a Master's of Business Administration from the College of William and Mary (in 1993) and a Doctorate in Higher Education Administration from George Washington University (in 2004).

The massive outpouring of accolades that arose upon Dr. Saunders-White's passing speaks to her character and abilities. She was installed as the eleventh chancellor of my

alma mater, North Carolina Central University, on June 1, 2013. And, I might add, she became the first permanent woman chancellor in the University's 106-year history.

Prior to assuming her duties at NCCU, she served as the acting Assistant Secretary for the Office of Postsecondary Education at the U.S. Department of Education in the Obama Administration under Secretary Arne Duncan. Dr. Saunders-White joined the Department of Education in May of 2011 as the Deputy Assistant Secretary for higher education programs.

Throughout her tenure as NCCU's Chancellor, Dr. Saunders-White made many important contributions to the University, including increasing the freshman-to-sophomore retention rate from 69 percent to 80 percent; growing faculty and staff annual giving from 19 percent to 76 percent; creating the Triangle area's first dual-enrollment, residential transfer program known as Eagle Connect, in conjunction with Durham Technical Community College; and opening a Fabrication Laboratory in 2015 that is part of a select number of such laboratories at HBCUs.

Always committed to uplifting Historically Black Colleges and Universities, Dr. Saunders-White was named a "cyber star" by Black Issues in Higher Education and has published articles and whitepapers on the role of technology in learning. At NCCU, she was instrumental in raising scholarship funds for students and prioritized innovative academic instruction to prepare students of color to be competitive in the global marketplace.

Beyond her academic contributions, what is more illuminating of Dr. Saunders-White's stellar character was the way she connected with students at the university. She took a personal interest in the scholarship and mentorship program by encouraging "Eagle Excellence" that went beyond success in the classroom. Her dedication to scholarship and preserving the legacy of our Historically Black Colleges and Universities earned her the respect and admiration of students and colleagues alike.

It is dedicated leaders like Dr. Debra Saunders-White whose passionate commitment to helping all students succeed will leave a lasting mark on the future of our students and our country. NCCU (and all of those connected with institutions of higher learning) have lost a great educator and friend. Mr. Speaker, the Nation has lost a great educator.

Dr. Saunders-White is survived by two children, Elizabeth Paige White and Cecil White, III; her mother, Mrs. Irene Saunders; and her brothers, Roger, Ralph, and Kyle. I hope the outpouring of love shared by the community has been a comfort to Dr. Saunders-White's family.

Today, we remember Dr. Debra Saunders-White and reflect on her motto 'Eagle Excellence.' That motto, which Dr. Saunders-White embodied in her work each day, will remain embedded in the fabric of the University for generations to come.

This is indeed a solemn occasion. But it's also an occasion to celebrate. Dr. Saunders-White fought the good fight, kept the faith, and was a friend to so many and we are all thankful that she was able to touch so many lives. I ask my colleagues to join me in celebrating the life, work, and legacy of Chancellor Debra Saunders-White.

**HONORING WILLIAM STALLINGS**

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to honor one of Yonkers' most active and dedicated community members, William Stallings, who is being honored at this year's Yonkers Democratic Committee Annual Road to Victory Dinner.

Originally a product of Charleston, South Carolina, Bill attended public school and became very active in the civil rights movement in his junior and senior years of high school. Upon completion of Burke High School he began working at the Citadel, the military college of South Carolina. After a year, he applied to Tuskegee Institute in Alabama and was accepted. At Tuskegee, he enrolled in the Air Force ROTC and was commissioned 2nd Lieutenant upon graduation. His bars were pinned on him by his grandmother and General Daniel "Chappy" James, and while in the Air Force, he reached the rank of Captain.

It was a recruitment by Pepsi Cola that ultimately brought Bill to Westchester County, where he has remained ever since. He became active in the local Democratic Party in 1974 by engaging in local voter registration drives, and later became a District Leader. He is a member of the NAACP and is very active in his church, Greater Centennial AME Zion Church. He has been an officer of the church for over 25 years, was President of the Greater Centennial Federal Credit Union for over 20 years, and is a founding member of the Greater Centennial Community Development Corporation. Bill has also served on the Board of Directors of the Human Development Services of Westchester (HDSW) for the past 20 years and on the Yonkers Democratic City Executive Committee for over 20 years.

Few have done more to help their local community thrive than Bill Stallings. He is most deserving of this wonderful recognition.

**TRIBUTE TO DR. HIRAM  
SPAIN, JR.**

**HON. JAMES E. CLYBURN**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. CLYBURN. Mr. Speaker, I rise to congratulate a great American, and outstanding South Carolinian, Reverend Dr. Hiram Spain, Jr. Dr. Spain, who was simply Hiram to me when we shared classes and hallways at South Carolina State College, is retiring from public service. Dr. Spain served as Executive Secretary of the Baptist Educational and Missionary Convention of South Carolina since his election in 2000 until his recent retirement.

Dr. Hiram Spain, Jr. is a native of Conway, South Carolina. In addition to graduating with honors from South Carolina State University, he received the degree of Juris Doctor from Howard University. He did additional studies at the University of South Carolina, Morris College Extension and the Columbia International

Seminary. He is presently pursuing the Master of Divinity degree at the Lutheran Theological Southern Seminary. Dr. Spain was ordained by the Gethsemane Baptist Association and retired as Pastor of the Saint Mark Baptist Church in Columbia, South Carolina.

During my tenure on the staff of Governor John West, I brought Dr. Spain on board where he headed the program that became the state's first Office of Rural Development to outstanding success. He has served as the Chief Executive Officer of the Columbia Urban League and as the first Black Bureau Chief of the South Carolina Department of Social Services.

Dr. Spain serves his community in several civic capacities, including the Board of The United Black Fund of the Midlands, The Executive Board of the Gethsemane Baptist Association, The Board of the South Carolina Christian Action Council, past Board Member of the Communities in Schools of South Carolina, member of the Interdenominational Ministerial Alliance of Greater Columbia, Board Member of the I.D. Quincy Newman Institute for social change at the University of South Carolina, Board Member of Partnership, South Carolina, and a life member of Kappa Alpha Psi Fraternity, Inc.

He has received numerous awards and honors for his civic and community service and was recently honored by the City of Columbia and the Midlands Authority for Conventions, Sports and Tourism for his outstanding service and leadership. He has never been reluctant to give of his time and energies to civic, professional and community service organizations. His favorite Bible verse is Psalm 121 verses 1 and 2, "I will lift up mine eyes to the Hills, from whence cometh my help. My help cometh from the Lord, which made heaven and earth."

Dr. Spain is married to the former Doris Bush, a Benedict College graduate and retired teacher at W.A. Perry Middle School. They are the parents of two adult children, both of whom are social work administrators.

Mr. Speaker, I ask that you and this Congress join me in wishing this outstanding South Carolinian, and longtime personal friend, the Reverend Dr. Hiram Spain, Jr., a long and productive retirement.

IN RECOGNITION OF THE 85TH ANNIVERSARY OF THE FAIRFAX ROTARY CLUB

**HON. BARBARA COMSTOCK**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. COMSTOCK. Mr. Speaker, I rise to honor the Fairfax Rotary Club on their 85th Anniversary of community service this year. The Fairfax Rotary Club was chartered in 1931 and has grown from the original 16 members to 75 members today. This organization brings enormous benefit to the City of Fairfax and surrounding communities. I am very grateful for Fairfax Rotary Club's continued efforts to provide humanitarian service and assistance in the 10th Congressional District.

The Fairfax Rotary Club holds weekly meetings and organizes numerous charitable events in order to benefit the community. Their activities range from fundraising to acts of hands-on community service. Some examples of their generous deeds include creating college scholarships for local students, doing home repairs free of charge, providing free meals to families in need, and raising money for many other charitable causes, such as polio and access to clean water.

The members of the Fairfax Rotary Club are true pillars of their community, and I am proud to represent such service-minded citizens. This organization has a history of providing a setting that fosters fellowship between its members and that enables them to have a positive impact in the world. I applaud the Fairfax City Council's decision to honor this organization by declaring September 25th Fairfax Rotary Club Day in the city.

Mr. Speaker, I ask my colleagues to join in recognizing the 85th Anniversary of the Fairfax Rotary Club and thanking its members for all of the selfless community service work they undertake. I hope that the members of this service organization will continue to find success in their endeavors for many years to come.

HONORING JUDGE TODD J. CAMPBELL

**HON. JIM COOPER**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. COOPER. Mr. Speaker, I rise today to recognize Judge Todd J. Campbell on his retirement from the federal bench.

A graduate of Vanderbilt University and the University of Tennessee College of Law, Judge Campbell started his legal career in private practice. After the 1992 election, he joined President-elect Bill Clinton's transition team and later became counsel to Vice President Al Gore.

In 1995, President Clinton nominated Judge Campbell to fill a vacant seat on the U.S. District Court for the Middle District of Tennessee. Judge Campbell was confirmed the same year by the U.S. Senate, becoming one of America's youngest federal judges in modern times. He eventually was elevated to chief judge, serving many years in that role.

Judge Campbell has led a distinguished career on the federal bench, and he is a pillar of our community. For example, he has led more than 100 naturalization ceremonies, often relating his own family immigration history to Middle Tennessee's newest citizens.

Federal Public Defender Henry Martin best captured Judge Campbell in a recent letter to the editor published in The Tennessean newspaper:

Judge Todd Campbell's announced retirement as a United States District Judge last week was sad news to anyone interested in justice in this community.

I am confident that every lawyer and litigant experienced what I saw there for 20-plus years: an exceedingly well-prepared judge who favored neither side, but treated all who appeared before him with respect, courtesy

and usually a smile. I always warned lawyers about to appear in Judge Campbell's court for the first time to be prepared: "he will have read every case you cited, that your adversary cited and ask you about cases you missed that he had found. Then he would listen."

The challenge of determining what the law is in a particular situation and then applying it fairly to complex facts, where the outcome has a life-changing impact on the people in the case is not only intellectually demanding, but emotionally and physically exhausting. It can also be lonely and thankless work. And yet, Judge Campbell always took the time to thank the lawyers who took indigent defense appointments and was quick to proclaim how important their work was to the preservation of constitutional liberties.

The founders of this country knew that the viability of a society operating under the rule of law depended on the selection of judges who had the intellect to decipher the law, the common sense to shape it to fit human behavior and the courage and integrity to decide controversial issues regardless of popular sentiment.

For better than 20 years Judge Campbell gave exactly that to this community. We are the better for that service and owe him our utmost gratitude.

Henry A. Martin, Federal Public Defender, Nashville 37203.

Judge Campbell has dedicated himself to the federal bench every day he has served. I want to thank Judge Campbell, his wife, Margaret, and their children, Seth and Holt. Judge Campbell represents the very best of our judicial traditions, and I thank him for his long and patriotic service.

HONORING WILLIAM SCRIBNER

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to honor the life of an amazing artist and a true friend, William Scribner. Bill as he was better known brought so much light and beauty to the Bronx through his music, and his contributions to our borough will never be forgotten.

Renowned as one of New York's finest bassoonists, Bill always looked for ways to share his amazing gift with the world and spread his love of music to others. In 1972, he founded the Bronx Arts Ensemble, the premier professional music organization in the Bronx. With a mission to "nourish the arts in the Bronx, serving its diverse communities and developing audiences through arts education and musical performances of the highest professional standard," the organization has touched the lives of thousands of people over the years with their unique performances and beautiful shows. This is largely due in part to Bill's exceptional work, and the amazing assemblage of talent he nurtured and put together.

In addition to presenting over 100 concerts a year, the Bronx Arts Ensemble also specializes in an arts-in-education programming in over 40 schools in the Bronx and beyond with instruction in music, drama, dance, visual arts, capoeira, drumming and more.

Yet for all of Bill's incredible work bringing the arts to the Bronx, his first love was always

his family. The beloved husband of Marsha Heller and loving father of Andrew Scribner, Bill is also survived by sister Janice Freeman, cousin Nancy Wirth, stepson Joshua Marantz, and first wife Louise Scribner.

Bill brought so much joy to our community, and enriched the lives of so many. Through the Bronx Arts Ensemble his legacy shall forever live on, and for that I am very thankful. It is an honor to celebrate his amazing life here today.

IN RECOGNITION OF FRAN  
PAVLEY OF AGOURA HILLS

**HON. TED LIEU**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. TED LIEU of California. Mr. Speaker, I rise today to celebrate the retirement of my friend Senator Fran Pavley. I had the honor of serving with Fran in both the State Assembly and State Senate. Fran is an extraordinary individual who strove to ensure her community, state, and nation's best interests came first. Her legislative accomplishments are legendary.

Over the last 14 years, Fran became a titan when it came to developing innovative climate change solutions. Her laws elevated California's status as a global leader in fighting climate change and promoting sustainable clean energy. Her bill AB 32, of which I was a co-author, became a model for climate change legislation in other states, nationally and internationally.

With California experiencing severe drought, Fran championed smart water policy by encouraging conservation, recycling, storm water capture, and ground water clean-up. Fran also passed legislation that increased fuel efficiency standards in California. Her law was then modeled at the federal level.

Fran also introduced legislation to encourage more college students to become teachers. In 2015, California had 43,000 teacher vacancies and one of the highest student-teacher ratios in the country. To reduce this burden, Fran presented legislation that would reinstate a loan forgiveness program to motivate more students to pursue a career in teaching.

In addition to Fran's exemplary record of protecting the environment and supporting teachers, she also passed a law that allowed women to receive up to a 12 month supply of birth control prescriptions at one time. Passage of this law was lauded by many health care providers because it reduced the stress of having women acquire birth control on a monthly or quarterly basis.

These tremendous accomplishments cut across various fields and demonstrate Fran's enormous impact. Fran's legacy in the community, state and country will be felt for generations to come.

Actually, this is Fran's second retirement. Prior to serving 14 years in the legislature, Fran was a beloved middle school teacher for 28 years.

After retiring, Fran will continue to spearhead the creation of the first urban and largest wildlife crossing at Liberty Canyon in Agoura

Hills. I wish Fran, her husband, and children many years of happiness and good health.

LIBYA

**HON. TED POE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. POE of Texas. Mr. Speaker, for six months, the U.S.-backed troops of the interim Libyan Government of National Accord has been fighting street by street to retake the ISIS stronghold of Sirte on the Libyan coast.

ISIS seized control of the city in early 2015 and extended its control along about 155 miles of Libya's coastline. That means that ISIS wields its influence over a territory roughly the distance from Houston to San Antonio.

How did the U.S. get here? How did Libya become an incubator for all stripes of terrorists?

In 2008, U.S. military leaders were calling Libya a top U.S. ally in combating international terrorism. Qaddafi realized that his regime was the target of terrorism, and he changed course from supporting terrorists in the 1980s to siding with the U.S. against the terrorist threat.

However, in 2011, in the midst of a rebellion against the Qaddafi regime, the U.S. decided to intervene and establish a no-fly zone to aid the Libyan rebels.

Under the safety of the no-fly zone the U.S. imposed, Islamist terrorist groups long subdued under Qaddafi's regime sprung up and amassed weapons, training, and military training.

Qaddafi was ultimately killed in October 2011. Within days, NATO and U.S. forces packed up and left Libya to its own devices.

America's only Libya policy at the time was to remove Qaddafi—there was little planning regarding what to do the day after. The U.S. opened the Pandora's box and looked away.

Almost immediately after Qaddafi's ouster, Libya spiraled into chaos. Long simmering political, regional, and ethnic divisions suddenly emerged and set Libya on a path towards disaster. The country has never recovered.

Even the Administration has admitted its role in Libya's failure. Earlier this year, the President admitted that there was no plan for post-Qaddafi Libya, describing it as his biggest regret as President.

Libya has become a regional and international security threat due to this Administration's lack of planning. ISIS and al-Qaeda are the main beneficiaries.

Al-Qaeda's Libyan affiliate, Ansar al-Shariah, emerged shortly after Qaddafi's death and has since become deeply entrenched in the country.

They have successfully filled the void the U.S. helped create by providing social services—building schools and providing medical care.

But they did not stop there. They recruited, armed, and trained terrorist fighters intent on carrying out the group's ultimate goal: imposing Islamic law on the country.

Ansar al-Shariah fighters were among those who ultimately attacked the U.S. diplomatic compound in Benghazi in 2012, killing Ambas-

sador Christopher Stevens and three of his colleagues.

Since then, things have gotten worse. ISIS announced the establishment of a Libyan affiliate at the end of 2014 and soon began consolidating its power around Sirte and expanding east, west, and south.

America should not fool itself into believing that once Sirte is liberated the ISIS threat is over. For close to a year now, ISIS has been redirecting recruits and even senior leaders to Libya. It has been laying the seeds for what many have called a "fallback Caliphate," where it could retreat to in case it is pushed out of Syria and Iraq.

Pentagon estimates from earlier this year suggested that the group's ranks in Libya have swelled to nearly 7,000 fighters.

Liberating Sirte will simply transform the ISIS threat in Libya from a concentrated one to a dispersed one. They have fanned out throughout the country and will continue to exploit the political mess in Libya.

Libya will unfortunately remain a terrorist foothold for years to come. This is the legacy of the current Administration in North Africa.

The mess the U.S. have left there has spread throughout the region. It endangers Egyptian allies to the east, and the weapons unleashed with Qaddafi's fall have fueled terrorism in places like Syria, Nigeria, and the Sinai Peninsula bordering Israel.

The United States' airstrike campaign in support of the Libyan forces retaking Sirte is only a small step. Until the U.S. can devise a truly comprehensive long-term strategy to stabilize Libya and defeat the terrorist groups hiding there, Libya will continue to threaten regional and international security. Treating the symptoms while ignoring the underlying disease will not solve the problem.

The U.S. forcibly overthrew a regime in Libya, creating chaos that led to a failed state where terrorists flourished and thousands of Libyans died. The U.S. now has a responsibility to work towards a stabilizing solution in Libya. Going forward, the U.S. should be much more cautious before it helps overthrow another regime.

IN RECOGNITION OF CONGRESS-  
MEN ROBERT HURT, RANDY  
FORBES, AND SCOTT RIGELL

**HON. BARBARA COMSTOCK**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. COMSTOCK. Mr. Speaker, I rise today to honor three colleagues of mine who have served their Districts and the Commonwealth of Virginia with distinction. Congressman ROBERT HURT from Virginia's Fifth District, Congressman RANDY FORBES from Virginia's Fourth District, and Congressman SCOTT RIGELL from Virginia's Second District have dedicated years of their lives to public service.

Since coming to Congress in 2001, RANDY FORBES, as Chairman of the House Armed Services' Seapower and Projection Forces Subcommittee, has worked to build a stronger defense for America to help ensure the safety of our nation and has worked with all of us to

help our veterans. He also made it a priority to foster partnerships with local officials and other community leaders, earning a reputation for stellar constituent service as a representative.

Congressman SCOTT RIGELL has more active duty and retired military personnel in his district than any other district and has made it a priority to assist them. He had a major role in keeping all East Coast aircraft carriers based in Norfolk.

I had the distinct pleasure of serving with Congressman HURT in the Virginia General Assembly, where he served beginning in 2001 before running for Congress, and he is a gentleman, statesman, constitutional scholar, and most important of all a true friend to the Commonwealth of Virginia. ROBERT has been a leader here in Washington with his great work on the Financial Services Committee and striving to help our small businesses as well as veterans, to name just some of the ways he has worked for a better life for those in his District.

While the Commonwealth of Virginia loses three committed public servants in this body, we all greatly appreciate the years they have put into advancing the priorities of their constituents and the lives of all those in Virginia and in our country.

I know they will continue to serve the public in a variety of ways.

Mr. Speaker, I ask my colleagues to join me in thanking and honoring these gentlemen for their service to their Districts and for representing their constituents and the Commonwealth in which we call home.

#### PERSONAL EXPLANATION

#### HON. ROBERT HURT

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. HURT of Virginia. Mr. Speaker, I was unavoidably detained. Had I been present, I would have voted YEA on Roll Call No. 590, and YEA on Roll Call No. 591.

#### HONORING LOUIS A. PICANI

#### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, as the son of an ironworker and former union member myself, I know firsthand just how critical our area's union members are to our country's shared prosperity and success. This year, the Yonkers Democratic Committee is honoring Louis Picani, a dedicated union member who has fought for working men and women in Westchester for over 30 years.

Louis has spent his entire career as a visionary, fighting for workers' rights, fair wages and benefits, workplace safety, and the right to organize. He has been a dedicated union member since he joined Teamsters Local 456 over 30 years ago, where his natural leadership ability quickly emerged and enabled him

to be appointed Shop Steward for the City of Yonkers Department of Public Works in 1992. In 1994, Louis became a Trustee of the Teamsters Health and Welfare Fund. In 2005, he was elected as a Teamsters Local 456 Trustee and appointed as a Teamsters Local 456 Business Agent. Louis has been a member of Joint Council 16's New York Teamsters Political Action Committee, and in 2016, was elected President and Principal Officer of Teamsters Local 456. He also serves as Vice President of the Westchester Putnam Central Labor Body.

But Louis' good works extend beyond his labor advocacy. Incredibly, he is also a licensed drug and alcohol counselor.

Louis continues to represent Teamsters members and all labor organizations who serve our work force so proudly. He is incredibly deserving of this honor and recognition, and on behalf of the 16th Congressional District I want to congratulate him on this special occasion.

#### CELEBRATING THE 75TH ANNIVERSARY OF THE CIVIL AIR PATROL

#### HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Ms. SCHAKOWSKY. Mr. Speaker, I rise today to recognize the 75th anniversary of the Civil Air Patrol, celebrated on December 1st and to honor its all-volunteer members. Since 1941, volunteers have lent their talents in dedicated service to protect Americans and our nation. Their work is deeply appreciated.

The Civil Air Patrol came into existence just six days before the events of Pearl Harbor and was comprised of many civilian aviators, including women and African Americans who were not allowed to fly for the military at that time. Members flew in support of defense forces and provided the military with professional and cost-efficient assistance, which they have continued to provide ever since—chartered by Congress as non-combative, humanitarian force in 1946, becoming the official Auxiliary to the U.S. Air Force in 1948, and most recently becoming part of the U.S. Air Force's Total Force in 2015.

The Search and Rescue efforts of the Civil Air Patrol are credited with saving an average of 75 lives every year and their Disaster Relief efforts and ability to work closely with partner organizations have been vital to our nation's security and wellbeing. Their service was particularly notable following the terrible events of September 11th, 2001, Hurricane Katrina, and Hurricane Sandy.

I am proud to call myself a member of the Civil Air Patrol. Earlier this week, I was presented with the grade of Lieutenant Colonel and membership in the Patrol's Congressional Squadron. The distinction was presented to me by Lieutenant Colonel Harold Damron and two wonderful young members of the Civil Air Patrol from my district, Cadet Second Lieutenant Laivi Grossman and Cadet Airman Basic Nancy Kahdeman. I thank them and the entire Civil Air Patrol for this opportunity.

The organization's Cadet Program has been a tremendous resource to this nation, pro-

viding leadership training to youth, ages twelve through twenty-one. The Program promotes education in the fields of Science, Technology, Engineering, and Math, both for participants within the program and their local communities. This is done with a focus on Aerospace and Aviation, developing a passion for them in our younger citizens and ensuring our preeminence in these areas as well as Cyberspace. I believe this effort to be especially important now, as our nation's future and security depend upon the ability of the next generation to lead global progress in these areas.

Civil Air Patrol volunteer professionals serve in every state of the nation and as nonprofit resources within thousands of communities. I am proud to support the work that these men and women continue to do, and I am very pleased to be celebrating this milestone anniversary with them.

#### IN HONOR OF THE 155TH ANNIVERSARY OF THE BATTLE OF BALL'S BLUFF

#### HON. BARBARA COMSTOCK

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mrs. COMSTOCK. Mr. Speaker, I would like to honor the 155th Anniversary of the Battle of Ball's Bluff fought in Loudoun County, Virginia, on October 21st, 1861. Being one of the earliest battles of the American Civil War, Ball's Bluff had an enormous impact on military affairs for the remaining four years of conflict.

On October 20th, 1861, Brigadier General Charles Pomeroy Stone and the Union forces under his command engaged the Confederate forces of Colonel Nathan Evans on the banks of the Potomac River near Leesburg, Virginia. Stone's forces had crossed the river and were subsequently repelled and defeated by their Confederate counterparts. This battle was unique in American history because, as Union forces were withdrawing across the Potomac, Colonel Edward Baker, a sitting U.S. Senator, was killed in action. The defeat, coupled with Colonel Baker's death, was the catalyst for the creation of the Congressional Joint Committee on the Conduct of the War. Colonel Baker remains the only United States Senator killed in battle, and Ball's Bluff proved to be indicative of the long war to come.

Mr. Speaker, I ask my colleagues to join in recognizing the 155th Anniversary of the Battle of Ball's Bluff. We must always remember and honor those who sacrificed their lives to preserve our nation in its darkest hour.

#### HONORING JOHN DECICCO JR.

#### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, December 1, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to recognize a leader in our community, John DeCicco Jr. whose humanitarian work is being recognized by The Pelham Civic Association

at their Annual Dinner Dance Gala. John is one of three honorees for "Persons of the Year" on November 4, 2016 in my district.

John is the President and CEO of DeCicco & Sons Food Markets. He is a longtime volunteer member of the Pelham Civics, a major contributor to Pelham Civics "Needy Cases Program," which provides food baskets for hundreds of needy families. He also spearheaded the Pelham Civics' 75th Anniversary Dinner Dance Journal in 2014, raising over \$12,000.

John is known for his countless acts of altruism, philanthropy, and charity. He has worked with The Veterans of Foreign Wars, The Wounded Warriors, The Boy and Girl Scouts in an effort to support the community and those in need. He was the recipient of the

2015 Rotary Club of the Pelhams Award for his work supporting children and families.

John also works closely with career placement for special needs students, was a Past Advisory Board Member for the Fordham University Graduate School of Business Entrepreneurship, a former Junior Board Member for the Westchester Italian Cultural Center, Past President of the Pelham Chamber of Commerce, and has worked closely with Governor Cuomo, County Executive Rob Astorino, ConEdison, and NYSEERDA in leading an effort to promote "GREEN Markets for the Future" the first of which was opened in Larchmont in December of 2015. The store, which is founded on the principle of being environmentally friendly, has received the EPA's Green Chill Platinum Certification.

John's business, DeCicco & Sons, is also a long-time contributor to Pelham School PTAs, and was the recipient of the 2015 New York State PTA Congress "Golden Oak Award" for exemplary support of the school districts, PTAs and students. DeCiccoco also received the 2015 Westchester's Best Family-Owned Business Award, for continued commitment and active support to the communities in which they live and work, the 2016 Independent Green Business of the Year Award. John married Luisa DeCicco, Ph.D., another honoree, and have two children.

It is an honor to present John with a CONGRESSIONAL RECORD at The Pelham Civic Association Annual Dinner Gala. I want to thank him for all he has done in the community and all he continues to do on behalf of Pelham. Congratulations to all honorees of the evening.

## HOUSE OF REPRESENTATIVES—*Friday, December 2, 2016*

The House met at 9 a.m. and was called to order by the Speaker.

### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Loving God, we give You thanks for giving us another day.

In the waning days of this 114th Congress, we ask Your blessing upon the Members of this people's House, and most especially upon the leadership. It is on their shoulders the most important negotiations of this Congress have been placed.

They have been entrusted by their fellow Americans with the awesome privilege and responsibility of sustaining the great experiment of democratic self-government. Give them wisdom, grace, insight, and courage to forge legislation that allows us all to move forward toward an encouraging future.

May all that is done this day be for Your greater honor and glory.

Amen.

### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. WILSON of South Carolina. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Speaker's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. WILSON of South Carolina. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Washington (Mr. KILMER) come forward and lead the House in the Pledge of Allegiance.

Mr. KILMER led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Repub-

lic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

### APPRECIATING MARINE LIEUTENANT COLONEL TRANE MCCLOUD

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, sadly, this weekend marks the 10-year anniversary of the death of Marine Lieutenant Colonel Joseph Trane McCloud, a former Military Fellow in my office, an American hero.

Trane served in the office in 2003, promoting democracy and freedom. As an Active-Duty marine, Trane provided incredible insight into defense and national security issues. I am grateful that I had the opportunity to work with Trane, and it was a privilege to see his firsthand dedication to the Marine Corps, but equally to his wife, Maggie, and their three young children.

Trane was tragically killed in Iraq on December 3, 2006, when the helicopter he was riding in malfunctioned and was forced to make an emergency landing. In an interview in *The Washington Post*, Maggie described her husband as "a man of character and honor," words that I know accurately describe Trane.

To his wife, Maggie; their three children, Hayden, Grace, and Meghan; and the rest of the family: You are in my thoughts and prayers. His service will never be forgotten. Trane lived up to the highest ideals of the U.S. Marine Corps, *semper fidelis*.

In conclusion, God bless our troops, and may the President, by his actions, never forget September the 11th in the global war on terrorism.

For Trane, with General Jim Mattis, we will achieve victory to protect American families.

### GRANT FOR COMPOSITE RECYCLING CENTER

(Mr. KILMER asked and was given permission to address the House for 1 minute.)

Mr. KILMER. Mr. Speaker, today I rise to talk about jobs and economic opportunity for the region I represent. In my hometown of Port Angeles,

Washington, we recently opened up a new innovative center focused on composite manufacturing. This composite recycling center, one of the first in the Nation, is already showing that the peninsula can be a hub for groundbreaking innovation.

Just yesterday, they won a national investment, a grant from the U.S. Department of Commerce, that will give entrepreneurs the tools that they need to take yesterday's recycled parts and turn them into advanced products.

It will also encourage the growth of quality jobs in my region, investing in local citizens so that they can build careers working with composites. This is a terrific example, to use a Wayne Gretzky quote, of local economic developers skating to where the puck is going to be; and I want to congratulate the folks back home. I look forward to continuing to be a partner in the effort to bring good jobs to our neck of the woods.

### CONGRATULATING THE LA SALLE LANCERS

(Mr. CHABOT asked and was given permission to address the House for 1 minute.)

Mr. CHABOT. Mr. Speaker, last night, my alma mater, the La Salle Lancers, did it again. They won their third straight Ohio high school football championship. By the way, my brother Dave and I both played for La Salle back in the day.

La Salle faced a tough Massillon Perry team in the championship game for the second straight season. The Lancers' back-to-back-to-back championships capped off a historic 2016 football season in which La Salle won its first outright GCL South championship, and became the first ever threepeat Division II champions in Ohio playoff history.

I also want to wish one of La Salle's rival teams, the St. X Bombers, the best in their quest to win the Division I championship this evening.

Again, congratulations to all of the La Salle players and their families, to Coach Jim Hilvert and his coaching staff, and to everyone involved with the Lancer football program. You have all made the entire Cincinnati area extremely proud.

Lancers roll deep.

### WE WILL NOT END MEDICARE

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Mr. CICILLINE. Mr. Speaker, this is Trudy Willis. Trudy and her husband, William, are lifelong residents of Middletown in my district in Rhode Island. They have three children and four wonderful grandchildren.

Like millions of Americans, Trudy relies on Medicare to pay for her healthcare needs. For Trudy, Medicare isn't an entitlement; it is a benefit that she and millions of Americans have earned and is a promise our government made.

That is why I am disappointed that President-elect Donald Trump has announced he will appoint a Secretary of Health and Human Services who wants to end Medicare as we know it.

Let me be very clear. President-elect Trump does not have a mandate to end the guarantee of Medicare. He lost the popular vote by about 2.5 million votes. We are not going to let him kill one of the most effective tools that seniors have to live their retirement years with dignity.

If Republicans bring up legislation to end Medicare, we will stop this legislation dead in its tracks. We did it a decade ago when President George W. Bush tried to privatize Social Security, and we will do it again. And by doing so, we will maintain the promise we have made to Trudy and millions of seniors across our great country.

#### HONORING CONGRESSMAN JOHN KLINE

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to recognize a great friend and leader, Congressman JOHN KLINE, who will be retiring at the end of this Congress. He has served the citizens of Minnesota's Second District in the U.S. House since 2002. A 25-year veteran of the Marine Corps, he also serves on the House Armed Services Committee.

I have had the honor of serving with JOHN KLINE on the Education and Workforce Committee for 8 years. He has chaired this committee as a great advocate for education and how this creates greater opportunity for all.

His steady leadership has navigated Congress to successfully developing and advancing legislation to improve job training, elementary and secondary education, career and technical education, and so much more. His service has truly made a difference throughout our Nation.

In addition to serving under Chairman KLINE's leadership, I have enjoyed the privilege to share a weekly Bible study with JOHN.

Thank you, and best wishes to Congressman JOHN KLINE and his wife, Vicky, for their service to the Nation.

#### ALLOW THE DREAMERS TO SUCCEED

(Mr. O'ROURKE asked and was given permission to address the House for 1 minute.)

Mr. O'ROURKE. Mr. Speaker, because of the inaction of this Congress, our President, in 2012, deferred action on childhood arrivals to this country, young boys and girls who were brought here at the tender age of 3 or 5 or 6 or 7, who are now flourishing in our communities and making this great country even better.

I call your attention to one of my constituents, Claudia Yoli, who arrived in this country at the age of 8 from Venezuela, interned in my office in 2013, and now works for our great State Senator Jose Rodriguez, and is making El Paso, Texas, and America an even greater place to live.

Unfortunately for Claudia, her mother had to return to Venezuela in 2010 and, because of her status, Claudia was not able to follow. Her mother died last year, and Claudia was unable to return to be with her mother in her dying days and to grieve with her family and be with them.

We owe Claudia and the 750,000 other DREAMers in this country certainty; and we certainly owe them something better than what the President-elect has promised, which is to terminate this deferred action.

So I ask this body, I ask the President-elect, and I ask every American to join together to make sure that we allow these DREAMers to succeed, because their success means America's success.

#### HONORING EXPLOSIVE ORDNANCE DISPOSAL TECHNICIANS WHO MADE ULTIMATE SACRIFICE

(Mr. CRAWFORD asked and was given permission to address the House for 1 minute.)

Mr. CRAWFORD. Mr. Speaker, this year marks the 75th anniversary of Explosive Ordnance Disposal in our Nation's Armed Forces, and their mission is even more important and dangerous today than it was 75 years ago. Today I rise to honor two EOD techs who gave their lives in just the past few weeks to keep others safe from harm.

U.S. Navy EOD Senior Chief Petty Officer Scotty C. Dayton, age 42, was killed in Syria on Thanksgiving Day, the 24th of November, 2016, in the ongoing conflict in Syria against ISIS. He died from wounds sustained from an improvised explosive device. Assigned to EOD Mobile Unit Two, Virginia Beach, Virginia, he was operating with Combined Joint Task Force-Operation Inherent Resolve near the ISIS stronghold of Raqqa. He is survived by his wife, Kristin; and two children, Hailey and Cole.

EOD Chief Jason Finan, age 34, was killed near Mosul, Iraq, 20 October,

2016. He also died from wounds sustained from an IED. Assigned to Mobile Unit Three, Coronado, California, he was operating while deployed with Navy SEALs, advising Iraqi forces in operations against ISIS and retaking the city of Mosul. He is survived by his wife, Chariss; son, Christopher; and mother, Gloria.

As a Nation, we will be forever grateful for the ultimate sacrifice both of these men made in service to their fellow sailors and their country. In this 75th year of Explosive Ordnance Disposal, please take the time to remember the important role that EOD techs play in our national security and the risks they take every day to keep us safe.

#### HONORING THE SERVICE OF GIBBIE BUCHHOLTZ

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Mr. Speaker, I rise today to honor Gibbie Buchholtz from Zion, Illinois. Gibbie has lived in Zion his entire life and works tirelessly to bring our community together. He works part time as a cameraman for the Zion Park District filming city council and township meetings.

Gibbie has become a staple in the community, documenting almost every single event in Zion, from local park openings to volunteer events at soup kitchens, to police and firefighter awards. He promotes events and special moments that often go unnoticed, and he recognizes individuals that go above and beyond.

It has been an honor and a privilege to work alongside him in the Zion community. Gibbie never asks for recognition behind the camera, and only asks that people cherish the special moments with others.

Today I am honored to be able to give Gibbie a little bit of recognition for his great service to our community.

Thank you, Gibbie, and keep up the great work.

#### RECESS

The SPEAKER pro tempore (Mr. THOMPSON of Pennsylvania). Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 9 o'clock and 13 minutes a.m.), the House stood in recess.

□ 1000

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. DOLD) at 10 o'clock and 1 minute a.m.

CONFERENCE REPORT ON S. 2943,  
NATIONAL DEFENSE AUTHORIZA-  
TION ACT FOR FISCAL YEAR 2017

Mr. THORNBERRY. Mr. Speaker, pursuant to House Resolution 937, I call up the conference report on the bill (S. 2943) to authorize appropriations for fiscal year 2017 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 937, the conference report is considered read.

(For conference report and statement, see proceedings of the House of November 30, 2016, at page 14795.)

The SPEAKER pro tempore. The gentleman from Texas (Mr. THORNBERRY) and the gentleman from Washington (Mr. SMITH) each will control 30 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. THORNBERRY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous material on the conference report to accompany S. 2943.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. THORNBERRY. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, I am pleased to bring to the House the conference report for the Fiscal Year 2017 National Defense Authorization Act. Once the President signs this measure into law, it will be the 55th consecutive year in which Congresses of both parties and Presidents of both parties have enacted a defense authorization bill.

I want to start by thanking the distinguished gentleman from Washington, Ranking Member SMITH. Not only has he focused on what is good for the troops and good for the country in this bill, that has been his focus throughout this Congress. It has certainly been my pleasure to work with him toward that end. We do not always agree on what is good for the troops and what is good for the country, but we always agree that that comes first. Our work together has certainly been productive, and I appreciate that opportunity.

Ranking Member SMITH and I have a terrific team on the Armed Services Committee; 63 outstanding members, all of whom have contributed to this product. I certainly appreciate the contributions they have made that have made such a large bill possible.

Mr. Speaker, this bill does good things for the men and women who

serve our Nation in the military, and it supports our country's national security. I want to just touch on a few of the highlights, starting with the fact that this bill authorizes spending of \$3.2 billion more than the President has requested. Now, that is not nearly enough, and my great hope is that the new incoming administration will submit to Congress a supplemental request that can really get about the job of rebuilding the military, which is so essential.

The \$3.2 billion, in addition to what the President has requested, is focused on people; and that is exactly what the primary focus of this bill is. So, for example, it provides the full pay raise to which the troops are statutorily entitled for the first time in 6 years; that is in this bill. It stops the layoffs of military personnel, which have been going on, and, at least, prevents it from getting any worse.

It starts to stabilize the readiness problems that are making it more and more difficult for our troops to accomplish their mission and increasingly represents a danger to their lives.

It improves the military healthcare system for the benefit of our troops and their families so that they will have a more consistent experience, that they will get better care, more convenient hours, and a number of things that are in this bill.

In addition to the reforms related to military health care, there are a number of very significant reforms in other areas. For example, in acquisition, we try to make sure that not only we get more value for the taxpayer dollars but that we are more agile in being able to get new technology into the hands of the warfighters faster.

We have commissary reform, which maintains the benefit but reduces the burden on the taxpayers.

We have the first comprehensive rewrite of the Uniform Code of Military Justice in 30 years, and that is a big part of the reason that this bill is the size that it is.

We have organizational reform that streamlines the bureaucracy and helps reduce the overhead so more resources can go to the front lines.

There are many items in this bill, Mr. Speaker, from replenishing munitions of which we have shortages to dealing with the California National Guard repayment issue that has come up in recent weeks.

Other speakers will give more detail about many of those provisions. I just want to take this moment, first, to thank the staff on both sides of the aisle for their work in producing this product. We have a unified staff on the Armed Services Committee. We work together to solve problems. And through the ups and downs of the political calendar and all of the other issues that impact our bill, they have done a terrific job in getting us to this point

and have served the Nation by doing so. I want to express my appreciation to staff on both sides for that work.

Finally, I also want to pay tribute to the members of our committee who will not be with us in the next Congress for a variety of reasons. They include the gentleman from Virginia (Mr. FORBES), the gentleman from Florida (Mr. MILLER), the gentleman from Minnesota (Mr. KLINE), the gentleman from Louisiana (Mr. FLEMING), the gentleman from New York (Mr. GIBSON), the gentleman from Nevada (Mr. HECK), the gentleman from Florida (Mr. NUGENT), the gentlewoman from California (Ms. LORETTA SANCHEZ), the gentlewoman from Illinois (Ms. DUCKWORTH), the gentlewoman from Florida (Ms. GRAHAM), and the gentleman from Nebraska (Mr. ASHFORD).

I particularly want to thank Subcommittee Chairman RANDY FORBES, Subcommittee Chairman JOE HECK, and Ranking Member LORETTA SANCHEZ for their leadership and years of contributions to the military of our country. We will miss them.

I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield myself such time as I may consume.

First of all, I want to say that this is an excellent product. It was not easy to pull together. It is a very large bill with a lot of very important issues. As Chairman THORNBERRY indicated, a lot of people contributed to it. Certainly, everybody on our committee, but then many Members who aren't on the committee in the House and, of course, our friends in the Senate. We all worked together and found a way to get through the areas of disagreement and to get to a very good bill, with the central thought that it is our job in passing this bill to give the men and women who serve us in the Armed Services all of the tools they need to do the job we ask them to do.

So I really want to echo Chairman THORNBERRY's comments and thank our staff, first of all, for the outstanding work that they have done in putting together this product. I thank the Members for their contribution. Also, perhaps most importantly, I thank Mr. THORNBERRY for his leadership as the chairman of the committee.

I have been on this committee for 20 years, and we have had a tradition from the moment I showed up and before then that this is a bipartisan committee that is focused on getting its work done. Whatever the hurdles, whatever the difficulties, whatever the disagreements, we know how important it is to produce this bill and how important it is to our troops who are fighting to protect us and provide the national security that we need.

Mr. THORNBERRY has upheld that tradition. We have had many chairmen in those 20 years. They have all had that first and foremost in mind. This is not

a partisan committee. This is a committee that works together to get its job done. Mr. THORNBERRY has done an outstanding job of that. He has certainly been an excellent partner for me, and we even found a way to work with the Senate and then made that work. So I thank all of those people who contributed to this.

Chairman THORNBERRY is also right. I think that the most striking thing about this bill is how much it does to help reform the way things are done at the Department of Defense. There is much on acquisition reform, all aimed at trying to get the taxpayers more for the money they spent. Because the chairman is right, as in many areas of government, there are more needs than there is money.

What we have to do is try to figure out how to make that money go as far as possible. Acquisition reform is a key part of that. We really struggled in the early part of the 21st century with a lot of programs that went overbudget. We are still dealing with the legacy of some of that, but very proud that, in the last few years, that has declined, as we have passed acquisition reform, and as we have figured out better ways to get things in the field, into service more quickly, commercial, off-the-shelf technology, more improvements in our acquisition. That is critical if we are going to be able to use the scarce resources we have to the best of our ability. So we put together an excellent product.

Also, as Chairman THORNBERRY mentioned, we do have the full pay raise for the troops that they need and desperately deserve. I will just close by saying, I think, that is the thing that you can really see from this bill. It prioritizes the men and women who serve in the military to try to make sure that we provide for them, give them all the training they need and all the support they need so that when we ask them to do something, they are trained and ready to do it. I really believe that is the most important thing that we do on this committee.

We can have many, many debates about what our national security strategy should be, where we should employ our forces, how we should use them, and what equipment we should provide for them. But the one thing that we have to agree on is, whatever we decide the mission should be, we have to make absolutely certain that we provide the men and women everything they need to be ready to carry out that mission so that we do not send them into a fight unprepared. I think we are doing a very good job of that.

There are many challenges ahead, as the chairman noted. We have a lot of demands. We do not have an infinite amount of money. So we are going to keep working hard to try to figure out how to make that money go as far as possible.

Again, I want to thank all the people who worked on this process. This, I think, is an example of how Congress should work, how legislation should work, people working together, having differences, working them out, and producing a product that improves our Nation and, in this case, improves the quality of national security.

Again, I thank Chairman THORNBERRY. I think this is an excellent bill. I urge passage.

I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Virginia (Mr. FORBES), chairman of the Seapower and Projection Forces Subcommittee.

Mr. FORBES. Mr. Speaker, I rise in support of the National Defense Authorization Act for Fiscal Year 2017.

I want to thank Chairman THORNBERRY for his leadership in bringing to the floor this National Defense Authorization Act and for his incredible contribution to the national defense of this country. I also would like to recognize the efforts of Congressman SMITH, who is the ranking member, for his dedication and commitment to get this bill to the floor.

During the last 8 years, our military readiness has been impacted and our force structure has declined. For example, naval aviation has only 3 in 10 Navy jet aircraft that are fully mission capable. Aircraft carrier gaps in critical regions persist. Navy ship deployments have increased almost 40 percent, and submarine demand continues to outpace availability.

As to the Air Force, our B-1 fleet was pulled back from the Persian Gulf this year because of engine maintenance issues and replaced with B-52s that are over 50 years old. I think everyone would agree that these are disturbing trends.

It is obvious that we need to concurrently increase readiness and invest in critical capabilities to ensure that our Nation is capable of projecting force and deterring conflict in the future. A 350-ship Navy is a minimal investment in ensuring our Nation's strategic priorities.

I urge that our NDAA does a good job in arresting our national security's general decline. With the increases in force structure for the Army and the Marine Corps and a 2.1 percent pay raise for our servicemembers, these are good first steps, but we have a long way to go with getting our military ready to defend our Nation. With the election of President-elect Trump, I am optimistic as to our ability to make our military truly great again.

With this being my last NDAA, I want to thank all the members of the House Armed Services Committee and, most specifically, Ranking Member JOE COURTNEY. I have often said that our Seapower and Projection Forces Subcommittee is likely the most bipar-

tisan subcommittee in Congress, and I think that Ranking Member COURTNEY has been a resolute supporter of our national security. I will miss working with him on a daily basis to improve our Nation's military.

Once again, I thank Chairman THORNBERRY and urge my colleagues to support the National Defense Authorization Act.

□ 1015

Mr. SMITH of Washington. Mr. Speaker, I yield 3 minutes to the gentleman from Connecticut (Mr. COURTNEY).

Mr. COURTNEY. Mr. Speaker, I rise to offer my strong support for the 2017 defense bill conference report.

This bill is the result of extraordinary work by Chairman THORNBERRY and Ranking Member SMITH, who, despite the extremely polarized environment of the 114th Congress, have managed to produce two bipartisan defense bills this year and last. The degree of difficulty accomplishing that feat cannot be overstated. I congratulate them both.

As ranking member of the Subcommittee on Seapower and Projection Forces, I am particularly pleased with the final bill. Working together, the members of our subcommittee produced a strong mark that makes important investments in new shipbuilding as well as introducing new acquisition reform that will strengthen our Navy. Nine new ships are authorized in the final bill, continuing to boost the numbers of our fleet that is on a path to 308 ships by 2021. As the Secretary of the Navy has publicly stated, the Department is on the verge of releasing a new naval force structure assessment that will call for raising that target even higher. Today's bill provides a sound footing to take on that task with enough work in the shipyards that produce amphibians, destroyers, and submarines to go to a higher level in short order.

To be clear, our subcommittee did not just rubberstamp the administration's budget. For example, the agreement pluses up critical advanced procurement funding for the Virginia class submarine program to ensure that the two-a-year build rate continues on its current pace. Given the important role that our submarines play in our Nation's defense, we cannot let that build rate slip by underfunding advanced procurement.

This agreement also authorizes a new national security multimission vessel that will replace the aging training ships at our Nation's maritime academies. This program is vital to ensuring that we retain a maritime workforce in the future, and this agreement puts us on that path.

I am particularly pleased that the measure also includes language that I helped to author with Chairman

FORBES in the House bill to enhance the National Sea-Based Deterrence Fund. Our language adds new authorities to the fund that will help reduce costs in the Ohio Replacement Submarine by procuring and building key components in an efficient level-loaded manner.

The Navy estimates that we could save as much as 25 percent of the total cost of the missile compartment alone with this new authority. At a time when we are looking to grow the fleet while also meeting the multigenerational commitment of Ohio replacement, this approach to reducing costs in shipbuilding is absolutely vital.

I want to conclude by saluting Chairman FORBES as he begins a new chapter in his life. I have seen firsthand the impact that he has made on our fleet, our shipbuilding industry, and, most importantly, the lives of sailors, marines, airmen, and mariners touched by his work, which has always been conducted in a bipartisan manner. I thank him for his service and express my hope that we will see him continue his work in these areas in whatever opportunity comes his way next.

I also want to salute the staff, and in particular Lieutenant Commander Jonathan Cebik, who is a Navy fellow in my office who is finishing up his duties in the next few days or so. He did great work in terms of advising not just my office, but also the subcommittee.

I thank all the Members of our panel for their hard work on this year's defense bill, and I urge my colleagues to vote "yes" on this agreement.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from South Carolina (Mr. WILSON), the distinguished chairman of the Subcommittee on Emerging Threats and Capabilities.

Mr. WILSON of South Carolina. Mr. Speaker, I thank Chairman MAC THORNBERRY for yielding. I am grateful for his success in promoting peace through strength.

I am in strong support of the National Defense Authorization Act of 2017. Generations of my family have served our Nation in uniform. My father was a Flying Tiger in India and China during World War II. I served for 31 years in the Army Reserve and South Carolina Army Guard. I am grateful to have four sons who have served in the military overseas in the global war on terrorism.

I know firsthand the positive impact this year's NDAA will have on our troops, veterans, and military families. After passing this bill, I look forward to telling my constituents at Fort Jackson, adjacent to McEntire Joint Air Base, neighboring Fort Gordon, and the thousands of veterans and countless families concerned about the safety of our citizens that Congress has done its job, just as it has for the past 54 years, by passing a defense authorization bill.

In this bill, readiness is first, protecting our servicemembers overseas and on training missions at home. Cybersecurity is enhanced, protecting American families and encouraging public-private partnerships. We are fully resourcing our Special Operations Forces and providing critical support to fight Islamic terrorists, including counter-propaganda measures. We have increased oversight by requiring a report from the President on Iran as it aggressively acts on ICBMs.

This bill is clear, if our enemies attack our soldiers and American families with new and unconventional attacks, we will ensure our military has the tools to respond. As chairman of the Subcommittee on Emerging Threats and Capabilities, I am very grateful as a military veteran and as a grateful dad that this is a very positive NDAA.

I would like to close again by thanking Chairman THORNBERRY for his remarkable persistence throughout this year's reforms. We also have been fortunate to have the visionary leadership of subcommittee chairman RANDY FORBES, who has successfully promoted a vibrant Navy. I additionally want to thank our ranking members ADAM SMITH and JIM LANGEVIN for their bipartisan manner. This bill will enable President-elect Donald Trump and the incoming Defense Secretary Jim Mattis to establish peace through strength.

Mr. SMITH of Washington. Mr. Speaker, I yield 2½ minutes to the gentlewoman from Guam (Ms. BORDALLO), the ranking member on the Subcommittee on Readiness.

Ms. BORDALLO. Mr. Speaker, I commend Chairman THORNBERRY and Ranking Member SMITH and the committee staff who have worked many, many long nights on this year's defense bill.

This conference report provides funding levels that work to address readiness shortfalls, a process that takes time and will continue to require stable, consistent funding. Unfortunately, that is something that we are not afforded under sequestration and reliance on continuing resolutions.

I also appreciated the efforts to fight in conference for the provisions that were important to the territory of Guam. In particular, I am pleased that the restrictions are lifted for remaining water and wastewater civilian infrastructure projects, as well as for the construction associated with the cultural artifact repository, and that military infrastructure projects were authorized at the President's budget request level.

I thank again Ranking Member SMITH for working with me to get a provision through conference mandating a review of distinguished Asian American and Pacific Islander veterans who may have been unjustly over-

looked in the Medal of Honor consideration. We must never overlook the past contributions of our brave men and women in uniform.

To that end, I am also heartened to see the inclusion of the Guam war claims. It is time that we bring resolution to the people of Guam after 70 years and all U.S. citizens who have suffered under enemy occupation during World War II. We have advanced this legislation this far in the past numerous times, but I hope that my colleagues in the Senate will also pass this critical legislation. Ultimately, finding an offset for this legislation has helped to bring resolution to the matter. The people of Guam deserve to close this chapter in our history.

I look forward to this bill passing the House as well as the Senate before being signed into law by the President later this month.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. TURNER), the distinguished chair of the Subcommittee on Tactical Air and Land Forces.

Mr. TURNER. Mr. Speaker, I rise in support of the National Defense Authorization Act for Fiscal Year 2017.

Mr. Speaker, consideration of this important bill comes at a critical time for our Nation and for our military. Under the leadership of Chairman THORNBERRY, this bill, if funded, begins the process of rebuilding our military and restoring readiness back into the force. The bill stops the harmful end-strength reductions in our military service and it begins the process of reversing this damaging trend in reducing our military capacity. I thank CHRIS GIBSON, my colleague, for his efforts in ending those end-strength reductions.

The bill provides an additional \$600 million to address shortfalls of critical munitions. I want to repeat that. We had to put in \$600 million to address shortfalls in munitions. That is how much we are suffering in our military in spending.

The bill also continues to address the needs of the National Guard and Reserve components by authorizing an additional \$250 million for equipment modernization for the Guard and the Reserve. Additionally, this bill calls for continued action to eradicate sexual assault in the military by providing greater transparency in the military criminal justice system. It also acknowledges the need for intensive treatment for male victims and continues to address the critical issues of retaliation.

This bill also includes important provisions on the protection of child custody rights of our members of the Armed Forces. However, it is important to note that the military services submitted over \$22 billion of unfunded requirements for fiscal year 2017 alone. I had hoped we would be able to address

these modernization shortfalls, as we did in the House-passed bill. This bill falls short of the House-passed bills. It is also essential that we begin to correct these funding shortfalls in the next Congress. Currently we have a lack of readiness and a heightened level of risk.

I look forward to working with the new Trump administration in regards to an early supplemental request to fully fund these requirements, and I would expect that the House-passed bill would be used as the minimum starting point in order to start the process for rebuilding our military and working with our allies to create conditions for credible U.S. deterrence. It saddens me that we might pass this bill fully funding the military and then pass a CR that underfunds our military.

Before I conclude, I thank our subcommittee's ranking member, Ms. LORETTA SANCHEZ, who has truly been my dear friend. She will be sorely missed. I will miss her guidance and her friendship.

Mr. SMITH of Washington. Mr. Speaker, I yield 3 minutes to the gentlewoman from California (Mrs. DAVIS), the ranking member of the Subcommittee on Military Personnel.

Mrs. DAVIS of California. Mr. Speaker, I thank Chairman THORNBERRY and Ranking Member SMITH for their leadership during this process.

The conference report includes many provisions that will provide the military services flexibility to recruit and retain members of our Armed Forces and to continue our commitment to taking care of military families. One provision I would like to highlight expands maternity leave for military members up to 12 weeks in conjunction with the birth of a child and authorizes 6 weeks of leave for the primary caregiver in the case of adoption. For the first time, it also grants 21 days to the secondary caregiver for both the birth of a child and adoption.

The conference report also begins to reform and modernize the military healthcare system by standardizing military treatment facilities across the services and increasing access for beneficiaries. The conference report reforms TRICARE into an HMO and a PPO system, but, unfortunately, it establishes a two-fee structure for the next 50 years, thus creating an inequity in a defined benefit for military retirees. I sincerely hope we can continue to work towards a better solution in the future.

Although it is not perfect, this bill is a necessary step toward ensuring our servicemembers, retirees, and their families continue to receive the best, the most efficient, and the most economical health care possible.

While I do agree with the increase in end strength for the military services in the conference report, I am still concerned about how it is paid for, espe-

cially with a possible continuing resolution until April. If the fiscal year 2017 defense appropriations bill does not contain the \$3.2 billion in OCO for this increase, the services, particularly the Army, may be forced to reprogram from other critical accounts or give pink slips to dedicated soldiers.

Lastly, I thank Chairman JOE HECK for his 2 years of leadership and bipartisanship on the subcommittee. His dedication to working with me and other members of the subcommittee on behalf of our servicemen and -women and their families is a credit to himself and his values as a public servant. I will miss working with him.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from Alabama (Mr. ROGERS), the distinguished chair of the Subcommittee on Strategic Forces.

Mr. ROGERS of Alabama. Mr. Speaker, I commend the chairman for his leadership in bringing the 55th consecutive NDAA across the finish line. This legislation includes vital provisions, such as a pay raise for our troops, a fix to the end strength, and it begins to address the readiness crisis that is literally claiming the lives of our men and women in uniform.

A special thank-you goes to my friend, the subcommittee ranking member, Mr. COOPER. He is a pleasure to work with—Roll Tide.

The conference report includes critical provisions resulting from oversight of the Subcommittee on Strategic Forces. For example, regarding the national security space, it enables a rational transition to the end of our reliance on the Russian RD-180 engine. The agreement prioritizes funding for U.S. replacement of the RD-180 engine. It rejects the Air Force strategy to pay for three new launch systems to commercial providers. In fact, the Air Force should only hold its industry day and take no further action until the new administration has a chance to conduct a full cost policy and legal analysis. It gives the Air Force one final opportunity to meet warfighter requirements and bring order to the Department's space-based weather collection program.

Concerning our nuclear forces and nuclear enterprise, the conference report prohibits funding for the administration's misguided proposal to accelerate dismantlement of retired nuclear weapons, authorizes an additional \$100 million in funding to help pay for and address the massive infrastructure problems and deferred maintenance backlogs in the NSA, and gives the Air Force one final chance to appropriately prioritize the strategic missile warning system.

Concerning missile defense, the conference report restricts funding for the Army's Lower Tier Air and Missile Defense radar modernization program. The chief wanted more acquisition au-

thority. The bill gives it to him, and I expect him to use it.

□ 1030

I am also proud to see the conference report includes language to repeal the cold war-minded National Missile Defense Act, which sought to limit U.S. missile defense deployments. It provides full funding of the request of our allies in Israel for \$600 million for co-development and coproduction of Iron Dome, David's Sling, and Arrow 3.

Mr. SMITH of Washington. Mr. Speaker, I yield 3½ minutes to the gentleman from Rhode Island (Mr. LANGEVIN), the ranking member of the Subcommittee on Emerging Threats and Capabilities.

Mr. LANGEVIN. Mr. Speaker, I begin by thanking Ranking Member SMITH, Chairman THORNBERRY, and Chairman WILSON for their tireless work on this bill, as well as all the work on behalf of the staff of the full Armed Services Committee and my personal staff, Kathryn Mitchell and Amanda Donegan.

Mr. Speaker, there is a lot to be proud of in the conference report before us today. This legislation both provides for the needs of our warfighters and ultimately takes strong steps towards strengthening our national security.

The Emerging Threats and Capabilities portion of the NDAA, which I serve as ranking member of, first and foremost recognizes the importance of the cyber domain. After careful consideration, my colleagues and I came to the conclusion that the execution of cyberspace operations and the readiness of the Cyber Mission Forces warrants a new unified combatant command, now currently a sub-unified command under STRATCOM.

The bill reiterates the importance of transparency and regular updates to Congress on cyber operations, internal policies and authorities, and other relevant issues and activities. This sets the stage for creating a formalized framework for oversight of U.S. Cyber Command next year.

The legislation also formalizes the relationship between the principal cyber adviser to the Secretary of Defense and Cyber Command, aiding the successful execution of their respective roles and responsibilities. We have come to realize how important these distinctions are to both parties. Thus, the bill clarifies the roles and responsibilities of the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict.

Now, on research and development, my ETC colleagues and I strive to champion innovation wherever possible, so this bill authorizes a demonstration pilot program that allows select DOD laboratory directors more flexibility in the day-to-day operations of their labs. This will ensure they can use best management practices to advance science and technology breakthroughs with greater levels of agility.

As directed energy technologies continue to mature and may be ready to be fielded in the near future, the bill designates a senior official within the DOD for coordination of directed energy efforts to reduce redundancy, leverage lessons learned, and advance key policy considerations for uses of such technology.

Earlier this year, the Global Engagement Center was created by executive order within the State Department and tasked with coordinating U.S. counterterrorism messaging with our allies around the world. This year, the ETC portion of the bill formally authorizes the Global Engagement Center and expands the scope of its mission to include countering propaganda of state actors by permitting the DOD to transfer funds to the organization. Mr. Speaker, it is time we counter the dangerous rhetoric both ISIL and Russia are using to influence populations across the world and here at home.

Finally, Mr. Speaker, this legislation continues to address the critical policies and programs within the scope of emerging threats and capabilities. Beyond that, I am also particularly pleased that this bill makes the necessary investments in our Navy's nuclear submarine force, the most survivable leg of the triad. The Virginia class submarine and the Ohio Replacement class submarine are critical to our Nation's defense, and I am very pleased that they are prioritized and properly resourced in this legislation.

I want to again thank the leadership of Chairman THORNBERRY, Ranking Member SMITH, and Chairman WILSON, and I thank my colleagues for their work on this bill.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. WITTMAN), the distinguished chair of the Subcommittee on Readiness.

Mr. WITTMAN. Mr. Speaker, I stand today in strong support of S. 2943, the National Defense Authorization Act for Fiscal Year 2017.

First, I would like to thank Chairman THORNBERRY and Ranking Member SMITH for their leadership here, and also our Readiness Subcommittee ranking member, Ms. MADELEINE BORDALLO. I thank them so much for all of their help and constant and tireless efforts in this endeavor. The efforts behind the 2017 National Defense Authorization Act were truly bipartisan.

Mr. Speaker, throughout the year, we heard testimony from all of our service branches about the necessity to address our military's alarming readiness shortfalls. Their accounts were sobering, to say the least. We now confront the maintenance, sustainment, and readiness issues that we put off until tomorrow. Today, we have the responsibility of reducing the risk for our warfighters by making sure that they

are well-trained and have combat-ready equipment.

There are a number of provisions in this conference report that aim to bolster our military readiness. In addition to the pay raise and increases in end strength, this report directs several assessments of the military departments' plans to rebuild readiness, enhance exercises, and modernize training requirements. It also provides for increased military construction above the President's budget request. It provides the Department of Defense with flexibility for hiring civilians to fill critical manpower capability gaps, in particular, at our defense industrial base facilities: our depots, arsenals, and shipyards. It increases funding to the military service operations and maintenance accounts, critical elements we need to do to restore readiness.

None of these readiness provisions were included arbitrarily. They were specifically targeted to begin to reverse the decline in the readiness of our Armed Forces and bring them closer to achieving full-spectrum readiness levels. That is an absolute must if we are to combat and deter the threats to our national security from around the world.

Mr. Speaker, in that vein, I strongly urge support for S. 2943, the National Defense Authorization Act for Fiscal Year 2017, and encourage my colleagues in the House to support it as well.

Mr. SMITH of Washington. Mr. Speaker, I yield 2½ minutes to the gentleman from Virginia (Mr. SCOTT), the ranking member on the Committee on Education and the Workforce, and who also was enormously helpful with a number of different aspects of this bill. I appreciate his help and support in that.

Mr. SCOTT of Virginia. Mr. Speaker, I rise in support of the National Defense Authorization Act for Fiscal Year 2017.

I have the honor of representing the Hampton Roads area of Virginia, the heart of our Nation's shipbuilding industrial base. I want to underscore my support for the shipbuilding and ship maintenance provisions in the bill, including the language urging the Secretary of the Navy to speed up the procurement schedule for aircraft carriers to ensure that our carrier fleet is not again reduced to just 10 carriers. These provisions will not only significantly benefit my region, but will be critical to our Nation's security.

I want to particularly commend my colleague from Virginia, the chair of the Seapower and Projection Forces Subcommittee, Mr. FORBES, and the ranking member of that subcommittee, Mr. COURTNEY, for their hard work on the shipbuilding aspects of the bill.

As ranking member of the Committee on Education and the Workforce, I am pleased to see that the final

conference report eliminated three matters of grave concern that would have adversely affected working conditions for shipyard workers and employees of government contractors.

The first provision eliminated from the bill would have severely undermined the workers' compensation benefits that many shipyard workers now receive. A second problematic provision would have authorized taxpayer-funded employment discrimination. A third provision eliminated from the bill would have significantly diminished the application of the executive order on fair pay and safe workplaces. This order will now remain in effect and it will help level the playing field so that those contractors who willfully and repeatedly violate workplace safety, labor, and civil rights laws will not gain competitive advantages over those law-abiding contractors who faithfully comply with employment laws.

In closing, Mr. Speaker, I want to recognize the exceptional effort made by the ranking member of the committee, Mr. SMITH, with the cooperation of the chair of the committee, Mr. THORNBERRY, to produce a bill that addresses the defense needs of our Nation, but also ensures that workers are treated fairly.

Before addressing matters of concern to the Education and the Workforce Committee, I want to underscore my strong support for the shipbuilding and ship maintenance provisions. I have the honor of representing Hampton Roads, Virginia, the heart of our nation's shipbuilding industrial base. I strongly support the conference report's shipbuilding and ship maintenance provisions, specifically language urging the Secretary of the Navy to speed up the procurement schedule for aircraft carriers to ensure that our carrier fleet is not again reduced to 10 carriers. These provisions in the conference report will not only significantly benefit my region, but will be critical for our nation's security. I'd like to commend Congressman FORBES and Congressman COURTNEY for their efforts on this area.

As a conferee and Ranking Member of the Education and the Workforce Committee, I was pleased to see that the final conference report eliminated matters of grave concern.

First, the Conference Report removed Section 3512 of the House bill which redefined "recreational vessels" across almost all statutes.

The aim of this provision was to exempt workers repairing vessels over 65 feet in length from coverage under the Longshore and Harbor Workers Act (LHWCA), such as very large yachts and luxury watercraft. By stripping injured workers of the protections under LHWCA, these workers would have been shifted into coverage under state workers' compensation laws. Many state workers' compensation benefit levels are substantially inferior to LHWCA coverage, especially in states such as Florida.

Earlier this year, the Florida Supreme Court found that the Florida workers' compensation law was unconstitutional because the duration

of disability benefits was so truncated and the benefit levels so anemic that they did not constitute “a system of redress” that “functions as a reasonable alternative to tort litigation.”

Both the U.S. Department of Labor (DOL) and the U.S. Coast Guard (USCG) opposed Section 3512.

The DOL noted that Section 3512 would “lead to uncertainty and foster litigation regarding Longshore Act coverage” because the new definition of “recreational” vessel introduced subjective criteria. For example, would vessels with paid crews or which are leased out for commercial purposes be deemed recreational or commercial? DOL also expressed concern that this “legislation will simply encourage employers to shift their employees out of the more protective federal longshore workers’ compensation system,” and into inferior state workers’ comp coverage.

The Coast Guard noted changing the definition of “recreational vessel” under Section 4301 of Title 46 (the Federal Boat Safety Act of 1971) would have adverse impacts on Coast Guard regulatory and enforcement authorities.

Second, I was pleased to see that Impact Aid has been preserved for Local Educational Agencies consistent with past precedent.

Third, there were two provisions that adversely impacted employee protections in the workplace, which were deleted in the conference report.

One such provision was Section 1094 of the House bill, which was misleadingly labeled “Protections Relating to Civil Rights and Disabilities” authorized taxpayer-funded employment discrimination in every grant, cooperative agreement, contract, subcontract, and purchase order awarded by every Federal agency doing business with a religiously affiliated organization.

Section 1094 would effectively nullify the protections from workplace discrimination for LGBT workers that were provided in Executive Order 13672 (Prohibiting Discrimination Based on Sexual Orientation and Gender Identity by Contractors and Subcontractors) that was signed on July 21, 2014.

Further, the provision would incorporate an exemption from the Americans with Disabilities Act that could permit taxpayer-funded discrimination not only against employees and applicants who are not members of the same religion, but also against those who fail to adhere to the organization’s religious tenets.

Accordingly, religious organizations in receipt of federal dollars could use their religious viewpoint to: discharge working women who use birth control or who is pregnant and unmarried; fire employees who engage in premarital sex; deny employment or health benefits to married same-sex couples that they already provide to married opposite-sex couples; or refuse to consider for employment anyone, however qualified, whose religion is inconsistent with the employer’s religious tenets.

Ninety-one religious, education, civil rights, labor, and women’s organizations wrote to express their opposition in a letter dated August 25, 2016. The groups noted that: “effective government collaboration with faith-based groups does not require the sanctioning of federally funded religious discrimination.”

I am pleased that the conference report did not authorize religious employers to discriminate in hiring using federal funds. I want to applaud Senator BLUMENTHAL for his leadership in helping to remove this provision.

In addition, Sections 1095 of the House bill and Section 829-I of the Senate bill would have eliminated or diminished the application of the “Fair Pay and Safe Workplaces” Executive Order.

This executive order requires companies to disclose whether they have engaged in serious, repeated, willful or pervasive violations of any of 14 long-standing labor laws, including the Fair Labor Standards Act, the Occupational Safety and Health Act, the Vietnam Era Veterans Readjustment Assistance Act, and nondiscrimination laws.

Each year, thousands of federal contractor workers are deprived of overtime wages, denied basic workplace protections, forced to endure illegal discrimination, and made to tolerate unwarranted health and safety risks. Companies supported by and entrusted with federal government contracts should be expected to represent the gold standard in the American workplace.

The executive order aims to level the playing field so that those who repeatedly violate those laws do not gain competitive advantage over those law abiding contractors who expend the funds and make the effort to ensure full compliance.

Finally, I want to recognize the exceptional effort made by Ranking Member SMITH and his staff to work with the Education and Workforce Committee to produce a final bill that meets the defense needs of this nation and also ensures workers are treated fairly.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. GIBSON), a member of the conference committee and a combat veteran who has played a key role in formulating this bill.

Mr. GIBSON. Mr. Speaker, I rise in strong support of this conference report. I thank the chairman and the ranking member for their leadership.

This may very well be the most significant piece of legislation to come out of the House Armed Services Committee since Goldwater-Nichols. I say that for five reasons:

One, it reforms the strategic planning process, reclaiming Article 1, section 8 responsibility for the Congress with regard to providing strategic guidance.

Two, it empowers the chairman of the Joint Chiefs of Staff. I think this is really important for unity of effort, efficient use of resources, and, quite frankly, also for civil military relations.

Three, bold acquisition reforms; it has been mentioned in terms of agility, transparency, and accountability. We bring forward major reforms here, and, quite frankly, we are empowering the services. This is some of the testimony we received, and, in the process, we have provided incentives and also consequences for noncompliance. I think this is all going to be good news for the

taxpayers who are counting on us to get this right.

Four, decisive steps to improve readiness. We are entering a new era, Mr. Speaker. The drawdown is over; in fact, we are increasing end strength. I think this is really important.

On a congressional delegation trip I led this summer listening to the commanders in the European Command, including the Supreme Allied Commander of Europe, this bill and all the resources that come with it are going to help strengthen deterrence. This is also a good bill for NATO.

I mentioned resources. This was so important to the Joint Chiefs and to their senior enlisted advisers. They said they welcomed the end strength, but it had to come with the resources. They did not want to hollow out the force. We have listened and we have done this.

Money for training; it is a very dangerous business, and it is important the training be realistic. We have reinforced the account for the CTCs, flying hours, and the spare parts to come with it.

Five, Mr. Speaker, the pay raise, which is so justifiably earned.

I am proud of this bill. I want to thank the staff. The staff on both sides of the aisle are second to none, and it has been a great privilege to serve on this committee.

God bless this Nation.

Mr. SMITH of Washington. Mr. Speaker, may I inquire how much time each side has remaining.

The SPEAKER pro tempore. The gentleman from Washington has 13 minutes remaining, and the gentleman from Texas also has 13 minutes remaining.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. GARAMENDI), a member of the committee.

Mr. GARAMENDI. Mr. Speaker, I want to thank the chairman of the committee, Mr. THORNBERRY; the ranking member, Mr. SMITH; and the members, my colleagues, for an exceptional piece of work here. This is an extremely important bill. I do support it; however, I do have some reservations. I would like to speak to at least one of them at the moment.

I want to bring to the attention of the Members section 671 of the NDAA concerning the ongoing bonus clawback issue affecting thousands of California National Guardsmen. While I am pleased that a permanent legislative fix is one step closer to the President’s desk, I think some of the language needs to be clarified further to ensure that guardsmen are treated fairly.

First and foremost, I have concerns with the standard use to determine if a guardsman’s debt should be waived or not. The current language says the DOD needs to produce a preponderance

of evidence to demonstrate fraud on the part of the guardsman and withhold their bonus.

What does that mean in practice? We are not sure. This is vague and subject to interpretation. I believe this standard must be better defined, and we will continue to work on that in the future.

I am also concerned about subsection (c)(1)(B), which gives the Department of Defense far too much leeway in determining which cases warrant review. Though Secretary Carter has pledged to review every case, this gives DOD the option of ignoring about 2,000 cases. That would be a problem.

Our job isn't yet done. There will be a hearing next week on this issue. We will attempt to get further clarification to protect those men and women who accepted a bonus, went to war, performed their duties, and are now subject to a clawback. That should not happen.

One more thing to bring to the attention of the committee is the strategic arms portion of this bill, which continues a trillion-dollar project of recapitalizing our entire nuclear arsenal. We should pay attention to that in the future. It is extraordinarily expensive and dangerous.

□ 1045

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentlewoman from Missouri (Mrs. HARTZLER), the distinguished chair of the Subcommittee on Oversight and Investigations, for the purpose of a colloquy.

Mrs. HARTZLER. Mr. Speaker, I thank the chairman for yielding and for his leadership on this bill, as well as Ranking Member SMITH, and the hardworking dedicated staff. This is a great bill. It is a win for our troops and it is a win for national defense, and I fully support it.

I do want to also convey, though, my concern about and the importance of the Russell amendment, which passed this House but was not in the final bill. The attacks on this commonsense language have been dishonest and grossly inaccurate. The truth is that this language uses existing Federal civil rights laws to clarify hiring practices of religious organizations when they partner with the government through grants and contracts.

Religious charities are selfless and crucial providers who often go where no one else will go to help the vulnerable. They resettle refugees, counsel victims of sex trafficking, pray for soldiers in war zones, and comfort veterans suffering from PTSD. The White House has lauded these partnerships with the government, and Senate Democrats included a nearly identical provision in ENDA in 2013, a bill which most of the Senators publicly opposing this provision voted for in the past.

We need to protect these basic rights and preserve these vital partnerships,

and I look forward to working with the chairman next Congress to address these most basic of interests.

Mr. THORNBERRY. Will the gentlewoman yield?

Mrs. HARTZLER. I yield to the gentleman from Texas.

Mr. THORNBERRY. Mr. Speaker, I want to reiterate the importance of this issue to House majority conferees. For many years, organizations of faith have been able to both contract with the Federal Government and hire according to their faith practices. That has been especially true with religious universities, chaplain services, and refugee service providers; yet executive action under the current administration has created a direct conflict between the White House policy and these longstanding legal protections for these organizations' religious tenets.

While the NDAA was always an imperfect vehicle for this discussion, majority conferees believe that these executive orders must be reviewed; and we look forward to working directly with the incoming administration to address the concerns, not just for DOD, but for the government nationwide.

I certainly appreciate the leadership of the gentlewoman from Missouri on these very issues.

Mr. SMITH of Washington. Mr. Speaker, I yield 1½ minutes to the gentlewoman from Guam (Ms. BORDALLO) for the purpose of a colloquy with the chairman, Mr. THORNBERRY.

Ms. BORDALLO. Mr. Speaker, I thank the ranking member for yielding and wish to engage the gentleman from Texas, the chairman of the Armed Services Committee, in a colloquy.

Mr. Speaker, let me first start by thanking the chairman and the committee staff again for working diligently with us to address a number of provisions important to our territory, our island, and U.S. posture in the Asia-Pacific region.

I especially appreciate your support for our efforts to address workforce issues through the inclusion in the House bill of a targeted remedy for the H-2B visa denial issue particularly affecting military health care and construction projects on Guam.

Though the House Judiciary majority and minority approved the language, it is my understanding that the provision was not included in the final conference agreement due to concerns raised by the Senate Judiciary majority. As we look toward next year, will the chairman commit to working with me to address this issue to ensure the realignment of U.S. Marines to Okinawa is not adversely impacted?

Mr. THORNBERRY. Will the gentlewoman yield?

Ms. BORDALLO. I yield to the gentleman from Texas.

Mr. THORNBERRY. First, I want to thank the distinguished ranking mem-

ber of the Readiness Subcommittee for her hospitality. I learned a lot about the issue that she raises during my recent visit to Guam. I understand the workforce issues there much better, as well as the unacceptable impacts it is already having on our military activity on Guam.

Our strategic presence there, Mr. Speaker, and the U.S. Marine realignment are critical national security interests, and this issue must be addressed soon. We need to ensure an adequate workforce is available to support the current military presence, as well as the activity associated with the increase to come; and I look forward to continuing to work with the gentlewoman from Guam and with the Members on the other side of the Capitol to find an acceptable solution in the coming year.

Ms. BORDALLO. I thank the chairman, and I appreciate that he took the time to stop on Guam in October to see and understand the strategic value of our island and also better understand, firsthand, some of the unique challenges. It was a real honor, his visit, for the people of Guam, and I thank both the chairman and our Ranking Member SMITH for their assistance.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentleman from Nevada (Mr. HECK), the distinguished chair of the Military Personnel Subcommittee.

Mr. HECK of Nevada. Mr. Speaker, I rise in strong support of the conference report to S. 2943, the National Defense Authorization Act of 2017.

This conference report contains significant policy and funding priorities to continue our commitment to maintaining the readiness of our military personnel and their families.

Included in this conference report are many important initiatives:

Specifically, it provides a fully funded pay raise. This is the largest pay raise for our military in the last 5 years and the first full pay raise in 4 years. After 3 years of lower pay raises than allowed by law, it is time that we give our troops and their families the pay increase they deserve.

It stops the troop reductions in our Armed Forces, thereby increasing readiness, while reducing the stress and strain on our force and their families.

It reforms the military health system to ensure that we have a ready medical force and a medically ready force, while providing a quality healthcare benefit valued by its beneficiaries.

It modernizes the Uniform Code of Military Justice to improve the system's efficiency and transparency, while also enhancing victims' rights.

It reforms the commissary system in a way that preserves this valuable benefit, while also improving it so that the system remains an excellent value for the shoppers and a good value for taxpayer dollars.

In conclusion, I want to thank the ranking member, the gentlewoman from California (Mrs. DAVIS), for her contributions and support in this process. It has truly been an honor and a pleasure to work with her.

I also want to thank the subcommittee members and offer my sincere appreciation for the hard work and dedication of the subcommittee staff.

Lastly, I want to thank the chairman, the gentleman from Texas (Mr. THORNBERRY), for his support and for entrusting me with the great privilege and honor of chairing this subcommittee.

I strongly urge my colleagues to support the conference report to S. 2943.

Mr. SMITH of Washington. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Mr. Speaker, I thank the ranking member, and I rise in support of the conference report to S. 2943, the National Defense Authorization Act for Fiscal Year 2017.

This act is designed to meet the threats we face today as well as in the future, and I thank the chairman of the committee from Texas, as well as the ranking member from Washington, both having worked together in this enormous task to be able to defend our Nation.

The results of our work here today will reflect our strong commitment to ensure the men and women of our armed services receive the benefits and support that they deserve for their faithful service. Building on these efforts, this bill contains initiatives designed to provide resources and support for these men and women.

This legislation recognizes the reality that we live in a dangerous world where threats are not always easily identifiable and our enemies are not bound by borders. Confronting this type of enemy deserves a well-prepared, ready military, which I strongly support.

Mr. Speaker, I am delighted and very pleased that the work that we did together with the chairman and the ranking member, amendments that I offered, are in this legislation:

The Jackson Lee amendment expressing the sense of Congress regarding the importance of increasing the effectiveness of NORTHCOM in fulfilling its critical mission of protecting the U.S. homeland in the event of war, and to provide support to local, State, and Federal authorities that we work with all the time in times of national emergency.

The Jackson Lee amendment calling for a report on American efforts to combat Boko Haram in Nigeria and the countries in the Lake Chad region by way of provision of technical training and evidence-gathering strategies, to name a few. Having gone to the region,

having been dealing with the missing Chibok girls for, now, some 4 years plus, we know devastation there.

The Jackson Lee amendment requiring the Department of Defense to conduct outreach programs to assist small-business concerns owned and controlled by women, veterans, and social and economic minorities.

And the Jackson Lee amendment requiring annual report to Congress listing the most common grounds for sustaining protests including and relating to bids.

This is important to pass this legislation, Mr. Speaker.

And let me just personally thank the gentleman from Washington for always welcoming Members and the ideas and needs that they have for their districts, but also for this Nation. We are better for it, and we are better that we are preparing the men and women of the United States military to keep them safe.

Mr. Speaker, I rise in support of the Conference Report to S. 2943, the "National Defense Authorization Act for Fiscal Year 2017."

The National Defense Authorization Act is designed to meet the threats we face today as well as into the future.

The results of our work here today will reflect our strong commitment to ensure that the men and women of our Armed Services receive the benefits and support that they deserve for their faithful service.

Building on our efforts from previous years, this bill contains a number of initiatives designed to provide the resources and support needed for the men and women who keep our nation safe.

This legislation recognizes the reality that we live in a dangerous world, where threats are not always easily identifiable, and our enemies are not bound by borders.

Confronting this unique type of enemy requires unique capabilities.

As we have seen time and time again, our military has the ability to track down violent extremists who wish to do our country harm, regardless of where they reside.

Mr. Speaker, I am pleased that four of my amendments adopted during House consideration of the NDAA are included in the final legislation or in language in the accompanying report:

1. Jackson Lee Amendment expressing the sense of Congress regarding the importance of increasing the effectiveness of the Northern Command ("NORTHCOM") in fulfilling its critical mission of protecting the U.S. homeland in the event of war and to provide support to local, state, and federal authorities in times of national emergency or in the event of an invasion.

2. Jackson Lee Amendment calling for a report on American efforts to combat Boko Haram in Nigeria and the countries in the Lake Chad Basin, by way of provision of technical training and evidence gathering strategies to name a few.

3. Jackson Lee Amendment requiring the Department of Defense to conduct outreach program to assist small business concerns owned and controlled by women, veterans, and socially and economically minorities.

4. Jackson Lee Amendment requiring annual report to Congress listing the most common grounds for sustaining protests relating to bids for contracts.

The passing of this bill today brings us one step closer to enacting the 54th consecutive National Defense Authorization Act.

This particular bill is seen as the gold standard for Congressional bipartisanship and transparency.

Despite disagreements on key issues, Members have not failed to reach consensus on behalf of our fighting men and women.

I am proud of the work we have done here today.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. WENSTRUP), a valued member of the committee.

Mr. WENSTRUP. Mr. Speaker, I rise in strong support of the conference report to accompany S. 2943, the National Defense Authorization Act for Fiscal Year 2017. Congress has upheld its constitutional duty to "provide for the common defense" by passing the NDAA 55 years in a row, and I am looking forward to making this the 56th.

This bipartisan bill contains a number of vitally important provisions to support our troops deployed overseas, stop the dangerous drawdown of the military, and begin rebuilding our force for the future. It increases the end strength of our Armed Forces, gives our troops a substantial pay raise, and maintains restrictions on the administration's ability to bring terrorist detainees from Guantanamo to U.S. soil.

One provision I am particularly proud of is the Joint Trauma Education and Training Directorate. Too often we take for granted the readiness of our military healthcare teams, doctors, and surgeons when, in reality, their skills and knowledge are earned through work in grueling, dangerous conditions and must be maintained through frequent practice.

The Joint Trauma Education and Training Directorate will support partnerships, allowing military trauma surgeons and physicians to embed within civilian trauma centers to treat critically injured patients, maintaining medical readiness and deployability for future armed conflicts. By connecting the Department of Defense with civilian hospitals, these partnerships will serve the needs of our military medical professionals and our local communities, to the benefit of the whole Nation.

I urge my colleagues to support this important bill.

Mr. SMITH of Washington. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. LEE).

Ms. LEE. Mr. Speaker, I want to thank our ranking member for yielding and for his tremendous leadership on so many of these very critical issues.

Mr. Speaker, I rise, though, in strong opposition to the National Defense Authorization Act, which would authorize

another \$618 billion in spending to our already out-of-control defense budget. It would also expand funding for wars that Congress has never debated. Once again, my Republican colleagues have used an off-the-books spending gimmick to further expand the already-bloated Pentagon budget.

Enough is enough. Instead of writing blank checks to the Pentagon, Congress needs to live up to its constitutional obligation to debate matters of war and peace. We need to rip up the 2001 blank check for endless war. We need to stop funding wars without end, with no debate on the costs and consequences to our troops or to the American people.

Mr. Speaker, I do have to say that I am pleased that my amendment, which I coauthored with my good friend Congressman BURGESS, to report on the audit-readiness of the Pentagon, that amendment passed, but much work remains.

So I call on our Speaker to act to bring some accountability to Pentagon spending and to bring forth an authorization to use force to support or oppose these new wars. We need to do our job.

I urge my colleagues to vote “no” on this bill and reject this wasteful spending.

Mr. THORNBERRY. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York (Ms. STEFANIK), the distinguished vice chair of the Subcommittee on Readiness.

Ms. STEFANIK. Mr. Speaker, I rise today to express my strong support for the FY17 NDAA conference report.

I want to first thank Chairman THORNBERRY for his dedication and continuous support for our troops and for his leadership during the conference committee process.

I am proud to support this critical bill that truly hits home for my district and for our brave men and women in uniform across our great Nation. My district is the proud home of Fort Drum, and this bill provides for the ongoing combat operations where troops from the 10th Mountain Division continue to selflessly serve. It also fully supports our Navy's nuclear community, from operational capabilities, to nuclear training sites at Ballston Spa, New York.

□ 1100

One of the most important provisions is a full 2.1 percent pay raise for our troops—to our Nation's dedicated and brave servicemembers who risk it all to provide us with protection and security—and to their loved ones who are anxiously awaiting their return.

This bill also prevents a possible readiness crisis by investing in our military personnel and preserving their expertise.

In order for our military to continue its superiority in any battlefield and

through countless combat deployments, this bill ends the misguided drawdown of troops. It ensures we have the land forces end strength to face the world's challenges and protect our Nation.

Every day I am grateful and humbled to represent so many brave men and women in uniform and their resilient loved ones. I encourage all of my House colleagues to vote in support of this vital bill.

Mr. SMITH of Washington. Mr. Speaker, may I inquire how much time is remaining?

The SPEAKER pro tempore. The gentleman from Washington has 6½ minutes remaining. The gentleman from Texas has 6½ minutes.

Mr. SMITH of Washington. Mr. Speaker, I have no further speakers, and I reserve the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield 1 minute to the gentlewoman from Arizona (Ms. MCSALLY) who is a very valued member of our Armed Services Committee.

Ms. MCSALLY. Mr. Speaker, I rise today in strong support of the NDAA. I thank Chairman THORNBERRY for his leadership on this issue and being a member of that committee.

As a retired Air Force colonel and A-10 pilot, I am deeply troubled by the dangerous atrophy of our military in recent years. For example, we once had 134 fighter squadrons. Today we have 55. We had 946,000 total force military and civilian airmen, and now we are down to 660,000. We are short 700 fighter pilots, 4,000 maintainers, and critical munitions. Yet the world isn't getting any safer.

This bill takes crucial steps to reverse the readiness crisis and helps ensure our military has the training, manpower, and resources they need to keep us safe. It increases end strength and funds the weapons systems we need to take on ISIS and other emerging threats, such as the Tomahawk missile.

It fully protects the mighty A-10 Warthog, our best close air support asset. It includes critical language I authored to require a fly-off between the A-10 and the F-35 before a single A-10 can be retired. It fully funds the EC-130H Compass Call, the Air Force's only dedicated electronic warfare asset. It fully funds the vital missions we need for the future, like cyber, intelligence, and electronic warfare—all of which are housed at Fort Huachuca in my district.

I am proud to have worked on the committee with Chairman THORNBERRY and Chairman MCCAIN on these important issues. I want to thank them for their leadership. I urge my colleagues on both sides of the aisle to support this critical bill and support our troops.

Mr. THORNBERRY. Mr. Speaker, I yield 1½ minutes to the gentleman

from Ohio (Mr. CHABOT) who is the distinguished chair of the House Committee on Small Business, which has made a number of contributions to this conference report.

Mr. CHABOT. Mr. Speaker, I also rise in strong support of this conference report because it provides for our national defense and also supports America's small businesses. As was mentioned, as chairman of the House Committee on Small Business, I have seen firsthand just how vital small businesses are in providing the Department of Defense with the goods and services it needs in a cost-effective and efficient manner.

Also included within this conference report are contracting reforms which will provide small businesses with greater access to defense contracting opportunities, as well as extend such important programs as the SBIR and the STTR research programs.

Finally, this conference report calls on agencies to provide cybersecurity resources to small businesses to protect themselves from cyber attacks which are becoming a greater and greater threat to businesses all across this country and really all across the world.

I want to thank Chairman THORNBERRY for his hard work and his leadership. He has done a tremendous job in getting this crucial legislation finally across the finish line. I also want to thank all the members of the Small Business Committee. Many of the small business provisions included within this report came out of our committee with strong—if not unanimous—bipartisan support. Working together through regular order, we have been able to strengthen the small business industrial base which is so fundamental to the health of our Nation as a whole.

Mr. Speaker, again, I want to thank all the members of Mr. THORNBERRY's committee for their hard work on this. It is really a job well done.

Mr. THORNBERRY. Mr. Speaker, I have no further speakers other than myself to close, and I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield myself the balance of my time.

I just want to make three issues, and some of them were raised during the course of the debate. First of all, I like a lot of what is in this bill. I think it is also important what is not in this bill. There were a number of issues that were extraneous to the actual business of national security that had been put in by one side or the other that, in conference, we were able to remove. One of the most prominent ones was one that was raised earlier, the so-called Russell amendment having to do with the ability of companies and businesses that are receiving government contracts to discriminate. I was very

much opposed to the Russell amendment. I am happy that we agreed to take it out.

I just want to explain a little bit exactly what it is because it is really rather simple. All the President accomplished in this is that there already is an executive order saying: if you do business with the Federal Government, then you cannot discriminate against certain classes of people. I don't remember all the different classes, but certainly one of the big ones is you can't discriminate based on race. So in other words, if your religious tenets are racist—say, for instance, you don't like Black people and don't employ them and don't want to do business with them—we, as the Federal Government, have decided that that is not acceptable, and we will not allow you to do business with the Federal Government.

All this executive order did was add the LGBT community to those protected classes. So, basically, what we are saying is: not only is it not acceptable to be racist, but it is also not acceptable to be homophobic. I completely agree with that, and I would hope our country would get to the place where it would agree with that as well; that if you feel that you must discriminate against people simply based on their sexual preference, then we are not going to do business with you. That is a policy that, I think, we should have. That is what the executive order does.

To reverse that in the Defense bill, I think, would be an abomination, particularly since we have made such progress within the Department of Defense. We have finally gotten rid of Don't Ask, Don't Tell so that gay and lesbian people can serve openly in the military. They have served in the military for decades, and now they are allowed to serve openly. We have recently allowed transgender people to serve openly as well, which I think is a tremendous step forward. The Russell amendment would take us back.

So, again, I really want to emphasize that all the executive order does is say that it is not all right to be racist and it is also not all right to be homophobic. I think that is a principle that we should stand for as a country.

I want to further add that even within that executive order, there are many exceptions that already exist. Now, even though I am a lawyer, and even though lawyers have tried to explain this to me, I don't fully understand all those exceptions, but religious groups are allowed to discriminate based on the tenets of their belief within the existing executive order that was already passed. So even though the people who were pushing the Russell amendment already have what they want—even though, in my opinion, they shouldn't—there is no need to further emphasize the fact that we are going to

allow people who do contract with the Federal Government to discriminate against the LGBT community. I think that is basically wrong and should not be allowed.

The second point I want to make is on the money. We have heard over and over again about how underfunded everything is, and I get that. But we are spending \$619 billion on the Department of Defense—far and away more money than any other country in the world, and we have been spending more money on defense for decades than any other country in the world. We ought to be able to build a military that can protect our national security interests for that amount of money, and not only should we be able to, we are going to have to because we are \$19 trillion in debt. I forget exactly what the deficit is this year, but it is somewhere in the \$500- to \$600-billion range.

We have a President coming into office who is promising trillions of dollars in additional tax cuts. We also have a crumbling infrastructure in this country, and it is just as important that we maintain the strength of our country at home—that we have a transportation infrastructure, an education infrastructure, and a research infrastructure that continues to make us as strong as it is and that we have a national security apparatus that will protect our interests abroad. If we spend all of our money in tax cuts and defense, then we will wind up with a very hollow country.

We have got to make some tough choices going forward, and I believe that we can meet our national security needs, frankly, for less money than we spend. There are greater efficiencies; there are programs that we don't need to continue with.

Those are the choices that we are going to have to make in the years ahead because right now we are planning on more programs and more national security than we could possibly have money for in the next decade. We cannot continue to duck the tough choices that get us a national security apparatus and a Department of Defense that we can actually afford that also provides for our national security.

Lastly, I just want to close where I started and say that the product of this bill—I don't know how many pages it is this year, but it is a lot—requires a lot of work, and the people you see sitting behind us are the staff that do that work tirelessly night after night. It is a yearlong process to put it together and to negotiate with the Senate to get there. We have the most outstanding staff that I can imagine. I want to make sure that we thank them for that incredible work that they do, not just for us but for the men and women who serve in the military.

Again, I want to thank Chairman THORNBERRY. We work in a bipartisan manner on this committee, and, as

many of you are aware, that is not easy. I have been here 20 years, and the country and this place have suddenly become more partisan. It has become more and more difficult to do anything, to pass any kind of bill where Democrats and Republicans actually work together.

The National Defense Authorization Act is a shining example of the way the legislative process should work, and many people are to thank for that, but it all starts with the chairman. It all starts with Mr. THORNBERRY and also with Senator MCCAIN on the other side being dedicated to the principle, number one, of bipartisanship—of working together—and, number two, to the absolute commitment that we will get our job done. Sometimes it takes until December. I think we went all the way up to December 16 a couple of years ago, so we are way ahead of schedule this year by those standards. Sometimes it takes a long time, but we always get it done, and it is a credit to those chairmen that we do.

Mr. Speaker, again, I urge passage of this very important bill, and I thank the chairman again for his great work and all the staff for the work they did to make this possible.

Mr. Speaker, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I completely agree with the distinguished ranking member that to produce this bill requires a great deal of effort by a number of people, starting with him, other members of the committee, and other Members of the House. It is also essential that our staff, who support our work, be thanked, and he has done a great job of doing that.

I agree with him also about the leadership of Senator JOHN MCCAIN, a man who, I think, is unique in the country's military history at this point. His leadership, along with the ranking member, Senator JACK REED, has been obviously essential, not only in this bill but in Congress being able to fulfill its constitutional responsibilities.

I know there are disappointments with this bill, Mr. Speaker. There are things that people would like to see in here, a lot of them not really core defense issues, but those matters had to be dropped to get this bill to this point.

I am confident that the new administration will review the executive orders that the ranking member was talking about and that those unconstitutional restrictions on the First Amendment will be reviewed, modified, or repealed. All of that facilitated getting this bill before us today.

I am also hopeful that the new administration will send us a supplemental request, because there are desperately needed modernization items from ships, airplanes, munitions, and other things that are not authorized in

this bill but are needed desperately by our troops. So I hope—and I expect—that we will do better in the coming year to, again, fulfill our responsibilities under the Constitution.

Mr. Speaker, I would just end with this: I believe the first job of the Federal Government is to defend the country. The Constitution puts specific responsibilities on our shoulders to raise, support, provide, and maintain the military forces of the United States. The most important part of that responsibility deals with the people, and this bill, if it is nothing else, supports the men and women who volunteer to risk their lives to defend us and protect our freedoms. For that reason alone, it deserves the support of every Member of the House. I hope it will receive that support.

Mr. Speaker, I yield back the balance of my time.

Mr. BLUMENAUER. Mr. Speaker, today I voted against the Conference Report to Accompany S. 2943, the National Defense Authorization Act (NDAA) for Fiscal Year 2017 (Roll No. 600). Though the legislation contains several provisions that I support, and I commend the House and Senate Armed Services Committee for tackling some difficult issues, I am concerned about many components of the bill, including the continued use of a budgetary gimmick to avoid making the tough decisions we need to make about our defense spending.

This NDAA includes \$67.8 billion in Overseas Contingency Operations (OCO) funding, which isn't subject to budget caps, and \$8.3 billion of this funding would go to base defense budget operations. Congress and the Administration should not be able to use the account, initially used to fund the wars in Iraq and Afghanistan, to pad their budgets in an era of fiscal uncertainty. The legislation also keeps intact funding for several unnecessary and outdated weapons programs and includes extraneous funding, unsolicited by the Navy, for an amphibious ship replacement program known as the LX (R).

The legislation also maintains prohibitions on closing the Guantanamo Bay detention facility and on transferring any detainees to the United States. It's past time that we closed this military prison.

Finally, it's concerning that the bill includes new language that marks a significant shift in U.S. missile defense policy which dates back to 1999. This adjustment could cement U.S. proliferation of nuclear weapons, while sending a counterproductive signal to other countries.

There are provisions of this legislation that I support. I've fought to defend and strengthen the Afghan Special Immigrant Visa (SIV) program since I helped establish the program with my colleagues in 2009. This legislation extends the program through 2020 and authorizes an additional 1,500 visas for our allies. Though the bill, unfortunately, restricts the eligibility of applicants—eligibility requirements that I sought to remove from the legislation when it was being considered by the House—I look forward to continue fighting for the viability of the program next year.

I'm also glad that we're taking a small step towards cost accountability with the bill's

transparency requirements for the Air Force's new B-21 bomber. I offered an amendment to have the Department of Defense disclose the total cost of the bomber program in the House version of the bill.

Though I cannot support this legislation, I will continue to support our armed forces, while fighting for reductions in the bloated defense budget.

Mr. SANFORD. Mr. Speaker, I will ultimately vote today for the National Defense Authorization Act because it's a necessity, and I think it's important we authorize this spending so that procurement, research, and a host of other long-term projects stay on track.

That's the good news.

The bad is that there are many wrongs tucked into this bill. It continues to use wartime contingency funds for recurring operations. It has an earmark for New Balance shoes. I could go on, but I write to highlight what I think will be the most damaging part of the bill—exempting women from the draft.

In the spring, Secretary Carter made women eligible for combat roles, and this was supposedly about equality. This bill goes a step further and makes it law that women will be preferentially treated. Doing so is not good for morale and readiness because troops know you can't have it both ways in life. Either we are all on the team together and treated equally—or we are not.

I said in February that the Secretary of Defense's new policy of opening front-line combat roles to women would unleash political forces that in the end would make our military weaker. All this could have been avoided if we had been allowed a national debate, but the administration rushed to stack up perceived political wins while it could—and so we are where we are.

What happened in this bill is the first of many inconsistencies that will come to weaken one of our military's real strengths: its leadership as an institution in treating people equally as it focuses on but one outcome—the defense of our nation. It needs to be remembered that 6 years before *Brown vs. Board of Education*, the armed forces had already been desegregated. Actions like this and its focus on equality of opportunity have something to do with Gallup polls showing our military as the most respected of American institutions.

The bill creates a daring double standard. Women are now eligible for combat roles but not the draft. It codifies the draft for men but not for women at the very time women are now eligible for combat roles. How is this equal?

To be clear, I'm not a fan of women in a draft or being a part of Seal Team 6. I just think we should offer equal roads to getting to the Seal unit, if billets are open to men and women. Our nation asks people in the elite units to do remarkably rugged things that pose serious physical challenge. The Marines have actually looked deeply at this and recently completed a 1,000-page study that concluded that male units overwhelmingly outperformed integrated units in physical tasks. Indeed, Navy Seals comprise but 1 percent of the Navy, Force Recon is about the same within the Marines—while Delta Force numbers are actually classified, and the problem in the elite forces is that physical prowess is not a part of

what you do; it is part and parcel to what you do.

There is a reason we don't see a lot of women in the NFL, and if we really want to try a social experiment, let's make one-third of the Army football team female and see how it does next year against Navy. For that matter, my sister is a wonderful woman and a far better shot than I am, but she can't carry me very far. We begin to affect unit cohesion when members of a unit believe their counterparts can't carry them out of a bad spot in which they may have found themselves . . . but all this is a debate for another day.

The debate that needs to come in the wake of this bill is how we reconcile equality of opportunity in the military with people in this bill being treated quite differently. Our nation's defense is not a social experiment. Lives hang in the balance. For the sake of morale—so important to what makes our military strong—it's important we circle back on the draft issue this coming year.

Ms. BORDALLO. Mr. Speaker, I rise to speak on the Fiscal Year 2017 National Defense Authorization Act, which was passed by a 375–34 vote on Friday. I commend Chairman THORNBERRY, Ranking Member SMITH and the committee staff who worked many long nights on the FY17 NDAA. I worked with Mr. SMITH and members of the committee, particularly Readiness Chairman ROB WITTMAN, to include a number of provisions and funding levels that will address certain readiness shortfalls and continue to support the Asia-Pacific Rebalance.

This conference agreement, along with the House report passed in May, includes a number of provisions that are particularly important for the people of Guam. Over the past few months of negotiations, we were able to secure the provision that authorizes the payment of claims to the survivors of the occupation of Guam during World War II and the heirs of those who were killed during the occupation. During World War II, Guam was the only U.S. civilian population occupied by Japan, and during this time our people were subjected to rape, torture, assault, murder, and other inhumane atrocities. The provision does not add to federal spending and utilizes mandatory federal spending provided only to the Government of Guam for taxes paid by federal personnel stationed on Guam. This is an important step towards recognizing the men, women, and children who endured injustice yet remained and remain loyal and patriotic Americans, and its inclusion this year is a hard fought victory for the people of Guam. I look forward to working with the Foreign Claims Settlement Commission, the Trump Administration and stakeholders on Guam to ensure that the war claims program is implemented in a fair, transparent and equitable manner. I will work to ensure the process is as clear to the people of Guam as possible so that we can truly bring closure to this matter.

We also successfully repealed the remaining restrictions on civilian infrastructure projects related to water and wastewater, as well as the construction of a cultural artifact repository, and authorized \$67.5 million for these investments. This bill also authorizes military infrastructure projects, including full funding for six military construction projects for

housing, munitions, and power infrastructure development. These projects total nearly \$250 million and demonstrate further the continued commitment of the U.S. government to the Guam build-up and the realignment of Marines.

At the same time, this build-up must continue to reflect the 2011 Four Pillars agreement that commits the Navy to being a responsible community partner. Because of local concerns raised about land returns and how that will be calculated and tracked, we hold the Navy accountable to its "Net Negative" commitment by including in this bill a reporting requirement on past, current, and future Navy land usage on Guam. It is important that we have a mutual understanding about what lands will be returned to ensure that the Navy's commitment to hold no more land than it already has is upheld.

There are other challenges associated with the Guam build-up that are addressed this year. The Senate Judiciary Committee majority objected to the House-passed provision that would address workforce challenges affecting the health care and construction industries by providing flexibility to U.S. Customs and Immigration Services as it evaluates H-2B visa renewal applications. These industries directly support the military mission on Guam and having an inadequate workforce on island could negatively impact our national security. However, in order to gather additional data and continue to build the argument in order to address the situation in the coming year, there is a reporting requirement that asks the Navy to document the mission specific impacts of a reduced workforce associated with increased denials of these applications. I am deeply disappointed that this tailored provision was not ultimately included in the Conference Report but I will work with the Department of Defense to address this matter in next year's defense bill or any other appropriate legislation next year. Immediately, I will work with USCIS to see if any additional emergency authorities exist to find a temporary solution to the matter so that we do not hold up military construction projects. We must find a more permanent solution to the repeated denials of H-2B labor on Guam so we can have a stable and consistent workforce to meet construction timelines and provide critical health care to the military and residents of Guam.

Additionally, ballooning cost estimates and associated scheduling delays because of Navy requirements for clearance of munitions and explosives of concern have disrupted numerous projects and need to be addressed. While the Navy has demonstrated a commitment to finding a balance that assures public safety while eliminating unnecessary, burdensome, and duplicative requirements, there is more that needs to be done. Early next spring, I expect the Navy to brief us on steps they are taking to mitigate redundancies and find acceptable efficiencies and we will continue to track this issue closely.

Additionally, this bill mandates a review of distinguished Asian American and Pacific Islander war heroes who may have been unjustly overlooked in consideration of the Medal of Honor. I especially want to thank Ranking Member SMITH for his leadership on issues important to Asian American Pacific Islanders

(AAPIs) and working to get that provision included in the Conference report. This review was first conducted for AAPIs who served during World War II, but did not include those who served during the Korean and Vietnam Wars. Similar reviews have been conducted for African, Jewish, and Hispanic Americans and I believe that it is prudent to also conduct a comprehensive review for AAPIs who may have faced similar discrimination. It's important we appropriately recognize those who have given so much in support of our freedoms.

There are numerous provisions in this year's NDAA which help develop or restate our national security priorities in the Asia-Pacific region. We included several provisions which aim to help continue to build our relationship with Taiwan, including requiring a feasibility report on replenishment stops for Taiwanese midshipmen during their annual exercise in the Pacific as well as encouraging the U.S. and Taiwan to work together to engage in senior military leader exchanges. These will help build our bilateral relationship and provide opportunities for mutual exchange of information and training. This relationship will continue to be a critical asset for U.S. engagement in the region. We also seek to clarify and document aerial and maritime freedom of navigation operations in the South China Sea. This requirement tasks the Navy and Air Force with reporting quarterly on important details pertaining to individual operations which are meant to challenge claims to disputed islands in the region and ensure freedom of navigation for all vessels and aircraft. Additionally, this report expresses a Sense of Congress in support of trilateral cooperation between the United States, Japan, and South Korea. Japan and South Korea are important American allies in the region and have taken steps to rebuild their bilateral relationship, which the U.S. must continue to encourage and foster. As we continue a unified approach to countering nuclear proliferation in North Korea, as well as deterring and destroying threats emanating from the unstable regime, there are opportunities to leverage the Guam National Guard in defense of the homeland. Building on discussions I have had with senior Army leaders, the bill report encourages the Department of the Army and the National Guard Bureau to ensure that there are resources made available in the Fiscal Year 2018 Budget to integrate the Guam Army National Guard into the security force mission for the THAAD deployed to Guam. Not only does this mission fit perfectly into the Total Force integration for which the Army has been an advocate, it contributes to Active and Reserve Component readiness, and enables the National Guard to utilize their capabilities for the homeland defense mission.

The bill also continues to promote invasive specific prevention and management and regional biosecurity issues and complements appropriations legislation for the Department of Agriculture and the National Oceanic and Atmospheric Administration which require briefing on the Regional Biosecurity Plan on recommendations that will minimize the harmful ecological, social, cultural, and economic impacts of invasive species. This will encourage the Department of Defense and other federal agencies to make progress on implementation of high priority proposals contained within the Plan.

Finally, this bill provides critical funding for a number of Department of Defense programs that are important to Guam, the Asia-Pacific rebalance, and our broader national security interests. We provide critical funding to the Long Range Strike Bomber program and additional funding to keep the fielding of the MQ-4 program on track. There is also \$15 million in additional funding for the Readiness and Environmental Protection Integration Program. Though there needs to be greater allocation of resources for critical programs such as the National Guard State Partnership Program and the Naval Sea Cadet Corps, we were able to protect the President's Budget Request. However, these programs and their significant return on investment merit greater funding contributions.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 937, the previous question is ordered.

The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THORNBERRY. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on adoption of the conference report will be followed by a 5-minute vote on agreeing to the Speaker's approval of the Journal, if ordered.

The vote was taken by electronic device, and there were—yeas 375, nays 34, not voting 25, as follows:

[Roll No. 600]

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1137

Messrs. POLIS, COHEN, and NADLER changed their vote from “yea” to “nay.”

Messrs. GALLEG0, CICILLINE, and RICHMOND changed their vote from “nay” to “yea.”

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. AGUILAR. Mr. Speaker, I was not present for votes on Friday, December 2, 2016 because I was home in San Bernardino, CA to mark the one-year anniversary of the terrorist attack in our community. Had I been present, I would have voted “yea” on rollcall No. 600, the adoption of the Conference Report to accompany S. 2943, the National Defense Authorization Act for Fiscal Year 2017.

## THE JOURNAL

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on agreeing to the Speaker's approval of the Journal, which the Chair will put de novo.

The question is on the Speaker's approval of the Journal.

Pursuant to clause 1, rule I, the Journal stands approved.

## COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore (Mr. EMMER of Minnesota) laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 2, 2016.

Hon. PAUL D. RYAN,  
*The Speaker, House of Representatives,*  
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 2, 2016, at 9:55 a.m.:

That the Senate passed without amendment H.R. 6014.

That the Senate passed S. 3492.  
That the Senate passed S. 10.  
That the Senate passed S. 2058.  
With best wishes, I am,  
Sincerely,

KAREN L. HAAS.

## LEGISLATIVE PROGRAM

(Mr. HOYER asked and was given permission to address the House for 1 minute.)

Mr. HOYER. Mr. Speaker, I yield to the gentleman from California (Mr. MCCARTHY), the majority leader, for the purpose of inquiring of the schedule for the week to come.

Mr. MCCARTHY. I thank the gentleman for yielding.

Mr. Speaker, on Monday, the House will meet at noon for morning hour and 2 p.m. for legislative business. Votes will be postponed until 6:30 p.m.

On Tuesday and Wednesday, the House will meet at 10 a.m. for morning hour and noon for legislative business.

On Thursday, the House will meet at 9 a.m. for legislative business, and no votes are expected in the House on Friday.

Mr. Speaker, the House will consider a number of suspensions next week, a complete list of which will be announced by close of business today.

The House will also consider H.R. 5143, the Transparent Insurance Standards Act of 2016, sponsored by Representative BLAINE LUETKEMEYER, which specifies U.S. objectives regarding international insurance standards to ensure that our State-based system is preserved.

Additionally, the House is expected to consider the final Water Resources and Development bill as well as the continuing resolution to fund the government.

□ 1145

Mr. HOYER. Mr. Speaker, as the gentleman knows, the current CR expires on December 9. He has announced the CR will be on the floor next week, and it is my understanding that December 9 may be our last day in session, so I presume we need to act before December 8.

Does the gentleman have a perspective on the specific scheduling of the CR and when it will be on the floor?

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, the Appropriations Committee is continuing to work on the CR, including the length of time and when. As soon as it is done, it will be posted. It is our intention to have it done next week, and it would be our hope that we could finalize it on Thursday.

Mr. HOYER. Mr. Speaker, I want to make a comment that I know the CR will be the vehicle. I know Mr. TOM COLE made a comment—and I have talked to him about it—with which I

agree. I am disappointed, our side is disappointed, and I think some on your side with whom I have talked are disappointed that we were unable to do an omnibus appropriations bill which would reflect the work of the committee on our side and, indeed, the work of the committees on the other side of the aisle.

A CR is not helpful to management, obviously, not knowing specifically what resources they will have available for the balance of the year. Very frankly, although there will be anomalies in the bill to reflect the changes from last year's funding levels, they will undoubtedly not take care of a funding stream which will be appropriate for good management in the Federal Government.

I would hope in the year ahead that we would certainly work toward having bipartisan appropriation bills done bill by bill. Both sides have had trouble doing that from time to time, but let's hope that we can work toward that end. Because a CR, in many ways, is simply a failure; and forgetting about who is at fault or who is not at fault, it is a failure to operate the government in a way that is rational, reasonable, and most effective.

So I want to make that comment. I know the gentleman agrees with me on trying to go through regular order, and it is unfortunate that we didn't get there.

I yield to the gentleman from California if he wants to say anything on that. I have another question.

Mr. MCCARTHY. Mr. Speaker, I agree with the gentleman that we should go through regular order and get our appropriation bills done. It is our intention, as the gentleman knows from the new schedule coming out, especially loading more days in, to make sure, as we come back into the next Congress, that we start with appropriations and get that work done.

Mr. HOYER. Mr. Speaker, as a constructive suggestion, I notice that the gentleman has scheduled—and I want to thank him for his communication with our office so that we could work together on trying to get the schedule together—we have four working weeks in June. As you know, essentially, the Appropriations Committee tries to get its work done by the end of May in terms of its bills—they don't get all of them done by the end of May—so we can start moving them to the floor.

I congratulate the gentleman for putting sufficient time in so that we can do that in June and July, so that all the bills, hopefully—the objective, I would suggest, ought to be to have all of the 12 appropriation bills sent to the Senate prior to the August break. I thank him for his schedule on that.

Originally, March 31 was, as I understood, the CR date, but that is somewhat flexible now, I understand. Can the gentleman tell me what date he expects the CR to expire on?

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, as I mentioned earlier, the Appropriations Committee is continuing to work on the CR, and that would be including the length of time. The gentleman is correct that March was the date we were looking at. I believe that date will change. But as soon as discussions have ended and we are able to post, it will include the date of the length of the CR.

Mr. HOYER. Mr. Speaker, one of the things that we are certainly very hopeful of—your office and my office were having a lot of discussions about that, as are Leader PELOSI and Speaker RYAN having a lot of discussions—is the WRRDA bill. This deals very critically with the Flint crisis that has been ongoing now for 2-plus years. I am very concerned, although we apparently have an agreement on the dollar figure, can the gentleman tell me whether that dollar figure will, in fact, be appropriated within the structure of the WRRDA bill?

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, I do want to thank the gentleman from Maryland for his work with his staff on this issue of the Flint crisis when we were dealing with WRRDA and the continuing resolution just short months ago.

The Speaker and Minority Leader NANCY PELOSI are continuing to talk. It is our intention that it gets solved inside WRRDA, and we are hopeful that we can close out on that even today. As soon as it is finished, it will be posted as well.

Mr. HOYER. Mr. Speaker, when you say within WRRDA, in the event that that does not occur, would the gentleman believe that we would deal with the assurance of the funding in the CR itself?

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, as soon as it is finished, we will be able to put it out. But it is our intention, on the work that we agreed to with Members on your side of the aisle—and I know Speaker RYAN has had discussions with him as well, and he feels very comfortable about where we are and with funding on that—as soon as we are able to finish that up, I think everybody will be quite happy with the outcome. I think this is a work-on-both-sides-of-the-aisle compromise to find common ground to actually solve a problem.

Mr. HOYER. Mr. Speaker, I want to say to the gentleman from California that I appreciate the fact that our offices work together, that the Speaker and the leaders' offices have been working together and that the committees have been working together.

I would urge, however this money is appropriated—whether it is appro-

priated within the CR, whether it is appropriated in the WRRDA bill itself—that the money needs to be made available before we leave this week because this is an issue that has dragged on for too long and the people of Flint are still in dire distress, which is terribly unfortunate given the length of this crisis and the causes of this crisis, in some respects.

Lastly, Mr. Leader, I asked this and you responded that December 9 was the date; but do you see any possibility of going beyond the 9th that we need to warn our Members about? We are hearing that both on the Senate side and on our side, that there is every expectation that next week will be the last week that we will be in session in the 114th Congress.

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, the gentleman knows better than I—he has been here longer than I—that we can always set a date, but Congress sometimes has a problem making that date.

It is our hope that we can be finished by December 8, but no one can predict what happens on this floor, whether we have to be here longer. It is always my intention that Members understand, if the work is not done, we will not leave.

So we will not leave until we get a continuing resolution done and get WRRDA done. I believe that the prior work that we have done working together—and knowing where both of them are right now—that we can finish this up and be done on time.

Mr. HOYER. Mr. Speaker, the gentleman mirrors my words. When people would ask me when we are going to conclude, I would say we are going to conclude when we finish our work. Now, finishing, I guess, one's work is a subjective judgment; but certainly these two pieces of legislation need to get done, and hopefully we can get those done.

If we don't have a further week, this will be the last colloquy. I want to say to my friend that we have been able to work on a lot in the 114th Congress. We have had real substantive differences. We will continue to have those differences. But I look forward to working closely with the majority leader when, in fact, we agree, and when we disagree, to try to work constructively on trying to get to an agreement.

This election has caused us, I think, some real challenges. The election itself was a challenge, and I know we will have a lot more to say on that afterwards.

I want to thank the gentleman from California for the ability to work together and constructively on behalf of the American people where we have been able to do that.

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, I want to take a moment and congratulate the

gentleman from Maryland on his reelection to whip.

Hopefully, this is our last colloquy for the year, but you know as much as I know.

Mr. HOYER. Mr. Speaker, well, I know how much you look forward to these colloquies.

I yield to the gentleman from California.

Mr. MCCARTHY. Mr. Speaker, it is the highlight of my week.

I look forward to the next Congress. I do enjoy working with the gentleman from Maryland, even when we disagree, because the gentleman is honest and forthright with his disagreements. The gentleman is willing to work where we do find common ground.

We are going to have philosophical differences, but we are going to have the same commitment that we are going to try to find a way to move forward. At times, we are going to disagree; but those times that we do agree, we work very well together. I admire the gentleman. The gentleman works very hard when he disagrees, and that is just part of what I think the American people expect. We have got a lot of work to go before us. The election is over. I think it is time that this country comes together. We are going to have a lot of work.

As the gentleman from Maryland knows, with the new schedule, Members are going to be here much more than they have been in the past, and we are probably going to be on this floor with legislation a little more than we were last year. I look forward to that and look forward to working with the gentleman on ways that we can work together.

I wish the gentleman from Maryland a very Merry Christmas.

Mr. HOYER. Mr. Speaker, I thank the gentleman from California and return that wish for a Merry Christmas. This is not our last week. We are going to be here next week, so maybe we will save that for then.

I do look forward and the people look forward. This election has been a deeply troubling one for all sides in many respects. I think it is our responsibility to try to bring some degree of confidence to all of our constituents, whatever they believe, whoever they voted for, that we are going to move forward in a constructive, positive way to make America an even greater country than it is now.

I yield back the balance of my time.

ADJOURNMENT FROM FRIDAY, DECEMBER 2, 2016, TO MONDAY, DECEMBER 5, 2016

Mr. MCCARTHY. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet on Monday, December 5, 2016, when it shall convene at noon for morning-hour debate and 2 p.m. for legislative business.

The SPEAKER pro tempore (Mr. EMMER of Minnesota). Is there objection to the request of the gentleman from California?

There was no objection.

#### UNIVERSITY OF DETROIT JESUIT HIGH SCHOOL STUDENTS PAY TRIBUTE TO VETERANS

(Mr. BISHOP of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BISHOP of Michigan. Mr. Speaker, I rise today to recognize the students of University of Detroit Jesuit High School. They love this country, and they found a special way to pay tribute to our veterans.

Young men and women of University of Detroit Jesuit are volunteering their time to serve as pallbearers for homeless veterans at Great Lakes National Cemetery in my district, the final resting place for local military members who don't have families and are typically buried alone.

The students have never met these veterans, but they have a genuine sense of patriotism and gratitude for what they have done for our country. Their mission is simple: to give the proper burial that every veteran—every person—deserves.

Mr. Speaker, when no one else came forward, these young men and women stepped up to say thank you. Our district, our State, our country could not be more proud.

Our veterans are the backbone of what makes this Nation great, and we owe them the deepest respect and gratitude, even at the end of their journey. So thank you to our men and women of the military, and thank you to the young men and women of University of Detroit Jesuit for honoring their service to our Nation.

#### COOL SCIENCE TOPICS

(Mr. MCNERNEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCNERNEY. Mr. Speaker, I rise to continue a series of 1-minute speeches about cool science topics. Today I will be discussing applications of the National Science Foundation's funded research into arctic species.

In order to survive in the subzero temperatures of the Arctic, small organisms such as fish, insects, plants, fungi, and bacteria have evolved proteins that lower the freezing point of water solutions in order to protect themselves when temperatures drop.

Studies of the proteins of these arctic species will aid in the development of aircraft de-icing systems, cryopreservation of food, crop protection, frostbite prevention, and other innovations. These organisms and their ability to

survive in extreme temperatures will yield information of great value to society.

I applaud the NSF's funding of such important research.

□ 1200

#### HONORING OFFICER REGINALD GUTIERREZ

(Mr. REICHERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REICHERT. Mr. Speaker, late in the afternoon on Wednesday, Officer Reginald "Jake" Gutierrez of Washington State's Tacoma Police Department responded to a domestic violence call. Despite the potential danger he knew lay ahead, he went forward with courage and a resolute focus on saving lives, sadly sacrificing his own life in the end.

Tragically, he was 1 of 133 law enforcement officers this year to die in the line of duty. That is a 20 percent increase, Mr. Speaker, over last year. Officer Gutierrez has served in law enforcement 17 years, and he is one of the few who accept the calling to serve.

The men and women who wear the badge like Officer Gutierrez have continued to show resilience during difficult times and have maintained an unshakeable commitment to perform their critical mission of keeping our families safe and protecting our freedoms, whether we are relaxing at home or protesting in the street. Wednesday was no exception.

During what became an 11-hour standoff with the suspect, the Tacoma Police Department was assisted by many of its neighboring partners to ensure the surrounding area was secure. What is exceptional about this demonstration, Mr. Speaker, of bravery is that it is not exceptional at all. Men and women every day in this country walk out of their home wearing the badge and the uniform to protect our children, protect our communities, protect our kids at school.

I ask all of us to keep our law enforcement officers in their prayers, Mr. Gutierrez's family, and the Tacoma Police Department.

#### PUERTO RICO AND THE PRESIDENTIAL VOTE

(Mr. GRAYSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GRAYSON. Mr. Speaker, I rise today to call on Congress to give the people of Puerto Rico the most basic of rights, the right to vote for our national leader. In all of the world's democracies, Puerto Rico is the largest territory by population that cannot choose our national elected official.

Three-and-a-half million Americans in Puerto Rico have no say in who serves as President of the United States.

Women and African Americans were once denied this basic voting right. Now it is American citizens who reside in Puerto Rico who suffer this disenfranchisement. The contradictions are painfully clear. Puerto Ricans participate in the Presidential primary process, they send pledged delegates to each major party's convention, but they do not participate directly in the choice of President of the United States.

If these same American citizens move to the mainland, they can quickly and easily help to elect our national leader, but they are denied this very basic right to help choose the President and Vice President merely for living where they do.

The solution to this problem is a simple one, and we have accomplished it before. Fifty-five years ago, the District of Columbia was granted electors to the electoral college with the passage of the 23rd Amendment to the Constitution. Like Puerto Rico now, the District of Columbia was not and is not a State.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. GRAYSON. Mr. Speaker, I ask unanimous consent for an additional 30 seconds.

The SPEAKER pro tempore. The Chair cannot entertain that request.

Mr. GRAYSON. I will simply say we must give Puerto Ricans the right to vote for President.

The SPEAKER pro tempore. The time of the gentleman has expired.

#### CONGRATULATIONS TO OWEN HOLMES ON HIS RETIREMENT

(Mr. ROYCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROYCE. Mr. Speaker, I rise today to recognize the service of Owen Holmes on the eve of his retirement from California State University, Fullerton.

Dedicating his life to education, Owen has received the Robert and Louise Lee Collaborative Teaching Award, served as an education policy fellow at the Institute for Educational Leadership, and Owen was the inaugural awardee of the Edwin Crawford Award for Innovation.

I have had the pleasure of working with Owen on many issues for CSUF over the years—gerontology, childhood obesity, the Strategic Language Initiative, water hazard mitigation, the advancement of teaching and learning in mathematics and science—all to help enhance the university's education experience, and on the Cal State DC Scholars program and bringing students from the university here to our

Nation's Capital, where he orchestrated that effort.

Throughout his over 30 years of service, he has touched the lives of thousands of students and improved government relations and advocacy at Cal State Fullerton. I am pleased to have had the opportunity to work with Owen over the years to help make CSUF one of the Nation's largest and most inclusive institutions of higher education.

Thank you, Owen, for dedicating your life to improving education. We wish you a happy retirement.

#### CELEBRATING 150 YEARS OF GENERAL MILLS

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I rise to recognize the 150th anniversary of General Mills, an iconic Minnesota company. In 1866, on the banks of the Mississippi River, a bold and ambitious flour mill was founded, immediately becoming one of the largest in the country. Then in the 1920s, the company recognized that the milling industry needed to adapt, and so it expanded its scope and its vision and was renamed General Mills, turning its attention to food and consumer products, and brands such as Cheerios and Betty Crocker were born, becoming staples in homes across the United States and the world.

For 150 years, General Mills has made wonderful contributions to our great State. General Mills embodies the Minnesota spirit of hard work, innovation, perseverance, and generosity. They are an outstanding corporate citizen, representing the best of Minnesota and having an impact around the world.

Mr. Speaker, as Minnesotans, we take great pride in General Mills' success over the past 150 years, and we wish them continued success in the future with their leadership.

#### RECOGNIZING FILIPINO WORLD WAR II HEROES

(Mrs. RADEWAGEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. RADEWAGEN. Mr. Speaker, I want to take this minute to applaud the passage, by unanimous consent, of the Filipino Veterans of World War II Congressional Gold Medal Act, which I was proud to cosponsor.

I want to thank both Senator HIRONO and Representative GABBARD for their efforts in seeing this measure get sent to the President's desk. They did a fantastic job, and I could not be more proud to work alongside other women in Congress who work so hard for those they serve.

This has been a long time coming, and I am happy to see that we are fi-

nally recognizing these heroes who helped the United States win the war in the Pacific. The countless sacrifices and efforts by those men and women of the Philippines who answered the call to arms in defense of the ideals and values we hold so dear can never be forgotten. With the passage of this important legislation, the people of the United States can finally say thank you to those brave men and women.

I look forward to seeing the President sign this legislation into law and want to once again thank the men and women of the Philippines who fought alongside the United States in defense of freedom.

#### HIGHLIGHTS OF THE NDAA

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, we are all very pleased to see the passage of the Defense Authorization Act today. This is how the process actually is supposed to work. The House and the Senate came together in conference to have a document that we can send to the White House. We urge the President, after previous veto threats, to pass this measure, to sign this measure so we can put these important priorities in place, such as stopping the decrease of our American troop levels—this has funding to do that; very importantly, finally, a 2.1 percent pay raise for our troops, largest in several years.

Other good highlights of this include the stoppage of any funding to close down Guantanamo Bay, which helps keep us safe on American soil. We are not going to do anything to reduce the housing allowance. Instead, we will keep that in place for our soldiers and their families on base.

There is much to be happy about with this. One of the things I am most happy about as a Californian is Cal Guard, the National Guard, will not be seeking to take back the bonuses. This has strong measures in it. My colleague, Representative DENHAM, and I sponsored a bill to do this. This has a lot of those pieces in that, in Mr. DENHAM's bill, to stop the required repayment of bonuses that were taken in good faith by our Guard members who served. A lot of good things about this. I urge the President to sign this.

#### WEEK IN REVIEW

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2015, the gentleman from Texas (Mr. GOHMERT) is recognized for 60 minutes as the designee of the majority leader.

Mr. GOHMERT. Mr. Speaker, it is an honor to be here, and, even after the voters have spoken, it is an honor to

find when you and your positions actually don't make you special, they just make you completely in accord with over 70 percent of your constituents, not including newspapers.

The people have spoken, and, as President Obama referenced a number of times, elections do have consequences. What he failed to remember was, yes, but we had elections to Congress that also should have consequences. When we are accountable every 2 years, the President is only accountable every 4 years.

At this time, I yield to the gentleman from Louisiana (Mr. GRAVES), my friend.

#### LOUISIANA'S TRAGIC FLOODS

Mr. GRAVES of Louisiana. Mr. Speaker, I want to thank the gentleman from Texas (Mr. GOHMERT) for yielding to me.

Mr. Speaker, I have had the opportunity to come on the House floor a number of times and give an update to this body about the profound impacts of the flood we had in August of this year in south Louisiana. Just to remind you of a few statistics, this was believed to be a 1,000-year storm. There were trillions of gallons of water that fell in Louisiana. It was estimated to be about 31 inches of rain in about 36 hours in some areas of south Louisiana. That is more rain in 36 hours than the average American gets in a year's time. If that were a snowstorm, Mr. Speaker, that would have been 25 feet of snow.

We have been working now for months, working to try and make sure that we have an efficient recovery, make sure that these people can get back on their own two feet, that they can recover from this absolute tragedy that happened in south Louisiana, this once-in-a-lifetime event.

Starting out, Mr. Speaker, we saw unbelievable recovery, response, rescue activities, but it wasn't by government. That was the amazing thing. This was the community coming together, rescuing themselves, cooking for one another, sheltering one another, clothing one another. This wasn't government that came in and saved the day. While there were great first responders from our police departments and fire departments and others that came and helped out, the reality is, well over 90 percent of the response and rescue activities were done by other members of the community. They weren't trained. They weren't asked to do it. They just did it. So you saw a great spirit of recovery happening.

Then what happened is the Federal Government stepped in and began taking over some of the sheltering, began taking over the recovery activities, and we have seen a complete stop. Here we are, over 100 days after this flood event, and FEMA is telling people that they may get a trailer unit in January

or February. Mr. Speaker, it is winter-time. People are living in tents. I heard about a veteran over the weekend who is living in a car wash. We have people who are living in their stripped and gutted uninsulated homes, and they can't get trailers.

Mr. Speaker, there is a guy by the name of Darrell Whitehead who lives in Denham Springs, Louisiana. Mr. Whitehead has had a trailer sitting in his front yard for 5 weeks, a trailer that FEMA brought, and they couldn't let him move in. He has stared at this thing for 5 weeks. I made phone calls, my chief of staff made phone calls, and we had other caseworkers in the office who made phone calls trying to get FEMA to simply get this guy in his trailer.

□ 1215

Mr. Whitehead, already a victim of the flood, has been revictimized by FEMA by having a trailer sitting in his yard, not giving him a place to go for 5 weeks, and just having to sit there and be tortured because they needed a sink installed.

Mr. Speaker, this is ridiculous. And this isn't an isolated case. I can tell you case after case after case where this is the way FEMA has revictimized people flooded from this disaster.

Another example is Sheriff Jason Ard in Livingston Parish. Sheriff Ard was very concerned about the high percentage of sheriff's deputies that were flooded. He came in and he simply said: Look, we have got to get these deputies and their families in a safe, stable situation so they can focus not on having to figure out where their family is sleeping at night or what they are eating, but focus on law enforcement, focus on safety and security of the community that has been devastated by this flood.

So he came to FEMA and he said: Hey, look, I have got a plan. I have got a trailer dealer who is willing to give us trailers—and don't quote me on the numbers, but I am within the ball park—for \$36,000. I will buy them back from you for \$27,000 a year and you can find a piece of land. You can put all these trailers out. You can have a sheriff's deputy group housing area.

Instead, FEMA says: No. What we are going to do is get these deputies trailers not for a net of \$10,000, roughly, as I explained, but for \$100,000. That is how much FEMA is paying for these trailer units to buy them, store them, transport them—\$100,000 versus the scenario that Sheriff Ard found for \$10,000.

I have spoken to the Secretary of Homeland Security, the Deputy Secretary, Assistant Secretary, Regional Administrator of FEMA. Nobody can figure out how to do this and they are all telling him no.

So we have displaced deputies. We don't have the proper law enforcement focus in the community because the

deputies, appropriately, are worried about their family and where they are going to sleep and eat. We have got FEMA spending 10 times the amount of money that Sheriff Ard has found a solution for. What is happening is absolutely ridiculous.

So, lastly, Mr. Speaker, in September of this year we did appropriate a down payment of money to help with the recovery efforts; and certainly it is a step in the right direction. As I have said several times, it is not anywhere near the level of funding that should be put forth for a cost-efficient recovery effort. We are going to end up spending more money by lowballing these numbers and having FEMA revictimize people for months here than if we had just appropriated the right amount to begin with.

Right now we are negotiating a second tranche, a second payment. Under HUD rules, they are requiring that the funds focus upon low- and moderate-income only. I want to be clear: low- and moderate-income folks need help in recovering.

What about the middle class? What about the upper class? What about the job creators? What about the businesses?

Focusing only on low- and moderate-income begins a partial restoration. Flood waters didn't recognize only one socioeconomic class, only one race. It flooded everybody. The recovery should treat everyone the same. We shouldn't be splitting this up and only recovering certain folks. It is inappropriate.

The State of Louisiana's plan, in complying with the National Environmental Policy Act and overhead and administrative costs, is saying it is going to cost 30 percent of the money just to deliver this program. Complying with all these crazy rules, 30 percent of the money gets eaten up. That is crazy. These people are rebuilding homes that were right there, in many cases, within the same four walls that are there now.

Why are we spending \$100 million on environmental compliance? Who comes up with this stuff?

It is further delaying people getting back into their homes. This is crazy, Mr. Speaker. We have got to have a more commonsense, appropriate process to recovery.

Mr. Speaker, in closing, I just want to say that I have heard a lot of people in this country talk about how surprised they were with the outcome of the recent elections that we had. It is not a surprise to me that people are frustrated. What we are experiencing in south Louisiana today, being revictimized by FEMA, revictimized by the SBA in our recovery efforts, it is cause for extraordinary frustration. This is not what anybody in America wants—having to deal with a bureaucracy wasting money and taking months and spending 10 times to do what the local

officials or our community could do for a fraction of the cost at a fraction of the time.

People want government to be responsive to them. People want government to be efficient. We can do better than this. The election results didn't surprise me. I ran because I was frustrated; and I understand the sentiment, unfortunately, more so than most right now, because watching the Federal Government absolutely screw up this recovery effort is revictimizing folks in south Louisiana.

Mr. GOHMERT. Mr. Speaker, I certainly appreciate my friend, Mr. GRAVES, bringing up a real problem. We have seen it in Louisiana—and not just in southern Louisiana, but other parts of Louisiana—with massive flooding. I am not even talking about Katrina, but there was a massive amount of waste in Hurricane Katrina that also affected my district in east Texas. I have a 120-mile border that I share with Louisiana, and we have seen the same problems.

We have had a massive flood of Caddo Lake, one time the largest freshwater natural lake besides the Great Lakes. A natural dam apparently was exploded years ago. It still is one of the great treasures of the State and our country. It had a massive flood.

I was visiting in Karnack, Texas, last week with some of the local emergency people that are trying to take care of the issue. The local folks there in Harrison County are acting very responsibly, the local government is acting responsibly, but you have outrageous things like my friend, Mr. GRAVES, was talking about.

One family got a loan to buy a new mobile home that wasn't destroyed like the last one. With the flood, it had too much water. So they got a new mobile home and got the loan. Well, as we have heard with FEMA, in this case there were requirements that the mobile home be lifted up much higher. The elevation had to be much higher where it was. In the process of lifting it up, the mobile home fell and was completely destroyed. They still have to make payments on their mobile home for the loan, and they have no home. They were doing everything within their power to comply with the governmental requirements.

There are other bureaucratic nightmares.

I was hearing stories about how some of the churches in east Texas banded together. The Baptist men came in and did amazing work. Yes, I understand women, too. I think they call themselves the Baptist men. Anyway, they came in and did extraordinary work. When people didn't have any plumbing, they had nothing, they brought in portable showers and restrooms and provided the help long before FEMA could get there and do what was needed.

You hear people who were so affected by massive floods say: If we ever have

another disaster like that, before we call FEMA, we are going to call the Baptist men. They come in and they get stuff done. They help people where it is, and they don't care who you are, all of your background information. They see who is hurting and they help them.

Well, that is the way it used to be, but then we became too reliant on letting the government fix everything. There were people in the Federal Government that realized that if we can make the Federal Government the ultimate insurer of everything—your school loans, your home, your flood insurance—we will start small, but we will work up until maybe one day we can even have the government behind everyone's health insurance.

If you really want to take away people's freedom and you really want to have Big Brother government dictating every aspect of your life, the way to do it is to have the government ensure all those aspects of your life. Once someone has the right to pay in the event that you are harmed, then they have the right to tell you how to avoid them having to pay, and there goes your freedom. So the power of more insurance has come to the Federal Government.

Many of us thought we could give up our liberty just for a little more security, but Benjamin Franklin, with all the wisdom that man had, understood back then that basically those who are willing to give up liberty for security deserve neither.

For too long in this country, people have been giving up their liberty in order to get security only to find that they are not even secure, just like Mr. GRAVES was talking about. We thought, Gee, if we set up a Federal Emergency Management Agency to help take care of emergencies, it will be fantastic. If we set up a Corps of Engineers to help with our water projects, it will be fantastic. If we set up an EPA, or Environmental Protection Agency, to protect the world, the environment, it will be a great thing. But the longer these agencies exist, the less sensitive they are to what they were supposed to do.

We found it right here in the Capitol. About 7 years ago, the Architect of the Capitol, who works for the House and Senate, had decided that we all work for him and he started making demands, one of which was that I could not cook ribs and share them with other Members of Congress, as I had been doing once a quarter. Most of the networks wanted to do stories on my cooking ribs and I said: No, we are not going to do a TV thing on this. This is just between the Members.

Well, I am grateful that STEVE SCALISE got involved and I got PAUL RYAN to help. The Speaker was able to persuade the bureaucracies here on Capitol Hill that we can make this work

and have it safe if we work with each other and are able to get people to work together.

Many of my colleagues tell me it is the best meat they have ever tasted. Some say they are the best ribs they have ever tasted. I have enough of my late mother in me that I enjoy cooking and enjoy people enjoying what I cook. It is probably the only time here on Capitol Hill when I actually leave a good taste in people's mouths instead of a bitter taste.

As we continue to see abuses by the Federal Government and we see abuses going on across the country, you think, Well, in the Federal Government, even though it has badly abused its authority, isn't it supposed to protect us from other abuses?

The answer is: yes, if they are federally related.

Well, when you have the electoral college and electors elected as part of that system, it is critical that that be a protected system of voting, just as the Constitution would require and as the law actually requires.

This story by Hans von Spakovsky and Jennifer Matthes says: "Before Donald Trump's stunning victory on November 8, liberals called for acceptance of election results. But since the election didn't go as they'd planned, some have taken to harassing and intimidating electors in an attempt to change the election results. Some of these threats may actually violate Federal law, yet the Justice Department acts strangely uninterested in investigating."

This takes us back to having people armed with billy clubs standing and trying to intimidate voters at their place of voting, and the "Department of Just Us," which was supposed to be "Justice," said: No, no, no, that is fine for them to do it. There are no problems with them doing that.

□ 1230

If anybody else were to do that, yeah, we would probably go after them; but these are the New Black Panther Party, or such as that, so, yeah, it is fine if they do it.

We have got to get back to being a nation where the laws are enforced evenly across the board. If the laws don't make sense, like our own rules here on Capitol Hill, if things do not accommodate people fairly and equally, they are just arbitrary decisions like we got from the Architect of the Capitol when the Visitor Center was being built, or when people are just wanting to have a life up here, we should be stopping the bureaucrats and getting rules that apply across the board, fairly across the board.

Yes, here we make the rules, and we should have rules that apply to everybody; but when you have an arbitrary dictator, they don't get applied quite so evenly.

Here we have the Justice Department, and this report of electors that are going to be voting very soon in the electoral college to elect the President, and their very lives are being threatened. Some of them have had to move their families.

This Justice Department is not interested in protecting the integrity of the election. That is the problem we have been suffering for quite some time around the country. They were not interested in enforcing the law fairly across the board, so we end up all the worse off for it.

This article goes on to say, in Georgia and Idaho, the threats have become so extreme that the secretaries of state both released statements calling for the harassment to end.

I absolutely know, without doubt, that if Hillary Clinton had won the election, as the rules set it up, with a republican form of government—little R. Not the Republican Party, but a republican form of government, just as Ben Franklin said when he was asked after the Constitution finally came together with what most of the members of the Constitutional Convention said was divine providence, or the finger of God. Without the finger of God being involved, they could never have come up with that Constitution. Franklin says: A republic, madam, if you can keep it.

So we had found, and our Founders had wisely, so many of them, sought truth in Scripture, a Bible that they used to argue positions; and they realized probably a complete, perfect democracy is not best for governing people because, if it is a true democracy, then the law gets changed on whims. If someone becomes the object of scorn and it is a true democracy, they are not governed by laws that we currently have in our Constitution which indicate you can't have ex post facto laws. You can't make a law criminalizing things after the act has already occurred. Our Constitution guarantees against that.

Well, in a perfect democracy, there is no such ex post facto law. A majority can make a decision to criminalize conduct that previously occurred so that, when the person committed the act, they were not violating the law. They were acting in accordance with the law, and it was later changed.

Of course we have had people violate the ex post facto law, like President Clinton shoved through, in 1993, taxes on Social Security, taxes on money that had already been earned under different rules of taxation. That was a violation of the Constitution that was not thrown out, but it was clearly a violation of the Constitution. So those things do happen, even in a republic.

But with a republic as the Founders gave us, this idea of liberty could take hold. It wasn't just might makes right, somebody powerful intimidate the rest

into voting to string you up or to throw you out of the community. No, you had to abide by existing laws; and your conduct, if appropriate under the law at the time, could not be changed to punish you for something that happened before it was a crime.

So much wisdom in the Constitution, and that wisdom is being cast aside. But that wisdom gave us the electoral college, without which you would never see the Presidential candidates going to all the different States. They would never go to all the different cities that they have because the elections would be decided by the big urban areas. And you can look on the map that shows, most of them have red for Republican, blue for Democrats. Years ago it was the other way around. Red depicted Democrats. But since so many of them were becoming socialists, they were offended that the red made it look like they are red Communists. So somewhere along the way—I can't find who decided to make the color change—but more started making red Republican and blue Democrat. Colors don't matter.

But if you look at the counties that voted for Hillary Clinton, you quickly see that she was a fringe candidate. She was fringe on the West Coast, the big cities on the West Coast; a fringe candidate on the East Coast, the big cities on the fringe of the Nation; fringe up in the very north, the big cities in the very north; fringe along the southern border, and basically just a fringe candidate, which I guess would make the Democratic Party, when you look at who voted for the Democratic candidate, you would have to say this is now a fringe party in the United States.

You have the Republican Party that, apparently, according to the votes of the majority, represents over 90 percent of the geographical United States, and you have this other party, this fringe party, that represents the fringes around the edge of the country, basically. There are a few larger in the middle, but they are a bit of an anomaly, because mostly what we see is a fringe candidate and a fringe party. So it will be interesting to see where we go from here.

Obviously, we have a Justice Department that is not interested in protecting our Constitution, protecting the election process as they are mandated to do; and, frankly, when you have a Department of Justice that selectively enforces the law and so totally disregards other parts of the law, then they are really not a Department of Justice. If this administration had continued on, then we would seriously need to look to provide a more appropriate name for the Department of Justice because this is not—it has not been—a Department of Justice.

When you look at what appear to have been crimes committed by IRS

personnel, like Lois Lerner, perjury committed before Congress, crimes across America, as my friend, John Fund, wrote in his book about illegal voting, one of the—as I have heard John Fund say, perhaps the biggest fraud in America about our elections is the fraud that has been telling people that there is no illegal voting going on. There is certainly illegal voting going on, and many have chosen to look the other way.

But a majority of the geographic and a majority of the electoral college, elected electors, indicate they want the law applied across the country fairly. Section 11(b) of the Voting Rights Act makes it a crime for anyone to “intimidate, threaten, or coerce, or attempt to intimidate, threaten, or coerce any person for voting or attempting to vote.”

While this has been applied in the past to ordinary, everyday voters in Federal elections, the language does not limit it only to such voters. Electors who are casting their votes for President and Vice President are also protected by section 11(b), since the electoral college is an essential part of the Federal voting process.

This is supported by section 14(c) of the Voting Rights Act, which says that “voting includes all action necessary to make a vote effective in any primary, special, or general election.”

Obviously, the votes cast by Americans on November 8 will not be effective if the electors they chose are intimidated from casting their votes in the electoral college.

Federal law, which is 3 U.S.C., section 7, requires electors to cast their votes on the first Monday after the second Wednesday of December, which this year is December 19. These are recorded as certificates of votes, signed, sealed, and delivered by December 28 to the President of the Senate and the Archivist of the United States. Congress is required to meet on January 6 in joint session to count the electoral college votes.

As we know from so much of the lame stream media, like CNN, MSNBC, there was outrage when Donald Trump said he wasn't sure. He couldn't say beforehand that he wouldn't have questions about the outcome of the election if there were indications of massive fraud in the election. But as we heard from the lame stream media, oh, that would threaten the very foundation of this country. It would destroy the basis for this country. It was just such a threat to our very existence.

Well, now those same people that said those things are, according to them, themselves, risking this country. They are putting the very foundation of our country at risk.

And we all know now—some raised this during the election, but it was not clear until a recount began to be demanded by a third-party candidate—we

can now say, clearly, the evidence is in. I used to try felony cases as a judge, and before that, years before that, as a prosecutor. We can now rest our case.

Jill Stein was nothing more than a sham candidate to help Hillary Clinton, to try to pull votes away from others to help Hillary Clinton win the election. Clearly, that is what she was. Some suspected that. Some raised that issue. And now, obviously, she has no chance of winning anything in a recount—nothing. She has no chance of winning anything after a recount. So, clearly, the only reason she is doing it is to continue her effort to help Hillary Clinton become President, despite the will of the American people, through the electoral college, through the law as it was designed and set up.

Electors across the country should not be getting threatened. The Justice Department should be outraged, but they are not. They are not bothered in the least that the lives of the electors who will decide the Presidency are being threatened and that a constitutional crisis is at hand. And it shows, yet again, why over 90 percent of the—except for the fringes—Americans have said we want a change. We want an America that can actually move toward Dr. King's dream of people being judged not by the color of their skin, but by the content of their character. I hope and continue to pray that we will get there.

□ 1245

This quote in the article: "The U.S. Justice Department, which is charged with protecting all voters, should act to quash this outrage immediately."

Obviously, they are not interested in quashing an outrage. They have done more to stir up racial disharmony in this country. They have done more to supplant and subvert the intent of the Constitution and the clear meaning in the Constitution, and I cannot wait to have an administration that will at least make an overt effort to enforce the law as it exists.

The President, in his first term, told people over 20 times: I can't just do amnesty; that has to be done by Congress.

Somebody figured out—after his first term it appears to be when it really kicked up heavily—look, who will stop you? Sure, it is against the law. Sure, it is against the Constitution for you to do amnesty and to do executive orders that take away or rewrite laws that were passed by the House and Senate and signed by another President. You can just write them like any good monarch would. Who is going to stop you?

Somebody figured out to present that to the President. It had to be what happened because he had said so many times that he didn't have the power to do what he ultimately started doing.

You realize, gee, that is right. The soon-to-be-leaving HARRY REID will

surely protect President Obama from the Senate allowing anything that follows the law coming out of the House to enforce the law, the Senate will be able to stop it. So if Congress wants to cut off funding for what the President is doing illegally, the Senate Democrats will protect the President and protect his illegal conduct. So you won't have to worry; you can do whatever you want.

Amnesty was often granted by not even an executive order. It was granted by a series of memos by the Secretary of Homeland Security, Jeh Johnson. He rewrote the law with memos. So it will be nice to get back to having enforcement of the law because this article yesterday from Paul Bedard says: "A United Nations mix of illegal immigrants are now flooding through the U.S.-Mexico border, especially from Haiti and Pakistan, raising concerns of terrorism costing Americans billions, according to a new report and Senate testimony."

They have a quote here from my friend, Representative HENRY CUELLAR from Texas, a Democrat, but a great man. He said: "It is because people from different parts of the world, Africa, Middle East, other parts of the world are now realizing that all you have to do is get to the southern border of the United States and there's a process there you can claim a legal defense and you just get to come in. I mean, people, the smuggling organizations know exactly what they're doing."

As the border patrolmen have told me during late hours and early mornings talking to them out on the border, the drug cartels control every inch of the Mexico-U.S. border. They do so from the Mexico side, but they control what happens on the U.S. side under this administration.

We saw routinely that there were groups that came across who were not threats criminally, but they either wanted jobs or they wanted U.S. welfare, and they knew that under this administration we would not turn them back and say: No, you cannot come in illegally.

They would not interdict and enforce the law. They would say: Come on in. We have some questions to ask you before we give you a slip of paper, send you on your way or house you or, as some of the border patrolmen said, We end up sending them wherever they want to go in the United States.

They call the Border Patrol logistics. They get them to our side of the border, and we ship them anywhere they want to go.

So it is no wonder that we would have a request for this administration asking for billions more money to process folks. Another \$2.2 billion was mentioned. I saw another article where it lists the different components that the administration wanted to do. If you add up all the different requests and

different ways that this administration wants to use the money from American taxpayers, and it is to take money away from Americans who are here legally who are working and who are struggling to provide for themselves and their family, take their money away and give that to people who are coming in illegally.

There was a law I found out about in England visiting with some of their social security-type folks in their government. They have a law that you are supposed to be there for 5 years contributing to that social security-type system for 5 years before you can ever make a claim for a dime of it. Now, I hear there are abuses of that system because they may not have the best control over it, but it is a system that we have in this country and some other countries. You are taking money from people that earned it and giving it to people who are breaking the law.

If you do that long enough, that place that at one time was a shining light on the hill goes broke. The light goes out. Once that happens in America, as friends from other parts of the world have said: If you lose your freedom in America, the rest of the world has no chance.

You will realize historically a United States of America where people will go fight for freedom, they will create strength, a strong economy in their own country, strong enough because they enforce the rule of law across the board and become strong enough economically that they will go shed their blood and spend their money to get freedom for people who are suffering under the forces of evil.

Every now and then you have a President like Jimmy Carter who will say: Let's get rid of the Shah. Then he welcomes the Ayatollah Khomeini who was, as he said, a man of peace which opened Pandora's box. Radical Islamists had been put in a box for many decades, but President Carter was complicit in helping because he is a well-intentioned man, a good man and well intentioned—yeah, maybe a little anti-Israel, but he wanted to help folks. Out of his ignorance on radical Islam, he, for the first time in many decades, placed radical Islamists in charge of a massive military and a whole country. Since then, the world has been paying a very heavy price for what happened.

So we have a job to do. We took an oath in this body to support and defend the Constitution of the United States. As Donald Trump was saying yesterday in Ohio: our devotion and our oath is to one country. We say a pledge to a flag. That used to be true. It used to be that people learned enough history.

I love history. People like coach Sam Parker inspired me to love history. We learned it, and we knew what it took to keep a republic, madam, if we could. Because of Federal intervention in education, we have not helped our kids in

suffering schools. We have made them subjects to this master Federal Government: You do what we say or we don't send you any of the money you sent to us. We will fix up our offices, we will fix up a massive bureaucracy, and we will dictate to you from on high what we want done regardless of what Congress says.

They are not as bad as the Corps of Engineers, the EPA, and the FDA have been recently; but they have really not helped. As I said to President Bush's Secretary of Education—a very nice person. She had helped, I think, Texas schools when she was in Austin, but then she came here and disregarded the 10th Amendment and the Constitution that did not enumerate education as a Federal power. It was reserved to the States and the people. She began acting unconstitutionally.

As I explained to her, you ought to come to Gladewater, Texas. There is an amazing school there that helps between 120 and 130 special needs kids. One of them, if he touches something shiny, he has had a big day, and you mandate that they have to do a test for that child. They had a child at the Saint Louis School in Tyler. They told her she needed to come visit because they had a goal that by the end of the year this young man would be able to stick a fork in a piece of food and get it to his mouth. The goal they believed was reachable, but because the Federal Government was involved and they say, You don't get any of the money you sent us from Texas unless you do exactly what we say, that was not allowed. They allowed an alternative test that if he could point to a sticker that had a picture of food on it by the end of the year, then he would pass the test and that school would get back money from the Federal Government that those Texas taxpayers had sent to it to siphon off for whatever they wanted. So by the end of this year, that special needs young man—severe special needs—was able to point to a sticker that had a picture of food, but he could not feed himself.

That is the kind of insanity that has only gotten worse over the last 8 years. I thought a silver lining to President Obama being elected President was at least he is going to end the No Child Left Behind Act because that would mean returning the power to the States and the people that knew what they were doing.

A few years ago we were far higher in the studies of the capabilities of schoolchildren. We have dropped. We are not doing so well. There may be improvement in one year over another, but if you really want to leave no child behind, then you need to stop coddling the teachers' unions and coddle the teachers by letting them do what they know is best, subject to local control. If they are not doing their job, you don't have to go begging to Washington

or a teachers' union, you can go to the school board. If the school board won't do the right thing, you can run against them, get elected, and then fix it yourself.

□ 1300

When Sonny Bono in California ran up against a city manager that was so bigoted he would not let Sonny have the license to open his restaurant, that is how he got involved in politics. He found out who hired and fired the city manager—it was the mayor—so he ran for mayor, and the first thing he did was fire the abusive city manager. That is how a Republic system is supposed to work. It is a form of democracy, not a pure democracy, so that we can have ex post facto laws, and we can keep people from having their conduct criminalized after they committed it.

But we have got to hit the ground running at the first of the year and start the process of trying to heal America. President Obama did not make the school system better; he made matters worst.

We had a voucher program here in D.C. that minority kids—actually, it is the minorities are a majority here; minority elsewhere. These poor kids were suffering from a broken school system that had more than enough money to properly educate the kids, but kids were the victims of the bureaucracy.

What else has this Justice Department done? Well, they have gone around and started up racial tensions where there shouldn't have been. They stirred up rumors that, for example, if you are a Black young man in America, you are 20 times more likely to be shot than if you are a White person in America of that same age, which is simply not true.

We saw in different parts of the country when we had a Black mayor or a Black police chief, he was not a racist, was not out to harm Blacks in America, but try to do justice by them. They ultimately found in most cases that had been brought, actually, the police were justified in what they were doing.

Since police are composed of human beings, there are going to be some rotten apples. When I was a judge, I saw one every now and then—very, very rarely. But every now and then you did. And I would contend, from my experience handling thousands of felony cases, that the law enforcement officers I dealt with have a much tinier percentage of problems than the general population of America. When we find a police officer who is abusive, who is problematic, he or she should be punished.

But after 9/11, America was jarred awake for the first time in decades and really began again to appreciate the job law enforcement officers have done for us to keep the peace, to allow us not to be beat up by a bigger bully on our block, but allow the law to be en-

forced more equally and fairly. It is never perfect. There is always room for improvement.

People began to appreciate our first responders without contempt because they were stopping traffic. And they began to appreciate our military more because it was willing to go lay down their lives for their friends, for the people in this country, which Jesus said was the greatest love. And he absolutely knew. He laid down his life for us.

But in the last 8 years, we have become so racially divided.

The regret I have from going back to Mount Pleasant is how choked up I got going back to my old high school that was so good to me, did such a great job—public-school educating me, my brothers, my sister. I loved Coach Willie Williams, and I saw him after so long and got a hug that just touched deeply. Somebody said: Did you take a picture?

I didn't even think about a picture. I wasn't thinking picture. Here was a man that coached me, who would not put up with anybody using race. It didn't matter to Coach Williams. He expected us to perform. I wish I had gotten a picture. I have got to do that. What a great man.

Well, unfortunately, we have other information. There was a damning Department of Homeland Security report that exposed the administration's claim that as many as 81 percent of people attempting to cross the border illegally were apprehended from the port. We found out that actually it is not anything like 81 percent. It may be more like 54 percent.

Shockingly, the report's authors find that the estimated apprehension rate between ports of entry in 2005 was only 36 percent—and that was 2005. It has not gotten better, even though tricks of adjusting the statistics have gotten more multiplied.

We have got to defend our Nation, we have got to enforce the law, we have got to get this country back to being a shining light on the hill, instead of one overwhelmed by people who want to violate our law. They don't want to do it, but failing to enforce our borders will eliminate our ability to be the most generous country when it comes to visas and legal entry.

No other countries are massively larger in size—geographically in size or populationwise. No one awards more visas than we do—over 1 million. Yet, that will end up coming to an end with the failure to enforce the law. Particularly, there were problems in the Bush administration, the Clinton administration, the Bush administration before that, but it has just gone exponentially crazy over this administration, and we have got to get it under control.

One other thing: I continue to hear some in America say the days of the

United States being a manufacturing powerhouse are over. Well, I know from history—and apparently Donald Trump knows from just his business instincts—that if a strong country cannot produce the things it needs to defend itself and defend freedom, it will cease being a free country after the next significant conflict. It is just a fact.

The Battle of the Bulge, so many don't realize, even as late as that occurred in World War II, it had a good shot of prevailing and driving the Allied forces from the bulge in the middle out to the water's edge. But one of the most fundamental problems was they ran out of fuel.

Well, east Texas was the largest known reserve when it was discovered, and it provided plenty of oil. Our tanks had fuel, but, as we became more dependent on other countries, that became a problem. American ingenuity has allowed us to find more natural gas and more oil. Now we find out in west Texas natural gas is far cleaner, and I hope and pray, under Donald Trump, we will move to use more of that.

If we don't get back the factories—and we didn't just lose them from the Rust Belt. I lost a lot of steel plants like Lufkin Industries. It got bought up by GE. They didn't care about Lufkin. They weren't going to sponsor any little-league teams. They didn't care. They just bought them up, took their patents. They told me their headquarters for that operation was in Italy, over in the Mediterranean. This is a company that doesn't pay us taxes, but the head of it is close friends with the President.

Well, it is time we got back to manufacturing steel in America, steel pipe in America, manufacturing what we need to make tanks, planes, cars, and buses. Do that here. It is time we got back jobs to make paper. We have renewable resources here we quit using. They are not sequoias. They are not redwoods. They are pine trees. They grow back every 20 years. You can find pictures of places in east Texas where there were no trees, and yet, after the timber industry came in, they became forested again.

We can become great again, but we have got to be more responsible. We have got to protect our borders from those who want to do us harm and violate our laws. If we would do that, a 10-year-old little girl in my county would be alive today.

Mr. Speaker, I yield back the balance of my time.

#### SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 10. An act to provide for the consideration of a definition of anti-Semitism for the

enforcement of Federal antidiscrimination laws concerning education programs or activities; to the Committee on the Judiciary.

S. 2058. An act to require the Secretary of Commerce to study the coverage gaps of the Next Generation Weather Radar of the National Weather Service and to develop a plan for improving radar coverage and hazardous weather detection and forecasting; to the Committee on Science, Space and Technology.

S. 3492. An act to designate the Traverse City VA Community-Based Outpatient Clinic of the Department of Veterans Affairs in Traverse City, Michigan, as the "Colonel Demas T. Craw VA Clinic"; to the Committee on Veterans' Affairs.

#### ENROLLED BILLS SIGNED

Karen L. Haas, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 3471. An act to amend title 38, United States Code to make certain improvements in the provision of automobiles and adaptive equipment by the Department of Veterans Affairs.

H.R. 5111. An act to prohibit the use of certain clauses in form contracts that restrict the ability of a consumer to communicate regarding the goods or services offered in interstate commerce that were the subject of the contract, and for other purposes.

H.R. 6297. An act to reauthorize the Iran Sanctions Act of 1996.

#### SENATE ENROLLED BILLS SIGNED

The Speaker announced his signature to enrolled bills of the Senate of the following titles:

S. 1808. An act to require the Secretary of Homeland Security to conduct a Northern Border threat analysis, and for other purposes.

S. 1915. An act to direct the Secretary of Homeland Security to make anthrax vaccines available to emergency response providers, and for other purposes.

#### ADJOURNMENT

Mr. GOHMERT. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 1 o'clock and 10 minutes p.m.), under its previous order, the House adjourned until Monday, December 5, 2016, at noon for morning-hour debate.

#### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

7709. A letter from the Chief Counsel, FEMA, Department of Homeland Security, transmitting the Department's final rule — Suspension of Community Eligibility; Massachusetts: Marshfield, Town of, Plymouth County [Docket ID: FEMA-2016-0002; Internal Agency Docket No.: FEMA-8453] received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110

Stat. 868); to the Committee on Financial Services.

7710. A letter from the Associate General Counsel for Legislation and Regulations, Office of the Secretary, Department of Housing and Urban Development, transmitting the Department's final rule — Violence Against Women Reauthorization Act of 2013: Implementation in HUD Housing Programs [Docket No.: FR-5720-F-03] (RIN: 2501-AD71) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7711. A letter from the Associate General Counsel for Legislation and Regulations, Office of the Secretary, Department of Housing and Urban Development, transmitting the Department's Major final rule — Establishing a More Effective Fair Market Rent System; Using Small Area Fair Market Rents in the Housing Choice Voucher Program Instead of the Current 50th Percentile FMRs [Docket No.: FR-5855-F-03] (RIN: 2501-AD74) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7712. A letter from the Counsel to the Director, Office of Hearings and Appeals, Department of the Interior, transmitting the Department's final rules — Resource Agency Hearings and Alternatives Development Procedures in Hydropower Licenses [Docket No.: 080220223-6961-03] (RINs: 0596-AC42, 1090-AA91, and 0648-AU01) received November 28, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7713. A letter from the Director, Defense Security Cooperation Agency, Department of Defense, transmitting a proposed Letter of Offer and Acceptance to Poland, Transmittal No. 16-72, pursuant to Sec. 36(b)(1) of the Arms Export Control Act, as amended; to the Committee on Foreign Affairs.

7714. A letter from the Acting Assistant Secretary for Administration and Management, Department of Labor, transmitting notification of the link to the Department's FY 2014 and 2015 Inventory of Inherently Governmental Activities and of Commercial Activities, pursuant to 31 U.S.C. 501 note; Public Law 105-270, Sec. 2(c)(1)(A); (112 Stat. 2382); to the Committee on Oversight and Government Reform.

7715. A letter from the Administrator, Environmental Protection Agency, transmitting the Agency's Semiannual Report of the Office of the Inspector General for the period ending September 30, 2016, pursuant to Sec. 5 of the Inspector General Act of 1978, as amended; to the Committee on Oversight and Government Reform.

7716. A letter from the Director, Office of Legislative Affairs, Federal Deposit Insurance Corporation, transmitting the Corporation's interim final rule — Revision of the FDIC's Freedom of Information Act Regulations (RIN: 3064-AE53) received November 29, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Oversight and Government Reform.

7717. A letter from the Chairman, Federal Labor Relations Authority, transmitting the Authority's FY 2016 Performance and Accountability Report, pursuant to 31 U.S.C. 3515(a)(1); Public Law 101-576, Sec. 303(a)(1) (as amended by Public Law 107-289, Sec. 2(a)); (116 Stat. 2049); to the Committee on Oversight and Government Reform.

7718. A letter from the Chairman, Federal Maritime Commission, transmitting the

Commission's Fiscal Year 2016 Performance and Accountability Report, pursuant to 31 U.S.C. 3515(a)(1); Public Law 101-576, Sec. 303(a)(1) (as amended by Public Law 107-289, Sec. 2(a)); (116 Stat. 2049); to the Committee on Oversight and Government Reform.

7719. A letter from the Chairwoman, Federal Trade Commission, transmitting the Commission's Fiscal Year 2016 Agency Financial Report, pursuant to 31 U.S.C. 3515(a)(1); Public Law 101-576, Sec. 303(a)(1) (as amended by Public Law 107-289, Sec. 2(a)); (116 Stat. 2049); to the Committee on Oversight and Government Reform.

7720. A letter from the Chairman, National Endowment for the Arts, transmitting the Endowment's Fiscal Year 2016 Agency Financial Report, pursuant to 31 U.S.C. 3515(a)(1); Public Law 101-576, Sec. 303(a)(1) (as amended by Public Law 107-289, Sec. 2(a)); (116 Stat. 2049); to the Committee on Oversight and Government Reform.

7721. A letter from the Chairman, Occupational Safety and Health Review Commission, transmitting the Commission's Fiscal Year 2016 Performance and Accountability Report, pursuant to 31 U.S.C. 3515(a)(1); Public Law 101-576, Sec. 303(a)(1) (as amended by Public Law 107-289, Sec. 2(a)); (116 Stat. 2049); to the Committee on Oversight and Government Reform.

7722. A letter from the Chairman, U.S. Merit Systems Protection Board, transmitting the Board's FY 2016 Agency Financial Report, pursuant to 31 U.S.C. 3515(a)(1); Public Law 101-576, Sec. 303(a)(1) (as amended by Public Law 107-289, Sec. 2(a)); (116 Stat. 2049); to the Committee on Oversight and Government Reform.

7723. A letter from the Chief, Forest Service, Department of Agriculture, transmitting a proposal to accept a donation of approximately 3,323 acres of private land from the American River Conservancy, a California non-profit public benefit corporation, pursuant to 16 U.S.C. 1135(a); Public Law 88-577, Sec. 6(a); (78 Stat. 896); to the Committee on Natural Resources.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. CARTWRIGHT (for himself and Mr. GRIJALVA):

H.R. 6424. A bill to require the National Institute of Standards and Technology to establish a premise plumbing research laboratory, and for other purposes; to the Committee on Science, Space, and Technology.

By Mr. CRAWFORD (for himself, Mr. THOMPSON of Mississippi, Ms. SEWELL of Alabama, Mr. HARPER, Mr. PALAZZO, Mr. WESTERMAN, Mr. HILL, Mr. WOMACK, and Mr. ADERHOLT):

H.R. 6425. A bill to provide the force and effect of law for certain regulations relating to the taking of double-crested cormorants to reduce depredation at aquaculture facilities and protect public resources; to the Committee on Natural Resources.

By Mr. BUCK:

H.R. 6426. A bill to amend title 5, United States Code, to provide for a 2 year prohibition on employment in a career civil service position for any former political appointee, and for other purposes; to the Committee on Oversight and Government Reform.

By Mr. GARRETT (for himself, Mr. NEUGEBAUER, Mr. DUFFY, Mr. CARNEY, Ms. VELÁZQUEZ, Mr. MCHENRY,

Mr. HUIZENG of Michigan, Mr. POLIQUIN, Mr. SCHWEIKERT, Mr. HURT of Virginia, and Mr. LUETKEMEYER):

H.R. 6427. A bill to improve the operation of United States capital markets, and for other purposes; to the Committee on Financial Services.

By Ms. TITUS (for herself, Mr. BERA, Ms. HANABUSA, Ms. MATSUI, Mr. PETERSON, Mr. POCAN, Mr. CONYERS, Mr. COURTNEY, Mr. O'ROURKE, Mr. YARMUTH, Ms. SCHAKOWSKY, Mrs. LOWEY, Ms. KUSTER, Ms. DELBENE, Ms. MCCOLLUM, Ms. MICHELLE LUJAN GRISHAM of New Mexico, Mr. KEATING, Mr. BISHOP of Georgia, Mr. NOLAN, Mrs. DINGELL, Ms. EDWARDS, Ms. FRANKEL of Florida, Mr. GARAMENDI, Mr. DEUTCH, Mrs. BUSTOS, Mr. COHEN, Ms. SLAUGHTER, Ms. MOORE, Ms. CASTOR of Florida, Ms. PINGREE, Ms. WASSERMAN SCHULTZ, Mr. NADLER, Ms. KAPTUR, Mr. MCGOVERN, and Ms. BONAMICI):

H.R. 6428. A bill to amend title XVIII of the Social Security Act to limit Medicare part B premium increases for 2017; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BABIN (for himself, Mr. CONAWAY, Mr. FARENTHOLD, and Mr. WILLIAMS):

H.R. 6429. A bill to amend the Intermodal Surface Transportation Efficiency Act of 1991 to include certain areas in the Central Texas Corridor; to the Committee on Transportation and Infrastructure.

By Ms. KAPTUR (for herself, Mr. BENISHEK, and Mr. QUIGLEY):

H.R. 6430. A bill to require the Under Secretary of Commerce for Oceans and Atmosphere to conduct an assessment of cultural and historic resources in the waters of the Great Lakes, and for other purposes; to the Committee on Natural Resources.

By Ms. KUSTER (for herself and Ms. STEFANIK):

H.R. 6431. A bill to ensure United States jurisdiction over offenses committed by United States personnel stationed in Canada in furtherance of border security initiatives; to the Committee on the Judiciary.

By Ms. SLAUGHTER:

H.R. 6432. A bill to require the Secretary of Labor to monitor the trade deficits between the United States and other countries, and for other purposes; to the Committee on Ways and Means.

By Mr. TURNER (for himself, Mr. ZINKE, Mr. MILLER of Florida, Mr. LUETKEMEYER, Mr. DIAZ-BALART, Mr. COLLINS of Georgia, Mr. WITTMAN, Mr. BROOKS of Alabama, Mr. AUSTIN SCOTT of Georgia, Mr. ALLEN, Mr. KELLY of Mississippi, Mr. BRAT, Mr. YOHIO, Mr. RIBBLE, Mr. DESJARLAIS, Mr. RICE of South Carolina, Mr. BOUSTANY, Mr. WALBERG, Mr. SCHWEIKERT, Mr. LAMBORN, Mr. SMITH of Missouri, Mrs. WAGNER, Mr. CHABOT, Mrs. HARTZLER, Mrs. BLACKBURN, Mr. WENSTRUP, Mr. MEADOWS, Mr. JOHNSON of Ohio, Mr. MCKINLEY, Mr. TIPTON, Mr. JENKINS of West Virginia, Mr. LANCE, Mr. DAVIDSON, Mr. ROE of Tennessee, Mr. ABRAHAM, Mrs. WALORSKI, Ms. GRANGER, Mr. NEUGEBAUER, Mr. PEARCE, Mr. WEBER of Texas, Mr. CARTER of Texas, Mr. ROGERS of Alabama, Mr. CONAWAY, Mr.

CULBERSON, Mr. OLSON, Mr. FARENTHOLD, Mr. REED, Mr. GUINTA, Mr. BISHOP of Utah, Mr. CHAFFETZ, Mr. STEWART, Mrs. LOVE, Mr. WALKER, and Mr. STIVERS):

H.R. 6433. A bill to render ineligible for Federal funds any institution of higher education that removes, censors, takes down, prohibits, or otherwise halts display of a flag of the United States; to the Committee on Education and the Workforce.

By Mr. GRAYSON:

H.J. Res. 105. A joint resolution proposing an amendment to the Constitution of the United States to treat Puerto Rico as if it were a State for purposes of the election of the President and Vice President; to the Committee on the Judiciary.

By Mr. FOSTER (for himself and Mr. TAKANO):

H. Res. 940. A resolution expressing support for designation of December 3, 2016, as the "National Day of 3D Printing"; to the Committee on Energy and Commerce.

## CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. CARTWRIGHT:

H.R. 6424.

Congress has the power to enact this legislation pursuant to the following:

Article I; Section 8; Clause 1 of the Constitution states The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States. . .

Article I; Section 8; Clause 18 of the Constitution states To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the government of the United States, or in any department or officer thereof.

By Mr. CRAWFORD:

H.R. 6425.

Congress has the power to enact this legislation pursuant to the following:

Article VI, Clause 2 of the United States Constitution as upheld by the Supreme Court in *Missouri v. Holland*, 252 U.S. 416 (1920)

By Mr. BUCK:

H.R. 6426.

Congress has the power to enact this legislation pursuant to the following:

Pursuant to clause 1, section 8 of Article I of the United States Constitution of the United States which states: "The Congress shall have Power to lay and collect Taxes, Duties, Imposts, and Excises, to pay the Debts, and provide for the common Defense and General Welfare of the United States; but all Duties and Imposts and Excises shall be uniform throughout the United States."

By Mr. GARRETT:

H.R. 6427.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clauses 1 ("The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defense and general Welfare of the United States; but all Duties, Imposts and Excises

shall be uniform throughout the United States"), 3 ("To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes"), and 18 ("To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof").

By Ms. TITUS:

H.R. 6428.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1

By Mr. BABIN:

H.R. 6429.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8

By Ms. KAPTUR:

H.R. 6430.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 18:

To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof.

By Ms. KUSTER:

H.R. 6431.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3 of the United States Constitution, the Taxing and Spending Clause: "To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes. . ."

By Ms. SLAUGHTER:

H.R. 6432.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the Constitution of the United States.

By Mr. TURNER:

H.R. 6433.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 of the United States Constitution, to "lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States. . ."

Article I, Section 8, Clause 18 of the United States Constitution, "To make all Laws which shall be necessary and proper for carrying into Execution the foregoing Powers, and all other Powers vested by this Constitution in the Government of the United States, or in any Department or Officer thereof."

By Mr. GRAYSON:

H.J. Res. 105.

Congress has the power to enact this legislation pursuant to the following:

Article 5 of the United States Constitution.

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:

H.R. 704: Mr. LAMALFA.

H.R. 1151: Mr. DENHAM.

H.R. 1258: Mr. THOMPSON of California.

H.R. 1283: Mr. KNIGHT.

H.R. 1399: Mr. DAVID SCOTT of Georgia, Mr. BUTTERFIELD, and Ms. ADAMS.

H.R. 1733: Mr. KNIGHT.

H.R. 2903: Mr. DAVIDSON.

H.R. 3084: Ms. FRANKEL of Florida, Mr. JENKINS of West Virginia, and Ms. DELBENE.

H.R. 3683: Ms. PLASKETT.

H.R. 3713: Ms. PINGREE.

H.R. 3742: Mr. GARRETT and Ms. KUSTER.

H.R. 4298: Mr. BRADY of Pennsylvania, Mr. GRIFFITH, Mr. NORCROSS, and Mr. SHUSTER.

H.R. 4595: Mr. KILDEE.

H.R. 4770: Mr. JORDAN.

H.R. 5067: Mr. QUIGLEY.

H.R. 5082: Mr. REICHERT and Mr. NEAL.

H.R. 5310: Mr. COHEN.

H.R. 5947: Mr. COHEN.

H.R. 5999: Mr. FLORES, Mr. POLIQUIN, Mrs. BLACKBURN, Mr. PAULSEN, Mr. ISSA, Mr. WESTERMAN, Mr. MULLIN, Mr. BISHOP of Michigan, Mr. FLEISCHMANN, Mr. PITTENGER, Mr. GIBBS, Mr. WEBSTER of Florida, Mr. CHABOT, Mr. LAMBORN, and Mr. NEAL.

H.R. 6147: Mr. PERLMUTTER, Mr. POSEY, Ms. LOFGREN, Mr. LANGEVIN, Mr. BEYER, Ms. BONAMICI, Mr. GRAYSON, Mr. HONDA, and Mr. JOHNSON of Georgia.

H.R. 6149: Ms. STEFANIK.

H.R. 6208: Ms. MENG and Mr. LOWENTHAL.

H.R. 6340: Mr. GARAMENDI, Mr. HUFFMAN, Mr. YARMUTH, Mr. MOULTON, and Mr. DESAULNIER.

H.R. 6344: Mr. STEWART.

H.R. 6421: Mr. SMITH of New Jersey and Ms. GRANGER.

H.J. Res. 103: Ms. SPEIER.

H. Con. Res. 17: Mr. COMER.

H. Res. 831: Mr. PERRY.

## EXTENSIONS OF REMARKS

RECOGNIZING THE HONORABLE  
JUDGE FAYE D'OPAL

**HON. JARED HUFFMAN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. HUFFMAN. Mr. Speaker, I rise to recognize the Honorable Faye D'Opal as she retires from a long and distinguished career as Marin County Superior Court Judge on December 31, 2016.

First elected as Marin Superior Court Judge in 2004, Judge D'Opal served in the Felony and Civil Departments, Family Law, Probate, Conservatorships and the past two years as Presiding Judge of the Juvenile Department. She also served as the court's Assistant Presiding Judge (2012–2013) and Presiding Judge (2014–2015) with distinction.

Judge D'Opal's legacy of community service began in rural Arkansas where she participated in the historic efforts to desegregate Little Rock's public schools. She earned her bachelor's degree from Hendrix College in Arkansas and a law degree from the New College of California, San Francisco. She spent 12 years in Latin America working for the Peace Corps, and became a public-interest attorney.

Renowned for her 2013, now historic decision on the death penalty that virtually stopped it in the state of California, Judge D'Opal's career includes many additional legacies and positive impacts on others. From her work to establish a legal self-help center, to her advocacy for abused women for the Legal Aid of Marin, and her work as trustee of the Marin Community Foundation, Judge D'Opal has used her keen intellect to improve the quality of life for others less fortunate by supporting social justice and promoting fairness and equity for all.

In all aspects of her life, Judge D'Opal has acted with principles and courage. As a leader and role model for the LGBT community, and throughout her professional career and extensive public service, she has set a fabulous example for women and young girls everywhere. Even as she is approaching her retirement from the Superior Court, she has been encouraging more women and minorities to get involved in the legal system. Her positive impact on our community will continue as a pro tem judge in juvenile law, and in her pursuit to eliminate domestic violence.

Mr. Speaker, it is therefore fitting that we honor and thank the Honorable Faye D'Opal for her many good deeds, and wish her much enjoyment as she spends more time with her beloved partner, daughters and grandchildren, and hikes, bikes, and kayaks around the beautiful Northern Coast of California.

REMEMBERING CHANCELLOR  
DEBRA SAUNDERS-WHITE

**HON. DAVID E. PRICE**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. PRICE of North Carolina. Mr. Speaker, I rise today to honor the life and legacy of Dr. Debra Saunders-White, Chancellor of North Carolina Central University. Her death at 59, after a valiant battle with kidney cancer, is a tragic loss for the university and our state. My wife Lisa and I extend our condolences to the family of Dr. Saunders-White, the North Carolina Central community, and her extensive network of colleagues and friends.

Chancellor Debra Saunders-White was a first-generation college student, which gave her insight into the obstacles many students and families face and a passion to overcome them. She also understood the opportunities that come with higher education, especially for lower-income students. She was often found talking with students in the lunch hall or while walking around campus. Her warmth, the personal interest she took in students, and her courage in the face of adversity won the hearts of all who knew her.

Dr. Saunders-White began her career as Assistant Provost of Technology at Hampton University, where she later served as Chief Information Officer. In North Carolina, she first served at the University of North Carolina at Wilmington in the roles of Vice Chancellor of Information Technology, interim Associate Provost, and finally Chief Diversity Officer in the Office of Institutional Diversity. In May 2011, Dr. Saunders-White moved to Washington, D.C. to serve as Deputy Assistant Secretary for Higher Education Programs in the Department of Education.

On June 1st, 2013 Debra Saunders-White was appointed by UNC President Tom Ross and welcomed as the first female chancellor of North Carolina Central University, one of the top Historically Black Universities in this country.

During her time as chancellor, Dr. Saunders-White led an era of growth for North Carolina Central University, cultivating a theme of "Eagle Excellence". Her legacy includes the expansion of a dual degree program with North Carolina State University, as well as a collaboration with Durham Technical Community College to allow more students to transfer to NCCU. Construction of both a new business school and student center will begin next year thanks to Chancellor Saunders-White's efforts. It is a tribute to her legacy that this year North Carolina Central University was recognized as "HBCU of the Year" by HBCU Digest.

I join the North Carolina Central University and Durham communities in mourning the passing of Debra Saunders-White, who set the

university towards an even brighter future with her wise stewardship and strategic vision. We eagerly anticipate the new student center and will think of her every time we walk into it.

Chancellor Saunders-White combined professionalism and a collaborative style in a unique way, and I always enjoyed working with her. I especially admired her courage and determination in continuing to provide leadership throughout her battle with cancer. We join with her family, her many friends, and the students, faculty, and staff of NCCU, in mourning her passing and honoring her exemplary life.

HONORING SENIOR RESIDENT SUPERIOR COURT JUDGE PAUL L. JONES ON THE OCCASION OF HIS RETIREMENT

**HON. G. K. BUTTERFIELD**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. BUTTERFIELD. Mr. Speaker, it is with great pleasure that I rise today to honor Senior Resident Superior Court Judge Paul L. Jones. Judge Jones has been committed to the state of North Carolina and the people of Lenoir and Greene Counties through his work as a community based lawyer, jurist, Army Reservist and his commitment to nonprofit organizations.

Judge Jones is a proud graduate of historic Adkin High School in Kinston, North Carolina, Class of 1967. He received his undergraduate degree from North Carolina Agricultural and Technical State University and his law degree from my alma mater, North Carolina Central University. Judge Jones and I were law school classmates in the Class of 1974. We were the best of friends in law school and our friendship has endured.

Judge Jones work in the legal profession includes a variety of positions including his time serving as a staff attorney and Assistant Clerk of Court with the U.S. Supreme Court, a Judge Advocate Officer in the Army, supervising attorney for the North Carolina Central University Legal Clinic, managing attorney for Eastern Carolina Legal Services, and as a District Court Judge. When a vacancy was created for a Resident Superior Court judge position in 1999, Judge Jones was appointed to the Court and ran unopposed in 2000 and 2008, a position that he is now retiring.

While on the Superior Court bench, Judge Jones was an officer of the North Carolina Judicial Council and a founding member of the Equal Access to Justice Commission. He was a member of the North Carolina Judicial Standards Commission for a five-year term, which included the role of vice-chairman. In 2001, he was elected Vice-President of the North Carolina Bar Association.

Before retiring as a Colonel in the Army Reserves in 2000, Judge Jones served as a

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Judge Advocate with the 108th Division IT in Charlotte, North Carolina. While serving, Judge Jones was awarded the Army Commendation Medal, Meritorious Service Medal, the National Defense Medal, and the Legion of Merit.

While his commitment to the legal field and the military is commendable, it is noteworthy that he is deeply rooted in his native community of Kinston, North Carolina. Judge Jones has volunteered and been active on more than 20 nonprofit boards within Kinston for over 30 years and received the Kinston-Lenoir County Chamber of Commerce award of Citizen of the Year for 2013.

Judge Jones is married to the former Edwina Link and has two children, Krystle and Erika.

Judge Jones is a man of integrity, valor, and service. I ask my colleagues to join me in applauding my dear friend, Judge Paul L. Jones, and recognize his lifelong devotion to the people of Lenoir County and the State of North Carolina.

HONORING MONSIGNOR  
EDWARD BARRY

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to honor a man who has been an integral part of the Bronx and Westchester communities for more than four decades, Monsignor Edward Barry.

Born in Washington Heights, Msgr. Barry traces his roots from County Waterford. He graduated from St. Anthony's elementary school in Nanuet, NY in 1961 and then graduated Albertus Magnus High School in Bardonia, NY in 1965. In 1969, he graduated from Cathedral College in New York and then went on to St. Joseph's Seminary. After being ordained in 1973, he was appointed Parochial Vicar at St. Patrick's in Yorktown Heights, NY where he spent 7 years. As a young priest at St. Patrick's parish in Yorktown Heights, he was a member of the Yorktown Interfaith Alliance and a member of the Yorktown Substance Abuse Advisory Board. In 1980, Msgr. Barry was appointed Parochial Vicar of St. Frances de Chantal in the Bronx, NY. Following 6 years at St. Frances, he was appointed in 1986 as Executive Director of Youth Services and CYO for the Archdiocese of New York. From 1986–1991, he served as Chairman of the Board for the Kennedy Center in NYC and Chairman of the Board of Head Start at the Spellman Center in NYC.

In 1991 Msgr. Barry became pastor of St. Charles Borromeo in Dover Plains where he spent the next 13 years during which he was appointed Honorary Prelate. In 2004 he moved to become Dean of the Northeast Bronx Deanery and assigned as Pastor of St. Barnabas in the Bronx, before returning to Yorktown Heights.

Msgr. Barry's faith and devotion have served as a guiding light to countless men and women over the years. This year, the American Irish Association of Westchester is hon-

oring Msgr. Barry at their annual dinner dance. They could not have picked a more deserving honoree. Congratulations to Msgr. Barry on receiving this wonderful recognition, and my thanks to him for all he has done to better his and our community.

GIRL SCOUT GUSTALINE SAMBA  
EARNS GIRL SCOUT GOLD AWARD

HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to congratulate Gustaline Samba of Fort Bend County, TX, for earning her Girl Scout Gold Award.

The Gold Award is the highest achievement a Girl Scout can earn. To earn this distinguished award, Gustaline had to spend at least 80 hours developing and executing a project that would benefit the community and have a long-term impact on girls as well. To do this she created "Project Cycle Safety Shield," which addresses bike safety in her community where students often ride their bikes to school.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Gustaline Samba for earning her Girl Scout Gold Award. We are confident she will have continued success in her future endeavors. We are very proud.

HONORING WILLIAM T. BROWN

HON. DAVID E. PRICE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. PRICE of North Carolina. Mr. Speaker, I rise today to honor the life and legacy of William T. Brown of Fayetteville, North Carolina, a committed advocate for civil rights and educational excellence. His place in history was secured by his leadership during the integration of Cumberland County schools, one of the largest and most diverse school districts in the state of North Carolina.

Mr. Brown passed away on November 14 at the age of 87. My wife Lisa and I wish to extend our deepest condolences to his family, friends, and colleagues.

A North Carolina native, William T. Brown graduated from North Carolina A&T State University in 1948 and North Carolina Central University in 1954. Mr. Brown also pursued graduate degrees at Columbia University and the University of North Carolina at Chapel Hill.

In 1955, Mr. Brown moved to Fayetteville and began teaching science at E.E. Smith High School. After leading Ferguson Elementary School, he served as principal of Washington Drive Junior High School from 1963 to 1971, where he oversaw the process of integration almost a decade after the landmark Supreme Court case, *Brown v. Board of Education*.

In 1971, Mr. Brown became principal of E.E. Smith High School. It was during this pivotal

year that white students began attending the historically black high schools in Cumberland County. During this time, Mr. Brown emphasized to students and parents that their success in breaking down barriers would be remembered long after the racial backlash had subsided.

A career educator, Mr. Brown later became assistant superintendent and associate superintendent for Fayetteville City Schools. He retired in 1992 and served as special assistant to the chancellor at Fayetteville State University until 1995. He was then appointed to the University of North Carolina Board of Governors and served as trustee emeritus at Fayetteville State University.

In 1994, the Cumberland County Board of Education named William T. Brown Elementary in Spring Lake, North Carolina, the county's first year-round school, in his honor. In 2014, Fayetteville State University named a Distinguished Professorship in Economics in recognition of his many contributions.

The Fayetteville community and the State of North Carolina continue to benefit from William Brown's contributions to public education, desegregation, and expanded opportunity. He was a revered leader in the community, and his tireless efforts helped provide a better future for the people of Cumberland County, the Fourth District, and North Carolina.

HONORING SHAYA GUTLEIZER

HON. DANIEL M. DONOVAN, JR.

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. DONOVAN. Mr. Speaker, I rise today to honor Brooklyn resident Shaya Gutleizer's ceaseless devotion to his community.

Born and raised in Brooklyn, Shaya knew as a child that he wanted to be a first responder like his father when he grew up. In fact, he signed up to be an Emergency Medical Technician (EMT) when he turned 18 and received his certification shortly after. When he wasn't saving lives on the clock, Shaya was giving his time working with multiple volunteer ambulance services. As an EMT, Shaya was responsible for numerous pre-hospital saves, which involves reviving individuals who are clinically dead. Due to his heroism, Shaya has been honored at various second-chance brunches, events where the honoree is thanked by the person he resuscitated.

Moreover, Shaya Gutleizer has not been afraid to put his life on the line in service to others. On September 11, 2001, Shaya rushed to the World Trade Center and remained there for several days to assist with the rescue efforts. Soon after, he decided to serve his country further by enlisting in the Army. However, due to the conditions he encountered at Ground Zero, Shaya developed breathing difficulties and received a medical discharge. After finding out how many fellow 9/11 first responders were developing health issues, Shaya became a tireless advocate for the passage and permanent extension of Zadroga health benefits for the courageous heroes, such as himself who risked their lives on that fateful day to save others.

Mr. Speaker, Shaya Gutleizer's devotion to serving his fellow man and saving lives reflects the good in each of us. This country is great due to individuals like him, and I am proud to take this moment to honor him.

**RETIREMENT OF MARY ANNIE  
HARPER FROM THE U.S. HOUSE  
OF REPRESENTATIVES**

**HON. FRANK A. LoBIONDO**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. LoBIONDO. Mr. Speaker, it is with a heavy heart and tremendous gratitude that I express my deepest appreciation to my Chief of Staff, Mary Annie Harper, for her more than 29 years of incredibly loyal service at my side on behalf of South Jersey residents.

In May 1987, Mary Annie joined in helping me as my Chief of Staff as I started my freshman term as a member of the New Jersey General Assembly. For almost three decades I have relied daily on her invaluable insights and sound judgment. She has helped me remain focused and motivated, reminding me daily to stay grounded and always remember my South Jersey roots.

Her clear passion for public policy and politics is evident to anyone who has worked with her. Without any hesitation I can say that there will never be another Mary Annie Harper in my office or my life. Her heart and humor will be two of her many character qualities I will miss going forward.

On behalf of all of the residents of South Jersey, the staff and myself, I wish Mary Annie a very rewarding and well-deserved retirement and thank her both for her steadfast friendship and loyal service to South Jersey.

**PERSONAL EXPLANATION**

**HON. TERRI A. SEWELL**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. SEWELL of Alabama. Mr. Speaker, during the votes held on December 2nd, 2016, I was inescapably detained and away handling important matters related to my District and the State of Alabama. If I had been present, I would have voted YES on Agreeing to the Conference Report to Accompany S. 2943, and YES on Approving the Journal.

**HONORING MARTA I. BOOKBINDER**

**HON. JACKIE SPEIER**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. SPEIER. Mr. Speaker, I rise to honor Marta I. Bookbinder, an outstanding educator, communicator and counselor, who is retiring after 17 years as the Collaborative Projects Coordinator of the adult and youth programs at the Community Learning Center in South San Francisco.

Marta is the last original founding member of the Community Learning Center which opened doors to countless preschool to adult learners. CLC is a program of the South San Francisco Public Library in the heart of the historic downtown area, easily accessible to the great number of immigrants from around the world. The center is an irreplaceable gem of the community and a perfect reflection of the values Marta has embraced her entire life and career.

In close partnership with the school district, CLC offers English and computer classes and Spanish language literacy tutoring for adults and homework help classes for elementary school students from the surrounding schools. Adults learn to maneuver education, health, transportation, employment, financial and voting systems, giving them the tools to help themselves and to make progress.

Having completed her own education in the U.S. and Latin America, Marta was perfectly positioned to become a global educator. She holds an M.A. in Counseling Psychology, a B.A. in International Relations, an A.A. in English and Psychology and a teaching credential for English as a Second Language, Citizenship and Conversational Spanish. She is fluent in English and Spanish and competent in Italian.

Marta began her career as a program assistant at the job placement and career center at Skyline College in 1989. She moved on to the College of Notre Dame as a staff assistant in 1993 and to the Family Council of Half Moon Bay as the director of parent services in 1997. While she held that position, she also became an adult education instructor at the Cabrillo Unified School District. From there she moved on to the San Mateo Union High School District in 1998, and to the South San Francisco Unified School District in 1999, teaching adult education. She will continue her work as an instructor and CBET coordinator of adult education at the South San Francisco Unified School District.

Marta never ceases to develop innovative ideas to improve the lives of others, a fact noted in the community. She has received numerous awards including the Employee of the Year and the Mayors Diversity awards from the city of South San Francisco, the San Mateo County Governing Board Association KENT Award for innovation in educational programs, the Julie Billiart Alumna Award for outstanding community service from Notre Dame de Namur University, and the KQED & Kaiser Permanente Bay Area Local Hero Award.

In her well-deserved retirement, Marta is looking forward to spending more time with her husband of 45 years, David N. Bookbinder, and their two daughters, Tamara and Tatiana.

Mr. Speaker, I ask the members of the House of Representatives to join me in honoring a friend and colleague, Marta Bookbinder, for creating empowering programs at the Community Learning Center that have turned hundreds of lives around. She is a role model for teachers in South San Francisco and beyond.

**IN MEMORIAM: PATRICK J.  
MITCHELL**

**HON. KYRSTEN SINEMA**

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. SINEMA. Mr. Speaker, I rise today to honor the life and legacy of Patrick Mitchell.

Pat, a Yuma, Arizona native, dedicated his life to public service. He graduated from the University of Arizona and received a law degree from Arizona State University. He served the City of Phoenix as a member of the Public Employees Relations Board and was appointed special assistant attorney general for the State of Arizona, Department of Health.

Pat was a trusted advisor to many, working on presidential campaigns for Kansas Senator Gary Hart and Iowa Senator Paul Simon. He joined former Arizona Senator Dennis DeConcini's staff where he handled constituent and policy issues for 13 of Arizona's 15 counties. Pat also served as a political advisor to former Arizona Governor Janet Napolitano and Congressman Mo Udall and as chief of staff to New York Congresswoman Louise Slaughter.

I am thankful for Pat's dedication to service and appreciate his determination and willingness to make our state and country a better place for all Arizonans.

Please join me in honoring his memory.

**HONORING HELEN ANN HENKEL**

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to honor a symbol of volunteerism for all of Yorkers: Helen Ann Henkel. For over forty years, Helen Henkel has affected hundreds of thousands of lives in Yonkers and beyond; through her selfless commitment to improving her community. It is an honor to recognize her service at her retirement honoring.

Born and raised in Yonkers, Helen is the daughter of Ann and Otto Rogewitz, and the proud granddaughter of Ukrainian and Polish immigrants who came to this country at the turn of the century and settled in Yonkers and Hastings-on-Hudson, New York. After earning her diploma from Yonkers High School of Commerce, Helen earned a degree in Business Administration from Westchester Community College.

Helen has been a motivating force for a great many Yonkers institutions, including the Exchange Club of Yonkers, the Enrico Fermi Educational Fund, and the Yonkers Board of Ethics, all of which she served in a leadership capacity. She has also been intimately involved in other organizations in the neighborhood, including the Yonkers Historical Society, Untermyer Performing Arts Council, Westchester Pulaski Association, Friends of Phillips Manor Hall, Sherwood House, Yonkers YWCA, Yonkers Beautification Conservancy, and Piper Theater Productions, just to name a few.

For her selfless service, Helen has received multiple awards and recognitions, including the

2013 Yonkers Woman of Distinction Award, the 2013 Yonkers Police Commissioner's Award, the 2009 Woman of Excellence Award, the Yonkers Chamber of Commerce Women in Business—Above and Beyond Award, and has also been bestowed the Key to the City of Yonkers.

Helen has done so much good for Yonkers community, and indeed the world, that it is hard to fathom the true scope of her impact. I want to wish Helen congratulations on her well-earned honor and thank her for all she has done on behalf of the people of Yonkers.

#### RICHMOND, TX EARNS COMMUNITY OF THE YEAR TITLE

#### HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to congratulate the City of Richmond, TX, for receiving the Community of the Year award from the American Planning Association—Texas Chapter (Texas APA).

Richmond received this award due to its outstanding planning tools it adopted to prepare for the city's growth. Without submitting an application for the award this year, Richmond won anyway thanks to their impressive planning efforts that caught the attention of the Texas APA. Over the last year and a half, Richmond leaders have adopted three different planning tools without an existing internal Planning Department. The Texas APA's goal of rewarding cities with significantly notable contributions to planning projects, made Richmond a clear choice.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to the City of Richmond, TX for receiving the Community of the Year award from the Texas APA. We look forward to seeing your growth.

#### GREAT LAKES MARITIME HERITAGE ASSESSMENT ACT

#### HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. KAPTUR. Mr. Speaker, I rise today to introduce the Great Lakes Maritime Heritage Assessment Act, an important bill to promote and preserve the sunken treasures of the Great Lakes.

The Great Lakes have an amazing naval history which is unknown and unseen by too many Americans. Steamboats on the Great Lakes provided a route west for immigrants as they settled what was then called the Northwest Territory. As cities grew, Great Lakes ships and barges carried the timber, coal, and ore that fueled America's industrial might.

As commerce increased, so too did the number of ships which succumbed to the unpredictable and sometimes foreboding weather on the Lakes. Today, thousands of shipwrecks are scattered across the floor of the Great Lakes, including the remains of one of Amer-

ica's first great naval victories, the Battle of Lake Erie.

Despite this amazing heritage, only one marine sanctuary exists in the Great Lakes. The Thunder Bay Marine Sanctuary, located in Lake Huron off the coast of Alpena, Michigan, has been a major economic driver for the area, spurring tourism, research, and educational opportunities.

This bill builds on the success of Thunder Bay by setting the stage to establish additional sanctuaries across the Great Lakes. It directs the Administrator of NOAA to identify underwater areas throughout the Lakes that possess significant historical and archaeological resources and recommend whether they should be designated as National Marine Sanctuaries.

Preserving the cultural legacy of our region is an important component of caring for our Great Lakes. Marine sanctuaries will protect this history while providing the additional benefits of driving economic development and providing jobs to our region. I look forward to working with my colleagues to achieve these goals.

#### SUPPORT OF FEDERAL TRADE COMMISSION WE DON'T SERVE TEENS INITIATIVE

#### HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, I rise to address underage drinking, a public health and safety issue that is often lost in the pile of other stories in our 24-hour news cycle.

Back in 2005, the Federal Trade Commission initiated a consumer education program to reduce underage drinking called "We Don't Serve Teens." It is a valuable resource to raise awareness among parents, educators, and other adults that furnishing alcohol to minors is illegal and irresponsible. The program also encourages common-sense measures to further reduce illegal underage drinking and the dangers caused by teens who drink illegally and to the general public.

Over the last several years, I have checked with credible sources to see how we are doing as a nation on addressing underage drinking.

The Substance Abuse and Mental Health Services Administration (SAMHSA) indicates that progress has continued for more than a decade in reducing underage drinking, but it remains a serious public health problem for adolescents and young adults.

SAMHSA surveys find that significant numbers of younger persons between the ages of 12 and 14 drank alcohol in the month before they were surveyed, and that more than 90 percent obtain alcohol from their own home, the home of a friend, or an adult family member. Those findings clearly indicate the importance that family members can play in reducing young adolescents' access to alcohol and the associated risks of injury and the early onset of serious health problems.

Recent information on highway deaths from the National Highway Traffic Safety Adminis-

tration is very discouraging for adults and teens. Highway deaths increased in 2015 as did deaths from drunk driving. More than 10,000 Americans were killed in drunk-driving accidents, and younger drivers are a large portion of that terrible and preventable toll. Tens of thousands of people were also injured, including many young people who will be scarred or disabled for life.

Underage drinking is illegal and persons under the age of 21 are subject to arrest, fines, and license suspension for possession of alcohol beverages or driving after consumption of a single drink. This issue is often overlooked in stories about the criminal justice system. Thousands of young people get a criminal record and driver's license history that will prevent them from obtaining many jobs that involve driving or that require a clean record. In addition to the risk of injury and death, experimenting with alcohol can cause a young person permanent economic harm.

A substantial proportion of college students are under the age of 21. They face significantly higher risks than their non-college peers of injury or death from assault, car crashes, and other accidents after illegally consuming alcohol. This behavior must be challenged. Our best and brightest students, many of whom attend publicly supported schools and receive government grants and subsidies, have to do better.

For the last eleven years, members of the alcohol beverage industry have actively supported the We Don't Serve Teens initiative. Constellation Brands Beer Division and many retail stores in Chicago have made long-term commitments to underage drinking prevention in the district I represent and surrounding communities. Over the last couple of months, they sponsored electronic billboards, bus shelter signs, and media messages to promote the We Don't Serve Teens message. Other companies made similar efforts in their home cities. I commend those efforts. I also ask all adults and teens to work together to further reduce the tragic consequences of illegal underage drinking. All of these hazards are preventable.

As we approach the holiday season celebrations in our homes and elsewhere, I urge all adults to set an example of responsible behavior and compliance with laws designed to ensure the safety of our citizens. With a sincere commitment of parents, guardians, and concerned citizens to remain involved in the lives of our teens, we can all get home safely and to enjoy special holiday occasions together for years to come.

#### JANIECE LONGORIA NAMED 2017 MARITIME PERSON OF THE YEAR

#### HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to congratulate Janiece Longoria of Houston, TX, for being named the 2017 Maritime Person of the Year by the Greater Houston Port Bureau.

Janiece was recognized for her leadership and accomplishments in the Port of Houston.

In 2013, she was unanimously appointed as Chairman of the Port Commission by the City of Houston and Harris County. Since her tenure began, the Port of Houston Authority has reached a historic high of handling more than 2 million loaded container units, increased revenue, made infrastructure investments, and worked on projects to keep the Houston Ship Channel deep and wide. Her enthusiasm and dedication to the Port of Houston have made the port competitive internationally and a continued boost to the Houston economy. Janiece's stellar accomplishments also previously earned her the Distinguished Alumnus Award for the University of Texas, the 2008 Sandra Day O'Connor Award for Board Excellence, Female Executive of the Year Award from the Houston Hispanic Chamber of Commerce, recognized as a "Breakthrough Woman," and inducted into the Hall of Fame by the Greater Houston Women's Chamber of Commerce.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Janiece Longoria for being named the 2017 Maritime Person of the Year by the Greater Houston Port Bureau. She has done so much for the Port of Houston and the Houston area and makes us proud. We look forward to seeing her continued success.

IN MEMORIAM: PRIVATE FIRST CLASS DANIEL HUNT, FEBRUARY 10, 1933–SEPTEMBER 28, 1951

### HON. KYRSTEN SINEMA

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. SINEMA. Mr. Speaker, I rise today to honor the life and legacy of Private First Class (PFC) Daniel Hunt. PFC Daniel Hunt served our country as a member of A Company, 1st Battalion, 9th Infantry Regiment, 2nd Infantry Division with the United States Army.

Daniel was born February 10, 1933, to Ownie and Lillie (White) Hunt, the youngest of 17 children. Daniel and two of his brothers, John and Charles, served in the Korean War. Daniel never returned.

PFC Daniel Hunt was killed on September 28, 1951, while serving his country on Heartbreak Ridge in South Korea, where his remains were recovered earlier this year. Daniel was missing in action for over 65 years and is going home to Arizona to be buried with full military honors.

I am incredibly thankful for PFC Daniel Hunt and his family's sacrifice to our country.

Daniel is survived by his many nieces and nephews. Please join me in honoring his memory.

HONORING LAURA KORNFELD

### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. ENGEL. Mr. Speaker, I rise today to honor a constituent of mine and a pillar of the

community, Ms. Laura Kornfeld, who on October 11, 2016 is celebrating her amazing 90th birthday.

A first generation American, Ms. Kornfeld graduated from Tilden High School in Brooklyn and was the first person in her family to attend college. She received her Bachelor's degree from Hunter College and later served as an officer on the Alumni Board of Columbia University Teachers College, the same institution where she received a Master's Degree in Adult Education. Ms. Kornfeld founded Academic Advisory Service, a company that assisted women new to the job market. She served on the New York State Advisory for Women and the League of Women Voters, Professional Women's Caucus and the National Organization of Women.

In Rye, Ms. Kornfeld has been active in a wide array of organizations and a strong supporter of education and racial equality. She has been on the Board of Carver Center in Port Chester, supporting "grassroots organizers and advocates for the minority community in Port Chester". She served as President of the PTA for the City of Rye Schools, as well as on the board of Kids Space, a childcare and enrichment program for school children. She spearheaded Rye's campaign to pass the Equal Rights Amendment and attended the International Women's Year Conference in 1985 in Nairobi, Kenya.

Of course, Ms. Kornfeld's main love has always been family. Married to career Naval officer Leo Kornfeld since 1947, they have been residents of Rye, NY, since 1957. They have three grown children, Melanie, Hank and Nancy Danielle.

Ms. Kornfeld has led an amazingly full and active life. She has been a great member of the community, who has always given her time and effort to the issues that have made her neighborhood stronger. Congratulations to her on her 90th birthday.

MEMORIAL HERMANN SUGAR LAND HOSPITAL RECEIVES MALCOM BALDRIGE NATIONAL QUALITY AWARD

### HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to congratulate Memorial Hermann Sugar Land Hospital for receiving the Malcom Baldrige National Quality Award.

This prestigious award is given by the U.S. Department of Commerce through the National Institute of Standards and Technology (NIST). It is the nation's highest Presidential honor for sustainable excellence through visionary leadership, organizational alignment, systemic improvement and innovation. Memorial Hermann Sugar Land Hospital received this award thanks to ranking among the top 10 percent for its emergency center arrival-to-discharge time, compliance with regulations to reduce medication errors, bed turnaround times, radiology and laboratory result turnaround times, and the use of computerized physician order entry.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Memorial Hermann Sugar Land Hospital for receiving the Malcom Baldrige National Quality Award. We all benefit from their commitment to quality healthcare and we thank them for their hard work to keep Houstonians healthy.

WAYZATA BOYS' CROSS COUNTRY WIN IT ALL

### HON. ERIK PAULSEN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. PAULSEN. Mr. Speaker, I rise today to congratulate the Wayzata Boys Cross Country team for winning the Minnesota High School State Championship.

The Trojans capped off their championship season with a strong team finish. Wayzata, led by junior Khalid Hussein, had five runners placing among the top 22 finishers in the state championship race. The diligence of each individual runner as well as the dedication of their coach, Mark Popp, is responsible for this team-wide success.

Everyone knows that cross country requires countless hours of practice and preparation. It's a sport that requires both mental and physical endurance and these outstanding student-athletes should be commended for their excellence.

Balancing school and athletics is not an easy task. It takes focus. It takes dedication. And, it takes hard work both in and out of the classroom as they continually make strides to improve their craft. The families, teachers, friends, and the entire community are very proud of the Wayzata Boys' Cross Country team. Congratulations on being state champs.

PERSONAL EXPLANATION

### HON. CARLOS CURBELO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. CURBELO of Florida. Mr. Speaker, I unfortunately missed a vote during a vote series on 12/1/16. Had I been present, I would have voted yea on Roll Call No. 594.

HONORING WESTCHESTER HISPANIC LAW ENFORCEMENT ASSOCIATION 20TH ANNIVERSARY

### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. ENGEL. Mr. Speaker, the brave men and women who protect us every day as members of law enforcement are truly New York's Finest. For the last 20 years in Westchester County, The Westchester Hispanic Law Enforcement Association has dedicated itself to making a difference in the community, by paving the way for the future leaders in law

enforcement who will someday serve and protect their communities with great honor.

The Mission of the Westchester Hispanic Law Enforcement Association (WHLEA) has been to "build an organization that will withstand the test of time." The pledge of their founding members to make a difference has been lived up to for two decades by members who work tirelessly to improve conditions for those less fortunate. The Association prides itself on representing those who for too long have remained disenfranchised, and left to do for themselves. Their commitment to keeping vigil over those in our communities whose voices and concerns have all too often fallen upon deaf ears has left a lasting impact on the lives of countless people.

Above all though, the Association's mission is to pave the way for future generations, sons and daughters who someday may choose the Honorable profession of law enforcement as a way of serving their communities. By working to inspire, instruct and create the future leaders of law enforcement throughout Westchester County, the WHLEA has provided a great service to the community. Congratulations to their members on 20 years.

#### SAN JACINTO COLLEGE TOP CONTESTANT FOR COMMUNITY COLLEGE AWARD

#### HON. PETE OLSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to congratulate San Jacinto College of Houston, TX for being named a top-10 finalist for the 2017 Aspen Prize for Community College Excellence.

The Aspen Prize for Community College Excellence has nominated the top-notch community colleges in the country regarding student learning, certificate and degree completion, employment and earnings for graduates and accessibility and success of minority and lower income students. San Jacinto was recognized because of its extreme focus on supporting and working with students to ensure they are the most equipped to find a job and prepare for life after graduation. Between 2007 and 2015, the number of certificates and associate degrees San Jacinto College has awarded has increased by an impressive 140 percent. The winner of the \$1 million prize will be announced in March.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to San Jacinto College for being named a top-10 finalist for the Aspen Prize for Community College Excellence. We are very proud of their strong commitment to prepare students for life after graduation. Keep up the good work.

#### RECOGNIZING BRUCE MULHEARN

#### HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. LORETTA SANCHEZ of California. Mr. Speaker, I rise today to recognize Mr. Bruce

Mulhearn on his 50th Anniversary in the real estate industry and helping individuals, families, and businesses to achieve the American dream. Mr. Mulhearn immigrated to the United States via New Zealand in 1958. After working in leather tanneries and pipe manufacturing plants, he obtained his realty license and began work for the Apple Valley Land & Development Co., selling vacant home sites in the High Desert, California. Thereafter he served honorably in the United States Army for two years.

In 1967, Bruce and his wife Tomazina opened Bruce Mulhearn Inc., Realtors in a 600 square foot office and began their journey to build a company. The company grew to eight offices and several hundred agents, and by 1969, Mr. Mulhearn founded Castlehead Escrow Company as an insurance brokerage, a real estate school, new home development and a mortgage brokerage operation. Within twenty years the company was one of the leading firms in all of Southern California.

He went on to become a Senior lecturer for both the National Association of Realtors and the California Association of Realtors. Mr. Mulhearn was deeply involved in creating the Certified Residential Broker and Certified Residential Specialist designations for the industry. The company continued to grow and prosper adding various affiliates and branch offices.

In 2014, a merge resulted in the creation of Berkshire Hathaway HomeServices California Properties, with Bruce Mulhearn still the President and with his joint venture owners operating over twenty offices, doing business in five counties with thousands of transactions per year. After weathering five economic storms during that time frame, with interest rates soaring to as much as 24 percent including the Great Recession most recently, this is indeed a remarkable enterprise.

I applaud Mr. Bruce Mulhearn on his vision and on creating opportunities for many others within the real estate industry. I am delighted to join in celebration of this important 50th Anniversary milestone.

#### HONORING THE 80TH ANNIVERSARY OF CHI ST. JOSEPH HEALTH

#### HON. BILL FLORES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. FLORES. Mr. Speaker, I rise today to honor the 80th anniversary of the founding of CHI St. Joseph Health of Bryan, Texas, and the 100th anniversary of the Sisters of St. Francis of Sylvania, Ohio. CHI St. Joseph Health is a healthcare leader in the Brazos Valley, drawing upon the rich legacy of the Sisters of St. Francis.

In 1936, the Sisters purchased Bryan Hospital and immediately began investing in improvements, making CHI St. Joseph part of its growing nation-wide healthcare ministry. The Sisters grew the small Bryan hospital into a major regional health system with five hospitals, two long-term care facilities, more than 30 clinics, and an exceptional physician network that is 250 physicians strong. The Sis-

ters' investment has given CHI St. Joseph the privilege of caring for more patients, delivering more babies, and introducing more advancements in healthcare that any other provider in the region.

In 2014, through Supreme guidance and ministry, the Sisters pursued sponsorship with Catholic Health Initiatives, one of the largest healthcare systems in the nation. The Sisters believed this move would help CHI St. Joseph continue to thrive in a complex and ever-changing healthcare environment.

The 80th anniversary of CHI St. Joseph and the 100th anniversary of the Sisters of St. Francis are being celebrated by current and former CHI St. Joseph leaders, Sisters of St. Francis leadership, the Board of Directors, physicians, administration, team members with more than 25 years of tenure, the entire St. Joseph's team, and all of the Brazos Valley. Their hard work and dedication to improve their communities should be both appreciated and celebrated.

I, along with the residents of the 17th Congressional District, commend CHI St. Joseph's and the Sisters of Sylvania for their 80 years of unwavering commitment, dedication, and contributions to the Brazos Valley. All of us also wish them great success in the future.

As I close, I ask everyone to continue praying for our country, and for our military and first responders who selflessly serve and sacrifice to protect us. God bless important institutions like CHI St. Joseph's and God Bless America.

#### CONGRATS TO EDINA GIRLS' CROSS COUNTRY

#### HON. ERIK PAULSEN

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. PAULSEN. Mr. Speaker, I want to offer a big congratulations to the Edina Girls' Cross Country team for winning the Minnesota High School State Championship.

After winning it all last year, the Hornets were determined to defend their state title. In the final race, Edina put forward a great team effort with runners from all four grades placing for points, including three runners in the top 10 and five in the top 20. Led by senior captain Amanda Mosborg, the team was able to fend off its rivals and repeat as champs.

Cross country requires countless hours, and miles, of training and discipline. As the father of cross-country runners myself, I've seen firsthand the time and commitment it takes, from the challenging practices to the faraway travel to daylong meets, all while juggling academics and other obligations. These girls, along with Coach Matt Gabrielson, saw their dedication pay off with their victory.

Mr. Speaker, after winning the championship last year, the Edina Girls' Cross Country team didn't let up and came back to win it again. Congratulations to the runners, coaches, and parents on an excellent season. Our community is proud. Go Hornets.

**ROBERT ROBBINS NAMED HOUSTON'S INTERNATIONAL CITIZEN OF THE YEAR**

**HON. PETE OLSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to congratulate Robert C. Robbins, M.D. for being named Houston's 2016 International Citizen of the Year.

The World Affairs Council of Greater Houston awarded Robert the International Citizen of the Year award for his partnership with the Texas Medical Center (TMC) and his vision and energetic efforts to engage with biotech leaders, investors and other stakeholders from around the world. Robert is an internationally recognized cardiac surgeon and joined the TMC as president and CEO in 2012. His expertise is in the surgical treatment of congestive heart failure and cardiothoracic transplantation and his research expands from cardiac transplant allograft to bioengineering blood vessels and automated vascular anastomotic devices.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Robert C. Robbins, M.D. for being recognized as Houston's 2016 International Citizen of the Year. We benefit from his medical skills and commitment to quality care. We look forward to his future accomplishments.

**U.S. ECONOMY**

**HON. EDDIE BERNICE JOHNSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, this morning, the U.S. Department of Labor released its November jobs report detailing the state of the U.S. workforce and employment throughout our nation. According to the report, the unemployment rate declined to its lowest point since August 2007, falling from 4.9 percent to 4.6 percent unemployment last month. U.S. employers also added 178,000 jobs to the economy—pointing to strength and stability throughout the country.

Our growing economy and burgeoning workforce is a testament to President Obama's policies and efforts to put Americans back to work by reversing years of damage caused by President Bush and the regressive policies of the right. President Obama has helped to steer us to the lowest period of unemployment in nine years, despite having to face the most serious economic downturn since the Great Depression and the most divided Congress this nation has seen in recent years. Businesses have been able to add 15.6 million jobs since early 2010 and this growth can endure as long as we continue to enact policies and embrace a culture that favors everyday men and women, and not just a select few.

As we inch closer to President-elect Trump's administration and a Congress domi-

nated by Republicans in the House and Senate, I will continue to encourage the new Administration and my colleagues in Congress to stay on our current path of creating jobs and decreasing unemployment for all Americans. If we reverse course by handing out billions of dollars in tax breaks to only the largest corporations and the wealthiest Americans, gutting public programs and social safety nets, or slashing spending on research and development, then our economic growth will surely stall.

Mr. Speaker, our nation is at an important crossroad. The transition to this new administration and Republican-controlled Congress poses new opportunities and even greater challenges. Will we choose to continue on the path to prosperity? Or will President-elect Trump and the Republican majority work to reverse all of the progress that we have achieved for everyday Americans by instead favoring the super wealthy and the biggest corporations? Only time will tell, although it is imperative that we look to these gains throughout our economy over these eight years and work to continue that trend. Anything less would be an insult to the American people and a devastating step in the wrong direction after coming so far.

**HONORING ANN MURO**

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. ENGEL. Mr. Speaker, those special individuals who dedicate their lives to improving the community have the power to transform lives for the better. In Yonkers, no one has had a more transformative effect than my friend, Ann Muro, an amazing public servant who has dedicated her life to helping others. Ann grew up in the Colonial Heights section of Yonkers and attended Annunciation School and Maria Regina High School. She then went on to Mercy College, where she received her degree in Behavioral Psychology. Always wanting to help people, Ann became a Social Worker for the County of Westchester and served on the steering committee for the implementation of the Medicaid Program into Westchester County. She also served as a Community Affairs Specialist for the Westchester County Human Rights Commission and as an Employment Specialist for the Yonkers Employment Center. In addition to her professional work helping others, Ann has also been extremely active in the community during her personal time. She serves as President of the Exchange Club of Yonkers; Board Member of PAL; President of the Crestwood Tenants Association; former Board Member of the Yonkers Chamber of Commerce; former Board Member of the American Cancer Society, and this is just a small fraction of her involvement. A published writer, Ann is also in the process of writing two books and is also an accomplished poet.

This year, the Yonkers Exchange Club is honoring Ann for all of her incredible work and contributions in the community. I want to con-

gratulate her on this wonderful honor and thank her on behalf of the 16th Congressional District

**RECOGNIZING ROBERT D. ESCALANTE**

**HON. LORETTA SANCHEZ**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Ms. LORETTA SANCHEZ of California. Mr. Speaker, I rise today to pay tribute to successful business owner Robert D. Escalante. Mr. Escalante is the owner of Custom Auto Service in my district. For decades the Packard Motor Car marketed some of America's most prestigious cars. Custom Auto Service specializes in rebuilding and selling Packard Automobiles. This year, Custom Auto Service and the Packard Automobile are celebrating their Golden Anniversary in Santa Ana, California; 50 years of dedication to the "American Dream" car—the PACKARD. Custom Auto Service also recently entered into a public-private partnership with other businesses to help establish a four-block development zone nationally known as Fiesta Marketplace. Its purpose is to help nurture the surrounding community in Santa Ana.

We give thanks to businesses like Custom Auto Service for doing their part to lift up our district. This small business is a reflection of what's in the heart of America and I thank Mr. Robert Escalante for his tremendous dedication.

**PEARLAND 6U AMERICAN FORCE BASEBALL TEAM WINS WORLD TITLE**

**HON. PETE OLSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, December 2, 2016*

Mr. OLSON. Mr. Speaker, I rise today to recognize the 6U American Force baseball team from Pearland, TX for winning the United States Specialty Sports Association Baseball World Series title in Dallas.

After going 3-0 in the pool play, the team was a Number 2 seed going into the first round of the tournament. From there American Force went undefeated in the tournament earning the championship title. The American Force coaches are Ruben Ramirez, James Turrubiates, Tino Arredondo, Junior Vasques, Bryan White, and Cliff Santellana. Most Valuable Player (MVP) of the championship game was Alex Vasques and Offensive MVP was given to Thomas Turrubiates.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to the 6U American Force team for their accomplishments. We wish them success in future baseball seasons and look forward to rooting for them next year. Pearland, Texas is proud of them.

## SENATE—Monday, December 5, 2016

The Senate met at 3 p.m. and was called to order by the President pro tempore (Mr. HATCH).

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Heavenly Father, help us today to become people whose lives will be productive for Your glory. Forgive us when we come short of Your will for us and for our Nation.

Lord, show our lawmakers how to do things Your way, embracing Your precepts and walking in Your path. Remind them that the narrow and difficult road often leads to life and abundant joy. As You teach them to live abundantly, replace their anxiety with calm, their confusion with clarity, and their doubts with faith. May Your heavenly peace, which transcends human understanding, guard their hearts and minds today and always.

We pray in Your Holy Name. Amen.

### PLEDGE OF ALLEGIANCE

The President pro tempore led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### RECOGNITION OF THE MAJORITY LEADER

The PRESIDING OFFICER (Mr. LANKFORD). The majority leader is recognized.

### WORK BEFORE THE SENATE

Mr. McCONNELL. Mr. President, last week the House overwhelmingly passed the bipartisan 21st Century Cures Act, the medical innovation bill. Now it is the Senate's turn to move this bill forward and send it to the President's desk for signature.

This legislation has earned wide support from both sides of the aisle, and it is one of the most important bills that will pass this year. It is not hard to see why. It will encourage investment in biomedical research to help deliver treatment and cures to patients. It will cut through redtape and burdensome regulations while also protecting safety, and it will build upon progress to support regenerative medicine and other innovative therapies.

Cures also includes provisions to strengthen mental health programs and to provide much needed resources

to help combat the opioid epidemic. It is legislation that could have an impact on each of our States and on each of our constituents.

Later today, Senators will take the next step in advancing 21st Century Cures. With continued cooperation, we can pass this bipartisan bill very soon.

The Cures legislation is just one key area where the Senate has been working to complete its work before the holidays. Negotiations are ongoing on a continuing resolution, which we will consider this week.

This week we will also pass the Defense authorization conference report, and work continues to finalize other outstanding conference reports, including the Water Resources Development Act—the so-called WRDA bill—and the energy policy modernization bill.

As these efforts continue, I thank all of those who have been working around the clock to reach a conclusion on these important issues. We will have a busy week ahead. Let's keep working together to get it done.

### COMMENDING THE SENATOR FROM TENNESSEE

Mr. McCONNELL. Mr. President, I see the Senator from Tennessee on the floor. I particularly commend him for his outstanding work on the Cures bill. The Senator has had two major accomplishments this Congress—the rewrite of No Child Left Behind last year and now this medical innovation bill. I may have more to say about that later, but I commend the Senator from Tennessee for his outstanding work on this important bill.

### AUTHORIZING THE SECRETARY OF THE TREASURY TO INCLUDE ALL FUNDS WHEN ISSUING CERTAIN GEOGRAPHIC TARGETING ORDERS

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be discharged from further consideration of H.R. 5602 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title. The senior assistant legislative clerk read as follows:

A bill (H.R. 5602) to amend title 31, United States Code, to authorize the Secretary of the Treasury to include all funds when issuing certain geographic targeting orders, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Shelby-Brown substitute amendment be agreed to and the bill, as amended, be considered read a third time.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 5127) in the nature of a substitute was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

The bill (H.R. 5602), as amended, was passed.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

### THE CALENDAR

Mr. McCONNELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Nos. 675 through 683.

There being no objection, the Senate proceeded to consider the bills en bloc.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the bills be read a third time and passed and the motions to reconsider be considered made and laid upon the table, all en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

### SPECIAL WARFARE OPERATOR MASTER CHIEF PETTY OFFICER (SEAL) LOUIS "LOU" J. LANGLAIS POST OFFICE BUILDING

The bill (H.R. 3218) to designate the facility of the United States Postal Service located at 1221 State Street, Suite 12, Santa Barbara, California, as the "Special Warfare Operator Master Chief Petty Officer (SEAL) Louis 'Lou' J. Langlais Post Office Building," was ordered to a third reading, was read the third time, and passed.

### RICHARD ALLEN CABLE POST OFFICE

The bill (H.R. 4887) to designate the facility of the United States Postal Service located at 23323 Shelby Road in Shelby, Indiana, as the "Richard Allen Cable Post Office," was ordered to a

third reading, was read the third time, and passed.

#### LEONARD MONTALTO POST OFFICE BUILDING

The bill (H.R. 5150) to designate the facility of the United States Postal Service located at 3031 Veterans Road West in Staten Island, New York, as the "Leonard Montalto Post Office Building," was ordered to a third reading, was read the third time, and passed.

#### ARMY FIRST LIEUTENANT DON- ALD C. CARWILE POST OFFICE BUILDING

The bill (H.R. 5309) to designate the facility of the United States Postal Service located at 401 McElroy Drive in Oxford, Mississippi, as the "Army First Lieutenant Donald C. Carwile Post Office Building," was ordered to a third reading, was read the third time, and passed.

#### E. MARIE YOUNGBLOOD POST OFFICE

The bill (H.R. 5356) to designate the facility of the United States Postal Service located at 14231 TX-150 in Coldspring, Texas, as the "E. Marie Youngblood Post Office," was ordered to a third reading, was read the third time, and passed.

#### ZAPATA VETERANS POST OFFICE

The bill (H.R. 5591) to designate the facility of the United States Postal Service located at 810 N US Highway 83 in Zapata, Texas, as the "Zapata Veterans Post Office," was ordered to a third reading, was read the third time, and passed.

#### OFFICER JOSEPH P. CALI POST OFFICE BUILDING

The bill (H.R. 5676) to designate the facility of the United States Postal Service located at 6300 N. Northwest Highway in Chicago, Illinois, as the "Officer Joseph P. Cali Post Office Building," was ordered to a third reading, was read the third time, and passed.

#### ABNER J. MIKVA POST OFFICE BUILDING

The bill (H.R. 5798) to designate the facility of the United States Postal Service located at 1101 Davis Street in Evanston, Illinois, as the "Abner J. Mikva Post Office Building," was ordered to a third reading, was read the third time, and passed.

#### SEGUNDO T. SABLAN AND CNMI FALLEN MILITARY HEROES POST OFFICE BUILDING

The bill (H.R. 5889) to designate the facility of the United States Postal Service located at 1 Chalan Kanoa VLG in Saipan, Northern Mariana Islands, as the "Segundo T. Sablan and CNMI Fallen Military Heroes Post Office Building," was ordered to a third reading, was read the third time, and passed.

#### PROVIDING ARSENAL INSTALLA- TION REUTILIZATION AUTHOR- ITY

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the Committee on Armed Services be discharged from further consideration of S. 3336 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The senior assistant legislative clerk read as follows:

A bill (S. 3336) to provide arsenal installation reutilization authority.

There being no objection, the Senate proceeded to consider the bill.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the Ernst amendment be agreed to; that the bill, as amended, be considered read a third time and passed; that the title amendment be agreed to; and that the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 5128) was agreed to, as follows:

(Purpose: To improve the bill)

On page 1, strike lines 3 and 4 and insert the following:

#### SECTION 1. INSTALLATION REUTILIZATION AU- THORITY FOR ARSENALS, DEPOTS, AND PLANTS.

On page 1, line 6, strike "arsenal, the Secretary concerned" and insert "arsenal, depot, or plant, the Secretary of the Army".

On page 2, line 4, insert ", depot, or plant" after "arsenal".

On page 2, line 8, insert ", depot, or plant" after "arsenal".

On page 2, line 12, insert ", depot, or plant" after "arsenal".

On page 2, line 17, strike "Secretary concerned" and insert "Secretary of the Army".

On page 2, line 21, insert ", depot, or plant" after "arsenal".

On page 4, line 3, insert ", DEPOT, OR PLANT" after "ARSENAL".

On page 4, line 5, insert ", depot, or plant" after "arsenal".

On page 4, line 6, strike "Department of the Defense" and insert "Army".

The bill (S. 3336), as amended, was ordered to be engrossed for a third reading, was read the third time, and passed.

The amendment (No. 5129) was agreed to, as follows:

(Purpose: To amend the title)

Amend the title so as to read: "A bill to provide installation reutilization authority for arsenals, depots, and plants."

#### NATIONAL DEFENSE AUTHORIZA- TION ACT FOR FISCAL YEAR 2017—CONFERENCE REPORT

Mr. MCCONNELL. Mr. President, I ask that the Chair lay before the Senate the conference report accompanying S. 2943.

The PRESIDING OFFICER. The Chair lays before the Senate the conference report to accompany S. 2943, which will be stated by title.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2943), to authorize appropriations for fiscal year 2017 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, having met, have agreed that the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment and the House agree to the same. Signed by a majority of the conferees on the part of both Houses.

Thereupon, the Senate proceeded to consider the conference report.

The conference report is printed in the House proceedings of the RECORD of November 30, 2016.)

#### CLOTURE MOTION

Mr. MCCONNELL. Mr. President, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

#### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the conference report to accompany S. 2943, National Defense Authorization Act for Fiscal Year 2017.

Mitch McConnell, Deb Fischer, Thom Tillis, Daniel Coats, James M. Inhofe, John Hoeven, Cory Gardner, Orrin G. Hatch, Mark Kirk, Tom Cotton, John Cornyn, Lindsey Graham, Mike Rounds, Lisa Murkowski, Dan Sullivan, John McCain.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the mandatory quorum call be waived with respect to this cloture motion.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER. The Democratic leader is recognized.

#### COMMENDING THE SENIOR SENATOR FROM TENNESSEE

Mr. REID. Mr. President, before I give my remarks, as I planned, I wish to say a brief word about Senator ALEXANDER, the senior Senator from Tennessee.

During my time in Congress, he has always been one of the most pleasant people I have dealt with. He is always very thorough in whatever he wants to talk to you about, and I have found him to be a remarkably good Senator. He has a background that is stunningly important—a longtime Governor of the State of Tennessee and someone who has served in one of the Republican administrations as Secretary of Education.

This Cures bill is not everything I would wish it to be. I think it is too weak in some parts. I think we could have done better. But I have been around for a long time, and I understand what legislation is all about.

We have gotten money. We have been trying for a couple years to get money for opioids. There should be far more, and it should be given in a different way than we have it here, but it is money. We have people—as we are sitting here for a few minutes today—dying as a result of this scourge that is sweeping America. It is in Oklahoma, it is in Tennessee, and it is in places such as New Hampshire. It is all over. So that part of it is excellent.

As to the resources we give the National Institutes of Health, or NIH, there is not enough we can do. I would hope there would be much more. I am pleased to report that this is the beginning of the Moonshot that Senator BIDEN will lead in research to defeat cancer. It can be done. We have made tremendous progress, and we are making it on a monthly basis now.

There are a lot of good things in this legislation. One of the things that the senior Senator from Tennessee and I have spoken about is clinical trials. Sometimes you don't understand the importance of those until they could personally affect you.

With the injury that I suffered almost 2 years ago, I am hopeful that in my lifetime there will be something done to be able to take care of retinas that are damaged. We have a lot of those that are damaged—a lot of retinas that are damaged as a result of diabetes and other maladies—but not a lot has been done on injuries to retinas. But there is work being done on that now.

I had a very good meeting on Saturday with one of the foremost people in the world dealing with retinas, Dr. Bressler of Johns Hopkins, and they are doing some stuff. They are doing stem cell work. They are doing some transplants. They are doing some good things.

On a very personal basis, Senator ALEXANDER came and talked to me one evening. He asked if I had time. Of course, I always have time for any Senator who wants to see me.

He came with tears in his eyes to talk to me about some things he had learned about people who had damaged their eyes and how some work is being

done with these people who once could not see and, as in the Biblical passages, can now see.

It was a very wonderful meeting, and I had the opportunity to meet one individual he introduced me to—a man named Doug Oliver, who was basically blind. Because of work done with stem cells, he can now see. He is off disability, he can drive a car, and he can read. He could not do that before.

I appreciate it. It perhaps could have passed without him, but I doubt it, and I admire his legislative skills. I hope, with the new Congress coming, he will pull even those skills he doesn't have now out of his back pocket so perhaps we can do even more. There is going to be a lot more that needs to be done in the new Republican Congress.

So I express my public admiration to the senior Senator from Tennessee for the good work he has done for his State and for the country for many decades.

#### CELEBRATION AT STANDING ROCK

Mr. REID. Mr. President, in the bitter cold of a North Dakota December yesterday—and it can be cold up there—there was a celebration at Standing Rock. Why?

Along the banks of the Missouri River, in this heavy snow, there were hugs and tears of joy and drumming and dancing as the people of the Standing Rock Tribe and others heard the good news. The Army Corps of Engineers did not—did not—approve the easement for the Dakota Access oil pipeline. Instead, the Corps of Engineers determined that the pipeline must be rerouted. I am so glad. It is so important.

This is a victory for the Standing Rock Sioux. We know the long history Native Americans have in the State of the Presiding Officer. We know that around the country—I have 26 Indian entities in Nevada—they have been treated so poorly. Nevada is no different from any other State. They were pushed off of the lands they dwelt on before we showed up, we White folks here in America. They have been pushed around. So when the Standing Rock people heard the good news that the Corps of Engineers had finally given them at least some small victory, it was very exciting for them. It is a victory for them. They have been objecting to this construction for more than 2 years.

The tribe was concerned about a number of issues, not the least of which were their ancestral grounds, some of which land has their ancestors buried there. They were afraid of water contamination and other problems.

In a statement to the press, the chairman of the Standing Rock Sioux Tribe said:

We wholeheartedly support the decision of the administration and commend with the utmost gratitude the courage it took on the

part of President Obama, the Army Corps, the Department of Justice and the Department of Interior to take steps to correct the course of history and do the right thing.

The Standing Rock Sioux Tribe and all of Indian country will be forever grateful to the Obama administration for this historic decision.

Indians have taken one loss after another. Rare are there any victories for the Indians.

I agree with the chairman of the tribe. This is a historic decision, and it was a momentous step toward correcting the course of a disgraceful history.

As I said last week here on the floor, the treatment of the Standing Rock Sioux by our government has been shameful—not only recently but for more than a century. The Sioux were pushed to reservations first. I say “reservations”—plural. But even that land was taken—most of it—and then massive dams were built that put the tribe's best farmland underwater. The result of these actions was a crippling poverty that plagued the tribe for generations—even this generation.

This mistreatment was not unique, as I have indicated, to Standing Rock. Indeed, there are tribes all across the Nation with very similar histories. We have them in Nevada.

Yesterday's decision will not make up for the past, but the President's action was a huge step toward correcting a terrible wrong. Money, profits, and not human dignity, was the direction of the pipeline. The Obama administration changed that.

For far too long, the pleas for justice for Native Americans have gone unanswered. At least now, on this occasion, the Standing Rock Sioux and Native Americans throughout this country know that someone is listening and their concerns are being addressed by the U.S. Government.

I admire the support of those who locked arms with the Standing Rock Sioux. Appropriately enough, these people call themselves water protectors. Native Americans from all over America, politicians from all over America, entertainers from all over America, and other celebrities were some of the water protectors, and we must recognize the more than 2,000 veterans who traveled to Standing Rock from across America to protect the protestors from violence.

It is also important to note that speech after speech and demonstration after demonstration were peaceful. All the leaders of this demonstration said time after time after time that it would be peaceful, and it has been. The only aggression has not been from the Indians but from those people who are pushing the pipeline.

It is no surprise that many of these veterans are Native Americans because American Indians serve in our Nation's Armed Forces in greater numbers per capita than any other ethnic group.

Going back to World War II, of course, the great Ira Hayes, who was made famous by Johnny Cash—they have a long history of serving in all of our wars and stepping forward.

I am gratified at the strength of the Standing Rock Sioux. Their ancestral burial grounds will remain protected and their water clean.

I thank President Obama and his administration and the Army Corps of Engineers for their action. This victory was the culmination of months and months of analysis and deliberation. I appreciate the conclusion reached.

But everyone should know that this fight isn't over. We know from long experience that our decisionmakers keel over for fossil fuel interests. We must remain vigilant. My only hope is that the Trump administration will not undo the justice the Native Americans have finally received. All of us must support the Standing Rock Sioux and help them protect their history and their land and their water.

As one aside, many decades ago I was the Lieutenant Governor of the State of Nevada, and we had our Lieutenant Governors' conference in Oklahoma. It was a wonderful week that we spent in Oklahoma. One of the highlights of that trip was an education that I received one night of a—I assume it is still going on; I don't know—a wonderful pageant that took place in a place that I believe is called Tahlequah—I believe that was the name of the place—where in such detail and in such magnificence was described how Oklahoma has so many Native Americans who came from Florida. It was a wonderful story. I was very impressed with the Native Americans whom I met and have met since that time in Oklahoma. And a memento I was given there in Oklahoma—frankly, someone stole it from me, but each one of us, each Lieutenant Governor, was given a little painting by a famous Oklahoman—at the time, at least—whose time was Tiger. I don't know what his real name was, but he was a famous artist. It was a beautiful Indian scene he had painted. We all got one. It was an original. I am sorry someone took it out of my office. But I have fond memories of that convention in Oklahoma where I learned so much about the people of Oklahoma.

Some of us in the West have had over the years kind of a negative impression of Oklahoma—the Okies coming into California, all of these uneducated people causing trouble—but that was a wonderful trip to Oklahoma. I was terribly impressed at the time and have always been impressed with the people of Oklahoma.

Just a little aside here: I have had some good fortune at being able to legislate things here in Washington. One of the things that can be looked at as good or bad—and maybe I won't get a lot of pats on the back for this with the

new administration—but a Senator from Oklahoma and I did some very good work. The Congressional Review Act was Reid-Nichols legislation. That was hard to do, but what it basically said is if there is a regulation promulgated by an administration, we as a Congress have an opportunity to look it over again to determine if, in fact, we have the ability, with enough folks, to overturn that regulation.

So, again, as the Presiding Officer is from Oklahoma, I want him to understand my affection for the State of Oklahoma and the people of Oklahoma. I have had some difficult tussles with people from Oklahoma over the years. There is no better example of that than Dr. Coburn. But having said that, I have never found more of a gentleman than Dr. Coburn. Even though we disagreed on some policy issues, he was always a gentleman and I have appreciated the things I learned from him.

I yield the floor.

#### RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

#### TSUNAMI WARNING, EDUCATION, AND RESEARCH ACT OF 2015

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the House message to accompany H.R. 34, which the clerk will report.

The legislative clerk read as follows:

House message to accompany H.R. 34, an act to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes.

Pending:

McConnell motion to concur in the amendment of the House to the amendment of the Senate to the bill.

McConnell motion to concur in the amendment of the House to the amendment of the Senate to the bill, with McConnell amendment No. 5117, to change the enactment date.

McConnell amendment No. 5118 (to amend No. 5117), of a perfecting nature.

McConnell motion to refer the message of the House on the bill to the Committee on Health, Education, Labor, and Pensions, with instructions, McConnell amendment No. 5119, to change the enactment date.

McConnell amendment No. 5120 (to the instructions (amendment No. 5119) of the motion to refer), of a perfecting nature.

McConnell amendment No. 5121 (to amendment No. 5120), of a perfecting nature.

The PRESIDING OFFICER. The Senator from Utah.

#### REMEMBERING JAMES TANCILL LYONS

Mr. HATCH. Mr. President, I rise today to pay tribute to Jim Lyons, a longtime staffer on Capitol Hill—my staffer—and a fixture in tax policy here in DC, who passed away on September 29 of this year.

James Tancill Lyons was born on March 7, 1973, to Stephen and Ann Lyons, both natives of the DC-Virginia area with longstanding ties to the local community. Growing up in Springfield, VA, Jim was an accomplished athlete, excelling in both baseball and basketball. Oddly, for a sports fan in the DC area, his favorite football team was the Dallas Cowboys—a decision he made consciously because his older brother, Stephen, was a big Redskins fan.

Jim was also a great student, eventually graduating summa cum laude from James Madison University. He went to law school at the University of Texas, where he made the Editing Committee of the Texas Journal of Business Law and won a scholarship for being the best tax law student in his class after pulling the top grade in his business associations, income tax, international tax, corporate tax, and estate and gift tax classes.

After law school, he earned a clerkship at the Fifth Circuit Court of Appeals and then got a job working for Cleary Gottlieb, one of the finest law firms in the country. Of course, you would never guess any of this if you knew Jim. While he was always an incredibly valuable and often brilliant attorney and congressional staffer, he talked about his college and law school days as though he spent most of his time having fun and just barely skating by. That, of course, was vintage Jim Lyons—incredibly outgoing but unbelievably humble.

Jim could have a long conversation with anyone about pretty much anything, but he was never one to spend all that much time touting his own accomplishments. Make no mistake, Jim Lyons was very accomplished. After his time at the law firm in New York, Jim made his way to the House Ways and Means Committee, and, following a brief subsequent and successful stint at the Department of Justice, he was hired by Chairman CHUCK GRASSLEY to serve as tax counsel on the Senate Finance Committee.

In his 8 years on the Finance Committee, he made a mark on every major tax bill, not to mention a number of debt and budget deals that went through the Senate, including many tax-extenders bills, some of which he seemed to be able to cobble together singlehandedly.

Jim was smart as a whip. He was a tremendously valuable congressional staffer because he had both a remarkable understanding of tax policy and an uncanny ability to see all the traps and pitfalls that stood ahead for any particular proposal or piece of legislation. He had an encyclopedic knowledge of the technical aspects of the Tax Code, as well as a clear understanding of the real-world implications, immediately seeing where a particular tax policy or bill would fit in the larger policy and, when necessary, the political landscape. Jim was one of those people who

could go into the weeds to discuss, debate, and negotiate tax policy literally with anyone on the planet but also break that same policy down to its essential elements and explain it to lesser mortals, including, I have to say, more than a few of us U.S. Senators.

Of course, like all of us, Jim had his own ideological views and opinions, and he made no secret about the way he saw the world and his beliefs about the best path forward for our country. When necessary, he was a fierce advocate for his own views, but more importantly, for someone in his position, he was able, when necessary, to dispassionately apply his accrued knowledge and expertise to any tax proposal, whether it came from a conservative or liberal or a Republican or Democrat, and then break it down to its essence and give a clear and concise assessment of the policy and its chances for being enacted.

All of this made him an essential and indispensable part of our efforts on the Senate Finance Committee for close to a decade. As I think all of my colleagues will attest, staffers with that kind of knowledge and ability to evaluate policy and lay out its chances for success really can be hard to come by.

However, in the weeks since Jim's passing, it hasn't been his accomplishments or his knowledge of the Tax Code that people have most remembered; instead, most of the focus has been on his friendly demeanor, his mischievous sense of humor, and most of all, his kind heart.

Dozens of Jimmy's friends and colleagues visited Jim and his family in the hospital during his final days, and during the October recess, hundreds attended a memorial service held here in the Capitol. Each one of these people had at least one personal story to share about Jim. Sure, some of the stories did touch on his successes as a staffer and his professional disposition, but far more often the stories were about Jim's kindness, even to strangers, or his ability to make people feel at ease—and sometimes laugh uncontrollably—even in tense situations.

Jim was always quick to offer assistance and comfort to those in need and to provide a much needed laugh when things got really tough. He is one of very few people I have come across on Capitol Hill—and keep in mind I have been here a while—who will be remembered more or less equally for the bills he successfully drafted and negotiated and for the way he cracked everyone up at the negotiating table.

I think my favorite story I have heard about Jim came from his mother Ann. In 2003, Jim was living in New York City when much of that part of the country suffered a massive blackout. It is difficult to be in a place like New York without power, and Jim noticed many people on his way home who were stranded and in need of as-

sistance. Rather than look down at the ground and head quickly for home, as many would probably want to do in that situation, Jim offered help to a dozen or so people, bringing them all home to his apartment, giving them both food and a comfortable space to ride out the power outage. Most of these people were strangers. Yet Jim, ever the kind soul, offered his time and his home to help them through a difficult evening.

Mr. President, I ask unanimous consent that a copy of pages 14 and 15 from the August 2003 edition of *Cleargolaw News*, a newsletter for the law firm where Jim worked at that time, be printed in the RECORD following my remarks.

The article tells the story of Jim's efforts during the power blackout.

These are the types of stories that have constantly been shared since Jim's passing, and I know these memories and stories from people who knew and worked with Jim have been helpful to his family during this difficult time.

When I hear these accounts of people's interactions with Jim, I am reminded of a popular hymn in my church, which reads:

Each life that touches ours for good  
Reflects thine own great mercy, Lord;  
Thou sendest blessings from above  
Thru words and deeds of those who love.  
What greater gift dost thou bestow,  
What greater goodness can we know  
Than Christ-like friends, whose gentle ways  
Strengthen our faith, enrich our days.  
When such a friend from us departs,  
We hold forever in our hearts  
A sweet and hallowed memory,  
Bringing us nearer, Lord, to thee.

Jim Lyons led a life which touched many others for the better. His positive influence has been felt by countless people, pretty much anyone who had the opportunity to interact with him. I personally already miss Jim's stalwart presence on the Finance Committee. I miss his wise and plain-spoken advice and unequalled knowledge of tax policy. More than that, I miss the kind and humorous manner that endeared Jim to so many of us working in and around the Senate.

There is a simple quote—an anonymous proverb of sorts—that has often been attributed to Dr. Seuss, though its origin is ultimately in dispute: "Don't cry because it's over, smile because it happened."

Over the past couple of months, I think that has been the prevailing sentiment among those of us who were lucky enough to know Jim Lyons. While tears have been shed and great sadness has been felt, the remembrances we have had of Jim's life and our interactions with him have given all of us reason to smile and even laugh.

I want to once again express my condolences to Jim's family, his parents Stephen and Ann, his brother Steve, his two nephews, Tyler and Blake, and

of course his beloved dog Buddy. Recently, I have had the opportunity to spend time with and get to know Jim's wonderful family. They are truly extraordinary people, and my prayers continue to go out to them. I know I am not alone in that regard. I care for them. Everybody who knew Jim and has now known them cares for them. Our sympathy and our heartfelt thanks go out to them for allowing their son to become the great person he became, and, of course, allowing him to come and work with us on Capitol Hill.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THANK YOU FOR TAKING CARE OF US

(By Alice Steinert)

Here is a wonderfully refreshing story about a truly good, kind person.

The day of the blackout was scary for some, devastating for others, and just plain inconvenient for many. There are those of us who still have thighs and calves that ache from all those flights of stairs! Many people could not get home that night for a number of reasons—1) after walking down that many flights of stairs, some people were a bit lame and therefore could not walk the distance to their homes, or their homes were too far to walk to; 2) there were few, if any, buses, taxi cabs, cars, trains, ferries, no subways, and no hotel vacancies; 3) etc., etc., etc.

But, for those of us fortunate enough to know Jim Lyons, CGSH Associate extraordinaire, we certainly know the meaning of the true human spirit.

Jim invited many people to his home that day when we had to evacuate OLP. He provided an immediate "base" for people to relax, calm down, regroup, make contact with family/friends, eat, drink, whatever they needed. But, for nine of us (Ron Becton, Robert Franklin, Monica Gagnon, Glenville Hunter, Amy Menendez, Alice Steinert, Jason Steinert, Naj-Lah Toussaint and Carol Whatley), he provided much, much more. He provided a safe haven for the night.

At about 7:45 P.M. Jim walked from his home to OLP to see if there was anyone else in need of assistance. Well, he found nine of us who were seriously thinking about bunking down for the night in front of the lobby doors. Without hesitation Jim invited all of us to his home (he had never even met some of us before). Not only did he provide us with a roof over our heads, he also offered food and beverage, the use of his cell phone, pillows and blankets, and even gave up his bed to two of us ladies. Not only that, he bought toothbrushes for us; What ensued was a night we will all remember—good people, stimulating conversation, a lot of fun, and a great deal of bonding and comradery.

While we will individually, and as a group, thank Jim, I think everyone in the firm should recognize what an exceptional person Jim is. If there were more "Jim's" in the world, what a different place it would be. God Bless You Jim.

REMEMBERING KING BHUMIBOL ADULYADEJ OF THAILAND

Mr. HATCH. Mr. President, I rise today, December 5, 2016, in commemoration of the 89th birthday of the late King Bhumibol Adulyadej of Thailand and in recognition of the National Day of Thailand. In remembrance of the extraordinary life, steady leadership, and

remarkable 70-year reign of the beloved King Bhumibol, I have introduced S. Con. Res. 57, along with Representative MATT SALMON in the House. This resolution honors the late King's lasting legacy, extends our collective condolences to the royal family and the people of Thailand, and celebrates the alliance and friendship between our two nations. I would like to thank the co-sponsors of this resolution, Senators WHITEHOUSE, ROBERTS, MARKEY, FLAKE, COTTON, and GARDNER. Additionally, I express my appreciation to Chairman BOB CORKER for his assistance in receiving timely consideration of this bipartisan effort in the Senate Foreign Relations Committee.

His Majesty, King Bhumibol Adulyadej, enjoyed a special relationship with the United States, having been born in Cambridge, MA, in 1927, while his father was completing his medical studies at Harvard University. He was always a trusted friend of the United States in advancing a strong and enduring alliance and partnership between our two countries.

At the time of his death on October 13, 2016, King Bhumibol Adulyadej was the longest serving head of state in the world and the longest serving in the history of Thailand. He dedicated his life to the well-being of the Thai people and the sustainable development of his country. His Majesty was an anchor of peace and stability for Thailand and for the region, earning him the deep reverence of the Thai people and the respect of leaders around the world.

I hope my colleagues will join me tomorrow in passing S. Con. Res. 57 as a gesture of respect and appreciation for the life of this great leader and as a symbol of our continued commitment to and friendship with Thailand. Additionally, I am sure my colleagues in the Senate will join me in offering our warmest congratulations and best wishes to the new King of Thailand, His Majesty King Maha Vajiralongkorn.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HATCH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

PASSAGE VITIATED—H.R. 5602, S. 3336, AND CALENDAR NOS. 675 THROUGH 683

Mr. HATCH. Mr. President, I ask unanimous consent to vitiate passage of H.R. 5602, S. 3336, and Calendar Nos. 675 through 683.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. HATCH. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. VITTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FAREWELL TO THE SENATE

Mr. VITTER. Mr. President, I rise today to speak on the Senate floor for the last time. I am not generally big on nostalgic reminiscences, but I would like to briefly reflect on what is clearly the greatest honor of my professional life—my 12 years in the U.S. Senate and 5½ years in the U.S. House of Representatives and the enormous honor of serving the people of Louisiana to whom I will always be so deeply indebted.

In some ways it seems like just yesterday that I was on the floor of the U.S. House being sworn in, surrounded by our very young children, except for Jack, who wasn't born yet. I said then: "I am honored, humbled, awestruck to stand before you today." I stated my simple goal: to become at ease and comfortable as I learn the ways of Congress, as I hopefully become an effective representative and respected colleague and friend, but never to become so at ease and comfortable that I lose these feelings of honor, of humility, of awe, and, believe me, I haven't.

My very first year in the Senate was a very memorable one. That year Louisiana was struck by Hurricanes Rita and Katrina. After the initial shock of those cataclysmic events, I realized that for quite some time, my priorities as Louisiana Senator would be dominated by the desperate need to rebuild our State, including dramatically improving our hurricane and flood protection and restoring our coastline.

Katrina's devastation was hard to imagine, destroying much of Southeast Louisiana and Coastal Mississippi. Less than 1 month later, Hurricane Rita slammed into Southwest Louisiana as another one of the most intense hurricanes in history. I immediately went to work with Senator Landrieu and the rest of our Louisiana delegation as well as my good friends THAD COCHRAN, Trent Lott, and others to secure the necessary disaster recovery assistance and also to make reforms to the Army Corps of Engineers to better protect our families and communities from future natural disasters.

Louisiana has continued to face and survive other major disasters, including Hurricane Gustav in August and September 2008, Hurricane Ike in September of that same year, Hurricane Isaac in 2012, the Red River flooding in Northern and Central Louisiana, and the 1,000-year-flood event in greater Baton Rouge and Acadiana this past August.

As if all of that weren't enough, in April of 2010, the Deepwater Horizon oil rig exploded off the coast of Louisiana,

killing 11 men and devastating our coastline. The disaster, followed by the horribly misguided offshore drilling moratorium President Obama put in place, caused economic and environmental chaos in Louisiana.

Once again, I immediately went to work with so many others to increase and improve safety measures and reopen the Gulf of Mexico to energy exploration and put people back to work. We introduced legislation to dedicate a majority of the BP penalties toward restoring coastal ecosystems and economies damaged by the spill. It was an uphill battle to ensure Louisiana was fairly compensated, but we did, and we achieved substantial wins, including passage of that critical RESTORE Act that I described.

During the recovery fight following each of these disasters, I found that the most effective leadership involved communicating clearly and employing solutions based on Louisiana common sense, and what always inspired me and kept me going was the unbelievable resilience, faith, and determination of my fellow Louisianans. Their strength and optimism have been oh so powerful reminders of how blessed I have been to serve them.

On a host of other important issues, I always sought to further two sets of political values, really modeled after my two favorite Presidents, Ronald Reagan and Teddy Roosevelt. I always strove to further the central American tradition of limited government and individual freedom, and I was never afraid to shake things up, to demand needed reforms to ensure that leaders in Washington served the American people and not the other way around.

I have had the honor of protecting Louisiana's traditions and proud heritage while here in the Senate. Louisianans love the outdoors and want strong environmental conservation and sportsmen's policies to maintain that culture, and that certainly includes securing the rights afforded to each American by the Second Amendment, which I have fought to do.

Louisianans respect the sanctity of life, which has been one of my top priorities while serving in Congress. I have introduced many bills that end taxpayer funding of abortion and abortion mills and have proudly stood in the defense of life.

When it comes to our Nation's immigration policies, I have been an advocate for targeted reforms that fix the immigration crisis, starting with border security and enforcing the immigration laws already on the books. I fought President Obama's unconstitutional attempts to implement Executive amnesty, which only encourages more immigrants to come here illegally and insults the millions of fine immigrants who do follow U.S. law.

I was also the first to introduce legislation in 2007 to end dangerous sanctuary city policies and have continued

to do so each Congress since. I have also been critical of too big to fail in the banking sector and have found banking reform to be an area in which Republicans can absolutely find common ground with Democrats. That is where I found success in passing into law specific measures that restrict too-big-to-fail and tax-funded bailouts. Also during my time in Congress, I have introduced several important government reform bills so we can get back to the best traditions of our democracy, which includes electing citizen legislators, making sure they don't make themselves into a separate ruling class, and advocating for term limits so individuals don't remain in office for an eternity.

Americans of all backgrounds think Washington is on a different planet and Members of Congress just don't get it. That is why I fought to end Congress's automatic pay raises each year. I first introduced that language in 2009, and the raises have been successfully blocked each year since. Congress can be an effective representative body only when it lives under the same laws it imposes on the rest of the country, and one major way to support that is through term limits. When I was a member of the Louisiana State legislature, I was successful in establishing legislative term limits there, and I have offered the leading term limits measure for Congress here, as well as imposing it on myself.

I fought for commonsense legislation that helps all Americans have access to high-quality and affordable health care. That includes the work to dismantle ObamaCare and replace it with patient-centered health care reform, which I am very hopeful the incoming Trump administration will achieve. In the meantime, I have been fighting to end Washington's exemption from ObamaCare, an illegal Obama administration Executive order that allows Washington elites to avoid the most inconvenient, expensive aspects of the Affordable Care Act by giving themselves taxpayer subsidized health care through an exchange meant solely for small businesses. Also in the health care arena, I was able to pass into law the bipartisan Steve Gleason Act of 2015. It provided immediate relief for patients who have been denied access to lifesaving and life-altering medical equipment. It was about a 2014 Medicare policy change that we had to reverse. Our bill allowed these patients to have access to medical equipment that truly empowers them, that is a true lifeline, and it changes their lives absolutely for the better.

I have also fought against large drug manufacturing lobbies to allow for reimportation of safe and approved prescription medicine from other countries, which gives patients, especially our seniors, relief from rising health care costs.

I have been honored to serve in the Senate in additional ways as well, including as a top Republican on the Environment and Public Works Committee and most recently as chair of the Senate Committee on Small Business and Entrepreneurship. I am very proud to say that we have accomplished so many of our goals in those two roles.

We worked in a bipartisan fashion on EPW to pass several major pieces of legislation, including the Water Resources and Development Act of 2007 and the even more significant WRDA of 2014, several reauthorizations of the highway bill, the bipartisan and historic rewrite of the 40-year-old Toxic Substances Control Act, which began as conversations between Senator Frank Lautenberg and myself, a partnership which Senator TOM UDALL continued after Frank's unfortunate passing.

We were also able to hold the administration accountable by conducting investigations into some outright corruption within the Obama EPA, and we advanced key transparency initiatives that shed light on government's attempts to implement policies that were not based on sound science or strategic needs.

As chair of the Small Business Committee, I have been advocating to make sure the voices and concerns of small business owners across the country are heard in Washington. We have held 23 hearings here, 18 field hearings, numerous roundtable discussions. We have heard testimony from over 175 witnesses, usually about the disastrous negative effects of Obama policies like the new waters of the United States rule, key and disastrous effects on small businesses and job creators and their employees.

At the very same time, we found common ground with Ranking Member SHAHEEN and other Democrats on the committee. During my tenure as chair, we passed 32 bipartisan bills out of the committee, which is 22 more than my predecessors did over a much longer period, and 8 of our bills have passed through the entire legislative process and have been signed into law.

These accomplishments are but a fraction of the years of hard work my staff and I have dedicated to the people of Louisiana and, indeed, the American people. I have worked hard to be a champion for them because the government should serve the taxpayer and not the other way around, and that includes by working hard to stay in touch through 398 townhall meetings, at least 5 in each parish of Louisiana, through 231 telephone townhalls, and through active, energetic casework and constituent service.

Clearly what I will treasure most about my service here is the people with whom I have been honored to serve; my colleagues, including my fel-

low Louisianian Senator BILL CASSIDY, mentors like former Senator Rick Santorum and Senator JEFF SESSIONS, and most especially each of the dedicated people who have been part of Team Vitter. I have come to the Senate floor several times this year to thank key departing staff members.

That is for a very simple reason. My staff has been the key ingredient—the key—to every success we have enjoyed together in public service. Wendy and I consider them a part of the family. I truly thank my staff again for their tireless, dedicated service to Louisiana. I am so very grateful. Wendy joins me in that.

I want to specifically recognize some of our leaders: my chief of staff, Luke Bolar; my legislative director, Chris Stanley; my wonderful finance director, Courtney Guastela; our state director, Chip Layton; and committee staff director, Meredith West; our grants coordinator, Brenda Moore; my media head, John Brabender; and senior infrastructure policy advisor, Charles Brittingham; my senior economic adviser, David Stokes; campaign treasurer Bill Vanderbrook; and communications director, Cheyenne Klotz.

I know a few of our other former senior staff members are here or are watching, like Mac Abrams, Joel DiGrado, Bryan Zumwalt, Travis Johnson, and Michael Long. Last, and obviously not least, is my beloved family. My five wonderful brothers and sisters, our children, their children, the extended family, led by the ultimate leader of Team Vitter, my wife Wendy.

I can never thank them enough, and certainly I can never ever thank Wendy enough. Through it all, Wendy has been so enormously patient and supportive and understanding, not to mention being the life of every Team Vitter party, leading the rounds—rounds plural—of Fireball shots. She and our daughter Lise are in the Gallery today. I thank them and Sophie, Airey, and Jack for decades of love and support. Lise, up there, was in my arms as a 2-year-old when I was first sworn into the House of Representatives and made those previously quoted remarks: "I am honored, humbled, awestruck to stand before you." She has changed some, but as I said at the beginning of my reflections, those feelings certainly have not.

I would like to close as I did that day in the House over 17 years ago; that is, simply by recognizing the wonderful, loving forces that have brought me here today: God, family, led by my parents up above, and my wife Wendy, staff and friends, and of course the wonderful, wonderful people of Louisiana. They are here with me today. They are here with me always. I thank them from the depths of my heart.

For the last time, I yield the floor.

The PRESIDING OFFICER. The Senator from Louisiana.

TRIBUTE TO DAVID VITTER

Mr. CASSIDY. Mr. President, I have the honor to recognize and thank my colleague and friend, the Honorable Senator DAVID VITTER, for his 25 years of service to Louisiana. Our State has been fortunate to have him as its voice and advocate in this Chamber for the past 12 years.

On a personal note, when I arrived at the Senate, DAVID worked with me, sharing with me some of the privileges that normally he, as a senior Senator, could have kept all to himself. With great graciousness, he worked with me and said: Listen, this is how I think the process should be set up. I would like you to have some of this privilege as well. I will do the same with whoever replaces DAVID. He has set a pattern that, again, by his graciousness and magnanimity, deserves repetition.

As a new Senator, I was fortunate to have him as a resource for advice and knowledge that comes from time and experience in this body. There are some things that happen here that you have to kind of have experience to follow. DAVID had both the experience, the sharpness, and the insight to recognize.

I again look forward to sharing what he has taught me with whoever takes his place. I will note, as DAVID did, he helped lead our State through some of our worst times. From Hurricane Katrina in 2005 to the great flood of 2016, all of the way in between, DAVID has worked hard to make sure Louisiana and the people of Louisiana have what they need to recover.

The hallmark of Senator VITTER's tenure is that he has always cared deeply about our State, constantly looking for what he could do that would benefit our State, not just in the short term but doing that which is consistent with his principles to help Louisiana and the United States thrive in the long term.

He has been on the side of that family whose father goes for 2 weeks, works on an oil rig in the middle of the Gulf of Mexico, working hard so his family has a better future. DAVID has been on the side of that mom juggling two jobs to earn enough to make sure her children's needs are met.

A recent example—again for the short-term and long-term perspective DAVID handled so well—he stayed persistent for years working across the aisle, first with Senator Frank Lautenberg, then Senator UDALL, to pass the much needed reform of the Toxic Substances Control Act, the first reform of its kind in 40 years.

This reform protects both the workers—those people on that rig, perhaps, at least the people who would be processing the products of that rig—but also gives the manufacturers of Louisiana and across the country the certainty they need to expand their businesses and create more jobs.

On a lighter note, DAVID is a great Saints fan. We in Louisiana kind of

liked the fact that when the slogan “Who Dat” came up spontaneously, and people started to put it on their shirts and the NFL was going to go court to stop this from happening, DAVID wrote a letter to Roger Goddell. The letter started off by saying: “Who Dat.” So speaking truth to power on behalf of the “Who Dat Nation” is one credit of his.

Similarly, DAVID was tweeting before our President-elect made it perhaps as high profile. I remember during the 2013 Super Bowl in New Orleans—and again the context of this is, the Saints had just been punished—of course Saints fans think unfairly—by Roger Goddell. So during the 2013 Super Bowl in New Orleans, when the power went out, DAVID's tweet, without missing a beat said: “Like most Saints fans, I am immediately assuming Roger Goddell is the chief suspect for the power outage.” The quick-witted quip cut to the emotion of the “Who Dat Nation.”

As the 114th Congress comes to a close, the Senate will be losing an important Member. DAVID brings a sound, strategic mind to this Chamber that will be missed. I wish him, Wendy, their children, Lise, Sophie, Airey, and Jack, the best of luck in their journey forward. On behalf of all Louisiana, I say thank you.

I yield the floor.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. VITTER. Mr. President, I thank the Senator from Louisiana for his very kind remarks. More importantly, I want to thank him for years of great partnership, great work on behalf of Louisiana. I know he will make an outstanding senior Senator. Thank you.

I yield the floor.

Mr. CASSIDY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Ms. COLLINS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Mr. President, I rise in strong support of the 21st Century Cures Act, and I commend the chairman and ranking member of the Senate Health, Education, Labor, and Pensions Committee, Senator LAMAR ALEXANDER and Senator PATTY MURRAY, for their unwavering commitment to this very significant bipartisan legislation.

The Senate HELP Committee, on which I am privileged to serve, has devoted considerable time and effort to this comprehensive legislation. It includes many reforms and priorities that will benefit so many families across our great country. The 21st Century Cures Act will support the research and development of safe treat-

ments and cures for millions of Americans and their families who are coping with devastating diseases. It will improve the process of moving new discoveries from laboratory benches to patient bedsides.

I doubt that there is a family in America who will not be touched by this important legislation in some way. All of us have a family member, a co-worker, or a friend who has courageously faced the struggles of living with a debilitating chronic illness or a rare disease or who has received a devastating diagnosis and has passed away far too soon, leaving a hole in our hearts. Imagine how this could change with the passage of the 21st Century Cures Act and strong support of the research and development that will lead to new treatments and therapies that can help us achieve our dream of conquering so many devastating diseases.

Simply put, this legislation matters. It matters to the children who know firsthand the burden of living with type 1 diabetes and who beg their parents for just one day off—their birthday or Christmas—from having to deal with the consequences of their juvenile diabetes. It matters to the family members who know the agonizing experience of looking into the eyes of a loved one suffering from Alzheimer's disease, only to receive a confused look in return. It matters to the parents of young boys who have Duchenne muscular dystrophy, who know what it is like to give their all in an effort to help their sons achieve their dreams, whether it is finishing college or driving a car, even as every day their children battle the progression of this debilitating and ultimately terminal illness. The 21st Century Cures Act will drive progress in medical innovation so that we can prevail against these diseases and many more that cause so much pain and suffering, so much fear and uncertainty, and so much heartbreak.

There simply is no investment that we can make that provides greater return for Americans than our investment in biomedical research. It not only leads to new discoveries and the development of better treatments and even cures but also can have a dramatic effect on the budgets of families, States, and the Federal Government. The bill before us will help direct \$4.8 billion to the National Institutes of Health, including \$1.6 billion for the BRAIN Initiative to improve our understanding of diseases such as ALS, Parkinson's, and Alzheimer's, our Nation's most costly disease.

We spend \$263 billion a year caring for people with Alzheimer's disease. Of that amount, approximately \$160 billion comes from the Medicare and Medicaid Programs. If the current trajectory continues as our population grows older, this disease will bankrupt the Medicare and Medicaid Programs. That

is why I am so pleased to see the BRAIN Initiative funded in this bill and also the work we are doing in the Appropriations Committee to boost funding for Alzheimer's disease and other dementias so that we can finally find effective treatments, a means of prevention, or perhaps even a cure for this disease that brings so much heartache not only to those suffering from it but to their families as well.

Our bill will also help provide \$1.8 billion for the Vice President's Cancer Moonshot. We all know that Vice President BIDEN has taken on this cause—a very personal one for him—because he lost his beloved son Beau to cancer.

Another exciting field that will be funded by this bill is \$30 million for regenerative medicine, using adult stem cells. How exciting it was to have an individual come before our policy lunch whose sight had been restored due to innovative stem cell surgery. This individual lives in Tennessee now but happens to be from Presque Isle, ME, just 13 miles from where I was born and grew up. How I wish so many older people in this country who are losing their vision to macular degeneration and glaucoma—in some cases, a combination of both—or injuries to their eyes could benefit from this exciting development with adult stem cells, which has restored the sight of someone who was legally blind. He now can drive. That is so exciting, and that is the promise of researching regenerative medicine.

In addition to support for NIH, the 21st Century Cures Act will help direct \$1 billion in much needed funding to address the horrendous heroin and opioid abuse problem in this country. Maine has been particularly hard hit by this epidemic. In just the first 9 months of this year, Maine experienced a record 286 overdose deaths. That is more than one a day. Tragically, that number already exceeds the 272 overdose deaths in Maine during all of 2015.

I am distressed when I hear about the lack of treatment options for Mainers who are struggling with drug addiction, particularly in rural areas. As a result of the shortage of treatment alternatives, this epidemic is playing out in emergency rooms, county jails, and on the main streets of my State. I can't tell you how many sheriffs have come to me pleading for help, telling me that the intake area of their jail looks like a detox center or an emergency room of a hospital. They are overwhelmed by these cases.

We can and must do more to support access to treatment and to alert people of all ages to the risks of opioid abuse and heroin use. The 21st Century Cures Act will provide a vital infusion of \$1 billion over 2 years to support grants to States to supplement treatment and prevention efforts.

I was talking with one of my colleagues earlier today. Both of us re-

member when we were in school hearing lectures from recovering heroin addicts who came into the schools, and I can state that it was highly effective. We would never have tried heroin. I can't even think of a proper analogy.

We know, unfortunately, that many of the people who are using heroin started with prescription opioids, and that is why I am encouraged by movements across our country and by actions taken, at my request and the request of other Senators, by the Centers for Medicare & Medicaid Services to make sure we are not putting pressure on providers to overprescribe opioids. Surely they are appropriate in certain cases, but the number of prescriptions has soared in this country and is twice the number prescribed on a per capita basis as in our neighboring country of Canada.

The 21st Century Cures Act also includes a bill that I introduced with several of my colleagues—Senators WARREN, KIRK, BALDWIN, ALEXANDER, and MURRAY—that is called the Advancing NIH Strategic Planning and Improving Representation in Medical Research Act. Despite its extremely cumbersome name, it is an important bill that has been incorporated into this legislation. It will require the NIH to release periodically a strategic plan outlining how the agency will meet its mission statement, and it will provide us with important guidance and metrics as we continue to work together to increase this vital funding.

It will also help to ensure that study populations in clinical research are more representative of the diverse population in our country. For example, women face many of the same health threats as men, such as heart disease and cancer, but they react differently to various treatments.

I remember years ago an infamous study that was called MRFIT. It had only men enrolled in it. I believe, if memory serves me correctly, it was to look at heart disease. Well, women often have different symptoms of heart disease than do men, and they respond differently to different medications, therapies, and treatments. We also know that women are at higher risk for certain chronic health conditions, such as Alzheimer's disease and osteoporosis. They suffer from those diseases in far greater numbers than do men. With Alzheimer's disease, I am wondering whether it is simply a matter that the biggest risk factor is age and women live longer than men, but perhaps there are other factors at play.

My point is that by helping to ensure that women, African Americans, Latinos, and other demographic groups are appropriately represented in clinical research, we can increase our scientific understanding of the causes, risk factors, prevention strategies, and effects of treatments for diseases that commonly or disproportionately affect these populations.

The bill before us also includes legislation that I introduced with my colleague from Wisconsin, Senator BALDWIN, to help address the educational debt burden that many young researchers face. This is so important to help ensure that America's finest, up-and-coming young researchers continue to help lead the world in biomedical discovery in this country. I don't want to lose these young talented people to other countries. I want them to stay right here. If they come to work for the NIH or the CDC or other federally funded institutions and agencies and we can get them help with their medical school, college, their advanced degrees, and their debt, that is a very good agreement for us to be making.

It is also of tremendous importance that we were able to add mental health legislation to the 21st Century Cures Act. The reforms in this bill will enhance coordination, address a lack of resources, and develop real solutions to improve outcomes for individuals with serious mental illness and to help their families, who are often desperate to get them the help they need.

I am pleased that the bill also includes the Mental Health on Campus Improvement Act, which I offered as an amendment when we considered the mental health legislation in committee. My colleague, Senator DICK DURBIN, and I introduced this legislation for the first time in 2009. I commend him for his leadership.

College students in Maine and across the country must have access to critical and often lifesaving mental health services. Despite growing demand for these critical services, far too many students still lack access. Without these services, students may experience detrimental effects that range from declining academic performance to drug dependence and to being at greater risk of suicide.

While millions of Americans suffer from mental illness, only a statistical few engage in unspeakable acts of violence against themselves or others. Suicide, however, is the leading cause of death among Americans between the ages of 15 and 34. In addition, recent tragedies on college campuses, such as the shooting at a community college in Roseburg, OR, or at Northern Illinois University, highlight the dire need for mental health outreach and counseling services on college campuses.

Perhaps some of the tragedies that we have witnessed might have been prevented had the resources been in place to support timely diagnosis, early intervention, and effective treatment for those struggling with severe mental illness.

One of the saddest meetings I have had in the last year was with a group of families from Maine who had adult children who were suffering from severe mental illness, yet these families felt powerless in getting them the help

they needed. These adult children were not compliant with the medication they had been prescribed, and in many cases their families felt powerless to be able to get them the help they needed.

In one terrible case, a man's son was released from a hospital in the State of Maine—from a hospital for people with mental illness—and he killed his mother, thinking she was Al Qaeda. Only then could his father get his son the institutionalized help his son so desperately needed.

It was just such a painful, painful story to hear from this anguished father and husband. I believe the language in this bill will help to change that.

The 21st Century Cures Act passed the House last week by an overwhelming vote of 392 to 26. Think how few bills pass with that kind of strong, bipartisan support. It is supported by President Obama, who had an op-ed in Maine newspapers this weekend endorsing the bill. It is the product of years of bipartisan work on the Senate HELP Committee, and it has earned the support of more than 300 organizations.

Frankly, I am surprised that we are having a rollcall vote—a cloture vote on this bill. I am surprised because, while this bill may not be perfect—and no bill is—there is so much that is worthwhile, good, and significant in it that will make such a difference to so many American families.

I urge all of our colleagues to vote in support of this bill so that we can quickly send it to the President's desk, where he is eager to sign it into law. It may well be the most important, far-reaching legislation that we pass this year in terms of its benefits for families across this great Nation.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. TESTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### SUPPORTING OUR VETERANS

Mr. TESTER. Mr. President, I rise today on behalf of nearly 100,000 veterans who live in Montana. These are folks who have earned our deep respect and gratitude.

I have traveled the State many times, listened to their ideas, and I have listened to their concerns. Montana's veterans have not been shy about expressing their views.

What I have heard is this. There is no doubt that we must hold the VA accountable and work to improve access to health care, jobs, education, transportation, and housing for veterans.

That is why it is critically important that we are taking marching orders from veterans and the advocacy organi-

zations that are led by veterans, because we know that their top priority is to do right by the folks who they serve.

Veterans in Montana also tell me that when it comes to solving the problems facing veterans, they expect folks in Washington, DC, to check their politics at the door and go to work.

Unfortunately, there are groups out there that are funded by dark money. They hide their out-of-touch political agenda behind the veil of our Nation's veterans.

As the incoming ranking member of the Veterans' Affairs Committee, I have serious concerns about who President-Elect Trump is listening to when it comes to honoring our veterans and this Nation's commitment to those who have worn the uniform. That is why it is so troubling that recent news reports have indicated that the Trump administration is relying heavily on guidance from Concerned Veterans for America. Concerned Veterans for America is a political advocacy group funded by the Koch brothers, who want to dump unlimited amounts of dark money to push dangerous policies that would privatize the VA or to convert the Veterans Health Administration into an independent, nongovernment-chartered, for-profit corporation. CVA also wants to divert funds from the VA and cripple its ability to plan for the long term to recruit doctors and nurses and to invest in the information technology that can improve veterans' experiences at the VA. These cuts will undermine the quality of care at the VA.

There is nothing wrong with helping veterans get specialty care in the community in a timely fashion when the VA cannot do it. That often happens in rural communities, but CVA's push for wholesale dismantling of the VA is not what we want, and that is not what the veterans need.

We need to talk to the veterans—the veterans I have spoken to—and this is what we will see.

When folks volunteer to serve in the Armed Forces, this Nation is indebted to them. We must ensure that we deliver on those promises that are made. Privatizing the VA will fail our veterans and their families. It will reduce the quality of care that our veterans receive, and it will be more expensive for taxpayers. Privatizing the VA will ultimately mean that veterans will wait longer for doctors' appointments and the cost of care will go up.

All we have to do is take a look at the Veterans Choice Program, which allows veterans to access care at private facilities. It has resulted in longer wait times, and this is unacceptable.

Under this program, veterans are actually waiting longer to see doctors. Hospitals are increasingly frustrated and refusing to see veterans, and costs are going through the roof. Imagine

this program on steroids. That is what the CVA wants to do—all while starving the VA's existing workforce and infrastructure. In fact, what CVA is pushing for is similar to what Speaker RYAN wants to do with Medicare, and we have seen the backlash to that proposal by seniors across this Nation.

The same is true with the veterans and proposals to privatize the VA. It is simply bad policy. Groups such as the VFW, the American Legion, Disabled American Veterans, Iraq and Afghanistan Veterans of America, and many others oppose privatization, and they oppose it for good reason.

The American Legion national commander, Dale Barnett, said it best:

The private sector didn't send our heroes to war. Uncle Sam did.

Barnett is right. The Federal Government has an obligation to honor those incredible sacrifices. When we shirk that responsibility, it dishonors those brave men and women. We need to listen to the American Legion and countless other veterans groups, whose mission is to help the veterans, not unravel the VA. Veterans service organizations are very different and have a very different mission and tax structure than Concerned Veterans for America, the first being that VSOs take their cues from the veterans they represent, not from billionaire political activists who fund their operation. Groups such as the Legion, the VFW, and Iraq and Afghanistan Veterans of America are organized as nonprofit groups whose missions are simply to help veterans.

Concerned Veterans for America is an issue advocacy group with a political mission. VSOs disclose their donors. CVA doesn't have to. Yet CVA has incredible influence and the ear of the President-elect. This is deeply concerning to me and, more importantly, it is deeply concerning to the veterans across this Nation.

I talk to veterans every week when I am home in Montana. They universally tell me that they like the care they receive from the VA once they get in the door; the problem is getting in the door. They don't want to see a private doc; they want to be seen by a VA doc. They know that the VA understands their unique issues. They know that doctors and nurses at the VA are attentive to the wounds of war.

My hope is that President-elect Donald Trump starts talking with the folks who want to help veterans and not to organizations with a political agenda. My hope is that he will work with Chairman ISAKSON and me and countless other reputable veterans groups to hold the VA accountable while increasing access to care. My hope is that he will work with Democrats, Republicans, and Independents to reform our campaign finance laws so that we can increase transparency and know who is trying to influence this government.

My hope is that he will put veterans first as he chooses the next VA Secretary.

I remain hopeful that we can find common ground to work together to hold the VA accountable, to improve care, and to ensure that we are all delivering for veterans. When our brothers and sisters and sons and daughters are sent to war, we make promises to them—promises we must keep. When they come home, they are changed people, and we cannot expect the private sector to address these seen and unseen wounds of war.

In this upcoming Congress, there will be incredible opportunities to make progress, and I am fully committed to Montana's veterans and veterans across this country and their families, and I will push back against those who attempt to undermine the noble mission of the Veterans' Administration.

Mr. President, I yield the floor.

Mrs. FEINSTEIN. Mr. President, I wish to support the 21st Century Cures Act, which would make vital investments in research to develop new treatments for deadly diseases, including cancer. The bill would also dedicate desperately needed funding to address some of our country's most pressing public health problems—opioid addiction and mental illness.

First, I would like to speak about the bill's provisions for cancer and rare diseases. Cancer touches the lives of all Americans; it doesn't discriminate. We have all experienced the grief and pain that comes with losing a loved one, friend, or colleague to this terrible disease.

Cancer is the second leading cause of death in our country. Nearly 40 percent of Americans will be diagnosed with cancer at some point in their lives, according to the National Cancer Institute. We have made great strides in improving detection, treatment, and survival rates for many cancers, including early-stage breast cancer, prostate cancer, and melanoma.

Despite this progress, other cancers like pancreatic and certain brain cancers remain extremely deadly, with very low 5-year survival rates. These cancers are typically detected in late stages, and even the most cutting-edge treatments may result in just a few more months of life.

The Cures Act designates nearly \$4.8 billion in additional funds for medical research through the National Institutes of Health, \$1.8 billion of which will expand and accelerate cancer research, in line with Vice President BIDEN's Cancer Moonshot Initiative. This research funding also supports important initiatives focused on precision medicine and neurological research.

Next, I would like to talk about the bill's funding to combat opioid addiction, which is an epidemic in this country. Nearly 2 million Americans are addicted to opioids, and 19,000 Americans

overdosed and died in 2014. This epidemic stems from a surge in the use of prescription drugs. It is not a coincidence that prescription overdose deaths quadrupled during the same period that opioid prescriptions quadrupled.

In 2012, 259 million prescriptions for opioids were written. That means 80 percent of Americans could have a bottle of pills. Prescription drug abuse frequently leads to heroin addiction because these drugs affect the brain in the same way. This problem is exacerbated because heroin is significantly cheaper than prescription opioids like OxyContin or fentanyl.

This crisis demands an immediate, comprehensive, national response. Congress took a first step earlier this year, passing the Comprehensive Addiction and Recovery Act in May. This bill authorizes grants to expand access to substance use disorder treatment, strengthen prescription drug monitoring programs, and supply first responders with naloxone, which can reverse the effects of an overdose. However, this bill didn't include any funding for the initiatives it authorized. The Cures Act takes that step, providing \$1 billion for the Department of Health and Human Services to fund many of the prevention and treatment programs authorized by Congress earlier this year.

Lastly, I would like to highlight the bill's provisions to improve our country's mental health system. This is an area where we fall far short. We don't do nearly enough to ensure those with mental illness are able to access appropriate treatment and this has ripple effects throughout society.

In October, I was briefed on the homelessness crisis in Los Angeles and toured a shelter for homeless women. A significant percentage of the city's homeless population is battling mental illness. So, by improving our mental health system, we are also going to address connected issues like homelessness.

Under the bill, Health and Human Services will develop a strategic plan to address mental health priorities. There is increased funding to train our doctors and nurses to better integrate substance abuse and mental health treatment into primary care visits.

The bill also reauthorizes many important existing programs, including the National Suicide Prevention Lifeline and the National Child Traumatic Stress Network, and increases support for mental health and drug courts. These innovative approaches to criminal justice provide an alternative process for individuals to receive and comply with needed treatment and are supported by the law enforcement community.

The bill further provides for police training when police officers encounter individuals who exhibit mental illness.

I recently convened meetings in Los Angeles and San Francisco with law enforcement and community leaders, and they all stressed the importance of deescalating situations with mentally ill individuals to make sure that situations do not end with violent encounters.

In closing, I reiterate my support for the 21st Century Cures Act and urge its swift passage. This is a great opportunity to spur this century's medical innovation, improve access to needed treatments, and strengthen public health.

The PRESIDING OFFICER (Mr. COATS). The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I ask unanimous consent that Senator KIRK be recognized next and then Senator MURPHY following him and that after that, I be recognized. We will be voting at 5:30.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Illinois.

Mr. KIRK. Mr. President, 4 years ago I climbed the Capitol steps for those who could not. I vowed to return to the Senate to create and establish a standard of care for rehabilitation in this legislation to make sure many people can have access to the best rehab, as I did. With the passage of the Cures Act tomorrow, we will achieve this lofty goal.

The Cures Act also contains bipartisan provisions to provide accelerated approval of regenerative medicines and therapies. The Regrow Act, which is also in this bill, is a major step forward so that Americans will not have to go to other countries for their own stem cells to be used in their own therapy. Making sure this faster approval process happens in this bill means that many more people will be able to receive advanced stem cell therapies that are also available overseas, right here at home.

I would like to thank everybody. We have made progress with the FDA. I championed with Senators COLLINS and MANCHIN on this. I thank my senior colleague from Tennessee for all of his action on the Regrow Act so we can make the fundamental point of using your own stem cells to accelerate healing. In the case of using your own stem cells, they already have your exact DNA match. I think it is wise that we go through a shorter process. I thank the Senator for putting the Kirk language in the Regrow Act.

I yield the floor.

Mr. ALEXANDER. Mr. President, while we are waiting for Senator MURPHY, let me salute Senator KIRK for his leadership from the very beginning. He has pointed out to the committee and the Senate that, as the Mayo Clinic has said, regenerative medicine is a game changer for stroke victims, for heart disease, and for people with retinal disease.

Thanks to Senator KIRK, Senator COLLINS, Senator MANCHIN, and Senator MCCONNELL, we have legislation that takes an important and responsible step forward to recognize the promise of regenerative medicine.

This bill includes \$30 million to the National Institutes of Health for clinical trials to support regenerative medicine. Then there are two other provisions in the bill. One of them allows the Food and Drug Administration to make regenerative therapeutic products eligible for the FDA's existing accelerated drug approval pathway. We have had great success over the last 4 or 5 years with an accelerated pathway for drugs, similar to what Senators BURR and BENNET and others got enacted into law. We are doing the same thing with combination drugs and devices in this legislation. Now Senator KIRK has added regenerative medicine to the accelerated pathway, and I salute him for that leadership.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. KIRK. Mr. President, I wish to remind my colleague, who is also the chairman of the Appropriations Energy Subcommittee that controls the exascale funding, one of the most complicated things we can face in our world is biological systems when we look at the new Aurora computer that is going to be built in the Argonne National Laboratories. I know that at Oak Ridge, we have exascale computers. My goal is to make sure we are always way ahead of the Chinese. In the case of Aurora, we now have \$165 million to make sure that we have a computer that is far faster than the computer in China. With that, we will be able to model proteins themselves to make sure we make these advances much faster. My hope is that we will be stunned at how much biological work is being done at the Oak Ridge lab with their leading computer to make sure we accelerate progress on this.

Let me say one thing about the work of the Senator. Every piece of legislation that he touches goes through by a couple hundred votes. When we see LAMAR take over a bill, we know it is going to be going through on a big wall-opping. He got a huge vote in the Senate, and I hope he gets a big vote again. Everything he touches turns to gold, and we cannot have a better friend in medical care than we have in LAMAR ALEXANDER.

Mr. ALEXANDER. Mr. President, the Senator from Illinois is very generous, and I thank him, but I would remind him that he was the persistent agent for the change in support for regenerative medicine. That wasn't easy to do, and he has been the leader, along with others of us who cared about the same thing, in making sure the United States maintains its lead in supercomputing competition around the world.

Senator MURPHY, the Senator from Connecticut, is coming. I think what I

will do is begin, and when he comes I will stop and let him make his 5 minutes of remarks and then resume so I don't delay the vote because I know everyone is looking forward to casting a great big "yes" vote in a few minutes.

The U.S. Senate majority leader, whose position in the Senate this is, has said more than once in private meetings I attended and on the floor of this body that the 21st Century Cures bill on which we will be voting in a few minutes is the most important legislation Congress will pass this year.

In his address to the Nation this past weekend, President Obama urged us to vote for the bill today and tomorrow. "It could help us find a cure for Alzheimer's," the President said. "It could end cancer as we know it and help those seeking treatment for opioid addiction." The President continued: "It's an opportunity to save lives and an opportunity we just can't miss."

Vice President BIDEN has been telephoning Senators urging support for 21st Century Cures because, in the Vice President's words, it is a big step for cancer research and the Cancer Moonshot that is so close to his heart.

Speaker PAUL RYAN in the House of Representatives has made 21st Century Cures explicitly a centerpiece of his vision for our country's future, describing it as "bipartisan legislation that would accelerate the discovery, development, and delivery of lifesaving treatments."

With such bipartisan support from the President of the United States, the Vice President of the United States, the Speaker of the House, the Senate majority leader—two Democrats, two Republicans—it is no wonder that on last Wednesday, the House of Representatives approved 21st Century Cures by the overwhelming vote of 392 to 26.

This legislation holds the promise of improving the life and health of virtually every family in the country.

It will provide \$4.8 billion in a one-time surge of funding for biomedical research in a time of breathtaking opportunity.

It will advance Vice President BIDEN's Cancer Moonshot to find cures for cancer and President Obama's Precision Medicine Initiative, as well as the BRAIN Initiative.

It will help move safe and effective treatments and cures through the development and regulatory process more rapidly, and it will lower costs, making medicines available sooner and hopefully also at lower costs to patients.

It will provide \$1 billion in grants to help deal with the raging opioid epidemic.

It includes legislation to help the one in five adults in this country suffering from a mental illness, help them receive treatment by updating many of our country's mental health programs for the first time in a decade.

It will improve health information technology for doctors who are eager to get rid of the overdocumentation of hospitals and their patients and help get the Nation's electronic health records system out of the ditch.

From a taxpayer's point of view, it does all of these things in a fiscally responsible way by reducing other spending to pay for every penny of the \$6.3 billion cost.

I see the Senator from Connecticut on the floor, so I would like to suspend my remarks for 5 minutes so that he can make his, and then I would ask unanimous consent that the totality of my remarks follow his remarks.

Before he speaks, let me just say once again how much I appreciate his leadership and that of Senator CASSIDY and Senator CORNYN. One reason the majority leader calls this the most important piece of legislation Congress will act on this year is because it includes the mental health legislation that these Senators, including Senator MURPHY, Senator CORNYN, and Senator CASSIDY, have offered.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. MURPHY. Mr. President, I appreciate Senator ALEXANDER's kindness in allowing me to say a few words in support of this bill on behalf of myself and Senator MURRAY. I wish to congratulate Senator ALEXANDER for once again showing how the Senate can work properly, how we can bring together Republicans and Democrats for a priority that really has nothing to do with whether one is a Republican or a Democrat or whether one voted for Hillary Clinton or Donald Trump. If people are out there suffering from a life-altering or potentially terminal disease or suffering from mental illness or addiction, they need help, and we are coming together in maybe one of the most important pieces of health legislation that has passed this Congress in a very long time to deliver that help.

So I am not going to endeavor to recreate the remarks of Senator ALEXANDER when it comes to describing the important aspects of this bill except to say that after passage of this bill, it is going to be a whole heck of a lot more likely that a life-changing, lifesaving drug is going to be able to make it to market in time to save a life.

Every single one of the underlying reforms in this bill to the drug discovery process is bipartisan. I think about Senators BENNET and HATCH's bill, the promise for antibiotics and therapeutics for health, which establishes a new pathway for antibacterial and antifungal drugs that will treat serious, life-threatening infections for patients. I think about Senator CASEY and Senator ISAKSON working on the Advancing Hope Act, which will extend the pediatric priority review voucher program until 2020. It incentivizes drug companies to research treatment for

life-altering diseases that impact pediatric patients.

Inside this bill are all sorts of good, important, bipartisan achievements. As Senator ALEXANDER noted, there is also help on the way for people suffering from addiction. In my tiny little State—only 1 percent of the Nation's population—we are going to have over 800 people die this year from drug overdoses. Yes, we need to get to the source of that epidemic and stop people from getting addicted to pain medications in the first place, but, boy, we have an awful lot of people showing up with overdoses in our emergency rooms who have no place to go, have no detox programs, no long-term residential programs. The \$1 billion authorized in this legislation to fight the opioid epidemic is going to save lives in my little State.

Finally, when it comes to the issue of mental health—Senator ALEXANDER, Senator CASSIDY, and I were on the floor last week talking about this legislation; the focus on funding prevention, the focus on making sure parents are part of the care for their adult children, the focus on ensuring that insurance companies really do pay attention to the Parity Act we passed 10 years ago in this Congress to assure that you get covered for mental illness just like physical illness. A broken leg really isn't any different than a broken brain when we think about it. We can treat both. These are important advances in mental health as well.

I know this place has a bad reputation; that people pay attention to the fights here more often than they do to the moments where we get together and cooperate. The 21st Century Cures Act that Senator MURRAY and Senator ALEXANDER, with help from Senator CORNYN, me, Senator CASSIDY, and in the House Congressmen UPTON, PALLONE, TIM MURPHY, and EDDIE BERNICE JOHNSON—this is an example of how this place can work better.

As we head in to what may be a very charged atmosphere in January, I hope we remember this moment. I wanted to come down on behalf of Senator MURRAY, who has helped shepherd this process, to congratulate Senator ALEXANDER on it and recommend its passage to all of my colleagues.

I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I thank the Senator for his words, support, and his leadership this year. I thank also Senator MURRAY from Washington. She would be here, except her plane is delayed. The vote will be held open to make sure she can be here, but Senator MURRAY is a Member of the Democratic leadership and well respected on that side of the aisle but also on this side of the aisle because, when she can, she creates an environment where we can do today exactly

what we are doing today. I think the American people appreciate that, and Senator MURPHY and I both benefit from that. I thank the Senator for those remarks and will now continue my remarks.

At a Senate hearing earlier this year, Dr. Francis Collins, the distinguished head of the National Institutes of Health—an agency he calls the “National Institutes of Hope”—offered “bold predictions” about major advances to expect in the next 10 years from sustained investments in biomedical research, such as we are doing with this bill.

One prediction is that scientists will find ways to identify individuals at risk for Alzheimer's even before symptoms appear, as well as how to slow or even prevent the disease. Today, Alzheimer's causes untold family grief and costs \$236 billion a year. Left unchecked, the cost in 2050 would be more than our Nation spends on national defense.

Dr. Collins' other predictions are equally breathtaking. Using stem cells, doctors could use a patient's own cells to rebuild his or her heart. This personalized rebuilt heart, Dr. Collins says, would make transplant waiting lists and anti-rejection drugs obsolete. He expects development of an artificial pancreas to help diabetes patients by tracking blood glucose levels and creating precise doses of insulin. He says a Zika vaccine should be widely available by 2018, with universal flu vaccine and HIV/AIDS vaccine available within the decade. To relieve suffering and deal with the epidemic of opioid addiction that led to 28,000 overdose deaths in America in 2014, he predicts new nonaddictive medicines to manage pain, an even more effective antidote than the \$1 billion we would be authorizing by our votes today. These truly would be miracles.

The bill has taken more than 2 years to assemble both in the Senate and the House. There have been major differences of opinion, but the resolution of those differences—thanks to Senator MURRAY and many other Senators—has been bipartisan every step of the way. We saw that on display in the work of the President, the Vice President, the Speaker of the House, and the Senate majority leader. We saw it in the House with its vote of 392 to 26 last week, thanks especially to the leadership of Chairman UPTON, Ranking Member PALLONE, and Representative DEGETTE. We saw it in our Senate Health Committee, where we approved 19 bills that include 50 proposals, and every one with both a Democratic and Republican sponsor, except for 1 bill offered solely by Senator MURRAY, who is the ranking Democratic member of our committee.

We have a diverse committee of 22 Members—that would be an understatement, actually—some of the most

liberal Members and some of the most conservative Members, but when our committee considered these 19 bills during our 3 markups held over several months, the largest number of votes against any one of these 19 bipartisan bills was 2. Let me say that again. The largest number of votes—recorded votes—against any one of these 19 bipartisan bills was 2 in our committee of 22.

Here is what some of those 19 bipartisan bills—again, approved unanimously or by a wide margin—would do to help move safe and effective treatments and cures more rapidly through the regulatory process and into patients' medicine cabinets and into doctors' offices.

For example, Senators BENNET, WARREN, BURR, and HATCH's act would allow researchers to use their own data from previously approved therapies when they submit for review a treatment or cure for serious rare genetic diseases, like Duchenne's, a rare kind of muscular dystrophy that could impact children as young as 3.

Senators BURR and FRANKEN's legislation will help to bring innovative medical devices—such as artificial knees, insulin pumps, and heart stents—to patients more quickly by getting rid of unnecessary burdens in medical device evaluations and streamlining the review process for clinical trials.

Senators BALDWIN and COLLINS have a bill to improve opportunities for our young researchers, essential to advancing biomedical research.

Senator KIRK just talked about his legislation with BENNET, HATCH, MURKOWSKI, ISAKSON, and COLLINS to improve rehabilitation research and help the approximately 800,000 Americans who suffer a stroke each year.

Senators ISAKSON, MURPHY, CASEY, WICKER, and VITTER will help advance our understanding of neurological diseases.

Senator MURRAY, as I mentioned earlier, will clarify that the FDA requires cleaning and validation data for reusable medical devices.

Senators MURRAY, HATCH, BENNET, CASSIDY and WHITEHOUSE's bill will improve health information technology for doctors and their patients. We had six hearings on medical information technology programs in a ditch. We think we are helping to get them out of the ditch. We have been working with the Obama administration to do that, and I look forward to working with the Trump administration to continue that.

Senators BURR, BENNET, HATCH, and DONNELLY would speed safe breakthrough devices, putting senior people in charge of the review process.

CASEY, ISAKSON, BROWN, and KIRK's legislation. If you are the parent of a child with a rare disease like brain cancer, their bill would increase the likelihood that your child will be able to

take a drug that will help by giving a drug company that develops a drug for such a disease a voucher they could keep or sell that would speed up the review of another drug.

One may say this is getting boring. This is too long. It is not boring to the millions of Americans who stand to benefit from this, and it is exactly the kind of work we ought to be doing in the United States Senate and what the American people would like to see us do more of.

The Medical Electronic Data Technology Enhancement Act, with Senators BENNET and HATCH and many others interested in that.

Senators BURR and CASEY and ISAKSON and ROBERTS have important legislation for planning ahead for events like bioterror attacks, to help protect against anthrax, for example, or smallpox.

The Combination Products Innovation Act, with a number of Senators involved on the committee, will help prevent the growing field of combination products—like band-aids with Neosporin built in or a heart stent that can be implanted to deliver blood thinners to prevent clots—from being caught in redtape.

Then there is legislation that will give patients and their families a voice in drug development. There is one that is a top priority for the heads of FDA and NIH which will help those agencies attract and keep the kind of talent they need to approve all these exciting advances that are coming.

There is legislation to shorten the development of new treatments to help those affected with life-threatening superbugs.

The Advancing Precision Medicine Act, which Senator MURRAY and I cosponsored, is in direct support of President Obama's initiative to map 1 million genomes so researchers can develop treatments and cures tailored to a patient's genome.

There are five or six other major pieces of legislation that I will include in the RECORD but not read at this time because we are approaching the time for a vote, but let me conclude by saying that in addition to these bipartisan policies, the 21st Century Cures bill includes \$6.3 billion in funding. We usually don't attach such funding to a bill authorizing programs. We usually work along two tracks; one track for authorizing programs and one deciding how much to spend on those programs.

During the last 2 years, while we have been working on our authorizing legislation, our appropriations committees have recommended major increases in support for biomedical research, and it is important that every Senator know this. In the current year, at the urging of Senators BLUNT and Senator MURRAY, Congress added \$2 billion a year to the \$32 billion budget of the National Institutes of Health,

which could total \$20 billion over 10 years. Then, the Senate Appropriations Committee recommended another \$2 billion increase for the next fiscal year, 2017, which could total another \$20 billion over 10 years. This 21st Century Cures legislation adds \$4.8 billion in a surge of one-time spending for the National Institutes of Health on top of the regular appropriated money toward key objectives: \$1.8 billion for the Cancer Moonshot, \$1.4 billion for precision medicine, \$1.6 for the BRAIN Initiative, and it adds \$1 billion for State grants to help States fight the opioid abuse epidemic. I believe that for every State represented by a Senator here tonight, the opioid epidemic is on the front pages of the newspapers. It adds \$500 million for the Food and Drug Administration, and 21st Century Cures also gives the National Institutes of Health \$30 million for clinical trials to support regenerative medicine, which the Mayo Clinic has described as a "game-changing area of medicine with the potential to fully heal damaged tissues and organs, offering solutions and hope for people who have conditions that are beyond repair." It gives the FDA authority to allow regenerative therapeutic products to be eligible for FDA's existing accelerated drug approval pathway.

I wish to acknowledge the work of Speaker RYAN and Leader MCCONNELL in designing a way to secure funding that both Democrats and Republicans can accept. That is not always easy. For those concerned about additional spending—often on our side of the aisle—Speaker RYAN and House Budget Chairman TOM PRICE made sure the funding is one time, not mandatory, paid for, and approved each year by Appropriations Committees. It doesn't add one penny to the overall budget because for every increase in the discretionary budget, we reduce the same amount in the mandatory ledger.

For those who worry that Congress might not approve the \$6.3 billion in additional spending in later years—I have heard a little of that from the other side of the aisle—my answer is that the best way to ensure the money is spent in the following years is a big vote today and tomorrow when we finally pass the bill, just as the House did last week.

In conclusion, it will be hard to explain why you voted to spend \$6.3 billion for cancer, the Precision Medicine Initiative, and opioids this year but then voted not to spend it next year, and the legislation provides that the money cannot be diverted for any other purpose than what we vote for today and tomorrow.

In addition, this year's portion of Cures funding—including one-half billion for opioid grants—is included in the continuing resolution that we will vote on later this week.

This is the kind of lasting legacy the President of the United States and our

Congress can be proud of. The next administration or the next Congress will not be repealing this law because we have taken the time to work out our differences and create a consensus of support. We did this at this time last year with an equally complicated bill to fix No Child Left Behind, which, despite its complexities, received 85 votes in this body. When he signed it, the President called it a "Christmas miracle."

The 21st Century Cures bill will present President Obama with another Christmas miracle, one that will help virtually every family. When we pass this legislation, the real winners will be the American families whose lives will be improved by this bipartisan legislation.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WHITEHOUSE. Mr. President, with the permission of my distinguished chairman, who has worked very hard on this bill and whose efforts I appreciate very much, I wanted to add, very briefly, that I hope very much and look forward to working with my colleagues to assure that the second tranche of the opioid funding is aligned with the CARA bill, or the Comprehensive Addiction and Recovery Act, which we just passed in such bipartisan fashion a few months ago.

We have not achieved that alignment yet, and I hope that we do very soon. I appreciate the terrific efforts of my chairman.

With that, I yield.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The VICE PRESIDENT. Without objection, it is so ordered.

**DIRECTING THE CLERK OF THE HOUSE OF REPRESENTATIVES TO MAKE A CORRECTION IN THE ENROLLMENT OF H.R. 34**

Mr. MCCONNELL. Mr. President, it is a rare day when we see the Vice President presiding. We welcome him here today. We look forward to welcoming him back later in the week. I know Members will have plenty to say about his life and his legacy later in the week, but today the Senate would like to specifically acknowledge his efforts to help Americans struggling with cancer.

He has known the cruel toll this disease can take, but he hasn't let it defeat him. He has chosen to fight back. He has taken a leading role, and the Senate will soon pass the 21st Century Cures Act as a testament to his tremendous effort.

I think it is fitting to dedicate this bill's critical cancer initiatives in honor of someone who would be proud of the Presiding Officer today, and that is his son Beau. In just a moment, that is exactly what the Senate will do—renaming the NIH's cancer initiatives in this bill after Beau Biden.

Mr. REID. Will the Senator yield for a brief statement?

Mr. McCONNELL. If I could say to my friend the Democratic leader, I have one more thing here.

Therefore, Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H. Con. Res. 174, which is at the desk.

The VICE PRESIDENT. The clerk will report the concurrent resolution by title.

The senior assistant legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 174) directing the Clerk of the House of Representatives to make a correction in the enrollment of H.R. 34.

There being no objection, the Senate proceeded to consider the concurrent resolution.

#### AMENDMENT NO. 5137

(Purpose: To make additional corrections in the enrollment of H.R. 34)

Mr. McCONNELL. I call up an amendment, which would rename a title of the bill.

I would say to the clerk that I would like for her to read it in its entirety.

The VICE PRESIDENT. The clerk will report.

The senior assistant legislative clerk read as follows:

The Senator from Kentucky [Mr. McCONNELL] proposes an amendment numbered 5137.

Beginning on page 1, line 7, strike "following correction:" and all that follows and insert the following:

"(1) Amend the long title so as to read: 'An Act to accelerate the discovery, development, and delivery of 21st century cures, and for other purposes.'"

"(2) Amend the section heading for section 1001 so as to read: 'BEAU BIDEN CANCER MOONSHOT AND NIH INNOVATION PROJECTS'."

"(3) Amend the table of contents in section 1 so that the item relating to section 1001 reads as follows:

"'1001. Beau Biden Cancer Moonshot and NIH innovation projects.'"

Mr. McCONNELL. Mr. President, I ask unanimous consent that the amendment be agreed to, the concurrent resolution, as amended, be agreed to, and the motion to reconsider be laid upon the table with no intervening action or debate.

The VICE PRESIDENT. Without objection, it is so ordered.

The amendment (No. 5137) was agreed to.

The concurrent resolution, as amended, was agreed to.

(Applause, Senators rising.)

The VICE PRESIDENT. Thank you.

The Democratic leader.

Mr. REID. Mr. President, I say to all my colleagues, the Presiding Officer served in the Senate for 36 years. During that time he was here, he was about as much a man of the Senate as anyone could be. He was a Democrat, but he was also available to anybody anytime, and I so admire him. I know that he has worked very closely with the Republican leader on some very important issues the last 8 years.

I want the record to be spread with the fact that the Presiding Officer is as proud of his family as anyone could be, and doing this for Beau only furthers the effect that this man, the Presiding Officer, has had on this country. I am grateful to the Republican leader for allowing me to cosponsor this important amendment, changing the name of this bill to the Beau Biden Memorial Moonshot.

I am grateful to you, the Republican leader. All of the Senators understand that the man presiding is really a man of the Senate and always will be.

(Applause, Senators rising.)

#### TSUNAMI WARNING, EDUCATION, AND RESEARCH ACT OF 2015—Continued

##### CLOTURE MOTION

The VICE PRESIDENT. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

##### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the motion to concur in the House amendment to the Senate amendment to H.R. 34, an act to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes.

Mitch McConnell, Johnny Isakson, Bob Corker, Richard Burr, Pat Roberts, Roy Blunt, Thom Tillis, Lindsey Graham, Lamar Alexander, John Cornyn, Chuck Grassley, Michael B. Enzi, John Barrasso, Shelley Moore Capito, John McCain, Bill Cassidy.

The VICE PRESIDENT. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the motion to concur in the House amendment to the Senate amendment to H.R. 34 shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Washington (Mrs. MURRAY) and the Senator from Oregon (Mr. WYDEN) are necessarily absent.

The VICE PRESIDENT. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 85, nays 13, as follows:

[Rollcall Vote No. 156 Leg.]

##### YEAS—85

Alexander	Feinstein	Murphy
Ayotte	Fischer	Nelson
Baldwin	Flake	Paul
Barrasso	Franken	Perdue
Bennet	Gardner	Peters
Blumenthal	Graham	Reed
Blunt	Grassley	Reid
Booker	Hatch	Risch
Boozman	Heinrich	Roberts
Burr	Heitkamp	Rounds
Cantwell	Heller	Rubio
Cardin	Hirono	Sasse
Carper	Hoeven	Schatz
Casey	Inhofe	Scott
Cassidy	Isakson	Sessions
Coats	Johnson	Shaheen
Cochran	Kaine	Shelby
Collins	King	Stabenow
Coons	Kirk	Sullivan
Corker	Klobuchar	Tester
Cornyn	Lankford	Thune
Cotton	Leahy	Tillis
Crapo	Markey	Toomey
Cruz	McCain	Vitter
Daines	McCaskill	Warner
Donnelly	McConnell	Whitehouse
Durbin	Menendez	Wicker
Enzi	Mikulski	
Ernst	Moran	

##### NAYS—13

Boxer	Manchin	Schumer
Brown	Merkley	Udall
Capito	Murkowski	Warren
Gillibrand	Portman	
Lee	Sanders	

##### NOT VOTING—2

Murray	Wyden
--------	-------

The VICE PRESIDENT. On this vote, the yeas are 85, the nays are 13.

Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Cloture having been invoked, the motion to refer and the amendments thereto fall.

Mr. THUNE. I suggest the absence of a quorum.

The VICE PRESIDENT. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. LANKFORD). Without objection, it is so ordered.

##### DACA

Mr. DURBIN. Mr. President, last Friday I had a meeting in Chicago with about 50 in attendance. It was Friday morning, and we gathered groups of people from across the city of Chicago and the State of Illinois who were focusing on one make-or-break issue for many of us. It was an emotional issue, one that caused many to break down in tears as they told me their stories. It is

the reason I have come back to the floor of the Senate today and every day since the election to talk about one specific issue that I believe is important for this Nation to reflect on.

Mr. President, 16 years ago a young lady contacted my office. Her name is Tereza Lee. She had been brought to the United States from Korea at the age of 2. She had grown up in Chicago with a family of modest means.

During the course of her childhood, she signed up for what is known as the Merit music program in Chicago. They offered free instruments and free musical instruction to kids from low-income families. It is a great program. Tereza Lee signed up, and it turned out she had an extraordinary talent at piano. When she came to contact my office, it was as she was leaving high school and applying to be accepted at the best music schools in the America—Juilliard in New York and the Conservatory of Music in Manhattan.

She went to fill out the application, and when it came to a question of her citizenship and nationality, she wasn't certain what to put. Her mother suggested that she call our office, and she did. We told her that under the law she was undocumented, brought here at the age of 2 on a visitor visa. Her mother had never filed any papers for her. She had grown up in America thinking she was an American citizen like her brother and sister who were born here, and she came to realize at the age of 17 or 18 that in the eyes of the law she had no legal standing in America.

The law is pretty harsh for people like Tereza. The law says she needs to leave the United States for 10 years and apply to return to the United States.

Where would she go—to Korea? She had never been there. She grew up in Brazil for a short period of time. She didn't speak the language. She doesn't speak Portuguese.

She was caught in the middle. That is why I introduced the DREAM Act. It said that young people brought to the United States by their parents before the age of 16, if they finish school and have no serious criminal issues, should be given a chance to go to school further and have a legal status in America and, ultimately, to earn their way to citizenship—going to the back of the line and waiting their turn but at least setting that as their goal. I introduced that bill 15 years ago. It has never become law, but there are 2.5 million people in that circumstance in America.

Six years ago, the President of the United States created something called DACA, the Deferred Action for Childhood Arrivals program, by an Executive action. As a result of that action, President Obama allowed these eligible DREAMers—as they have come to be known—to receive DACA status.

In order to do it, they have to apply, come out of the shadows, declare them-

selves, file a fee of about \$500 with the government, go through a criminal background check, and then be given temporary—only temporary—legal status so they can't be deported and can legally work, which is renewable every 2 years. As of today, 744,000 young people have done that. Many of them were in the room—at least some of them were in the room in Chicago last Friday.

They are not certain what is going to happen next. The new President has promised to end DACA. If he ends it, what happens to these young people? For instance, there are 28 of these DACA young people who are in medical school at Loyola University in Chicago—28 students who are undocumented who are there without any Federal Government assistance, and most of them have promised to give a year of service to the State of Illinois in rural areas and poor neighborhoods when they become doctors. If they lose their DACA status, they lose their ability to work legally in the United States and they cannot go through the clinical experience, which is part of becoming a doctor. They would have to drop out of medical school. There is one thing we can say for certain: We don't have an oversupply of doctors serving inner cities and rural areas in my State and across the Nation. We need these doctors.

If DACA changes, if it is eliminated, what will happen to these young people? That is a challenge which I face, and other Members have as well. I salute Senator LINDSEY GRAHAM of South Carolina. He is working with me on legislation to address this, to at least give a temporary status to these DACA-eligible young people while we debate immigration reform in a larger context.

There are important issues at stake, but the most fundamental issue is one of fairness and justice. These young people did nothing wrong. They were brought to this country by their parents. They have grown up in this country, gone to our schools, and there are some amazing stories of what they have done with their lives. I wish to tell you one of those stories. I have done this over 100 times now on the floor of the Senate.

This is Barbara Olachea. In 2002, when Barbara was 5 years old, her family brought her to the United States from Mexico. She grew up in Phoenix, AZ, and she knew she would face challenges, being undocumented. Her older sister had been accepted to Arizona State University but couldn't afford to go to school there. As an undocumented immigrant, she is not eligible for Federal financial assistance. Arizona law specifically prohibits State financial assistance to DREAMers such as Barbara and her sister.

During her freshman year in high school, a mentor told her that as a

DREAMer, “You're going to have to try harder than everybody else.”

Barbara said:

Those words confirmed what I had known all along. Although I was only starting high school, I began to dread what most students anticipate with excitement: graduation day. What if I got into my dream school, but I still couldn't go because I couldn't afford it?

In high school, Barbara was a great student and was involved in many extracurricular and volunteer activities. She was a member of the Academic Decathlon team for 4 years and team captain when she was a senior. She was a member of student government, yearbook, and homecoming. She volunteered to tutor middle school students and worked part time to save money for her education. She participated in a number of programs at Arizona State University, including the Walter Cronkite School of Journalism. She recorded a story about her life that was aired on National Public Radio. This experience sparked her interest in journalism and led to an internship at KJZZ, the Phoenix affiliate for NPR.

Last year Barbara graduated as valedictorian of her high school class with a 4.5 grade point average. As a result of her accomplishments, Barbara was accepted at Dartmouth College, an Ivy League school, where she is now a sophomore.

Barbara wrote a letter to me and said this about DACA:

I am very grateful for DACA, as it allowed me to work and not be deported to a country I do not know and have not been to since I was five. Just like thousands of other undocumented students in the United States, I have grown up and become accustomed to the culture here. The U.S. is where I belong and I want to be a contributing member of society, as I have proved in my 13 years here.

Barbara and other DREAMers have so much to give. They are young, they are idealistic, they are energetic, and they are amazing. These young people have overcome odds that many young people never face in their lives. To think that in your freshman year of high school, you are reflecting on the fact that even if accepted to college, you may not be able to go—that was her future as she saw it then.

If DACA is eliminated, Barbara will lose her legal status and could be deported to Mexico—a country where she hasn't lived since she was 5. Will America be a better country if Barbara is deported or if she stays here and uses her talent, her determination, her energy, and her inspiration, for our future? I think the answer is clear.

Now is the time for America, this Nation of immigrants, to come together and heal the wounds that divided us in this election. I am just hoping that this President-elect, when he reflects on Barbara and 700,000-plus other DACA eligibles, will realize that they can bring important values and achievements to America's future. I am hoping that in the Senate, we can overcome our differences—and there are

many deep differences, political differences—and give these young people a chance.

Senator GRAHAM and I are basically working on a bill that says at least suspend their status so they won't be deported, so they can continue to work. Do that while we do our business here on the issue of immigration. That is only fair. It is only right. It is the right American way to approach an issue that can affect so many innocent American people.

I yield the floor.

The PRESIDING OFFICER. The Senator from West Virginia.

#### MINERS PROTECTION ACT

Mrs. CAPITO. Mr. President, I rise today to talk about an issue of great urgency—the fate of tens of thousands of American workers.

In just a matter of weeks, 16,000 coal miners and their dependents will lose their health care coverage and roughly 6,000 others will join that group in the year 2017, and here we are just days away from Congress wrapping up its work for the year. This should be a time to motivate us to action.

I have served in Congress a long time, and I know nothing motivates Congress more than a deadline, being up against a deadline, as we are today. This time should be no different, and here is why: Without some resolution before Congress adjourns, the men and women who have powered our Nation and spurred economic growth for generations will have the carpet ripped out from under them. They will lose the health care benefits they so rely on and have been promised.

It is important to recognize the risks our coal miners take to better our lives every day. When you visit a coal mine, which I have done—I have been underground in a coal mine—you see the rigorous and often very dangerous working conditions where these men and women do their job every day to provide the energy we need to light this Chamber, to warm our homes, and to keep our classrooms lit. These miners are the pillars of our communities, and many of them are veterans of our Nation. For decades they have worked hard and played by the rules. Yet the realities facing these men and women are stark. They are up against the wall, and we are up against the wall with them. The challenges they face will only grow if we fail to accommodate and have immediate action.

We can talk about the realities of the War on Coal, but this is about more than that. This is about people—tens of thousands of people, mostly older, many suffering health issues—who rely on health care, and many are in need. This is about tens of thousands of coal jobs that have been lost, devastating my region of the country, forcing miners to rely on these modest benefits more than ever before. This is about employers who are bankrupt who can no longer fund these benefit plans.

We have a solution right here in front of us that is ready for a vote to prevent any lapse in benefits. It is a solution that has support from both sides of the aisle. We passed the Miners Protection Act out of the Finance Committee in a bipartisan way, and it is a solution that could make a difference in the livelihoods of tens of thousands of Americans.

I had really hoped that we could offer the Miners Protection Act as an amendment to the 21st Century Cures bill. The 21st Century Cures bill is all about health. The Miners Protection Act is a lot about the health and well-being of our miners.

That is why, despite the many good things and benefits in the 21st Century Cures Act, such as funding for the opioid epidemic that hit my State of West Virginia and many of our States very hard, advanced medicine, and Cancer Moonshot, I had to oppose us moving forward on the Cures Act tonight without an amendment process. That is how important this issue is to our miners.

Before Friday we will move forward on a bill to fund our government. We must take action in that bill—which I consider mostly our last chance, the continuing resolution—to protect these important benefits for our miners. If we don't, we will be failing to act for the benefit of thousands of American workers.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. MORAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. MORAN. Mr. President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### DACA

Mr. REID. Mr. President, 15 years ago Senator DICK DURBIN introduced the DREAM Act in the U.S. Senate. This legislation provided a path to citizenship for young people brought to the U.S. as children.

These young people call themselves DREAMers. And they are as American as you or me. They belong to this country culturally and linguistically and are American in all but paperwork. For many of them, this is the only country they have ever known.

In 2010, the DREAM Act passed the House and came to the Senate for a

vote. Sadly, Republicans killed the bill—eliminating the hopes and dreams of hundreds of thousands of DREAMers. Because Republicans refused to act, it was up to President Obama.

In 2011, I joined 21 other Senators in asking President Obama to grant deferred action to immigrant youth who would have qualified under the DREAM Act and who are not an enforcement priority. And in 2012, President Obama's administration did just that. They announced that young people who were brought to the United States as children could apply for Deferred Action for Childhood Arrivals, also known as DACA.

This brought nearly 800,000 young people out of the shadows. These young men and women are our newest college students, teachers, engineers, and small business owners. They contribute to our communities and make America better.

In Nevada alone, DACA has helped over 12,000 DREAMers—DREAMers like Brenda Romero. Brenda was just 2 years old when she crossed the border in southern California with her mother to reunite with members of their family.

Growing up in Las Vegas, Brenda was like any other American kid. She excelled in school, participated in student government and played the cello in the orchestra. But soon enough, she realized what it truly meant to be undocumented. Her friends could get their driver's licenses; Brenda could not. Her peers could get legally paying jobs; Brenda could not. Her classmates could speak with recruiters from the Armed Services about career opportunities; Brenda could not. Brenda described the months after graduating high school as one of the lowest points in her life.

But that all changed with DACA. She was finally able to get a job and enrolled in the College of Southern Nevada as soon as she saved enough money. Brenda became student body president her second year at the College of Southern Nevada, working to help other students who faced struggles similar to hers. During her time as student body president, Brenda helped award \$10,000 to her fellow classmates in scholarship funds.

Brenda graduated from CSN with an associate's degree in art and is currently pursuing a bachelor's degree in human services at the University of Nevada, Las Vegas. She wants to be a higher education counselor, and she is already well on her way. She is already making her mark on the UNLV campus. As part of the Undocu-network Club, Brenda is helping to bring counseling and services to students in need and promoting visibility for undocumented students to the school administration.

Brenda's story is impressive, but it is not unique. Every Senator has a story

to tell like Brenda's. There are young men and women just like her in all 50 states.

In addition to the moral reasons for supporting DACA, there are strong economic reasons. DACA recipients will add \$433 billion to the economy over 10 years. After DACA, more than two-thirds of recipients were able to secure a job and their wages rose by 42 percent. Six percent of recipients started their own businesses, a rate that is nearly double the rate among the entire U.S. population. Fifty-four percent of recipients bought cars, and 12 percent bought houses, all of which means significant new tax revenue for States and localities. DACA recipients will add \$433 billion to the economy over 10 years. It is not surprising that the majority of Americans—almost 60 percent—oppose repeal of DACA.

As with Brenda, DACA has opened doors of opportunity for hundreds of thousands of young people.

We hoped that it would be a stop-gap measure until we passed immigration reform. The Senate overwhelmingly passed a bipartisan bill but the House refused to bring it to a vote. With the outcome of the election, it isn't likely that comprehensive immigration reform will happen over the next 4 years. That is why it is so important for the next administration to continue this vital program. For Brenda and hundreds of thousands like her, losing DACA status means being adrift in the only country she calls home.

I urge the next administration: Don't put almost 800,000 young people back in the shadows where they are afraid. Don't force hundreds of thousands of DREAMers to lose their jobs. And don't squander the huge economic benefits to this country.

If Republicans want to do something, then they should pass the DREAM Act.

#### ARMS SALES NOTIFICATION

Mr. CORKER. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DEFENSE SECURITY  
COOPERATION AGENCY,  
Arlington, VA.

Hon. BOB CORKER,  
Chairman, Committee on Foreign Relations,  
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 16-76, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance for the Government of Peru for defense articles and services estimated to cost \$668 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

J.W. RIXEY, *Vice Admiral, USN,*  
*Director.*

Enclosures.

TRANSMITTAL NO. 16-76

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Peru.

(ii) Total Estimated Value:

Major Defense Equipment \* \$434 million.

Other \$234 million.

Total \$668 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

One hundred and seventy-eight (178) Reconditioned Stryker Infantry Carrier Vehicles.

One hundred and seventy-eight (178) M2 Flex .50 Cal Machine Guns.

One hundred and seventy-eight (178) Remote Weapon Stations (RWS).

Non-MDE includes: Driver's vision enhancers; Global Positioning System (GPS) navigational capability; sets of special tools testing equipment; associated M2 Flex spare parts and tripods; M6 Smoke Grenade launchers and associated spares; VIC-3 systems; Operators New Equipment Training (OPNET) and Field Level Maintenance Training (FLMNET); publications; training manuals; Contractor Field Service Representative support; contractor and concurrent spare parts; project office technical support; U.S. Government technical assistance; packaging, crating, and handling; de-processing services for shipment; and associated transportation.

(iv) Military Department: Army.

(v) Prior Related Cases, if any: None.

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Annex Attached.

(viii) Date Report Delivered to Congress: December 2, 2016.

\* As defined in Section 47(6) of the Arms Export Control Act.

#### POLICY JUSTIFICATION

Government of Peru—Reconditioned Stryker Infantry Carrier Vehicles

The Government of Peru has requested a possible sale of one hundred and seventy-eight (178) Reconditioned Stryker Infantry Carrier Vehicles; one hundred and seventy-eight (178) M2 Flex .50 Cal Machine Guns; and one hundred and seventy-eight (178) Remote Weapon Stations (RWS). Also included are driver's vision enhancers; Global Positioning System (GPS) navigation capability; sets of special tools testing equipment; associated M2 Flex spare parts and tripods; M6 Smoke Grenade launchers and associated spares;

VIC-3 systems; Operators New Equipment Training (OPNET) and Field Level Maintenance Training (FLMNET); publications; training manuals; Contractor Field Service Representative support; contractor and concurrent spare parts; project office technical support; U.S. Government technical assistance; packaging, crating, and handling; de-processing services for shipment; and associated transportation. Total estimated program cost is \$668 million.

This proposed sale will contribute to the foreign policy objectives of the United States by helping to improve the security of an important partner which has been and continues to be an important force for political stability, peace, and economic progress in South America. It is in the U.S. national security interest for Peru to field capable forces and multi-role equipment for border security, disaster response, and to confront de-stabilizing internal threats, such as the terrorist group Sendero Luminoso (Shining Path).

Peru intends to use these defense articles and services to modernize its armed forces. This will contribute to the Peruvian military's goal of updating its capabilities while further enhancing interoperability between Peru, the United States, and other allies and partners. This acquisition would support the first major step in Peru's acquisition strategy to build a multi-dimensional brigade by 2030. Peru will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor for this program is General Dynamics Land Systems. There are no known offset agreements in connect with this potential sale.

Implementation of this proposed sale will require the temporary assignment of U.S. Government or contractor representatives to Peru for up to three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 16-76

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The following Major Defense Equipment items do not contain any sensitive technologies or classified material: 178 M1126 Stryker Infantry Carrier Vehicles with M2 Flex .50 Cal machine guns and Remote Weapon Systems. The M1126 Stryker is an infantry carrier vehicle transporting nine soldiers, their mission equipment and a crew of two consisting of a driver and vehicle commander. It is equipped with armor protection, M2 machine guns and M6 smoke grenade launchers for self-protection. The Stryker is an eight-wheeled vehicle powered by a 350hp diesel engine. It incorporates a central tire inflation system, run-flat tires, and a vehicle height management system. The Stryker is capable of supporting a communications suite, a Global Positioning System (GPS), and a high frequency and near-term digital radio systems. The Stryker is deployable by C-130 aircraft and combat capable upon arrival. The Stryker is capable of self-deployment by highway and self-recovery. It has a low noise level that reduces crew fatigue and enhances survivability. It moves about the battlefield quickly and is optimized for close, complex, or urban terrain. The Stryker program leverages non-developmental items with common subsystems

and components to quickly acquire and filed these systems.

2. The AN/VAS-5 Driver's Vision Enhancer (DVE) is a compact thermal camera providing armored vehicle drivers with day or night time visual awareness in clear or reduced vision (fog, smoke, dust) situations. The system provides the driver a 180 degree viewing angle using a high resolution infrared sensor and image stabilization to reduce the effect of shock and vibration. The viewer and monitor are ruggedized for operation in tactical environments. The system is UNCLASSIFIED but considered sensitive technology. If a technically advanced adversary were to obtain knowledge of the AN/VAS-5, the information could be used to identify ways to countering the system or improve the adversary's ability to avoid detection by the system in low-visibility environments. This is a low-level concern because the thermal imaging technology used in the AN/VAS-5 is considered mature and available in other industrial nation's comparable performance thresholds.

3. A determination has been made that the recipient country can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to Peru.

DEFENSE SECURITY  
COOPERATION AGENCY,  
Arlington, VA.

Hon. BOB CORKER,  
Chairman, Committee on Foreign Relations,  
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 16-54, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Australia for defense articles and services estimated to cost \$115 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

J.W. RIXEY, Vice Admiral, USN,  
Director.

Enclosures.

TRANSMITTAL NO. 16-54

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Australia.

(ii) Total Estimated Value:

Major Defense Equipment (MDE)\* \$ 0.00 million.

Basic Case (GUW) \$ 79.07 million.

Amendment Funding \$ 35.93 million.

Total \$115.00 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

*Non-MDE:* FMS case AT-P-GUW, originally offered below congressional notification threshold at \$79.07 million, was for acquisition of two Range Systems to conduct Electronic Warfare (EW), Electronic Surveillance, and Airborne Electronic Attack for Royal Australian Air Force aircrew training on its twelve (12) Australian EA-18G aircraft. An amendment to AT-P-GUW is required to

add \$35.93 million in funding, to provide for unfunded requirements to meet the scope of the basic case and provide for the sale of additional classified technical data and software, system integration and testing, tools and test equipment, support equipment, spare and repair parts, publications, operations manuals, and technical documents, personnel training, U.S. Government and contractor technical assistance, and other related elements of engineering, logistics, and program management. This amendment will push the original case value above notification threshold and thus requires notification of the entire case.

Military Department: Navy (AT-P-GUW-A1).

Prior Related Cases, if any:

FMS case AT-P-LEN: \$992M September 13, 2012 (Airborne Electronic Attack Kits).

FMS case AT-P-SCI \$1.3B July 4, 2013 (twelve EA-18G aircrafts).

FMS case AT-P-GUW \$79M February 12, 2015 (Electronic Warfare Range System).

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex.

(viii) Date Report Delivered to Congress: December 2, 2016.

\*As defined in Section 47(6) of the Arms Export Control Act.

#### POLICY JUSTIFICATION

##### Government of Australia—AEA-18G Electronic Warfare Range System

The Government of Australia has requested additional funding to a previously implemented case for two Electronic Warfare Range Systems to conduct Electronic Warfare and Electronic Surveillance training within the borders of Australia. The original FMS case, valued at \$79.07 million, includes non-MDE costs for all support elements required to provide for system integration testing, tools and test equipment, support equipment, spare and repair parts, publications, operations manuals, technical documents, personnel training, U.S. Government and contractor technical assistance, and other related elements of logistics and program support. The addition of \$35.93 million in non-MDE funding to the basic case will provide for unfunded requirements to meet the scope of the basic case and provide for the sale of additional classified technical data and software, system integration and testing, tools and test equipment, support equipment, spare and repair parts, publications, operations manuals, and technical documents, personnel training, U.S. Government and contractor technical assistance, and other related elements of engineering, logistics, and program management. This amendment will push the original case value above notification threshold and thus requires notification of the entire case. The total overall estimated value is \$115 million.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major contributor to political stability, security, and economic development in the Western Pacific. Australia is an important Major non-NATO Ally and partner that contributes significantly to peacekeeping and humanitarian operations around the world. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability. By enabling Australian Defense Force (ADF) ranges, the U.S. Government will ensure consistency in training across platforms and

theaters, whether the exercises are conducted in the United States or in Australia, where U.S. aircrews will be able to participate in training exercises alongside their Australian counterparts. The proposed sale will allow continued efforts to improve Australia's capability in current and future coalition operations. Australia will use the range to enhance Electronic Warfare capabilities as a deterrent to regional threats and to strengthen its homeland defense. Australia will have no difficulty absorbing these items into its armed forces.

The proposed sale will not alter the basic military balance in the region.

The prime contractors will be Leidos (hardware) and General Dynamics Mission Systems (software). The U.S. Government is not aware of any known offsets associated with this sale.

Implementation of this sale will require ten (10) temporary U.S. Government or contractor representatives to Australia for assistance in integration and range operational and maintenance training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed amendment.

TRANSMITTAL NO. 16-54

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. Provides two (2) in-country Electronic Warfare (EW) ranges for EA-18G aircrew training to detect, identify, locate, and suppress hostile emitters. Range technology transfers programmable equipment able to emulate generic Integrated Air Defense Systems, threat and other emitters, along with authentic threat emitters purchased from vendors in Former Soviet Block states. The range hardware is Unclassified either stand-alone or integrated. The range software is unclassified with the exception of one (1) Secret Digital Integrated Air Defense System (DIADS) software suite. The amendment facilitates transfer of classified information such as software, classified threat and fly-out models, user event captured data, range operations manuals, and security classification guidance. The classified information enhances the usefulness of the range technology being transferred and provides guidance on safeguarding sensitive information.

2. When EW range hardware and software work together against a particular aircraft platform, the visual and recorded information becomes classified Secret. The range capability is unclassified until the networks touch a Secret network (e.g., Link 16) or perform against real world training missions. The customer may capture intelligence regarding the authentic threat emitters that is classified Confidential or Secret, as well as other training artifacts and debrief products capturing weapons capability and tactics.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce EA-18G weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Australia.

DEFENSE SECURITY  
COOPERATION AGENCY,  
Arlington, VA.

Hon. BOB CORKER,  
Chairman, Committee on Foreign Relations,  
U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 16-65, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance for the Government of Finland for defense articles and services estimated to cost \$156 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

JAMES WORM, *Acting Deputy Director*,  
(for J.W. Rixey, Vice Admiral, USN,  
Director).

Enclosures.

TRANSMITTAL NO. 16-65

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of Finland.

(ii) Total Estimated Value:

Major Defense Equipment\* \$ 57 million.

Other \$ 99 million.

Total \$156 million.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Major Defense Equipment (MDE):

Ninety (90) Multifunctional Information Distribution System Joint Tactical Radio System (MIDS-JTRS) Variant(s).

Non-MDE includes: Follow-on equipment and support for Finland's F/A-18 Mid-Life Upgrade (MLU) program includes software test and integration center upgrades, flight testing, spare and repair parts, support and test equipment, transportation, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support.

(iv) Military Department: Navy.

(v) Prior Related Cases, if any:

FMS case FI-P-SAA \$2.4 billion—9 Jun 1992.

FMS case FI-P-SAB \$675 million—7 Feb 1994.

FMS case FI-P-GAD \$25 million—13 Jul 2001.

FMS case FI-P-LBB \$63 million—4 Aug 2001.

FMS case FI-P-LBC \$127 million—1 Jan 2004.

FMS case FI-P-LBD \$252 million—25 Jul 2007.

FMS case FI-P-LBH \$307 million—3 Apr 2009.

FMS case FI-P-GAU \$170 million—27 Jun 2013.

(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None.

(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Annex Attached.

(viii) Date Report Delivered to Congress: December 2, 2016.

\*As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Government of Finland—F-18 Mid-Life Upgrade Program

The Government of Finland has requested a possible sale of follow-on equipment and

support for Finland's F/A-18 Mid-Life Upgrade (MLU) program, consisting of: Ninety (90) Multifunctional Information Distribution System Joint Tactical Radio System (MIDS-JTRS) variant(s). The proposed program support also includes software test and integration center upgrades, flight testing, spare and repair parts, support and test equipment, transportation, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. Total estimated program cost is \$156 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in Europe.

The Finnish Air Force (FAF) intend to purchase this MLU program equipment and services to extend the useful life of its F/A-18 fighter aircraft and enhance their survivability and communications connectivity. The FAF needs this upgrade to keep pace with technology advances in sensors, weaponry, and communications. Finland has extensive experience operating the F/A-18 aircraft and will have no difficulty incorporating the upgraded capabilities into its forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon in Waltham, Massachusetts; Lockheed Martin in Bethesda, Maryland; The Boeing Company in St. Louis, Missouri; BAE North America in Arlington, Virginia; General Electric in Fairfield, Connecticut; General Dynamics in West Falls Church, Virginia; Northrop Grumman in Falls Church, Virginia; Rockwell Collins in Cedar Rapids, Iowa; ViaSat in Carlsbad, California; and Data Link Solutions in Cedar Rapids, Iowa. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Finland involving U.S. Government and contractor representatives for technical reviews, support, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

TRANSMITTAL NO. 16-65

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The Multifunctional Information Distribution System Joint Tactical Radio System (MIDS-JTRS) is not classified but is considered a COMSEC Controlled Item (CCI). There are no training devices, associated documentation, or services to be provided with the sale of these MIDS-JTRS units. No sensitive information is provided or associated with this sale.

2. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Finland.

of General Raheel Sharif and to express my gratitude to him upon his retirement as Pakistan's Chief of Army Staff. General Sharif has been a vital partner for the United States in the battle against terrorism. Since taking office in November 2013, General Sharif has continued to target terrorists operating within the borders of Pakistan. He has carried the fight to the north-west frontier provinces of Pakistan, as well as promised to eliminate safe havens for terrorists from the country completely. In taking these actions, General Sharif has demonstrated that fighting against extremist groups is firmly in the national security interests of Pakistan.

General Sharif comes from a military family, with a long tradition of patriotism and service to country. Among his many brave military family members, his older brother Major Rana Shabbir Sharif, who was killed in action, is regarded as the most decorated officer of the Pakistan Army, having received the three most coveted awards of the Army, and is fondly addressed as the army's "Superman." This is a legacy difficult to live up to, but General Sharif has done so, honoring his brother and family's service, and continuing to serve and protect his country and its institutions.

Since taking on the role of Chief of Army Staff, General Sharif has been at the forefront of fighting the Taliban and other terrorist groups inside Pakistan. In 2014, he initiated the launch of Operation Zarb-e-Azb in North Waziristan, a tribal area along the Afghanistan-Pakistan border where militants had operated with impunity for decades. This operation didn't eliminate every terrorist, nor has it denied safe haven to many who continue to operate from Pakistan. But it has led to security improvements in the country, and this area is now safer than ever before. And importantly, the Pakistani Army is continuing to secure the gains it has achieved by building roads, border posts, schools, and healthcare facilities across North Waziristan to promote economic development and give citizens a more prosperous and peaceful future.

In the south, General Sharif also took on the task of clearing Karachi, one of Pakistan's largest cities, of an array of terrorist organizations, criminal groups, and even political corruption. The results were equally impressive, leading to a dramatic decline in militant attacks and ending the kind of targeted killings, kidnappings for ransom, and extortion that had become a feature of life in the city.

Much of the credit for the success of these operations is due to General Sharif and the service and sacrifice of tens of thousands of Pakistani soldiers who followed his lead. What was remarkable about General Sharif was not only the commitment he demonstrated

#### TRIBUTE TO GENERAL RAHEEL SHARIF

Mr. MCCAIN. Mr. President, today I wish to recognize the accomplishments

to rooting out terrorism, but also his efforts to improve economic development, political life, and civic services for citizens throughout the country. He recognized that failure to focus on the root causes of radicalization, including economic and political corruption, had exacerbated the growth of extremism in Pakistan, and he showed foresight in seeking to remedy both cause and effect.

This is the kind of leadership that is imperative for the continued improvement of relations between the United States and Pakistan, which is important for the stability of the entire region, and for the national security of both Pakistan and the United States.

But despite the progress I witnessed firsthand when I visited Pakistan this past summer, the U.S.-Pakistan relationship has become strained. Among other things, limitations on U.S. assistance to Pakistan and congressional opposition to approve funding for the sale of defense articles have added to tensions between our two governments. But even with these difficulties, U.S. and Pakistani leaders cannot allow ambivalence and suspicion to fester in our relationship. Our common interests in counterterrorism, nuclear security, and regional stability are too important and too urgent. Both sides share responsibility to improve U.S.-Pakistan relations, and the United States must continue to make clear its enduring commitment to Pakistan's stability and economic growth.

As we look to the future, there remains much to be done. While Pakistan has made progress in its fight against terrorism, the Haqqani Network continues to operate within its border, increasing cross-border attacks are carried out by armed militants on neighboring countries, and political corruption has stilted economic growth. Pakistan must demonstrate that the commitment to fighting terrorism and improving conditions in the country is not dependent on a single individual. In that spirit, I look forward to working with General Qamar Javed Bajwa, Prime Minister Nawaz Sharif's selection to be the next Chief of Army Staff. By taking on all terrorist groups operating in its country, Pakistan will find that the United States remains willing and able to assist in this fight and develop an enduring strategic partnership.

I congratulate Pakistan on carrying out a second consecutive transition of power in the military, and I wish General Sharif well as he enters a well-earned retirement. He has vowed to serve Pakistan even after his retirement, and I would expect nothing less.

#### SECRETARY KERRY'S REMARKS AT COP22

Mr. MARKEY. Mr. President, last year the world came together in Paris

to support a truly historic agreement on climate change. And 2015 was also historic for another reason: It was the hottest year in an observational record that stretches back to the 1880s. In fact, 15 of the 16 hottest years on the planet have occurred since 2000. Recently, July and August 2016 tied the global record for the hottest month, and 2016 is on track to be the warmest year yet. The evidence on climate change is overwhelming. Scientists have understood the fundamental physics for over a century. And the world agrees that we must take action to curb dangerous carbon pollution and reduce the effects of climate change. A majority of the United States agrees that we must take action.

The swiftness with which the Paris Climate Accord came into force demonstrates the global commitment to addressing the serious concerns of climate change. It is also a testament to the leadership of President Barack Obama and Secretary of State John Kerry. This year, the world again came together at the United Nations Climate Change Conference in Marrakesh, Morocco, to begin forging the path towards a lower-emissions world and clean energy future. And while there is much work to be done, we are heading in the right direction. We have seen the price of solar energy reach record lows and the rate of new solar installation reach record highs. We have seen States, regions, and countries reduce their carbon pollution while growing their economies. These positive steps will not only curb carbon pollution, but also create good, well-paying clean energy jobs.

Climate change is a challenge for the entire world. Through the Paris Climate Accord, the international community has decided to face this challenge head on, and the United States must continue to be the global leader. Under the leadership of Secretary of State John Kerry, the United States has carried this mantle. In the speech that Secretary Kerry delivered last month in Marrakesh, Morocco, at the 22nd meeting of the Conference of Parties to the United Nations Framework Convention on Climate Change and first session of the Conference of Parties to the Paris Agreement, Secretary Kerry shared his vision for our future: a brighter, cleaner, healthier and more prosperous one.

He said:

Thank you so much, everybody. I apologize for being a few moments late. There was a fire and then there was some traffic backed up, and so here I am and here are you, and thank you for being here.

Let me begin by thanking our terrific U.S. Special Envoy for Climate Change Jonathan Pershing. I couldn't be luckier than to have him in this job. He was over at the Energy Department for a while. We stole him from Ernie Moniz, who is a great colleague and was gracious in my theft. And he has done a spectacular job working with all of our inter-

national partners as we begin the hard work of implementing the Paris Agreement. And I also want to thank Ambassador Jennifer Haverkamp, who, along with Jonathan and a lot of the team that I see sitting here, has done an absolutely terrific job in leading the State Department's efforts to advance our climate goals this year. And I have to tell you—well, let me just divert for a minute. I also want to thank Brian Deese—I don't know if he's here—but I'm grateful for President Obama's senior advisor on climate issues and the entire intrepid U.S. delegation to the COP, whom I had a chance to meet with earlier this morning, but we've kind of traveled this road together.

I also thank our international partners, and particularly the executive secretary of the UNFCCC, Patricia Espinosa; the outgoing president of the COP, Minister Segolene Royal of France; and the incoming COP president, my friend and our host this week, Minister Salaheddine Mezouar, the foreign minister of Morocco. And I also want to thank our partners from Fiji, who will serve as president for the next COP, which I intend hopefully to attend as Citizen Kerry.

It's a great pleasure for me to be able to be here in Marrakech. I'm reminded of one of the 20th century's most outsized figures whose connection with this city is so famous—Sir Winston Churchill. He loved to paint the landscapes here and to absorb the beauty and the culture.

And in fact, at the very height of World War II, as he and President Franklin Roosevelt and Allied leaders gathered in Casablanca to plan the strategy for the European Theater, Churchill was absolutely stunned to learn that Roosevelt had never been to this part of Morocco.

So in a move that perhaps only Winston Churchill would get away with in the middle of a global war—world war—Churchill convinced Roosevelt to extend his visit and drive through what was still, at the time, a country engulfed in active combat.

So after several hours on the loose, and because we're talking about Winston Churchill, plenty of Scotch—(laughter)—the two leaders arrived in Marrakech in time to see the sun set on the Atlas Mountains.

And Churchill said it was the loveliest view on Earth.

So I think it's fitting, therefore, that almost three-quarters of a century later, friends and allies meet again in Marrakech in order to undertake a very important discussion—a discussion about the natural world that surrounds us and the importance of preserving it for generations to come.

As Jonathan mentioned, climate change is deeply personal to me, but it's personal to everyone in this room. I know that. And we obviously want it to be just as personal for everyone in every room: men, women, children, businesspeople, consumers, parents, teachers, students, grandparents. Wherever we live, whatever our calling, whatever our background must be, this is an imperative.

Now, I know the danger of preaching to the choir—and, obviously, all of us here are the proverbial choir. But I'm actually grateful for that, because here at the 22nd COP, no one can deny the remarkable progress that we have made—progress that actually was pretty hard to imagine even a few years ago. The global community is more united than ever not just in accepting the challenge, but in confronting it with real action, in making a difference. And no one should doubt the overwhelming majority of the citizens of the United States who know climate change is happening and who are determined to keep

our commitments that were made in Paris. (Applause.)

None of us will forget the moment last December at Le Bourget, when the former foreign minister of France, with Segolene and a bunch of you there, led by our friend Laurent Fabius, who gaveled in the strongest, most ambitious global climate agreement ever negotiated. It was an accord that took literally decades to achieve—the proud work product of principled diplomacy, and ultimately, a deeply held, shared understanding that we're all in this together.

And when we left Paris, no one rested on their laurels. Instead, the world—unified—moved expeditiously to begin the—to pull the agreement permanently into force, crossing the thresholds of 55 countries representing 55 percent of global emissions, and doing so far faster than even the most optimistic among us might have predicted. In a powerful statement of the whole world's broad commitment to this agreement, in less than a year, 109 countries representing nearly 75 percent of the world's emissions have now formally committed to bold, decisive action—and we are determined to affirm that action and to stick with it out of Marrakech.

Now, we have in place—(applause)—so we have in place a foundation, based on national climate goals—109 nations, each of them have come up with their own plan, each of us setting goals that are based on our own abilities and our own circumstances. This agreement is, in fact, the essence of common but differentiated responsibilities. It provides support to countries that need help meeting the targets. It leaves no country to weather the storm of climate change alone. It marshals an array of tools in order to help developing nations to invest in infrastructure, technology, and the science to get the job done. It supports the most vulnerable countries, so they can better adapt to the climate impacts that many of those countries are already confronting.

And finally, it enables us to ratchet up ambition over time as technology develops and as the price of clean energy comes down. This is critical: the agreement calls on the parties to revisit their national pledges every five years, in order to ensure that we keep pace with the technology and that we accelerate the global transition to a clean energy economy.

This process—a cornerstone of our agreement—gives us a framework that is built to last, and a degree of global accountability that has never before existed. But I want to share with you that the progress that we've made this year goes well beyond Paris.

In early October, the International Civil Aviation Organization established a sector-wide agreement for carbon-neutral growth. Why is this so important? Because international aviation wasn't covered by what we did in Paris, and if that aviation was a country, it would rank among the top dozen greenhouse gas emitters in the world.

A few weeks later, I was pleased to be in Kigali, Rwanda, when representatives from again nearly 200 countries came together to phase down the global use and production of hydrofluorocarbons—which has been expected to increase very rapidly with a danger that is multiple of times more damaging than carbon dioxide. The Kigali agreement could singlehandedly help us to avoid an entire half a degree centigrade of warming by the end of the century—while at the same time opening up new opportunities for growth in a range of industries.

All of these steps combine to move the needle in the direction that we need to. And in

large part because global leaders have woken up to the enormity of this challenge, the world is now beginning to move forward together towards a clean energy future.

Over the past decade, the global renewable energy market has expanded more than six-fold. Last year, investment in renewable energy was at an all-time high—nearly \$350 billion. But that only tells you part of the story. An average of—that 350 billion is the first time that we've been able to see that money outpacing what is being put into fossil fuels. An average of half a million new solar panels were installed every single day last year. And for the first time since the Pre-Industrial Era, despite the fact that you have global prices of oil and gas and coal that are lower than ever, still more of the world's money was invested in renewable energy technologies than in new fossil fuel plants.

And like many of you, I've seen this transformation take hold in my own country. That's why I'm confident about the future, regardless of what policy might be chosen, because of the marketplace. I've met with leaders and innovators in the energy industry all across our nation, and I am excited about the path that they are on. America's wind generation has tripled since 2008 and that will continue, and solar generation has increased 30 times over. And the reason both of those will continue is that the marketplace will dictate that, not the government. I can tell you with confidence that the United States is right now, today, on our way to meeting all of the international targets that we've set, and because of the market decisions that are being made, I do not believe that that can or will be reversed. (Applause.)

Now, much of this is due to President Obama's leadership, and our Congress also moving in a bipartisan fashion on things like tax credits for renewable energy. This leadership has helped to inspire targeted investment from the private sector. Today our emissions are being driven down because market-based forces are taking hold all over the world. And that's what we said we would do in Paris. None of us pretended that in Paris, the agreement itself was going to achieve two degrees. What we knew is we were sending that critical message to the marketplace, and businesses have responded, as I just described. Most businesspeople have come to understand: investing in clean energy simply makes good economic sense. You can make money. You can do good and do well at the same time.

Now, significantly, the renewable energy boom isn't limited to industrialized countries, and that's important to note. In fact, emerging economies like China, India, and Brazil invested even more in renewable technologies last year than the developed world.

China alone invested more than 100 billion dollars. Ultimately, clean energy is expected to be a multitrillion dollar market—the largest market the world has ever known. And no nation will do well if it sits on the sidelines, handicapping its new businesses from reaping the benefits of the clean-tech explosion.

My friends, we are in the midst of a global renewable energy surge, and as a result, in many places, clean energy has already reached cost parity with fossil fuels. Millions around the world are currently employed by the renewable energy industry. And if we make the right choices, millions more people will be put to work.

So good things are happening. The energy curve is bending towards sustainability. The

market is clearly headed towards clean energy, and that trend will only become more pronounced.

Now, for those of us who have been working on this challenge for decades, this really is a turning point. It is a cause for optimism, notwithstanding what you see in different countries with respect to politics and change. In no uncertain terms, the question now is not whether we will transition to energy economy—to a clean energy economy. That we've already begun to do. The question now is whether or not we are going to have the will to get this job done. That's the question now—whether we will make the transition in time to be able to do what we have to do to prevent catastrophic damage.

Ladies and gentlemen, I'm not a Cassandra. You can tell from what I've said. But I'm a realist. Time is not on our side. The world is already changing at an increasingly alarming rate with increasingly alarming consequences. The last time that Morocco hosted the COP was in 2001, and the intervening 15 years have been among the 16 hottest years in recorded history. 2016 is going to be the warmest year of all. Every month so far has broken a record. And this year will contribute its record-breaking heat to the hottest decade in recorded history, which was, by the way, preceded by the second-hottest decade, which was preceded by the third hottest decade. At some point, even the strongest skeptic has to acknowledge that something disturbing is happening.

We have seen record-breaking droughts everywhere—from India to Brazil to the west coast of the United States. Storms that used to happen once every 500 years are becoming relatively normal. In recent years, an average of 22.5 million people have been displaced by extreme weather events annually. We never saw that in the 20th Century.

Communities in island states like Fiji have already been forced to take steps to relocate permanently, because the places they have called home for generations are now uninhabitable. And there are many, many more who know it's only a matter of time before rising oceans begin to inundate their cities.

I know this is a lot for anyone to process—hard to process. That's why I have found that whenever possible, the best way to try to understand and to see whether people are pushing the envelope of thinking on this or not is to see for oneself what is happening. That's why this summer I went to Greenland to visit the incredible Jakobshavn glacier. Scientists pointed out to me the lines many meters above the water today that mark the glacier's retreat which it has done more in the past 15 years than it did in the entire previous century. And while I was there, I boarded a Danish naval vessel and I traveled through the ice fjord. I saw the massive ice chunks that had just broken off from the glacier to melt inexorably into the sea. And because they come off Greenland, which is on rock, every bit of that ice contributes to the rise of the ocean.

Since the 1990s, the painful pace of that melting has nearly tripled. Every day, 86 million metric tons of ice makes its way down that fjord into the ocean. And the total flow that comes off that glacier in a single year is enough water to meet the needs of New York City for two decades.

But experts in Greenland and elsewhere have always warned me, and they warned me on this trip this summer, if you really want to understand what's happening and what the threat is, go to Antarctica. Nowhere on the planet are the stakes as high as they are on the opposite end of the globe. For half a

century, climate scientists have believed the West Antarctic Ice Sheet is a sword of Damocles hanging over our entire way of life. Should it break apart and melt into the sea, it alone could raise global sea levels by four to five meters. And the scientists down there described to me how the pressure of the ice and the weight of the ice pushes the entire continent down so that it's grounded on the base of Earth's crust and rock. But that allows warmer sea water to creep in under the glacier and speed up the process of the melting and destabilize the glacier.

Antarctica contains ice sheets that are, in some places, on the East Antarctic Ice Sheet three miles deep. And if all that ice were somehow able to melt away completely because we are irresponsible about climate change, in the coming centuries, sea level would rise somewhere over 100 to 200 feet.

That's why I flew last week to McMurdo Station in Antarctica to meet with our scientists and to understand better what is taking place. I flew by helicopter over the West Antarctic Ice Sheet. I walked out onto the Ross Sea ice shelf. And I talked with the scientists who are on the front lines, not people involved in day to day politics, but people who are making scientific judgment and doing extensive research. And they were crystal clear: The more they learn, the more alarmed they become about the speed with which these changes are happening. A scientist from New Zealand named Gavin Dunbar described what they're seeing there as the quote, "canary in the coal mine" and warned that some thresholds, if we cross them, cannot be reversed.

In other words, we can't wait too long to translate the science that we have today into the policies that are necessary to address this challenge. These scientists urged me to remind my own government and governments around the world and everyone here that what we do right now—today—matters, because if we don't go far enough and if we don't go fast enough, the damage we inflict could take centuries to undo—if it can be undone at all.

I underscore today: We don't get a second chance. The consequences of failure would in most cases be irreversible. And if we lose this moment for action, there's no speech decades from now that will put these massive ice sheets back together. There's no magic wand in any capital in the world that you can wave to refill all of the lakes and rivers that will dry up, or make farm—arid farm land fertile again. And we certainly won't have the power to hold back rising tides as they encroach on our shores. So we have to get this right, and we have to get it right now.

The scientists in Antarctica told me that they are still trying to figure out how quickly this is all happening. But they know for certain that it's happening, and it's happening faster than we previously thought possible. The alarm bells ought to be going off everywhere. As an American glacial geologist told me down there, a fellow by the name of John Stone, he said, "The catastrophic period could already be underway." That's why wise public policy demands that we take precautionary measures now.

Still, despite the real-life changes that are being done and the threat of more to come, it's important to remind ourselves that we are not on a pre-ordained path to disaster. This is not pre-ordained. It's not written in the stars. This is about choices—choices that we still have. This is a test of willpower, not capacity. It's within our power to put the planet back on a better track. But doing

that requires holding ourselves accountable to the hard truth. It requires holding ourselves accountable to facts, not opinion; to science, not theories that haven't been proven and can't be proven; and certainly not to political bromides and slogans.

For all the progress that we are making, at the current pace we will not meet our goal. I said that earlier. We knew in Paris that what we were doing was trying to start down a road. But we also knew it doesn't get us to the end of the journey. Yes, renewables make up more than half of all the new electricity installation last year. That's progress. But the reality is because of the existing energy infrastructure already in place, that new energy only generated a little more than 10 percent of the world's total energy. That is nowhere near what we need in order to achieve our goals.

If we're going to have the ability to stave off the worst impacts of climate change, we have to dramatically accelerate the transition that is already starting. We need to get to a point where clean sources are generating most of the world's energy, and we need to get there fast. Certainly experts tell us by the middle of this century we have to get there.

Now, I've said many times, and I'll say it again today: It is not going to be governments alone, or even principally, that solve the climate challenge. The private sector is the most important player. And already we are seeing real solutions coming from entrepreneurs and academia. It's going to be innovators, workers, and business leaders, many of whom have been hammering away at this challenge for years who are going to continue to create the technological advances that forever revolutionize the way that we power our world.

But make no mistake, government leadership is absolutely essential. And because today is the last opportunity I will have to address the COP as Secretary of State, I just want to take a moment to underscore the work that government leaders can do and should do, especially the 200—almost 200 nations represented here.

Now, we know that we have not come to Marrakech to bask in the glow of Paris. We've come here to move forward. In doing so, we cannot forget that the contributions we've each made thus far were never meant to be the ceiling. They're a foundation on which we expect to build. And unless our nations voluntarily ratchet up our ambition, and unless we continue to put sustained pressure on one another to act wisely, we will have difficulty meeting the current mitigation needs, let alone holding temperature increases at 2 degrees warming, which science tells us is a tipping point.

And if we fall short, it will be the single greatest instance in modern history of a generation in a time of crisis abdicating responsibility for the future. And it won't just be a policy failure; because of the nature of this challenge, it will be a moral failure, a betrayal of devastating consequence.

Now, I know not—that's not what any of us here signed up for. As Pope Francis said, "We receive this world as an inheritance from past generations, but also as a loan for future generations, to whom we will have to return it."

Now, I fully recognize the challenges that a number of countries face because they have a big population, they have a growing economy, they have a lot of people in poverty, they're determined to maintain stability and pull those people into the economy. And of course, they're concerned about stability—

we all are. Access to affordable energy is a key part of providing that stability. And the dirtiest sources of energy are, unfortunately, some of the cheapest. But I emphasize this: Only in the short term. In the long term, it's an entirely different story, folks. In the long term, carbon-intensive energy is actually today, right now, one of the costliest and most foolhardy investments any nation can possibly make. And that is because the final invoice for carbon-based energy includes a lot more than just the price of the oil or the coal, or the natural gas; it—or the price of building the power plant. The real cost accounting needs to fully consider all of the downstream consequences, which, in the case of dirty fuels, are enough to at least double or triple the initial expenses.

That's the kind of accounting that we need to do today. Just think about the price of environmental and agricultural degradation. Think about the loss of an ability of farmers in one area because of the lack of water or too much heat to be able to grow their crops today. Think of the hospital bills for asthma and emphysema patients, and the millions of deaths that are linked to air pollution caused by the use of fossil fuels.

In 2014, a study found that up to six million people in China have black lung because they lived and worked so close to coal-fired power plants. There are nearly 20 million new asthma cases a year in India linked to coal-related air pollution, and in the United States, asthma costs taxpayers more than \$55 billion annually. The greatest cause of children being hospitalized in the summer in the United States is environmentally induced asthma. These are real costs, and they need to be added to the tally.

We also have to include the price tag of rebuilding after devastating storms and flooding. Just in the first three quarters of this year alone, extreme weather events have cost the United States—have cost American taxpayers \$27 billion in damage. In August alone, Louisiana experienced flooding that resulted in roughly \$10 billion worth of damage.

So none of us can afford to be oblivious to these expenses, and these initial costs are in reality just a glimpse of what the future could hold in store for us if we fail to respond. Just imagine: Sea barriers that have to be built. Go down to Miami—in south Miami, they're building—they're raising streets to deal with flooding that's already occurring, building new storm drains and assessing people additional tax in order to do it. Massive increases in cost of maintaining infrastructure to control flooding, withstand storms. Power outages. All of this and more has to be added to any honest assessment of high-carbon energy sources. And in an age of increasing transparency and public demand for accountability, citizens in the long run will not accept phony accounting or an obfuscation of the consequences of the decisions.

So everyone needs to make smarter choices—with the long game, not the short game, in mind.

Coal, unfortunately, is the single biggest contributor to global carbon pollution. It provides about 30 percent of the world's energy, but it produces nearly 50 percent of the world's greenhouse gases. The unprecedented investments that we are now seeing in clean energy will mean very, very little if, at the same time, new coal fire plants without carbon capture are coming online and at a rate dumping into the atmosphere more and more of the very pollution that we're all working so hard to reduce.

Some of these projections, I have to tell you, are deeply troubling. For example, between now and 2040, the demand for electricity in Southeast Asia is likely to triple—and the bulk of that demand is currently expected to be met by growth—where? In the coal-fired power sector, rather than clean energy. That threatens everything we're trying to achieve here.

We literally cannot use one hand to pat ourselves on the back for what we've done to take steps to address climate change, and then turn around and use the other hand to write a big fat check enabling the widespread development of the dirtiest source of fuel in an outdated way. It just doesn't make sense. That's suicide. And that's how we all lose this fight.

Make no mistake: People all over the world are working for victory in this. And this issue is increasingly capturing the attention of citizens everywhere, and certainly the private sector. The private sector welcomed the signals that we sent in Paris, but they are demanding even stronger signals now—the private sector—so that they can invest clean energy solutions with even greater confidence.

One of the strongest signals that government can send, one of the most powerful ways to reduce emissions at the lowest possible cost—is to move toward carbon pricing that puts basic, free-market economics to work in addressing this challenge.

Now obviously, this is not a new idea. Many have come to this conclusion already. The share of global emissions that are covered by a carbon price has tripled over the last decade. Last year, more than 1,000 businesses and investors—including sectors that might be surprising to some of you—all came together to voice their support for carbon pricing. The long list of supporters includes energy companies like BP, Royal Dutch Shell, utilities like PG&E, transportation companies like British Airways, construction firms like Cemex, financial institutions like Deutsche Bank, like Swiss Re, and consumer goods corporations like Unilever and Nokia. These companies all believe that carbon pricing will establish the necessary certainty in the marketplace that helps the private sector to move the capital that helps to solve the problem.

Carbon pricing allows citizens, innovators, and companies—it allows the market to make independent decisions free from the government to be able to best drive their emission reductions. And this is also, by the way, the chief reason that carbon pricing has received support from leaders and economists on both sides of the aisle in the United States of America. A price on carbon, coupled with government support for innovation in key sectors, is easily one of the most compelling tools for the world to accelerate the clean energy transformation that we are working to achieve. Now, while it may be some time before we see this ideal outcome, the effort to improve carbon markets ought to be a priority going forward.

The bottom line is that there are many tools at the world's disposal. The COP itself is an important tool, in a sense. It has become much more of a—much more than just a gathering of government officials. It's really a yearly summit, 25,000 people strong this year from all over the world, for all sectors to showcase their commitment to climate action and to discuss ways to expand shared efforts. It's a regular reminder of exactly how much this movement has grown—and how many people, in how many countries, are committed to action.

Walking around the conference here before I was coming in here and seeing this site in Marrakech, and seeing the delegations and the business leaders, the entrepreneurs and the activists who have traveled from near and far to be here, it's abundantly clear we have the ability to prevent the worst impacts of climate change.

But again, we're forced to ask: Do we have the collective will? Because our success is not going to happen by accident. It won't happen without sustained commitment, without cooperation and creative thinking. And it won't happen without confident investors and innovative entrepreneurs. And it certainly won't happen without leadership.

For those in power in all parts of the world, including my own, who may be confronted with decisions about which road to take at this critical juncture, I ask you, on behalf of billions of people around the world: Don't take my word for it. Don't take just the existence of this COP as the stamp of approval for it. I ask you to see for yourselves. Do your own due diligence before making irrevocable choices.

Examine closely what it is that has persuaded the Pope, presidents, and prime ministers all over the world, leaders around the world, to take on the responsibility of responding to this threat. Talk to the business leaders of Fortune 500 companies and smaller innovative companies, all of whom are eager to invest in the energy markets of the future. Get the best economists' judgment on the risk of inaction, of what the cost would be to global economies, versus the opportunities that are to be found in the clean energy market of the future. Speak with the military leaders who view climate change as a global security concern, as a threat multiplier. Ask farmers about—and fisherman about the impact of dramatic changes in weather patterns on their current ability to make a living and to support their families or on what they see for the future. Listen to faith leaders talk about the moral responsibility that human beings have to act as stewards of the planet that we have to share, the only planet we have. Bring in the activists and civil society, groups who have worked for years with communities all over the world to raise awareness and to respond to this threat. Ask young people about their legitimate concerns for the planet that their children will inherit in reducing emissions worldwide.

And above all, consult with the scientists who have dedicated their entire lives to expanding our understanding of this challenge, and whose work will be in vain unless we sound the alarm loud enough for everyone to hear. No one has a right to make decisions that affect billions of people based on solely ideology or without proper input.

Anyone who has these conversations, who takes the time to learn from these experts, who gets the full picture of what we're facing—I believe they can only come to one legitimate decision, and that is to act boldly on climate change and encourage others to do the same.

Now, I want to acknowledge that since this COP started, obviously, an election took place in my country. And I know it has left some here and elsewhere feeling uncertain about the future. I obviously understand that uncertainty. And while I can't stand here and speculate about what policies our president-elect will pursue, I will tell you this: In the time that I have spent in public life, one of the things I have learned is that some issues look a little bit different when you're actually in office compared to when you're on the campaign trail.

And the truth is that climate change shouldn't be a partisan issue in the first place. It isn't a partisan issue for our military leaders at the Pentagon who call climate change a threat multiplier. (Applause.) It isn't a partisan issue for those military leaders because of the way that climate change exacerbates conflicts all over the world and who view it as a threat to military readiness at their bases and could suffer the consequences of rising seas and stronger storms. It isn't a partisan issue for our intelligence community, who just this year released a report detailing the implications of climate change for U.S. national security: threats to the stability of fragile nations, heightened social and political tensions, rising food prices, increased risks to human health, and more.

It isn't a partisan issue for mayors from New Orleans to Miami, who are already working hard to manage sunny-day floods and stronger storm surges caused by climate change. It isn't partisan for liberal and conservative business leaders alike who are investing unprecedented amounts of money into renewables, voluntarily committing to reduce their own emissions, and even holding their supply chains accountable to their overall carbon footprint.

And there's nothing partisan about climate change for the world scientists who are near unanimous in their conclusion that climate change is real, it is happening, human beings for the most part are causing it, and we will have increasing catastrophic impacts on our way of life if we don't take the dramatic steps necessary to reduce the carbon footprint of our civilization.

Now, whether we are able to meet this moment is a big test—probably as big a test of courage and vision as you'll ever find. Every nation has a responsibility to do its part if we are going to pass that test—and only those nations who step up and respond to this threat can legitimately lay claim to a mantle of global leadership. That's a fact.

More than his love of Marrakech, Winston Churchill was known for his hard-nosed insight and the way that he expressed it. He once argued, tellingly: "It's not always enough that we do our best; sometimes we have to do what is required."

We know today what is required. And with all of the real-world evidence, with all of the peer-reviewed science, with all of the plain just old common sense, there isn't anyone who can credibly argue otherwise. So we have to continue this fight, my friends. We have to continue to defy expectations. We have to continue to accelerate the global transition to a clean energy economy. And we have to continue to hold one another accountable for the choices that our nations makes.

Earlier this year, on Earth Day, I had the great privilege of signing the Paris Agreement on behalf of President Obama and the United States. It was a special day. And because my daughter lives in New York, I invited her to join me at the UN. She surprised me by bringing my 2-year-old granddaughter, Isabelle, along as well.

And that morning, I had been thinking about the history that had brought us to that day. I thought about the first Earth Day in 1970 that I mentioned earlier, when I joined with millions of Americans in teachers to educate the public about the environmental challenges we faced. I thought about the first UN climate conference in Rio, which is actually where I met my wife Teresa, and I thought of the urgency that we all felt way back then in 1992. And of course,

I thought about that December night at Le Bourget, when it seemed—for the first time—that the world had finally found the path forward.

But as I sat and I played with my granddaughter, waiting for my turn to go out and sign the Agreement, I thought, not of the past, but I thought of the future. Her future. The world her children would one day inherit.

And when it was time for me to go up on that stage, I scooped her up and I brought her out with me. I wanted to share that moment with her. And I'll never forget it.

But to my surprise, people responded to her presence that day, and since then so many people have said to me, they've conveyed to me how that moment conveyed something special and moved them. They told me they thought of their own children, their own grandchildren. They thought of the future. They were reminded of the stakes.

Ladies and gentlemen, here in Marrakech, in the next hours, let us make clear to the world that we will always remember the stakes. Let us stand firm in support of the goals that we set in Paris and recommit ourselves to double our efforts to meet them. Let us say that when it comes to climate change, we will commit not just to doing our best, but as Winston Churchill admonished, we will do what is required.

I look forward to working with you in this important work for whatever number of years ahead I have a chance to. Thank you.

#### TRIBUTE TO CARDINAL JOSEPH WILLIAM TOBIN

Mr. DONNELLY. Mr. President, today I wish to recognize Archbishop Joseph William Tobin of Indianapolis on his recent elevation to cardinal by Pope Francis and for his extraordinary service to Indiana. As a leader in our State, Cardinal Tobin has demonstrated his lifelong, faith-filled commitment to serving others and giving a voice to the voiceless.

Born in Detroit, MI, Cardinal Tobin is the eldest of Joseph W. Tobin and Marie Terese Kerwin's 13 children. From an early age, it was apparent to his family that he was intellectually and spiritually gifted and wanted to use those talents by becoming a priest. Cardinal Tobin's family instilled in him the importance of faith and family, and he pursued the priesthood with purpose and determination. He received a bachelor of arts in philosophy from Holy Redeemer College in Waterford, WI, and a masters in religious education, as well as a masters in divinity from Mount Saint Alphonsus Seminary in Esopus, NY.

Cardinal Tobin professed first vows as a Redemptorist missionary on August 5, 1973, and he was ordained to the priesthood on June 1, 1978. Over the next 12 years, Cardinal Tobin served communities in the Midwest, including in his hometown of Detroit and in Chicago. He then was elected general consultor to the Superior General of the Redemptorists and moved to Rome, Italy. During his 21 years in Italy, he

was recognized for his efforts to promote dialogue and resolve tensions between the Vatican and U.S. nuns. He was elected and reelected as superior general and later named archbishop by Pope Benedict XVI, as well as secretary of the Congregation for Institutes of Consecrated Life and Societies of Apostolic Life on August 2, 2010. Soon thereafter, he was ordained to the episcopacy on October 9, 2010, and approximately 2 years later, he was named Metropolitan Archbishop of Indianapolis.

For 4 years, the Indianapolis archdiocese benefitted greatly from Cardinal Tobin's leadership. His commitment to serving those in the greatest need and his tireless dedication to sharing the teachings of the Catholic Church with the people of central and southern Indiana have benefitted countless Hoosiers.

Pope Francis announced Archbishop Tobin's selection as cardinal on October 9, 2016, from the steps of St. Peter's Basilica in the Vatican. Less than a month later, the Pope selected him to lead the archdiocese of Newark, NJ, which serves 1.5 million Catholics and is among the 10 largest dioceses in the country.

Outside of the church, Cardinal Tobin has dedicated himself to various organizations including the Canon Law Society of America and the North American Orthodox-Catholic Theological Consultation. He also is a member of United States Conference of Catholic Bishops, USCCB, subcommittee on the Church in Africa and a consultant to the committee on ecumenical and interreligious affairs.

On behalf of Hoosiers, I congratulate Cardinal Tobin and thank him for blessing us with his leadership. Let us honor Cardinal Tobin for his selfless commitment to serving his fellow citizens of the world and steadfast efforts to make Indiana and the world a better place.

#### TRIBUTE TO LIEUTENANT COLONEL WADE E. WIEGEL

Mr. GRASSLEY. Mr. President, I would like to take a moment to recognize Lt. Col. Wade E. Wiegel for his 22 years of service in the U.S. Marine Corps. Wade is a native of Iowa, and I am proud to say that I nominated him for the U.S. Naval Academy in 1990. In May 1994, he earned a bachelor of science degree in mechanical engineering and reported to the Marine Corps' The Basic School. From there he completed flight training and was designated a naval aviator in March 1997. He deployed aboard the USS *Enterprise* in support of Operation Iraqi Freedom and Operation Enduring Freedom.

Wade later served as the commanding officer for the VMFA-122 "Crusaders" and forward deployed the squadron for 6 months into the Pacific Theater in

support of theater security cooperation activities with Japan, South Korea, and the Philippines. After graduating from the National War College, he served as a military adviser in the Office of the Under Secretary of Defense for Policy. Most recently, Wade has served in the Office of Legislative Affairs as a congressional affairs officer. His personal decorations include the Defense Meritorious Service Medal, Meritorious Service Medal with Gold Star, the Navy and Marine Corps Commendation Medal, and the Navy and Marine Corps Achievement Medal with Gold Star.

As he prepares to retire from the Marine Corps, I would like to take this opportunity to thank him for his service to our country and to wish him well in his future endeavors.

#### REMEMBERING JIM LYONS

Mr. GRASSLEY. Mr. President, I would like to pay tribute to Jim Lyons.

Jim was a tax counsel for Chairman HATCH on the Finance Committee. Before that, he served as a tax counsel for the committee when I was ranking member.

Jim had a medical emergency during a basketball game for charity which, unfortunately for us all, he did not survive.

Those who knew Jim would not be surprised that he was spending an evening at an event to help others.

He was well known for his generosity, whether it was donating holiday gifts for children in foster care or sharing his extensive knowledge of the Tax Code with younger staff who were learning the ropes.

He was incredibly smart and had a zest for his work and for life that was joyous and inspiring to all of those around him.

He loved to laugh and had a gift for making others laugh. Jim's quick wit is legendary, and he drew others to his company to hear what funny story or observation he might share next.

Devising clever floor charts that made an insightful point about tax policy was a Jim Lyons specialty. He was extremely gifted in using humor to draw attention to a serious policy concern or to point out a political absurdity.

It is a rare skill and one that Jim used to great effect. People liked to hear what he had to say. The tragedy of his loss in the prime of his life is immeasurable. Those of us who knew him take comfort in learning from his example. We can do serious work without taking ourselves too seriously. In fact, we might be much more successful by finding room to share a laugh with others. I wish Jim eternal peace and send my best wishes to his loving family.

## ADDITIONAL STATEMENTS

## TRIBUTE TO VINCENT VESPIA, JR.

• Mr. WHITEHOUSE. Mr. President, South Kingstown Police Chief Vincent Vespia, Jr., has dedicated his career to protecting and serving the people of Rhode Island. He retired this month after nearly 60 years of exceptional service.

The State's longest serving police chief began his career in 1959 as a trooper with the Rhode Island State police. Chief Vespia would eventually go on to become a State police organized crime investigator. His work helped bring down New England's top organized crime family. There are many stories about Vin Vespia. One of the most famous was when he crashed through a second floor window of a Federal Hill crap game from a bucket of a cherry picker, brandishing a machine gun at the surprised dice players. As Pulitzer Prize winning author Mike Stanton wrote in his book "The Prince of Providence," "Vespia was a kick-ass cop who had grown up on the Hill, playing in the street with some of the wise guys he now pursued." As a young trooper, Vespia had busted a former playmate with a truckload of stolen furs. "How can you arrest me?" the man asked. "We played kick the can together." Replied Vespia: "You went one way, I went another."

After retiring from the State police, Vin was appointed chief of the South Kingstown Police Department in 1981. He would spend the next 35 years of his career building an effective, professional force with strong ties to the community. He created new leadership programs within the department's detective bureau and oversaw the construction of an innovative public safety facility with state-of-the-art information technology.

Chief Vespia will be remembered for his leadership and fairness. Those he led describe him as dedicated, rational, and respectable. He has been called "probably the most admired law enforcement officer in Rhode Island." I was honored to have worked with him when I was attorney general and am proud to call him my friend. Chief Vespia's 57 years of commitment and service to the people of Rhode Island represent the very best in law enforcement.

I commend him and his family for the sacrifices they have made. On behalf of those he has served throughout the years, I offer my thanks. I wish Vin and Judith-Ann, his wife of 40 years, a happy retirement and the best of luck in all future endeavors.●

MESSAGE FROM THE HOUSE  
RECEIVED DURING ADJOURNMENT

## ENROLLED BILLS SIGNED

Under the authority of the order of the Senate of January 6, 2015, the Sec-

retary of the Senate, on December 2, 2016, during the adjournment of the Senate, received a message from the House of Representatives announcing that the Speaker had signed the following enrolled bills:

S. 1808. An act to require the Secretary of Homeland Security to conduct a Northern Border threat analysis, and for other purposes.

S. 1915. An act to direct the Secretary of Homeland Security to make anthrax vaccines available to emergency response providers, and for other purposes.

H.R. 3471. An act to amend title 38, United States Code, to make certain improvements in the provision of automobiles and adaptive equipment by the Department of Veterans Affairs.

H.R. 5111. An act to prohibit the use of certain clauses in form contracts that restrict the ability of a consumer to communicate regarding the goods or services offered in interstate commerce that were the subject of the contract, and for other purposes.

H.R. 6297. An act to reauthorize the Iran Sanctions Act of 1996.

Under the authority of the order of the Senate of January 6, 2015, the enrolled bills were signed on December 2, 2016, during the adjournment of the Senate, by the President pro tempore (Mr. HATCH).

## MESSAGES FROM THE HOUSE

## ENROLLED BILLS SIGNED

At 3:06 p.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

S. 1550. An act to amend title 31, United States Code, to establish entities tasked with improving program and project management in certain Federal agencies, and for other purposes.

H.R. 5509. An act to name the Department of Veterans Affairs temporary lodging facility in Indianapolis, Indiana, as the "Dr. Otis Bowen Veteran House".

H.R. 5995. An act to strike the sunset on certain provisions relating to the authorized protest of a task or delivery order under section 4106 of title 41, United States Code.

The enrolled bills were subsequently signed by the President pro tempore (Mr. HATCH).

At 3:07 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 6392. An act to amend the Dodd-Frank Wall Street Reform and Consumer Protection Act to specify when bank holding companies may be subject to certain enhanced supervision, and for other purposes.

The message further announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the House of Representatives to the bill (S. 2943) to authorize appropriations for fiscal year 2017 for military activities of the De-

partment of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.

The message also announced that the House agrees to the amendments of the Senate to the resolution (H.Con.Res. 122) supporting efforts to stop the theft, illegal possession or sale, transfer, and export of tribal cultural items of American Indians, Alaska Natives, and Native Hawaiians in the United States and internationally.

## ENROLLED BILLS PRESENTED

The Secretary of the Senate reported that on December 2, 2016, she had presented to the President of the United States the following enrolled bills:

S. 1808. An act to require the Secretary of Homeland Security to conduct a Northern Border threat analysis, and for other purposes.

S. 1915. An act to direct the Secretary of Homeland Security to make anthrax vaccines available to emergency response providers, and for other purposes.

The Secretary of the Senate reported that on today, December 5, 2016, she had presented to the President of the United States the following enrolled bill:

S. 1550. An act to amend title 31, United States Code, to establish entities tasked with improving program and project management in certain Federal agencies, and for other purposes.

## REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. THUNE, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 3346. A bill to authorize the programs of the National Aeronautics and Space Administration, and for other purposes (Rept. No. 114-390).

By Mr. THUNE, from the Committee on Commerce, Science, and Transportation:

Report to accompany S. 3183. A bill to prohibit the circumvention of control measures used by Internet ticket sellers to ensure equitable consumer access to tickets for any given event, and for other purposes (Rept. No. 114-391).

By Mr. THUNE, from the Committee on Commerce, Science, and Transportation, with an amendment in the nature of a substitute:

S. 1403. A bill to amend the Magnuson-Stevens Fishery Conservation and Management Act to promote sustainable conservation and management for the Gulf of Mexico and South Atlantic fisheries and the communities that rely on them, and for other purposes.

INTRODUCTION OF BILLS AND  
JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. FLAKE (for himself and Ms. HEITKAMP):

S. 3494. A bill to provide U.S. Customs and Border Protection with adequate flexibility in its employment authorities; to the Committee on Homeland Security and Governmental Affairs.

By Mr. DAINES (for himself and Mr. TESTER):

S. 3495. A bill to amend the Food, Agriculture, Conservation, and Trade Act of 1990 to designate certain research and extension grants to increase participation by women and underrepresented minorities in the fields of science, technology, engineering, and mathematics as "Jeannette Rankin Women and Minorities in STEM Fields Grants"; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. CORNYN (for himself and Mr. CASEY):

S. 3496. A bill to amend the Internal Revenue Code of 1986 to allow members of the Ready Reserve of a reserve component of the Armed Forces to make elective deferrals on the basis of their service to the Ready Reserve and on the basis of their other employment; to the Committee on Finance.

By Mr. COTTON (for himself, Mr. WICKER, Mr. BOOZMAN, Mr. COCHRAN, and Mr. SHELBY):

S. 3497. A bill to provide the force and effect of law for certain regulations relating to the taking of double-crested cormorants to reduce depredation at aquaculture facilities and protect public resources; to the Committee on Environment and Public Works.

By Mrs. BOXER:

S. 3498. A bill to ensure that the Secretary of the Army obtains consent from certain entities before granting certain permits, easements, or rights-of-way; to the Committee on Environment and Public Works.

By Mr. LEE (for himself, Mr. LEAHY, Mr. HOEVEN, and Mr. CRUZ):

S. 3499. A bill to establish the Daniel Webster Congressional Clerkship Program; to the Committee on Rules and Administration.

By Mr. WICKER (for himself and Mr. COCHRAN):

S. 3500. A bill to require the appropriate Federal banking agencies to treat certain non-significant investments in the capital of unconsolidated financial institutions as qualifying capital instruments, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. BLUMENTHAL (for himself and Mr. BOOKER):

S. 3501. A bill to require the Federal Communications Commission to submit to Congress a report on promoting broadband Internet access service for veterans; to the Committee on Commerce, Science, and Transportation.

By Mr. DAINES (for himself and Mr. BOOKER):

S. 3502. A bill to require the Federal Aviation Administration to establish annual performance objectives and to hold the Chief NextGen Officer accountable for meeting such objectives; to the Committee on Commerce, Science, and Transportation.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. COONS (for himself and Mr. GRAHAM):

S. Res. 629. A resolution recognizing the 225th anniversary of Alexander Hamilton's

seminal Report on the Subject of Manufactures; to the Committee on Commerce, Science, and Transportation.

By Mr. CORNYN (for himself, Mr. GRASSLEY, Mr. HATCH, Mr. LEE, Mr. SCOTT, and Mr. CRUZ):

S. Res. 630. A resolution recognizing the historical importance of Associate Justice Clarence Thomas; to the Committee on the Judiciary.

## ADDITIONAL COSPONSORS

S. 298

At the request of Mr. GRASSLEY, the name of the Senator from North Dakota (Ms. HEITKAMP) was added as a cosponsor of S. 298, a bill to amend titles XIX and XXI of the Social Security Act to provide States with the option of providing services to children with medically complex conditions under the Medicaid program and Children's Health Insurance Program through a care coordination program focused on improving health outcomes for children with medically complex conditions and lowering costs, and for other purposes.

S. 313

At the request of Mr. GRASSLEY, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of S. 313, a bill to amend title XVIII of the Social Security Act to add physical therapists to the list of providers allowed to utilize locum tenens arrangements under Medicare.

S. 626

At the request of Mr. GRASSLEY, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of S. 626, a bill to amend title XIX of the Social Security Act to cover physician services delivered by podiatric physicians to ensure access by Medicaid beneficiaries to appropriate quality foot and ankle care, to amend title XVIII of such Act to modify the requirements for diabetic shoes to be included under Medicare, and for other purposes.

S. 1169

At the request of Mr. GRASSLEY, the name of the Senator from North Carolina (Mr. TILLIS) was added as a cosponsor of S. 1169, a bill to reauthorize and improve the Juvenile Justice and Delinquency Prevention Act of 1974, and for other purposes.

S. 2216

At the request of Ms. COLLINS, the name of the Senator from North Dakota (Mr. HOEVEN) was added as a cosponsor of S. 2216, a bill to provide immunity from suit for certain individuals who disclose potential examples of financial exploitation of senior citizens, and for other purposes.

S. 2268

At the request of Mr. CORNYN, the name of the Senator from Wisconsin (Ms. BALDWIN) was added as a cosponsor of S. 2268, a bill to award a Congressional Gold Medal to the United States

Army Dust Off crews of the Vietnam War, collectively, in recognition of their extraordinary heroism and lifesaving actions in Vietnam.

S. 2800

At the request of Mr. COONS, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of S. 2800, a bill to amend the Internal Revenue Code of 1986 and the Higher Education Act of 1965 to provide an exclusion from income for student loan forgiveness for students who have died or become disabled.

S. 2817

At the request of Mr. PETERS, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 2817, a bill to improve understanding and forecasting of space weather events, and for other purposes.

S. 2957

At the request of Mr. NELSON, the name of the Senator from Arkansas (Mr. COTTON) was added as a cosponsor of S. 2957, a bill to require the Secretary of the Treasury to mint commemorative coins in recognition of the 50th anniversary of the first manned landing on the Moon.

S. 2989

At the request of Ms. MURKOWSKI, the name of the Senator from Missouri (Mr. BLUNT) was added as a cosponsor of S. 2989, a bill to award a Congressional Gold Medal, collectively, to the United States merchant mariners of World War II, in recognition of their dedicated and vital service during World War II.

S. 3198

At the request of Mr. HATCH, the name of the Senator from South Dakota (Mr. ROUNDS) was added as a cosponsor of S. 3198, a bill to amend title 38, United States Code, to improve the provision of adult day health care services for veterans.

S. 3328

At the request of Mr. KAINE, his name was added as a cosponsor of S. 3328, a bill to amend title 38, United States Code, to reform the rights and processes relating to appeals of decisions regarding claims for benefits under the laws administered by the Secretary of Veterans Affairs, and for other purposes.

S. 3405

At the request of Mr. DAINES, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 3405, a bill to transfer certain items from the United States Munitions List to the Commerce Control List.

S. 3435

At the request of Mr. ROBERTS, the name of the Senator from West Virginia (Mrs. CAPITO) was added as a cosponsor of S. 3435, a bill to amend title XVIII of the Social Security Act to protect and preserve access of Medicare beneficiaries in rural areas to health

care providers under the Medicare program, and for other purposes.

S. 3478

At the request of Mr. RUBIO, the name of the Senator from Arkansas (Mr. BOOZMAN) was added as a cosponsor of S. 3478, a bill to require continued and enhanced annual reporting to Congress in the Annual Report on International Religious Freedom on anti-Semitic incidents in Europe, the safety and security of European Jewish communities, and the efforts of the United States to partner with European governments, the European Union, and civil society groups, to combat anti-Semitism, and for other purposes.

S. RES. 616

At the request of Mrs. SHAHEEN, the name of the Senator from South Dakota (Mr. ROUNDS) was added as a cosponsor of S. Res. 616, a resolution supporting the goals and ideals of American Diabetes Month.

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CORNYN (for himself and Mr. CASEY):

S. 3496. A bill to amend the Internal Revenue Code of 1986 to allow members of the Ready Reserve of a reserve component of the Armed Forces to make elective deferrals on the basis of their service to the Ready Reserve and on the basis of their other employment; to the Committee on Finance.

Mr. CORNYN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3496

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Service-member Retirement Improvement Act”.

#### SEC. 2. ELECTIVE DEFERRALS BY MEMBERS OF THE READY RESERVE OF A RESERVE COMPONENT OF THE ARMED FORCES.

(a) IN GENERAL.—Section 402(g) of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

“(9) ELECTIVE DEFERRALS BY MEMBERS OF READY RESERVE.—

“(A) IN GENERAL.—In the case of a qualified ready reservist (other than a specified Federal employee ready reservist) for any taxable year, the limitations of subparagraphs (A) and (C) of paragraph (1) shall be applied separately with respect to—

“(i) elective deferrals of such qualified ready reservist with respect to the Thrift Savings Fund (as defined in section 7701(j)), and

“(ii) any other elective deferrals of such qualified ready reservist.

“(B) SPECIAL RULE FOR FEDERAL EMPLOYEES IN THE READY RESERVE NOT ELIGIBLE TO MAKE ELECTIVE DEFERRALS TO A PLAN OTHER THAN

THE THRIFT SAVINGS PLAN.—In the case of a specified Federal employee ready reservist for any taxable year—

“(i) the applicable dollar amount in effect under paragraph (1)(B) for such taxable year shall be twice such amount (as determined without regard to this subclause), and

“(ii) for purposes of paragraph (1)(C), the applicable dollar amount under section 414(v)(2)(B)(i) (as otherwise determined for purposes of paragraph (1)(C)) shall be twice such amount (as determined without regard to this subclause).

“(C) DEFINITIONS.—For purposes of this paragraph—

“(i) QUALIFIED READY RESERVIST.—The term ‘qualified ready reservist’ means any individual for any taxable year if such individual received compensation for service as a member of the Ready Reserve of a reserve component (as defined in section 101 of title 37, United States Code) during such taxable year.

“(ii) SPECIFIED FEDERAL EMPLOYEE READY RESERVIST.—The term ‘specified Federal employee ready reservist’ means any individual for any taxable year if such individual—

“(I) is a qualified ready reservist for such taxable year,

“(II) would be eligible to make elective deferrals with respect to the Thrift Savings Fund (as defined in section 7701(j)) during such taxable year determined without regard to the service of such individual described in clause (i), and

“(III) is not eligible to make elective deferrals with respect to any plan other than such Thrift Savings Fund during such taxable year.”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

By Mr. DAINES (for himself and Mr. BOOKER):

S. 3502. A bill to require the Federal Aviation Administration to establish annual performance objectives and to hold the Chief NextGen Officer accountable for meeting such objectives; to the Committee on Commerce, Science, and Transportation.

Mr. DAINES. Mr. President, in 2003, Congress mandated the Next Generation Air Transportation System known as NextGen, transitioning our radar-based system with radio communication to a satellite-based one, to increase safety and efficiency. NextGen deployment has been bogged with delays and cost overruns, highlighted by Government Accountability Office reports. Final implementation is to be completed by 2025. This legislation would simply create measurable annual performance goals and hold federal officials accountable to meeting these goals through the remainder of implementation.

I want to thank Senator BOOKER for being original cosponsors of this bill and I ask my other Senate colleagues to join us in support of this legislation.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3502

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “NextGen Accountability Act”.

#### SEC. 2. NEXTGEN ANNUAL PERFORMANCE GOALS.

Section 214 of the FAA Modernization and Reform Act of 2012 (Public Law 112-95; 49 U.S.C. 40101 note) is amended—

(1) by redesignating subsection (d) as subsection (e); and

(2) by inserting after subsection (c) the following:

“(d) ANNUAL PERFORMANCE GOALS.—The Administrator shall establish annual NextGen performance goals for each of the performance metrics set forth in subsection (a) to meet the performance metric baselines identified under subsection (b). Such goals shall be established in consultation with public and private NextGen stakeholders, including the NextGen Advisory Committee.”.

#### SEC. 3. NEXTGEN METRICS REPORT.

Section 710(e)(2) of the Vision 100—Century of Aviation Reauthorization Act (Public Law 108-176; 49 U.S.C. 40101 note) is amended—

(1) in subparagraph (D), by striking “and” at the end;

(2) in subparagraph (E), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(F) a description of the progress made in meeting the annual NextGen performance goals relative to the performance metrics established under section 214 of the FAA Modernization and Reform Act of 2012 (Public Law 112-95; 49 U.S.C. 40101 note).”.

#### SEC. 4. CHIEF NEXTGEN OFFICER.

Section 106(s) of title 49, United States Code, is amended—

(1) in paragraph (2)(B), by adding at the end the following: “In evaluating the performance of the Chief NextGen Officer for the purpose of awarding a bonus under this subparagraph, the Administrator shall consider the progress toward meeting the NextGen performance goals established pursuant to section 214(d) of the FAA Modernization and Reform Act of 2012 (Public Law 112-95; 49 U.S.C. 40101 note);” and

(2) in paragraph (3), by adding at the end the following: “The annual performance goals set forth in the agreement shall include quantifiable NextGen airspace performance objectives regarding efficiency, productivity, capacity, and safety, which shall be established in consultation with public and private NextGen stakeholders, including the NextGen Advisory Committee.”.

#### SUBMITTED RESOLUTIONS

#### SENATE RESOLUTION 629—RECOGNIZING THE 225TH ANNIVERSARY OF ALEXANDER HAMILTON’S SEMINAL REPORT ON THE SUBJECT OF MANUFACTURES

Mr. COONS (for himself and Mr. GRAHAM) submitted the following resolution; which was referred to the Committee on Commerce, Science, and Transportation:

S. RES. 629

Whereas December 5, 2016, is the 225th anniversary of Alexander Hamilton’s landmark Report on the Subject of Manufactures (referred to in this preamble as the “Hamilton

report”), which he delivered on December 5, 1791;

Whereas the groundbreaking Hamilton report stressed the importance of a diversified national economy in which manufacturing, alongside agriculture, contributes significantly to economic health;

Whereas Alexander Hamilton promoted a modern economic vision years ahead of his time based on investment, industry, internal improvements, and expanded commerce;

Whereas the Hamilton report had its roots in President George Washington’s first annual message to Congress on January 8, 1790, when he argued that the people of the United States should promote manufacturing to make the United States independent of other nations for essential supplies, particularly military supplies;

Whereas the House of Representatives then requested the Secretary of the Treasury prepare a report describing plans to encourage “manufactories” that would promote that independence;

Whereas the Hamilton report recognized that the Federal Government could take steps to encourage innovation in the manufacturing sector, and recommended government promotion of manufacturing through incentives to encourage risk taking and innovation, as well as reasonable and flexible tariffs to counter Great Britain’s mercantilist system;

Whereas Alexander Hamilton was one of the Founding Fathers, a delegate to the Constitutional Convention, a major author of the Federalist papers, a signatory to the Constitution of the United States, the first Secretary of the Treasury, and the founder of the First Bank of the United States and the Coast Guard;

Whereas Alexander Hamilton founded the Society for the Establishment of Useful Manufactures in Paterson, New Jersey, which became an important center for manufacturing production and innovation;

Whereas Alexander Hamilton used his influence to define the role of the Federal Government in promoting a sound financial foundation for the young nation;

Whereas manufacturing is critical to the United States economy, and contributes approximately \$2,170,000,000,000 to the United States economy annually;

Whereas manufacturing makes an outsized contribution to the United States economy in terms of total output and employment, and supports more than 17,000,000 indirect jobs in the United States and approximately 12,000,000 individuals directly employed in manufacturing, more than ⅓ (21.3 percent) of total employment in the United States in 2013;

Whereas manufacturing represents more than 11 percent of the United States economy, and accounts for approximately 70 percent of industry-funded research and development;

Whereas manufacturing is entering a dynamic new phase, with new market opportunities in the developing world, game-changing innovations in materials and processes (including composites and nanomaterials, 3-D printing, and advanced robotics), and increased competition across the world;

Whereas manufacturing makes substantial contributions in the United States economy to research and development, exports, and productivity growth;

Whereas the number of manufacturing jobs coming into the United States, through reshoring and foreign direct investment, is now equal to or slightly higher than the number of jobs leaving the United States,

which contributes to the manufacturing rebound;

Whereas manufacturing firms have a critical role in innovation, engaging new technologies that improve processes, support product innovation, and create well-paying jobs; and

Whereas the brand “Made in the USA” carries tremendous weight and appeal across the world; Now, therefore, be it

*Resolved*, That the Senate—

(1) recognizes the 225th anniversary of Alexander Hamilton’s seminal Report on the Subject of Manufactures;

(2) recognizes the vision of Alexander Hamilton to make a case for a strong and diversified economy, which has withstood the test of time;

(3) expresses admiration and appreciation for the variety of ways in which Alexander Hamilton contributed to the success of the young United States;

(4) acknowledges the importance of the manufacturing industry’s contributions to the United States in promoting innovation, job creation, and opportunity for the middle class; and

(5) supports efforts to grow and sustain United States manufacturing industries by creating a healthy business climate and establishing the level playing field vital to United States manufacturing success.

#### SENATE RESOLUTION 630—RECOGNIZING THE HISTORICAL IMPORTANCE OF ASSOCIATE JUSTICE CLARENCE THOMAS

Mr. CORNYN (for himself, Mr. GRASSLEY, Mr. HATCH, Mr. LEE, Mr. SCOTT, and Mr. CRUZ) submitted the following resolution; which was referred to the Committee on the Judiciary:

##### S. RES. 630

Whereas, in 1948, Clarence Thomas was born outside of Savannah, Georgia, in the small community of Pin Point, Georgia;

Whereas Clarence Thomas was born into poverty and under segregation;

Whereas, notwithstanding his humble beginnings and the many impediments he faced, Clarence Thomas demonstrated incredible intellect, discipline, and strength in attending and graduating from St. Benedict the Moor Catholic School, St. John Vianney Minor Seminar, the College of the Holy Cross, and Yale Law School;

Whereas Clarence Thomas had a distinguished legal career with service in State government and all branches of the Federal Government, including the Senate, the Department of Education, the Equal Employment Opportunity Commission, and the United States Court of Appeals for the District of Columbia Circuit;

Whereas, on July 1, 1991, President George Herbert Walker Bush nominated Clarence Thomas to be an Associate Justice of the Supreme Court of the United States (in this preamble referred to as the “Supreme Court”);

Whereas Justice Thomas is the second African American to serve on the Supreme Court;

Whereas, during his quarter century on the Supreme Court, Justice Thomas has made a unique and indelible contribution to the jurisprudence of the United States;

Whereas Justice Thomas has propounded a jurisprudence that seeks to faithfully apply the original meaning of the text of the Constitution of the United States;

Whereas Justice Thomas has brought renewed focus to constitutional doctrines that the Framers intended to undergird our republican form of government, including federalism and the separation of powers;

Whereas, in fostering this philosophy of law, Justice Thomas reinvigorated not only the jurisprudence of the United States, but also the democracy of the United States;

Whereas Justice Thomas has been a remarkably prolific Associate Justice, writing influential opinions on topics including constitutional law, administrative law, and civil rights;

Whereas, on August 10, 1846, in the name of founding an establishment for the increase and diffusion of knowledge, Congress established the Smithsonian Institution as a trust to be administered by a Board of Regents and a Secretary of the Smithsonian Institution;

Whereas diversity, including intellectual diversity, is a core value of the Smithsonian Institution and the museums of the Smithsonian Institution should capitalize on the richness inherent in differences;

Whereas, upon opening, the National Museum of African American History and Culture (in this preamble referred to as the “Museum”) is the only national museum devoted exclusively to the documentation of African American life, history, and culture;

Whereas the Museum omits the contribution made by Justice Thomas to the United States; and

Whereas the Senate is hopeful that the Museum will reflect that important contribution: Now, therefore, be it

*Resolved*, That it is the sense of the Senate that—

(1) Associate Justice Clarence Thomas is a historically significant African American who has—

(A) overcome great challenges;

(B) served his country honorably for more than 35 years; and

(C) made an important contribution to the United States, in particular the jurisprudence of the United States; and

(2) the life and work of Justice Thomas are an important part of the story of African Americans in the United States and should have a prominent place in the National Museum of African American History and Culture.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 5127. Mr. MCCONNELL (for Mr. SHELBY (for himself and Mr. BROWN)) proposed an amendment to the bill H.R. 5602, to amend title 31, United States Code, to authorize the Secretary of the Treasury to include all funds when issuing certain geographic targeting orders, and for other purposes.

SA 5128. Mr. MCCONNELL (for Mrs. ERNST) proposed an amendment to the bill S. 3336, to provide installation reutilization authority for arsenals, depots, and plants.

SA 5129. Mr. MCCONNELL (for Mrs. ERNST) proposed an amendment to the bill S. 3336, supra.

SA 5130. Mr. MANCHIN (for himself and Mr. BROWN) submitted an amendment intended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table.

SA 5131. Ms. WARREN (for herself and Mr. MERKLEY) submitted an amendment intended to be proposed by her to the bill H.R.

34, supra; which was ordered to lie on the table.

SA 5132. Ms. WARREN submitted an amendment intended to be proposed by her to the bill H.R. 34, supra; which was ordered to lie on the table.

SA 5133. Mr. FLAKE submitted an amendment intended to be proposed by him to the bill H.R. 34, supra; which was ordered to lie on the table.

SA 5134. Mr. MERKLEY (for himself and Ms. WARREN) submitted an amendment intended to be proposed by him to the bill H.R. 34, supra; which was ordered to lie on the table.

SA 5135. Mr. MERKLEY submitted an amendment intended to be proposed by him to the bill H.R. 34, supra; which was ordered to lie on the table.

SA 5136. Mr. LEAHY (for himself, Mr. GRASSLEY, Ms. KLOBUCHAR, and Mr. LEE) submitted an amendment intended to be proposed by him to the bill H.R. 34, supra; which was ordered to lie on the table.

SA 5137. Mr. MCCONNELL (for himself and Mr. REID) proposed an amendment to the concurrent resolution H. Con. Res. 174, directing the Clerk of the House of Representatives to make a correction in the enrollment of H.R. 34.

## TEXT OF AMENDMENTS

**SA 5127.** Mr. MCCONNELL (for Mr. SHELBY (for himself and Mr. BROWN)) proposed an amendment to the bill H.R. 5602, to amend title 31, United States Code, to authorize the Secretary of the Treasury to include all funds when issuing certain geographic targeting orders, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

### **TITLE I—ENHANCING ANTITERRORISM TOOLS OF THE DEPARTMENT OF THE TREASURY**

#### **SEC. 101. INCLUSION OF ALL FUNDS.**

(a) IN GENERAL.—Section 5326 of title 31, United States Code, is amended—

(1) in the heading of such section, by striking “coin and currency”;

(2) in subsection (a)—

(A) by striking “subtitle and” and inserting “subtitle or to”; and

(B) in paragraph (1)(A), by striking “United States coins or currency (or such other monetary instruments as the Secretary may describe in such order)” and inserting “funds (as the Secretary may describe in such order).”; and

(3) in subsection (b)—

(A) in paragraph (1)(A), by striking “coins or currency (or monetary instruments)” and inserting “funds”; and

(B) in paragraph (2), by striking “coins or currency (or such other monetary instruments as the Secretary may describe in the regulation or order)” and inserting “funds (as the Secretary may describe in the regulation or order).”.

(b) CLERICAL AMENDMENT.—The table of contents for chapter 53 of title 31, United States Code, is amended in the item relating to section 5326 by striking “coin and currency”.

#### **SEC. 102. IMPROVING ANTITERROR FINANCE MONITORING OF FUNDS TRANSFERS.**

(a) STUDY.—

(1) IN GENERAL.—To improve the ability of the Department of the Treasury to better

track cross-border fund transfers and identify potential financing of terrorist or other forms of illicit finance, the Secretary shall carry out a study to assess—

(A) the potential efficacy of requiring banking regulators to establish a pilot program to provide technical assistance to depository institutions and credit unions that wish to provide account services to money services businesses serving individuals in Somalia;

(B) whether such a pilot program could be a model for improving the ability of United States persons to make legitimate funds transfers through transparent and easily monitored channels while preserving strict compliance with the Bank Secrecy Act (Public Law 91–508; 84 Stat. 1114) and related controls aimed at stopping money laundering and the financing of terrorism; and

(C) consistent with current legal requirements regarding confidential supervisory information, the potential impact of allowing money services businesses to share certain State examination information with depository institutions and credit unions, or whether another appropriate mechanism could be identified to allow a similar exchange of information to give the depository institutions and credit unions a better understanding of whether an individual money services business is adequately meeting its anti-money laundering and counter-terror financing obligations to combat money laundering, the financing of terror, or related illicit finance.

(2) PUBLIC INPUT.—The Secretary should solicit and consider public input as appropriate in developing this study.

(b) REPORT.—Not later than 270 days after the date of the enactment of this Act, the Secretary shall submit to the Committee on Financial Services and the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate a report that contains all findings and determinations made in carrying out the study required under subsection (a).

#### **SEC. 103. SENSE OF CONGRESS ON INTERNATIONAL COOPERATION REGARDING TERRORIST FINANCING INTELLIGENCE.**

It is the sense of the Congress that the Secretary, acting through the Under Secretary for Terrorism and Financial Crimes, should intensify work with foreign partners to help the foreign partners develop intelligence analytic capacities, in a finance ministry or other appropriate agency, that are—

(1) commensurate to the threats faced by the foreign partner; and

(2) designed to better integrate intelligence efforts with the anti-money laundering and counter-terrorist financing regimes of the foreign partner.

#### **SEC. 104. EXAMINING THE COUNTER-TERROR FINANCING ROLE OF THE DEPARTMENT OF THE TREASURY IN EMBASSIES.**

Not later than 180 days after the enactment of this Act, the Secretary shall submit to the Committee on Financial Services and the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate a report that contains—

(1) a list of the United States embassies in which a full-time Department of the Treasury financial attaché is stationed and a description of how the interests of the Department of the Treasury relating to terrorist financing and money laundering are addressed

(via regional attachés or otherwise) at US embassies where no such attachés are present;

(2) a list of the United States embassies at which the Department of the Treasury has assigned a technical assistance advisor from the Office of Technical Assistance of the Department of the Treasury;

(3) an overview of how Department of the Treasury financial attachés and technical assistance advisors assist in efforts to counter illicit finance, to include money laundering, terrorist financing, and proliferation financing; and

(4) an overview of patterns, trends, or other issues identified by Department of the Treasury attachés and whether resources are sufficient to address these issues.

### **TITLE II—NATIONAL STRATEGY FOR COMBATING TERRORIST AND OTHER ILLICIT FINANCING**

#### **SEC. 201. DEVELOPMENT OF NATIONAL STRATEGY.**

(a) IN GENERAL.—The President, acting through the Secretary shall, in consultation with the Attorney General, the Secretary of State, the Secretary of Homeland Security, the Director of National Intelligence, and the appropriate Federal banking agencies, develop a national strategy for combating the financing of terrorism and related forms of illicit finance.

(b) TRANSMITTAL TO CONGRESS.—

(1) IN GENERAL.—Not later than January 31, 2018, the President shall submit to the appropriate congressional committees a comprehensive national strategy developed in accordance with subsection (a).

(2) UPDATES.—Not later than January 31, 2020, and January 31, 2022, the President shall submit to the appropriate congressional committees updated versions of the national strategy submitted under paragraph (1).

(c) SEPARATE PRESENTATION OF CLASSIFIED MATERIAL.—Any part of the national strategy that involves information that is properly classified under criteria established by the President shall be submitted to the Congress separately in a classified annex and, if requested by the chairman or ranking Member of one of the appropriate congressional committees, as a briefing at an appropriate level of security.

#### **SEC. 202. CONTENTS.**

(a) IN GENERAL.—The strategy described in section 201 shall contain the following:

(1) EVALUATION OF EXISTING EFFORTS.—An assessment of the effectiveness of and ways in which the United States is currently addressing the highest levels of risk of various forms of illicit finance, including those identified in the documents entitled “2015 National Money Laundering Risk Assessment” and “2015 National Terrorist Financing Risk Assessment”, published by the Department of the Treasury and a description of how the strategy is integrated into, and supports, the broader counter terrorism strategy of the United States.

(2) GOALS, OBJECTIVES, AND PRIORITIES.—A comprehensive, research-based, long-range, quantifiable discussion of goals, objectives, and priorities for disrupting and preventing illicit finance activities within and transiting the financial system of the United States that outlines priorities to reduce the incidence, dollar value, and effects of illicit finance.

(3) THREATS.—An identification of the most significant illicit finance threats to the financial system of the United States.

(4) REVIEWS AND PROPOSED CHANGES.—Reviews of enforcement efforts, relevant regulations and relevant provisions of law and, if

appropriate, discussions of proposed changes determined to be appropriate to ensure that the United States pursues coordinated and effective efforts at all levels of government, and with international partners of the United States, in the fight against illicit finance.

(5) **DETECTION AND PROSECUTION INITIATIVES.**—A description of efforts to improve detection and prosecution of illicit finance, including efforts to ensure that—

(A) subject to legal restrictions, all appropriate data collected by the Federal Government that is relevant to the efforts described in this section be available in a timely fashion to—

(i) all appropriate Federal departments and agencies; and

(ii) as appropriate and consistent with section 314 of the International Money Laundering Abatement and Financial Anti-Terrorism Act of 2001 (31 U.S.C. 5311 note), to financial institutions to assist the financial institutions in efforts to comply with laws aimed at curbing illicit finance; and

(B) appropriate efforts are undertaken to ensure that Federal departments and agencies charged with reducing and preventing illicit finance make thorough use of publicly available data in furtherance of this effort.

(6) **THE ROLE OF THE PRIVATE FINANCIAL SECTOR IN PREVENTION OF ILLICIT FINANCE.**—A discussion of ways to enhance partnerships between the private financial sector and Federal departments and agencies with regard to the prevention and detection of illicit finance, including—

(A) efforts to facilitate compliance with laws aimed at stopping such illicit finance while maintaining the effectiveness of such efforts; and

(B) providing guidance to strengthen internal controls and to adopt on an industry-wide basis more effective policies.

(7) **ENHANCEMENT OF INTERGOVERNMENTAL COOPERATION.**—A discussion of ways to combat illicit finance by enhancing—

(A) cooperative efforts between and among Federal, State, and local officials, including State regulators, State and local prosecutors, and other law enforcement officials;

(B) cooperative efforts with and between governments of countries and with and between multinational institutions, including the Financial Action Task Force, with expertise in fighting illicit finance.

(8) **TREND ANALYSIS OF EMERGING ILLICIT FINANCE THREATS.**—A discussion of and data regarding trends in illicit finance, including evolving forms of value transfer such as so-called cryptocurrencies, other methods that are computer, telecommunications, or Internet-based, cyber crime, or any other threats that the Secretary may choose to identify.

(9) **BUDGET PRIORITIES.**—A multiyear budget plan that identifies sufficient resources needed to successfully execute the full range of missions called for in this section.

(10) **TECHNOLOGY ENHANCEMENTS.**—An analysis of current and developing ways to leverage technology to improve the effectiveness of efforts to stop the financing of terrorism and other forms of illicit finance, including better integration of open-source data.

### TITLE III—DEFINITIONS

#### SEC. 301. DEFINITIONS.

In this Act—

(1) the term “appropriate congressional committees” means—

(A) the Committee on Financial Services, the Committee on Foreign Affairs, the Committee on Armed Services, the Committee on the Judiciary, Committee on Homeland Security, and the Permanent Select Committee

on Intelligence of the House of Representatives; and

(B) the Committee on Banking, Housing, and Urban Affairs, the Committee on Foreign Relations, Committee on Armed Services, Committee on the Judiciary, Committee on Homeland Security and Governmental Affairs, and the Select Committee on Intelligence of the Senate;

(2) the term “appropriate Federal banking agencies” has the meaning given the term in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813);

(3) the term “Bank Secrecy Act” means—

(A) section 21 of the Federal Deposit Insurance Act (12 U.S.C. 1829b);

(B) chapter 2 of title I of Public Law 91–508 (12 U.S.C. 1951 et seq.); and

(C) subchapter II of chapter 53 of title 31, United States Code;

(4) the term “illicit finance” means the financing of terrorism, money laundering, or other forms of illicit financing domestically or internationally, as defined by the President;

(5) the term “money services business” has the meaning given the term under section 1010.100 of title 31, Code of Federal Regulations;

(6) the term “Secretary” means the Secretary of the Treasury; and

(7) the term “State” means each of the several States, the District of Columbia, and each territory or possession of the United States.

**SA 5128.** Mr. MCCONNELL (for Mrs. ERNST) proposed an amendment to the bill S. 3336, to provide installation reutilization authority for arsenals, depots, and plants; as follows:

On page 1, strike lines 3 and 4 and insert the following:

#### SECTION 1. INSTALLATION REUTILIZATION AUTHORITY FOR ARSENALS, DEPOTS, AND PLANTS.

On page 1, line 6, strike “arsenal, the Secretary concerned” and insert “arsenal, depot, or plant, the Secretary of the Army”.

On page 2, line 4, insert “, depot, or plant” after “arsenal”.

On page 2, line 8, insert “, depot, or plant” after “arsenal”.

On page 2, line 12, insert “, depot, or plant” after “arsenal”.

On page 2, line 17, strike “Secretary concerned” and insert “Secretary of the Army”.

On page 2, line 21, insert “, depot, or plant” after “arsenal”.

On page 4, line 3, insert “, DEPOT, OR PLANT” after “ARSENAL”.

On page 4, line 5, insert “, depot, or plant” after “arsenal”.

On page 4, line 6, strike “Department of the Defense” and insert “Army”.

**SA 5129.** Mr. MCCONNELL (for Mrs. ERNST) proposed an amendment to the bill S. 3336, to provide installation reutilization authority for arsenals, depots, and plants; as follows:

Amend the title so as to read: “A bill to provide installation reutilization authority for arsenals, depots, and plants.”.

**SA 5130.** Mr. MANCHIN (for himself and Mr. BROWN) submitted an amendment intended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and

Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

### TITLE XIX—MINERS PROTECTION

#### SEC. 19001. SHORT TITLE.

This title may be cited as the “Miners Protection Act of 2016”.

#### SEC. 19002. INCLUSION OF CERTAIN RETIREES IN THE MULTIEMPLOYER HEALTH BENEFIT PLAN.

(a) **IN GENERAL.**—Section 402 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1232) is amended—

(1) in subsection (h)(2)(C)—

(A) by striking “A transfer” and inserting the following:

“(i) **TRANSFER TO THE PLAN.**—A transfer”;

(B) by redesignating clauses (i) and (ii) as subclauses (I) and (II), respectively, and moving such subclauses 2 ems to the right; and

(C) by striking the matter following such subclause (II) (as so redesignated) and inserting the following:

“(ii) **CALCULATION OF EXCESS.**—The excess determined under clause (i) shall be calculated by taking into account only—

“(I) those beneficiaries actually enrolled in the Plan as of the date of the enactment of the Miners Protection Act of 2016 who are eligible to receive health benefits under the Plan on the first day of the calendar year for which the transfer is made, other than those beneficiaries enrolled in the Plan under the terms of a participation agreement with the current or former employer of such beneficiaries; and

“(II) those beneficiaries whose health benefits, defined as those benefits payable directly following death or retirement or upon a finding of disability by an employer in the bituminous coal industry under a coal wage agreement (as defined in section 9701(b)(1) of the Internal Revenue Code of 1986), would be denied or reduced as a result of a bankruptcy proceeding commenced in 2012 or 2015.

“(iii) **ELIGIBILITY OF CERTAIN RETIREES.**—Individuals referred to in clause (ii)(II) shall be treated as eligible to receive health benefits under the Plan.

“(iv) **REQUIREMENTS FOR TRANSFER.**—The amount of the transfer otherwise determined under this subparagraph for a fiscal year shall be reduced by any amount transferred for the fiscal year to the Plan, to pay benefits required under the Plan, from a voluntary employees’ beneficiary association established as a result of a bankruptcy proceeding described in clause (ii).

“(v) **VEBA TRANSFER.**—The administrator of such voluntary employees’ beneficiary association shall transfer to the Plan any amounts received as a result of such bankruptcy proceeding, reduced by an amount for administrative costs of such association.”;

and

(2) in subsection (i)—

(A) by redesignating paragraph (4) as paragraph (5); and

(B) by inserting after paragraph (3) the following:

“(4) **ADDITIONAL AMOUNTS.**—

“(A) **CALCULATION.**—If the dollar limitation specified in paragraph (3)(A) exceeds the aggregate amount required to be transferred under paragraphs (1) and (2) for a fiscal year, the Secretary of the Treasury shall transfer an additional amount equal to the difference between such dollar limitation and such aggregate amount to the trustees of the 1974 UMW Pension Plan to pay benefits required under that plan.

“(B) CESSATION OF TRANSFERS.—The transfers described in subparagraph (A) shall cease as of the first fiscal year beginning after the first plan year for which the funded percentage (as defined in section 432(i)(2) of the Internal Revenue Code of 1986) of the 1974 UMWA Pension Plan is at least 100 percent.

“(C) PROHIBITION ON BENEFIT INCREASES, ETC.—During a fiscal year in which the 1974 UMWA Pension Plan is receiving transfers under subparagraph (A), no amendment of such plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan may be adopted unless the amendment is required as a condition of qualification under part I of subchapter D of chapter 1 of the Internal Revenue Code of 1986.

“(D) TREATMENT OF TRANSFERS FOR PURPOSES OF WITHDRAWAL LIABILITY UNDER ERISA.—The amount of any transfer made under subparagraph (A) (and any earnings attributable thereto) shall be disregarded in determining the unfunded vested benefits of the 1974 UMWA Pension Plan and the allocation of such unfunded vested benefits to an employer for purposes of determining the employer’s withdrawal liability under section 4201.

“(E) REQUIREMENT TO MAINTAIN CONTRIBUTION RATE.—A transfer under subparagraph (A) shall not be made for a fiscal year unless the persons that are obligated to contribute to the 1974 UMWA Pension Plan on the date of the transfer are obligated to make the contributions at rates that are no less than those in effect on the date which is 30 days before the date of enactment of the Miners Protection Act of 2016.

“(F) ENHANCED ANNUAL REPORTING.—

“(i) IN GENERAL.—Not later than the 90th day of each plan year beginning after the date of enactment of the Miners Protection Act of 2016, the trustees of the 1974 UMWA Pension Plan shall file with the Secretary of the Treasury or the Secretary’s delegate and the Pension Benefit Guaranty Corporation a report (including appropriate documentation and actuarial certifications from the plan actuary, as required by the Secretary of the Treasury or the Secretary’s delegate) that contains—

“(I) whether the plan is in endangered or critical status under section 305 of the Employee Retirement Income Security Act of 1974 and section 432 of the Internal Revenue Code of 1986 as of the first day of such plan year;

“(II) the funded percentage (as defined in section 432(i)(2) of such Code) as of the first day of such plan year, and the underlying actuarial value of assets and liabilities taken into account in determining such percentage;

“(III) the market value of the assets of the plan as of the last day of the plan year preceding such plan year;

“(IV) the total value of all contributions made during the plan year preceding such plan year;

“(V) the total value of all benefits paid during the plan year preceding such plan year;

“(VI) cash flow projections for such plan year and either the 6 or 10 succeeding plan years, at the election of the trustees, and the assumptions relied upon in making such projections;

“(VII) funding standard account projections for such plan year and the 9 succeeding plan years, and the assumptions relied upon in making such projections;

“(VIII) the total value of all investment gains or losses during the plan year preceding such plan year;

“(IX) any significant reduction in the number of active participants during the plan year preceding such plan year, and the reason for such reduction;

“(X) a list of employers that withdrew from the plan in the plan year preceding such plan year, and the resulting reduction in contributions;

“(XI) a list of employers that paid withdrawal liability to the plan during the plan year preceding such plan year and, for each employer, a total assessment of the withdrawal liability paid, the annual payment amount, and the number of years remaining in the payment schedule with respect to such withdrawal liability;

“(XII) any material changes to benefits, accrual rates, or contribution rates during the plan year preceding such plan year;

“(XIII) any scheduled benefit increase or decrease in the plan year preceding such plan year having a material effect on liabilities of the plan;

“(XIV) details regarding any funding improvement plan or rehabilitation plan and updates to such plan;

“(XV) the number of participants and beneficiaries during the plan year preceding such plan year who are active participants, the number of participants and beneficiaries in pay status, and the number of terminated vested participants and beneficiaries;

“(XVI) the information contained on the most recent annual funding notice submitted by the plan under section 101(f) of the Employee Retirement Income Security Act of 1974;

“(XVII) the information contained on the most recent Department of Labor Form 5500 of the plan; and

“(XVIII) copies of the plan document and amendments, other retirement benefit or ancillary benefit plans relating to the plan and contribution obligations under such plans, a breakdown of administrative expenses of the plan, participant census data and distribution of benefits, the most recent actuarial valuation report as of the plan year, copies of collective bargaining agreements, and financial reports, and such other information as the Secretary of the Treasury or the Secretary’s delegate, in consultation with the Secretary of Labor and the Director of the Pension Benefit Guaranty Corporation, may require.

“(ii) ELECTRONIC SUBMISSION.—The report required under clause (i) shall be submitted electronically.

“(iii) INFORMATION SHARING.—The Secretary of the Treasury or the Secretary’s delegate shall share the information in the report under clause (i) with the Secretary of Labor.

“(iv) PENALTY.—Any failure to file the report required under clause (i) on or before the date described in such clause shall be treated as a failure to file a report required to be filed under section 6058(a) of the Internal Revenue Code of 1986, except that section 6652(e) of such Code shall be applied with respect to any such failure by substituting ‘\$100’ for ‘\$25’. The preceding sentence shall not apply if the Secretary of the Treasury or the Secretary’s delegate determines that reasonable diligence has been exercised by the trustees of such plan in attempting to timely file such report.

“(G) 1974 UMWA PENSION PLAN DEFINED.—For purposes of this paragraph, the term ‘1974 UMWA Pension Plan’ has the meaning given the term in section 9701(a)(3) of the In-

ternal Revenue Code of 1986, but without regard to the limitation on participation to individuals who retired in 1976 and thereafter.”.

(b) EFFECTIVE DATES.—

(1) IN GENERAL.—The amendments made by this section shall apply to fiscal years beginning after September 30, 2016.

(2) REPORTING REQUIREMENTS.—Section 402(i)(4)(F) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1232(i)(4)(F)), as added by this section, shall apply to plan years beginning after the date of the enactment of this Act.

#### SEC. 19003. CLARIFICATION OF FINANCING OBLIGATIONS.

(a) IN GENERAL.—Subsection (a) of section 9704 of the Internal Revenue Code of 1986 is amended—

(1) by striking paragraph (3),

(2) by striking “three premiums” and inserting “two premiums”, and

(3) by striking “, plus” at the end of paragraph (2) and inserting a period.

(b) CONFORMING AMENDMENTS.—

(1) Section 9704 of the Internal Revenue Code of 1986 is amended—

(A) by striking subsection (d), and

(B) by redesignating subsections (e) through (j) as subsections (d) through (i), respectively.

(2) Subsection (d) of section 9704 of such Code, as so redesignated, is amended—

(A) by striking “3 separate accounts for each of the premiums described in subsections (b), (c), and (d)” in paragraph (1) and inserting “2 separate accounts for each of the premiums described in subsections (b) and (c)”, and

(B) by striking “or the unassigned beneficiaries premium account” in paragraph (3)(B).

(3) Subclause (I) of section 9703(b)(2)(C)(ii) of such Code is amended by striking “9704(e)(3)(B)(i)” and inserting “9704(d)(3)(B)(i)”.

(4) Paragraph (3) of section 9705(a) of such Code is amended—

(A) by striking “the unassigned beneficiary premium under section 9704(a)(3) and” in subparagraph (B), and

(B) by striking “9704(i)(1)(B)” and inserting “9704(h)(1)(B)”.

(5) Paragraph (2) of section 9711(c) of such Code is amended—

(A) by striking “9704(j)(2)” in subparagraph (A)(i) and inserting “9704(i)(2)”,

(B) by striking “9704(j)(2)(B)” in subparagraph (B) and inserting “9704(i)(2)(B)”, and

(C) by striking “9704(j)” and inserting “9704(i)”.

(6) Paragraph (4) of section 9712(d) of such Code is amended by striking “9704(j)” and inserting “9704(i)”.

(c) ELIMINATION OF ADDITIONAL BACKSTOP PREMIUM.—

(1) IN GENERAL.—Paragraph (1) of section 9712(d) of the Internal Revenue Code of 1986 is amended by striking subparagraph (C).

(2) CONFORMING AMENDMENT.—Paragraph (2) of section 9712(d) of such Code is amended—

(A) by striking subparagraph (B),

(B) by striking “, and” at the end of subparagraph (A) and inserting a period, and

(C) by striking “shall provide for—” and all that follows through “annual adjustments” and inserting “shall provide for annual adjustments”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to plan years beginning after September 30, 2016.

**SEC. 19004. CUSTOMS USER FEES.**

(a) IN GENERAL.—Section 13031(j)(3)(A) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(j)(3)(A)) is amended by striking “September 30, 2025” and inserting “May 6, 2026”.

(b) RATE FOR MERCHANDISE PROCESSING FEES.—Section 503 of the United States–Korea Free Trade Agreement Implementation Act (Public Law 112–41; 19 U.S.C. 3805 note) is amended by striking “September 30, 2025” and inserting “May 6, 2026”.

**SA 5131.** Ms. WARREN (for herself and Mr. MERKLEY) submitted an amendment intended to be proposed by her to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 3037.

**SA 5132.** Ms. WARREN submitted an amendment intended to be proposed by her to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 3033.

**SA 5133.** Mr. FLAKE submitted an amendment intended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

**DIVISION C—FEDERAL RESEARCH  
TRANSPARENCY AND ACCOUNTABILITY**

**SEC. 20001. SHORT TITLE.**

This division may be cited as the “Federal Research Transparency and Accountability Act of 2016”.

**SEC. 20002. DEFINITIONS.**

In this division—

(1) the term “agency” has the meaning given the term in section 551 of title 5, United States Code; and

(2) the term “covered study” means any study that—

(A) is carried out in whole or in part with Federal funds; and

(B) is published, presented at a conference or meeting, or otherwise made publicly available.

**SEC. 20003. FEDERALLY FUNDED RESEARCH DISCLOSURES AND DATABASE.**

(a) PREVENTION OF DUPLICATIVE RESEARCH FUNDING.—The Director of the Office of Management and Budget shall coordinate with each agency that provides funding to entities to carry out research and development to establish a system to detect potential duplicative applications for funding in order to prevent duplicative funding.

(b) DATABASE OF FEDERALLY FUNDED RESEARCH AND DEVELOPMENT.—

(1) IN GENERAL.—Each agency shall include in a publicly accessible database a searchable listing of each unclassified research and

development project that is funded by the agency, including a contract, grant, cooperative agreement, or task order.

(2) CONTENTS.—A database described in paragraph (1) shall, with respect to each unclassified research and development project of an agency, contain—

(A) the agency component that is carrying out or providing funding or other assistance for the project;

(B) the name of the project;

(C) an abstract or summary of the project;

(D) the funding level for the project;

(E) the duration of the project;

(F) the name of any contractor, subcontractor, or grantee;

(G) the title of any published study funded by or related to the project; and

(H) expected objectives and milestones for the project.

(3) EXISTING DATABASE.—An agency may satisfy the requirements under this subsection if the Director of the Office of Management and Budget determines that the agency maintains a publicly accessible database, including a database operated by or shared with another agency, that substantially meets the requirements of this subsection.

(c) REQUIREMENT FOR ACKNOWLEDGMENT IN COVERED STUDIES.—The acknowledgment section in each covered study shall include—

(1) the name of each agency that provided funding for the covered study;

(2) the project or award number associated with the covered study; and

(3) an estimate of the total cost of the covered study.

(d) STUDY.—Not later than 2 years after the date of enactment of this Act, the Comptroller General of the United States shall conduct a study and make publicly available a report, which shall—

(1) analyze the compliance of agencies, contractors, subcontractors, and grantees with the requirements of this division;

(2) identify any obstacles that remain to prevent the public from accessing the cost and findings of covered studies and other research and development projects funded by agencies; and

(3) analyze efforts by agencies to prevent duplicative spending.

**SA 5134.** Mr. MERKLEY (for himself and Ms. WARREN) submitted an amendment intended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

Strike sections 5009 and 5011.

**SA 5135.** Mr. MERKLEY submitted an amendment intended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

Strike sections 5002, 5003, 5004, and 5012 of division A.

**SA 5136.** Mr. LEAHY (for himself, Mr. GRASSLEY, Ms. KLOBUCHAR, and Mr. LEE) submitted an amendment in-

tended to be proposed by him to the bill H.R. 34, to authorize and strengthen the tsunami detection, forecast, warning, research, and mitigation program of the National Oceanic and Atmospheric Administration, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title III of division A, add the following:

**Subtitle K—CREATES Act**

**SEC. 3201. SHORT TITLE.**

This subtitle may be cited as the “Creating and Restoring Equal Access to Equivalent Samples Act of 2016” or the “CREATES Act of 2016”.

**SEC. 3202. FINDINGS.**

Congress finds the following:

(1) It is the policy of the United States to promote competition in the market for drugs and biological products by facilitating the timely entry of low-cost generic and biosimilar versions of those drugs and biological products.

(2) Since their enactment in 1984 and 2010, respectively, the Drug Price Competition and Patent Term Restoration Act of 1984 (Public Law 98–417; 98 Stat. 1585) and the Biologics Price Competition and Innovation Act of 2009 (Subtitle A of title VII of Public Law 111–148; 124 Stat. 804), have provided pathways for making lower-cost versions of previously approved drugs and previously licensed biological products available to the people of the United States in a timely manner, thereby lowering overall prescription drug costs for patients and taxpayers by billions of dollars each year.

(3) In order for these pathways to function as intended, developers of generic drugs and biosimilar biological products (referred to in this section as “generic product developers”) must be able to obtain quantities of the reference listed drug or biological product with which the generic drug or biosimilar biological product is intended to compete (referred to in this section as a “covered product”) for purposes of supporting an application for approval by the Food and Drug Administration, including for testing to show that—

(A) a prospective generic drug is bioequivalent to the covered product in accordance with subsection (j) of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355), or meets the requirements for approval of an application submitted under subsection (b)(2) of that section; or

(B) a prospective biosimilar biological product is biosimilar to or interchangeable with its reference biological product under section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)), as applicable.

(4) For drugs and biological products that are subject to a risk evaluation and mitigation strategy, another essential component in the creation of low-cost generic and biosimilar versions of covered products is the ability of generic product developers to join the manufacturer of the covered product (referred to in this section as the “license holder”) in a single, shared system of elements to assure safe use and supporting agreements, or secure a variance therefrom, as required by section 505–1 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355–1).

(5) Contrary to the policy of the United States to promote competition in the market for drugs and biological products by facilitating the timely entry of lower-cost generic and biosimilar versions of those drugs

and biological products, certain license holders are preventing generic product developers from obtaining quantities of the covered product necessary for the generic product developer to support an application for approval by the Food and Drug Administration, including testing to show bioequivalence, biosimilarity, or interchangeability to the covered product, in some instances based on the justification that the covered product is subject to a risk evaluation and mitigation strategy with elements to assure safe use under section 505-1 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355-1).

(6) The Director of the Center for Drug Evaluation and Research at the Food and Drug Administration has testified that some manufacturers of covered products have used REMS and distribution restrictions adopted by the manufacturer on their own behalf as reasons to not sell quantities of a covered product to generic product developers, causing barriers and delays in getting generic products on the market. The Food and Drug Administration has reported receiving significant numbers of inquiries from generic product developers who were unable to obtain samples of covered products to conduct necessary testing and otherwise meet requirements for approval of generic drugs.

(7) The Chairwoman of the Federal Trade Commission has testified that the Federal Trade Commission continues to be very concerned about potential abuses by manufacturers of brand drugs of REMS or other closed distribution systems to impede generic competition.

(8) Also contrary to the policy of the United States to promote competition in the market for drugs and biological products by facilitating the timely entry of lower-cost generic and biosimilar versions of those drugs and biological products, certain license holders are impeding the prompt negotiation and development on commercially reasonable terms of a single, shared system of elements to assure safe use, which may be necessary for the generic product developer to gain approval for its drug or licensing for its biological product.

(9) While the antitrust laws may address the refusal by some license holders to provide quantities of a covered product to a generic product developer, a more tailored legal pathway would help ensure that generic product developers can obtain necessary quantities of a covered product in a timely way for purposes of developing a generic drug or biosimilar biological product, facilitating competition in the marketplace for drugs and biological products.

(10) The antitrust laws may address actions by license holders who impede the prompt negotiation and development of a single, shared system of elements to assure safe use, and the Food and Drug Administration has some authority to waive the requirement of a single, shared system. Clearer regulatory authority to approve different systems that meet the statutory requirements to ensure patient safety, however, would limit the effectiveness of bad faith negotiations over single, shared systems to delay generic approval. At the same time, clearer regulatory authority would ensure all systems protect patient safety.

#### SEC. 3203. ACTIONS FOR DELAYS OF GENERIC DRUGS AND BIOSIMILAR BIOLOGICAL PRODUCTS.

(a) DEFINITIONS.—In this section—

(1) the term “covered product”—

(A) means—

(i) any drug approved under subsection (b) or (j) of section 505 of the Federal Food,

Drug, and Cosmetic Act (21 U.S.C. 355) or biological product licensed under subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262);

(ii) any combination of a drug or biological product described in clause (i); or

(iii) when reasonably necessary to demonstrate sameness, biosimilarity, or interchangeability for purposes of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355), or section 351 of the Public Health Service Act (42 U.S.C. 262), as applicable, any product, including any device, that is marketed or intended for use with such drug or biological product; and

(B) does not include any drug or biological product that the Secretary has determined to be currently in shortage and that appears on the drug shortage list in effect under section 506E of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 356e), unless the shortage will not be promptly resolved—

(i) as demonstrated by the fact that the drug or biological product has been in shortage for more than 6 months; or

(ii) as otherwise determined by the Secretary;

(2) the term “device” has the meaning given the term in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321);

(3) the term “eligible product developer” means a person that seeks to develop a product for approval pursuant to an application for approval under subsection (b)(2) or (j) of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) or for licensing pursuant to an application under section 351(k) of the Public Health Service Act (42 U.S.C. 262(k));

(4) the term “license holder” means the holder of an application approved under subsection (c) or (j) of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) or the holder of a license under subsection (a) or (k) of section 351 of the Public Health Service Act (42 U.S.C. 262) for a covered product;

(5) the term “REMS” means a risk evaluation and mitigation strategy under section 505-1 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355-1);

(6) the term “REMS with ETASU” means a REMS that contains elements to assure safe use under section 505-1 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355-1);

(7) the term “Secretary” means the Secretary of Health and Human Services;

(8) the term “single, shared system of elements to assure safe use” means a single, shared system of elements to assure safe use under section 505-1 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355-1); and

(9) the term “sufficient quantities” means an amount of a covered product that allows the eligible product developer to—

(A) conduct testing to support an application—

(i) for approval under subsection (b)(2) or (j) of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355); or

(ii) for licensing under section 351(k) of the Public Health Service Act (42 U.S.C. 262(k)); and

(B) fulfill any regulatory requirements relating to such an application for approval or licensing.

(b) CIVIL ACTION FOR FAILURE TO PROVIDE SUFFICIENT QUANTITIES OF A COVERED PRODUCT.—

(1) IN GENERAL.—An eligible product developer may bring a civil action against the license holder for a covered product seeking relief under this subsection in an appropriate district court of the United States alleging

that the license holder has declined to provide sufficient quantities of the covered product to the eligible product developer on commercially reasonable, market-based terms.

(2) ELEMENTS.—

(A) IN GENERAL.—To prevail in a civil action brought under paragraph (1), an eligible product developer shall prove, by a preponderance of the evidence—

(i) that—

(I) the covered product is not subject to a REMS with ETASU; or

(II) if the covered product is subject to a REMS with ETASU—

(aa) the eligible product developer has obtained a covered product authorization from the Secretary in accordance with subparagraph (B); and

(bb) the eligible product developer has provided a copy of the covered product authorization to the license holder;

(ii) that, as of the date on which the civil action is filed, the product developer has not obtained sufficient quantities of the covered product on commercially reasonable, market-based terms;

(iii) that the eligible product developer has requested to purchase sufficient quantities of the covered product from the license holder; and

(iv) that the license holder has not delivered to the eligible product developer sufficient quantities of the covered product on commercially reasonable, market-based terms—

(I) for a covered product that is not subject to a REMS with ETASU, by the date that is 31 days after the date on which the license holder received the request for the covered product; and

(II) for a covered product that is subject to a REMS with ETASU, by 31 days after the later of—

(aa) the date on which the license holder received the request for the covered product; or

(bb) the date on which the license holder received a copy of the covered product authorization issued by the Secretary in accordance with subparagraph (B).

(B) AUTHORIZATION FOR COVERED PRODUCT SUBJECT TO A REMS WITH ETASU.—

(i) REQUEST.—An eligible product developer may submit to the Secretary a written request for the eligible product developer to be authorized to obtain sufficient quantities of an individual covered product subject to a REMS with ETASU.

(ii) AUTHORIZATION.—Not later than 90 days after the date on which a request under clause (i) is received, the Secretary shall, by written notice, authorize the eligible product developer to obtain sufficient quantities of an individual covered product subject to a REMS with ETASU for purposes of—

(I) development and testing that does not involve human clinical trials, if the eligible product developer has agreed to comply with any conditions the Secretary determines necessary; or

(II) development and testing that involves human clinical trials, if the eligible product developer has—

(aa)(AA) submitted protocols, informed consent documents, and informational materials for testing that include protections that provide safety protections comparable to those provided by the REMS for the covered product; or

(BB) otherwise satisfied the Secretary that such protections will be provided; and

(bb) met any other requirements the Secretary may establish.

(iii) NOTICE.—A covered product authorization issued under this subparagraph shall state that the provision of the covered product by the license holder under the terms of the authorization will not be a violation of the REMS for the covered product.

(3) AFFIRMATIVE DEFENSE.—In a civil action brought under paragraph (1), it shall be an affirmative defense, on which the defendant has the burden of persuasion by a preponderance of the evidence—

(A) that, on the date on which the eligible product developer requested to purchase sufficient quantities of the covered product from the license holder—

(i) neither the license holder nor any of its agents, wholesalers, or distributors was engaged in the manufacturing or commercial marketing of the covered product; and

(ii) neither the license holder nor any of its agents, wholesalers, or distributors otherwise had access to inventory of the covered product to supply to the eligible product developer on commercially reasonable, market-based terms; or

(B) that—

(i) the license holder sells the covered product through agents, distributors, or wholesalers;

(ii) the license holder has placed no restrictions, explicit or implicit, on its agents, distributors, or wholesalers to sell covered products to eligible product developers; and

(iii) the covered product can be purchased by the eligible product developer in sufficient quantities on commercially reasonable, market-based terms from the agents, distributors, or wholesalers of the license holder.

(4) REMEDIES.—

(A) IN GENERAL.—If an eligible product developer prevails in a civil action brought under paragraph (1), the court shall—

(i) order the license holder to provide to the eligible product developer without delay sufficient quantities of the covered product on commercially reasonable, market-based terms;

(ii) award to the eligible product developer reasonable attorney fees and costs of the civil action; and

(iii) award to the eligible product developer a monetary amount sufficient to deter the license holder from failing to provide other eligible product developers with sufficient quantities of a covered product on commercially reasonable, market-based terms, if the court finds, by a preponderance of the evidence—

(I) that the license holder delayed providing sufficient quantities of the covered product to the eligible product developer without a legitimate business justification; or

(II) that the license holder failed to comply with an order issued under clause (i).

(B) MAXIMUM MONETARY AMOUNT.—A monetary amount awarded under subparagraph (A)(iii) shall not be greater than the revenue that the license holder earned on the covered product during the period—

(i) beginning on—

(I) for a covered product that is not subject to a REMS with ETASU, the date that is 31 days after the date on which the license holder received the request; or

(II) for a covered product that is subject to a REMS with ETASU, the date that is 31 days after the later of—

(aa) the date on which the license holder received the request; or

(bb) the date on which the license holder received a copy of the covered product authorization issued by the Secretary in accordance with paragraph (2)(B); and

(ii) ending on the date on which the eligible product developer received sufficient quantities of the covered product.

(C) AVOIDANCE OF DELAY.—The court may issue an order under subparagraph (A)(i) before conducting further proceedings that may be necessary to determine whether the eligible product developer is entitled to an award under clause (ii) or (iii) of subparagraph (A), or the amount of any such award.

(C) LIMITATION OF LIABILITY.—A license holder for a covered product shall not be liable for any claim arising out of the failure of an eligible product developer to follow adequate safeguards to assure safe use of the covered product during development or testing activities described in this section, including transportation, handling, use, or disposal of the covered product by the eligible product developer.

(d) RULE OF CONSTRUCTION.—

(1) DEFINITION.—In this subsection, the term “antitrust laws”—

(A) has the meaning given the term in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12); and

(B) includes section 5 of the Federal Trade Commission Act (15 U.S.C. 45) to the extent that such section applies to unfair methods of competition.

(2) ANTITRUST LAWS.—Nothing in this section shall be construed to limit the operation of any provision of the antitrust laws.

#### SEC. 3204. REMS APPROVAL PROCESS FOR SUBSEQUENT FILERS.

Section 505-1 of the Federal Food Drug and Cosmetic Act (21 U.S.C. 355-1) is amended—

(1) in subsection (g)(4)(B)—

(A) in clause (i) by striking “or” after the semicolon;

(B) in clause (ii) by striking the period at the end and inserting “; or”; and

(C) by adding at the end the following:

“(iii) accommodate different approved risk evaluation and mitigation strategies for a reference drug product and a drug that is the subject of an abbreviated new drug application.”; and

(2) in subsection (i)(1), by striking subparagraph (B) and inserting the following:

“(B) Elements to assure safe use, if required under subsection (f) for the listed drug.

“(i) Subject to clause (ii), a drug that is the subject of an abbreviated new drug application may use—

“(I) a single, shared system with the listed drug under subsection (f); or

“(II) a different, comparable aspect of the elements to assure safe use under subsection (f).

“(ii) The Secretary may require a drug that is the subject of an abbreviated new drug application and the listed drug to use a single, shared system under subsection (f), if the Secretary determines that no different, comparable aspect of the elements to assure safe use could satisfy the requirements of subsection (f).”.

**SA 5137.** Mr. McCONNELL (for himself and Mr. REID) proposed an amendment to the concurrent resolution H. Con. Res. 174, directing the Clerk of the House of Representatives to make a correction in the enrollment of H.R. 34; as follows:

Beginning on page 1, line 7, strike “following correction:” and all that follows and insert the following:

“following corrections:

“(1) Amend the long title so as to read: ‘An Act to accelerate the discovery, development, and delivery of 21st century cures, and for other purposes.’.

“(2) Amend the section heading for section 1001 so as to read: ‘**BEAU BIDEN CANCER MOONSHOT AND NIH INNOVATION PROJECTS**’.

“(3) Amend the table of contents in section 1 so that the item relating to section 1001 reads as follows:

“‘1001. Beau Biden Cancer Moonshot and NIH innovation projects.’”.

**ACTION VITIATED—H.R. 5602, S. 3336, AND CALENDAR NOS. 675 THROUGH 683**

Mr. MORAN. Mr. President, I ask unanimous consent to vitiate all action taken during today’s session of the Senate on H.R. 5602, S. 3336, and Calendar Nos. 675 through 683.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ORDERS FOR TUESDAY, DECEMBER 6, 2016

Mr. MORAN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m., Tuesday, December 6; that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, and the time for the two leaders be reserved for their use later in the day; further, that following leader remarks, the Senate resume consideration of the House message to accompany H.R. 34 postcloture; finally, that all time during adjournment and recess of the Senate count postcloture on the motion to concur.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. MORAN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order.

There being no objection, the Senate, at 6:52 p.m., adjourned until Tuesday, December 6, 2016, at 10 a.m.

## HOUSE OF REPRESENTATIVES—Monday, December 5, 2016

The House met at noon and was called to order by the Speaker pro tempore (Mr. DENHAM).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
December 5, 2016.

I hereby appoint the Honorable JEFF DENHAM to act as Speaker pro tempore on this day.

PAUL D. RYAN,  
*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 5, 2016, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 1 hour and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 1:50 p.m.

### CELEBRATING CARTER HANSON, A GAGLIARDI RECIPIENT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Minnesota (Mr. EMMER) for 5 minutes.

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to celebrate one of Minnesota's most promising student athletes, St. John's linebacker Carter Hanson. Carter has been chosen as one of the semifinalists for the prestigious Gagliardi Trophy.

This trophy is named after the former St. John's University Hall of Fame, renowned football coach John Gagliardi and is given to the best Division III football player of the year. Carter Hanson has started every season for 4 years, was a preseason All-American, and this year led his team in tackles.

Carter doesn't just excel on the football field, but in the classroom and the community as well. He has maintained a 4.0 grade point average for 4 years, and this year, he has been selected as the only Division III finalist for the National Football Foundation's Campbell Trophy, which is given to the best student athlete in football.

Carter is a global business leadership major. He has already put his degree to

good work by volunteering in Haiti and for organizations like Kids Against Hunger and St. Jude Children's Research Hospital.

I am proud that a young man like Carter hails from the great State of Minnesota, and I am positive that we are going to see great accomplishments from him in the future.

The winner of the Gagliardi Trophy will be announced shortly, and while there is great competition, I am convinced that no one is more deserving than Carter Hanson.

CELEBRATING MIKE GOHMAN OF W. GOHMAN CONSTRUCTION

Mr. EMMER of Minnesota. Mr. Speaker, I rise today to celebrate Mike Gohman of W. Gohman Construction for being named Builder of the Year by the Builders Association of Minnesota.

W. Gohman Construction was established in 1950 by Mike's grandfather, Willard Gohman, out of his shed. Like many of Minnesota's small businesses, this company has evolved and grown. Today Mike is the third generation to own and run this incredible company, and he continually works to uphold the integrity that his father and his grandfather started.

To Mike, it has never been just about the success of his company, but of the building industry as a whole. He has been an active member of the Builders Association of Minnesota and the Central Minnesota Builders Association, working to represent his and other companies throughout the St. Cloud community and our State.

Mike always goes above and beyond by hosting job site tours, advocating for the building industry at the State capitol, as well as educating elected officials on the issues and concerns of his field. He even recently represented his company and industry at a roundtable we hosted to explain their concerns about our Nation's failing healthcare system.

Mike is a true asset to our community and the building industry. He is well deserving of being named Builder of the Year.

Congratulations, Mike.

DODD-FRANK

Mr. EMMER of Minnesota. Mr. Speaker, the consequences of the Great Recession have been all too real: homes and jobs lost, retirement plans ruined, and fewer opportunities for Americans from all walks of life. Unfortunately, Dodd-Frank has further entrenched the too-big-to-fail bailout mentality, done little to reduce the likelihood of another severe recession, and hindered economic growth.

Thankfully, the Systemic Risk Designation Improvement Act amends the one-size-fits-all approach to regulation taken by Dodd-Frank for large banks, providing a more tailored assessment of these financial institutions when determining their level of risk. This law will require regulators to examine a range of indicators—not just the size of a bank—to understand whether or not a bank could threaten the financial integrity of the United States and whether it should be designated as systemically important. This reform will provide a more pragmatic approach to regulation, which will make the American economy stronger.

I want to thank Mr. LUETKEMEYER and Chairman HENSARLING for their leadership on this issue and those who supported it when it passed in the House last week.

### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 5 minutes p.m.), the House stood in recess.

□ 1400

### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. WOMACK) at 2 p.m.

### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Loving and gracious God, we give You thanks for giving us another day.

We ask today that You bless the Members of the people's House, to be the best and most faithful servants of the people they serve.

May they be filled with gratitude at the opportunity they have to serve in this place. We thank You for the abilities they have been given to do their work, to contribute to the common good.

As this second session of the 114th Congress draws near its end, and legislative business once again weighs heavily on this Hill, withhold not Your spirit of wisdom and truth from this assembly. Give each Member clarity of thought and purity of motive so that they may render their service as their best selves.

In this time of waiting, as people of faith prepare for holy celebrations,

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

bless our Nation with peace and good will. May all Americans of whatever faith or background work together to build a commonweal, something which can only be accomplished by Your grace.

May all that is done this day in the people's House, be for Your greater honor and glory.

Amen.

#### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause one, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from South Carolina (Mr. WILSON) come forward and lead the House in the Pledge of Allegiance.

Mr. WILSON of South Carolina led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### HONORING AIR FORCE LIEUTENANT COLONEL ROCKO RODRIGUEZ

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, today, I am grateful to express my appreciation to Lieutenant Colonel Rocko Rodriguez, U.S. Air Force, of San Antonio, Texas.

For the past year, I have had the privilege of working alongside Rocko in the office as he served the people of South Carolina's Second Congressional District as a defense fellow on assignment from the Air Force.

Lieutenant Colonel Rodriguez was commissioned in 2001, through the Officer Training School at Maxwell Air Force Base, Alabama. He distinguished himself early as a leader, holding various positions in special operations and cyber operations. Rocko has served honorably in Operations Iraqi and Enduring Freedom, Southern Watch, and Deny Flight.

Rocko is a dedicated member of the Air Force with academic achievements. He will graduate from the Air Force Legislative Fellowship program this Thursday and will receive his masters of science degree from Georgetown University Government Affairs Institute. Lieutenant Colonel Rodriguez will soon be transitioning to work at the U.S. Cyber Command Legislative Affairs Branch.

I wish Rocko, his wife, Sarah, and his four children, Kaitlyn, Natalie, Troy,

and Timothy, all the best for continued success.

In conclusion, God bless our troops, and may the President, by his actions, never forget September the 11th in the global war on terrorism.

#### RECOGNIZING EL DORADO SPRINGS CHAMBER OF COMMERCE

(Mrs. HARTZLER asked and was given permission to address the House for 1 minute.)

Mrs. HARTZLER. Mr. Speaker, today, I rise to recognize the El Dorado Springs Chamber of Commerce, which was honored among the 200 local chambers as the 2016 Missouri Small Chamber of Commerce of the Year.

The title is much deserved as the El Dorado Springs Chamber of Commerce, under Executive Director Jackson Tough, has been a leader in promoting economic development, community service, and tourism in the area.

I am honored to represent this distinguished organization.

With around 125 members, the chamber has created a number of initiatives to better its community, including the "Clean-Up ElDo Mo" project to keep the city pristine, a youth scholarship fund to make sure tomorrow's leaders have the opportunities they need today, and a social media initiative "Be in the Know about ElDo Mo" to raise awareness about this wonderful city and its residents.

Communities like El Dorado Springs are the foundation of Missouri and our way of life. Thanks to the hard work and dedication of these chamber leaders, we continue to sustain and strengthen our communities.

I applaud the chamber's work to grow and sustain its community, recognizing its specific assets and opportunities, and I congratulate the chamber on all its accomplishments.

#### CONGRATULATING NEW DEMOCRAT COALITION LEADERSHIP

(Mr. PETERS asked and was given permission to address the House for 1 minute.)

Mr. PETERS. Mr. Speaker, I rise today to congratulate the newly elected leadership of the New Democrat Coalition.

Our new chair, JIM HIMES, and newly elected co-chairs, JARED POLIS, SUZAN DELBENE, TERRI SEWELL, and DEREK KILMER, are strong, bipartisan pro-growth leaders. They bring the vision and experience to guide the New Democrat Coalition in the 115th Congress.

New Dems are pragmatic leaders who stand up for working families and work across the aisle to expand economic opportunity. They are focused on creating jobs and building an economy that leaves no one behind, a mission that will not change under the next administration.

I am eager to work with our new leadership—and our 54 members—as we continue to make the New Democrat Coalition the home for strong civil rights and sensible, bipartisan, pro-growth policy in Congress.

#### COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 2, 2016.

Hon. PAUL D. RYAN,  
*The Speaker, House of Representatives,*  
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 2, 2016, at 1:35 p.m.:

That the Senate passed with an amendment H.R. 1561.

That the Senate agrees to the amendment of the House S. 2577.

With best wishes, I am,  
Sincerely,

KAREN L. HAAS.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Under clause 5(d) of rule XX, the Chair announces to the House that, in light of the resignation of the gentlewoman from California (Ms. HAHN), the whole number of the House is 434.

#### RESIGNATION FROM THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore laid before the House the following resignation from the House of Representatives:

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 2, 2016.

Speaker PAUL D. RYAN,  
Washington, DC.

DEAR SPEAKER RYAN: I hereby tender my resignation from the U.S. House of Representatives effective midnight on December 31, 2016. It has been my distinct honor to serve the people of Michigan's Tenth Congressional District for the past 14 years and I look forward to continuing my life in public service.

Sincerely,

CANDICE S. MILLER,  
*Member of Congress.*

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 2, 2016.

Governor RICK SNYDER,  
Lansing, MI.

DEAR GOVERNOR SNYDER: I hereby tender my resignation from the U.S. House of Representatives effective midnight on December 31, 2016. It has been my distinct honor to serve the people of Michigan's Tenth Congressional District for the past 14 years and

I look forward to continuing my life in public service.

Sincerely,

CANDICE S. MILLER,  
Member of Congress.

## RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 4:30 p.m. today.

Accordingly (at 2 o'clock and 7 minutes p.m.), the House stood in recess.

□ 1630

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. ROTHFUS) at 4 o'clock and 30 minutes p.m.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

## ENHANCING WHISTLEBLOWER PROTECTION FOR CONTRACTOR AND GRANTEE EMPLOYEES

Mr. CHAFFETZ. Mr. Speaker, I move to suspend the rules and pass the bill (S. 795) to enhance whistleblower protection for contractor and grantee employees.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 795

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. ENHANCEMENT OF WHISTLEBLOWER PROTECTION FOR CONTRACTOR AND GRANTEE EMPLOYEES.

(a) PROTECTION FOR EMPLOYEES OF GRANTEES AND SUBGRANTEES.—

(1) DEFENSE GRANTS.—Section 2409(a)(1) of title 10, United States Code, is amended by inserting “or personal services contractor” after “subgrantee”.

(2) CIVILIAN GRANTS.—Section 4712(a)(1) of title 41, United States Code, is amended by striking “or grantee” and inserting “grantee, or subgrantee or personal services contractor”.

(3) PERMANENT EXTENSION OF PILOT PROGRAM FOR ENHANCEMENT OF CONTRACTOR PROTECTION FROM REPRISAL FOR DISCLOSURE OF CERTAIN INFORMATION.—

(A) IN GENERAL.—Section 4712 of title 41, United States Code, is amended—

(i) in the section heading by striking “Pilot program for enhancement” and inserting “Enhancement”; and

(ii) by striking subsection (i).

(B) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 47 of

title 41, United States Code, is amended by striking the item relating to section 4712 and inserting the following new item:

“4712. Enhancement of contractor protection from reprisal for disclosure of certain information.”.

(b) PROHIBITION ON REIMBURSEMENT FOR LEGAL FEES ACCRUED IN DEFENSE AGAINST REPRISAL CLAIMS.—

(1) DEFENSE CONTRACTS.—Section 2324(k) of title 10, United States Code, is amended—

(A) by inserting “or subcontractor, or personal services contractor” after “contractor” each place it appears;

(B) by inserting “, subcontract, or personal services contract” after “contract” each place it appears; and

(C) in paragraph (1), by inserting “or to any other activity described in subparagraphs (A) through (C) of section 2409(a)(1) of this title” after “statute or regulation”.

(2) CIVILIAN CONTRACTS.—

(A) IN GENERAL.—Section 4310 of title 41, United States Code, is amended—

(i) by inserting “, subcontractor, or personal services contractor” after “contractor” each place it appears;

(ii) by inserting “, subcontract, or personal services contract” after “contract” each place it appears; and

(iii) in subsection (b)(1), by inserting “or to any other activity described in section 4712(a)(1) of this title” after “statute or regulation”.

(B) CONFORMING AMENDMENT.—Section 4304(a)(15) of title 41, United States Code, is amended by inserting “or subcontractor, or personal service contractor” after “contractor”.

(c) INCLUSION OF CONTRACT CLAUSE IN CONTRACTS AWARDED BEFORE EFFECTIVE DATE.—At the time of any major modification to a contract that was awarded before the date of the enactment of this Act, the head of the contracting agency shall make best efforts to include in the contract a contract clause providing for the applicability of the amendments made by this section and section 827 of the National Defense Authorization Act for Fiscal Year 2013 (Public Law 112-239; 126 Stat. 1833).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. CHAFFETZ) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Utah.

### GENERAL LEAVE

Mr. CHAFFETZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

Mr. CHAFFETZ. I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of this bill, S. 795, a bill to enhance whistleblower protection for contractor and grantee employees. It is a bill with good bipartisan support in both Chambers of Congress.

I really do applaud and thank, in particular, the gentleman from Maryland (Mr. CUMMINGS), the ranking member

on our committee, who has helped champion this and point this out and lead our efforts in the House on this.

In the House, the Committee on Oversight and Government Reform considered an identical bill, the Whistleblower Protections for Contractors Act, introduced by Ranking Member CUMMINGS and myself, and the committee reported this legislation by unanimous consent. In the Senate, it has been Senators McCASKILL and RON JOHNSON who have worked arm in arm on this and are also very supportive of it. Today we bring up the Senate version of this bill to expedite its approval to get this bill to the President's desk.

As you know, Mr. Speaker, whistleblowers are invaluable to the oversight work of Congress. We rely on people who are on the front lines seeing things as they truly are to provide information and blow the whistle when they see something going awry. They are one of our best sources of information about waste, fraud, and abuse within the Federal Government.

As an institution, we should try to do everything we can to encourage them to come and speak with us, and when they do, to make sure that they have the proper and adequate protections. That is exactly what this bill does, by recognizing that not all whistleblowers are Federal employees. We have robust Federal recognition and whistleblower protection for Federal employees, and we believe that contractors and others should have that as well.

It makes permanent a successful pilot program that extended whistleblower protections to civilian contractor and grantee employees. It also ensures whistleblower protections are extended to subgrantees and personal services contractors for both defense and civilian contractors. It is important because the Federal Government spends half a trillion dollars a year on grants and contracts. Think about that; half a trillion dollars is going out the door. There is always somebody doing something stupid somewhere; so to have this protection for a whistleblower as a contractor, for instance, just seems wise and prudent.

In overseeing how these funds are spent, the best source for rooting out waste is from grantees, subgrantees, contractors, and subcontractors. One loophole this bill closes is that personal services contractors were not protected in the past. These contractors can be just as valuable in identifying the waste and fraud we are committed to preventing in the first place. It only makes sense to offer those personal services contractors the same protections we give other contractors.

With this bill, we are sending a strong message to both whistleblowers and their employers. We are serious about stopping waste, fraud, and abuse, and we are serious about protecting

those who bring that information forward. Every dollar of wasted funds comes from the pocket of the same hardworking men and women who elected us to Congress. It is their money. It is not our money. It is not the Federal Government's money. It is the taxpayers' money.

As we work to protect these taxpayer dollars, we also have a duty and responsibility to protect these whistleblowers. They are the best allies we have. S. 795 accomplishes that goal. An identical bill was passed out of our committee. I would appreciate the support of our colleagues to further this.

Again, I thank Mr. CUMMINGS for his good work and passion on this.

Mr. Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of S. 795. I introduced the House companion of this legislation, the Whistleblower Protections for Contractors Act. We are taking up the Senate measure today to make sure this bill can be signed by the President before the end of this Congress.

I want to thank Senator MCCASKILL for all of her hard work and Senator JOHNSON for all that he did to make this bill come to this point.

I would also like to give special thanks to Chairman CHAFFETZ for being an original cosponsor and helping bring this bill to the floor. Our committee has always stood hand in hand with regard to protecting whistleblowers, and we have made it abundantly clear that we will do everything in our power to protect them from any type of retaliation or any type of harm.

Whistleblowers are the front line of defense against waste, fraud, and abuse. Employees who work on Federal contracts and grants see firsthand when taxpayer money is being wasted. They risk their careers to challenge abuses of power and mismanagement of government resources. They must be protected against retaliation when they blow the whistle on wrongdoing.

Just the other day, we had a witness come before our committee, and it was clear that she was very, very concerned about retaliation to the point of almost being shaken. You could actually see it. When we see these folks, we realize and we are reminded of the fact that they bring a very important resource to us as the Committee on Oversight and Government Reform, and that is they bring us information, information that allows us to be able to address problems that we wouldn't even know about if it were not for them.

I thank Chairman CHAFFETZ and our entire committee for taking the attitude of protecting whistleblowers to the greatest extent we possibly can.

This bill would ensure that more employees are protected by giving sub-

grantees and personal services contractors the same whistleblower protections currently given to contractors, grant recipients, and subcontractors. This bill also would make protections for civilian contractors and grantees permanent. These are protections that contractors and grantees of the Department of Defense already enjoy.

I urge every Member of Congress to stand up for whistleblowers, to stand up for good government, and to pass this legislation.

Mr. Speaker, I urge all Members to vote in favor of this very important and meaningful legislation.

I yield back the balance of my time.

Mr. CHAFFETZ. Mr. Speaker, I urge adoption.

I yield back the balance of my time.

Ms. JACKSON LEE. Mr. Speaker, I rise in support of S. 795, a bill to enhance whistleblower protection for contractor and grantee employees.

The Government Accountability Project, a leading U.S. organization in support of Federal whistleblower laws, supports without qualifications S. 795, legislation to make permanent a pilot program that provides whistleblower rights for employees of government contractors.

The "Pilot program for enhancement of contractor protection from reprisal for disclosure of certain information" (pilot program) was established under 41 U.S.C. §4712, as an amendment to the FY2012 National Defense Authorization Act (NDAA).

Federal whistleblower protection laws are not new; they provide a means for government employees to report waste, fraud, and abuse of taxpayer resources.

I support this bill because the bill extends federal contractor whistleblower protections to employees of:

(1) personal services contractors working on defense contracts (currently, the protections apply to employees of defense contractors, subcontractors, grantees, or sub-grantees); and

(2) personal services contractors or sub-grantees working on federal civilian contracts (currently, the protections apply to employees of civilian contractors, subcontractors, or grantees).

This bill would codify a pilot program that is already in place that allows employees of civilian contractors to report waste, fraud, and abuse and make permanent the civilian contractor protections.

S. 795 extends whistleblower protections to employees of subcontractors to report waste, fraud and abuse of federal taxpayer dollars.

Whistleblower disclosures by Federal contract employees can save lives as well as billions of taxpayer dollars.

For example, Section 1553 of the Obama Administration's American Recovery and Reinvestment Act of 2009 (ARRA) established whistleblower protections for all recipients of stimulus funds, including all state and local government employees and all contractors, including within the IC.

That provision was credited with the low rate of fraud reported around stimulus funds.

During the Congressional oversight hearings, the Chair of the Legislation Committee of

the Council of Inspectors General on Integrity and Efficiency (CIGIE) testified that:

OIGs indicated that their investigations and reviews of the whistleblower complaints had resulted in recovery of approximately \$1.85 million as of April of the first year it was in force.

One of the key provisions of ARRA is Section 1553 that gives the authority of OIGs to investigate reprisal complaints from non-Federal employee whistleblowers.

Federal whistleblower protection laws play a critical role in keeping our Government honest, efficient, and accountable by rooting out waste, fraud, and abuse as well as protecting public health and safety.

Whistleblowers can be some of the most powerful tools in the federal government arsenal to protect taxpayer dollars.

For example, the Securities and Exchange Commission finds of great assistance information from whistleblowers who know of possible securities law violations that could be among the most powerful weapons in the law enforcement arsenal of the Securities and Exchange Commission.

According to USASpending.gov, in Fiscal Year 2015, the Federal government spent over \$1 trillion in contracts and grants—\$438 billion in contracts and \$614 billion in grants.

If this bill does not pass, contractors and grantees are in danger of losing hard-fought whistleblower protections if current protections are not extended.

This bill makes those protections permanent, ensuring that contractors and grantees continue to have the security they need to report waste, fraud and abuse of taxpayer dollars.

Much of this funding flows through the prime contractors and grantees to subcontractors and sub-grantees.

The bill applies to subcontractors' existing prohibitions on reimbursable costs for contractors, including in their defense against retaliation claims by whistleblowers.

Federal taxpayers should not foot the legal bills for contractors who retaliate against employees that report waste, fraud and abuse of taxpayer dollars.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. CHAFFETZ) that the House suspend the rules and pass the bill, S. 795.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

#### “APOLLO 11” 50TH ANNIVERSARY COMMEMORATIVE COIN ACT

Mr. POSEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2726) to require the Secretary of the Treasury to mint commemorative coins in recognition of the 50th anniversary of the first manned landing on the Moon, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2726

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

# SECTION 1. SHORT TITLE.

This Act may be cited as the “Apollo 11 50th Anniversary Commemorative Coin Act”.

# SEC. 2. FINDINGS.

The Congress finds the following:

(1) On July 16, 1969, the Apollo 11 spacecraft launched from Launch Complex 39A at the John F. Kennedy Space Center carrying Neil Armstrong, Buzz Aldrin, and Michael Collins, who would become the first of mankind to complete a crewed lunar landing.

(2) The United States is the only country ever to have attempted and succeeded in landing humans on a celestial body off the Earth and safely returning them home, completing an unprecedented engineering, scientific and political achievement.

(3) The Apollo 11 mission, culminating in man’s first steps on the Moon on July 20, 1969, honored the fallen astronauts of the Apollo 1 crew, whose innovative work and bravery will be remembered forever.

(4) Apollo 11 accomplished the national goal set forth in 1961 by President John F. Kennedy, who stated at Rice University the following year, “We choose to go to the Moon. We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard, because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win”.

(5) At the height of the Cold War, the Apollo space program provided the United States and the free world with a powerful symbolic win, demonstrating the strength, ambition, and determination of the United States in technological and economic advancement, and securing our Nation’s leadership in space for generations to come.

(6) The National Aeronautics and Space Administration’s (referred to in this Act as “NASA”) Marshall Space Flight Center in Huntsville, Alabama, designed, assembled, and tested the most powerful launch vehicle in history, the Saturn V rocket, which was used for the Apollo missions in the 1960s and 1970s.

(7) The Saturn V weighed 6,200,000 pounds and generated 7,600,000 pounds of thrust, which NASA has equated to generating more power than 86 Hoover Dams.

(8) During the time period from 1969 through 1972, NASA completed eight Apollo missions and landed 12 men on the Moon. The six missions that landed on the Moon returned with a wealth of groundbreaking scientific data and over 800 pounds of lunar samples.

(9) An estimated 400,000 Americans contributed to the successful program that led to the lunar landing on July 20, 1969, including NASA scientists, engineers, astronauts, industry contractors and their engineering and manufacturing workforce, as well as the political leadership of Republicans and Democrats in Congress and the White House.

(10) The Apollo program, along with its predecessor Mercury and Gemini programs, inspired generations of American students to pursue careers in science, technology, engineering, and mathematics (STEM), which has fueled innovation and economic growth throughout a range of industries over the last four decades.

(11) July 20, 2019, will mark the 50th anniversary of the Apollo 11 landing of Neil Armstrong and Buzz Aldrin on the lunar surface.

# SEC. 3. COIN SPECIFICATIONS.

(a) DENOMINATIONS.—In recognition and celebration of the 50th anniversary of the first manned Moon landing, the Secretary of the Treasury (hereafter in this Act referred to as the “Secretary”) shall mint and issue the following coins:

(1) \$5 GOLD COINS.—Not more than 50,000 \$5 coins, which shall—

(A) weigh 8.359 grams;

(B) be struck on a planchet having a diameter of 0.850 inches; and

(C) contain not less than 90 percent gold.

(2) \$1 SILVER COINS.—Not more than 400,000 \$1 coins, which shall—

(A) weigh 26.73 grams;

(B) be struck on a planchet having a diameter of 1.500 inches; and

(C) contain not less than 90 percent silver.

(3) HALF-DOLLAR CLAD COINS.—Not more than 750,000 half-dollar coins which shall—

(A) weigh 11.34 grams;

(B) be struck on a planchet having a diameter of 1.205 inches; and

(C) be minted to the specifications for half-dollar coins contained in section 5112(b) of title 31, United States Code.

(4) PROOF SILVER \$1 COINS.—Not more than 100,000 proof \$1 silver coins which shall—

(A) weigh 5 ounces;

(B) be struck on a planchet having a diameter of 3 inches; and

(C) contain .999 fine silver.

(b) LEGAL TENDER.—The coins minted under this Act shall be legal tender, as provided in section 5103 of title 31, United States Code.

(c) NUMISMATIC ITEMS.—For purposes of sections 5134 and 5136 of title 31, United States Code, all coins minted under this Act shall be considered to be numismatic items.

(d) CONVEX SHAPE.—

(1) IN GENERAL.—The coins minted under this Act shall be produced in a fashion similar to the 2014 National Baseball Hall of Fame 75th Anniversary Commemorative Coin, so that the reverse of the coin is convex to more closely resemble the visor of the astronaut’s helmet of the time and the obverse concave, providing a more dramatic display of the obverse design chosen pursuant to section 4(c).

(2) SENSE OF CONGRESS.—It is the sense of Congress that, to the extent possible without significantly adding to the purchase price of the coins, the coins minted under this Act should be produced with the design of the reverse of the coins continuing over what would otherwise be the edge of the coins, such that the reverse design extends all the way to the obverse design.

# SEC. 4. DESIGN OF COINS.

(a) IN GENERAL.—The design for the coins minted under this Act shall be—

(1) selected by the Secretary after consultation with—

(A) the Commission of Fine Arts; and

(B) with respect to the design of the reverse of the coins, the Administrator of NASA; and

(2) reviewed by the Citizens Coinage Advisory Committee.

(b) DESIGNATIONS AND INSCRIPTIONS.—On each coin minted under this Act there shall be—

(1) a designation of the denomination of the coin;

(2) an inscription of the year “2019”; and

(3) inscriptions of the words “Liberty”, “In God We Trust”, “United States of America”, and “E Pluribus Unum”.

(c) SELECTION AND APPROVAL PROCESS FOR OBTVERSE DESIGN.—

(1) IN GENERAL.—The Secretary shall hold a juried, compensated competition to determine the design of the common obverse of the coins minted under this Act, with such design being emblematic of the United States space program leading up to the first manned Moon landing.

(2) SELECTION PROCESS.—Proposals for the obverse design of coins minted under this Act may be submitted in accordance with the design selection and approval process developed by the Secretary in the sole discretion of the Secretary.

(3) PROPOSALS.—As part of the competition described in this subsection, the Secretary may accept proposals from artists, engravers of the United States Mint, and members of the general public, and any designs submitted for the design review process described herein shall be anonymized until a final selection is made.

(4) COMPENSATION.—The Secretary shall determine compensation for the winning design under this subsection, which shall be not less than \$5,000.

(d) REVERSE DESIGN.—The design on the common reverse of the coins minted under this Act shall be a representation of a close-up of the famous “Buzz Aldrin on the Moon” photograph taken July 20, 1969, that shows just the visor and part of the helmet of astronaut Buzz Aldrin, in which the visor has a mirrored finish and reflects the image of the United States flag and the lunar lander and the remainder of the helmet has a frosted finish.

# SEC. 5. ISSUANCE OF COINS.

(a) QUALITY OF COINS.—Except with respect to coins described under section 3(a)(4), coins minted under this Act shall be issued in uncirculated and proof qualities.

(b) PERIOD FOR ISSUANCE.—The Secretary may issue coins minted under this Act only during the 1-year period beginning on January 1, 2019.

# SEC. 6. SALE OF COINS.

(a) SALE PRICE.—The coins issued under this Act shall be sold by the Secretary at a price equal to the sum of—

(1) the face value of the coins;

(2) the surcharge provided in section 7(a) with respect to such coins; and

(3) the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, winning design compensation, overhead expenses, marketing, and shipping).

(b) BULK SALES.—The Secretary shall make bulk sales of the coins issued under this Act at a reasonable discount.

(c) PREPAID ORDERS.—

(1) IN GENERAL.—The Secretary shall accept prepaid orders for the coins minted under this Act before the issuance of such coins.

(2) DISCOUNT.—Sale prices with respect to prepaid orders under paragraph (1) shall be at a reasonable discount.

# SEC. 7. SURCHARGES.

(a) IN GENERAL.—All sales of coins minted under this Act shall include a surcharge as follows:

(1) A surcharge of \$35 per coin for the \$5 coin.

(2) A surcharge of \$10 per coin for the \$1 coin described under section 3(a)(2).

(3) A surcharge of \$5 per coin for the half-dollar coin.

(4) A surcharge of \$50 per coin for the \$1 coin described under section 3(a)(4).

(b) DISTRIBUTION.—Subject to section 5134(f) of title 31, United States Code, all surcharges received by the Secretary from the

sale of coins issued under this Act shall be promptly paid by the Secretary as follows:

(1) one half to the Smithsonian Institution's National Air and Space Museum's "Destination Moon" exhibit, for design, education, and installation costs related to establishing and maintaining the exhibit, and for costs related to creating a traveling version of the exhibition;

(2) one quarter to the Astronauts Memorial Foundation, for costs related to the preservation, maintenance, and enhancement of the Astronauts Memorial and for promotion of space exploration through educational initiatives; and

(3) one quarter to the Astronaut Scholarship Foundation, to aid its missions of promoting the importance of science and technology to the general public and of aiding the United States in retaining its world leadership in science and technology by providing college scholarships for the very best and brightest students pursuing degrees in science, technology, engineering, or mathematics (STEM).

(c) AUDITS.—The recipients described under subsection (b) shall be subject to the audit requirements of section 5134(f)(2) of title 31, United States Code, with regard to the amounts received under subsection (b).

(d) LIMITATION.—Notwithstanding subsection (a), no surcharge may be included with respect to the issuance under this Act of any coin during a calendar year if, as of the time of such issuance, the issuance of such coin would result in the number of commemorative coin programs issued during such year to exceed the annual commemorative coin program issuance limitation under section 5112(m)(1) of title 31, United States Code (as in effect on the date of the enactment of this Act). The Secretary of the Treasury may issue guidance to carry out this subsection.

#### SEC. 8. FINANCIAL ASSURANCES.

The Secretary shall take such actions as may be necessary to ensure that—

(1) minting and issuing coins under this Act will not result in any net cost to the United States Government; and

(2) no funds, including applicable surcharges, are disbursed to any recipient designated in section 7 until the total cost of designing and issuing all of the coins authorized by this Act (including labor, materials, dies, use of machinery, winning design compensation, overhead expenses, marketing, and shipping) is recovered by the United States Treasury, consistent with sections 5112(m) and 5134(f) of title 31, United States Code.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. POSEY) and the gentlewoman from New York (Ms. VELÁZQUEZ) each will control 20 minutes.

The Chair recognizes the gentleman from Florida.

#### GENERAL LEAVE

Mr. POSEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. POSEY. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 2726, the Apollo 11 50th Anniversary Commemorative Coin Act, which I introduced, along with my colleague from Florida, Congresswoman FREDERICA WILSON. This has been a truly bipartisan endeavor, with 298 total cosponsors.

In 1961, President John F. Kennedy challenged the Nation with the following words:

"We choose to go to the Moon. We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard, because that goal will serve to organize and measure the best of our energies and skills, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win. . . ."

That famous speech launched the Apollo program but, more importantly, it galvanized our Nation and united us into accomplishing perhaps the greatest technological achievement in human history, and it was truly a national undertaking. An estimated 400,000 men and women from across the United States contributed to the effort. Components of the Saturn V rocket, command and service module, lunar landing module, and other critical parts were literally manufactured from every State in the Union—from Huntsville, Alabama, to Seal Beach, California; New Orleans, Louisiana, to Cedar Rapids, Iowa; and everywhere in between.

On July 16, 1969, a mere 8 years after the first American, Alan Shepard, traveled into space, a Saturn V rocket blasted off from Merritt Island, Florida, and raced to the Moon. Four days later, astronauts Neil Armstrong and Buzz Aldrin landed on the lunar surface as Michael Collins stood watch.

This legislation commemorates our Nation's commitment to space exploration, our pioneering spirit, and our unmatched ingenuity. The United States' leadership in space exploration has benefited our country's national security and economy, strengthened our international relationships, advanced scientific discovery and technology, and vastly improved life here on Earth for practically everyone.

American space exploration continues to inspire our next generation of pioneers and innovators. As such, we were deliberate in our efforts to ensure that the sale of these coins would support efforts to grow the next generation of space explorers while also honoring the courage and sacrifice of NASA astronauts lost in the line of duty.

This legislation would authorize the minting and sale in 2019 of a limited number of gold, silver, and clad coins in commemoration of the *Apollo 11* mission. The coins would be domed, with the reverse featuring a representation of a spacesuit visor similar to the famous Buzz Aldrin on the Moon photograph.

After all taxpayer costs are satisfied, surcharges on the sales price of the coins will fund college scholarships for our future scientists, engineers, and astronauts, support educational initiatives that promote space exploration, honor astronauts who have fallen in the line of duty, and memorialize this historical event through a stimulating new museum exhibit.

Mr. Speaker, July 20, 2019, will mark the 50th anniversary of the landing of the *Eagle* lunar module on the Moon's surface. We remain the only country that has ever landed humans on the Moon and returned them safely to Earth.

□ 1645

This commemorative coin will celebrate what I feel is the most awe-inspiring engineering and technological deed of the 20th century. I urge its immediate support.

Mr. Speaker, I reserve the balance of my time.

COMMITTEE ON WAYS AND MEANS,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 5, 2016.

Hon. JEB HENSARLING,  
Chairman, Committee on Financial Services,  
Washington, DC.

DEAR CHAIRMAN HENSARLING: I am writing with respect to H.R. 2726, the "Apollo 11 50th Anniversary Commemorative Coin Act." This bill contains provisions within the Rule X jurisdiction of the Committee on Ways and Means.

The Committee on Ways and Means will not seek a sequential referral on H.R. 2726 so that it may proceed expeditiously to the House floor for consideration. This is done with the understanding that the jurisdictional interests of the Committee on Ways and Means over this and similar legislation are in no way diminished or altered. In addition, the Committee reserves the right to seek conferees on H.R. 2726 and requests your support when such a request is made.

I would appreciate your response confirming this understanding with respect to H.R. 2726 and ask that a copy of our exchange of letters on this matter be included in the Congressional Record during consideration of the bill on the House floor.

Sincerely,

KEVIN BRADY,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON FINANCIAL SERVICES,  
Washington, DC, December 5, 2016.

Hon. KEVIN BRADY,  
Chairman, Committee on Ways and Means,  
Washington, DC.

DEAR CHAIRMAN BRADY: Thank you for your December 5th letter regarding H.R. 2726, the "Apollo 11 50th Anniversary Commemorative Coin Act."

I am most appreciative of your decision to forego action on H.R. 2726 so that it may move expeditiously to the House floor. I acknowledge that although you are waiving action on the bill, the Committee on Ways and Means is in no way waiving its jurisdictional interest in this or similar legislation. In addition, if a conference is necessary on this legislation, I will support any request that your committee be represented therein.

Finally, I shall be pleased to include your letter and this letter on H.R. 2726 in the Congressional Record during floor consideration of the same.

Sincerely,

JEB HENSARLING,  
Chairman.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON THE BUDGET,  
Washington, DC, November 29, 2016.

Hon. JEB HENSARLING,  
Chairman, Committee on Financial Services,  
House of Representatives, Washington, DC.

DEAR CHAIRMAN HENSARLING: I am writing concerning H.R. 2726, the Apollo 11: 50th Anniversary Commemorative Coin Act, which the House is expected to consider the week of December 5th.

Section 9 of the bill includes budgetary compliance language, which falls under the jurisdiction of the Committee on the Budget. It is my understanding that this language will be removed from the bill prior to House consideration. In order to expedite House consideration of H.R. 2726, the Committee will forgo action on the bill. This is being done with the understanding that it does not in any way prejudice the Committee with respect to its jurisdictional prerogatives on this or similar legislation.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 2726 and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during floor consideration.

Sincerely,

TOM PRICE, M.D.,  
Chairman, Committee on the Budget.

HOUSE OF REPRESENTATIVES,  
COMMITTEE FINANCIAL SERVICES,  
Washington, DC, November 30, 2016.

Hon. TOM PRICE,  
Chairman, Committee on the Budget,  
Washington, DC.

DEAR CHAIRMAN PRICE: Thank you for your November 30th letter regarding H.R. 2726, the "Apollo 11 50th Anniversary Commemorative Coin Act."

I am most appreciative of your decision to forego action on H.R. 2726 so that it may move expeditiously to the House floor. I acknowledge that although you are waiving action on the bill, the Committee on the Budget is in no way waiving its jurisdictional interest in this or similar legislation. In addition, if a conference is necessary on this legislation, I will support any request that your committee be represented therein.

Finally, I shall be pleased to include your letter and this letter on H.R. 2726 in the Congressional Record during floor consideration of the same.

Sincerely,

JEB HENSARLING,  
Chairman.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to speak in favor of H.R. 2726, legislation that will authorize the issuance of gold, silver, and clad coins in commemoration of the 50th anniversary of the first time in history that mankind successfully completed a crewed lunar landing.

The *Apollo 11* mission was a momentous occasion in its own right, but it was also a bittersweet achievement, as it also served as a reminder of the first

*Apollo* mission, whose courage we will never forget.

I am pleased that, in addition to honoring the *Apollo 11* crew, the legislation before us today also recognizes the estimated 400,000 Americans who contributed to make possible the *Apollo 11* mission. By calling on the Treasury Department to mint and issue coins in honor of *Apollo 11*, I hope that we will continue to remind all Americans of the boundlessness of what can be achieved when we set our sights high and, quite literally, aim for the Moon.

I also hope the coin minted as part of this legislation will show our young people just how exciting the fields of science, mathematics, and engineering can be and how critical they are to building a brighter future for all.

By ensuring that a quarter of the proceeds raised will be made available to the Astronaut Scholarship Foundation to make college scholarships available for students pursuing degrees in science, technology, engineering, and mathematics, the legislation before us will make one step towards opening up these fields to our best and brightest.

The remaining surcharges associated with the sale of the coins will go towards the Smithsonian Institution's National Air and Space Museum's Destination Moon exhibit and be provided to the Astronauts Memorial Foundation for maintenance of the memorial and to further educational initiatives.

For these reasons, I hope all Members will support the legislation before us.

Mr. Speaker, I yield 3 minutes to the gentlewoman from Florida (Ms. WILSON), who has been a champion for this important legislation.

Ms. WILSON of Florida. Mr. Speaker, I rise today to express my full support for the passage of H.R. 2726, the *Apollo 11* 50th Anniversary Commemorative Coin Act.

I want to thank my longtime friend and Florida colleague, Representative POSEY, for his outstanding leadership as the sponsor of this bill. I am proud to have worked very closely with him to build bipartisan support for this legislation. I also want to thank Speaker RYAN, Chairman HENSARLING, Ranking Member WATERS, and the Financial Services Committee for their work to bring this bill to the floor.

Mr. Speaker, the bill before us today authorizes the minting and distribution of commemorative coins to celebrate the 50th anniversary of the first manned lunar landing mission, *Apollo 11*. These coins will honor *Apollo 11* crew members, Michael Collins, Buzz Aldrin, and Neil Armstrong; NASA scientists, engineers, and astronauts; and the other 400,000 Americans who made the mission possible.

Surcharges from the sale of these coins will further our commitment to promote STEM education, space explo-

ration, and science discovery. It will honor astronauts who lost their lives in service of our country and support the Destination Moon exhibit, which will feature exciting *Apollo 11* artifacts.

As a former elementary school principal and leading advocate for STEM education, I am very happy that this bill supports college scholarships for future scientists, engineers, and astronauts.

Mr. Speaker, the *Apollo 11* mission is a testament to our values as Americans. The mission's success reminded the world of our commitment to hard work, determination, and patriotism.

When many questioned whether we could rise to the challenge of putting a man on the Moon within a decade, we came together, worked our hardest, and achieved this daunting task in just 8 years. We left the world in awe and wonder.

When our astronauts were 4 miles past the designated landing spot and mission control told them that they had just 60 seconds of fuel left before the landing would have to be aborted, they did not panic. With unrelenting resolve, they managed to land on the Moon with only 17 seconds to spare. When Buzz Aldrin and Neil Armstrong planted our flag on the Moon, millions of Americans felt a sense of pride that was exhilarating and inspiring.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. VELÁZQUEZ. Mr. Speaker, I yield the gentlewoman an additional 30 seconds.

Ms. WILSON of Florida. As Members of Congress, we should look to *Apollo 11* as inspiration as we work to tackle challenges that seem unsurmountable. I urge all of my colleagues to join me in voting for this bipartisan legislation, which has 298 cosponsors and the support of Buzz Aldrin and Michael Collins, *Apollo 11*'s two surviving astronauts.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, basically, I will say that it is an honor for me to support this bill and this legislation. I ask all my colleagues to support it.

Mr. Speaker, I yield back the balance of my time.

Mr. POSEY. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, we owe a debt of gratitude to the brave astronauts of the *Apollo* program, some of whom made the ultimate sacrifice in the line of duty. We are beholden to the hundreds of thousands of men and women who, when challenged to go to the Moon in this decade, accepted the challenge with a passion and a resolve that accomplished that which was thought unachievable.

I want to thank the chairman and the ranking member for their leadership and support of this legislation. Of course, finally, I want to express my

sincere gratitude to my longtime friend and colleague from Florida, (Ms. WILSON), for her staunch support and tireless efforts to ensure that this remarkable achievement is commemorated.

Mr. Speaker, we have one opportunity to celebrate this historical event with a commemorative coin. I urge my colleagues to join me in supporting this bill.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. POSEY) that the House suspend the rules and pass the bill, H.R. 2726, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## CREATING FINANCIAL PROSPERITY FOR BUSINESSES AND INVESTORS ACT

Mr. GARRETT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6427) to improve the operation of United States capital markets, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6427

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Creating Financial Prosperity for Businesses and Investors Act”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

#### TITLE I—SMALL BUSINESS CAPITAL FORMATION ENHANCEMENT

Sec. 101. Annual review of government-business forum on capital formation.

#### TITLE II—SEC SMALL BUSINESS ADVOCATE

Sec. 201. Establishment of Office of the Advocate for Small Business Capital Formation and Small Business Capital Formation Advisory Committee.

#### TITLE III—SUPPORTING AMERICA'S INNOVATORS

Sec. 301. Investor limitation for qualifying venture capital funds.

#### TITLE IV—FIX CROWDFUNDING

Sec. 401. Crowdfunding vehicles.

Sec. 402. Crowdfunding exemption from registration.

#### TITLE V—FAIR INVESTMENT OPPORTUNITIES FOR PROFESSIONAL EXPERTS

Sec. 501. Definition of accredited investor.

#### TITLE VI—U.S. TERRITORIES INVESTOR PROTECTION

Sec. 601. Termination of exemption.

### TITLE I—SMALL BUSINESS CAPITAL FORMATION ENHANCEMENT

#### SEC. 101. ANNUAL REVIEW OF GOVERNMENT-BUSINESS FORUM ON CAPITAL FORMATION.

Section 503 of the Small Business Investment Incentive Act of 1980 (15 U.S.C. 80c-1) is amended by adding at the end the following:

“(e) The Commission shall—

“(1) review the findings and recommendations of the forum; and

“(2) each time the forum submits a finding or recommendation to the Commission, promptly issue a public statement—

“(A) assessing the finding or recommendation of the forum; and

“(B) disclosing the action, if any, the Commission intends to take with respect to the finding or recommendation.”.

### TITLE II—SEC SMALL BUSINESS ADVOCATE

#### SEC. 201. ESTABLISHMENT OF OFFICE OF THE ADVOCATE FOR SMALL BUSINESS CAPITAL FORMATION AND SMALL BUSINESS CAPITAL FORMATION ADVISORY COMMITTEE.

(a) OFFICE OF THE ADVOCATE FOR SMALL BUSINESS CAPITAL FORMATION.—Section 4 of the Securities Exchange Act of 1934 (15 U.S.C. 78d) is amended by adding at the end the following:

“(j) OFFICE OF THE ADVOCATE FOR SMALL BUSINESS CAPITAL FORMATION.—

“(1) OFFICE ESTABLISHED.—There is established within the Commission the Office of the Advocate for Small Business Capital Formation (hereafter in this subsection referred to as the “Office”).

“(2) ADVOCATE FOR SMALL BUSINESS CAPITAL FORMATION.—

“(A) IN GENERAL.—The head of the Office shall be the Advocate for Small Business Capital Formation, who shall—

“(i) report directly to the Commission; and

“(ii) be appointed by the Commission, from among individuals having experience in advocating for the interests of small businesses and encouraging small business capital formation.

“(B) COMPENSATION.—The annual rate of pay for the Advocate for Small Business Capital Formation shall be equal to the highest rate of annual pay for other senior executives who report directly to the Commission.

“(C) NO CURRENT EMPLOYEE OF THE COMMISSION.—An individual may not be appointed as the Advocate for Small Business Capital Formation if the individual is currently employed by the Commission.

“(3) STAFF OF OFFICE.—The Advocate for Small Business Capital Formation, after consultation with the Commission, may retain or employ independent counsel, research staff, and service staff, as the Advocate for Small Business Capital Formation determines to be necessary to carry out the functions of the Office.

“(4) FUNCTIONS OF THE ADVOCATE FOR SMALL BUSINESS CAPITAL FORMATION.—The Advocate for Small Business Capital Formation shall—

“(A) assist small businesses and small business investors in resolving significant problems such businesses and investors may have with the Commission or with self-regulatory organizations;

“(B) identify areas in which small businesses and small business investors would benefit from changes in the regulations of the Commission or the rules of self-regulatory organizations;

“(C) identify problems that small businesses have with securing access to capital, including any unique challenges to minority-owned and women-owned small businesses;

“(D) analyze the potential impact on small businesses and small business investors of—

“(i) proposed regulations of the Commission that are likely to have a significant economic impact on small businesses and small business capital formation; and

“(ii) proposed rules that are likely to have a significant economic impact on small businesses and small business capital formation of self-regulatory organizations registered under this title;

“(E) conduct outreach to small businesses and small business investors, including through regional roundtables, in order to solicit views on relevant capital formation issues;

“(F) to the extent practicable, propose to the Commission changes in the regulations or orders of the Commission and to Congress any legislative, administrative, or personnel changes that may be appropriate to mitigate problems identified under this paragraph and to promote the interests of small businesses and small business investors;

“(G) consult with the Investor Advocate on proposed recommendations made under subparagraph (F); and

“(H) advise the Investor Advocate on issues related to small businesses and small business investors.

“(5) ACCESS TO DOCUMENTS.—The Commission shall ensure that the Advocate for Small Business Capital Formation has full access to the documents and information of the Commission and any self-regulatory organization, as necessary to carry out the functions of the Office.

“(6) ANNUAL REPORT ON ACTIVITIES.—

“(A) IN GENERAL.—Not later than December 31 of each year after 2016, the Advocate for Small Business Capital Formation shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives a report on the activities of the Advocate for Small Business Capital Formation during the immediately preceding fiscal year.

“(B) CONTENTS.—Each report required under subparagraph (A) shall include—

“(i) appropriate statistical information and full and substantive analysis;

“(ii) information on steps that the Advocate for Small Business Capital Formation has taken during the reporting period to improve small business services and the responsiveness of the Commission and self-regulatory organizations to small business and small business investor concerns;

“(iii) a summary of the most serious issues encountered by small businesses and small business investors, including any unique issues encountered by minority-owned and women-owned small businesses and their investors, during the reporting period;

“(iv) an inventory of the items summarized under clause (iii) (including items summarized under such clause for any prior reporting period on which no action has been taken or that have not been resolved to the satisfaction of the Advocate for Small Business Capital Formation as of the beginning of the reporting period covered by the report) that includes—

“(I) identification of any action taken by the Commission or the self-regulatory organization and the result of such action;

“(II) the length of time that each item has remained on such inventory; and

“(III) for items on which no action has been taken, the reasons for inaction, and an identification of any official who is responsible for such action;

“(v) recommendations for such changes to the regulations, guidance and orders of the

Commission and such legislative actions as may be appropriate to resolve problems with the Commission and self-regulatory organizations encountered by small businesses and small business investors and to encourage small business capital formation; and

“(vi) any other information, as determined appropriate by the Advocate for Small Business Capital Formation.

“(C) CONFIDENTIALITY.—No report required by subparagraph (A) may contain confidential information.

“(D) INDEPENDENCE.—Each report required under subparagraph (A) shall be provided directly to the committees of Congress listed in such subparagraph without any prior review or comment from the Commission, any commissioner, any other officer or employee of the Commission, or the Office of Management and Budget.

“(7) REGULATIONS.—The Commission shall establish procedures requiring a formal response to all recommendations submitted to the Commission by the Advocate for Small Business Capital Formation, not later than 3 months after the date of such submission.

“(8) GOVERNMENT-BUSINESS FORUM ON SMALL BUSINESS CAPITAL FORMATION.—The Advocate for Small Business Capital Formation shall be responsible for planning, organizing, and executing the annual Government-Business Forum on Small Business Capital Formation described in section 503 of the Small Business Investment Incentive Act of 1980 (15 U.S.C. 80c-1).

“(9) RULE OF CONSTRUCTION.—Nothing in this subsection may be construed as replacing or reducing the responsibilities of the Investor Advocate with respect to small business investors.”.

(b) SMALL BUSINESS CAPITAL FORMATION ADVISORY COMMITTEE.—Title I of the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) is amended by adding at the end the following:

**“SEC. 40. SMALL BUSINESS CAPITAL FORMATION ADVISORY COMMITTEE.**

“(a) ESTABLISHMENT AND PURPOSE.—

“(1) ESTABLISHMENT.—There is established within the Commission the Small Business Capital Formation Advisory Committee (hereafter in this section referred to as the ‘Committee’).

“(2) FUNCTIONS.—

“(A) IN GENERAL.—The Committee shall provide the Commission with advice on the Commission’s rules, regulations, and policies with regard to the Commission’s mission of protecting investors, maintaining fair, orderly, and efficient markets, and facilitating capital formation, as such rules, regulations, and policies relate to—

“(i) capital raising by emerging, privately held small businesses (‘emerging companies’) and publicly traded companies with less than \$250,000,000 in public market capitalization (‘smaller public companies’) through securities offerings, including private and limited offerings and initial and other public offerings;

“(ii) trading in the securities of emerging companies and smaller public companies; and

“(iii) public reporting and corporate governance requirements of emerging companies and smaller public companies.

“(B) LIMITATION.—The Committee shall not provide any advice with respect to any policies, practices, actions, or decisions concerning the Commission’s enforcement program.

“(b) MEMBERSHIP.—

“(1) IN GENERAL.—The members of the Committee shall be—

“(A) the Advocate for Small Business Capital Formation;

“(B) not fewer than 10, and not more than 20, members appointed by the Commission, from among individuals—

“(i) who represent—

“(I) emerging companies engaging in private and limited securities offerings or considering initial public offerings (‘IPO’) (including the companies’ officers and directors);

“(II) the professional advisors of such companies (including attorneys, accountants, investment bankers, and financial advisors); and

“(III) the investors in such companies (including angel investors, venture capital funds, and family offices);

“(ii) who are officers or directors of minority-owned small businesses or women-owned small businesses;

“(iii) who represent—

“(I) smaller public companies (including the companies’ officers and directors);

“(II) the professional advisors of such companies (including attorneys, auditors, underwriters, and financial advisors); and

“(III) the pre-IPO and post-IPO investors in such companies (both institutional, such as venture capital funds, and individual, such as angel investors); and

“(iv) who represent participants in the marketplace for the securities of emerging companies and smaller public companies, such as securities exchanges, alternative trading systems, analysts, information processors, and transfer agents; and

“(C) three non-voting members—

“(i) one of whom shall be appointed by the Investor Advocate;

“(ii) one of whom shall be appointed by the North American Securities Administrators Association; and

“(iii) one of whom shall be appointed by the Administrator of the Small Business Administration.

“(2) TERM.—Each member of the Committee appointed under subparagraph (B), (C)(ii), or (C)(iii) of paragraph (1) shall serve for a term of 4 years.

“(3) MEMBERS NOT COMMISSION EMPLOYEES.—Members appointed under subparagraph (B), (C)(ii), or (C)(iii) of paragraph (1) shall not be treated as employees or agents of the Commission solely because of membership on the Committee.

“(c) CHAIRMAN; VICE CHAIRMAN; SECRETARY; ASSISTANT SECRETARY.—

“(1) IN GENERAL.—The members of the Committee shall elect, from among the members of the Committee—

“(A) a chairman;

“(B) a vice chairman;

“(C) a secretary; and

“(D) an assistant secretary.

“(2) TERM.—Each member elected under paragraph (1) shall serve for a term of 3 years in the capacity for which the member was elected under paragraph (1).

“(d) MEETINGS.—

“(1) FREQUENCY OF MEETINGS.—The Committee shall meet—

“(A) not less frequently than four times annually, at the call of the chairman of the Committee; and

“(B) from time to time, at the call of the Committee.

“(2) NOTICE.—The chairman of the Committee shall give the members of the Committee written notice of each meeting, not later than 2 weeks before the date of the meeting.

“(e) COMPENSATION AND TRAVEL EXPENSES.—Each member of the Committee

who is not a full-time employee of the United States shall—

“(1) be entitled to receive compensation at a rate not to exceed the daily equivalent of the annual rate of basic pay in effect for a position at level V of the Executive Schedule under section 5316 of title 5, United States Code, for each day during which the member is engaged in the actual performance of the duties of the Committee; and

“(2) while away from the home or regular place of business of the member in the performance of services for the Committee, be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703 of title 5, United States Code.

“(f) STAFF.—The Commission shall make available to the Committee such staff as the chairman of the Committee determines are necessary to carry out this section.

“(g) REVIEW BY COMMISSION.—The Commission shall—

“(1) review the findings and recommendations of the Committee; and

“(2) each time the Committee submits a finding or recommendation to the Commission, promptly issue a public statement—

“(A) assessing the finding or recommendation of the Committee; and

“(B) disclosing the action, if any, the Commission intends to take with respect to the finding or recommendation.

“(h) FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply with respect to the Committee and its activities.”.

(c) ANNUAL GOVERNMENT-BUSINESS FORUM ON SMALL BUSINESS CAPITAL FORMATION.—Section 503(a) of the Small Business Investment Incentive Act of 1980 (15 U.S.C. 80c-1(a)) is amended by inserting “(acting through the Office of the Advocate for Small Business Capital Formation and in consultation with the Small Business Capital Formation Advisory Committee)” after “Securities and Exchange Commission”.

**TITLE III—SUPPORTING AMERICA’S INNOVATORS**

**SEC. 301. INVESTOR LIMITATION FOR QUALIFYING VENTURE CAPITAL FUNDS.**

Section 3(c)(1) of the Investment Company Act of 1940 (15 U.S.C. 80a-3(c)(1)) is amended—

(1) by inserting after “one hundred persons” the following: “(or, with respect to a qualifying venture capital fund, 250 persons)”; and

(2) by adding at the end the following:

“(C) The term ‘qualifying venture capital fund’ means any venture capital fund (as defined pursuant to section 203(1)(1) of the Investment Advisers Act of 1940 (15 U.S.C. 80b-3(1)(1)) with no more than \$10,000,000 in invested capital, as such dollar amount is annually adjusted by the Commission to reflect the change in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor.”.

**TITLE IV—FIX CROWDFUNDING**

**SEC. 401. CROWDFUNDING VEHICLES.**

(a) AMENDMENTS TO THE SECURITIES ACT OF 1933.—The Securities Act of 1933 (15 U.S.C. 77a et seq.) is amended—

(1) in section 4A(f)(3), by inserting “by any of paragraphs (1) through (14) of” before “section 3(c)”; and

(2) in section 4(a)(6)(B), by inserting after “any investor” the following: “, other than a crowdfunding vehicle (as defined in section 2(a) of the Investment Company Act of 1940),”.

(b) AMENDMENTS TO THE INVESTMENT COMPANY ACT OF 1940.—The Investment Company Act of 1940 (15 U.S.C. 80a-1 et seq.) is amended—

(1) in section 2(a), by adding at the end the following:

“(55) The term ‘crowdfunding vehicle’ means a company—

“(A) whose purpose (as set forth in its organizational documents) is limited to acquiring, holding, and disposing securities issued by a single company in one or more transactions and made pursuant to section 4(a)(6) of the Securities Act of 1933;

“(B) which issues only one class of securities;

“(C) which receives no compensation in connection with such acquisition, holding, or disposition of securities;

“(D) no associated person of which receives any compensation in connection with such acquisition, holding or disposition of securities unless such person is acting as or on behalf of an investment adviser registered under the Investment Advisers Act of 1940 or registered as an investment adviser in the State in which the investment adviser maintains its principal office and place of business;

“(E) the securities of which have been issued in a transaction made pursuant to section 4(a)(6) of the Securities Act of 1933, where both the crowdfunding vehicle and the company whose securities it holds are co-issuers;

“(F) which is current in its ongoing disclosure obligations under Rule 202 of Regulation Crowdfunding (17 C.F.R. 227.202);

“(G) the company whose securities it holds is current in its ongoing disclosure obligations under Rule 202 of Regulation Crowdfunding (17 C.F.R. 227.202); and

“(H) is advised by an investment adviser registered under the Investment Advisers Act of 1940 or registered as an investment adviser in the State in which the investment adviser maintains its principal office and place of business.”; and

(2) in section 3(c), by adding at the end the following:

“(15) Any crowdfunding vehicle.”.

#### **SEC. 402. CROWDFUNDING EXEMPTION FROM REGISTRATION.**

Section 12(g)(6) of the Securities Exchange Act of 1934 (15 U.S.C. 78l(g)(6)) is amended—

(1) by striking “The Commission” and inserting the following:

“(A) IN GENERAL.—The Commission”;

(2) by striking “section 4(6)” and inserting “section 4(a)(6)”;

(3) by adding at the end the following:

“(B) TREATMENT OF SECURITIES ISSUED BY CERTAIN ISSUERS.—An exemption under subparagraph (A) shall be unconditional for securities offered by an issuer that had a public float of less than \$75,000,000 as of the last business day of the issuer’s most recently completed semiannual period, computed by multiplying the aggregate worldwide number of shares of the issuer’s common equity securities held by non-affiliates by the price at which such securities were last sold (or the average bid and asked prices of such securities) in the principal market for such securities or, in the event the result of such public float calculation is zero, had annual revenues of less than \$50,000,000 as of the issuer’s most recently completed fiscal year.”.

#### **TITLE V—FAIR INVESTMENT OPPORTUNITIES FOR PROFESSIONAL EXPERTS**

##### **SEC. 501. DEFINITION OF ACCREDITED INVESTOR.**

Section 2(a)(15) of the Securities Act of 1933 (15 U.S.C. 77b(a)(15)) is amended—

(1) by redesignating clauses (i) and (ii) as subparagraphs (A) and (F), respectively; and

(2) in subparagraph (A) (as so redesignated), by striking “; or” and inserting a semicolon, and inserting after such subparagraph the following:

“(B) any natural person whose individual net worth, or joint net worth with that person’s spouse, exceeds \$1,000,000 (which amount, along with the amounts set forth in subparagraph (C), shall be adjusted for inflation by the Commission every 5 years to the nearest \$10,000 to reflect the change in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics) where, for purposes of calculating net worth under this subparagraph—

“(i) the person’s primary residence shall not be included as an asset;

“(ii) indebtedness that is secured by the person’s primary residence, up to the estimated fair market value of the primary residence at the time of the sale of securities, shall not be included as a liability (except that if the amount of such indebtedness outstanding at the time of sale of securities exceeds the amount outstanding 60 days before such time, other than as a result of the acquisition of the primary residence, the amount of such excess shall be included as a liability); and

“(iii) indebtedness that is secured by the person’s primary residence in excess of the estimated fair market value of the primary residence at the time of the sale of securities shall be included as a liability;

“(C) any natural person who had an individual income in excess of \$200,000 in each of the two most recent years or joint income with that person’s spouse in excess of \$300,000 in each of those years and has a reasonable expectation of reaching the same income level in the current year;

“(D) any natural person who is currently licensed or registered as a broker or investment adviser by the Commission, the Financial Industry Regulatory Authority, or an equivalent self-regulatory organization (as defined in section 3(a)(26) of the Securities Exchange Act of 1934), or the securities division of a State or the equivalent State division responsible for licensing or registration of individuals in connection with securities activities;

“(E) any natural person the Commission determines, by regulation, to have demonstrable education or job experience to qualify such person as having professional knowledge of a subject related to a particular investment, and whose education or job experience is verified by the Financial Industry Regulatory Authority or an equivalent self-regulatory organization (as defined in section 3(a)(26) of the Securities Exchange Act of 1934); or”.

#### **TITLE VI—U.S. TERRITORIES INVESTOR PROTECTION**

##### **SEC. 601. TERMINATION OF EXEMPTION.**

(a) IN GENERAL.—Section 6(a) of the Investment Company Act of 1940 (15 U.S.C. 80a-6(a)) is amended by striking paragraph (1).

(b) EFFECTIVE DATE AND SAFE HARBOR.—

(1) EFFECTIVE DATE.—Except as provided in paragraph (2), the amendment made by subsection (a) shall take effect on the date of the enactment of this Act.

(2) SAFE HARBOR.—With respect to a company that is exempt under section 6(a)(1) of the Investment Company Act of 1940 (15 U.S.C. 80a-6(a)(1)) on the day before the date of the enactment of this Act, the amendment made by subsection (a) shall take effect on the date that is 3 years after the date of the enactment of this Act.

(3) EXTENSION OF SAFE HARBOR.—The Securities and Exchange Commission, by rule and regulation upon its own motion, or by order upon application, may conditionally or unconditionally, under section 6(c) of the Investment Company Act of 1940 (15 U.S.C. 80a-6(c)), further delay the effective date for a company described in paragraph (2) for a maximum of 3 years following the initial 3-year period if, before the end of the initial 3-year period, the Commission determines that such a rule, regulation, motion, or order is necessary or appropriate in the public interest and for the protection of investors.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. GARRETT) and the gentlewoman from New York (Ms. VELÁZQUEZ) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

#### **GENERAL LEAVE**

Mr. GARRETT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. GARRETT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 6427, the Creating Financial Prosperity for Businesses and Investors Act. It is a compilation of legislative initiatives that the Financial Services Committee has worked on in a very constructive and bipartisan manner during the 114th Congress.

For 6 years, our committee, and, in particular, the Subcommittee on Capital Markets and Government Sponsored Enterprises, has sought to break through the bipartisan gridlock in Washington and to ensure that the SEC, or the Securities and Exchange Commission, fulfills an important part of its mission to facilitate capital formation.

For example, the JOBS Act of 2012, much of which originated in our committee, has already been a measurable success, as hundreds of companies have used its provisions to file for an initial public offering, and other businesses have been able to raise well over \$50 billion worth of capital through private channels.

Altogether, this translates to more growth, more innovation, and, most importantly, more jobs here for Americans who have been struggling in an economy that is producing only 1-2 percent growth, at best.

We didn’t stop at the JOBS Act, and both Republicans and Democrats on our committee came together and continued to generate good ideas that modernize our Nation’s security laws for the benefit of the small- and medium-sized enterprises, which often pay a disproportionate share of the costs that come along with regulation.

For example, during this Congress, our subcommittee has put forward nearly 40 bills to do just that, the vast majority of which gained, again, bipartisan support in both committee and here on the House floor. A year ago this month, a number of these measures were signed into law at the White House by the President.

Today, we bring together a package of another six bills on the House floor with the hopes that we, once again, can improve the environment in which entrepreneurs and small businesses can operate.

The provisions under H.R. 6427 include the following:

First, a bill from Mr. CARNEY and Mr. DUFFY that would create an Office of the Advocate for Small Business Capital Formation at the SEC. For too long, Mr. Speaker, the SEC has operated in a bureaucratic silo and ignored the needs of small and growing businesses and entrepreneurs. So we have Mr. DUFFY's bill, which gives small businesses a permanent voice at the SEC, and it passed out of committee unanimously by a vote of 56-0. It also passed in the House overwhelmingly.

Secondly, Mr. Speaker, is a bill from Mr. POLIQUIN that would require the SEC to respond to recommendations made at its annual government small business forum, ensuring that the SEC no longer simply ignores the ideas generated by small businesses at this event. This bill, again, passed our committee by a vote of 55-1 and passed the House by a vote of 390-1 earlier this year.

It also includes two bills from Mr. MCHENRY, who is on the floor and will be speaking later, one which would fix some of the more unworkable provisions of the crowd funding title of the JOBS Act, and a second bill that would modernize the threshold for when venture capital funds would have to register with the SEC. Again, there was huge bipartisan support, both passing out of committee 57-2 and garnering near-unanimous support here on the House floor.

There are two more.

Another title includes a bill from DAVE SCHWEIKERT that would reform the definition of an accredited investor for certain securities offerings so that it is not just the wealthy or the well-connected who are able to invest in these companies. This bill passed the House earlier, again, with near-unanimous support.

Finally, we have a bill from our Democratic colleague, Ms. VELÁZQUEZ, that would make a technical correction to an outdated law that exempts investment companies from having to register in U.S. territories.

In conclusion, Mr. Speaker, H.R. 6427 contains innovation and much-needed legislation to help get our economy off the slow growth track that it has been on for too long, and it continues the

good bipartisanship that our committee is known for.

I want to take this moment to thank all my colleagues over the years for their hard work and willingness to work with us in a bipartisan manner to move legislation like this.

□ 1700

In particular, I thank our chairman, JEB HENSARLING, for his tremendous leadership of our full Financial Services Committee and for all the work that he has done to improve our capital markets in this country and to create a financial system that works for the benefit of all Americans.

Mr. Speaker, I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 6427, a bipartisan package of commonsense measures that will help small businesses raise capital and better protect investors and retirees of the U.S. territories.

Today's bill contains numerous bipartisan solutions to ensure the SEC is more responsive to small business regulatory concerns. For example, it creates a new Office of the Advocate for Small Business Capital Formation and a new Small Business Advisory Committee. Taken together, these efforts will ensure the agency is more responsive to entrepreneurs' needs.

Furthermore, we have all heard that demand for small business capital outstrips supply. H.R. 6427 makes targeted changes to attract more investors to the small business market. By expanding definition of accredited investor, raising the investor cap on small venture capital funds, and making improvements to the equity crowdfunding rules implemented under the JOBS Act, this bill will help more startups and fast-growing businesses secure financing.

Beyond the small business provisions, today's bill will provide investors and retirees in Puerto Rico and other U.S. territories the same protections as their mainland counterparts. For 7 decades, the Investment Company Act of 1940 provided U.S. investors with basic safeguards, regulating everything from leverage limits to capitalization levels, to preventing conflicts of interest.

Due to a historical artifact, however, all funds located in and sold only to residents of U.S. territories are exempted from the act. The reason is U.S. territories were deemed to be too geographically distant from Washington, D.C. Obviously, the cost of air travel today is no longer an issue. Regulators routinely travel to Hawaii and Alaska to conduct oversight. In fact, SEC Chair White testified earlier this year that the exemption should be removed.

To close the loophole and provide territorial residents with the protections

they deserve, I introduced the U.S. Territories Investor Protection Act. Over the past year, we met with stakeholders, heard their concerns and further fine-tuned the bill.

Investment companies will have an initial 3-year compliance period, with an option at the approval of the SEC, for an additional 3 years. This balances investor protections while granting more than reasonable time for financial institutions to comply. It is important to note that if investment companies need further relief, they are able to request such a reprieve under existing law.

I thank Chairman HENSARLING, Ranking Member WATERS, and Congressman GARRETT for working with me on this provision. Their cooperation was critical to developing an approach that would apply the act in a manner sensitive to investors and investment companies alike.

In sum, I will argue that this is a strong bill. It will reduce compliance costs, facilitate access to capital for thousands of small businesses, and better protect investors and retirees in territories like Puerto Rico.

I urge Members to support this legislation, and I reserve the balance of my time.

Mr. GARRETT. Mr. Speaker, I yield such time as he may consume to the gentleman from North Carolina (Mr. MCHENRY). I appreciate all of his hard work for the JOBS Act and all the rest of his work as vice chair of the committee and the time together that we had.

Mr. MCHENRY. Mr. Speaker, I thank my colleague for his kind words and for his leadership on important issues in the capital markets.

Today I rise to support the Creating Financial Prosperity for Businesses and Investors Act.

Mr. Speaker, the title doesn't do the act justice. This is about helping families, communities, small businesses, entrepreneurs, those that are risk-takers in our society trying to make our society better, more prosperous, and helping families and communities like the one I represent in western North Carolina be better off. We need a growing economy to help families, to help small businesses, to help make us more prosperous as Americans.

So this act deals with a couple of those areas in particular for families, small businesses, and entrepreneurs so they can gain greater access to lending, to loans, to capital that they need to help businesses grow and create jobs.

Two of those bills, to that end, I authored earlier this year, which we passed with over 400 votes, as individual stand-alone items through the House of Representatives. Those two bills, Supporting America's Innovators Act, and the Fix Crowdfunding Act, in particular, amend existing securities

laws to make it easier for small businesses and entrepreneurs to use innovative forms of capital formation. Investment crowdfunding and angel investing are two of those areas, in particular, to support those ideas that enable us to create jobs.

Those two bills were a part of the larger package, that are a part of the innovation initiative that Leader MCCARTHY and I launched at the beginning of this year. A number of bills have moved through the House with wide bipartisan support that update outdated laws.

So, today, this package is an important step in the right direction; but our work is not done. We have to continue to work with our Federal regulators and Members on both sides of the aisle to ensure that we update and ensure investment crowdfunding, angel investing, and other areas of innovation can actually be better deployed across our society and to more people.

I urge my colleagues to vote “yes” and ensure this bipartisan bill has wide approval here in the House today.

Ms. VELÁZQUEZ. Mr. Speaker, I continue to reserve the balance of my time.

Mr. GARRETT. Mr. Speaker, I yield such time as he may consume to the gentleman from Arizona (Mr. SCHWEIKERT).

Mr. SCHWEIKERT. Mr. Speaker, I am here to speak about one of the ideas in this package that I have, shall we say, 5 or 6 years in; and the interesting thing, it was a conversation back and forth with a number of Democrats on the other side. It was one of those—it started as sort of a philosophical debate.

Often you hear us fussing at each other here on the floor, and we will get into these debates of, well, the concentration of wealth in the country; you know, the number of folks who now hold so much wealth.

Yet, if you take a step backwards and look at the way we have our laws set up in this country, we don’t decide that you get to invest in certain types of activities because of your talent. We don’t decide you get to invest in certain activities because you are an expert in the technology or the business model.

We actually have a series of rules that, if you have \$1 million, you and your wife have a certain income, then you are allowed to invest. You think about that. So if I came to you right now and said, I am going to judge you by the size of your bank account and not by your competence, that would be pretty outrageous.

I guess for years and years, none of us had really sort of talked about it, thought about it in that way, that the arbitrary rules that the SEC and we had allowed to continue were a world where we judged people by their wealth and then gave them additional oppor-

tunities instead of handing those same opportunities to people because of their expertise in investing or the technology, their expertise in understanding the risk profile of such technology. I am hoping that is where we are heading.

There was a number of compromises to make both sides feel comfortable, and that is actually one of the reasons we had such a bipartisan vote; and to that, I also thank my friend, Chairman GARRETT. I am going to miss you because you have worked hard to shepherd many of these concepts through for years now.

I think this is a great start because we are going to start judging our brothers and sisters by their talents and not necessarily their bank account size, and that is why I am so happy on this one.

Ms. VELÁZQUEZ. Mr. Speaker, I am prepared to close. I yield myself such time as I may consume.

Mr. Speaker, access to capital is the lifeblood of every business. By expanding the pool of accredited investors and venture capital firms, improving the equity crowdfunding rules, and giving small business a bigger voice in SEC decisionmaking, H.R. 6427 provides the tools necessary to inject much-needed equity capital into our Main Street businesses.

Finally, closing the U.S. territories loophole in the Investment Company Act of 1940 will harmonize regulatory oversight and give millions of investors and retirees, mostly in Puerto Rico, the peace of mind that their hard-earned money will receive the same level of protection afforded to those on the mainland.

I thank the chairman, ranking member, and all of the cosponsors for their hard work in bringing this bipartisan package to the floor. I urge Members to support this bill, and I yield back the balance of my time.

Mr. GARRETT. Mr. Speaker, I yield myself such time as I may consume.

I rise again to support the legislation. It dawns on me also that, as I rise today, this may be the last time that I rise on the floor. So let me just say what an honor it has been to stand at this podium to bring forth legislation like this, as I have done over the last 14 years, and to end where I began, to do so in a bipartisan manner, that they tell me we should be able to pass through today in a pretty overwhelmingly bipartisan manner as well.

The gentleman from Arizona ended his remarks with the statement: Every day is a new beginning.

So I look at that as my days ahead. This legislation is a new beginning for capital formation and is a new beginning for bipartisanship in future legislation as well.

I thank my colleagues from the other side of the aisle that I have had the honor and privilege to work with on

this legislation and other legislation as well. I thank my colleagues from my side of the aisle that I have had similar opportunity to do so as well. We have gone through challenging times, from good economic times and bad—maybe more bad than good—but, through it all, I think we have done so with the American public’s interest in mind.

Behind me also are some of our members of our committee who I also wish to recognize for their work as well. They have left a profound impact on myself during the time that I have known them, and I thank them humbly for their being willing to put up with me and to deal with me throughout the years, but be able to work together for the benefit of the American public as well.

I think that, together, we have done great things. I look forward to watching what other great things will be done in a bipartisan manner as well.

I think my time may be just about out, but let me also just say this as well. I want to end where I began, which was thanking the chairman of this committee, Mr. JEB HENSARLING, for his leadership and, most importantly, for his friendship in the years I have known him in this capacity.

I urge every Member to support the underlying legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. GARRETT) that the House suspend the rules and pass the bill, H.R. 6427.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. GARRETT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

□ 1715

#### COMBAT-INJURED VETERANS TAX FAIRNESS ACT OF 2016

Mr. BRADY of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5015) to restore amounts improperly withheld for tax purposes from severance payments to individuals who retired or separated from service in the Armed Forces for combat-related injuries, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 5015

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Combat-Injured Veterans Tax Fairness Act of 2016”.

**SEC. 2. FINDINGS.**

Congress makes the following findings:

(1) Approximately 10,000 to 11,000 individuals are retired from service in the Armed Forces for medical reasons each year.

(2) Some of such individuals are separated from service in the Armed Forces for combat-related injuries (as defined in section 104(b)(3) of the Internal Revenue Code of 1986).

(3) Congress has recognized the tremendous personal sacrifice of veterans with combat-related injuries by, among other things, specifically excluding from taxable income severance pay received for combat-related injuries.

(4) Since 1991, the Secretary of Defense has improperly withheld taxes from severance pay for wounded veterans, thus denying them their due compensation and a significant benefit intended by Congress.

(5) Many veterans owed redress are beyond the statutory period to file an amended tax return because they were not or are not aware that taxes were improperly withheld.

**SEC. 3. RESTORATION OF AMOUNTS IMPROPERLY WITHHELD FOR TAX PURPOSES FROM SEVERANCE PAYMENTS TO VETERANS WITH COMBAT-RELATED INJURIES.**

(a) IN GENERAL.—Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall—

(1) identify—

(A) the severance payments—

(i) that the Secretary paid after January 17, 1991;

(ii) that the Secretary computed under section 1212 of title 10, United States Code;

(iii) that were not considered gross income pursuant to section 104(a)(4) of the Internal Revenue Code of 1986; and

(iv) from which the Secretary withheld amounts for tax purposes; and

(B) the individuals to whom such severance payments were made; and

(2) with respect to each person identified under paragraph (1)(B), provide—

(A) notice of—

(i) the amount of severance payments in paragraph (1)(A) which were improperly withheld for tax purposes; and

(ii) such other information determined to be necessary by the Secretary of the Treasury to carry out the purposes of this section; and

(B) instructions for filing amended tax returns to recover the amounts improperly withheld for tax purposes.

(b) EXTENSION OF LIMITATION ON TIME FOR CREDIT OR REFUND.—

(1) PERIOD FOR FILING CLAIM.—If a claim for credit or refund under section 6511(a) of the Internal Revenue Code of 1986 relates to a specified overpayment, the 3-year period of limitation prescribed by such subsection shall not expire before the date which is 1 year after the date the information return described in subsection (a)(2) is provided. The allowable amount of credit or refund of a specified overpayment shall be determined without regard to the amount of tax paid within the period provided in section 6511(b)(2).

(2) SPECIFIED OVERPAYMENT.—For purposes of paragraph (1), the term “specified overpayment” means an overpayment attributable to a severance payment described in subsection (a)(1).

**SEC. 4. REQUIREMENT THAT SECRETARY OF DEFENSE ENSURE AMOUNTS ARE NOT WITHHELD FOR TAX PURPOSES FROM SEVERANCE PAYMENTS NOT CONSIDERED GROSS INCOME.**

The Secretary of Defense shall take such actions as may be necessary to ensure that

amounts are not withheld for tax purposes from severance payments made by the Secretary to individuals when such payments are not considered gross income pursuant to section 104(a)(4) of the Internal Revenue Code of 1986.

**SEC. 5. REPORT TO CONGRESS.**

(a) IN GENERAL.—After completing the identification required by section 3(a) and not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to the appropriate committees of Congress a report on the actions taken by the Secretary to carry out this Act.

(b) CONTENTS.—The report submitted under subsection (a) shall include the following:

(1) The number of individuals identified under section 3(a)(1)(B).

(2) Of all the severance payments described in section 3(a)(1)(A), the aggregate amount that the Secretary withheld for tax purposes from such payments.

(3) A description of the actions the Secretary plans to take to carry out section 4.

(c) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Armed Services, the Committee on Veterans' Affairs, and the Committee on Finance of the Senate; and

(2) the Committee on Armed Services, the Committee on Veterans' Affairs, and the Committee on Ways and Means of the House of Representatives.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. BRADY) and the gentleman from Massachusetts (Mr. NEAL) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

**GENERAL LEAVE**

Mr. BRADY of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 5015, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BRADY of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we have responsibilities for all the brave men and women who protect and defend our great Nation, especially those who are injured in the line of duty. The bill we are considering today by Representative ROUZER does just that.

Under our tax system, veterans who suffer from combat-related injuries are not required to pay taxes on the one-time lump-sum disability payment they receive when they leave the military. Unfortunately, errors in the Defense Department's automatic payment system have resulted in taxes being improperly withheld from these injured troops' payments—sometimes for years on end.

As a result, thousands of combat-injured veterans—men and women who have sacrificed greatly for our country—have not received the full com-

ensation they are rightfully due. The Combat-Injured Veterans Tax Fairness Act provides an opportunity to right this wrong for veterans injured during their service. This legislation will allow veterans to recover income taxes that were improperly collected by the Department of Defense on certain disability severance payments.

Under this bill, the Defense Department will be required to identify all the veterans who have been impacted by this problem. They will inform these veterans of the full amount that has been improperly withheld from their disability payments, and they will provide detailed instructions on how veterans can recover the money through an amended tax return.

Our men and women in uniform and their families have sacrificed so much for our Nation. Errors like this are completely unacceptable and cannot be allowed to go unaddressed.

I thank Representative ROUZER for his leadership on the Combat-Injured Veterans Tax Fairness Act and his dedication. This legislation takes important action to ensure America's promises are kept to our combat-injured heroes and their families.

Mr. Speaker, I urge all of my colleagues to join me in supporting its passage.

I reserve the balance of my time.

COMMITTEE ON ARMED SERVICES,  
HOUSE OF REPRESENTATIVES,

Washington, DC, November 30, 2016.

Hon. KEVIN BRADY,  
Chairman, Committee on Ways and Means,  
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: I write concerning H.R. 5015, the Combat-Injured Veterans Tax Fairness Act of 2016, which was referred to the Committee on Armed Services, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker.

In order to expedite this legislation for floor consideration, the Committee on Armed Services will forgo action on this bill. This decision is conditional on our mutual understanding that forgoing consideration in no way diminishes or alters the jurisdictional interests of the Committee on Armed Services in this bill, any subsequent amendments, or similar legislation.

Please place a copy of this letter and your response acknowledging our jurisdictional interest into the Congressional Record during consideration of the measure on the House floor.

Sincerely,  
WILLIAM M. “MAC” THORNBERRY,  
Chairman.

COMMITTEE ON WAYS AND MEANS,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 1, 2016.

Hon. WILLIAM M. “MAC” THORNBERRY,  
Chairman, Committee on Armed Services, House  
of Representatives, Washington, DC.

DEAR CHAIRMAN THORNBERRY: Thank you for your letter regarding H.R. 5015, the “Combat-Injured Veterans Tax Fairness Act of 2016.” As you noted, the bill was referred to the Committee on Armed Services.

I am most appreciative of your decision to waive formal consideration of H.R. 5015 so that it may proceed expeditiously to the

House floor. I acknowledge that although you waived formal consideration of the bill, the Committee on Armed Services is in no way waiving its jurisdiction over the subject matter contained in those provisions of the bill that fall within your Rule X jurisdiction.

I will include a copy of our letters in the Congressional Record during consideration of this legislation on the House floor.

Sincerely,

KEVIN BRADY,  
*Chairman.*

Mr. NEAL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank Chairman BRADY for his efforts on behalf of this legislation.

This is a pleasant responsibility that we have when you consider that its corrective action will alone help 175 former military members in the State of Massachusetts and 13,800 across the country.

Let me reiterate some of the points that were made by Chairman BRADY. The bill before us corrects an issue related to a provision that was designed to alleviate some of the tax burdens of our Nation's combat-injured veterans. Under Federal law, veterans who suffer combat-related injuries and who are separated from the military are not supposed to be taxed on the one-time lump-sum disability severance payment they receive from the Department of Defense.

Due to an accounting error at the Defense Finance and Accounting Service, approximately \$78 million in tax payments were inadvertently taken from combat-disabled servicemembers. Some of this improper withholding has taken place outside the 3-year period in which taxpayers could file an amended tax return.

H.R. 5015 would right this wrong by instructing DOD to identify those who were wrongfully taxed so that they can be reimbursed. This bill would allow those veterans identified by the DOD to file amended returns to recoup those unintentionally withheld funds.

Mr. Speaker, I am curious with respect to two items in this bill, and I just would like to raise this ever so politely with the majority party. Veterans' issues in the Congress have long had a bipartisan flavor to them. We have been supportive across the board in the efforts that we make as it relates to our veterans, and the differences we have generally are very small; but in this case, it does not appear that a Democrat was asked to cosponsor the bill in its original introduction. So I would hope in the future that even though this bill was largely sponsored by Republican Members, that on this side you could have easily picked up 33 Members as well.

So I hope going forward there will be that effort that we would continue with here to ensure that matters of this magnitude are well met by both parties. I would say that I don't want to suggest for a moment that this was

done in a partisan atmosphere as much as I would like to think that it was just overlooked. I hope in the future that we would be considered for sponsorship of this sort of legislation as well.

Also, I would like to highlight an issue that is akin to the matter that is before us, and it comes from our friends on the committee, SAM JOHNSON and JOHN LARSON. They worked together on legislation that would prevent exonerated felons from facing an undue tax burden with respect to payments they received due to their wrongful conviction—emphasis on “wrongful conviction.”

Similar to the veterans in the situation before us, these wrongfully convicted individuals should not face an improper tax liability on amounts intended to compensate for the tremendous injustices they faced under our legal system. Legislation to that effect became law in 2015. However, due to the lengthy IRS process in providing guidance on the issue, the statute would only allow less than 5 months for these exonerated individuals to amend their prior year tax returns.

Mr. JOHNSON and Mr. LARSON of Connecticut have worked tirelessly to make sure that these individuals are not unfairly burdened further than they already have been and they have proposed extending the statutory deadline for these individuals to file amended returns.

So while I think the legislation before us is sound, I do hope that the committee and the Congress will find time to consider similar IRS filing-deadline legislation with respect to these exonerated individuals.

Mr. Speaker, I reserve the balance of my time.

Mr. BRADY of Texas. Mr. Speaker, I yield 3 minutes to the gentleman from North Carolina (Mr. ROUZER), who is the author of the bill in the House. Besides his advocacy for small businesses and job growth, he is also a champion for our military, especially those who have been injured in combat.

Mr. ROUZER. Mr. Speaker, first, I want to make mention to the fine ranking member of the committee that we did reach out, certainly, to as many staff on the Democrat side as we possibly could. Perhaps we could have done a little bit better job of that, but I do want to make mention that we did make that effort—a point duly noted, though—and we will follow up multiple times the next time I have a bill that I think the gentleman would be interested in.

Mr. Speaker, I filed H.R. 5015, the Combat-Injured Veterans Tax Fairness Act, after learning that nearly 14,000 veterans from all 50 States and the District of Columbia who suffered service-ending, combat-related injuries never received the full amount of their severance payment because taxes were wrongly withheld. Let me repeat that:

nearly 14,000 veterans did not receive the money to which they were entitled because of a taxing error made by the Federal Government.

Now, in case you are wondering how this error occurred, here is some background: the Internal Revenue Code excludes recurring disability payments from taxable income for personal injuries or sickness resulting from active service in our Armed Forces. In 1991, a Federal district court case, *St. Clair v. United States*, determined that one-time lump-sum disability severance payments received for injuries resulting from active service should be excluded from taxable income as well.

Despite this court decision and the resulting regulatory guidance that stemmed from it, taxes on combat-related disability severance payments have been withheld for many years. As was mentioned earlier, the Defense Finance and Accounting System claimed this was due to the limitations of its automated computer payment system. Go figure. Regardless, this is an issue that needs to be addressed.

Many of the veterans affected are not even aware that their benefits were improperly reduced. In most cases, the 3-year period in which they could file an amended tax return to get their money back has long since passed.

This legislation directs the Department of Defense to identify instances of improper withholding and determine how much these combat-wounded veterans are owed. Those veterans who were adversely affected will then be able to apply to the IRS to receive the money they are rightfully due.

Our soldiers, sailors, airmen, and marines risk their lives every day to protect our freedoms, our values, and our Republic. The revelation that there are thousands of veterans who did not receive their full disability severance pay is unacceptable, and it must be corrected immediately.

Today we can make a great step towards rectifying this problem. I think we can all agree that these veterans deserve no less for their service and sacrifice to our Nation.

I want to make special mention of Senator BOOZMAN of Arkansas and Senator WARNER of Virginia who have sponsored an identical bill in the United States Senate. Their leadership on this issue has been absolutely critical. I commend this legislation to my colleagues and encourage its passage.

Mr. NEAL. Mr. Speaker, I want to acknowledge the gentleman for his good effort and his thoughtful response to the point that I raised.

Of course, thanks to Chairman BRADY, this is an example, again, in a small way of how we can do some good things around here in a bipartisan manner.

Mr. Speaker, I yield back the balance of my time.

Mr. BRADY of Texas. Mr. Speaker, I yield myself such time as I may consume.

First, I really do applaud the work of Representative ROUZER in this area and the bipartisan work of Senators BOOZMAN and WARNER.

This is an area that could have easily been just swept aside over the years and never really addressed. The gentleman continued to raise the issue, bring it to our attention, and work through the legislative process. Again, I thank the gentleman for his very important leadership.

I also thank the chairman of the Armed Services Committee, Chairman MAC THORNBERRY, and his team for their approval of this measure and willingness to work with the author to bring this forward.

I, too, thank the ranking member, Mr. NEAL, and congratulate him on his naming as ranking member for the Ways and Means Committee. I look forward to working with the gentleman on these and other issues moving forward.

On behalf of 14,000 veterans who deserve to get the dollars they earned from the Department of Defense, late is better than never. I applaud the efforts of Mr. ROUZER in doing that.

Mr. Speaker, I urge support for this bipartisan bill.

I yield back the balance of my time.

Ms. JACKSON LEE. Mr. Speaker, I rise in support of H.R. 5015, Combat-Injured Veterans Tax Fairness Act of 2016, because the legislation directs the Defense Department (DoD) to restore improperly withheld for taxes from severance payments to individuals who retired or separated from service in the Armed Forces for combat-related injuries.

The bill also requires the DoD to notify combat-injured veterans if it had improperly withheld tax on their severance pay any time after January 17, 1991 and provide the veterans with information on how to seek a refund from the Internal Revenue Service (IRS).

H.R. 5015 works to remedy the egregious action of withholding more than \$78 million in taxes from almost 14,000 combat-injured veterans.

This legislation additionally ensures that further tax amounts will not be taken from combat-injured veterans in the future.

As a member of the House Committee on Homeland Security since its establishment, and current Ranking Member of the Judiciary Subcommittee on Crime, Terrorism and Homeland Security this bill is of importance to me.

The DoD held an average of over \$5,500 from each of the veterans since 1991.

That amount of money could help combat-injured veterans with hospital bills and the difficult transition back into civilian life.

I am pleased that the DoD will also have to submit a report on the number of times it had withheld pay to combat-injured veterans, the amount of each severance payment it withheld, and its actions to prevent future improper withholding to Congress within one year of the bill's enactment for Congress to assess the situation.

Our veterans deserve to be treated with respect.

It is only through the efforts and sacrifice of our veterans that America has the freedoms and privileges we do today.

I urge my colleagues to join me in supporting H.R. 5015.

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, I rise in strong support of H.R. 5015, a bill that would improve the fairness of the tax code and treat our service members with the respect they are due.

Veterans who suffered combat-related injuries who separated from the military are not supposed to be taxed on any one-time disability payments. Unfortunately, an accounting error has cost about 14,000 veterans more than \$78 million in taxes. Just under 500 of these veterans are from my home state of Illinois.

H.R. 5015 fixes this problem by instructing the DoD to identify those who were wrongfully taxed so that they can be reimbursed. The lion's share of the affected veterans are outside of the window for amending their tax returns to recoup the funds.

Consequently, this bill would allow those veterans identified by the DoD to file amended returns to recoup these unintentionally-withheld funds. This is a good bill that helps our service members as we should. I hope that this chamber can engage in similar bipartisan efforts to support other needy Americans as we move into the next Congress.

I am troubled that some stakeholders are advocating that a 15 to 20 percent corporate tax rate serve as the central metric by which we judge any tax reform effort. To achieve this rate, middle- and low-income families and small businesses will have to subsidize the wealthiest corporations, foregoing critical credits and deductions that provide much needed assistance.

I sincerely hope that we advance the intent of this bill to help Americans in need as we consider tax reform next year.

I strongly support H.R. 5015, and I urge my colleagues to support its passage.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. BRADY) that the House suspend the rules and pass the bill, H.R. 5015, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BRADY of Texas. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

#### PREScribed BURN APPROVAL ACT OF 2016

Mr. LUCAS. Mr. Speaker, I move to suspend the rules and pass the bill (S. 3395) to require limitations on prescribed burns.

The Clerk read the title of the bill.

The text of the bill is as follows:

S. 3395

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Prescribed Burn Approval Act of 2016".

#### SEC. 2. DEFINITIONS.

In this Act:

(1) NATIONAL FIRE DANGER RATING SYSTEM.—The term "national fire danger rating system" means the national system used to provide a measure of fire danger according to a range of low to moderate to high to very high to extreme.

(2) PRESCRIBED BURN.—The term "prescribed burn" means a planned fire intentionally ignited.

(3) SECRETARY.—The term "Secretary" means the Secretary of Agriculture, acting through the Chief of the Forest Service.

#### SEC. 3. LIMITATIONS ON PRESCRIBED BURNS.

(a) IN GENERAL.—Except as provided in subsection (b), the Secretary shall not authorize a prescribed burn on Forest Service land if, for the county or contiguous county in which the land is located, the national fire danger rating system indicates an extreme fire danger level.

(b) EXCEPTION.—The Secretary may authorize a prescribed burn under a condition described in subsection (a) if the Secretary coordinates with the applicable State government and local fire officials.

(c) REPORT.—At the end of each fiscal year, the Secretary shall submit to Congress a report describing—

(1) the number and locations of prescribed burns during that fiscal year; and

(2) each prescribed burn during that fiscal year that was authorized by the Secretary pursuant to subsection (b).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Oklahoma (Mr. LUCAS) and the gentleman from Minnesota (Mr. PETERSON) each will control 20 minutes.

The Chair recognizes the gentleman from Oklahoma.

#### GENERAL LEAVE

Mr. LUCAS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

□ 1730

Mr. LUCAS. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of S. 3395, the Prescribed Burn Approval Act of 2016.

Across much of the country, Forest Service land borders private lands that are essential to the livelihood of farmers, ranchers, and foresters. While the Forest Service is tasked with managing these lands, many techniques are effective but carry risk.

On April 3, 2013, the Forest Service conducted a controlled burn on the Dakota Prairie Grasslands intended for 130 acres. As weather conditions changed, the fire escaped its boundary and burned 16,000 acres of private land. The prescribed burn planned by Federal officials resulted in millions of dollars in damage to private lands in South Dakota, with ranchers losing valuable pasture, hay, fence, and structures.

In the aftermath of the fire, the Office of the General Counsel of USDA determined that the Forest Service had done nothing out of line and claimed no responsibility to those harmed by this carelessness. This commonsense piece of legislation that we are addressing today, simply put, would require the Forest Service to conduct prescribed burns only when the national fire rating system indicates that it is safe to do so in that county and contiguous counties.

Furthermore, this bill will encourage greater collaboration with local officials, helping to mitigate more of the risk to private lands.

We all strive to be good neighbors and hope our neighbors will do the same. With passage, this bill gives many neighbors to the Forest Service additional certainty, and I urge your support.

Mr. Speaker, I reserve the balance of my time.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON NATURAL RESOURCES,  
Washington, DC, December 1, 2016.

Hon. K. MICHAEL CONAWAY,  
Chairman, Committee on Agriculture,  
Washington, DC.

DEAR MR. CHAIRMAN: I write regarding S. 3395, the Prescribed Burn Approval Act of 2016. This bill contains provisions under the jurisdiction of the Committee on Natural Resources.

I recognize and appreciate your desire to bring this bill before the House of Representatives in an expeditious manner, and accordingly, I will agree that the Committee on Natural Resources be discharged from further consideration of the bill. I do so with the understanding that this action does not affect the jurisdiction of the Committee on Natural Resources.

I also ask that a copy of this letter and your response be included in the Congressional Record during consideration of S. 3395 on the House floor.

Thank you for your work on this important issue, and I look forward to its enactment soon.

Sincerely,

ROB BISHOP,  
Chairman, Committee on Natural Resources.

HOUSE OF REPRESENTATIVES,  
COMMITTEE ON AGRICULTURE,  
Washington, DC, December 1, 2016.

Hon. ROB BISHOP,  
Chairman, Committee on Natural Resources,  
Washington, DC.

DEAR CHAIRMAN BISHOP: I am writing concerning S. 3395, the Prescribed Burn Approval Act of 2016. The bill was agreed to in the Senate on November 17, 2016, and was referred in the House primarily to the Committee on Agriculture, with an additional referral to the Committee on Natural Resources.

I ask that you allow the Committee on Natural Resources to be discharged from further consideration of the bill so that it may be scheduled by the Majority Leader. This discharge in no way affects your Committee's jurisdiction over the subject matter of the bill, and it will not serve as precedent for future referrals. In addition, should a conference on the bill be necessary, I would support your request to have the Committee on Natural Resources represented on the con-

ference committee. Finally, I would be pleased to include this letter and any response in Congressional Record to memorialize our mutual understanding.

Thank you for your consideration and for your continued cooperation between our committees.

Sincerely,

K. MICHAEL CONAWAY,  
Chairman.

Mr. PETERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Prescribed Burn Approval Act of 2016, S. 3395, will help alleviate unintentional disasters when prescribed burns don't go exactly as planned. This is commonsense legislation, and I urge my colleagues to vote in support of it.

Prescribed burns are an important tool used by the Forest Service to help manage our national forests and grasslands. However, there is the risk of damage to nearby private property when prescribed burns get out of control, which happened, as was described recently, in the upper Midwest.

This bill will allow the Forest Service to continue to use prescribed burns while taking practical steps to prevent disasters. S. 3395 prohibits the Forest Service from utilizing prescribed burns in areas of high fire risk, unless the Forest Service coordinates with State governments and local officials.

Having local officials and responders aware of activities can help them be prepared and equipped to assist, if necessary. Frankly, this is something I would hope the Forest Service is already doing, but this bill is a good step. It will make sure that it happens in the future.

Again, I urge my colleagues to support the bill.

I yield back the balance of my time.

Mr. LUCAS. Mr. Speaker, I yield 3 minutes to the gentlewoman from South Dakota (Mrs. NOEM), who not only understands these issues but lives these issues.

Mrs. NOEM. Mr. Speaker, I thank the chairman for yielding to me today.

Mr. Speaker, today, I rise in support of S. 3395, the Prescribed Burn Approval Act. This is a commonsense bill that will prohibit the U.S. Forest Service from authorizing prescribed burns in an area that is labeled an extreme fire danger except under circumstances that have local coordination. Unfortunately, we have seen instances where the Forest Service has acted recklessly by starting prescribed burns under extremely hazardous conditions.

The Pautre fire in South Dakota is one such example. Despite the hot and windy conditions and being warned repeatedly from local ranchers and local officials that it was too windy and too dry to be starting a controlled burn, the Forest Service still carried out a prescribed burn that was intended to cover just 130 acres of dead crested wheatgrass.

Within hours, the fire escalated out of control. More than 10,000 acres of

Forest Service land, grazing association controlled land, and private land was consumed by the wildfire. Millions of dollars of damage was done not only to the land but to fences and families. Families were devastated.

Multiple firefighting units and personnel were put in harm's way. This burn should not have occurred that day without the collaboration and additional precautions that such a burn will require. It should happen in consultation with local officials and those who know the land best, those who live on the land and work the land each and every day—local farmers and ranchers.

It only makes sense that the Forest Service has the responsibility to coordinate with local and State fire officials in circumstances where the threat of wildfire is high. This bill is a step in the right direction to make certain that necessary precautions are taken.

Furthermore, this bill would add transparency and a degree of accountability to the Forest Service's actions by ensuring that Congress is aware of the prescribed burns that are done under hazardous conditions.

I would like to thank Senator THUNE for his work on this bill and the chairman for bringing this bill forward.

I urge my colleagues to vote in favor.

Mr. PETERSON. Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mr. LUCAS. Mr. Speaker, I yield myself such time as I may consume.

It is worth noting that before there were ever farmers and ranchers on the plains, before Coronado ever came up from the south, or Lewis and Clark crossed through the north, and even before our Native American friends first appeared in North America fire has been an important management tool in the ecosystem of the Great Plains—whether the northern plains where my colleague, Mrs. NOEM, lives or the southern plains where I live—an important tool. Maintaining the health of the grasslands, addressing the woody plants that are invasive, this is an important tool.

This is why today we rise together to ask for our colleagues to vote for this bill, to provide the ability for everyone who occupies the plains to comfortably work together to use this tool to maintain the health of the Great Plains.

Mr. Speaker, I urge all of my colleagues to join us in passing the bill.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oklahoma (Mr. LUCAS) that the House suspend the rules and pass the bill, S. 3395.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

DEPARTMENT OF STATE OPERATIONS AUTHORIZATION AND EMBASSY SECURITY ACT, FISCAL YEAR 2016

Mr. ROYCE. Mr. Speaker, I move to suspend the rules and pass the bill (S. 1635) to authorize the Department of State for fiscal year 2016, and for other purposes, as amended.

The Clerk read the title of the bill.  
The text of the bill is as follows:

S. 1635

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

(a) **SHORT TITLE.**—This Act may be cited as the “Department of State Authorities Act, Fiscal Year 2017”.

(b) **TABLE OF CONTENTS.**—The table of contents for this Act is as follows:

Sec. 1. Short title; Table of contents.

Sec. 2. Definitions.

**TITLE I—EMBASSY SECURITY AND PERSONNEL PROTECTION**

**Subtitle A—Review and Planning Requirements**

Sec. 101. Designation of high risk, high threat posts.

Sec. 102. Contingency plans for high risk, high threat posts.

Sec. 103. Direct reporting.

Sec. 104. Accountability Review Board recommendations related to unsatisfactory leadership.

**Subtitle B—Physical Security and Personnel Requirements**

Sec. 111. Capital security cost sharing program.

Sec. 112. Local guard contracts abroad under diplomatic security program.

Sec. 113. Transfer authority.

Sec. 114. Security enhancements for soft targets.

Sec. 115. Exemption from certain procurement protest procedures for noncompetitive contracting in emergency circumstances.

Sec. 116. Sense of Congress regarding minimum security standards for temporary United States diplomatic and consular posts.

Sec. 117. Assignment of personnel at high risk, high threat posts.

Sec. 118. Annual report on embassy construction costs.

Sec. 119. Embassy security, construction, and maintenance.

**Subtitle C—Security Training**

Sec. 121. Security training for personnel assigned to high risk, high threat posts.

Sec. 122. Sense of Congress regarding language requirements for diplomatic security personnel assigned to high risk, high threat post.

**Subtitle D—Expansion of the Marine Corps Security Guard Detachment Program**

Sec. 131. Marine Corps Security Guard Program.

**TITLE II—OFFICE OF INSPECTOR GENERAL OF THE DEPARTMENT OF STATE AND BROADCASTING BOARD OF GOVERNORS**

Sec. 201. Competitive hiring status for former employees of the Office of the Special Inspector General for Iraq Reconstruction.

Sec. 202. Certification of independence of information technology systems of the Office of Inspector General of the Department of State and Broadcasting Board of Governors.

Sec. 203. Protecting the integrity of internal investigations.

Sec. 204. Report on Inspector General inspection and auditing of Foreign Service posts and bureaus and other offices of the Department.

Sec. 205. Implementing GAO and OIG recommendations.

Sec. 206. Inspector General salary limitations.

**TITLE III—INTERNATIONAL ORGANIZATIONS**

Sec. 301. Oversight of and accountability for peacekeeper abuses.

Sec. 302. Reimbursement of contributing countries.

Sec. 303. Withholding of assistance.

Sec. 304. United Nations peacekeeping assessment formula.

Sec. 305. Reimbursement or application of credits.

Sec. 306. Report on United States contributions to the United Nations relating to peacekeeping operations.

Sec. 307. Whistleblower protections for United Nations personnel.

Sec. 308. Encouraging employment of United States citizens at the United Nations.

Sec. 309. Statement of policy on Member State's voting practices at the United Nations.

Sec. 310. Qualifications of the United Nations Secretary General.

Sec. 311. Policy regarding the United Nations Human Rights Council.

Sec. 312. Additional report on other United States contributions to the United Nations.

Sec. 313. Comparative report on peacekeeping operations.

**TITLE IV—PERSONNEL AND ORGANIZATIONAL ISSUES**

Sec. 401. Locally-employed staff wages.

Sec. 402. Expansion of civil service opportunities.

Sec. 403. Promotion to the Senior Foreign Service.

Sec. 404. Lateral entry into the Foreign Service.

Sec. 405. Reemployment of annuitants and workforce rightsizing.

Sec. 406. Integration of foreign economic policy.

Sec. 407. Training support services.

Sec. 408. Special agents.

Sec. 409. Limited appointments in the Foreign Service.

Sec. 410. Report on diversity recruitment, employment, retention, and promotion.

Sec. 411. Market data for cost-of-living adjustments.

Sec. 412. Technical amendment to Federal Workforce Flexibility Act.

Sec. 413. Retention of mid- and senior-level professionals from traditionally under-represented minority groups.

Sec. 414. Employee assignment restrictions.

Sec. 415. Security clearance suspensions.

Sec. 416. Sense of Congress on the integration of policies related to the participation of women in preventing and resolving conflicts.

Sec. 417. Foreign Service families workforce study.

Sec. 418. Special envoys, representatives, advisors, and coordinators of the Department.

Sec. 419. Combating anti-Semitism.

**TITLE V—CONSULAR AUTHORITIES**

Sec. 501. Codification of enhanced consular immunities.

Sec. 502. Passports made in the United States.

**TITLE VI—WESTERN HEMISPHERE DRUG POLICY COMMISSION**

Sec. 601. Establishment.

Sec. 602. Duties.

Sec. 603. Membership.

Sec. 604. Powers.

Sec. 605. Staff.

Sec. 606. Sunset.

**TITLE VII—MISCELLANEOUS PROVISIONS**

Sec. 701. Foreign relations exchange programs.

Sec. 702. United States Advisory Commission on Public Diplomacy.

Sec. 703. Broadcasting Board of Governors.

Sec. 704. Rewards for Justice.

Sec. 705. Extension of period for reimbursement of seized commercial fishermen.

Sec. 706. Expansion of the Charles B. Rangel International Affairs Program, the Thomas R. Pickering Foreign Affairs Fellowship Program, and the Donald M. Payne International Development Fellowship Program.

Sec. 707. GAO report on Department critical telecommunications equipment or services obtained from suppliers closely linked to a leading cyber-threat actor.

Sec. 708. Implementation plan for information technology and knowledge management.

Sec. 709. Ransoms to foreign terrorist organizations.

Sec. 710. Strategy to combat terrorist use of social media.

Sec. 711. Report on Department information technology acquisition practices.

Sec. 712. Public availability of reports on nominees to be chiefs of mission.

Sec. 713. Recruitment and retention of individuals who have lived, worked, or studied in predominantly Muslim countries or communities.

Sec. 714. Sense of Congress regarding coverage of appropriate therapies for dependents with autism spectrum disorder (ASD).

Sec. 715. Repeal of obsolete reports.

Sec. 716. Prohibition on additional funding.

**SEC. 2. DEFINITIONS.**

In this Act:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Relations of the Senate; and

(B) the Committee on Foreign Affairs of the House of Representatives.

(2) **DEPARTMENT.**—Unless otherwise specified, the term “Department” means the Department of State.

(3) **FOREIGN SERVICE.**—The term “Foreign Service” has the meaning given such term in section 102 of the Foreign Service Act of 1980 (22 U.S.C. 3902).

(4) **INSPECTOR GENERAL.**—Unless otherwise specified, the term “Inspector General”

means the Office of Inspector General of the Department of State and the Broadcasting Board of Governors.

(5) **PEACEKEEPING CREDITS.**—The term “peacekeeping credits” means the amounts by which United States assessed peacekeeping contributions exceed actual expenditures, apportioned to the United States, of peacekeeping operations by the United Nations during a United Nations peacekeeping fiscal year.

(6) **SECRETARY.**—Unless otherwise specified, the term “Secretary” means the Secretary of State.

## **TITLE I—EMBASSY SECURITY AND PERSONNEL PROTECTION**

### **Subtitle A—Review and Planning Requirements**

#### **SEC. 101. DESIGNATION OF HIGH RISK, HIGH THREAT POSTS.**

(a) **IN GENERAL.**—Title I of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (22 U.S.C. 4801 et seq.; relating to diplomatic security) is amended by inserting after section 103 the following new sections:

#### **“SEC. 104. DESIGNATION OF HIGH RISK, HIGH THREAT POSTS.**

“(a) **INITIAL DESIGNATION.**—Not later than 30 days after the date of the enactment of this section, the Department of State shall submit to the appropriate congressional committees a report, in classified form, that contains a list of diplomatic and consular posts designated as high risk, high threat posts.

“(b) **DESIGNATIONS BEFORE OPENING OR REOPENING POSTS.**—Before opening or reopening a diplomatic or consular post, the Secretary shall determine if such post should be designated as a high risk, high threat post.

“(c) **DESIGNATING EXISTING POSTS.**—The Secretary shall regularly review existing diplomatic and consular posts to determine if any such post should be designated as a high risk, high threat post if conditions at such post or the surrounding security environment require such a designation.

“(d) **DEFINITIONS.**—In this section:

“(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term ‘appropriate congressional committees’ means the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate.

“(2) **HIGH RISK, HIGH THREAT POST.**—The term ‘high risk, high threat post’ means a United States diplomatic or consular post or other United States mission abroad, as determined by the Secretary, that, among other factors—

“(A) is located in a country—

“(i) with high to critical levels of political violence and terrorism; and

“(ii) the government of which lacks the ability or willingness to provide adequate security; and

“(B) has mission physical security platforms that fall below the Department of State’s established standards.

#### **“SEC. 105. BRIEFINGS ON EMBASSY SECURITY.**

“(a) **BRIEFING.**—The Secretary shall provide monthly briefings to the appropriate congressional committees on—

“(1) any plans to open or reopen a high risk, high threat post, including—

“(A) the importance and appropriateness of the objectives of the proposed post to the national security of the United States, and the type and level of security threats such post could encounter;

“(B) working plans to expedite the approval and funding for establishing and operating such post, implementing physical secu-

rity measures, providing necessary security and management personnel, and the provision of necessary equipment;

“(C) security ‘tripwires’ that would determine specific action, including enhanced security measures or evacuation of such post, based on the improvement or deterioration of the local security environment; and

“(D) in coordination with the Secretary of Defense, an evaluation of available United States military assets and operational plans to respond to such posts in extremis;

“(2) personnel staffing and rotation cycles at high risk, high threat posts;

“(3) the current security posture at posts of particular concern as determined by such committees; and

“(4) the progress towards implementation of the provisions specified in title I of the Department of State Authorities Act, Fiscal Year 2017.

“(b) **CONGRESSIONAL NOTIFICATION.**—

“(1) **IN GENERAL.**—Except as provided in paragraph (2), not later than 30 days before opening or reopening a high risk, high threat post, the Secretary shall notify the appropriate congressional committees of the decision to open or reopen such post.

“(2) **EMERGENCY CIRCUMSTANCES.**—If the Secretary determines that the national security interests of the United States require the opening or reopening of a high risk, high threat post in fewer than 30 days, then as soon as possible, but not later than 48 hours before such opening or reopening, the Secretary shall transmit to the appropriate congressional committees a notification detailing the decision to open or reopen such post, the nature of the critical national security interests at stake, and the circumstances that prevented the normal 30-day notice under paragraph (1).

“(c) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—In this section, the term ‘appropriate congressional committees’ means—

“(1) the Committee on Foreign Affairs, the Committee on Armed Services, the Permanent Select Committee on Intelligence, and the Committee on Appropriations of the House of Representatives; and

“(2) the Committee on Foreign Relations, the Committee on Armed Services, the Select Committee on Intelligence, and the Committee on Appropriations of the Senate.”

(b) **CONFORMING AMENDMENT.**—The table of contents of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 is amended by inserting after the item relating to section 103 the following new items:

“Sec. 104. Designation of high risk, high threat posts.

“Sec. 105. Briefings on embassy security.”

#### **SEC. 102. CONTINGENCY PLANS FOR HIGH RISK, HIGH THREAT POSTS.**

Subsection (a) of section 606 of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865; relating to diplomatic security) is amended—

(1) in paragraph (1)(A), in the first sentence—

(A) by inserting “and from complex attacks (as such term is defined in section 416 of the Omnibus Diplomatic Security and Antiterrorism Act of 1986),” after “attacks from vehicles”; and

(B) by inserting “or such a complex attack” before the period at the end;

(2) in paragraph (7), by inserting before the period at the end the following: “, including at high risk, high threat posts (as such term is defined in section 104 of the Omnibus Diplomatic Security and Antiterrorism Act of 1986), including options for the deployment

of additional military personnel or equipment to bolster security and rapid deployment of armed or surveillance assets in response to an attack”.

#### **SEC. 103. DIRECT REPORTING.**

The Assistant Secretary for Diplomatic Security shall report directly to the Secretary, without being required to obtain the approval or concurrence of any other official of the Department, as threats and circumstances require.

#### **SEC. 104. ACCOUNTABILITY REVIEW BOARD RECOMMENDATIONS RELATED TO UNSATISFACTORY LEADERSHIP.**

(a) **IN GENERAL.**—Subsection (c) of section 304 of the Diplomatic Security Act (22 U.S.C. 4834) is amended—

(1) in the matter preceding paragraph (1)—

(A) by striking “Whenever” and inserting “If”; and

(B) by striking “has breached the duty of that individual” and inserting “has engaged in misconduct or unsatisfactorily performed the duties of employment of that individual, and such misconduct or unsatisfactory performance has significantly contributed to the serious injury, loss of life, or significant destruction of property, or the serious breach of security that is the subject of the Board’s examination as described in subsection (a)”;

(2) in paragraph (2), by striking “finding” each place it appears and inserting “findings”; and

(3) in the matter following paragraph (3)—

(A) by striking “has breached a duty of that individual” and inserting “has engaged in misconduct or unsatisfactorily performed the duties of employment of that individual as described in this subsection”; and

(B) by striking “to the performance of the duties of that individual”.

(b) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall apply with respect to any Accountability Review Board that is convened under section 301 of the Diplomatic Security Act (22 U.S.C. 4831) on or after the date of the enactment of this Act.

### **Subtitle B—Physical Security and Personnel Requirements**

#### **SEC. 111. CAPITAL SECURITY COST SHARING PROGRAM.**

(a) **SENSE OF CONGRESS ON THE CAPITAL SECURITY COST SHARING PROGRAM.**—It is the sense of Congress that the Capital Security Cost Sharing Program should prioritize the construction of new facilities and the maintenance of existing facilities at high risk, high threat posts.

(b) **RESTRICTION ON CONSTRUCTION OF OFFICE SPACE.**—Paragraph (2) of section 604(e) of the Secure Embassy Construction and Counterterrorism Act of 1999 (title VI of division A of H.R. 3427, as enacted into law by section 1000(a)(7) of Public Law 106-113; 113 Stat. 1501A-453; 22 U.S.C. 4865 note) is amended by adding at the end the following new sentence: “A project to construct a diplomatic facility of the United States may not include office space or other accommodations for an employee of a Federal department or agency to the extent that the Secretary of State determines that such department or agency has not provided to the Department of State the full amount of funding required under paragraph (1), notwithstanding any authorization and appropriation of relevant funds by Congress.”

#### **SEC. 112. LOCAL GUARD CONTRACTS ABROAD UNDER DIPLOMATIC SECURITY PROGRAM.**

Section 136 of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (22 U.S.C. 4864) is amended by adding at the end the following new subsection:

“(h) AWARD OF LOCAL GUARD AND PROTECTIVE SERVICE CONTRACTS.—In evaluating proposals for local guard contracts under this section, the Secretary of State may award such contracts on the basis of best value as determined by a cost-technical tradeoff analysis (as described in Federal Acquisition Regulation part 15.101) and, with respect to such contracts for posts that are not high risk, high threat posts (as such term is defined in section 104 of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (22 U.S.C. 4801 et seq.; relating to diplomatic security)), subject to congressional notification 15-days prior to any such award.”.

#### SEC. 113. TRANSFER AUTHORITY.

Section 4 of the Foreign Service Buildings Act, 1926 (22 U.S.C. 295) is amended by adding at the end the following new subsection:

“(j)(1) In addition to exercising any other transfer authority available to the Secretary of State, and subject to paragraphs (2) and (3), the Secretary may transfer to, and merge with, any appropriation for embassy security, construction, and maintenance such amounts appropriated for fiscal year 2018 for any other purpose related to the administration of foreign affairs on or after January 1, 2017, if the Secretary determines such transfer is necessary to provide for the security of sites and buildings in foreign countries under the jurisdiction and control of the Secretary.

“(2) Any funds transferred pursuant to paragraph (1)—

“(A) shall not exceed 20 percent of any appropriation made available for fiscal year 2018 for the Department of State under the heading ‘Administration of Foreign Affairs’, and no such appropriation shall be increased by more than 10 percent by any such transfer; and

“(B) shall be merged with funds in the heading to which transferred, and shall be available subject to the same terms and conditions as the funds with which merged.

“(3) Not later than 15 days before any transfer of funds pursuant to paragraph (1), the Secretary of State shall notify in writing the Committee on Foreign Relations and the Committee on Appropriations of the Senate and the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives. Any such notification shall include a description of the particular security need necessitating the transfer at issue.”.

#### SEC. 114. SECURITY ENHANCEMENTS FOR SOFT TARGETS.

Section 29 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2701) is amended, in the third sentence, by inserting “physical security enhancements and” after “may include”.

#### SEC. 115. EXEMPTION FROM CERTAIN PROCUREMENT PROTEST PROCEDURES FOR NONCOMPETITIVE CONTRACTING IN EMERGENCY CIRCUMSTANCES.

A determination by the Department to use procedures other than competitive procedures under section 3304 of title 41, United States Code, in order to meet emergency security requirements, as determined by the Secretary or the Secretary’s designee, including physical security upgrades, protective equipment, and other immediate threat mitigation projects, shall not be subject to challenge by protest under either subchapter V of chapter 35 of title 31, United States Code, or section 1491 of title 28, United States Code.

#### SEC. 116. SENSE OF CONGRESS REGARDING MINIMUM SECURITY STANDARDS FOR TEMPORARY UNITED STATES DIPLOMATIC AND CONSULAR POSTS.

It is the sense of Congress that—

(1) the Overseas Security Policy Board’s security standards for facilities should apply to all facilities consistent with 12 FAM 311.2; and

(2) such facilities should comply with requirements for attaining a waiver or exception to applicable standards if it is in the national interest of the United States.

#### SEC. 117. ASSIGNMENT OF PERSONNEL AT HIGH RISK, HIGH THREAT POSTS.

The Secretary to the extent practicable shall station key personnel for sustained periods of time at high risk, high threat posts (as such term is defined in section 104 of the Omnibus Diplomatic Security and Antiterrorism Act of 1986, as added by section 401 of this Act) in order to—

(1) establish institutional knowledge and situational awareness that would allow for a fuller familiarization of the local political and security environment in which such posts are located; and

(2) ensure that necessary security procedures are implemented.

#### SEC. 118. ANNUAL REPORT ON EMBASSY CONSTRUCTION COSTS.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act and annually thereafter, the Secretary shall submit to the appropriate congressional committees a comprehensive report regarding all ongoing embassy construction projects and major embassy security upgrade projects.

(b) CONTENTS.—Each report required under subsection (a) shall include the following with respect to each ongoing embassy construction projects and major embassy security upgrade projects:

(1) The initial cost estimate.

(2) The amount expended on the project to date.

(3) The projected timeline for completing the project.

(4) Any cost overruns incurred by the project.

(c) INITIAL REPORT.—The first report required under subsection (a) shall include an annex regarding all embassy construction projects and major embassy security upgrade projects completed during the 10-year period ending on the date of the enactment of this Act, including, for each such project, the following:

(1) The initial cost estimate.

(2) The amount actually expended on the project.

(3) Any additional time required to complete the project beyond the initial timeline.

(4) Any cost overruns incurred by the project.

#### SEC. 119. EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE.

Section 1 of the Foreign Service Buildings Act, 1926 (22 U.S.C. 292), is amended by adding at the end the following new subsection:

“(c) AUTHORIZATION FOR IMPROVEMENTS AND CONSTRUCTION.—The Secretary of State may improve or construct facilities overseas for other Federal departments and agencies on an advance-of-funds or reimbursable basis if such advances or reimbursements are credited to the Embassy Security, Construction, and Maintenance account and remain available until expended.”.

#### Subtitle C—Security Training

#### SEC. 121. SECURITY TRAINING FOR PERSONNEL ASSIGNED TO HIGH RISK, HIGH THREAT POSTS.

(a) IN GENERAL.—Title IV of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (22 U.S.C. 4851 et seq.; relating to diplomatic security) is amended by adding at the end the following new sections:

#### “SEC. 416. SECURITY TRAINING FOR PERSONNEL ASSIGNED TO A HIGH RISK, HIGH THREAT POST.

“(a) IN GENERAL.—Individuals assigned permanently to or who are in long-term temporary duty status as designated by the Secretary of State at a high risk, high threat post shall receive security training described in subsection (b) on a mandatory basis in order to prepare such individuals for living and working at such posts.

“(b) SECURITY TRAINING DESCRIBED.—Security training referred to in subsection (a)—

“(1) is training to improve basic knowledge and skills; and

“(2) may include—

“(A) an ability to recognize, avoid, and respond to potential terrorist situations, including a complex attack;

“(B) conducting surveillance detection;

“(C) providing emergency medical care;

“(D) ability to detect the presence of improvised explosive devices;

“(E) minimal firearms familiarization; and

“(F) defensive driving maneuvers.

“(c) EFFECTIVE DATE.—The requirements of this section shall take effect upon the date of the enactment of this section.

“(d) DEFINITIONS.—In this section and section 417:

“(1) COMPLEX ATTACK.—The term ‘complex attack’ has the meaning given such term by the North Atlantic Treaty Organization, as follows: ‘An attack conducted by multiple hostile elements which employ at least two distinct classes of weapon systems (i.e., indirect fire and direct fire, improvised explosive devices, and surface to air fire).’.

“(2) HIGH RISK, HIGH THREAT POST.—The term ‘high risk, high threat post’ has the meaning given such term in section 104.

#### “SEC. 417. SECURITY MANAGEMENT TRAINING FOR OFFICIALS ASSIGNED TO A HIGH RISK, HIGH THREAT POST.

“(a) IN GENERAL.—Officials described in subsection (c) who are assigned to a high risk, high threat post shall receive security training described in subsection (b) on a mandatory basis in order to improve the ability of such officials to make security-related management decisions.

“(b) SECURITY TRAINING DESCRIBED.—Security training referred to in subsection (a) may include—

“(1) development of skills to better evaluate threats;

“(2) effective use of security resources to mitigate such threats; and

“(3) improved familiarity of available security resources.

“(c) OFFICIALS DESCRIBED.—Officials referred to in subsection (a) are the following:

“(1) Members of the Senior Foreign Service appointed under section 302(a)(1) or 303 of the Foreign Service Act of 1980 (22 U.S.C. 3942(a)(1) and 3943) or members of the Senior Executive Service (as such term is described in section 3132(a)(2) of title 5, United States Code).

“(2) Foreign Service officers appointed under section 302(a)(1) of the Foreign Service Act of 1980 (22 U.S.C. 3942(a)(1)) holding a position in classes FS-1 or FS-2.

“(3) Foreign Service Specialists appointed by the Secretary under section 303 of the Foreign Service Act of 1980 (22 U.S.C. 3943) holding a position in classes FS-1 or FS-2.

“(4) Individuals holding a position in grades GS-14 or GS-15.

“(5) Personal services contractors and other contractors serving in positions or capacities similar to the officials described in paragraphs (1) through (4).

“(d) EFFECTIVE DATE.—The requirements of this section shall take effect beginning on

the date that is one year after the date of the enactment of this section.”.

(b) CONFORMING AMENDMENT.—The table of contents of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 is amended by inserting after the item relating to section 415 the following new items:

“Sec. 416. Security training for personnel assigned to a high risk, high threat post.

“Sec. 417. Security management training for officials assigned to a high risk, high threat post.”.

**SEC. 122. SENSE OF CONGRESS REGARDING LANGUAGE REQUIREMENTS FOR DIPLOMATIC SECURITY PERSONNEL ASSIGNED TO HIGH RISK, HIGH THREAT POST.**

(a) IN GENERAL.—It is the sense of Congress that diplomatic security personnel assigned permanently to or who are in long-term temporary duty status as designated by the Secretary at a high risk, high threat post should receive language training described in subsection (b) in order to prepare such personnel for duty requirements at such post.

(b) LANGUAGE TRAINING DESCRIBED.—Language training referred to in subsection (a) should prepare personnel described in such subsection to—

(1) speak the language at issue with sufficient structural accuracy and vocabulary to participate effectively in most formal and informal conversations on subjects germane to security; and

(2) read within an adequate range of speed and with almost complete comprehension on subjects germane to security.

**Subtitle D—Expansion of the Marine Corps Security Guard Detachment Program**

**SEC. 131. MARINE CORPS SECURITY GUARD PROGRAM.**

(a) IN GENERAL.—Pursuant to the responsibility of the Secretary for diplomatic security under section 103 of the Diplomatic Security Act (22 U.S.C. 4802; enacted as part of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (Public Law 99-399)), the Secretary, in consultation with the Secretary of Defense, shall conduct an annual review of the Marine Corps Security Guard Program, including the following:

(1) An evaluation of whether the size and composition of the Marine Corps Security Guard Program is adequate to meet global diplomatic security requirements.

(2) An assessment of whether the Marine Corps security guards are appropriately deployed among United States embassies, consulates, and other diplomatic facilities to respond to evolving security developments and potential threats to United States interests abroad.

(3) An assessment of the mission objectives of the Marine Corps Security Guard Program and the procedural rules of engagement to protect diplomatic personnel under the Program.

(b) REPORTING REQUIREMENT.—Not later than 180 days after the date of the enactment of this Act and annually thereafter for three years, the Secretary, in consultation with the Secretary of Defense, shall submit to the Committee on Foreign Affairs, the Committee on Armed Services, and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Appropriations of the Senate an unclassified report, with a classified annex as necessary, that addresses the requirements specified in subsection (a).

**TITLE II—OFFICE OF INSPECTOR GENERAL OF THE DEPARTMENT OF STATE AND BROADCASTING BOARD OF GOVERNORS**

**SEC. 201. COMPETITIVE HIRING STATUS FOR FORMER EMPLOYEES OF THE OFFICE OF THE SPECIAL INSPECTOR GENERAL FOR IRAQ RECONSTRUCTION.**

Notwithstanding any other provision of law, any employee of the Office of the Special Inspector General for Iraq Reconstruction who completes at least 12 months of continuous employment within the Office at any time prior to October 5, 2013, and was not terminated for cause shall acquire competitive status for appointment to any position in the competitive service for which the employee possesses the required qualifications.

**SEC. 202. CERTIFICATION OF INDEPENDENCE OF INFORMATION TECHNOLOGY SYSTEMS OF THE OFFICE OF INSPECTOR GENERAL OF THE DEPARTMENT OF STATE AND BROADCASTING BOARD OF GOVERNORS.**

Not later than one year after the date of the enactment of this Act and annually thereafter for four years, the Secretary shall submit to the appropriate congressional committees, with respect to the network, information systems, and files of the Office of Inspector General of the Department and Broadcasting Board of Governors managed by the Department, a certification that the Department has ensured the integrity and independence of such network, information systems, and files, including the prevention of access to such network, information systems, and files other than as authorized by the Inspector General or the Attorney General, or, for purposes of ensuring information and systems security pursuant to applicable statute, the Chief Information Officer of the Department.

**SEC. 203. PROTECTING THE INTEGRITY OF INTERNAL INVESTIGATIONS.**

Subsection (c) of section 209 of the Foreign Service Act of 1980 (22 U.S.C. 3929) is amended by adding at the end the following new paragraph:

“(6) REQUIRED REPORTING OF ALLEGATIONS AND INVESTIGATIONS AND INSPECTOR GENERAL AUTHORITY.—

“(A) IN GENERAL.—The head of a bureau, post, or other office of the Department of State (in this paragraph referred to as a ‘Department entity’) shall submit to the Inspector General a report of any allegation of—

“(i) waste, fraud, or abuse in a Department program or operation;

“(ii) criminal or serious misconduct on the part of a Department employee at the FS-1, GS-15, or GM-15 level or higher;

“(iii) criminal misconduct on the part of a Department employee; and

“(iv) serious, noncriminal misconduct on the part of any Department employee who is authorized to carry a weapon, make arrests, or conduct searches, such as conduct that, if proved, would constitute perjury or material dishonesty, warrant suspension as discipline for a first offense, or result in loss of law enforcement authority.

“(B) DEADLINE.—The head of a Department entity shall submit to the Inspector General a report of an allegation described in subparagraph (A) not later than five business days after the date on which the head of such Department entity is made aware of such allegation.”.

**SEC. 204. REPORT ON INSPECTOR GENERAL INSPECTION AND AUDITING OF FOREIGN SERVICE POSTS AND BUREAUS AND OTHER OFFICES OF THE DEPARTMENT.**

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Inspector General shall submit to the appropriate congressional committees a report on the requirement under section 209(a)(1) of the Foreign Service Act of 1980 (22 U.S.C. 3929(a)(1)) that the Inspector General inspect and audit, at least every five years, the administration of activities and operations of each Foreign Service post and each bureau or other office of the Department.

(b) CONSIDERATION OF MULTI-TIER SYSTEM.—The report required under subsection (a) shall assess the advisability and feasibility of implementing a multi-tier system for inspecting Foreign Service posts and bureaus and other offices of the Department under section 209(a)(1) of the Foreign Service Act of 1980 featuring more or less frequent inspections and audits based on risk, including security risk, as may be determined by the Inspector General.

**SEC. 205. IMPLEMENTING GAO AND OIG RECOMMENDATIONS.**

(a) SENSE OF CONGRESS.—It is the sense of Congress that the Department has not implemented all of the recommendations made by the Government Accountability Office (GAO) and the Office of the Inspector General (OIG) related to embassy security and that some recommendations may yield potentially significant cost savings to the Department.

(b) BRIEFING.—The Secretary shall provide a briefing to the appropriate congressional committees detailing the rationale for not implementing recommendations made by the GAO and OIG related to embassy security or those that may yield significant cost savings to the Department, if implemented.

**SEC. 206. INSPECTOR GENERAL SALARY LIMITATIONS.**

Section 412 of the Foreign Service Act of 1980 (22 U.S.C. 3972) is amended by inserting after subsection (a) the following new subsection:

“(b) The Inspector General of the United States Agency for International Development (USAID) shall limit the payment of special differentials to USAID Foreign Service criminal investigators to levels at which the aggregate of basic pay and special differential for any pay period would equal, for such criminal investigators, the bi-weekly pay limitations on premium pay regularly placed on other criminal investigators within the Federal law enforcement community. This provision shall be retroactive to January 1, 2013.”.

**TITLE III—INTERNATIONAL ORGANIZATIONS**

**SEC. 301. OVERSIGHT OF AND ACCOUNTABILITY FOR PEACEKEEPER ABUSES.**

(a) STRATEGY TO ENSURE REFORM AND ACCOUNTABILITY.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit, in unclassified form, to the appropriate congressional committees—

(1) a United States strategy for combating sexual exploitation and abuse in United Nations peacekeeping operations; and

(2) an implementation plan for achieving the objectives set forth in the strategy described in paragraph (1).

(b) OBJECTIVES.—The objectives of the strategy required under subsection (a) shall be the following:

(1) To dramatically reduce the incidence of sexual exploitation and abuse committed by

civilian and military personnel assigned to United Nations peacekeeping operations.

(2) To ensure the introduction and implementation by the United Nations of improved training, oversight, and accountability mechanisms for United Nations peacekeeping operations and the personnel involved with such operations.

(3) To ensure swift justice for any such personnel who are found to have committed sexual exploitation or abuse.

(4) To assist the United Nations and troop- or police-contributing countries, as necessary and appropriate, to improve their ability to prevent, identify, and prosecute sexual exploitation or abuse by personnel involved in peacekeeping operations.

(c) **ELEMENTS.**—The strategy required under subsection (a) shall include the following elements and objectives:

(1) The amendment of the model memorandum of understanding and review of all current memorandums of understanding for troop- or police-contributing countries participating in United Nations peacekeeping operations to strengthen provisions relating to the investigation, repatriation, prosecution, and discipline of troops or police that are credibly alleged to have engaged in cases of misconduct.

(2) The establishment of onsite courts-martial, as appropriate, for the prosecution of crimes committed by military peacekeeping personnel, that is consistent with each peacekeeping operations' status of forces agreement with its host country.

(3) The exploration of appropriate arrangements to waive the immunity of civilian employees of the United Nations and its specialized agencies, funds, and programs to enable the prosecution of such employees who are credibly alleged to have engaged in sexual exploitation, abuse, or other crimes.

(4) The creation of a United Nations Security Council ombudsman office that—

(A) is authorized to conduct ongoing oversight of peacekeeping operations;

(B) reports directly to the Security Council on—

(i) offenses committed by peacekeeping personnel or United Nations civilian staff or volunteers; and

(ii) the actions taken in response to such offenses; and

(C) provides reports to the Security Council on the conduct of personnel in each peacekeeping operation not less frequently than annually and before the expiration or renewal of the mandate of any such peacekeeping operation.

(5) The provision of guidance from the United Nations on the establishment of a standing claims commission for each peacekeeping operation—

(A) to address any grievances by a host country's civilian population against United Nations personnel in cases of alleged abuses by peacekeeping personnel; and

(B) to provide means for the government of the country of which culpable United Nations peacekeeping or civilian personnel are nationals to compensate the victims of such crimes.

(6) The adoption of a United Nations policy and plan that increases the number of troop- or police-contributing countries that—

(A) obtain and maintain DNA samples from each national of such country who is a member of a United Nations military contingent or formed police unit, consistent with national laws, of such contingent or unit; and

(B) make such DNA samples available to investigators from the troop- or police-contributing country (except that such should

not be made available to the United Nations) if allegations of sexual exploitation or abuse arise.

(7) The adoption of a United Nations policy that bars troop- or police-contributing countries that fail to fulfill their obligation to ensure good order and discipline among their troops from providing any further troops for peace operations or restricts peacekeeper reimbursements to such countries until appropriate training, institutional reform, and oversight mechanisms to prevent such problems from recurring have been put in place.

(8) The implementation of appropriate risk reduction policies, including refusal by the United Nations to deploy uniformed personnel from any troop- or police-contributing country that does not adequately—

(A) investigate allegations of sexual exploitation or abuse involving nationals of such country; and

(B) ensure justice for those personnel determined to have been responsible for such sexual exploitation or abuse.

(d) **IMPLEMENTATION.**—The United States Permanent Representative to the United Nations shall use the voice, vote, and influence of the United States at the United Nations to advance the objectives of the strategy required by subsection (a).

(e) **PEACEKEEPING TRAINING.**—The United States should deny further United States peacekeeper training or related assistance, except for training specifically designed to reduce the incidence of sexual exploitation or abuse, or to assist in its identification or prosecution, to any troop- or police-contributing country that does not—

(1) implement and maintain effective measures to enhance the discovery of sexual exploitation and abuse offenses committed by peacekeeping personnel who are nationals of such country;

(2) adequately respond to complaints about such offenses by carrying out swift and effective disciplinary action against the personnel who are found to have committed such offenses; and

(3) provide detailed reporting to the ombudsman described in subsection (c)(4) (or other appropriate United Nations official) that describes the offenses committed by the nationals of such country and such country's responses to such offenses.

(f) **ASSISTANCE.**—The United States should develop support mechanisms to assist troop- or police-contributing countries, as necessary and appropriate—

(1) to improve their capacity to investigate allegations of sexual exploitation and abuse offenses committed by nationals of such countries while participating in a United Nations peacekeeping operation; and

(2) to appropriately hold accountable any individual who commits an act of sexual exploitation or abuse.

(g) **HUMAN RIGHTS REPORTING.**—In coordination with the ombudsman described in subsection (c)(4) (or other appropriate United Nations official), the Secretary shall identify, in the Department's annual country reports on human rights practices, the countries of origin of any peacekeeping personnel or units that—

(1) are characterized by noteworthy patterns of sexual exploitation or abuse; or

(2) have failed to institute appropriate institutional and procedural reforms after being made aware of any such patterns.

#### **SEC. 302. REIMBURSEMENT OF CONTRIBUTING COUNTRIES.**

It is the policy of the United States that—

(1) the present formula for determining the troop reimbursement rate paid to troop- and

police-contributing countries for United Nations peacekeeping operations should be clearly explained and made available to the public on the United Nations Department of Peacekeeping Operations website;

(2) regular audits of the nationally-determined pay and benefits given to personnel from troop- and police-contributing countries participating in United Nations peacekeeping operations should be conducted to help inform the reimbursement rate referred to in paragraph (1); and

(3) the survey mechanism developed by the United Nations Secretary General's Senior Advisory Group on Peacekeeping Operations for collecting troop- and police-contributing country data on common and extraordinary expenses associated with deploying personnel to peacekeeping operations should be coordinated with the audits described in paragraph (2) to ensure proper oversight and accountability.

#### **SEC. 303. WITHHOLDING OF ASSISTANCE.**

It is the policy of the United States that security assistance should not be provided to any unit of the security forces of a foreign country if such unit has engaged in a gross violation of human rights or in acts of sexual exploitation or abuse, including while serving in a United Nations peacekeeping operation.

#### **SEC. 304. UNITED NATIONS PEACEKEEPING ASSESSMENT FORMULA.**

The Secretary shall direct the United States Permanent Representative to the United Nations to use the voice, vote, and influence of the United States at the United Nations to urge the United Nations to share the raw data used to calculate Member State peacekeeping assessment rates and to make available the formula for determining peacekeeping assessments.

#### **SEC. 305. REIMBURSEMENT OR APPLICATION OF CREDITS.**

Notwithstanding any other provision of law, the President shall direct the United States Permanent Representative to the United Nations to use the voice, vote, and influence of the United States at the United Nations to seek and timely obtain a commitment from the United Nations to make available to the United States any peacekeeping credits that are generated from a closed peacekeeping operation.

#### **SEC. 306. REPORT ON UNITED STATES CONTRIBUTIONS TO THE UNITED NATIONS RELATING TO PEACEKEEPING OPERATIONS.**

(a) **IN GENERAL.**—Paragraph (1) of section 4(c) of the United Nations Participation Act of 1945 (22 U.S.C. 287b(c)) is amended—

(1) by amending subparagraph (A) to read as follows:

“(A) A description of all assistance from the United States to the United Nations to support peacekeeping operations that—

“(i) was provided during the previous fiscal year;

“(ii) is expected to be provided during the fiscal year or

“(iii) is included in the annual budget request to Congress for the forthcoming fiscal year.”;

(2) by amending subparagraph (D) to read as follows:

“(D) For assessed or voluntary contributions described in subparagraph (B)(iii) or (C)(iii) that exceed \$100,000 in value, including in-kind contributions—

“(i) the total amount or estimated value of all such contributions to the United Nations and to each of its affiliated agencies and related bodies;

“(ii) the nature and estimated total value of all in-kind contributions in support of

United Nations peacekeeping operations and other international peacekeeping operations, including—

- “(I) logistics;
- “(II) airlift;
- “(III) arms and materiel;
- “(IV) nonmilitary technology and equipment;
- “(V) personnel; and
- “(VI) training;
- “(iii) the approximate percentage of all such contributions to the United Nations and to each such agency or body when compared with all contributions to the United Nations and to each such agency or body from any source; and

“(iv) for each such United States Government contribution to the United Nations and to each such agency or body—

“(I) the amount or value of the contribution;

“(II) a description of the contribution, including whether it is an assessed or voluntary contribution;

“(III) the purpose of the contribution;

“(IV) the department or agency of the United States Government responsible for the contribution; and

“(V) the United Nations or United Nations affiliated agency or related body that received the contribution.”; and

(3) by adding at the end the following new subparagraph:

“(E) The report required under this subsection shall be submitted in unclassified form, but may include a classified annex.”.

(b) **PUBLIC AVAILABILITY OF INFORMATION.**—Not later than 14 days after submitting each report under section 4(c) of the United Nations Participation Act of 1945 (22 U.S.C. 287b(c)), the Director of the Office of Management and Budget shall post a text-based, searchable version of any unclassified information described in paragraph (1)(D) of such section (as amended by subsection (a) of this section) on a publicly available website.

#### **SEC. 307. WHISTLEBLOWER PROTECTIONS FOR UNITED NATIONS PERSONNEL.**

The President shall direct the United States Permanent Representative to the United Nations to use the voice, vote, and influence of the United States at the United Nations to—

(1) call for the removal of any official of the United Nations or of any United Nations agency, program, commission, or fund who the Secretary has determined has failed to uphold the highest standards of ethics and integrity established by the United Nations, including such standards specified in United Nations Codes of Conduct and Codes of Ethics, or whose conduct, with respect to preventing sexual exploitation and abuse by United Nations peacekeepers, has resulted in the erosion of public confidence in the United Nations;

(2) ensure that best practices with regard to whistleblower protections are extended to all personnel serving the United Nations or serving any United Nations agency, program, commission, or fund, especially personnel participating in United Nations peacekeeping operations, United Nations police officers, United Nations staff, contractors, and victims of misconduct, wrongdoing, or criminal behavior involving United Nations personnel;

(3) ensure that the United Nations implements protective measures for whistleblowers who report significant allegations of misconduct, wrongdoing, or criminal behavior by personnel serving the United Nations or serving any United Nations agency, program, commission, or fund, especially per-

sonnel participating in United Nations peacekeeping operations, United Nations staff, or contractors, specifically by implementing best practices for the protection of such whistleblowers from retaliation, including—

(A) protection against retaliation for internal and lawful public disclosures;

(B) legal burdens of proof;

(C) statutes of limitation for reporting retaliation;

(D) access to independent adjudicative bodies, including external arbitration; and

(E) results that eliminate the effects of proven retaliation;

(4) insist that the United Nations provides adequate redress to any whistleblower who has suffered from retribution in violation of the protective measures specified in paragraph (3), including reinstatement to any position from which such whistleblower was wrongfully removed, or reassignment to a comparable position at the same level of pay, plus any compensation for any arrearage in salary to which such whistleblower would have otherwise been entitled but for the wrongful retribution;

(5) call for public disclosure of the number and general description of—

(A) complaints submitted to the United Nations' Ethics Office, local Conduct and Discipline teams, or other entity designated to receive complaints from whistleblowers;

(B) determinations that probable cause exists to conduct an investigation, and specification of the entity conducting such investigation, including the Office of Internal Oversight Services, the Office of Audit and Investigations (for UNDP), the Office of Internal Audit (for UNICEF), and the Inspector General's Office (for UNHCR);

(C) dispositions of such investigations, including dismissal and referral for adjudication, specifying the adjudicating entity, such as the United Nations Dispute Tribunal; and

(D) results of adjudication, including disciplinary measures proscribed and whether such measures were effected, including information with respect to complaints regarding allegations of sexual exploitation and abuse by United Nations peacekeepers, allegations of fraud in procurement and contracting, and all other allegations of misconduct, wrongdoing, or criminal behavior;

(6) insist that the full, unredacted text of any investigation or adjudication referred to in paragraph (5) are made available to Member States upon request; and

(7) call for an examination of the feasibility of establishing a stand-alone agency at the United Nations, independent of the Secretary General, to investigate all allegations of misconduct, wrongdoing, or criminal behavior, reporting to the Member States of the General Assembly, paid for from the United Nations regular budget, to replace existing investigative bodies, including the Office of Internal Oversight Services, the Office of Audit and Investigations, the Office of Internal Audit, and the Office of Inspector General of the Department of State and the Broadcasting Board of Governors.

#### **SEC. 308. ENCOURAGING EMPLOYMENT OF UNITED STATES CITIZENS AT THE UNITED NATIONS.**

Section 181 of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (22 U.S.C. 276c-4) is amended to read as follows:

#### **“SEC. 181. EMPLOYMENT OF UNITED STATES CITIZENS BY CERTAIN INTERNATIONAL ORGANIZATIONS.**

“Not later than 180 days after the date of the enactment of the Department of State

Authorization Act, Fiscal Year 2017, and annually thereafter for three years, the Secretary of State shall submit to Congress a report that provides—

“(1) for each international organization that had a geographic distribution formula in effect on January 1, 1991, an assessment of whether that organization—

“(A) is taking good faith steps to increase the staffing of United States citizens, including, as appropriate, as assessment of any additional steps the organization could be taking to increase such staffing; and

“(B) has met the requirements of its geographic distribution formula; and

“(2) an assessment of United States representation among professional and senior-level positions at the United Nations, including—

“(A) an assessment of the proportion of United States citizens employed at the United Nations Secretariat and at all United Nations specialized agencies, funds, and programs relative to the total employment at the United Nations Secretariat and at all such agencies, funds, and programs;

“(B) an assessment of compliance by the United Nations Secretariat and such agencies, funds, and programs with any applicable geographic distribution formula; and

“(C) a description of any steps taken or planned to be taken by the United States to increase the staffing of United States citizens at the United Nations Secretariat and such agencies, funds and programs.”.

#### **SEC. 309. STATEMENT OF POLICY ON MEMBER STATE'S VOTING PRACTICES AT THE UNITED NATIONS.**

It is the policy of the United States to strongly consider a Member State's voting practices at the United Nations before entering into any agreements with the Member State.

#### **SEC. 310. QUALIFICATIONS OF THE UNITED NATIONS SECRETARY GENERAL.**

(a) **SENSE OF CONGRESS.**—The Secretary shall direct the United States Permanent Representative to the United Nations to use the voice, vote, and influence of the United States at the United Nations to urge each future candidate for the position of the United Nations Secretary General to circulate to the Member States of the General Assembly a description of his or her priorities and objectives for leading the organization and ensuring that it upholds the principles outlined by the United Nations Charter, including specific recommendations to improve strategic planning and enact far-reaching management, performance, and accountability reforms.

(b) **PROPOSAL FOR UNITED NATIONS REFORM.**—The descriptions referred to in subsection (a) shall include the following elements:

(1) A process for determining the goals, objectives, and benchmarks for the timely withdrawal of peacekeeping forces prior to the approval by the United Nations Security Council of a new or expanded peacekeeping operation.

(2) A proposal for ensuring that the numbers and qualifications of staff are clearly aligned with the specific needs of each United Nations agency, mission, and program, including measures to ensure that such agencies, missions, and programs have the flexibility needed to hire and release employees as workforce needs change over time.

(c) **STATEMENT OF POLICY.**—It is the policy of the United States to withhold support for any candidate for the position of United Nations Secretary General unless such candidate has produced a clear vision for leading

the United Nations, including a robust reform agenda as described in subsection (b), and circulated such 1 to the Member States of the General Assembly.

**SEC. 311. POLICY REGARDING THE UNITED NATIONS HUMAN RIGHTS COUNCIL.**

(a) SENSE OF CONGRESS.—It is the sense of Congress that the United States should use its voice, vote, and influence at the United Nations to work to ensure that—

(1) the United Nations Human Rights Council takes steps to remove permanent items on the United Nations Human Rights Council's agenda or program of work that target or single out a specific country or a specific territory or territories;

(2) the United Nations Human Rights Council does not include a Member State of the United Nations—

(A) subject to sanctions by the United Nations Security Council;

(B) under a United Nations Security Council-mandated investigation for human rights abuses;

(C) which the Secretary has determined, for purposes of section 6(j) of the Export Administration Act of 1979 (as continued in effect pursuant to the International Emergency Economic Powers Act), section 40 of the Arms Export Control Act, section 620A of the Foreign Assistance Act of 1961, or other provision of law, is a government that has repeatedly provided support for acts of international terrorism; or

(D) which the President has designated as a country of particular concern for religious freedom under section 402(b) of the International Religious Freedom Act of 1998; and

(3) the percentage of United States citizens employed at the senior level in each of the Research and Right to Development Division, the Human Rights Treaties Division, the Field Operations and Technical Cooperation Division, and the Human Rights Council and Special Procedures Division of the United Nations Human Rights Office of the High Commissioner during the most recently completed plenary session of the United Nations General Assembly is at least equivalent to the percentage of the total United States assessed contribution to the United Nations regular budget during such plenary session of the United Nations General Assembly.

(b) REPORT.—Not later than 90 days after the date of the enactment of this Act, and annually thereafter for each of the following five years, the Secretary shall submit to the appropriate congressional committees a report that describes—

(1) the resolutions that were considered in the United Nations Human Rights Council during the previous 12 months;

(2) the steps that have been taken during that 12-month period to remove permanent items on the United Nations Human Rights Council's agenda or program of work that target or single out a specific country or a specific territory or territories;

(3) a detailed list of any country currently on, or running for a seat on, the United Nations Human Rights Council that meets any of the criteria described in subparagraph (A), (B), (C), or (D) of subsection (a)(3); and

(4) the current employment breakdown by nationality at each of the four major divisions of the United Nations Human Rights Office of the High Commissioner as specified in subsection (a)(4).

**SEC. 312. ADDITIONAL REPORT ON OTHER UNITED STATES CONTRIBUTIONS TO THE UNITED NATIONS.**

(a) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act

and annually thereafter, the Director of the Office of Management and Budget shall submit to Congress a report on all assessed and voluntary contributions with a value greater than \$100,000, including in-kind, of the United States Government to the United Nations and its affiliated agencies and related bodies during the previous fiscal year.

(b) CONTENT.—The report required under subsection (a) shall include the following elements:

(1) The total amount of all assessed and voluntary contributions, including in-kind, of the United States Government to the United Nations and its affiliated agencies and related bodies during the previous fiscal year.

(2) The approximate percentage of United States Government contributions to each United Nations affiliated agency or body in such fiscal year when compared with all contributions to each such agency or body from any source in such fiscal year.

(3) For each such United States Government contribution—

(A) the amount of each such contribution;

(B) a description of each such contribution (including whether assessed or voluntary);

(C) the department or agency of the United States Government responsible for each such contribution;

(D) the purpose of each such contribution; and

(E) the United Nations or its affiliated agency or related body receiving the contribution.

(c) SCOPE OF INITIAL REPORT.—The first report required under subsection (a) shall include the information required under this section for the previous three fiscal years.

(d) PUBLIC AVAILABILITY OF INFORMATION.—Not later than 14 days after submitting a report required under subsection (a), the Director of the Office of Management and Budget shall post a public version of such report on a text-based, searchable, and publicly available Internet Web site.

**SEC. 313. COMPARATIVE REPORT ON PEACEKEEPING OPERATIONS.**

Not later than one year after the date of the enactment of this Act, the Comptroller General of the United States shall submit to the appropriate congressional committees a report on the costs, strengths, and limitations of United States and United Nations peacekeeping operations, which shall include—

(1) a comparison of the costs of current United Nations peacekeeping operations and the estimated cost of comparable United States peacekeeping operations; and

(2) an analysis of the strengths and limitations of—

(A) a peacekeeping operation led by the United States; and

(B) a peacekeeping operation led by the United Nations.

**TITLE IV—PERSONNEL AND ORGANIZATIONAL ISSUES**

**SEC. 401. LOCALLY-EMPLOYED STAFF WAGES.**

(a) MARKET-RESPONSIVE STAFF WAGES.—Not later than 180 days after the date of enactment of this Act and periodically thereafter, the Secretary shall establish and implement a prevailing wage rates goal for positions in the local compensation plan, as described in section 408 of the Foreign Service Act of 1980 (22 U.S.C. 3968), at each diplomatic post that—

(1) is based on the specific recruiting and retention needs of each such post and local labor market conditions, as determined annually; and

(2) is not less than the 50th percentile of the prevailing wage for comparable employ-

ment in the labor market surrounding each such post.

(b) EXCEPTION.—The prevailing wage rate goal established under subsection (a) shall not apply if compliance with such subsection would be inconsistent with applicable United States law, the law in the locality of employment, or the public interest.

(c) RECORDKEEPING REQUIREMENT.—The analytical assumptions underlying the calculation of wage levels at each diplomatic post under subsection (a), and the data upon which such calculation is based—

(1) shall be filed electronically and retained for not less than five years; and

(2) shall be made available to the appropriate congressional committees upon request.

**SEC. 402. EXPANSION OF CIVIL SERVICE OPPORTUNITIES.**

It is the sense of Congress that the Department should—

(1) expand the Overseas Development Program from 20 positions to not fewer than 40 positions within one year of the date of the enactment of this Act;

(2) analyze the costs and benefits of further expansion of the Overseas Development Program; and

(3) expand the Overseas Development Program to more than 40 positions if the benefits identified in paragraph (2) outweigh the costs identified in such paragraph.

**SEC. 403. PROMOTION TO THE SENIOR FOREIGN SERVICE.**

Section 601(c) of the Foreign Service Act of 1980 (22 U.S.C. 4001(c)) is amended by adding at the end the following new paragraph:

“(6)(A) The promotion of any individual joining the Service on or after January 1, 2017, to the Senior Foreign Service shall be contingent upon such individual completing at least one tour in—

“(i) a global affairs bureau; or

“(ii) a global affairs position.

“(B) The requirements under subparagraph (A) shall not apply if the Secretary certifies that the individual proposed for promotion to the Senior Foreign Service—

“(i) has met all other requirements applicable to such promotion; and

“(ii) was unable to complete a tour in a global affairs bureau or global affairs position because there was not a reasonable opportunity for such individual to be assigned to such a position.

“(C) In this paragraph—

“(i) the term ‘global affairs bureau’ means any bureau of the Department that is under the responsibility of—

“(I) the Under Secretary for Economic Growth, Energy, and Environment;

“(II) the Under Secretary for Arms Control and International Security Affairs;

“(III) the Under Secretary for Management;

“(IV) the Assistant Secretary for International Organization Affairs;

“(V) the Under Secretary for Public Diplomacy and Public Affairs; or

“(VI) the Under Secretary for Civilian, Security, Democracy, and Human Rights; and

“(ii) the term ‘global affairs position’ means any position funded with amounts appropriated to the Department under the heading ‘Diplomatic Policy and Support’.”

**SEC. 404. LATERAL ENTRY INTO THE FOREIGN SERVICE.**

(a) SENSE OF CONGRESS.—It is the sense of Congress that the Foreign Service should permit mid-career entry into the Foreign Service for qualified individuals who are willing to bring their outstanding talents and experiences to the work of the Foreign Service.

(b) **PILOT PROGRAM.**—Not later than 180 days after the date of the enactment of this Act, the Secretary shall establish a three-year pilot program for lateral entry into the Foreign Service that—

(1) targets mid-career individuals from the civil service and private sector who have skills and experience that would be extremely valuable to the Foreign Service;

(2) is in full comportment with current Foreign Service intake procedures, including the requirement to pass the Foreign Service exam;

(3) offers participants in such pilot program placement in the Foreign Service at a grade level higher than FS-4 if such placement is warranted by the education and qualifying experience of such individuals;

(4) requires only one directed assignment in a position appropriate to such pilot program participant's grade level;

(5) includes, as part of the required initial training, a class or module that specifically prepares participants in such pilot program for life in the Foreign Service, including conveying to such participants essential elements of the practical knowledge that is normally acquired during a Foreign Service officer's initial assignments; and

(6) includes an annual assessment of the progress of such pilot program by a review board consisting of Department officials with appropriate expertise, including employees of the Foreign Service, in order to evaluate such pilot program's success.

(c) **ANNUAL REPORTING.**—Not later than one year after the date of the enactment of this Act and annually thereafter for the duration of the pilot program described in subsection (b), the Secretary shall submit to the appropriate congressional committees a report that describes the following:

(1) The cumulative number of accepted and unaccepted applicants to such pilot program.

(2) The cumulative number of pilot program participants placed into each Foreign Service cone.

(3) The grade level at which each pilot program participant entered the Foreign Service.

(4) Information about the first assignment to which each pilot program participant was directed.

(5) The structure and operation of such pilot program, including—

(A) the operation of such pilot program to date; and

(B) any observations and lessons learned about such pilot program that the Secretary considers relevant.

(d) **LONGITUDINAL DATA.**—The Secretary shall—

(1) collect and maintain data on the career progression of each pilot program participant for the length of each participant's Foreign Service career; and

(2) make the data described in paragraph (1) available to the appropriate congressional committees upon request.

#### **SEC. 405. REEMPLOYMENT OF ANNUITANTS AND WORKFORCE RIGHTSIZING.**

(a) **WAIVER OF ANNUITY LIMITATIONS.**—Subsection (g) of section 824 of the Foreign Service Act of 1980 (22 U.S.C. 4064) is amended—

(1) in paragraph (1)(B), by striking “to facilitate the” and all that follows through “Afghanistan.”;

(2) by striking paragraph (2); and

(3) by redesignating paragraph (3) as paragraph (2).

(b) **REPEAL OF SUNSET PROVISION.**—Subsection (a) of section 61 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2733) is amended to read as follows:

“(a) **AUTHORITY.**—The Secretary of State may waive the application of section 8344 or 8468 of title 5, United States Code, on a case-by-case basis, for employment of an annuitant in a position in the Department of State for which there is exceptional difficulty in recruiting or retaining a qualified employee, or when a temporary emergency hiring need exists.”.

(c) **RIGHTSIZING REPORT.**—On the date on which the President's annual budget request is submitted to Congress each year through 2022, the Secretary shall submit to the appropriate congressional committees a report that describes the implementation status of all rightsizing recommendations made by the Office of Management, Policy, Rightsizing, and Innovation of the Department related to overseas staffing levels, including whether each such recommendation was accepted or rejected by the relevant chief of mission and regional bureau.

#### **SEC. 406. INTEGRATION OF FOREIGN ECONOMIC POLICY.**

(a) **IN GENERAL.**—The Secretary, in conjunction with the Under Secretary of Economic Growth, Energy, and the Environment, shall establish—

(1) foreign economic policy priorities for each regional bureau, including for individual countries, as appropriate; and

(2) policies and guidance for integrating such foreign economic policy priorities throughout the Department.

(b) **DEPUTY ASSISTANT SECRETARY.**—Within each regional bureau of the Department, the Secretary shall task an existing Deputy Assistant Secretary with appropriate training and background in economic and commercial affairs with the responsibility for economic matters and interests within the responsibilities of each such regional bureau, including the integration of the foreign economic policy priorities established pursuant to subsection (a).

(c) **TRAINING.**—The Secretary shall establish curriculum at the George P. Shultz National Foreign Affairs Training Center to develop the practical foreign economic policy expertise and skill sets of Foreign Service officers, including by making available distance-learning courses in commercial, economic, and business affairs, including in the following:

(1) The global business environment.

(2) The economics of development.

(3) Development and infrastructure finance.

(4) Current trade and investment agreements negotiations.

(5) Implementing existing multilateral and World Trade Organization agreements, and United States trade and investment agreements.

(6) Best practices for customs and export procedures.

(7) Market analysis and global supply chain management.

#### **SEC. 407. TRAINING SUPPORT SERVICES.**

Subparagraph (B) of section 704(a)(4) of the Foreign Service Act of 1980 (22 U.S.C. 4024(a)(4)) is amended by striking “language instructors, linguists, and other academic and training specialists” and inserting “education and training specialists, including language instructors and linguists, and other specialists who perform work directly relating to the design, delivery, oversight, or coordination of training delivered by the institution”.

#### **SEC. 408. SPECIAL AGENTS.**

(a) **IN GENERAL.**—Paragraph (1) of section 37(a) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2709(a)) is amended to read as follows:

“(1) conduct investigations concerning—

“(A) illegal passport or visa issuance or use;

“(B) identity theft or document fraud affecting or relating to the programs, functions, or authorities of the Department of State; or

“(C) Federal offenses committed within the special maritime and territorial jurisdiction of the United States (as defined in section 7(9) of title 18, United States Code), except as such jurisdiction relates to the premises of United States military missions and related residences.”.

(b) **CONSTRUCTION.**—Nothing in the amendment made by subsection (a) may be construed to limit the investigative authority of any Federal department or agency other than the Department.

#### **SEC. 409. LIMITED APPOINTMENTS IN THE FOREIGN SERVICE.**

Section 309 of the Foreign Service Act of 1980 (22 U.S.C. 3949), is amended—

(1) in subsection (a) by striking “subsection (b)” and inserting “subsections (b) and (c)”;

(2) in subsection (b)—

(A) in paragraph (3)—

(i) by striking “if continued service” and inserting the following: “if—

“(A) continued service”;

(ii) in such subparagraph (A) (as so inserted and designated by clause (i) of this subparagraph), by inserting “or” after the semicolon at the end; and

(iii) by adding at the end the following new subparagraph:

“(B) the individual is serving in the uniformed services (as defined in section 4303 of title 38, United States Code) and the limited appointment expires in the course of such service.”;

(B) in paragraph (4), by striking “and” at the end;

(C) in paragraph (5), by striking the period at the end and inserting a semicolon; and

(D) by adding at the end the following new paragraph:

“(6) in exceptional circumstances if the Secretary determines the needs of the Service require the extension of—

“(A) a limited noncareer appointment for a period not to exceed one year; or

“(B) a limited appointment of a career candidate for the minimum time needed to resolve a grievance, claim, investigation, or complaint not otherwise provided for in this section.”; and

(3) by adding at the end the following new subsection:

“(c)(1) Except as provided in paragraph (2) noncareer employees who have served for five consecutive years under a limited appointment under this section may be reappointed to a subsequent noncareer limited appointment if there is at least a one-year break in service before such new appointment.

“(2) The Secretary may waive the one-year break requirement under paragraph (1) in cases of special need.”.

#### **SEC. 410. REPORT ON DIVERSITY RECRUITMENT, EMPLOYMENT, RETENTION, AND PROMOTION.**

(a) **IN GENERAL.**—The Secretary should provide oversight to the employment, retention, and promotion of traditionally under-represented minority groups.

(b) **ADDITIONAL RECRUITMENT AND OUTREACH REQUIRED.**—The Department should conduct recruitment activities that—

(1) develop and implement effective mechanisms to ensure that the Department is able effectively to recruit and retain highly

qualified candidates from a wide diversity of institutions; and

(2) improve and expand recruitment and outreach programs at minority-serving institutions.

(c) **REPORT.**—Not later than 180 days after the date of the enactment of this Act and quadrennially thereafter, the Secretary shall submit to Congress a comprehensive report that describes the efforts, consistent with existing law, including procedures, effects, and results of the Department since the period covered by the prior such report, to promote equal opportunity and inclusion for all American employees in direct hire and personal service contractors status, particularly employees of the Foreign Service, including equal opportunity for all traditionally under-represented minority groups.

**SEC. 411. MARKET DATA FOR COST-OF-LIVING ADJUSTMENTS.**

(a) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report that examines the feasibility and cost effectiveness of using private sector market data to determine cost of living adjustments for Foreign Service officers and Federal Government civilians who are stationed abroad.

(b) **CONTENT.**—The report required under subsection (a) shall include—

(1) a list of at least four private sector providers of international cost-of-living data that the Secretary determines are qualified to provide such data;

(2) a list of cities in which the Department maintains diplomatic posts for which private sector cost-of-living data is not available;

(3) a comparison of—

(A) the cost of purchasing cost-of-living data from each provider listed in paragraph (1); and

(B) the cost (including Department labor costs) of producing such rates internally; and

(4) for countries in which the Department provides a cost-of-living allowance greater than zero and the World Bank estimates that the national price level of the country is less than the national price level of the United States, a comparison of cost-of-living allowances, excluding housing costs, of the private sector providers referred to in paragraph (1) to rates constructed by the Department's Office of Allowances.

(c) **WAIVER.**—If the Secretary determines that compliance with subsection (b)(4) at a particular location is cost-prohibitive, the Secretary may waive the requirement under such subsection for such location if the Secretary submits to the appropriate congressional committees written notice and an explanation of the reasons for such waiver.

**SEC. 412. TECHNICAL AMENDMENT TO FEDERAL WORKFORCE FLEXIBILITY ACT.**

Chapter 57 of title 5, United States Code, is amended—

(1) in subparagraph (A) of section 5753(a)(2), by inserting “, excluding members of the Foreign Service other than chiefs of mission and ambassadors at large” before the semicolon at the end; and

(2) in subparagraph (A) of section 5754(a)(2), by inserting “, excluding members of the Foreign Service other than chiefs of mission and ambassadors at large” before the semicolon at the end.

**SEC. 413. RETENTION OF MID- AND SENIOR-LEVEL PROFESSIONALS FROM TRADITIONALLY UNDER-REPRESENTED MINORITY GROUPS.**

The Secretary should provide attention and oversight to the employment, retention, and promotion of traditionally under-rep-

resented minority groups to promote a diverse representation among mid- and senior-level career professionals through programs such as—

(1) the International Career Advancement Program;

(2) Seminar XXI at the Massachusetts Institute of Technology's Center for International Studies; and

(3) other highly respected international leadership programs.

**SEC. 414. EMPLOYEE ASSIGNMENT RESTRICTIONS.**

(a) **APPEAL OF ASSIGNMENT RESTRICTION.**—The Secretary shall establish a right and process for employees to appeal any assignment restriction or preclusion.

(b) **CERTIFICATION.**—Upon full implementation of a right and process for employees to appeal an assignment restriction or preclusion under subsection (a), the Secretary shall submit to the appropriate congressional committee a report that—

(1) certifies that such process has been fully implemented;

(2) includes a detailed description of such process; and

(3) details the number and nature of assignment restrictions and preclusions for the previous three years.

(c) **NOTICE.**—The Secretary shall—

(1) publish in the Foreign Affairs Manual information relating to the right and process established pursuant to subsection (a); and

(2) include a reference to such publication in the report required under subsection (b).

(d) **PROHIBITING DISCRIMINATION.**—Paragraph (2) of section 502(a) of the Foreign Service Act of 1980 (22 U.S.C. 3982(a)) is amended—

(1) by inserting “or prohibited from being assigned to” after “assigned to”; and

(2) by striking “exclusively”.

**SEC. 415. SECURITY CLEARANCE SUSPENSIONS.**

(a) **IN GENERAL.**—Section 610 of the Foreign Service Act of 1980 (22 U.S.C. 4010) is amended—

(1) by striking the section heading and inserting the following: “**SEPARATION FOR CAUSE; SUSPENSION**”; and

(2) by adding at the end the following new subsection:

“(c)(1) In order to promote the efficiency of the Service, the Secretary may suspend a member of the Service when—

“(A) the member's security clearance is suspended; or

“(B) there is reasonable cause to believe that the member has committed a crime for which a sentence of imprisonment may be imposed.

“(2) Any member of the Service for whom a suspension is proposed under this subsection shall be entitled to—

“(A) written notice stating the specific reasons for the proposed suspension;

“(B) a reasonable time to respond orally and in writing to the proposed suspension;

“(C) obtain at such member's own expense representation by an attorney or other representative; and

“(D) a final written decision, including the specific reasons for such decision, as soon as practicable.

“(3) Any member suspended under this subsection may file a grievance in accordance with the procedures applicable to grievances under chapter 11 of title I.

“(4) If a grievance is filed pursuant to paragraph (3)—

“(A) the review by the Foreign Service Grievance Board shall be limited to a determination of whether the provisions of paragraphs (1) and (2) have been fulfilled; and

“(B) the Board may not exercise the authority provided under section 1106(8).

“(5) In this subsection:

“(A) The term ‘reasonable time’ means—

“(i) with respect to a member of the Service assigned to duty in the United States, 15 days after receiving notice of the proposed suspension; and

“(ii) with respect to a member of the Service assigned to duty outside the United States, 30 days after receiving notice of the proposed suspension.

“(B) The terms ‘suspend’ and ‘suspension’ mean placing a member of the Foreign Service in a temporary status without duties.”.

(b) **CLERICAL AMENDMENT.**—The table of contents in section 2 of the Foreign Service Act of 1980 is amended by striking the item relating to section 610 and inserting the following new item:

“Sec. 610. Separation for cause; Suspension.”.

**SEC. 416. SENSE OF CONGRESS ON THE INTEGRATION OF POLICIES RELATED TO THE PARTICIPATION OF WOMEN IN PREVENTING AND RESOLVING CONFLICTS.**

It is the sense of Congress that—

(1) within each regional bureau of the Department, the Secretary should task an existing Deputy Assistant Secretary with the responsibility for overseeing the integration of policy priorities related to the importance of the participation of women in preventing and resolving conflicts; and

(2) the Director of the George P. Shultz National Foreign Affairs Training Center should incorporate at least one training session related to the importance of the participation of women in preventing and resolving conflicts into—

(A) the A-100 course attended by Foreign Service Officers; and

(B) with respect to Foreign Service Officers who have completed the A-100 course, at least one training course that will be completed not later than the date that is 1 year after the date of the enactment of this Act.

**SEC. 417. FOREIGN SERVICE FAMILIES WORKFORCE STUDY.**

Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report on workforce issues and challenges to career opportunities pertaining to tandem couples in the Foreign Service as well as couples with respect to which only one spouse is in the Foreign Service.

**SEC. 418. SPECIAL ENVOYS, REPRESENTATIVES, ADVISORS, AND COORDINATORS OF THE DEPARTMENT.**

Not later than 90 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report on special envoys, representatives, advisors, and coordinators of the Department, that includes—

(1) a tabulation of the current names, ranks, positions, and responsibilities of all special envoy, representative, advisor, and coordinator positions at the Department, with a separate accounting of all such positions at the level of Assistant Secretary (or equivalent) or above; and

(2) for each position identified pursuant to paragraph (1)—

(A) the date on which such position was created;

(B) the mechanism by which such position was created, including the authority under which such position was created;

(C) such positions authorized under section (d) of section 1 of the State Department

Basic Authorities Act of 1956 (22 U.S.C. 2651a);

(D) a description of whether, and the extent to which, the responsibilities assigned to such position duplicate the responsibilities of other current officials within the Department, including other special envoys, representatives, advisors, and coordinators;

(E) which current official of the Department would be assigned the responsibilities of such position in the absence of such position;

(F) to which current official of the Department such position directly reports;

(G) the total number of staff assigned to support such position; and

(H) with the exception of positions created by statute, a detailed explanation of the necessity of such position to the effective conduct of the foreign affairs of the United States.

#### SEC. 419. COMBATING ANTI-SEMITISM.

Not later than 180 days after the date of the enactment of this Act, the Special Envoy to Monitor and Combat Anti-Semitism of the Office to Monitor and Combat Anti-Semitism of the Department shall provide to the appropriate congressional committees a briefing on United States support to, and opportunities to coordinate with, American and European Jewish and other civil society organizations, focusing on youth, to combat anti-Semitism and other forms of religious, ethnic, or racial intolerance in Europe.

#### TITLE V—CONSULAR AUTHORITIES

##### SEC. 501. CODIFICATION OF ENHANCED CONSULAR IMMUNITIES.

Section 4 of the Diplomatic Relations Act (22 U.S.C. 254c) is amended—

(1) by striking “The President” and inserting the following:

“(a) IN GENERAL.—The President”; and

(2) by adding at the end the following new subsection:

“(b) CONSULAR IMMUNITY.—

“(1) IN GENERAL.—The Secretary of State, with the concurrence of the Attorney General, may, on the basis of reciprocity and under such terms and conditions as the Secretary may determine, specify privileges and immunities for a consular post, the members of a consular post, and their families which result in more favorable or less favorable treatment than is provided in the Vienna Convention on Consular Relations, of April 24, 1963 (T.I.A.S. 6820), entered into force for the United States on December 24, 1969.

“(2) CONSULTATION.—Before exercising the authority under paragraph (1), the Secretary of State shall consult with the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate regarding the circumstances that may warrant the need for privileges and immunities providing more favorable or less favorable treatment than is provided in the Vienna Convention.”.

##### SEC. 502. PASSPORTS MADE IN THE UNITED STATES.

(a) SENSE OF CONGRESS.—It is the sense of Congress that all components of United States passports, including all passport security features, should be printed, manufactured, and assembled exclusively within the United States by United States companies and personnel, contractors, and subcontractors with appropriate security clearances.

(b) BRIEFINGS.—The Secretary, in coordination with the heads of other relevant Federal agencies, shall provide a briefing, which may be given in a classified environment if necessary, to the appropriate congressional committees that includes the following details:

(1) A list of all components of the United States passport made outside the United States.

(2) The costs of all components of the United States passports made outside the United States.

(3) Comparable costs to produce and procure in the United States the items identified in paragraphs (1) and (2).

#### TITLE VI—WESTERN HEMISPHERE DRUG POLICY COMMISSION

##### SEC. 601. ESTABLISHMENT.

There is established an independent commission to be known as the “Western Hemisphere Drug Policy Commission” (in this title referred to as the “Commission”).

##### SEC. 602. DUTIES.

(a) REVIEW OF ILLICIT DRUG CONTROL POLICIES.—The Commission shall conduct a comprehensive review of United States foreign policy in the Western Hemisphere to reduce the illicit drug supply and drug abuse and reduce the damage associated with illicit drug markets and trafficking. The Commission shall also identify policy and program options to improve existing international counternarcotics policy. The review shall include the following topics:

(1) An evaluation of United States-funded international illicit drug control programs in the Western Hemisphere, including drug interdiction, crop eradication, alternative development, drug production surveys, police and justice sector training, demand reduction, and strategies to target drug kingpins.

(2) An evaluation of the impact of United States counternarcotics assistance programs in the Western Hemisphere, including the Colombia Strategic Development Initiative, the Merida Initiative, the Caribbean Basin Security Initiative and the Central America Regional Security Initiative, in curbing drug production, drug trafficking, and drug-related violence and improving citizen security.

(3) An evaluation of how the President’s annual determination of major drug-transit and major illicit drug producing countries pursuant to section 706 of the Foreign Relations Authorization Act, Fiscal Year 2003 (22 U.S.C. 2291j-1) serves United States interests with respect to United States international illicit drug control policies.

(4) An evaluation of whether the proper indicators of success are being used to evaluate United States international illicit drug control policy.

(5) An evaluation of United States efforts to stop illicit proceeds from drug trafficking organizations from entering the United States financial system.

(6) An evaluation of the links between the illegal narcotics trade in the Western Hemisphere and terrorist activities around the world.

(7) An evaluation of United States efforts to combat narco-terrorism in the Western Hemisphere.

(8) An evaluation of the financing of foreign terrorist organizations by drug trafficking organizations and an evaluation of United States efforts to stop such activities.

(9) An evaluation of alternative drug policy models in the Western Hemisphere.

(10) An evaluation of the impact of local drug consumption in Latin America and the Caribbean in promoting violence and insecurity.

(11) Recommendations on how best to improve United States counternarcotics policies in the Western Hemisphere.

(b) COORDINATION WITH GOVERNMENTS, INTERNATIONAL ORGANIZATIONS, AND NON-

GOVERNMENTAL ORGANIZATIONS IN THE WESTERN HEMISPHERE.—In conducting the review required under subsection (a), the Commission is encouraged to consult with—

(1) government, academic, and nongovernmental leaders, as well as leaders from international organizations, from throughout the United States, Latin America, and the Caribbean; and

(2) the Inter-American Drug Abuse Control Commission (CICAD).

(c) REPORT.—

(1) IN GENERAL.—Not later than 18 months after the first meeting of the Commission, the Commission shall submit to the Committee on Foreign Affairs of the House of Representatives, the Committee on Foreign Relations of the Senate, the Secretary, and the Director of the Office of National Drug Control Policy a report that contains—

(A) a detailed statement of the recommendations, findings, and conclusions of the Commission under subsection (a); and

(B) summaries of the input and recommendations of the leaders and organizations with which the Commission consulted under subsection (b).

(2) PUBLIC AVAILABILITY.—The report required under this subsection shall be made available to the public.

##### SEC. 603. MEMBERSHIP.

(a) NUMBER AND APPOINTMENT.—The Commission shall be composed of ten members to be appointed as follows:

(1) The majority leader and minority leader of the Senate shall each appoint two members.

(2) The Speaker and the minority leader of the House of Representatives shall each appoint two members.

(3) The President shall appoint two members.

(b) PROHIBITION.—

(1) IN GENERAL.—The Commission may not include—

(A) Members of Congress; or

(B) Federal, State, or local government officials.

(2) MEMBER OF CONGRESS.—In this subsection, the term “Member of Congress” includes a Delegate or Resident Commissioner to the Congress.

(c) APPOINTMENT OF INITIAL MEMBERS.—The initial members of the Commission shall be appointed not later than 30 days after the date of the enactment of this Act.

(d) VACANCIES.—Any vacancies shall not affect the power and duties of the Commission, but shall be filled in the same manner as the original appointment. An appointment required by subsection (a) should be made within 90 days of a vacancy on the Commission.

(e) PERIOD OF APPOINTMENT.—Each member shall be appointed for the life of the Commission.

(f) INITIAL MEETING AND SELECTION OF CHAIRPERSON.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the Commission shall hold an initial meeting to develop and implement a schedule for completion of the review and report required under section 362.

(2) CHAIRPERSON.—At the initial meeting, the Commission shall select a Chairperson from among its members.

(g) QUORUM.—Six members of the Commission shall constitute a quorum.

(h) COMPENSATION.—Members of the Commission—

(1) shall not be considered to be a Federal employee for any purpose by reason of service on the Commission; and

(2) shall serve without pay.

(1) **TRAVEL EXPENSES.**—Members shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code, while away from their homes or regular places of business in performance of services for the Commission.

#### SEC. 604. POWERS.

(a) **MEETINGS.**—The Commission shall meet at the call of the Chairperson or a majority of its members.

(b) **HEARINGS.**—The Commission may hold such hearings and undertake such other activities as the Commission determines necessary to carry out its duties.

(c) **OTHER RESOURCES.**—

(1) **DOCUMENTS, STATISTICAL DATA, AND OTHER SUCH INFORMATION.**—

(A) **IN GENERAL.**—The Library of Congress, the Office of National Drug Control Policy, the Department, and any other Federal department or agency shall, in accordance with the protection of classified information, provide reasonable access to documents, statistical data, and other such information the Commission determines necessary to carry out its duties.

(B) **OBTAINING INFORMATION.**—The Chairperson of the Commission shall request the head of an agency described in subparagraph (A) for access to documents, statistical data, or other such information described in such subparagraph that is under the control of such agency in writing when necessary.

(2) **OFFICE SPACE AND ADMINISTRATIVE SUPPORT.**—The Administrator of General Services shall make office space available for day-to-day activities of the Commission and for scheduled meetings of the Commission. Upon request, the Administrator shall provide, on a reimbursable basis, such administrative support as the Commission requests to fulfill its duties.

(d) **AUTHORITY TO USE UNITED STATES MAILS.**—The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(e) **AUTHORITY TO CONTRACT.**—

(1) **IN GENERAL.**—Subject to the Federal Property and Administrative Services Act of 1949, the Commission is authorized to enter into contracts with Federal and State agencies, private firms, institutions, and individuals for the conduct of activities necessary to the discharge of its duties under section 602.

(2) **TERMINATION.**—A contract, lease, or other legal agreement entered into by the Commission may not extend beyond the date of termination of the Commission.

#### SEC. 605. STAFF.

(a) **DIRECTOR.**—The Commission shall have a Director who shall be appointed by a majority vote of the Commission. The Director shall be paid at a rate not to exceed the rate of basic pay for level IV of the Executive Schedule.

(b) **STAFF.**—

(1) **IN GENERAL.**—With the approval of the Commission, the Director may appoint such personnel as the Director determines to be appropriate. Such personnel shall be paid at a rate not to exceed the rate of basic pay for level IV of the Executive Schedule.

(2) **ADDITIONAL STAFF.**—The Commission may appoint and fix the compensation of such other personnel as may be necessary to enable the Commission to carry out its duties, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 and

subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that no rate of pay fixed under this subsection may exceed the equivalent of that payable to a person occupying a position at level V of the Executive Schedule.

(c) **EXPERTS AND CONSULTANTS.**—With the approval of the Commission, the Director may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

(d) **DETAIL OF GOVERNMENT EMPLOYEES.**—Upon the request of the Commission, the head of any Federal agency may detail, without reimbursement, any of the personnel of such agency to the Commission to assist in carrying out the duties of the Commission. Any such detail shall not interrupt or otherwise affect the civil service status or privileges of the personnel.

(e) **VOLUNTEER SERVICES.**—Notwithstanding section 1342 of title 31, United States Code, the Commission may accept and use voluntary and uncompensated services as the Commission determines necessary.

#### SEC. 606. SUNSET.

The Commission shall terminate on the date that is 60 days after the date on which the Commission submits its report to Congress pursuant to section 602(c).

### TITLE VII—MISCELLANEOUS PROVISIONS

#### SEC. 701. FOREIGN RELATIONS EXCHANGE PROGRAMS.

(a) **EXCHANGES AUTHORIZED.**—Title I of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2651a et seq.) is amended by adding at the end the following new section:

##### “SEC. 63. FOREIGN RELATIONS EXCHANGE PROGRAMS.

“(a) **AUTHORITY.**—The Secretary may establish exchange programs under which officers or employees of the Department of State, including individuals appointed under title 5, United States Code, and members of the Foreign Service (as defined in section 103 of the Foreign Service Act of 1980 (22 U.S.C. 3903)), may be assigned, for not more than one year, to a position with any foreign government or international entity that permits an employee to be assigned to a position with the Department of State.

“(b) **SALARY AND BENEFITS.**—

“(1) **MEMBERS OF FOREIGN SERVICE.**—During a period in which a member of the Foreign Service is participating in an exchange program authorized pursuant to subsection (a), such member shall be entitled to the salary and benefits to which such member would receive but for the assignment under this section.

“(2) **NON-FOREIGN SERVICE EMPLOYEES OF DEPARTMENT.**—An employee of the Department of State other than a member of the Foreign Service participating in an exchange program authorized pursuant to subsection (a) shall be treated in all respects as if detailed to an international organization pursuant to section 3343(c) of title 5, United States Code.

“(3) **FOREIGN PARTICIPANTS.**—The salary and benefits of an employee of a foreign government or international entity participating in an exchange program authorized pursuant to subsection (a) shall be paid by such government or entity during the period in which such employee is participating in such program, and shall not be reimbursed by the Department of State.

“(c) **NON-RECIPROCAL ASSIGNMENT.**—The Secretary may authorize a non-reciprocal assignment of personnel pursuant to this section, with or without reimbursement from the foreign government or international en-

tity for all or part of the salary and other expenses payable during such assignment, if such is in the interests of the United States.

“(d) **RULE OF CONSTRUCTION.**—Nothing in this section may be construed to authorize the appointment as an officer or employee of the United States of—

“(1) an individual whose allegiance is to any country, government, or foreign or international entity other than to the United States; or

“(2) an individual who has not met the requirements of sections 3331, 3332, 3333, and 7311 of title 5, United States Code, or any other provision of law concerning eligibility for appointment as, and continuation of employment as, an officer or employee of the United States.”.

#### SEC. 702. UNITED STATES ADVISORY COMMISSION ON PUBLIC DIPLOMACY.

(a) **IN GENERAL.**—Section 1334 of the Foreign Affairs Reform and Restructuring Act of 1998 (22 U.S.C. 6553) is amended by striking “October 1, 2015” and inserting “October 1, 2020”.

(b) **RETROACTIVITY OF EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect as of October 1, 2016. Any lapse in powers, authorities, or responsibilities of the United States Advisory Commission on Public Diplomacy from the period beginning on October 1, 2016, and ending on the date of the enactment of this Act, shall be deemed to have not so lapsed.

#### SEC. 703. BROADCASTING BOARD OF GOVERNORS.

(a) **BROADCASTING TO ASIA.**—Section 309 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995 (22 U.S.C. 6208) is amended—

(1) in subsection (a)(1), by striking “the following countries” and all that follows through the period at the end and inserting “Asia.”; and

(2) in subsection (b)(1), by striking “the respective countries of”.

(b) **PROHIBITIONS.**—

(1) **IN GENERAL.**—Notwithstanding any other provision of law, any change to the Federal status of—

(A) the Cuba Service established pursuant to section 4 of the Radio Broadcasting to Cuba Act (22 U.S.C. 1465b; Public Law 98–111) is prohibited unless such section is explicitly repealed and such service is dissolved by an Act of Congress enacted on or after the date of the enactment of this Act; and

(B) the Television Marti Service established by section 244(a) of Television Broadcasting to Cuba Act (22 U.S.C. 1465cc; Public Law 101–246) is prohibited unless such section is explicitly repealed and such service is dissolved by an Act of Congress enacted on or after the date of the enactment of this Act.

(2) **DEFINITION.**—In this subsection, the term “change to the Federal status”, with respect to a service referred to in subparagraph (A) or (B) of paragraph (1), includes any significant restructuring, privatization, subordination to a private or public-public entity, or merger with a private or public-private entity of such service.

(c) **SENSE OF CONGRESS.**—It is the sense of Congress that the Broadcasting Board of Governors should start broadcasting in the Sindhi language.

#### SEC. 704. REWARDS FOR JUSTICE.

(a) **REWARDS AUTHORIZED.**—

(1) **IN GENERAL.**—Section 36(b) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2708(b)) is amended in paragraphs (4) and (5) by striking “or (9)” each place it appears and inserting “(9), or (10)”.

(2) **REPORTS; DEFINITIONS.**—Section 36 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2708) is amended—

(A) in subsection (g), by adding at the end the following new paragraph:

“(4) **REPORTS ON REWARDS AUTHORIZED.**—Not less than 15 days after a reward is authorized under this section, the Secretary of State shall submit to the appropriate congressional committees a report, which may be submitted in classified form if necessary to protect intelligence sources and methods, detailing information about the reward, including the identity of the individual for whom the reward is being made, the amount of the reward, the acts with respect to which the reward is being made, and how the reward is being publicized.”; and

(B) in subsection (k)(2), by striking “International Relations” and inserting “Foreign Affairs”.

(3) **EFFECTIVE DATE.**—The amendments made by paragraphs (1) and (2) take effect on the date of the enactment of this Act and apply with respect to any reward authorized under section 36 of the State Department Basic Authorities Act of 1956 (as so amended) on or after such date.

(b) **EXTRADITIONS.**—

(1) **SENSE OF CONGRESS.**—It is the sense of Congress that the refusal by other countries to extradite or otherwise render to the United States fugitives who have been indicted or convicted within the United States for serious crimes, including murder, hijacking, and acts of domestic terrorism, is an impediment to justice, undermines international security, and deserves high level diplomatic efforts toward resolution.

(2) **BRIEFING REQUIREMENT.**—Not later than 90 days after the date of the enactment of this Act, the President shall provide to Congress a briefing related to the issues raised in paragraph (1), including—

(A) the number of fugitives and others for whom the United States Government is seeking extradition or rendition, both in total and listed by country;

(B) the average length of time such extradition or rendition requests have been outstanding, both in general and by country;

(C) discussion of diplomatic and other efforts the United States has undertaken to secure the return of such fugitives;

(D) discussion of factors that have been barriers to the resolution of such cases; and

(E) information on the number of United States citizens whose extradition has been sought by foreign governments during the past five years, both in total and listed by country, and a discussion of the outcome of such requests.

**SEC. 705. EXTENSION OF PERIOD FOR REIMBURSEMENT OF SEIZED COMMERCIAL FISHERMEN.**

Subsection (e) of section 7 of the Fishermen's Protective Act of 1967 (22 U.S.C. 1977) is amended by striking “2008” and inserting “2018”.

**SEC. 706. EXPANSION OF THE CHARLES B. RANGEL INTERNATIONAL AFFAIRS PROGRAM, THE THOMAS R. PICKERING FOREIGN AFFAIRS FELLOWSHIP PROGRAM, AND THE DONALD M. PAYNE INTERNATIONAL DEVELOPMENT FELLOWSHIP PROGRAM.**

(a) **ADDITIONAL FELLOWSHIPS AUTHORIZED.**—Beginning in fiscal year 2017, the Secretary shall—

(1) increase by ten the number of fellows selected for the Charles B. Rangel International Affairs Program;

(2) increase by ten the number of fellows selected for the Thomas R. Pickering Foreign Affairs Fellowship Program; and

(3) increase by five the number of fellows selected for the Donald M. Payne International Development Fellowship Program.

(b) **RULE OF CONSTRUCTION.**—Nothing in this section may be construed as authorizing the hiring of additional personnel at the Department beyond existing, projected hiring patterns.

**SEC. 707. GAO REPORT ON DEPARTMENT CRITICAL TELECOMMUNICATIONS EQUIPMENT OR SERVICES OBTAINED FROM SUPPLIERS CLOSELY LINKED TO A LEADING CYBER-THREAT ACTOR.**

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on any critical telecommunications equipment, technologies, or services obtained or used by the Department or its contractors or subcontractors that is—

(1) manufactured by a foreign supplier, or a contractor or subcontractor of such supplier, that is closely linked to a leading cyber-threat actor; or

(2) from an entity that incorporates or utilizes information technology manufactured by a foreign supplier, or a contractor or subcontractor of such supplier, that is closely linked to a leading cyber-threat actor.

(b) **FORM.**—The report shall be submitted in unclassified form, but may include a classified annex.

(c) **DEFINITIONS.**—In this section:

(1) **LEADING CYBER-THREAT ACTOR.**—The term “leading cyber-threat actor” means a country identified as a leading threat actor in cyberspace in the report entitled “Worldwide Threat Assessment of the US Intelligence Community”, dated February 9, 2016.

(2) **CLOSELY LINKED.**—The term “closely linked”, with respect to a foreign supplier, contractor, or subcontractor and a leading cyber-threat actor, means the foreign supplier, contractor, or subcontractor—

(A) has ties to the military forces of such actor;

(B) has ties to the intelligence services of such actor;

(C) is the beneficiary of significant low interest or no-interest loans, loan forgiveness, or other support of such actor; or

(D) is incorporated or headquartered in the territory of such actor.

**SEC. 708. IMPLEMENTATION PLAN FOR INFORMATION TECHNOLOGY AND KNOWLEDGE MANAGEMENT.**

Not later than 90 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees an implementation plan, including timelines and resources, required to—

(1) establish a hub for analytics, data science, strategy, and knowledge management at the Department; and

(2) migrate suitable information technology (as such term is defined in section 11101(6) of title 40 United States Code) to a cloud computing service or a cloud-based solution.

**SEC. 709. RANSOMS TO FOREIGN TERRORIST ORGANIZATIONS.**

(a) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the President, in consultation with the Secretary, shall transmit to the appropriate congressional committees a report covering the previous calendar providing the following details:

(1) Which foreign governments are believed to have facilitated, directly or indirectly, the payment of ransoms.

(2) Which foreign terrorist organizations received payments from foreign governments identified in paragraph (1).

(3) The amount of each such payment.

(4) The means of delivering such payments.

(5) A summary of the efforts of the United States to counter such payments.

(6) Recommendations for improving coordination among the foreign allies of the United States to not pay ransoms.

(b) **FORM.**—The report required by subsection (a) shall be submitted in unclassified form, may include a classified annex, shall be made available to the public by posting the unclassified form of such report on the website of the Department, and may be included in any other report that is required to be made public.

**SEC. 710. STRATEGY TO COMBAT TERRORIST USE OF SOCIAL MEDIA.**

(a) **IN GENERAL.**—Not later than 90 days after the date of the enactment of this Act, the President shall transmit to the appropriate congressional committees a report on United States strategy to combat terrorists' and terrorist organizations' use of social media consistent with the President's 2011 “Strategic Implementation Plan for Empowering Local Partners to Prevent Violent Extremism in the United States”.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) An evaluation of what role social media plays in radicalization in the United States and elsewhere.

(2) An analysis of how terrorists and terrorist organizations are using social media, including trends.

(3) A summary of the Federal Government's efforts to disrupt and counter the use of social media by terrorists and terrorist organizations, an evaluation of the success of such efforts, and recommendations for improvement.

(4) An analysis of how social media is being used for counter-radicalization and counter-propaganda purposes, irrespective of whether or not such efforts are made by the Federal Government.

(5) An assessment of the value to law enforcement of social media posts by terrorists and terrorist organizations.

(6) An overview of social media training available to law enforcement and intelligence personnel that enables such personnel to understand and combat the use of social media by terrorists and terrorist organizations, as well as recommendations for improving or expanding existing training opportunities.

(c) **FORM.**—The report required by subsection (a) shall be submitted in unclassified form, but may include a classified annex in accordance with the protection of intelligence sources and methods.

(d) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committee on Foreign Affairs, the Committee on the Armed Services, the Committee on Homeland Security, the Committee on the Judiciary, and the Permanent Select Committee on Intelligence of the House of Representatives; and

(2) the Committee on Foreign Relations, the Committee on Armed Services, the Committee on Homeland Security and Governmental Affairs, the Committee on the Judiciary, and the Select Committee on Intelligence of the Senate.

**SEC. 711. REPORT ON DEPARTMENT INFORMATION TECHNOLOGY ACQUISITION PRACTICES.**

(a) **REPORT REQUIRED.**—Not later than 90 days after the date of the enactment of this

Act, the Secretary shall submit to the appropriate congressional committees a report detailing the Department's information technology acquisition practices.

(b) **ELEMENTS OF REPORT.**—The report required under subsection (a) shall include the following elements:

(1) Agency chief investment officer authority enhancements, including reporting on incremental developments regarding whether information technology investments are delivering functionality every six months.

(2) Enhanced transparency and risk management, including the methodology for calculating risk.

(3) The frequency and status of agency-wide portfolio reviews to identify opportunities for information technology efficiency, effectiveness, duplication, and potential savings.

(4) Data center consolidation and optimization, including potential savings.

**SEC. 712. PUBLIC AVAILABILITY OF REPORTS ON NOMINEES TO BE CHIEFS OF MISSION.**

Not later than seven days after submitting the report required under section 304(a)(4) of the Foreign Service Act of 1980 (22 U.S.C. 3944(a)(4)) to the Committee on Foreign Relations of the Senate, the President shall make the report available to the public, including by posting the report on the website of the Department in a conspicuous manner and location.

**SEC. 713. RECRUITMENT AND RETENTION OF INDIVIDUALS WHO HAVE LIVED, WORKED, OR STUDIED IN PREDOMINANTLY MUSLIM COUNTRIES OR COMMUNITIES.**

(a) **FINDINGS.**—Congress finds that successful engagement, including robust public diplomacy, with predominantly Muslim countries and communities is critical for achieving United States foreign policy objectives.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the Department should recruit more employees that have a personal background in, and thorough understating of, the cultures, languages, and history of the Middle East and wider Muslim world.

(c) **RECRUITMENT AND RETENTION OF CERTAIN INDIVIDUALS.**—The Secretary shall make every effort to recruit and retain individuals that have lived, worked, or studied in predominantly Muslim countries or communities, including individuals who have studied at an Islamic institution of higher learning.

**SEC. 714. SENSE OF CONGRESS REGARDING COVERAGE OF APPROPRIATE THERAPIES FOR DEPENDENTS WITH AUTISM SPECTRUM DISORDER (ASD).**

(a) **FINDING.**—Congress finds that physical, occupational, speech, and applied behavioral analysis (ABA) therapies are evidenced-based interventions proven to bring about positive change and assist in the long term development of children with autism spectrum disorder (ASD).

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the Secretary should endeavor to ensure coverage and access, for dependents with ASD of overseas employees, to the therapies described in subsection (a), including through telehealth, computer software programs, or alternative means if appropriate providers are not accessible due to such employees' placement overseas.

**SEC. 715. REPEAL OF OBSOLETE REPORTS.**

(a) **REPEAL OF CERTAIN REPORTING REQUIREMENTS.**—The following provisions of law are repealed:

(1) Section 12 of the Foreign Service Buildings Act, 1926 (Act of May 7, 1926, 22 U.S.C. 303).

(2) Section 404 of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (Public Law 102-138, 22 U.S.C. 2778 note).

(b) **OTHER REPORTING REFORM.**—

(1) Section 613 of the Foreign Relations Authorization Act, Fiscal Year 2003 (Public Law 107-228, 22 U.S.C. 6901 note) is amended—

(A) by striking subsection (b);

(B) by striking “(a) POLICY.—”; and

(C) by redesignating paragraphs (1) and (2) as subsections (a) and (b), respectively, and moving such subsections, as so redesignated, two ems to the left.

(2) Section 721 of Appendix G of the Consolidated Appropriations Act of 2000 (Public Law 106-113, 22 U.S.C. 287 note) is amended—

(A) by striking subsection (c); and

(B) by redesignating subsection (d) as subsection (c).

(3) Section 10 of the Palestinian Anti-Terrorism Act of 2006 (Public Law 109-446, 22 U.S.C. 2378b note) is amended—

(A) by striking subsection (b); and

(B) by redesignating subsection (c) as subsection (b).

(4) Section 1207 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107-314, 22 U.S.C. 6901 note) is amended—

(A) by striking subsection (d); and

(B) by redesignating subsection (e) as subsection (d).

(5) Subsection (c) of section 601 of the Foreign Service Act of 1980 (22 U.S.C. 4001) is amended by striking paragraphs (4) and (5).

**SEC. 716. PROHIBITION ON ADDITIONAL FUNDING.**

No additional funds are authorized to be appropriated to carry out this Act and the amendments made by this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. ROYCE) and the gentleman from New York (Mr. ENGEL) each will control 20 minutes.

The Chair recognizes the gentleman from California.

**GENERAL LEAVE**

Mr. ROYCE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. ROYCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to thank the ranking member of this committee, Mr. ELIOT ENGEL, for his work on this important piece of legislation to protect U.S. personnel overseas, to improve the oversight of the Department of State, and to modernize its workforce. And I would also like to thank the other members of the committee for their input as well on this legislation.

The world is not getting any easier for the men and women serving overseas who represent this country at the Department of State. These men and women work with many other agencies, including the Defense Department. They have got a wide range of very important responsibilities.

They try to broker peace agreements. And, of course, not everybody wants

peace in these agreements. They have to fight human trafficking. In other words, they have got to stand up to the criminal syndicates in some of these countries. They have got to help our fellow Americans in distress. That is just to name a few of the dangerous tasks that they undertake. They work hard, often in very challenging, even life-threatening circumstances, so they deserve our support, which includes reforming a department that sorely needs to modernize.

Mr. Speaker, the annual authorization of the Department of State is critical to maintaining congressional oversight and making these needed agency reforms. The House has passed an authorization bill in each of the last six Congresses, but, unfortunately, it has been 15 years since this legislation was signed into law. This year, we have an opportunity to break that unfortunate streak, which makes this legislation all the more important.

First and foremost, the bill includes a number of critical embassy security reforms and improvements. For example, the Department will be authorized to use so-called best value criteria when contracting for local guards at U.S. facilities overseas. This is an important change.

This authority has consistently been requested by the professionals overseeing the security at our embassies and has been a particular focus of two members of the committee. So I would like to thank LOIS FRANKEL and RANDY WEBER for their work.

The bill requires the State Department to designate a list of high-risk, high-threat posts, effectively prioritizing the resources and the security for these posts. Now, these are the posts most at risk. The State Department and Defense Department are directed to jointly develop enhanced contingency plans. Why? Because there are going to be surprises overseas. There are going to be emergency situations, including planning for the rapid deployment of military resources to keep our personnel safe in a time of crisis.

It includes provisions that improve security for the children and the families of U.S. diplomats abroad. And it makes sure that security failures, due to misconduct or due to unsatisfactory performance, are identified and those responsible are held accountable, something that did not happen when it came to the Islamist terrorist attack in Benghazi. No one lost a day of pay as a consequence of the mistakes made there.

The bill increases accountability also for sexual exploitation and abuse by U.N. peacekeepers, which the Foreign Affairs Committee has helped expose through the hearings by Chairman CHRIS SMITH.

It also increases transparency for how U.S. funds are spent at the United Nations and mandates that the Department work to increase the number of

American citizens employed by the United Nations. This has been a focus of Mr. MO BROOKS.

We have also included important provisions to bolster the State Department's inspector general, an office that the Foreign Affairs Committee successfully fought to have filled after it sat vacant for 5 years.

And lastly, the bill increases flexibility in the Department's workforce, allowing civil servants more opportunities to serve overseas and authorizing a pilot program to acquire skilled workers from the private sector.

The passage of this legislation, S. 1635, would strengthen the law. It is a bipartisan bill, it improves congressional oversight of the Department, and I think it deserves unanimous support.

I reserve the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of this bill.

Mr. Speaker, let me start by thanking my friend and the chairman of the Foreign Affairs Committee, ED ROYCE of California. He and I and our staffs have been working on this bill for most of the 114th Congress. This may be the last Foreign Affairs bill the House will deal with this year, and it is an appropriate capstone for the committee's work.

Authorizing and overseeing the State Department is one of our committee's most important responsibilities. As the Obama administration comes to an end and we deal with the uncertainties of a transition in power, it is important that Congress help to set the tone for the future of our foreign policy. We need to do all we can to ensure the future of America's leadership role in the world.

□ 1745

This bill is also long, long overdue as the chairman pointed out. The last time the President signed a State Department authorization was in the year 2002. So much has changed since then—from the invasion of Iraq and the subsequent rise of ISIS to the ascendance of the Asia-Pacific in our foreign policy to the growing threat of climate change.

Think about the way terrorist groups use social media to recruit fighters and spread propaganda. This has become a major foreign policy concern; yet the last time we passed the State Department authorization, Twitter and Facebook were still a few years from coming online. Imagine that. That is just one example. In nearly 15 years, countless issues have cropped up as new foreign policy concerns, and traditional areas of diplomacy and development have evolved. This bill will help the State Department keep pace with the changes.

I would like to underscore a few provisions in this bill that I think are es-

pecially important. The main thing I want to talk about is the heart and soul of American diplomacy: our diplomats. Our diplomats are at the core of this bill. We want them to have the tools and resources for success.

These men and women pursue a path of public service unlike any other, going to work—sometimes in dangerous places—as America's face to the world. Diplomats are our front line of international engagement, advancing our interests and building bridges of friendship and understanding. This is incredibly important work. It requires the right people for the job—people with the skill, training, and confidence to carry out their work.

We need to do all we can to enable our diplomats to carry out diplomacy. They need to be able to get out from behind a desk and engage directly with cultures and communities, from government officials to civil society groups to everyday people on the street; so we have included provisions in this bill that are focused on the security of our Embassies and on the proper training of our personnel.

We need the best possible security for our Embassies and diplomats abroad, and good security doesn't always come cheap. This bill says that, when the State Department hires local personnel to protect our diplomatic facilities and staff, they shouldn't be constrained only to take the lowest cost bid. After all, the rule is generally true that you get what you pay for, and when it comes to the safety of our diplomats, we should be focused on quality in addition to cost; so we have included a provision that calls for the best value security rather than the lowest cost. There is a lot of value in keeping our diplomats safe, and I want to thank representative LOIS FRANKEL for her work on this provision.

With this bill, we have also focused on improving the security of what we call "soft targets," not typical diplomatic facilities, but things like schools and schoolbuses for the children of diplomats abroad.

It is also important that the State Department reflect who we are as a country. America is made up of people from all different backgrounds and perspectives. Our diversity is one of our strengths. Our Foreign Service should benefit from that strength and reflect it back to the world.

We also need to incorporate that strength into our foreign policy. A diverse workforce means a diversity of views and experiences to aid our leaders when they face tough decisions. Old ways of thinking and worn-out approaches aren't well suited to the modern range of challenges our diplomats face. This bill will push the Department to recruit, train, and retain a diverse workforce. Reports tell us that the State Department has been slow to change in these areas, so we want to give those efforts a shot in the arm.

Additionally, I thank Chairman ROYCE for including my Western Hemisphere Drug Policy Commission legislation in this bill. The heroin epidemic in this country is getting worse and worse. We need to make sure that our drug policy is focused on saving lives. Here at home, that means doing more on prevention and treatment. Looking abroad, we need to take stock of what has worked and what hasn't when it comes to our drug policy in Latin America and the Caribbean. That is what this commission will do, and I am grateful this measure is moving forward.

That idea, taking stock of our successes and failures, brings me to a few final thoughts on this bill. Even though Congress has a role in foreign policy, we are outside the day-to-day decisionmaking structures. That outside perspective gives us a chance to step back and ask: What can we be doing better? Where can we cut away dead wood? What changes going on in the world require us to change our approach?

Our State Department personnel may have great new ideas about the way to advance our interests, but they are constrained by existing law or are bogged down in the constant hard work demanded of them. Let's be honest. By their nature, bureaucracies tend not to change on their own. That is when Congress needs to step in and say: "We can help to solve this problem. We can make it easier for our diplomats to do their jobs." The thing is that we have to actually do that. We should try to pass a bill like this every year. It should become the way we do business, just like the defense authorization, because when we don't, we are letting our diplomats down; we are also ceding their work to other jurisdictions, and we are missing opportunities to bolster American diplomacy and national security.

Last week, we voted on the Defense Authorization Act. It included 80 provisions that fell, at least in part, under the jurisdiction of the Foreign Affairs Committee when it landed on the President's desk. I respect our friends on the Armed Services Committee a great deal, but I hear their message loud and clear, that if we don't act in our own jurisdiction, someone else will.

I am encouraged that we have made it this far on this bill. I hope it becomes a regular part of our committee's work and that, a year from now, we are back here debating more good ideas about improving American diplomacy. For now, I again thank the chairman. I am glad to support this bill, and I urge all my colleagues to do the same.

I reserve the balance of my time.

Mr. ROYCE. Mr. Speaker, I yield 4 minutes to the gentleman from New Jersey (Mr. SMITH). He is the chairman of the Foreign Affairs Subcommittee

on Africa, Global Health, Global Human Rights, and International Organizations.

Mr. SMITH of New Jersey. I thank my good friend, the distinguished chairman of the Foreign Affairs Committee, Mr. ROYCE, for his leadership on this important bill. I thank ELIOT ENGEL, the ranking member, and, of course, Senators CORKER and CARDIN. This is a true bipartisan piece of legislation. I thank my colleagues for their leadership on this.

Mr. Speaker, a highly skilled group of Foreign Service Officers—about 15,000 strong—are deployed worldwide to promote peace and human rights, to support prosperity, and to protect Americans while advancing the vital interests of the United States abroad. For most, posting overseas requires serious personal sacrifice. For some, deployment entails serious danger—from disease, crime, and terrorism.

Mr. Speaker, after the American Embassies in Dar es Salaam and Nairobi were attacked by terrorists in August of 1998, I chaired hearings on Embassy security in my subcommittee and authored the Admiral James W. Nance and Meg Donovan Foreign Relations Authorization Act of 2000 and 2001 to significantly boost Embassy security, including reconfigured Embassies, setbacks—a zone that puts the street farther away from the building—and additional diplomatic security personnel. The bill, dubbed the “Embassy Security Act,” which passed the House in 1999, never even got a vote in the Senate; but after much lobbying, my bill was included in its entirety in the FY 2000 appropriations omnibus. In 2005, Congress enacted into law another bill I sponsored, the Department of State Authorities Act, which, among other things, boosted danger pay.

Today, the Royce-Corker-Engel-Cardin bill authorizes \$4.8 billion for Embassy security. It continues the all-important work of ensuring the most effective security possible for our Foreign Service and Americans abroad by directing joint DOD-State contingency plans—including the rapid deployment of Armed Forces—the designation of high-risk, high-threat posts with adequate funding and training commensurate with the danger, and the utilization of “best value” contracting.

The bill provides numerous enhancements of personnel issues for our men and women in the Foreign Service—from promotion opportunities to updated cost-of-living adjustments to improved care of Foreign Service officers’ children-dependents with autism spectrum disorders.

During markup—and I thank the chair for being so gracious for supporting it—I sponsored an amendment that was approved that recognizes applied behavior analysis, or ABA, as proven evidence-based intervention for autistic children and that the Sec-

retary of State should ensure that coverage of and access to ABA for dependents with ASD of overseas employees is provided.

I travel all over the world, and I often hear from Foreign Service Officers who cannot get ABA treatment for their children. They are anguished because, if they try to go to a deployment where that is provided, it may hinder their Foreign Service careers; and, of course, they put their children first. That shouldn’t be the case. There should be no choice. The children need to be supported as well as the Foreign Service Officers.

The House Foreign Affairs Committee also adopted another amendment I offered during markup, which is whistleblower protections for U.N. personnel—we have had hearings on that in our subcommittee—the capacity to investigate allegations of sexual exploitation committed by peacekeepers and to hold those who commit such heinous crimes accountable.

Mr. Speaker, I have traveled to places like Goma, in the DRC, where peacekeepers were raping 13-year-olds—U.N. peacekeepers. The series of hearings that we held on it found that the zero tolerance policy of the U.N. was really zero compliance. That has to improve. There have been some improvements made but far fewer than what are required. This legislation helps to push that ball significantly down that lane. Hopefully, the peacekeepers will do just that—protect. It is a duty for us to make sure that that happens. There are many other good things in this bill.

Again, I thank Chairman ROYCE for his leadership.

Mr. ROYCE. Mr. Speaker, in reclaiming my time, I thank CHRIS SMITH for his years of oversight and for his combating that type of abuse. I also thank him for our efforts to have this included now in what will become a new law.

I reserve the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield 3 minutes to the gentleman from Virginia (Mr. CONNOLLY), my good friend and colleague on the Foreign Affairs Committee.

Mr. CONNOLLY. I thank the gentleman from New York (Mr. ENGEL), my dear friend and the distinguished ranking member of the House Foreign Affairs Committee.

I rise today in support of S. 1635, the Department of State Authorities Act. There is an expression in Latin. I studied Latin for 6 years, but I rarely get to use it. It is *mirabile dictu*—wonderful to relate—that we are actually going to pass the State Department authorization bill.

The bill is not perfect, and it is not as comprehensive as one would hope; however, it is a product of compromise under the fine leadership of ED ROYCE and ELIOT ENGEL. It is a welcome step

toward the annual authorization of the State Department operations I know we will get to next year. The regular enactment of a State Department authorization is a long-neglected priority, and the clarity of our diplomacy and development missions have suffered absent one. Congress has not enacted a full State authorization bill since 2002.

In a similar vein, the Foreign Assistance Act has not undergone a comprehensive reauthorization since 1985, when I was a staff member on the Senate Foreign Relations Committee. I have introduced the Global Partnerships Act, which would do just that, and I have tried to streamline and modernize the Foreign Assistance Act of 1961.

The bill on the floor today codifies high standards for Embassy security practices and ensures that we are making smart investments in diplomatic security. It also fights discrimination and promotes diversity within the Foreign Service.

I thank the committee—and particularly our leaders, Chairman ROYCE and Ranking Member ENGEL—for including my amendment that requires the State Department to report on its compliance with the Federal Information Technology Acquisition Reform Act, FITARA, which is the Federal IT reform bill I introduced and wrote with Mr. ISSA.

I support this bill because it enables the kind of serious, credible, and ambitious diplomacy that can solve the world’s most intractable challenges, and I urge my colleagues to give it their full support.

Again, I congratulate our staffs—and particularly our chairman and ranking member, Mr. ROYCE and Mr. ENGEL, respectively—for their leadership in bringing this bill before us today.

Mr. ROYCE. Mr. Speaker, I reserve the balance of my time.

Mr. ENGEL. Mr. Speaker, I yield myself such time as I may consume.

I am waiting for one other speaker; so, while we are waiting, let me at least partially close.

I, first of all, thank Chairman ROYCE’s staff for their hard work on this very important bill. I thank Tom Sheehy, Ed Burrier, Tom Hill, and Doug Anderson, and on my staff, Jason Steinbaum, Doug Campbell, Eric Jacobstein, Janice Kaguyutan, Sajit Gandhi, Jennifer Hendrixson White, and Mark Iozzi. We can only do as well as the wonderful staff that we have, and it is really appreciated, I know, by Chairman ROYCE and by me.

As was said before, Mr. Speaker, every single year, Congress passes a defense authorization. It happens without fail, and it should. It is a vitally important piece of legislation, and we have an obligation to give our women and men in uniform the support and the resources they need.

□ 1800

The work of our diplomats is very different, but it is also critical to our national security. These dedicated public servants help to project stability, enhance security, and diffuse crises before they start.

From a dollars-and-cents perspective, it makes a lot more sense to prevent crises than to try to stop them after they are burning out of control. We need diplomacy to succeed so that using our military remains the last resort in our foreign policy. This legislation will help ensure that our diplomacy does succeed.

I hope this bill gets across the finish line soon; I hope the Senate does its job; and I hope we make a State Department authorization a yearly priority for the Foreign Affairs Committee, for the Congress, and for the American people.

I urge a "yes" vote on this bill.

I yield back the balance of my time.

Mr. ROYCE. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. GOHMERT).

Mr. GOHMERT. Mr. Speaker, I am a big fan of Chairman ROYCE's work, and I appreciate all the work of the committee in these difficult areas.

Sometimes in trying to bring together a big authorization bill like this, language gets inserted that can be problematic. On page 105, for example, section 713, "Recruitment and retention of individuals who have lived, worked, or studied in predominantly Muslim countries or communities," we know that one of our problems when we were trying to deal with radical Islam is, number one, our President doesn't recognize radical Islam, although some of the best experts who are radical Islamists say, yes, it exists, and Muslim friends like President el-Sisi acknowledge it is a problem.

For example, here in subsection C, it says: "The Secretary shall make every effort to recruit and retain individuals that have lived, worked, or studied in predominantly Muslim countries or communities, including individuals who have studied at Islamic institutions of higher learning."

I know this was not submitted by a Muslim—far from it—but although we desperately need people who have lived and studied in this area, to tell the Secretary of State that the Secretary shall make every effort to get people like this is the way our enemies take advantage of us. We should not be telling the Secretary to make every effort.

As a former chief justice, that is the kind of thing—you have to say, well, he didn't make every effort or she didn't make every effort. We should not be coercing the State Department to hire people who—if they are not appropriate or have Muslim ties, they should not be pushed into the State Department.

Mr. ROYCE. Mr. Speaker, let me say in response that we should hire, in the

State Department, people who do have some experience. We should have some people there with some experience with Muslim culture and Muslim countries, with that kind of a background. But that said, we want to work with the gentleman from Texas (Mr. GOHMERT) on implementation of this bill to make certain that these concerns are handled.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Florida (Ms. FRANKEL).

Ms. FRANKEL of Florida. Mr. Speaker, I thank Chairman ROYCE and Ranking Member ENGEL, first, for the great bipartisan work. I really appreciate being on this committee.

I want to tell you a story that one of our Ambassadors told me that I thought was amazing. I won't say her name or where she was, but she told me she was overseas. The security that they hired was so poor that they actually had to hire criminals; and her security guard not only robbed her and her family, but killed their dog. That is just an example of some of the quality of security that we had for our Ambassadors, who deserve absolutely our utmost protection.

So I just want to thank both the chairman and the ranking member for working with me to get this provision in this bill that now is going to let our State Department get well-qualified security for Embassies, which they deserve to have.

Mr. ROYCE. Mr. Speaker, I yield myself such time as I may consume.

I want to thank the gentlewoman from Florida for her contribution to this legislation.

Mr. Speaker, as chairman, I also want to thank our ranking member, Mr. ENGEL. I want to thank all my committee colleagues for their contributions to this bill. I think we should take the opportunity to thank our counterparts, Senator CORKER and Senator CARDIN, in the Senate for working with us to bring the first State authorization bill to the President's desk in over 15 years.

Today, the Department is considering how to deploy diplomats in high-threat, high-risk places like South Sudan, like the Central African Republic, Yemen, Libya. It is our responsibility to make sure that U.S. personnel at these posts have every available means of protection, and this bill authorizes the Department to make critical upgrades in Embassy security.

This bill also mandates that the Department uses leverage at the United Nations to make improvements that have been ignored for too long. In just the last year, we have heard horrific stories of peacekeepers sexually abusing and exploiting those they are sent to protect. Sadly, these are not the first instances of such predatory behavior, but the United Nations has failed to take steps to stop it.

Oversight is necessary at any agency. It took 5 years for the Department's inspector general position to be filled, and this bill makes sure that the Department's watchdog has all the tools it needs to perform its mandate.

This bill deserves our support. The other body should move quickly so that these critical reforms can be signed into law by the President.

I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. ROYCE) that the House suspend the rules and pass the bill, S. 1635, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. GOHMERT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 6 o'clock and 8 minutes p.m.), the House stood in recess.

□ 1830

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. HARDY) at 6 o'clock and 30 minutes p.m.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H.R. 5015, by the yeas and nays;

H.R. 6427, by the yeas and nays;

S. 1635, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

#### COMBAT-INJURED VETERANS TAX FAIRNESS ACT OF 2016

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 5015) to restore amounts improperly withheld for tax purposes from severance payments to individuals who retired or separated from service in the Armed Forces for combat-related injuries, and for other purposes, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. BRADY) that the House suspend the rules and pass the bill, as amended.

The vote was taken by electronic device, and there were—yeas 392, nays 0, not voting 41, as follows:

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

# CREATING FINANCIAL PROSPERITY FOR BUSINESSES AND INVESTORS ACT

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (H.R. 6427) to improve the operation of United States capital markets, and for other purposes, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. GARRETT) that the House suspend the rules and pass the bill.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 391, nays 2, not voting 40, as follows:

[Roll No. 602]

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1902

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## DEPARTMENT OF STATE OPERATIONS AUTHORIZATION AND EMBASSY SECURITY ACT, FISCAL YEAR 2016

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill (S. 1635) to authorize the Department of State for fiscal year 2016, and for other purposes, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. ROYCE) that the House suspend the rules and pass the bill, as amended.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 374, nays 16, not voting 43, as follows:

[Roll No. 603]

## □ 1910

Messrs. CONAWAY, GOODLATTE, and GRIFFITH changed their vote from “yea” to “nay.”

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

#### PERSONAL EXPLANATION

Mrs. NAPOLITANO. Madam Speaker, I was absent on Monday, December 5, 2016. Had I been present, I would have voted "yea" on rollcall No. 601—H.R. 5015—Combat-Injured Veterans Tax Fairness Act of 2016, as amended, "yea" on rollcall No. 602—H.R. 6427—Creating Financial Prosperity for Businesses and Investors Act, and "yea" on rollcall No. 603—House Amendment to S. 1635—Department of State Authorities Act, Fiscal Year 2017, as amended.

#### PRESIDENTIAL ALLOWANCE MODERNIZATION ACT OF 2016—VETO MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

Mr. CHAFFETZ. Madam Speaker, notwithstanding the order of the House of September 22, 2016, I ask unanimous consent that the veto message of the President on the bill, H.R. 1777, together with the accompanying bill, be referred to the Committee on Oversight and Government Reform.

The SPEAKER pro tempore (Ms. MCSALLY). Is there objection to the request of the gentleman from Utah?

There was no objection.

#### PROVIDING FOR APPOINTMENT OF MEMBERS OF BOARD OF DIRECTORS OF OFFICE OF COMPLIANCE

Mr. RODNEY DAVIS of Illinois. Madam Speaker, I ask unanimous consent that the Committee on House Administration be discharged from further consideration of the bill (H.R. 6415) to provide for the appointment of members of the Board of Directors of the Office of Compliance to replace members whose terms expire during 2017, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The text of the bill is as follows:

H.R. 6415

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. APPOINTMENT OF MEMBERS OF BOARD OF DIRECTORS OF OFFICE OF COMPLIANCE.

(a) APPOINTMENT OF MEMBERS.—

(1) MEMBERS REPLACING MEMBERS WHOSE TERMS EXPIRE IN MARCH 2017.—Notwithstanding the first sentence of section 301(e) of the Congressional Accountability Act of 1995 (2 U.S.C. 1381(e)), of the members of the Board of Directors of the Office of Compliance who are appointed to replace the 3 members whose terms expire in March 2017—

(A) one shall have a term of office of 3 years; and

(B) two shall have a term of office of 4 years,

as designated at the time of appointment by the persons specified in section 301(b) of such Act (2 U.S.C. 1381(b)).

(2) MEMBERS REPLACING MEMBERS WHOSE TERMS EXPIRE IN MAY 2017.—In accordance with the first sentence of section 301(e) of the Congressional Accountability Act of 1995 (2 U.S.C. 1381(e)), the members of the Board of Directors of the Office of Compliance who are appointed to replace the 2 members whose terms expire in May 2017 shall each have a term of office of 5 years.

(b) SERVICE OF CURRENT MEMBERS.—Notwithstanding the second sentence of section 301(e) of the Congressional Accountability Act of 1995 (2 U.S.C. 1381(e)) or section 3 of the Office of Compliance Administrative and Technical Corrections Act of 2015 (Public Law 114-6; 2 U.S.C. 1381 note)—

(1) an individual serving as a member of the Board of Directors of the Office of Compliance whose term expires in March 2017 may be reappointed to serve one additional term at the length designated under paragraph (1) of subsection (a), but may not be reappointed to any additional terms after that additional term expires; and

(2) an individual serving as a member of the Board of Directors of the Office of Compliance whose term expires in May 2017 may be reappointed to serve one additional term at the length referred to in paragraph (2) of subsection (a), but may not be reappointed to any additional terms after that additional term expires.

(c) PERMITTING MEMBERS TO SERVE UNTIL APPOINTMENT OF SUCCESSORS.—Section 301(e) of the Congressional Accountability Act of 1995 (2 U.S.C. 1381(e)) is amended by adding at the end the following new paragraph:

“(3) PERMITTING SERVICE UNTIL APPOINTMENT OF SUCCESSOR.—A member of the Board may serve after the expiration of that member's term until a successor has taken office.”.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

#### DIRECTING THE SECRETARY OF THE SENATE TO MAKE TECHNICAL CORRECTIONS IN THE ENROLLMENT OF S. 2943

Mr. THORNBERRY. Madam Speaker, I send to the desk a concurrent resolution and ask unanimous consent for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 179

*Resolved by the House of Representatives (the Senate concurring),* That in the enrollment of the bill S. 2943, the Secretary of the Senate shall make the following corrections:

(1) In section 212(a), strike “less two” and insert “less than two”.

(2) In section 217(a)(1), strike “is amended” and insert “as amended by section 821(a), is

further amended” and strike “2338” and insert “2339”.

(3) In section 217(a)(2), strike “is amended” and insert “, as amended by section 821(b), is further amended” and strike “2338” and insert “2339”.

(4) In section 217(b)(1)(A), strike “section 2338” and insert “sections 2338 and 2339”.

(5) In section 512(c), strike “Section 7511” and insert “Section 7511(b)”.

(6) In section 707(b)(4), strike “pursuant to section 709” and insert “pursuant to section 708”.

(7) In the tables in section 4701, relating to Department of Energy National Security Programs, Infrastructure and Operations, Construction, strike “04-D-125-04 RLUOB equipment installation” and insert “04-D-125 Chemistry and metallurgy research replacement project, LANL”.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

#### UNITED NATIONS

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute.)

Ms. ROS-LEHTINEN. Madam Speaker, last week, the United Nations General Assembly passed six anti-Israel resolutions, including yet another one that denies and distances Jewish and Christian ties to the Temple Mount.

In fact, Madam Speaker, the General Assembly will have taken up 20 anti-Israel resolutions by the end of this session and will have only brought up four—one, two, three, four—measures against some of the world's worst human rights violators like Iran, China, Russia, North Korea, Venezuela, and Cuba—combined.

This just underscores, Madam Speaker, the need for systemwide reforms at the United Nations.

With the new administration, Madam Speaker, we have an opportunity in the upcoming Congress to wield our considerable influence and leverage to promote and enact reforms by reassessing how we contribute taxpayer dollars to the corrupt U.N. system.

The U.S. must stop legitimizing this farce at the United Nations. It is time for us to take action and bring much-needed reforms.

□ 1915

#### PLEASE MEET DAISY ARVIZU

(Mr. O'ROURKE asked and was given permission to address the House for 1 minute.)

Mr. O'ROURKE. Madam Speaker, please meet Daisy Arvizu, who was one of over 300 El Pasoans to join us at a DREAMers town hall that we held in downtown El Paso at the Community Foundation Room with the Border Network for Human Rights and Las Americas Immigration Center last week. It was an opportunity for our community to come forward, both the DREAMers

in our community and those who support the DREAMers, like Daisy who was brought here at the tender age of 1 year and 8 months, who works two jobs, a day job and a night job, and is also a student at the El Paso Community College.

Because the President-elect has vowed to terminate the executive action known as DACA, that means Daisy has uncertainty, at a minimum. In the worst case scenario, she will be deported back to a country she does not know, a language she does not speak, and she and this country will lose the benefit of her potential.

Madam Speaker, we need to do the right thing. We need to keep Daisy and the 700-plus other DREAMers in this country for the benefit of our country and the potential that they can bring to the United States. I ask for your help, the help of the Members here, and the President-elect in making sure that we do the right thing for this country and for young DREAMers like Daisy.

#### 10TH ANNIVERSARY OF THE STATE THEATRE

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, on Saturday evening, I had the privilege of attending the 10th anniversary celebration of The State Theatre in State College, Centre County.

The State Theatre first opened as a movie house for Warner Bros. Pictures on October 15, 1938, showing "The Sisters," starring Errol Flynn and Bette Davis.

Closing in 2001, the theatre building was extensively refurbished and reopened in December 2006, as a state-of-the-art venue for theatre, dance, music, film, concerts, and other regional and international performances. Today, The State Theatre is a community-owned theatre dedicated to serving the Centre County region.

The theatre is a hub of local culture, featuring artists both homegrown and nationally renowned. There is something for everyone at The State Theatre—rock 'n' roll, country, indie, and blues; drama, musical theatre, comedy, and opera; movies, dance, stand-up, and children's programming.

There is rarely a day at the theatre without a show to be seen, a concert to be heard, or a laugh to be had.

Congratulations and thank you to the leadership, employees, volunteers, and supporters of The State Theatre for being a great venue for artists and audiences.

#### TRIBUTE TO THREE-TIME SPRINT CUP SERIES CHAMPION TONY STEWART

(Mr. HUDSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUDSON. Madam Speaker, I rise today to pay tribute to the incredible career of three-time Sprint Cup Series champion Tony Stewart on his retirement.

Tony Stewart, known to his many fans as "Smoke," started his career as a kid go-kart racing. He climbed the ladder one step at a time throughout his 20-year driving career to become the legend he is today.

Every time Tony faced an obstacle, he overcame it with unmatched tenacity. He is a reminder to all of us that champions aren't born winners; they are built through hard work, grit, and determination.

Tony is driven by that same doggedness off the track, leading Stewart-Haas Racing in my congressional district in Kannapolis, North Carolina, and helping folks in need through the Tony Stewart Foundation. His role might be changing, but I know Smoke's presence at the racetrack and his impact on the sport we love will continue.

Renee and I applaud Tony for his outstanding career, and we wish him all the best as he begins this next chapter.

Madam Speaker, on behalf of North Carolina's Eighth District and racing fans everywhere, I am proud to say congratulations to Tony—always a racer, forever a champion.

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. NEWHOUSE (at the request of Mr. MCCARTHY) for today on account of flight delays due to weather.

Mr. POE of Texas (at the request of Mr. MCCARTHY) for today and the balance of the week on account of personal reasons.

Mr. DUFFY (at the request of Mr. MCCARTHY) for today on account of flight delays due to weather.

Mrs. NAPOLITANO (at the request of Ms. PELOSI) for today.

#### ENROLLED BILLS SIGNED

Karen L. Haas, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 5509. An act to name the Department of Veterans Affairs temporary lodging facility in Indianapolis, Indiana, as the "Dr. Otis Bowen Veteran House".

H.R. 5995. An act to strike the sunset on certain provisions relating to the authorized protest of a task or delivery order under section 4106 of title 41, United States Code.

#### SENATE ENROLLED BILL SIGNED

The Speaker announced his signature to an enrolled bill of the Senate of the following title:

S. 1550. An act to amend title 31, United States Code, to establish entities tasked with improving program and project management in certain Federal agencies, and for other purposes.

#### BILLS PRESENTED TO THE PRESIDENT

Karen L. Haas, Clerk of the House, reported that on December 2, 2016, she presented to the President of the United States, for his approval, the following bills:

H.R. 4419. To update the financial disclosure requirements for judges of the District of Columbia courts and to make other improvements to the District of Columbia courts.

H.R. 5785. To amend title 5, United States Code, to provide for an annuity supplement for certain air traffic controllers.

H.R. 6297. To reauthorize the Iran Sanctions Act of 1996.

H.R. 5111. To prohibit the use of certain clauses in form contracts that restrict the ability of a consumer to communicate regarding the goods or services offered in interstate commerce that were the subject of the contract, and for other purposes.

H.R. 3471. To amend title 38, United States Code, to make certain improvements in the provision of automobiles and adaptive equipment by the Department of Veterans Affairs.

Karen L. Haas, Clerk of the House, further reported that on December 5, 2016, she presented to the President of the United States, for his approval, the following bills:

H.R. 5509. To name the Department of Veterans Affairs temporary lodging facility in Indianapolis, Indiana, as the "Dr. Otis Bowen Veteran House".

H.R. 5995. To strike the sunset on certain provisions relating to the authorized protest of a task or delivery order under section 4106 of title 41, United States Code.

#### ADJOURNMENT

Mr. THOMPSON of Pennsylvania. Madam Speaker, I move that the House now adjourn.

The motion was agreed to; accordingly (at 7 o'clock and 19 minutes p.m.), under its previous order, the House adjourned until tomorrow, Tuesday, December 6, 2016, at 10 a.m. for morning-hour debate.

#### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

7724. A letter from the Deputy Secretary, Commodity Futures Trading Commission, transmitting the Commission's final rules — Commodity Pool Operator Financial Reports (RIN: 3038-AE47) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Agriculture.

7725. A letter from the Honors Attorney, Legal Division, Consumer Financial Protection Bureau, transmitting the Bureau's final rules — Consumer Leasing (Regulation M) [Docket No.: CFPB-2016-0036] (RIN: 3170-AA66) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7726. A letter from the Honors Attorney, Legal Division, Consumer Financial Protection Bureau, transmitting the Bureau's final rules — Truth in Lending (Regulation Z) [Docket No.: CFPB-2016-0037] (RIN: 3170-AA67) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7727. A letter from the Senior Counsel, Legal Division, Consumer Financial Protection Bureau, transmitting the Bureau's Major final rule — Prepaid Accounts Under the Electronic Fund Transfer Act (Regulation E) and the Truth in Lending Act (Regulation Z) [Docket No.: CFPB-2014-0031] (RIN: 3170-AA22) received November 30, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7728. A letter from the Director, Office of Legislative and Intergovernmental Affairs, Securities and Exchange Commission, transmitting a Report on Modernization and Simplification of Regulation S-K, pursuant to 15 U.S.C. 77s note; Public Law 114-94, Sec. 72003(c); (129 Stat. 1785); to the Committee on Financial Services.

7729. A letter from the Associate General Counsel for Legislation and Regulations, Office of the Public and Indian Housing, Department of Housing and Urban Development, transmitting the Department's final rule — Native American Housing Assistance and Self-Determination Act; Revisions to the Indian Housing Block Grant Program Formula [Docket No.: FR-5650-F-14] (RIN: 2577-AC90) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Financial Services.

7730. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's Major final rule — Renewable Fuel Standard Program: Standards for 2017 and Biomass-Based Diesel Volume for 2018 [EPA-HQ-OAR-2016-0004; FRL-9955-84-OAR] (RIN: 2060-AS72) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7731. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Air Plan Approval; Kentucky; Revisions to Louisville Definitions and Ambient Air Quality Standards [EPA-R04-OAR-2015-0521; FRL-9955-90-Region 4] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7732. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Air Quality Plans; Kentucky; Infrastructure Requirements for the 2010 Sulfur Dioxide National Ambient Air Quality Standard [EPA-R04-OAR-2014-0426; FRL-9955-96-Region 4] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7733. A letter from the Director, Regulatory Management Division, Environmental

Protection Agency, transmitting the Agency's final rule — Bicyclopyrone; Pesticide Tolerances [EPA-HQ-OPP-2015-0560; FRL-9954-63] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7734. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Determination of Attainment by the Attainment Date for the 2008 Ozone National Ambient Air Quality Standards; Pennsylvania; Pittsburgh-Beaver Valley [EPA-R03-OAR-2016-0368; FRL-9955-91-Region 3] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7735. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Muscodor albus strain SA-13 and the volatiles produced on rehydration; Exemption from the Requirement of a Tolerance [EPA-HQ-OPP-2014-0919; FRL-9952-88] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7736. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Oxathiapiprolin; Pesticide Tolerances [EPA-HQ-OPP-2016-0049; FRL-9954-69] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7737. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Quizalofop ethyl; Pesticide Tolerances [EPA-HQ-OPP-2015-0412; FRL-9950-89] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7738. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Tau-Fluvalinate; Pesticide Tolerance [EPA-HQ-OPP-2015-0439; FRL-9954-33] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7739. A letter from the Deputy Bureau Chief, Wireline Competition Bureau, Federal Communications Commission, transmitting the Commission's final rule — Connect America Fund [WC Docket No.: 10-90] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7740. A letter from the Deputy Chief, Wireline Competition Bureau, Federal Communications Commission, transmitting the Commission's final rule — Protecting the Privacy of Customers of Broadband and Other Telecommunications Services [WC Docket No.: 16-106] received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Energy and Commerce.

7741. A letter from the Director, Defense Security Cooperation Agency, Department of Defense, transmitting a notice of Proposed Lease Pursuant to Section 62(a) of the Arms Export Control Act, Transmittal No. 08-16; to the Committee on Foreign Affairs.

7742. A letter from the Assistant Secretary, Legislative Affairs, Department of State,

transmitting a report titled "Designations of Countries of Particular Concern, Imposition of Presidential Actions, and Exercise of Waiver Authority Under the International Religious Freedom Act of 1998"; to the Committee on Foreign Affairs.

7743. A letter from the Director, International Cooperation, Office of Acquisition, Technology, and Logistics, Department of Defense, transmitting a letter informing Congress of the Department's intent to sign a Memorandum of Understanding Between the Department of Defense of the United States of America and the Federal Ministry of Defence of the Federal Republic of Germany, Transmittal No. 30-16, pursuant to Sec. 27(f) of the Arms Export Control Act and Executive Order 13637; to the Committee on Foreign Affairs.

7744. A letter from the Senior Procurement Executive, Office of Acquisition Policy, General Services Administration, transmitting the Administration's small entity compliance guide — Federal Acquisition Regulation; Federal Acquisition Circular 2005-92 [Docket No.: FAR 2016-0051, Sequence No.: 6] received November 21, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Oversight and Government Reform.

7745. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's temporary rule — Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish Fishery by Vessels Using Trawl Gear in the Gulf of Alaska [Docket No.: 150818742-6210-02] (RIN: 0648-XE990) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7746. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's temporary rule — Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area [Docket No.: 150916863-6211-02] (RIN: 0648-XE950) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7747. A letter from the Deputy Assistant Administrator For Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Chinook Salmon Bycatch Management in the Gulf of Alaska Trawl Fisheries; Amendment 103 [160229157-6781-02] (RIN: 0648-BF84) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7748. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's proposed rule — Fisheries of the Exclusive Economic Zone Off Alaska; Modifications to Recordkeeping and Reporting Requirements [Docket No.: 160225147-6147-01] (RIN: 0648-BF83) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7749. A letter from the Deputy Assistant Administrator For Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic;

Reef Fish Fishery of the Gulf of Mexico; Red Grouper Management Measures [Docket No.: 160613514-6908-02] (RIN: 0648-BG12) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7750. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's temporary rule — Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area [Docket No.: 150916863-6211-02] (RIN: 0648-XF012) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7751. A letter from the Acting Director, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's temporary rule — Fisheries of the Exclusive Economic Zone Off Alaska; Exchange of Flatfish in the Bering Sea and Aleutian Islands Management Area [Docket No.: 150916863-6211-02] (RIN: 0648-XF010) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7752. A letter from the Deputy Assistant Administrator For Regulatory Programs, NMFS, Office of Sustainable Fisheries, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Multi-Year Specifications for Monitored and Prohibited Harvest Species Stock Categories [Docket No.: 130808697-6907-02] (RIN: 0648-XC808) received December 1, 2016, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Natural Resources.

7753. A letter from the Assistant Secretary for Legislation, Office of the Secretary, Department of Health and Human Services, transmitting the Fiscal Year 2012 Report to Congress on Administration of the Tribal Self-Governance Program, pursuant to Sec. 458aaa-13(a), 25 U.S.C. 450 et seq., as amended; to the Committee on Natural Resources.

7754. A letter from the Assistant Secretary for Legislation, Office of the Secretary, Department of Health and Human Services, transmitting the Fiscal Year 2013 Report to Congress on Administration of the Tribal Self-Governance Program, pursuant to Sec. 458aaa-13(a), 25 U.S.C. 450 et seq., as amended; to the Committee on Natural Resources.

#### REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BISHOP of Utah: Committee on Natural Resources. H.R. 3711. A bill to authorize the Secretary of the Interior to conduct a special resource study of Chicano Park, located in San Diego, California, and for other purposes; with an amendment (Rept. 114-845). Referred to the Committee of the Whole House on the state of the Union.

#### PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following

titles were introduced and severally referred, as follows:

By Mr. PALLONE (for himself, Mr. PASCRELL, and Mr. PAYNE):

H.R. 6434. A bill to provide for more transparent and appropriate reimbursement of insurers participating in the Write Your Own program under the National Flood Insurance Program, and for other purposes; to the Committee on Financial Services.

By Mr. MULLIN:

H.R. 6435. A bill to authorize the Directors of Veterans Integrated Service Networks of the Department of Veterans Affairs to enter into contracts with appropriate civilian accreditation entities or appropriate health care evaluation entities to investigate medical centers of the Department of Veterans Affairs; to the Committee on Veterans' Affairs.

By Mr. HECK of Washington (for himself, Mr. SHERMAN, and Ms. KUSTER):

H.R. 6436. A bill to require that any international insurance standards agreed to by parties representing the United States reflect existing United States laws, regulations, and policies on regulation of insurance, and for other purposes; to the Committee on Financial Services.

By Mr. HIMES:

H.R. 6437. A bill to prohibit funds available for the United States Armed Forces to be obligated or expended for introduction of the Armed Forces into hostilities, and for other purposes; to the Committee on Foreign Affairs, and in addition to the Committees on Rules, and Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SAM JOHNSON of Texas (for himself and Mr. LARSON of Connecticut):

H.R. 6438. A bill to extend the waiver of limitations with respect to excluding from gross income amounts received by wrongfully incarcerated individuals; to the Committee on Ways and Means.

By Mr. THORNBERRY:

H. Con. Res. 179. Concurrent resolution directing the Secretary of the Senate to make certain corrections in the enrollment of S. 2943; considered and agreed to.

By Mr. CÁRDENAS (for himself and Ms. LOFGREN):

H. Res. 941. A resolution expressing support for the designation of February 22, 2017, as "National Heart Valve Disease Awareness Day", coinciding with American Heart Month; to the Committee on Energy and Commerce.

By Mr. SESSIONS (for himself, Mr. CARTER of Georgia, Mr. GOHMERT, Mr. BYRNE, Mr. STIVERS, Mr. BRAT, Mr. AUSTIN SCOTT of Georgia, Mr. COLLINS of Georgia, Mr. BROOKS of Alabama, Mr. FARENTHOLD, Mr. ROE of Tennessee, Mr. LABRADOR, Mr. DESANTIS, and Mr. MEADOWS):

H. Res. 942. A resolution recognizing the historical importance of Associate Justice Clarence Thomas; to the Committee on the Judiciary, and in addition to the Committee on House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. GABBARD:

H. Res. 943. A resolution recognizing the 100th anniversary of the establishment of Hawaii Volcanoes National Park and Haleakala National Park in the State of Ha-

wai, and expressing support for designation of August 1, 2016, as "Hawaii Volcanoes and Haleakala National Parks Day"; to the Committee on Natural Resources.

#### MEMORIALS

Under clause 3 of rule XII,

310. The SPEAKER presented a memorial of the General Assembly of the State of Indiana, relative to Senate Enrolled Joint Resolution 14, requesting the Congress of the United States call a convention of the states to propose amendments to the Constitution of the United States; which was referred to the Committee on the Judiciary.

#### CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. PALLONE:

H.R. 6434.

Congress has the power to enact this legislation pursuant to the following:

Clause 7 of Section 9 of Article I of the Constitution

By Mr. MULLIN:

H.R. 6435.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 18 of the U.S. Constitution

By Mr. HECK of Washington:

H.R. 6436.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3 of the Constitution of the United States

By Mr. HIMES:

H.R. 6437.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8 of the United States Constitution, clauses 11, 12, 13, 14, 18

By Mr. SAM JOHNSON of Texas:

H.R. 6438.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 1 of the Constitution of the United States of America.

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:

H.R. 1098: Mr. CONYERS.

H.R. 1457: Mr. KNIGHT.

H.R. 1608: Mr. LUETKEMEYER and Mr. BEYER.

H.R. 2293: Mr. WALZ.

H.R. 2537: Mr. REED.

H.R. 3591: Ms. LEE, Mr. SWALWELL of California, Mr. COURTNEY, Ms. NORTON, Mr. DESAULNIER, Ms. KUSTER, Mr. GARAMENDI, Mr. ASHFORD, and Mr. MCGOVERN.

H.R. 4216: Mr. HIGGINS and Mr. CLAY.

H.R. 4220: Mr. POLIS.

H.R. 5131: Ms. BROWNLEY of California.

H.R. 5235: Mr. KNIGHT and Mr. COOK.

H.R. 5274: Mr. REED.

H.R. 5386: Ms. LOFGREN and Mr. GALLEGO.

H.R. 5440: Mr. KIND.

H.R. 5689: Ms. LOFGREN.  
H.R. 5721: Mr. TONKO.  
H.R. 6020: Ms. PLASKETT.  
H.R. 6021: Ms. PLASKETT.  
H.R. 6072: Mr. DEFAZIO.  
H.R. 6117: Ms. ROYBAL-ALLARD.  
H.R. 6275: Mrs. BEATTY.  
H.R. 6340: Ms. MICHELLE LUJAN GRISHAM of New Mexico, Mr. CONNOLLY, Mr. TAKANO, and Mr. SARBANES.  
H.R. 6382: Mr. MCGOVERN, Mr. BERA, Mr. HUFFMAN, Mr. SCOTT of Virginia, Ms. SCHAKOWSKY, and Mr. KILMER.  
H.R. 6421: Mr. SHERMAN and Ms. MENG.  
H.R. 6426: Mr. SMITH of Nebraska and Mr. MASSIE.

H.R. 6428: Mr. ELLISON, Ms. LOFGREN, Mr. LOEBSACK, and Mr. DEFAZIO.

H.R. 6431: Ms. SLAUGHTER, Mr. HIGGINS, Mr. CRAMER, Mr. NOLAN, Mr. COLLINS of New York, Mr. KIND, Mr. WELCH, Mr. HUIZENGA of Michigan, Mr. ZINKE, Mr. RYAN of Ohio, Mr. GUINTA, Mr. DEFAZIO, Ms. DELBENE, Mr. MURPHY of Pennsylvania, Mr. MICHAEL F. DOYLE of Pennsylvania, Mr. HECK of Washington, and Ms. LOFGREN.

H.R. 6433: Mr. DOLD.

H. Con. Res. 159: Mr. PETERS.

H. Con. Res. 176: Mr. VAN HOLLEN.

H. Res. 591: Mr. YARMUTH.

H. Res. 899: Ms. LOFGREN, Mr. POLIQUIN, and Mr. ROE of Tennessee.

H. Res. 928: Mr. SWALWELL of California, Mr. KING of New York, and Ms. FRANKEL of Florida.

---

#### PETITIONS, ETC.

Under clause 3 of rule XII,

95. The SPEAKER presented a petition of the City of Miami Commission, relative to Resolution R-16-0525, urging President Barack H. Obama and the Members of the 114th United States Congress to grant temporary protective status to Haitians in the United States; which was referred to the Committee on the Judiciary.

## EXTENSIONS OF REMARKS

PEARLIE EVANS DID MAKE A  
DIFFERENCE

## HON. WM. LACY CLAY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. CLAY. Mr. Speaker, I delivered the following remarks on behalf of my father, former Congressman William (Bill) Clay, at the funeral of Pearlle Evans on Saturday, November 26, 2016, in St. Louis, Missouri.

My friendship with Pearlle spans more than 50 years. During that time we worked together, laughed together, cried together, and raised a lot of hell together.

I first met Pearlle Evans in the early 1960s when a close political associate, Arthur Kennedy, introduced us. He and I had just helped A.J. Cervantes get elected. The new mayor asked me to recommend someone to fill the position of Commissioner of Social Services.

I invited Pearlle to lunch and offered her the position. She was honored but turned down the offer—telling me of her deep devotion in helping residents at the Fellowship Center and Plymouth House. Without any success, I mentioned that her salary would have been twice that at Fellowship Center and help many more people like those at the Plymouth House. Then, I took her to lunch twice and once to dinner before she agreed.

Finally, a well-fed Pearlle Evans accepted the offer and performed exceptionally well in the position.

Her background in social work, dealing with grassroots, ghetto residents, allowed her to develop a realistic grasp of the problems faced by low-income, unemployed, poverty stricken individuals. She provided the compassion and know-how in closing the gap that kept many of them from resolving their woes.

Having disdain and contempt for all kinds of discrimination and segregation, her agenda was about identifying injustice and reshaping our society until it adjusted to accommodate the needs of its underprivileged.

When my first District Director left, I asked Pearlle to run my congressional district office. But this time I knew better than to invite her to lunch or dinner. She accepted and made an ideal District Director for the next 28 years.

Perhaps, more than anyone else other than my wife Carol, Pearlle was able to successfully put up with me and all my audaciousness, my insolence, my sarcasm and my bluster. Her simple response of “ohhhhhhh, Congressman” more often than not was the perfect tonic to calm a rough or chaotic situation. She was by my side through good times and bad. Her advice and counsel was usually sound.

Pearlle was also a pioneer in politics who developed a new strategy for advancing the cause of civil rights and enhancing opportunities. She ushered in the concept that it was time to stop begging for what was ours by citizenship and to start demanding rights that were ours by birth. She played a key role in our developing the political appa-

ratus capable of delivering lopsided margins in electing candidates. She had the unique ability to attract and surround us with people of wisdom, vision, integrity and commitment to racial equality.

She joined a cadre of other outstanding women like Gwen Giles, Ruth Porter, Deverne Calloway, Marian Oldham and many others that enabled our group to convince many to overcome their political apathy and to reject disgraceful absentee elected officials pretending to represent our interests.

I owe a great deal of my political success to committed and dedicated women like Pearlle. In my elections to Congress, women managed all of my campaigns: Doris Moore, Gwen Giles, Gwen Reed and Pearlle Evans each served as campaign managers in all 16 of them.

Pearlle, Virginia Cook, and Gwen Reed also played a key role in electing my son Lacy Clay to Congress.

Pearlle journeyed through a career that forced the political system to change the face of our politics and to provide us with people who truly voiced our legitimate concerns.

She was always on the picket lines, at the sit-ins, in the marches for school equality, wherever the protests against injustice were being waged. She was there to give active support in campaigns that changed the landscape of bigoted policies and replaced them with opportunities for minorities in St. Louis.

Very few lived their life with the enthusiasm, the commitment, the determination, the gusto of Pearlle. She lived every day with the intent of giving back to the community and enhancing the lives of those denied the benefits of humane treatment. In touching their lives, it was a testament to her endearing respect for each individual's humanity.

Carol and I join with you in acknowledging that she was an uncommon lady with a phenomenal effect on those of us who were graced by her presence. She was something special, something beautiful, something precious.

Although Pearlle would tell us not to shed tears for her but rather for a world that is suffering the ravages of war, disease, hunger and racism—still, without ignoring her request not to shed tears for her passing, we are obligated to shed tears for future generations that will never experience the sight of her doing battle with the giants of society who have profited from exploiting those unable to fight back. We mourn for those who will never bear witness to her unyielding fight against bureaucratic bigots in fighting for racial justice.

Yes, Pearlle, when remembering you, what you stood for, how much of your mission is yet unfulfilled, our tears are justified. We cry today because we will have no more tomorrows with you. But we thank God for all the yesterdays we spent with you.

We remember all of the good you have done, all of the people you have helped, all of the causes you have championed. We take comfort in the fact that our community, our state and our nation are better as a result of your having been here.

We have witnessed in you a towering, incredible, noble, dedicated defender of what's right—so we say in all sincerity—so long, our courageous sister in the struggle for equal justice—so long!

## HONORING RICHARD COOPER

## HON. JARED HUFFMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. HUFFMAN. Mr. Speaker, I rise today in recognition of Richard Cooper, Chief Executive Officer of Mendo Lake Credit Union, who is retiring after forty years of service to credit union members.

Richard Cooper was born in Bend, Oregon, and raised in Alaska where he began his long career at Credit Union One in Anchorage. He continued his work in southern California until 2008 when he moved to Mendocino County and became the President and Chief Executive Officer at Mendo Lake Credit Union.

Under Mr. Cooper's leadership, Mendo Lake Credit Union has thrived as a business and flourished as an award-winning community partner. Renowned for his civic service, Mr. Cooper was recognized as the Credit Union Times “Rock Star of the Year” in 2016. During his tenure at Mendo Lake Credit Union, it was recognized with “Desjardins Youth Financial Education Award” from the Credit Union National Association in 2014; a “Trailblazer Award for Serving the Underserved” by the Credit Union Times in 2015; and as a “California Small Business Volunteer Program of the Year” by the Governor's Office in 2012.

In addition to his many contributions to these credit unions, Mr. Cooper has dedicated countless hours as an active board member of the Economic Development and Finance Corporation of Mendocino County, the Mendocino Coast Botanical Gardens, the Mendocino College Foundation, the Ukiah Senior Center Endowment Fund, and the Ukiah Valley Medical Center Community Advisory Council.

Richard Cooper's career is one of dedicated service and the highest level of civic engagement. Please join me in congratulating him on his retirement and expressing our deep appreciation for his outstanding contributions to the residents of Mendocino County.

CELEBRATING THE RETIREMENT  
OF MR. STEPHEN MANSTER

## HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. WITTMAN. Mr. Speaker, I rise today to recognize Bowling Green Town Manager Stephen Manster on the occasion of his retirement from public service. Throughout his forty-

● This “bullet” symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

year career, he worked in both local and regional levels of government.

Mr. Manster was hired by the Town Council as Town Manager on January 3, 2006. Before coming to Bowling Green, he served for nineteen years as the Executive Director of the Rappahannock Area Development Commission (RADCO). During this time he was able to work with the Town and Caroline County extensively, leading to a seamless transition into the Town Manager position.

Stephen holds a Bachelor of Arts Degree in Sociology from Pennsylvania State University and a Degree of Master of City and Regional Planning from Rutgers University. He has also completed extensive graduate work in the Master of Public Administration program at Virginia Commonwealth University.

Mr. Manster's commitment to public service demonstrates a rare sense of dedication to duty, and I am pleased to recognize this special occasion. Mr. Speaker, I ask you to join me in celebrating the career of Mr. Stephen Manster.

IN RECOGNITION OF CAMERON D. CLARKE, 2017 RHODES SCHOLAR

**HON. ROBERT C. "BOBBY" SCOTT**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. SCOTT of Virginia. Mr. Speaker, I rise today with great pride to recognize Cameron D. Clarke, a Howard University senior majoring in biology and community health, who was awarded a prestigious Rhodes Scholarship for 2017. Mr. Clarke lives in Richmond, Virginia and is the fourth student from Howard University to have received this honor.

While attending Howard University, Mr. Clarke engaged in research at the University's W. Montague Cobb Research Laboratory, which maintains a national repository for African-American skeletal remains. Mr. Clarke also participated in research at Bahir Dar University in Ethiopia through a Howard University-National Science Foundation grant. As an Amgen Scholar, he conducted research at the National Institutes of Health's Center for Cancer Research. Mr. Clarke is a certified emergency medical technician (EMT) and is the lead author on five out of six publications. He is co-president of Howard University's chapter of the Peer Health Exchange and a news editor of The Hilltop, the Howard University student newspaper. Currently, Mr. Clarke is among our own here on Capitol Hill as he is an intern for the U.S. House Committee on Science, Space, and Technology.

Mr. Clarke is one of 32 men and women selected from U.S. postsecondary institutions who competed with over 800 applicants to receive this award to study at the University of Oxford in England. With his Rhodes scholarship, Mr. Clarke intends to further his studies by pursuing a Master of Science degree with an emphasis in primary health care. Ultimately, Mr. Clarke wants to attend medical school and work in public health policy and clinical research.

"We are extremely proud of Mr. Clarke's accomplishments," said Dr. Wayne Frederick,

President of Howard University. "Mr. Clarke's academic pursuits will lead to solutions in the broader society that are needed ever more so today. Cameron is the epitome of Howard University's gift of solutions to the world." His achievements demonstrate what a person committed to excellence in truth and service can obtain when provided the opportunity. He exemplifies the best of Howard University and the Commonwealth of Virginia.

I ask my colleagues in the U.S. House of Representatives to join me in congratulating Mr. Cameron D. Clarke for his impressive academic achievements and being selected as one of America's Rhodes Scholarship winners. It is with honor that I call attention to this outstanding young man's achievements. May he continue to obtain the success for which he works hard and may he always find purpose and fulfillment in his efforts.

HONORING ESTHER LOUISE HILL  
ON THE OCCASION OF HER 100TH  
BIRTHDAY

**HON. BLAINE LUETKEMEYER**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. LUETKEMEYER. Mr. Speaker, I rise today to honor Esther Louise Hill. She celebrated her 100th birthday on Sunday, December 4th, 2016.

Esther Louise Hill was born in Montgomery City, Missouri on December 4, 1916 to Roy and Emma Patterson. She has lived in Jonesburg, Missouri most of her life. Esther married Richard Hill, who is now deceased. She graduated from a three-year program in 1938 from Missouri Baptist Hospital School of Nursing as a registered nurse.

Her work experiences were in various divisions of healthcare: hospitals, industry, and public health. Esther started her career as a private duty nurse and after a year decided to join the Barnes Hospital Nursing Staff. Before World War II started, Esther moved to Dallas, Texas. She utilized her nursing degree by working at a substation with North American Aviation during the war. After the end of the war, Esther moved back to Missouri and joined the staff at a local nursing home, Katy Jane, located in Warrenton, Missouri. Unfortunately, during her time at Katy Jane, there was a devastating fire which had a profound effect on Esther. Esther started working as a public health nurse through the state of Missouri, first in Warren County and then moving to Montgomery County. She was moved by the loss of life at Katy Jane and realized commonsense steps could have prevented that tragedy.

Eventually, Esther obtained the position of Institutional Advisory Nurse, covering fifteen counties along the Missouri River. In this position, Esther taught nursing home caregivers the details of Missouri state law and procedures that should be part of nursing home care. The Institutional Advisory Nurse position led to a role with the Missouri Department of Health Licensure Program for Nursing Homes. With this position, she taught, investigated and inspected nursing home facilities, and en-

forced licensure laws. Esther worked for the Visiting Nurse Association for a few years but eventually returned to the Missouri Department of Health. She ended her nursing career with the Missouri Department of Health. Esther appreciates the opportunity she was given to have a career that came full circle; from her days at the Katy Jane Nursing Home where lack of structure allowed for a tragedy, to being involved with the adoption of solutions to protect the most vulnerable. In addition to her successful career in nursing, Esther also taught at Tulane University in New Orleans, Louisiana. Esther has been a lifelong member of the Jonesburg United Methodist Church and during her time there has enjoyed participating in the Methodist Women organization. In her spare time, she enjoys reading, collecting antiques, cooking, and canning produce from her garden. She also has a passion for hybridized lilies and has even won prizes for them. Esther enjoys a good card game and has been a member of the Canasta Card Club for 50 years.

Please join me in recognizing Esther Louise Hill on the occasion of her 100th birthday.

IN HONOR OF BULLOCK COUNTY,  
ALABAMA UPON THE 150TH ANNI-  
VERSARY OF ITS FOUNDING

**HON. MARTHA ROBY**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mrs. ROBY. Mr. Speaker, I rise today to honor Bullock County, Alabama which today is celebrating 150 years as a county.

What is now Bullock County was first inhabited by Creek Indians who moved westward from Georgia and began cultivating the rich, spring-filled land. After the bitter Creek War, American settlers brought schools, churches, and mercantile life to complement the thriving agriculture, and the town of Union Springs was born.

After the Civil War, portions of Macon, Montgomery, Barbour and Pike Counties were brought together to form Bullock County, after Confederate Colonel E.C. Bullock. The late 1800s and early 1900s were prosperous for Bullock County, as railroad connections and industrialization made the county seat of Union Springs an important hub for Alabama and the South.

That history can still be seen in Bullock County today. The National Register of Historic Places, lists 47 homes and businesses that have been preserved as standing monuments to the past.

One hundred and fifty years after its founding, Bullock County is home to fine, hard-working people that I am proud to represent in Congress.

Mr. Speaker, it is my privilege to acknowledge Bullock County's sesquicentennial anniversary and celebrate this special date with all those who call Bullock County home.

HONORING SUPERINTENDENT  
JAY SPECK

**HON. MIKE THOMPSON**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. THOMPSON of California. Mr. Speaker, I rise, along with Congressman JOHN GARAMENDI, today to recognize and honor Jay Speck who is retiring after forty years of service to our community as an educator and administrator with the Solano County Office of Education.

Mr. Speck began his career in education as a special education teacher at the elementary and secondary levels and has since worked with Solano County as a program manager, principal, director of special education, and assistant superintendent of human resources. Mr. Speck has served as an outstanding educator and leader in our community and demonstrates a unique and experienced understanding of our community's needs. He was sworn in for his first term as County Superintendent on January 3, 2011 and was re-elected and sworn in for his second term on January 5, 2015. Mr. Speck is known for his fair-mindedness and his strong belief in the potential of each individual student to learn and develop academically.

During his career, Mr. Speck pursued training in interest-based problem solving and collective bargaining to enhance his skills as a trusted leader, highly skilled problem-solver, and ardent collaborator. Mr. Speck has a solid educational foundation with a Bachelor of Arts degree from the University of California, Davis and holds teaching credentials from both California State University, Los Angeles and California State University, Sacramento. Mr. Speck has represented Solano County public schools as a member of many organizations including the California County Superintendents Educational Services Association, the Association of California School Administrators and the Workforce Investment Board.

Mr. Speaker, Superintendent Jay Speck has served our community with admirable leadership and dedication for forty years. It is fitting and proper that we honor him here today and extend our best wishes for an enjoyable retirement.

HONORING JIM HARRIS OF  
WAUSAU, WI FOR HIS SERVICE  
TO OTHERS

**HON. SEAN P. DUFFY**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. DUFFY. Mr. Speaker, I am honored to stand before you today to recognize Mr. Jim Harris of Wausau, Wisconsin for his exceptional service to others.

Mr. Harris worked for more than 30 years in education. First, as a teacher in the Wisconsin Indian Teacher Corps, where he taught children of the Ho Chunk Tribe, and later as one of the first male kindergarten teachers in Wisconsin. Along his journey in education, Mr.

Harris also spent two decades as a school administrator and an activist for public health.

During his many years of service in education, Mr. Harris got to know the children of Hmong Refugees who fled war in their home country to seek a better life in Wisconsin. Our state has a vibrant Hmong community that Mr. Harris has grown close to. He founded We Help War Victims, a nonprofit organization, with his wife, Marty, also a public school educator. Founded over 30 years ago, We Help War Victims has been working with refugee families in the Wausau, Wisconsin area, providing dozens of Lao schools with their first libraries, and helping families receive access to medical care.

Since 2006, his organization has been working with villagers in Laos to destroy land mines, bombs, rockets, mortars, and other unexploded ordnance. Mr. Harris' example directly inspired me to fight for this cause in Congress and his advice has directly affected the focus of my efforts. Countless farmers and families across Laos live in safer communities because of Mr. Harris' work and my community in Wisconsin has been strengthened by the work he and his wife do through We Help War Victims.

Mr. Speaker, please join me today to congratulate Mr. Harris on his accomplishments and work on behalf of others. His selfless demeanor in which he answers the call to serve in our district is truly valued.

IN HONOR OF SERGEANT 1ST  
CLASS JOHN MIMS

**HON. RICHARD HUDSON**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. HUDSON. Mr. Speaker, I rise today to honor the life and legacy of Sergeant 1st Class John Mims of the 82nd Airborne Division, a World War II veteran and Bataan Death March survivor who passed away on Sunday, November 27, 2016. Sergeant Mims was a true American hero and our thoughts and prayers go out to his friends and family as they mourn the loss of this great man.

When his country needed him the most, it was John Mims who answered the call to serve our great nation. After losing his father when he was young, Mims lied about his age in order to join the Army. At the age of 15, Mims served for nearly a year before the Army discovered his true age and discharged him. However, a few short years later Mims re-enlisted in the Army and headed out to the Philippines to begin his training.

After a year in the Philippines, Mims fought alongside his brothers in arms in the Battle of Bataan which culminated in the surrender of 75,000 allied soldiers. The men were then forced to march 65 miles, without food or water, to a prisoner-of-war camp in the Tarlac Province in what became known as the Bataan Death March. One of the greatest atrocities of the entire war, the men suffered beatings, endured torture, and witnessed unimaginable horrors as he faced what can only be described as a living hell. In total more than 10,000 men died during the trek.

Following the war, Mims continued his service in the Army, returning to Japan from 1952 to 1954 as sergeant in charge of the Tokyo Quartermaster Depot. After he retired in 1963, he returned home where he worked in a rug factory and a curtain company. Living in Aberdeen, North Carolina, he became an advocate for other veterans and was a constant presence at ceremonies remembering his fallen comrades. His work in the community made certain that the memories of those lost were not forgotten, and it is that legacy which we celebrate today. While we may have lost this great man, his legacy will live on and we will never forget the sacrifices made by Sergeant Mims or any of those who fought to protect our freedoms against unimaginable dangers.

Mr. Speaker, please join me today in commemorating the life of Sergeant 1st Class John Mims for his service to God and country.

PERSONAL EXPLANATION

**HON. KEITH ELLISON**

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. ELLISON. Mr. Speaker, due to other commitments, I missed the following roll call votes; had I been present, I would have voted as follows:

Roll call no. 594. I would have voted no.  
Roll call no. 595. I would have voted no.  
Roll call no. 596. I would have voted no.  
Roll call no. 597. I would have voted no.  
Roll call no. 598. I would have voted yes.  
Roll call no. 599. I would have voted no.  
Roll call no. 600. I would have voted no.

HONORING MR. JOHN SUTTER

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Ms. LEE. Mr. Speaker, I rise today to celebrate the remarkable life and career of Mr. John Sutter, and to congratulate him on his retirement from the Board of Directors of the East Bay Regional Park District.

As an outdoor enthusiast and lifelong resident of Oakland, California, John's life has been dedicated to preserving and protecting the environment of California's Bay Area. Throughout his sixty years in public service, he has been involved in the conservation of over 35,000 acres of land.

John's career in public service began in 1954 when he became an Alameda County deputy district attorney. He stayed in this position until 1965, when he was appointed to the Bay Conservation and Development Commission (BCDC) by Governor Pat Brown.

John also served as a member of Oakland's City Council for over a decade from 1971–1982, twice holding the position of vice mayor.

In 1982, John was appointed by Governor Jerry Brown to serve as a judge on the Alameda County Superior Court. He remained a judge for 14 years until his election in 1996 to the East Bay Regional Park District Board of Directors.

Over John's illustrious career, he has been directly involved in a variety of community projects and organizations with special emphasis on preserving the natural environment of the Bay Area.

In the 1950s he was prominently involved in the protection of the San Pablo Reservoir and the foundation of the Martin Luther King, Jr. Regional Shoreline. In 1961, John was the leader in the campaign that preserved Oakland's Snow Park.

In addition to his elected and appointed positions, John was a founding board member of the Greenbelt Alliance; and he has served as a board member for the Alameda County Solid Waste Management Authority, Oakland Charter Revision Committee, Oakland Cultural Affairs Commission, Chabot Space and Science Center, Save the Bay, Alameda County Bar Association, California Democratic Council, Oakland Citizens Committee for Urban Renewal, and the Metropolitan YMCA.

On behalf of the residents of California's 13th Congressional District, I wish to congratulate Mr. John Sutter on a well-deserved retirement, and thank him for his many years of service to our community.

#### PERSONAL EXPLANATION

### HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. PERLMUTTER. Mr. Speaker, on November 30, 2016, I was incorrectly recorded as voting "Nay" on H.R. 5047, the Protecting Veterans' Educational Choice Act of 2016. I wish to reflect my intentions on roll call No. 591, as a "Yea" vote.

#### HONORING JOHN D. PRIDNIA

### HON. CANDICE S. MILLER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mrs. MILLER of Michigan. Mr. Speaker, I rise today to recognize John D. Pridnia, loving husband, proud father and grandfather, and pillar of our community.

In search of a better life for his family, John moved to Northeast Michigan becoming a small business owner. Over the next 10 years, he became a successful businessman, passionate about building, developing, and creating new ideas, businesses, and adventures.

After raising his three children, he looked to a life of public service. He served two terms as a State Representative and two terms as a State Senator where he served as the Chairman of the Senate Health Policy Committee. Passionate about promoting business, encouraging tourism, and promoting conservation, John was respected by his colleagues on both sides of the aisle.

Upon retiring from the legislature, John married his wife of 19 years Lisa Dailey. Living in the small community of Port Austin, their family grew to include five beautiful grandchildren and three great-grandchildren.

In the close-knit community of Port Austin, John was passionate about beautifying and developing the harbor and waterfront, creating spaces the entire community could come together and enjoy, such as a thriving local farmer's market.

Mr. Speaker, we can all agree that the tradition of giving back to our communities is something that makes our nation unique, one that makes this country the greatest in the world and this was a spirit that John embodied throughout his entire career and life. More importantly, he has served as an example for future generations, instilling in them the importance of giving back to the communities and country who have given us all so much.

I ask that my colleagues join me today in honoring John for his lifelong contributions to the 10th District of the great State of Michigan, our children, and the future of this country.

#### IN HONOR OF SENATOR ANDREW MAYNARD UPON HIS RETIREMENT

### HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. COURTNEY. Mr. Speaker, I rise today to thank an outstanding public servant for his many years of service to my home state of Connecticut. For ten years, Mr. Andrew Maynard has served as State Senator for the state's 18th Senate district, which includes Griswold, Groton, Stonington, Plainfield, Preston, North Stonington, Sterling and Voluntown. His retirement at the end of his term will conclude a distinguished career of public service that began at the local level many years ago as a borough warden in the Town of Stonington. Andy has been a powerful voice for southeastern Connecticut, earning the respect of both Democratic and Republican colleagues and serving as the Deputy Majority Leader for the Senate Democrats since 2011.

Andy currently serves as chair of the Transportation Committee, and a member of the Internship and Program Review & Investigation Committees. He also served as chair of the Select Committee on Veterans' Affairs, and a member of the Environment Committee. Andy's unwavering advocacy for our region's natural resources and tourist attractions brought to life the long-delayed Thames River Heritage Park and secured millions of dollars for expansion at the Mystic Seaport, our nation's leading maritime museum. Andy understood the integral role of tourism, not only within the state, but within our region. It was this understanding that guided his leadership as he fought to secure the crucial funding need to dredge the Mystic River and spearhead the Connecticut Treasures program.

Our region will miss Andy's advocacy on the floor of the State Senate, but I am sure he will remain a strong and respected voice in his community. A true gentleman, Andy brought a thoughtful, civilized tone in his campaigns for office and his bipartisan camaraderie which characterized his style in office. I ask my colleagues to join me in thanking Andy for his tenure as an accomplished public servant, and wish him well in his future endeavors.

#### ALL IS BRIGHT

### HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. SESSIONS. Mr. Speaker, I rise today in honor of The Armed Forces and Their Families on this Christmas and Holiday Season, with a poetic tribute by Albert Carey Caswell. Let us remember their selfless sacrifice, and give a prayer of thanks for those who are separated by death and distance this Christmas.

Silent Night

Holy Night

As a magnificent hero lays down their life all is Bright

As our Lord smiles at their light all is Calm All is Bright

Way up in heaven where your soul took flight! Round Yon Virgin Mother and Child

While, all in her tears your Mother so remembers your smile Holy Infant so tender and mild

As once all in your Mother's arms the while Now sleep in heavenly peace my child

As your war is over my Daughter, my Son

Silent Night

Holy Night

As your family and your loved ones so miss you this night Silent Night

But, your new battle has just begun

As an Angel in The Army of Our Lord, my Daughter my Son All is Calm

All is Bright

And we will hear you on the wind

And we will sleep in Heavenly Peace

As we awake knowing you are watching over us as where you've been Until, we meet you once again in heaven where all is bright

And your Brothers and Sisters in Arms will live a good life

For you their best friend by remembering your light Silent Night

Holy Night

All is Calm

All is Bright

All because of The Men and Women of The Armed Forces, and Their Families who fight the fight

All is Bright

Sleep in Heavenly Peace

Amen

#### RECOGNIZING ROB AUSTRIAN AND MONICA MOSIMANN

### HON. KEN BUCK

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. BUCK. Mr. Speaker, I rise today to recognize Rob Austrian and Monica Mosimann for their hard work and dedication to the people of Colorado's Fourth District as interns in my Washington, D.C. office for the Fall of 2016.

The work of this young man and woman has been exemplary, and I know they will have bright futures. They served as tour guides, interacted with constituents, and both learned a great deal about our nation's legislative process. I was glad to be able to offer this educational opportunity, and look forward to

seeing them build their careers in public service.

Rob plans to continue pursuing his degree at the end of his internship, and I have recently hired Monica as a Staff Assistant in my D.C. office. I wish them both the best as they pursue their respective career paths. Mr. Speaker, it is an honor to recognize Rob Austrian and Monica Mosimann for their service the last several months to the people of Colorado's 4th district.

#### HONORING CITY OF REFUGE UCC

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Ms. LEE. Mr. Speaker, I rise today to honor the City of Refuge UCC upon its 25th anniversary for its legacy of promoting community building, inclusion, and faith in the Bay Area.

First established in San Francisco, the City of Refuge was founded in 1991 by a group of primarily gay and lesbian Christians with the goal of establishing a church that did not adhere to the exclusion of people based on gender or sexual orientation. Three years later in 1994, the City of Refuge joined the United Church of Christ (UCC) and became incorporated with over 5,000 churches worldwide working to uphold the denomination's commitment to social justice.

Founder and Senior Pastor Reverend Dr. Yvette A. Flunder has been nationally recognized for her work to promote the inclusion of gay and lesbian parishioners and to minister to their specific needs. In response to the AIDS epidemic, Rev. Dr. Flunder established the Ark of Refuge, a non-profit organization that provided direct services to homeless and low-income individuals, and also created the Hazard-Ashley House and Walker House in Oakland as a means to provide housing services, education, and training for people affected by HIV/AIDS. In 2000, she created the Fellowship of Affirming Ministries, a network of more than 100 primarily African American churches around the world that work to promote "radical inclusivity", whereby the ministry is open to all without prejudice or discrimination.

In 2013 the City of Refuge UCC relocated to Oakland. Through the hard work and dedication of the ministry, staff, and congregation, community members and in particular women, immigrants, and those who identify as LGBTQ, have found a safe space for self-expression, belonging, and religious participation. Through the Church's various ministries, this community provides support for those needing help addressing substance abuse, homelessness, HIV/AIDS treatment, and environmental justice.

On behalf of California's 13th Congressional District, I would like to congratulate the City of Refuge UCC on this important milestone, and thank the community for the many valuable services that they provide to those in need. I wish the congregation continued success in upholding its commitment to social justice and expanding the radical inclusivity that has come to be the City of Refuge's hallmark.

#### RECOGNIZING ROMANIA'S GREAT UNION DAY

**HON. MICHAEL R. TURNER**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. TURNER. Mr. Speaker, as the co-Chairman of the Congressional Romania Caucus and as the former President of the North Atlantic Treaty Organization Parliamentary Assembly, I congratulate Romania on its Great Union Day. Romania is celebrating the anniversary of its unification on December 1, 1918.

Romania is a loyal U.S. and NATO ally. Romania and the United States work closely together to confront a host of global challenges, including through our joint efforts to bolster regional defense, halt nuclear proliferation, and increase energy security. With the signing of the U.S.-Romania Ballistic Missile Defense Agreement in September 2011, Romania established itself as a key strategic partner in NATO's emerging missile defense capabilities effort. The Missile Defense Interceptor site at Deveselu Air Base near the Bulgarian border, which became operational in May 2016, now provides missile defense protection to our allies in Europe and the Middle East.

Tragically, ongoing events in Ukraine are unsettling the region and testing the transatlantic alliance. As you know, Russia seeks to once again destabilize much of Eastern Europe and restore influence over territories lost following the collapse of the Soviet Union. That is why it is critically important for the United States, Romania, and other European allies to continue to work together to strengthen the transatlantic alliance and bolster regional security.

The strategic partnership between the United States and Romania has greatly advanced our common interests in promoting transatlantic and regional security and free market opportunities. Our partnership should continue to foster greater economic and cultural exchanges, trade and investment, and social contacts.

Mr. Speaker, I urge all of my colleagues to join me in celebrating Romania's Great Union Day.

#### PERSONAL EXPLANATION

**HON. MIA B. LOVE**

OF UTAH

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mrs. LOVE. Mr. Speaker, I submit the following remarks regarding my absence from votes which occurred on December 2, 2016. A member of my immediate family experienced a medical crisis out of state, and I traveled to support him. As a result, I missed votes for the day.

MR. ANTHONY XUEREB

**HON. LEE M. ZELDIN**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. ZELDIN. Mr. Speaker, I rise today to pay a special tribute to Mr. Anthony Xuereb.

Anthony was born in Malta, and he had always yearned to come to the United States to make a better life for himself. He came to this country in 1934 during the Great Depression and struggled mightily to survive the terrible economic and social conditions of the time. He sought employment in the Brooklyn Navy Yard and had the pleasure to work on the USS *Misouri*. As he continued working and living in the United States, Anthony applied for U.S. citizenship and became a naturalized citizen in 1943.

During World War II, he applied for military service, but unfortunately he lost most of his hearing in his left ear due to a diving accident he suffered from, and was unable to serve. Anthony still wanted to contribute to the country in whatever way possible, so he volunteered for civilian duty as an Air Raid Warden and served in this position until the end of the war. Air Raid Wardens were vital in ensuring the safety of everyone in the neighborhood and he did not take his role lightly. He returned to Malta in 1948, met the love of his life, and returned to the United States to start their new life together.

Anthony's exemplary life of service was motivated and fueled by his love of God, family, and country. He was a humble man who lived on a modest income and was very proud of his service as an Air Raid Warden. The service these dedicated civilians provided was vital in keeping civilians safe. It is important we acknowledge people like Anthony, who dedicated their services to a nation in need during a time of war. In honor and memory of Anthony Xuereb and all who served, and continue to serve, our great nation, I would like to take this opportunity to recognize his devotion to our country.

#### SUPPORT OF H.R. 4665, THE OUTDOOR RECREATION JOBS AND ECONOMIC IMPACT ACT

**HON. SUZANNE BONAMICI**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Ms. BONAMICI. Mr. Speaker, I rise today in support of H.R. 4665, the Outdoor Recreation Jobs and Economic Impact Act, introduced by my friend from Virginia, Congressman BEYER. I am proud to be a cosponsor of this legislation to highlight the importance of the outdoor recreation economy.

In Oregon, we know how important the outdoor industry is to our economy. Northwest Oregon businesses like Keen, Columbia Sportswear, and Nike have thrived and brought thousands of jobs to our communities. Surveys conducted by the Outdoor Industry Association in 2012 show that, in my home state, the industry contributes 141,000 direct

jobs, \$4.0 billion in wages and salaries, and \$12.8 billion in consumer spending annually. Nationwide, outdoor recreation generates \$646 billion in consumer spending every year.

The climbers, hikers, hunters, and anglers who are passionate about the outdoors spend time and money in hotels, campgrounds, restaurants, and stores in nearby communities, providing an economic boost for local economies. They also purchase necessary attire, gear, and footwear from innovative businesses to help them reach the summit, catch fish, and enjoy our nation's natural treasures.

I am proud to support the Outdoor Recreation Jobs and Economic Impact Act.

**PAYING TRIBUTE TO NATHANIEL JONES ON HIS RETIREMENT**

**HON. SUSAN W. BROOKS**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Ms. BROOKS of Indiana. Mr. Speaker, I rise today to honor an outstanding educator, Superintendent Nathaniel Jones of the Metropolitan School District of Pike Township. Superintendent Jones is retiring after 43 years of exceptional service to students and the community. The people of the Fifth Congressional District of Indiana are forever grateful for Superintendent Jones' contributions and commitment to the students of the Pike Township School District and to our Hoosier community.

Superintendent Jones is an Indianapolis native. He received his formal education from the Indianapolis Public School (IPS) system. After graduating high school Superintendent Jones went to Indiana University where he pursued his interest in education. Upon completion of his B.S. in Elementary Education, he returned to IPS where he taught elementary school as well as adult education classes for five years. He returned to IUPUI to earn his M.S. in Education as well as an Administrative Certificate. In 1978, Superintendent Jones was named Assistant Principal to John Strange Elementary School of the Metropolitan School District of Washington Township, and shortly thereafter in 1980 he was named Principal of Delaware Trail Elementary, at age 27, making him one of the youngest principals in the state of Indiana. He served the Washington Township School system in a variety of positions over 25 years; he served Washington Township as Principal, Director of Elementary Education, and as Assistant Superintendent of Curriculum and Instruction. His leadership proved truly transformational as every school he led as Principal attained state and national recognition for academic achievement. In 1982, he earned his Education Specialist Degree in School Administration from Indiana University, Bloomington and in 1994 his Superintendent Certification. In 2003, he became the first African American to accept the role of Superintendent for the Metropolitan School District of Pike Township and the first African American IPS graduate to be a Superintendent in the state of Indiana.

Superintendent Jones has been instrumental in creating positive change in each of the school systems he has served. Pike High

School in particular has made monumental strides under Superintendent Jones' leadership. Pike High School has one of the most successful pre-collegiate programs in Indiana with over 85 percent of students attending post-secondary institutions upon graduating from high school and has a graduation rate of over 91 percent. In 2005, the Standard & Poor's ratings recognized Pike High School for significantly narrowing the Black-white and Hispanic-white achievement gaps. During Superintendent Jones' tenure the number of scholarships and grants received by Pike students has grown tremendously. Pike High School boasts the highest number of Gates Scholars in Indiana. Superintendent Jones also implemented the STEM Center and spearheaded major construction and renovation of many facilities, and earned over \$75 million in Federal Competitive Grants from 2005 through 2015. Superintendent Jones' tireless efforts to seek educational grants and funding opportunities helped in part to create the Youth CareerConnect program. This program offers work-based learning opportunities that teaches students marketable and useful STEM skills empowering students in future learning as well as career opportunities. Through the collaboration of Superintendent Jones' visionary leadership, the help of a supportive board, dedicated administrators, extraordinary teachers, and engaged parents, Pike Township schools have become a more positive learning environment where student achievement continues to soar.

Throughout his career Superintendent Jones has received numerous awards that recognize the accomplishments and contributions he has made to education in our community. From Indiana University he received two "Distinguished Alumni Awards". In 1996, he earned the Milken Award, which aims to grant funds to accomplished mid-career educators. He received the Achiever Award from the Center for Leadership, is a recipient of a Sagamore of the Wabash Award, has received a Congressional Salute, and he received two District of Distinction awards. He was selected as one of the 100 top administrators in North America by the "Executive Educator" and has received over 60 local, state, and national awards for his leadership and innovative approach to educating students, teachers, and the community. His award winning work is well regarded not only from these institutions but from his peers and fellow educators. He has been invited to conduct and participate in numerous conferences throughout the United States. In addition, he is a lifetime member of the NAACP and in 2011 he was featured in the "Education Executive Publication" as a Trendsetter, and in a Who's Who in "Black Indianapolis".

Superintendent Jones continues to serve the community through his roles on numerous boards. He currently sits on the Board of Directors for American Heart Association, he was the Chair for National Council on Educating Black Children Conference in 2015, and he was the Board Chairman for Conner Prairie in 2011. In 2008, he served on the Indianapolis Marion-County Public Library Board of Directors and the Teachers' Treasures Board of Directors. He was the coordinator for the Lilly Initiative supported by the Lilly Endowment in

2000 through 2003. He was on the State Advisory Committee on Textbook Adoption in 2001 through 2003.

I am proud to thank Superintendent Jones for his service in helping the students of Pike Township graduate from high school with the essential skills necessary to be confident, creative, productive, and prosperous in college, careers, and life. He has always put the needs of students first throughout his educational career and truly enriched the lives of so many. He takes great pride in addressing the individual needs of the children he serves. Superintendent Jones never overlooked the fact that his students come to him from a variety of backgrounds, possessing individual gifts, talents, challenges and dreams. On behalf of all Hoosiers and the nation, I'd like to congratulate Superintendent Nathaniel Jones on his success and wish him, his wife Cynthia, two children, and their families all the best as Superintendent Jones enjoys a well-deserved retirement.

**PERSONAL EXPLANATION**

**HON. JAMES B. RENACCI**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. RENACCI. Mr. Speaker, had I been present, I would have voted: YEA on Roll Call No. 594, YEA on Roll Call No. 595, YEA on Roll Call No. 596, YEA on Roll Call No. 597, and NAY on Roll Call No. 598.

**HONORING MR. DOUG SIDEN**

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Ms. LEE. Mr. Speaker, today I rise to honor the invaluable service to our community from the leadership of Mr. Doug Siden, and to congratulate him on his retirement from the East Bay Park District Board of Directors.

Mr. Siden has served for the past 24 years on the East Bay Regional Park District (EBRPD) Board. During his tenure, Mr. Siden recognized the importance that the East Bay Parks play in the lives of so many local residents, and has worked tirelessly to provide access and an enjoyable experience for visitors to all of the District's 66 locations.

As an EBRPD Board member, he worked diligently to help EBRPD pass Measures CC and WW to support and expand the system. At \$500 million, Measure WW was the largest bond measure ever awarded to a local district to acquire and develop new parks, and it helped the Park District meet the increasing demand to preserve open space for recreation and wildlife habitat.

Mr. Siden served for many years on the East Bay Economic Development Alliance's Executive Board, was a founding member and served as a chairperson of the Martin Luther King Freedom Center in Oakland, and led the fight to establish the Alameda County Creek and Watershed Symposium. Additionally, during his career he has served on the advisory

committees of the Golden Gate National Recreation Area and Pt. Reyes National Seashore.

Mr. Siden is also a longtime Rotarian and has served as a Baptist minister for over six decades. He directed a youth camp for Baptist Churches of the West for 20 years, and led the effort to establish year-round camps in Santa Cruz and near Lake Tahoe. He holds an honorary Doctorate of Humane Letters from the American Baptist Seminary of the West for his leadership.

On a personal note, Doug has been a longtime friend and partner in the East Bay, and I greatly appreciate his leadership and counsel. I wish him well on this new chapter of his life.

On behalf of the residents of California's 13th Congressional District, I congratulate Mr. Doug Siden on a well-deserved retirement. We honor his tireless support of open space, parks, and healthy recreation, and also for his vision of a more ideal world in which all can enjoy and benefit from these natural treasures.

#### BEST OF LUCK TO TEXAS 02'S FOOTBALL TEAMS AT STATE SEMI-FINALS

#### HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. POE of Texas. Mr. Speaker, sweet tea, BBQ, and football—these are just some of the things Texans love dearly. From high school football to college football, Texans will come out to every game no matter what the temperature and weather are. Our commitment to our football teams is so strong that preachers will find a way to mention the local team in their sermons and make sure you get home just in time to watch the game with friends and family.

Football is a very special part of the culture in Texas. From the stadiums to the food to the different student clubs that gather in the stadiums, football games unite Texans. The bands, the drill teams, the cheerleading teams, the students that form it all—they are an extraordinary group that make the culture and character of Texas so unique in the United States. More than just uniting families and friends, football allows our community to share in the joy of victory and the sadness of temporary defeat; it teaches our children to keep working hard for their goals both individually and with their teammates.

Although professional and college football receive the most national attention, high school football is just as important in Texas. I still remember going to my son's football games, from his start at pee-wee leagues to his career playing for my alma mater, Abilene Christian University. Those memories make me even more proud to say that two high schools in my district have met their goals and broken records this season.

Atascocita High School is fighting for a chance to compete in the state championship. Last year they had a record-setting playoff run, reaching the Region II-6A Division I final. This year, they raised the bar even higher.

With the outstanding sportsmanship of their players, the football team of Atascocita High School has exceeded expectations. I know how proud the players, their parents, and their school must be. Ranking at Number 18 in the state, the Eagles have some of the most promising players on their team.

Quarterback Daveon Boyd, now a senior, has received four awards throughout his high school football career. He has surpassed the national average in number of yards, yards per game, touchdown passes, completion percentage, attempts, and interceptions. This season alone, he's had a 63 percent pass rate for 4,139 yards and 46 touchdowns.

But Boyd is not the only outstanding player in Atascocita High School. Samuel Cosmi, the offensive tackle, is a University of Houston pledge. Defensive tackles De'Marius Brooks and Kendrix Burford, along with defensive backs Justin Campbell, Alerick Soularie, and Travian Blaylock give the Eagles an edge in size and speed.

Another high school in my district, Klein Collins, won its first regional semi-finals at Baylor's McLane Stadium in the Division II Region II-6A playoffs. While all the players have done outstanding work, senior running back D'Anthony Doyle rushed 167 yards and got a couple of touchdowns, making him the hardest working player that game. His teammate, Josh Powell, also earned the team two more scores. At the end of the game, the team's hard work left the team with a 54-16 victory over John Tyler. As a proud dad who beamed in the stands watching his son play, I know how thrilled their parents will be watching them play against Spring Westfield on December 2.

I am incredibly proud of the students of the Atascocita and Klein Collins High School football teams for their successes this season. It is great to see students in my district represent us so well with their hard work and talent. I look forward to their upcoming games and seeing them succeed and exceed expectations for years to come. Best of luck at State Semi-Finals.

And that's just the way it is.

#### GEORGIA DAY OF CODE

#### HON. BARRY LOUDERMILK

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. LOUDERMILK. Mr. Speaker, computer technology dominates our ever-evolving world. As we continue moving towards a society dependent on communicating through our technical devices, the need for qualified people in the STEM fields is rapidly growing.

Offering the opportunity for Georgia students to delve into computer programming will enhance industries across Georgia, our country, and the globe. Harnessing these skills benefits future generations, and will help build strong twenty-first century economies.

Georgia's Day of Code, during Computer Science Education week, is a great way to place coding in the public eye. We must continue to promote this important vocation, and engage in our communities to advance technology development.

The need for those in the technology field is vast and, in Georgia alone, employers post hundreds of IT-related jobs every day, which shows how promising the future is for professionals entering this field. Georgia's Day of Code encourages educators, parents, and policy makers to promote STEM-focused careers to students across the state. We must continue to advance and innovate in the technology sector, and what better way to do that than to invest in our next generation.

#### COMMEMORATING THE LIFE OF RAMONA NEILL

#### HON. MICHAEL K. SIMPSON

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. SIMPSON. Mr. Speaker, Ramona (Johnnie) North Neill of Blackfoot, Idaho passed away at the age of 88 on December 4, 2016 at the Gables of Blackfoot Assisted Living and Memory Center. Mona was born September 6, 1928 and raised in Kirksville, Missouri to Oscar and Zelma Jewell North. She lived there until the age of six when the family moved to Blackfoot, and attended grade school, junior high, followed by graduating from high school in 1946.

In December 1949 she met the love of her life: James (Jimmy) K. Neill who was an Employee of Idaho Power Company and was part of the Mobile Line Crew that was upgrading the Electrical Power Grid in Blackfoot. Their relationship quickly blossomed and they were married on May 26, 1950 in Winnemucca, Nevada. From there, Jim and Mona lived primarily in Boise, Idaho until they moved permanently to Blackfoot, Idaho in the summer of 1956 where she lived at the family home on Riverton Road up to the time that her health forced her to move last year.

Mona enjoyed outdoors trips with her husband and children, attending every scout, school, sports activity of her sons and the grandchildren residing in Blackfoot as well as visiting or following the adventures of her two grandchildren in Washington state.

Mona is survived by her sons: David K. Neill (Marie Carter, deceased), Blackfoot, Kim O. Neill (Christi Ann), Bainbridge Island, Washington, and James Todd Neill (Melody Renee), Scottsdale, Arizona, her four grandchildren: Cassandra Lynnette Neill, San Diego, California, Thomas K. Neill (Laura), Boise, Idaho, James K. Neill (Emily), Washington, D.C. and Andrew Albert Neill, Washington, D.C.

She will be laid to rest at Dry Creek Cemetery in Boise, Idaho where she will be next to her late husband James K. Neill.

#### MASTER SERGEANT MICHAEL THOMAS DONOHUE

#### HON. LEE M. ZELDIN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. ZELDIN. Mr. Speaker, I rise today to pay special tribute to Master Sergeant Michael

Thomas Donohue, in appreciation of his 30 years of meritorious service in the United States Army, Navy, Navy Reserve, and New York Army National Guard.

Throughout his military career, Master Sergeant Donohue has served with honor and distinction in numerous positions, from Aircraft Handler and Tank Mechanic, to Intelligence Analyst and Operations NCOIC, culminating with his service as a Senior Maintenance Supervisor for the 42nd CAB. His unwavering dedication to duty and unparalleled professionalism has consistently earned the respect of subordinates, peers, and superiors alike.

An innovative and relentless troubleshooter, his vast technical knowledge greatly aided in his Brigade's success while deployed in support of Operation Iraqi Freedom 08–09. His experience, gained from serving in two combat deployments in support of Operation Iraqi Freedom and Operation Enduring Freedom, proved invaluable as he mentored junior non-commissioned officers and officers on a wide spectrum of operational and technical topics, increasing their readiness for deployment and ultimately, unit effectiveness. His long and illustrious career has been marked by humility and service, and reflects great credit upon himself, the New York Army National Guard, United States Army, and United States Navy.

MSG Donohue's deployments include Operation El Dorado Canyon (USN, 1986), Operation Ernest Will (USN, 1988), multiple natural disasters (1997–2012), Counter Drug operations (1998–2001), World Trade Center (2001), OIF (2008–2009), and OEF (2012–2013). He provided mentorship and leadership and skillfully groomed the next generation of leaders, which resulted in the Soldier and NCO Warrior of the Year competitions for the Aviation Brigade in 2009, 2010, and 2011 and New York State Soldier of the Year in 2011. His faithfulness through these times was and is a testimony for others to follow, and I would like to take this opportunity to recognize his devotion to our country.

THE THIN BLUE LINE: OFFICER  
REGINALD GUTIERREZ

**HON. TED POE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. POE of Texas. Mr. Speaker, our men and women in blue are the best we have. They are the thin blue line between good and evil. Each day these men and women head out into the field not knowing what they will face, not knowing if their day will be filled with routine traffic stops, or extreme dangers. Our peace officers face the unknown and stand up for the rest of us.

Reginald "Jake" Gutierrez was one of these men. Gutierrez was responding to a domestic violence call in Tacoma, Washington after a woman approached animal control officers claiming her husband had locked her out of the house and taken her cell phone. Gutierrez and his partner entered the home. Shots rang out as he proceeded up the stairs to speak with the suspect. Two young children were held hostage inside the house, being used as

human shields. His partner returned fire, taking the wife to safety. Gutierrez was shot multiple times, his life taken away by a vicious criminal.

Gutierrez gave his life to protect the young and innocent. As a veteran of the Department since 1999, 45-year-old Gutierrez was a model police officer. Each day he got up, put on the uniform and badge and dedicated himself to his profession and community. He is now the 132nd officer to die in the line of duty this year alone. At least eight of these deaths occurred while responding to reports of domestic disturbance and violence.

Hundreds of individuals came to honor Gutierrez as he made his way from the hospital to the medical examiner's office. The hospital was surrounded by fellow officers standing in support of their fallen brother. The King County Sheriff's Department ordered all Deputies to wear mourning bands in honor of the fallen peace officer.

The needless murder of our officers is absolutely unacceptable. These men and women work tirelessly, day in and day out trying to make a difference. It is time to put an end to the needless murder of our peace officers. Congress must stand up for those who work to protect the rest of us. The men and women behind the badge are some of America's best.

Officer Reginald "Jake" Gutierrez's life may be gone, but his memory serves as a reminder of all those who gave their lives for the thin blue line.

And that's just the way it is.

COMMEMORATING WORLD AIDS  
DAY 2016

**HON. SHEILA JACKSON LEE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Ms. JACKSON LEE. Mr. Speaker, World AIDS Day affords us an opportunity to reflect on our progress in the fight against the global AIDS pandemic and to rededicate ourselves to ending the disease once and for all.

We have come a long way since the first World AIDS Day in 1988 by dramatically expanding investments in HIV/AIDS prevention, care, treatment, and research.

Strong advocacy has paved the way for the Ryan White Act, the Housing Opportunities for People with AIDS Initiative, growing investments in NIH research, and an end to the ban on federal funds for syringe exchange.

Beyond our borders, our efforts have extended care to millions in the developing world, through increased resources for PEPFAR and the Global Fund.

Our investments have saved lives—preventing millions of new HIV cases, expanding access to improved treatments, and enabling medical advances that help HIV/AIDS patients live longer and healthier.

Here and across the globe, AIDS deaths are on the decline, and studies are pointing the way to new approaches to limit the spread of the disease, with treatment as prevention.

While our efforts have grown, we still only reach half of all people eligible for HIV treatment; and more must be done.

Working together, we must continue to strengthen—not weaken—our national and international efforts to combat AIDS and other infectious diseases.

We must work to achieve the Obama Administration's goal of an AIDS-free generation.

We must honor the memory of those we have lost and act on our hope, optimism, and determination to end the HIV/AIDS pandemic.

We must continue to work with programs and clinics, like the Harris County Hospital District (HCHD), who are treating and caring for patients with HIV/AIDS.

In 1989, HCHD opened Thomas Street Health Center, the first free-standing facility dedicated to outpatient HIV/AIDS care in the nation. The center has become the cornerstone of all HIV/AIDS care available to Harris County residents.

The Thomas Street Health Center has dedicated their services to about 25 percent of Harris County's HIV/AIDS.

Annually, the health center, along with HCHD, serves 4,463 unique patients for about 37,000 patients' visits.

We will continue to fight a tough fight against HIV and AIDS.

We will continue to strengthen and support centers like Thomas Street Health Center that work diligently with HIV/AIDS patients.

Our focus on HIV/AIDS prevention and awareness will be to ensure all of our friends, relatives and children live healthy and full lives.

There is a pressing need to raise awareness and engage in education within the African American community where HIV infections have been and continue to rise.

The incidence of HIV has decreased for the majority population, while it has grown nearly unchecked among African Americans.

This must change—decisions regarding funding for agencies charged with infectious disease education and minority health must be supported.

PERSONAL EXPLANATION

**HON. JAMES B. RENACCI**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. RENACCI. Mr. Speaker, had I been present, I would have voted: YEA on Roll Call No. 599.

IN HONOR OF BEAUREGARD WINNING AHSAA CLASS 5A HIGH SCHOOL FOOTBALL TITLE

**HON. MIKE ROGERS**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. ROGERS of Alabama. Mr. Speaker, I ask for the House's attention today to recognize Beauregard High School for winning their first ever Alabama High School Athletic Association (AHSAA) Class 5A football state title.

The Hornets sealed their victory by beating Wenonah 33–13 on December 1st at Jordan-Hare Stadium in Auburn.

Not only was this Beauregard's first state title, but also Lee County's first ever state champion!

Mr. Speaker, please join me in congratulating the students and faculty of Beauregard High School, Coach Braun, the players and all the Hornets fans on this exciting achievement. Go Hornets!

HONORING THE LIFE OF  
KATHLEEN O'DAY

HON. JAMES P. McGOVERN

OF MASSACHUSETTS  
IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. McGOVERN. Mr. Speaker, I rise today to honor the extraordinary life of Kathleen O'Day.

Kathleen passed away on November 28, leaving three brothers, nieces, nephews, cousins and many dear friends. She resided in Arlington, Virginia, but was born and raised in my hometown of Worcester, Massachusetts. Her loved ones gathered in Worcester today to honor her life and pay tribute to a truly remarkable woman.

Kathleen had a distinguished legal career. After graduating from Assumption College and Boston College School of Law with honors, Kathleen began working in the legal division of the Board of Governors of the Federal Reserve System in 1978. She served in the Board's legal division for decades and became a well-known expert in international banking and trade negotiations.

Those who knew her best will miss her warmth, wit, and generosity. Scott Alvarez, the Fed's General Counsel, remarked, "Kathleen was a dedicated employee, serving nearly 40 years in the Board's Legal Division. She was a kind, brilliant, generous, witty, and wonderfully warm friend to all of us, and we will all miss her tremendously."

Mr. Speaker, Kathleen touched the lives of so many around her, and had a profound impact on all of us through her work with the Federal Reserve.

I deeply admire Kathleen's life-long commitment to public service, and extend my deepest sympathies to the family and friends she leaves behind. We will all miss her.

Mr. Speaker, I ask my colleagues to join me today in honoring Kathleen O'Day, and recognizing the important contributions she has made to our country.

IN HONOR OF PIEDMONT WINNING  
AHSAA CLASS 3A HIGH SCHOOL  
FOOTBALL TITLE

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. ROGERS of Alabama. Mr. Speaker, I ask for the House's attention today to recognize Piedmont High School for winning the Alabama High School Athletic Association (AHSAA) Class 3A football state title for the second year in a row.

The Bulldogs sealed their victory by beating Mobile Christian 22-12 on December 1st at Jordan-Hare Stadium in Auburn, Alabama.

Mr. Speaker, please join me in congratulating the students and faculty of Piedmont High School, Coach Steve Smith, the players and all the Bulldogs fans on this exciting achievement for the second year in a row. Go Bulldogs!

PERSONAL EXPLANATION

HON. BILL FLORES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. FLORES. Mr. Speaker, I rise to state that I was not able to be on the House floor for roll call vote 600—Adoption of the Conference Report to Accompany S. 2943—National Defense Authorization Act for Fiscal Year 2017 taken on December 2, 2016. Had I been present for this vote, I would have voted aye.

Congress has a duty to ensure our military has every resource necessary to fight and defeat the threats that exist in the world today. The National Defense Authorization Act provides America's uniformed men and women with the tools and support they need and deserve. It gives our troops a much needed pay raise and ensures that promises made to them are kept. This strong defense bill will strengthen our national security and help bring our military into the 21st century.

As I close, I ask everyone to continue praying for our country, and for our military and first responders who selflessly serve and sacrifice to protect us.

IN HONOR OF THE ORIGINAL  
CALDWELL GOSPEL SINGERS OF  
SEALE, ALABAMA

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. ROGERS of Alabama. Mr. Speaker, I ask for the House's attention today to recognize the Original Gospel Singers of Seale, Alabama.

For over 40 years, this family has been spreading the gospel through their musical talents. What started as a duet in 1965, grew to be on television for their first debut on the "Home with Rozell Show" on WRBL in 1969.

The group has traveled to several states and participated in many benefit programs to give back to their community. In 2014, the Russell County Commission dedicated a portion of roadway from Highway 169 South to Uchee Road as the "Original Caldwell Gospel Singers" Road.

Mr. Speaker, please join me in recognizing four decades of music by this special group.

RECOGNIZING MARS, INCORPORATED AND THE 40TH ANNIVERSARY OF ITS WACO, TEXAS PRODUCTION FACILITY

HON. BILL FLORES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 5, 2016*

Mr. FLORES. Mr. Speaker, I rise today to recognize Mars, Incorporated and the 40th Anniversary of its Waco, Texas production facility.

As a family-owned business since its founding in 1911, Mars has been a leading example of corporate responsibility practices that benefit the communities in which it operates. Guided by five core principles—Quality, Responsibility, Mutuality, Efficiency, and Freedom—Mars has had a positive social and economic impact on many communities within the Seventeenth Congressional District of Texas.

Since 1976, when Mars opened the doors of its facility in Waco the company has provided sustainable economic growth for our community. As such, the Waco facility currently employs over 550 full time associates, providing reliable jobs for many citizens in the District. The facility is responsible for producing both Mars Chocolate and Wrigley products, including Snickers, Skittles Candies, and Starburst Fruit Chews. In October, Mars announced its intent to combine its Chocolate and Wrigley segments to create Mars Wrigley Confectionery, which will help the company continue to deliver value to customers around the world.

In addition to its commitment to producing high quality products for its consumers, the Waco facility has sought to create an environment that is mutually beneficial to the local community. For example, the Waco facility promotes sustainability and environmental efficiency through the use of a Wetlands Wastewater Treatment Facility, saving three to five million gallons of water each year. The facility also uses locally sourced peanuts in its Snickers bars, and it sponsors the annual Waco Wild West Century Bike Tour to raise money for the American Red Cross. In recognition of its outstanding commitment to diversity and unity in the workplace, the Waco facility recently received the Model of Unity Award from the Community Race Relations Coalition.

On behalf of the Seventeenth Congressional District and the State of Texas, I am pleased to celebrate this important milestone with Mars' Waco facility, and I thank Mars for its continued dedication to our community.

As I close, I ask everyone to continue praying for our country, and for our military and first responders who selflessly serve and sacrifice to protect us.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees

to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, December 6, 2016 may be found in the Daily Digest of today's RECORD.

## MEETINGS SCHEDULED

## DECEMBER 7

10 a.m.

Committee on the Judiciary  
Subcommittee on Antitrust, Competition Policy and Consumer Rights  
To hold hearings to examine the competitive impact of the AT&T-Time Warner transaction.

SD-226

2 p.m.

Commission on Security and Cooperation in Europe  
To receive a briefing on Baltic security after the Warsaw NATO summit.

CHOB-340

2:15 p.m.

Committee on Indian Affairs  
To hold an oversight hearing to examine the Department of the Interior's Land Buy-Back Program for Tribal Nations, four years later.
